

Mrs. Miner Crawford Dies Very Suddenly

PFC. JOHN B. MERCER in his letters to his parents tell of his life in Africa.

I am sure the news reports of the North African Campaign were welcomed by all in the States.

On our return trip, I went on pass to two of the major cities and with the two I had visited before joining the Co. "B" boys, it just about takes care of the better places in Africa.

You can bet I have had my part of the oranges, lemons, tangerines, dates, figs and wine since coming here.

News as usual is something that I can't write. That doesn't really matter for I wouldn't write it anyway.

I want to send my watch and Purple Heart Medal soon. The watch couldn't take the rough treatment but it isn't damaged beyond repair.

McBeth and I are still together. You probably remember me writing of him from the time we left Fort Bliss to gether.

Buy another bond with this last money order and we'll feed it back to the boys in small pieces.

You shouldn't be too anxious for a furlough because they seem a long way off to me. We have a big job to do yet and until it is finished we are ready to keep going.

CARLTON GARDNER, of the Army came in Tuesday evening to visit his parents.

PAUL NEESE, of the army came the first of the week to visit his parents Mr. and Mrs. J. T. Neese.

Hail Destroys V-Gardens

A heavy hail and wind storm struck in Silverton Monday afternoon and drove every Victory Garden right back into the seed envelopes.

Folks in Silverton had a just right to be proud of their gardens this year — nearly every garden and side yard had been turned to production of foodstuffs.

The fact that the hail storm confined itself just to the City Limits, that the damage was chiefly to gardens, has aroused considerable speculation.

Investigation is continuing, and information will be given as soon as possible as to the long-time effect upon the war.

Meanwhile, folks are replanting their gardens.

VICTORY GARDEN

Mrs. J. E. Vaughan is 91 years old, but she has her own Victory Garden, planted it and takes care of it herself.

Her garden is planted in the corner of a field, with the rows, running crossways, which she says makes the V for Victory.

Mr. Earl Lane is manager of the Farmers Grain Elevator at Whitley Switch. He was the manager there last year and again this year.

MISS ALLARD HONORED THURSDAY

Complimenting Miss Jonnie Allard on the day preceding her wedding Mrs. A. L. McMurtry and Mrs. Clyde Wright entertained at Mrs. Wright's home with a shower-tea and musicale.

The house and lawn were festive with baskets, bowls and pots of flowers and plants. But the flowers were not as charming as the ladies of the house-party in formal bouffant gowns and the guests in summer attire.

In the garden party were Mrs. McMurtry, Miss Allard, her mother, Mrs. Roy Allard; the groom's sister-in-law Mrs. Lem Weaver; and the grandmothers, Mrs. John Kendrick and Mrs. W. Allard.

The dining table was lace-covered and centered with a miniature chariot full of white and blue flowers, and flanked by lighted white candles in crystal candelabra.

Miss Willet Malone ushered the visitors to the Book of Recipes where each wrote a recipe or a prescription for happy marriage.

Survivors include these three children; two grandchildren, Betty and Don Burson; three brothers, J. W. Perkins of Abilene; H. C. Perkins of San Antonio; and W. D. Perkins of Lamesa, and many other relatives and friends.

Funeral services were held at the Presbyterian Church in Silverton Monday, June 14, conducted by the Rev. Marvin Brotherton of Quitaque.

The house-party was served by the hostesses and kodak pictures of the group were made on the lawn. Everyone expressed felicitations to the bride for her future.

We wish to express our thanks for the many expressions of sympathy and the beautiful floral offerings in the death of our beloved sister, Mrs. Carl Daniel.

Harvest Getting Under Way Earlier Than Expected

MEETING TO EXPLAIN PROCEDURE IN SECURING TOOLS

Full explanation of the procedure to be followed in securing for farmers and ranchmen the necessary and essential tools and other supplies needed for their operations, under new War Production Board orders which became effective June 7, will be given at a public meeting in Lubbock, Tuesday, June 22, at 2 P. M. at the Hilton Hotel Ballroom.

Since most of the detail connected with the actual securing and selling the items to the agricultural producers will be handled by retail hardware merchants, the meeting, and the information it will develop will be of particular interest to such dealers — and all of them, in all of the towns on the South Plains, are urged to attend.

Norvell W. Harris, Priorities Analyst for the El Paso District WPB office, and other representatives of that department, will be present and give the interpretations and instructions on the requirements for merchants getting stocks of tools and other items as needed by their customers for farm and ranch work.

Under the new WPB order filling of the "red tape and form filling out" required heretofore, on the part of the retailer—if he tried to get a priority rating which would possibly allow him to buy tools to sell—has been eliminated.

In addition WPB has issued a special directive to certain manufacturers, instructing them to produce sufficient quantities of the 144 different items covered by the new regulations, to assure that an adequate supply will be made available just as soon as possible to wholesalers, who will in turn sell those tools and other articles to the retailers when they extend to the wholesalers simple certifications signed by their farmer customers.

The shortage of tools available to sell to farmers in the area, has been extremely critical the last ninety days. The matter was called to the attention of the Lubbock Chamber of Commerce in March. The organization immediately petitioned WPB for relief. Several detailed briefs were prepared and presented to Federal officials all the way to Washington. Other organization and many individual merchants joined the campaign.

In order to make available complete information on the new arrangement the Lubbock Chamber has arranged for the meeting in this city on June 22 where the WPB executives will be glad to answer all questions and explain the entire program.

Mr. and Mrs. Charles K. Herndon were in Amarillo Tuesday.

Mrs. Lem Weaver left Tuesday afternoon for Quannah to visit her parents for a week.

Lovely refreshments were served to Mesdames, J. W. Lyon Jr., Arnold Brown, Roy Hahn, Dutch Tidwell, T. T. Crass, Johnny Lanham and Ware Fogerson.

Sue Gardner of Amarillo and Douglass Gardner. Mrs. Odell Mulliger of Alburque, N. M. visited their parents last week.

Mr. and Mrs. J. C. Jonnighan were in Amarillo Saturday afternoon.

Mr. and Mrs. Maurice Foust of Lubbock spent the week end here with his parents. Mrs. Joe McWilliams returned to Lubbock with them to visit relatives for several days.

B. D. Tindall, as in many times in the past, harvested the first 1943 wheat. He pulled into the field Tuesday, June 8 and cut a load. It was a little too damp and was allowed to ripen for several days. His first load was delivered to Nig Reid at the Fogerson Elevators June 11, and he has been hauling steadily ever since. His wheat is testing 62 and is yielding nearly 20 bushels of the acre.

Bud McMinn, first hauler to the Silverton, also hauled his first load to the elevator July 11. His wheat is testing 61 and making around 20 bushels. A. H. Chappell is one of the early harvesters too, with wheat of good test, and dry moisture, making nearly 20 bushels to the acre.

Frank Mercer hauled the first load to the Farmers Grain June 11. His test is 62, but he did not say what the field was making. Willie West was the first hauler to the Farmers Grain at Whitley, with a test of 62 and a yield of 25.

Harvest is getting under way much faster than ordinary this year, and with more farmers opening their fields each day, harvest will be in full swing by the middle or last of next week. Those that have started are reporting better yields than was expected and the test could not be beaten. Elevators are insisting on perfectly dry wheat this year which accounts for a part of the high test.

It seems that there will be plenty of storage for wheat in this vicinity, as most of the government loan wheat of last year is being moved this week. All the elevators have been put in top shape, and in spite of the farm labor situation the 1943 wheat harvest promises to go off more smoothly than ever before. A few fields were damaged by hail the first of the week, but the percentage of loss and the spread of the storm was small. It is estimated that over half million bushels will be hauled to elevators here and at Whitley Switch.

IN MEMORY OF FATHER

By W. W. Martin
A poem in memory of Carl Vaughan written for and dedicated to his three small children

The night is cool, the moon is shining bright;
From far away we see a beacon light—
It fadeth not but glimmers, oh, so sad;
We love the light—a memory of our Dad.

A silent voice and footsteps heard no more,
An echo from a far-off distant shore;
An echo sweet, it often makes us glad—
In childish dreams, we hear again our Dad.

The carnal form will speak to us no more,
But we will see him on the other shore.
In childish faith we talk to him each day.
We think he hears whatever words we say.

We are so sad, we don't know what to do,

But we will live like Daddy taught us to;
The Summertime is fading into Fall—
Was that a sound? A footstep in the hall?

A fleeting dream across the silent ground;
A fancy, for there was not any sound.
The breath of night will lull us off to sleep—
Lest troubled hearts will start our eyes to weep.
The Word of God will comfort us

through life;
Will shield us from a world of sin and strife.
The Holy Ghost, the Father, and the Son
Have taught "thy will, not ours, O, Lord be done.

And when our God shall call for Daddy's "three"
To sail across a smiling silver sea,
To walk this world of sin and strife no more;
The Cross of Christ we'll see on yonder shore.

Co-Operative Handling Of Your Wheat Will Make You Money

We want to remind you again that we are operating as a co-operative elevator—a farmer-controlled concern. There are many advantages in a co-op but right now, the chief one is that we can net you more money on the wheat you haul us.

We have again been designated as a lending agency of Commodity Credit Corporation. We handle government loans on wheat stored on your farm or in this elevator, and your check is written right here in our office. There's less red tape — and less delay.

Investigate Us

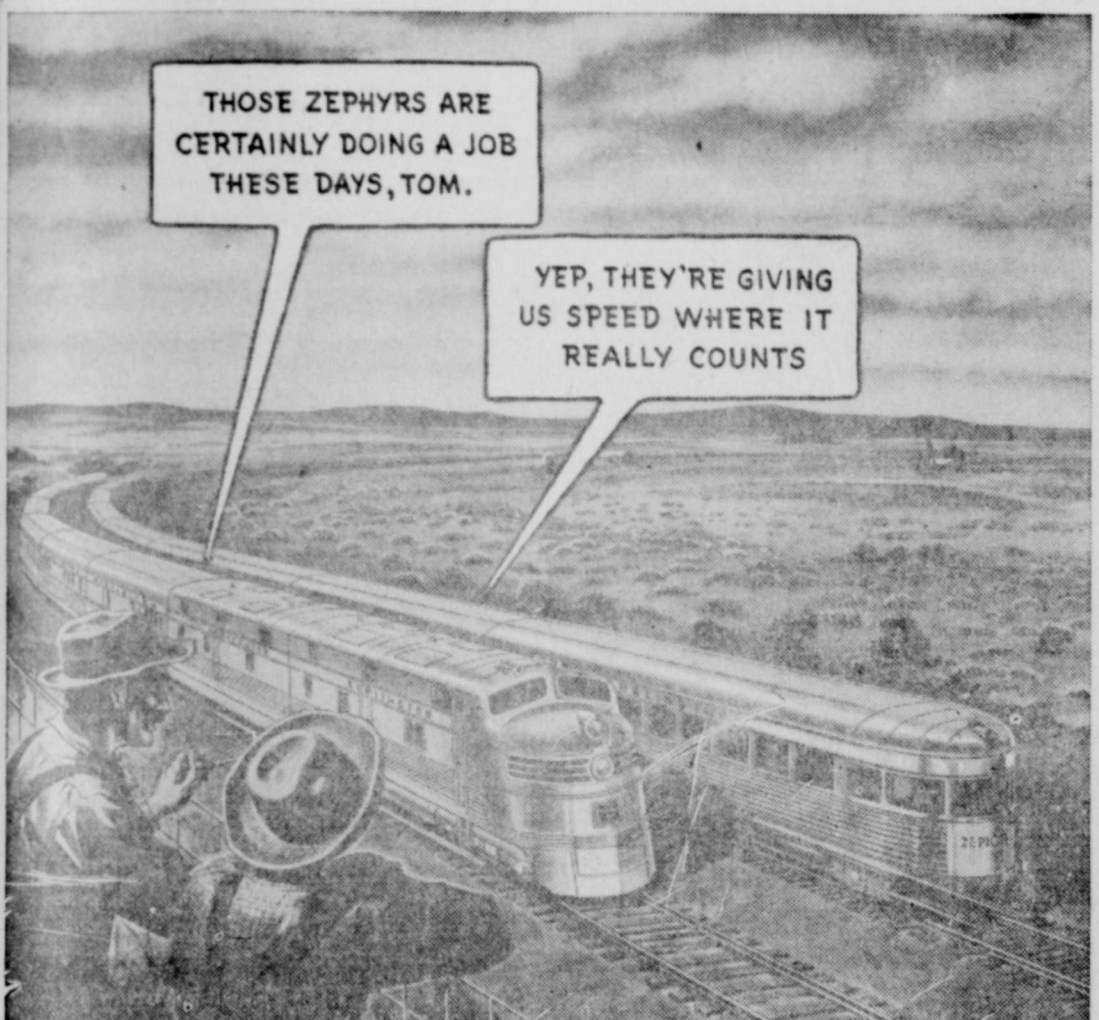

We urge that you investigate this farmers' co-op. Join in with your neighbors by becoming a member. We paid a 2-cent patronage dividend on wheat handled in 1940, 1941, and 1942 — We believe we can net you more money on your wheat!

THOSE ZEPHYRS ARE CERTAINLY DOING A JOB THESE DAYS, TOM.

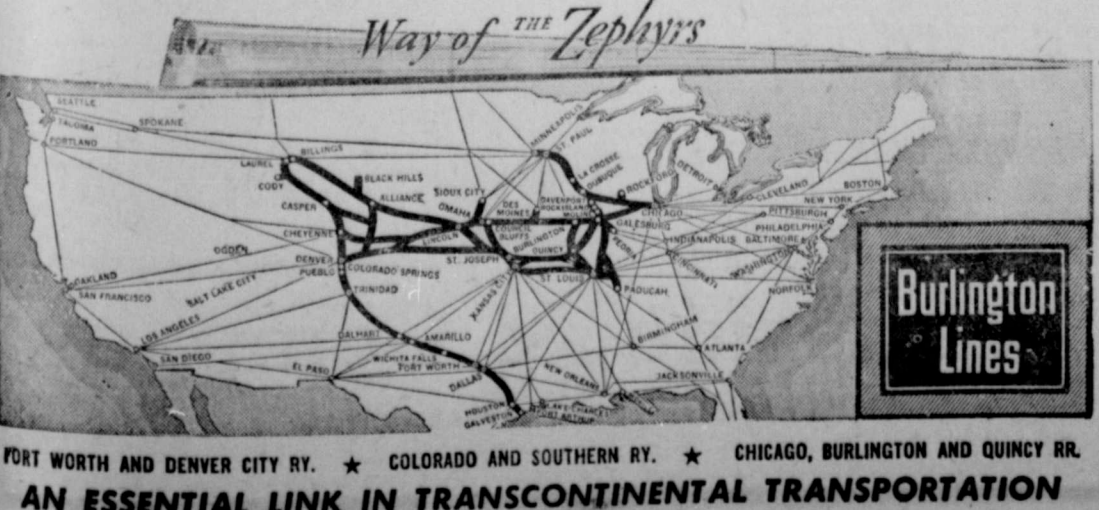

YEP, THEY'RE GIVING US SPEED WHERE IT REALLY COUNTS

Bill—Take those two Zephyrs right there, for example. Both of them make a trip of 835 miles every day.
Tom—That's between Dallas, Fort Worth and Denver isn't it?
Bill—Yep. They make that trip every day, and that means more than 25,000 miles a month for each one of them.

Tom—That really means something when Uncle Sam's got so many men to keep moving.
Bill—Means a lot in handling important civilian travel, too.
Tom—I understand the Burlington's got a lot of Zephyrs running around the country. I'll bet they're all plenty busy, these days.

★ ★ ★
YOU'RE RIGHT, TOM—every one of our 14 diesel-powered Zephyrs is dedicated to one objective—to handle as much vital traffic as possible, as FAST as possible. That goes for Burlington Lines' entire fleet of steam-powered trains, too—both passenger and freight. More than 35,000 Burlington workers are dedicated to the same cause.
