No need to lie in bed—toss—worry and fret because CON-STIPATION or GAS PRES-SURE won't let you sleep. Be sensible—get up—take a dash of ADLER-I-KA

as directed, to relieve the pressure of large intestines on nerves and organs of the digestive tract. Ad-lerika assists old food wastes and gas through a comfortable bowel movement so that bowels return to normal size and the discomforts of pressure stop. Before you know it, you are asleep. Morning finds you feeling clean—refreshed and ready for a good day's work or fun. Get Adleriba from your druggist today.

comes to checking tires for inflation, cuts and bruises, and re-capping . . . and I'm even more of an expert at lubricating cars, of any age and make, right from front bumper to tail-light.

But when it comes to catching counterfeit gasoline ration coupons, I'm a washout! Believe me, every service station man in the country tries, because it is his patriotic duty. We know that oceans of oil are needed to win the war, and we know that unless the black market in gasoline is broken, there may not be enough to go 'round.

So, help me and help yourself and your Uncle Sam, by endorsing the face of every coupon in your possession. Don't take any gasoline coupons from anyone as a gift! Don't accept gasoline at any price without giving up coupons! And use the legal gasoline your buy for essential driving only!

I have asked you to help me; in return, I'll be glad to help you. Bring your car in any time for the many Time Saving and Car-Saving services I offer Some are free, and some carry a small charge for materials and labor. But they are a big aid in making your car and your tires last longer and go further.

You'll find me at the Orange and Black 66 Shield, the famous sign of Phillips 66 Gasoline and Phillips 66 Motor Oil.

A MATTER OF LIFE OR DEATH

We have groceries to sell. If you don't buy groceries, you will eventually starve to death - LIKEWISE, if we don't sell those groceries, we will starve to death. So, what is the use of us endangering each others' lives? You can save ours by buying groceries. We can save yours by selling groceries.

Kinda simple, isnt it?

We still want your grocery business.
