NEWS FROM THE MUSIC STUDIOS

So many nice entertainments are being planned by the music department of the Silverton High School that we are anxious for the public to know about them.

Sunday November 7th the musical Arts Club will compose the choir at the Vesper services of the Methodist church. This service to begin at 5:00 o'clock.

Those who have saleable rummage and are willing to donate it to the girls are requested to bring it to the Music Studio of Mrs. Wilkerson or leave it at her home on Main Street.

The next important date on their calendar is their appearance on the Thanksgiving recital to be given by the students of Mrs. Wilkerson on November 23rd in the High School Auditorium.

A Christmas Cantata has been ordered and work on this pleasing number will begin soon after its arrival. It's hoped all the churches of the town will participate in this Christmas program.

The Jolly Musicians Club is being quite active. The first meeting was held in the home of Gloria June Stevenson with twelve members present.

Those calling in the afternoon were Mr. and Mrs. Howell Johnson and children of Floydada, Mr. and Mrs. Lee Pearson of South Plains Mrs. Hallie Johnson and Miss Eula Mae Merrill.

PRESBYTERIAN AUXILIARY MEETS AT CHURCH

The Presbyterian Auxiliary met at the church Monday Nov. 1st. The President, Mrs. Bob Dickerson presided and gave the devotional.

CONFEDERATE VETERAN'S GRAVE TO BE MARKED

The grave of the late Robert Anderson Watson who died here on August 22nd, 1939 and buried in the Silverton Cemetery, will soon be marked with a government marker of pink granite according to a letter received from his daughter, Mrs. A. J. Jones of Alford, Wise County. He was the father of J. S. Watson.

They are provided by the Government from a special appropriation made by the Congress a few years ago giving the Confederate soldier the same recognition as any other soldier of the United States Army.

No doubt many marked confederate graves are in this section of the state and anyone knowing of such a grave should write Mr. Sparkman at Italy, Texas, furnishing him such information relating to the soldier's service as possible. These markers are delivered to the nearest freight depot without any charge by the government and the proper marking of all confederate graves is a sacred obligation the southern people owe to those who wore the gray.

The North Side Floyd County Singing Convention will meet at Lone Star on Sunday, November 7, at 2:00 P. M. Everyone is invited.

PANHANDLE RECOGNIZED AS DROUGHT AREA

The following news for stock raisers is released by Gene Worley. The protein feed situation is still one of the most important problems now confronting farmers and ranchers of the Texas Panhandle.

Repeated conferences has been officially recognized as a drought area and every possible effort is being made to see that our section is among the first to receive supplies of high protein feed. The soybean crop from the North and East is being transported to the South to be crushed by our mills.

So far as cottonseed cake is concerned, I am officially advised that no government agency is handling distribution but it is being left in the hands of industry to be moved through regular trade channels.

As of October 16, estimates of the War Food Administration for the entire United States show about 3 million bushels of corn, about 835 million bushels of wheat, 330 million bushels of barley, 1,150 million bushels of oats, 33 million bushels of rye and 100 million bu. of grain sorghums are available.

The Annual Fall Bargain rate for the Briscoe County News is \$1.50 per year, and is now in effect, according to a momentous decision made after a two day discussion in the office between the editor, business manager and publisher. The editor and publisher are responsible for making the 50c reduction, in spite of the cold-hearted business manager advising against it.

And so, when you read this, take a look at the name label on your paper or its wrapper. If the number following your name is 12-43, 11-43, or before, then you should drop by the News Office and get relieved of \$1.50.

The rate is the same for all subscribers, anywhere in the world. If you wish to send the paper to a man in service \$2.00 will pay for your own and his as well. Because of the lengthy addresses on service men, many of the expiration dates have been taken off. No service man's paper will be discontinued, but if you are paying for one along with your own, it will be appreciated if you take care of both.

The Briscoe County News is your authorized agent for the Fort Worth Star Telegram, the Amarillo Daily News and the Wichita Falls Record News and Times. A combination rate is in effect that will save you still more if you renew both your daily and the home paper at the same time. Add one dollar to the price of your daily for BOTH. The combination rate is good only at the News office.

The Wichita Falls papers are the only ones at this time that are accepting new subscriptions, and the Bargain Rates for all are for a limited time only. Do your subscription buying early this year. You'll be doing yourself a favor, and it will be greatly appreciated by your newspaper.

THANKS A LOT

Again we are more indebted to our friends than we can ever hope to repay. We wish to thank you every one for the fine things you have done for us after our disastrous fire. One's true friends will show up when you're in trouble, and we've found that we have many of them. Thanks again! Mr. and Mrs. Johnnie Burson and children Doris and Martha Jo Griffith

RATION CALENDAR

RATION BOOKS: Consumers will not have to carry all four books for a very long period. The only stamp good in Ration Book I is Stamp 18 for shoes which is good indefinitely. Should it become necessary to terminate this shoe stamp, the public will be given 30 days notice. Ration Book 2 has only a few stamps, the blue X, Y, and Z processed food stamps, which are still valid and they expire Nov. 20.

SUGAR: Stamp No. 29 of War Ration Book 4 (on front page, marked sugar) became good Nov. 1 for five pounds and will be valid through January 15, 1944.

SHOES: In addition to Stamp No. 18 in War Ration Book 1 which is valid indefinitely, Stamp No. 1 on airplane sheet of Book 3 became valid Nov. 1 and will be good approximately six months.

MEATS and FATS: Brown stamps G and H both valid, Stamp J to become valid Nov. 7, and stamp K on Nov. 14; all four expire Dec. 4. PROCESSED FOODS: Blue stamp X, Y, Z in Book 2 valid through Nov. 20.

GREEN stamps A, B, and C, in Book 4 became valid Nov. 1, expire December 20. Jams, Jellies, preserves, fruit butters and some marmalades rationed.

Pvt. Irwin Levinson, Baltimore, Md. was struck by shrapnel in the left shoulder at Palermo. The fingers of his left hand are paralyzed. When his father asked if he needed anything, his son replied: "Buy War Bonds." His father

Pvt. Thomas Dellarossa, Trenton, N. J., 18th Infantry Patrol, was wounded by shrapnel at El Guitar, Africa, and now must wear a special brace for his left knee. He won the Purple Heart. He buys War Bonds regularly and urges you to.

Pvt. Donat Cartier, Derry, N. H., suffered a fracture of the leg above the knee in Sicily when struck by an 88 mm. shell. He was held prisoner for two days by the Germans, traveling in a tank. He is a regular purchaser of War Bonds.

Pvt. William E. Morris, Long Beach, Cal., is above draft age but has seen three years of service. He lost his left leg below the knee in Tunisia. He wears the Purple Heart and Good Conduct Ribbon and continues his War Bond purchases.

NEARLY EVERY WEEK some one says "Boy, I'd like to write that column just one week." And every time I reply, "Brother get going". But no one ever gets around to do it. So Yours True's functions week after week, saying the same old things—just punching different keys to do it. In the first place, before you can write a column, you must decide whether you are a man or a mouse. If you are a mouse, then you must break down your self-analysis and find out whether you are a mickey mouse or a minnie mouse. If you are a minnie mouse, there's no need for you to write the column, cause that's the kind of a column I write.

HOWSOMEVER, there are

some weeks when it is a pleasure to write, or would be could I tell the full stories, with all the names and all the various angles. What couldn't I do with that story of the two guys who "took one of the preachers for a ride" trying to cure his cold and to get him to help cut up some hawg meat. A real story too, could be developed out of the one about the local farmer who stopped at a drug store in Childress and asked for some "Vitamin B" — and the druggist who asked, "Pills or capsules?"

WHAT ARE YOU doing with your waste paper? We are supposed to be saving it you know. It needs to be saved you know—if we don't save it, there will be a lot of newspapers suspended publication, so that the government news releases can continue to be released, fluently, flatteringly and foolishly. (The last word is mine). BUT, a few months ago we all helped the Boy Scouts to gather ten tons of paper. They were to receive a premium price for that amount, AND when they went to ship it they were told that it would not pay the shipping cost. They kept it a long time, hoping that there'd be a way. There wasn't. Finally the paper was taken to the city dump and burned. The same thing happened to the aluminum drive and the old tires and tubes that were turned in. If brains were music I sometimes think that some of the so-called experts would not make a sound—nay, not even a chirp.

NIG REID WAS in the office last night and was looking over the galley proofs. He came across that statement from Gene Worley about the cotton cake and protein feeds for this section. He wound up and let go with &XZ!!-**DAMXZYZ !!@!! and went on

record as saying "Why that XYZ AND-SO-FORTH *!b@&& \$***!" which freely interpreted means, "Mr. Worley is a fence straddler and a sooth sayer of questionable veracity". Nig has his own ideas about the protein situation. In fact he has 400 of them on the ranch—all of them walking the fence and bawling for feed—and so far there is none to be had. To quote Mr. Reid further, "Steers fatten slowly on damfool Washington ideas".

SEVEN MEN AND about that many pickups to move a little shirttailful of poison bran—another example of government economy. I wonder what the value per 100 lbs. will be after another move or two. One thing sure it will be high enough that they'll have to furnish Mr. Grasshopper with napkins and plates to get him to eat in the style to which THEY are accustomed.

THE WAR NEWS is good. I have it on the reliable authority of Dock Wulfman that Germany will crack by Christmas and that we will have nothing ahead of us but prosperity—and Japan. However, in my own heart I think that Doc is a better pharmacist than he is a prognosticator of the war news.

FUNNY WHAT LITTLE things will do for looks. John and Ethel have done a little fixing of their front window and believe me, it looks plenty uptown. Tom and Orin had a kind of a lattice work up in the window there and they did most of their horse trading behind it. John, not being a horse trader, has removed all the obstructions and now you can even see who is standing in front of the fountain—makes that part of it a lot handier.

AND FOR THE busiest two people in town I want to nominate Homer and Jessie Sanders. They really "go" over there at the lumber yard. Homer goes on the run and it keeps Jessie busy just opening and shutting the gates for him.

THE STORY THAT never got printed—the one that Whiteside told you about the pilot, the radio operator and the bombardier—what's the use? I never got to even tell it to anyone that hadn't already heard it.

News from Boys in Service

(Continued from front page)

some of them sometime but I haven't yet.

I have seen a lot of different countries in the past three months but what I would really love to see is those States again. A person don't really know how good they are until he leaves them for a while and liberty is rather poor. Have had liberty two times in the past three months and don't know when it will get better. We have a movie pretty often and quite a bit of fun along with our troubles, so it's not so bad.

I guess it is getting pretty cold there now, but to tell the truth I believe I have seen it both (censored) gets there, have just been one place that I liked the climate better than I do there, but the worst part about it, there wasn't any land there, so that would be a drawback, because I believe I'll have had all the water I want by the time this is over. Will close for this time, tell everyone hello and good luck."

JACK LOUDERMILK writes from the South Pacific, "Dear Roy I will just drop you a line to let you know my address. I wrote one letter, but I guess you didn't get it. (We got it Jack and published

it) I got my first paper the 18th of Sept, in two months. Roy if my paper ever runs out just let me know and I will renew it.

Say by the way that is some wrapper you have. It sure keeps the paper better, and I can tell you that mine is handled a lot of times before it gets to me.

I would like to tell you some thing about where I am, but as you know, there is a nosy little man that reads all our mail before it leaves here.

I must close and try to get a little sleep to-night". This letter is dated Sept. 25th and was received by the News Office Nov. 3

CPL VIRGIL CROW writes to his parents from England. "Dear Folks. Well, it has been several days since I have written you this time. Got two letters from you this week.

We just came back off our pass and are sure worn out. Davis, Brandon and myself all went in to London for three days. Certainly did have a good time. Guess we saw just about everything in London, except Westminster Abbey, that is worth seeing.

We went to St. Paul's Cathedral, the second largest in the world. Took 35 years to build, from 1675 to 1710, is 365 feet high, and we walked to the top. There are 627 steps and they go almost straight up.

It is built in the shape of a cross, one way is 300 ft. and the other

600 ft. Seats 10,000 people. The dome is about 120 feet across, on the inside, and the paintings that cover it, took five years to complete, they surely are beautiful. We sat on one side of this dome and straight across from us 120 feet away, an old man sat, and just by whispering, told us the history of the church. By placing our ears against the wall we could hear him as plain as if he was right with us. From the top of this Cathedral, we could see the damage done by bombs to the city, some of it is leveled to the ground for blocks. The cathedral was only hit once and very little damage was done.

Another church we visited was "All Hallows by the Tower". This was built in 675 A. D. so you can see why it is famous. Most of it was ruined by bombs but the entrance and part of the chapel was still there. William Penn founder of Pennsylvania was baptised there in 1640, and John Quincy Adams married there in 1797.

Some of the other places we visited were the Tower of London, where King Henry the Eighth had three of his wives beheaded. It was built in 1066 and in some places the walls were 16 foot thick. We also saw London Bridge and The Old Curiosity Shop, that Charles Dicken wrote about and where he did his writing in about 1557 I think it was. It sure seems funny to walk down sidewalks where these people walked 200 years ago. Some of the walks are cobble-

stones, some are made of wood covered with tar. We went to Buckingham Palace again, also St. Palace in fact we saw so many places that I had heard or read about, that I can't remember them all. Well I guess you are probably tired of this by now, as I know I cannot write it anything near as interesting it is to see. I have some post cards of the places I saw to help me remember.

Guess you are about done combining feed by now and gathering cotton. Have you plenty of help? I will send you a small photo of Davis, Brandon and myself that was made on the streets of London. I had a larger picture made, if it is any good I will send it to you."

LLOYD HODGES writes to his father from Australia that he wish to thank the folks of Silverton for the cigarettes which were sent to his company several months ago. They were received October 8th and were very much appreciated.

ED. NOTE—The cigarettes referred to by Lloyd were sent several months ago. By special arrangement with the Camel Cigarette salesman the cigarettes were purchased at 5 cents per pack. Jake Honea raised \$54 in less than half an hour. The cigarettes were sent to Lloyd because he seemed more or less permanently located at the time. Silverton folks are happy that the cigarettes reached their destination safely.

GRADY MARTIN is playing a regular end position with the Arkansas A. & M. football team at Monticello, Arkansas. Saturday, they defeated Miami 35 to 0. They have won every game this year.

HELP YOURSELF STYLE

We are now moved to our new location THREE DOORS EAST — better building — better equipment — better able to serve you.

We have eight machines in operation now, will have ten going full blast Monday, and two more within a few days more.

That makes TWELVE in all,—reconditioned and all equipped with soft boiling water. We believe this number of washers will cause you very little waiting and will give you complete satisfaction in every way.

We have been classed as an essential industry which insures that we will be able to keep our equipment in first class shape.

We appreciate your patience with us while we were moving — and are going to give you a lot better laundry to make up for your inconvenience. Try our service. You'll find it friendly, courteous, and also economical!
