

Two Revivals Open This Week End

ELMER STINSON, Chief Electricians Mate, has been discharged from the Navy. He was on his way back to Guam and his discharge papers caught up with him at Hawaii.

L. B. LOUDERMILK has new work coming up, according to this letter: Dear Roy: Just a few lines to say hello and to ask you to change my mailing address. I am leaving the 23rd for Pearl Harbor and from there who knows. I'm afraid that I can't tell you much about the nature of my new job except that I won't be on a ship or base for permanent duty but, will be traveling most of the time. That is about all Uncle Sam would want me to say until a few more of the little yellow sons of heaven have been made good Japs.

GEORGE LONG writes to his parents: Dear Folks, Well, it finally happened. I mean, I am assigned at long last.

All indications are that it won't be so bad either. The Radio gang seems to be a pretty swell bunch. The chow is good, etc. At any rate, I have a locker and a place to throw my sack.

I wish you would give Hahn my address and request that he send the paper to me. I will not have time myself. I will be fortunate to get this letter off.

We have five hours on and fifteen off on the radio watches. It will be hard to get back to copying code, but boy it will beat delivering messages and being kicked around.

Well, I will close and get this off.

LIEUT. HARLEY REDIN, in the South Pacific, writes a letter that is much appreciated by the editor: Dear Roy, All this favorable criticism of your V-E day edition leaves me in the dark. I never did receive that particular paper, it must be coming the long way around. Should have a copy before long though as I asked mother to send one.

I have never taken the trouble to tell you how much we like to read about what's happening at home every week, also about friends that are all over the world right now. I'm sure all of the boys feel as I do about mail from home and the B. C. N. is just a super letter from home. I feel that it is really a boost not only because of the extra work and expense involved in running pictures, news of servicemen, mailing, etc., but also the bond drives, editorials, and such. So, I just wanted to say, we do appreciate it.

It really doesn't seem that long, but it has been a year since I looked at the Golden Gate Bridge and made guesses as to when we would see it again. Think both of us guessed under a year and we were half right — his half. The clouds formed a solid undercast from there on, in fact about half of the bridge was all of Frisco we could see as we passed over and then we didn't see the water until about an hour out of Hawaii, which made it all the better. You could imagine you were on a normal everyday hop; not being able to see all that 2,200 miles of water except that it was a little long.

Not much news from out here, hope to be home inside of three months. John Wulfman left here about two weeks ago and will probably be visiting there soon.

PFC. THOMAS SHERMAN, writes from Guam. His letter was written July 17 — arrived in Silverton July 21: Dear Roy, Just a few lines to let you know that the good B. C. N. is heading my way now, however, you have the address wrong, but I know it is not your fault.

I have been over here quite a while and it is a nice place if the war wasn't going on.

It would like to know where Jack, Cranberry and what was the other fellow that worked there. Crow, I believe his name was. I would like to have their addresses if you think you could pass it on. Must close, so keep the press rolling.

HARLEY CHAPPELL writes his parents, Mr. and Mrs. A. H. Chappell, from southern France: (Next column please)

Two Silverton Churches will open their Summer Revivals here this week with meetings at both the Calvary Baptist Church and the Church of Christ. Interesting programs are on hand every night for all church goers, at each of the two churches.

The Calvary Baptist Church, whose protracted meetings start Sunday, July 29, has secured the services of Rev. W. J. West, who is pastor of the First Baptist Church at Lorenzo, Texas. He comes highly recommended as a revivalist and speaker and Rev. Hamilton, local pastor, promises that every night's service will offer an interesting program for all. Rev. Hamilton will assist West in the preaching and will have charge of the song service.

The Church of Christ, is also starting their Vacation Bible School for children from 4 to 16 and it will open at 9:00 o'clock Monday, July 30 and continue for a week. All children are invited to attend and take part in the games, stories and interesting programs.

The Church of Christ last week announced that their Annual Gospel Meetings would start Friday, July 27, and it will continue through August 5th. The church has secured the services of W. D. Black of Austin, Texas as their special speaker. He is said to be a genuine old preacher of the Bible, and talks straight from the shoulder, in sermons that all will enjoy.

The public is invited to attend either of these meetings.

I will, this afternoon, write a few lines to let you know how things are. I am still well and doing good and hope this finds you all the same.

We have moved again. It was a long trip and I enjoyed it. We are in Southern France. It sure is hot here. The country is sure rugged and mountainous. I like Germany better because the people are more friendly and nicer and they treat a person better. It does not sound possible does it? I was surprised myself.

We are not doing much of anything now and I do not know just what we are going to do, but we may come to the states before long. I sure hope so.

I guess it is sure hot there now. Are you through with harvest? How are the crops? Have they plenty of rain? How are you getting along with the tractor? How is the gas and tire ration for the car? I guess it is better.

I have been moving so much in the past two months, I haven't gotten much mail and do not know just what is going on, but I have seen a lot of country and that is what I wanted to do when I came over here.

I have no more news for now. I hate to stop with so little news, but just do not know anything to write. Answer when you can.

AUBREY E. SANDERS writes to the editor from the Admiralty Islands: Dear Mr. Hahn, I just received two of your interesting Briscoe County News. One of them was the V-E day paper, which I enjoyed very so much. The hometown paper is a great morale builder, so I request that you continue my copy of it.

How are things back in Silverton? Just send me a paper and then I will know. Thanks.

TONY DENHAM writes from Palm Springs, Calif. Dear Roy, I am sorry I haven't written you any sooner, but it is so hard to write left-handed, I hardly write anyone. I have been back in the states almost four months now and I think I have written about ten letters. And it will be some time yet before I'll be able to do much more writing.

I have another operation coming up soon. It will make five since I got here. If they cut on it very much more, there won't be anything left. They have a hole about three inches deep and about eight inches long now, but let them cut, the longer they cut, the longer I'll stay in the states. I don't have enough points to get out, but I think this shoulder will do it, at least I hope so. I have seen all the action I want to see anyway. It

(Next column please)

SUBSCRIBERS PAY UP NEARLY 100%

The special offer on the Briscoe County News ended Saturday night, and nearly every subscriber made it on time. In fact there were fourteen local people who did not take advantage of the special offer and let their subscription expire. All delinquent names have been removed from the list and everyone who receives the paper this week is paid in advance. There are several folks however, whose papers expire in August (8-45) and we'd like to remind them that their subscription should be paid sometime during the coming month.

It is important to advertisers that the subscription list of their newspaper remains clear of "dead wood". Their theory is that a subscriber does not think enough of a paper to keep it paid—he probably does not read it anyway. Regulations now on the use of news print, also prevent a publisher from sending papers that have expired. In addition to those two good reasons for removing the names of tardy subscribers, the editor of the local paper has always thought that the one-fifty was as important to himself as to any of his readers.

Since last week's paper there have been many new and renewal subscriptions come in. We want to say "thank you" to everyone who has paid up. Please check your date immediately. If there is a mistake in your expiration date we want to correct it at once. Thanks to:

NOTICE: In compliance with the recently enacted, 44 hour work week regulations, the Briscoe County AAA Office will be closed each Saturday afternoon.

Mrs. Pascal Garrison and daughter went to Little Rock, Arkansas to be with her husband who is stationed there.

wasn't much, but I've had enough. The last battle I was in was too much for me. That was the battle for Bostogne. I got hit twice there. Both in the same shoulder. Then I got hit in the leg up in Holland. So three times in one war is enough.

Well, Roy, my hand is so tired, I will have to close. So I will be seeing you in about another month, maybe.

T-SGT. ROY THOMAS reported back to San Antonio for reassignment after a 30 day furlough with relatives Roy has spent the past two years in Cuba.

Chairmen Express Thanks

T. R. Whiteside and Roy W. Hahn, chairmen of the Silverton District for the Seventh War Loan, wish to express their thanks to folks in this district who responded so well to the Treasury Department's drive for funds. Very little effort was expended by these two chairmen in personal contacts. Most of the bonds bought were bought with no solicitation of high-powered methods, and yet the quota was topped by over \$23,088.00. The Series E quota for this district was \$30,050.00 and Silverton folks responded for the total of \$53,138.00 in E Bonds alone. This was nearly half of the E Bonds bought in the county and 176% of the district's E Bond quota.

M. W. NORRIS SR. CLAIMED BY DEATH

Martin W. Norris was born in Ballard County, Kentucky, March 10th 1861. Departed this life July 23, 1945, in the home of his son Jim Norris of Silverton. Mr. Norris was married to Miss Alice Feemster December 29, 1885. To this union five sons and two daughters were born. His wife and two sons have gone on before. The wife and mother passed away in the home of Jim Norris last September the 28th. Just nine months and twenty five days before him. He leaves to mourn his passing three sons and two daughters, Mrs. L. C. Hyatt of Vigo Park, Mrs. Eric Malone of Tulsa, Jim and Mart of Silverton, and Oran of Plainview. Sixteen grandchildren, and three great grandchildren. Two grand sons are in the service, Robert M. Norris serving with the Sea Bees overseas and Edwin Norris in training with the Marines at Parris Island, S. C. All were present except four grand children and two great grandchildren. Mr. Norris with his wife and four children came to the plains from Ellis County. During the covered wagon time, the journey took fourteen days of real pioneering. He settled at his present home three miles south east of what is now Vigo Park. That was in the year of 1897.

Since then he engaged in farming and stock raising, especially did he find pleasure in caring for mules and horses. His favorite saddle pony, Paint, was very near to him, they rode the range together. The horse is now twenty one years old, and the rider has crossed the Great Divide, and the mystery beyond the grave lies wrapped in silent slumber.

Five weeks ago Mr. Norris became ill and was taken to the home of his son, Jim. Another old pioneer has passed on into the Great Unknown.

Funeral services were held at the Milo Cemetery, conducted by Earl Cantwell.

Pall bearers were: Bill Malone, Earl Malone, Gee Mayfield, Roy Mayfield, Cliff Harris and John D. Baird. Flower girls were: Lessie Lee Baird, Stella Arnold, Thelma Jackson, Eula Malone, Pauline Malone and Pat Mayfield.

CARD OF THANKS

We wish to thank each and everyone who helped in anyway during the sickness and death of our dear father and grandfather. Thanks for all the kindness shown us and for the ones who worked so faithful, also for the beautiful floral offerings, May God bless each and everyone.

Mr. and Mrs. Jim Norris and family
Mr. and Mrs. Mart Norris and family
Mr. and Mrs. Oran Norris and family
Mr. and Mrs. L. C. Hyatt
Mr. and Mrs. Eric Malone and family

Guests in the home of Mr. and Mrs. Wayne Crawford Sunday were Mr. and Mrs. Lee D. Bomar, John Lee and Patsy; Mr. & Mrs. Donald Alexander and Jimmy; Mr. and Mrs. J. N. ... Don, Jean and Wayne Bingham.

Mrs. Noble Lyde and Dee Ann left this week for Douglas, Arizona where Noble is stationed. He will receive his commission and wings as Army Transport Pilot on August 4th.

Final Report On Bond Sales

By W. Coffee, Jr.

CECIL YOUNG REPORTED KILLED ON OKINAWA

A telegram from the war department came to Mrs. Cecil Young at Quitaque last week notifying her that her husband was killed in action June 9 on Okinawa. Mrs. Young had gone to Locksburg, Ark., about four months ago, to stay with her parents and the message was relayed to her there. His parents, Mr. and Mrs. Joe Young live at Flomot.

Besides his wife and parents, Young is survived by four small children, a daughter two years old, and three sons, one seven years old, another about four and an infant son born May 21 this year. He also is survived by several brothers and sisters, one of the brothers being in the service in the Pacific.

He also has a number of relatives living in and around Turkey. The Youngs came to this area from Arkansas in 1942. Cecil and his family lived on the Elmer Tibbetts farm south of Quitaque where he was employed until he was called into the armed forces. He was inducted in Briscoe County in April, 1944, and went overseas with an infantry division in January, 1945. He is 26 years old.—Quitaque Post.

AUGUST 15, CLOSING DATE FOR REPORTING CONSERVATION PRACTICES

August 15, 1945 is the closing date for reporting Conservation Practices carried out before August 1, 1945 in connection with the 1945 Agricultural Conservation Program.

Farmers and ranchers are reminded to not neglect to report conservation practices on or before the above closing date.

Performance Regulations state in part, "to be eligible for payment, conservation practices carried out between January 1 and August 1, 1945 must be reported not later than August 15, 1945".

SERVICE OFFICER DISCUSSES BILL OF RIGHTS

One of the best features of the "G. I. Bill of Rights", Public 346, is the educational provisions of the bill.

Every man or woman who has been discharged after 90 days, some part of which was after September 16, 1940, or was discharged with a service connected disability prior to 90 days service is entitled to one year of schooling at the school or college of their choice provided the school will accept them as a student.

Anyone who was under 25 years of age at time of enlistment is entitled to one year plus one calendar year for each year they were in the service. Thus if you served two years in the army and were under 25 years when you enlisted you would be entitled to three years of school or college. If over 25 it would be necessary to prove that your education was interrupted by your entrance into the service in order to get more than one year of school.

The government will pay tuition and fees not to exceed \$500.00 per year and in addition pay you \$50 a month subsistence if single or \$75 a month if you have dependents. All of the above provisions are under Public Law 346.

Public Law 16 provides education and training for those with a disability that causes a vocational handicap, that is one who has a disability that prevents them from following the same line of work that they followed when they entered the service. Benefits under this law are more liberal than those under Public 346.

Detailed information on both of these laws and the steps to take to secure these benefits will be furnished by this office. This office will be open Friday at Silverton and Saturday at Quitaque each week and is located in District Judge office of Briscoe County Court House.

Mrs. E. T. Evans and baby Sharon and Miss Ruby West left Wednesday for Tampa, Florida, where they will spend sometime with friends and relatives.

A report on the Seventh War Loan Drive indicates that the committee-men for Briscoe County did a very fine job; and as Chairman of the Briscoe County War Finance Committee, I wish to thank everyone for his efforts in behalf of this drive. While some of the school districts failed to meet their quota in "E" bonds, others exceeded their quota and the county as a whole wound up with 101.3% of our quota. This was 2% less than the average Texas county. 189 counties were ahead of Briscoe County in that their percentage of sales were higher. The exact figure for Briscoe County's "E" bond sales was \$116,518.75; our quota was \$115,000.00.

Our quota for other than "E" bonds was \$50,000 and we received official credit for \$289,236.50, which is 578.8% of our quota. This does not include \$300,000.00 purchased by the First National Bank, Quitaque, which is not counted on our quota. This would give Briscoe County an overall total of bonds purchased in this drive in excess of \$705,000, which is an excellent job for the county, since this is a purchase of 306% of the quota and the overall sales for the state were 178%.

We are proud to report to the boys in service the above figures which indicates that the people of our county are definitely behind them in the war against Japan. Perhaps this may be some inspiration to them and will make it a little easier to continue the good job they are doing, thus shortening the war so that they can return to their civilian life. We hope they will all be with us in the near future.

FARMERS URGED TO CHECK ON HAZARDS

One person is killed every six hours in accidents occurring on Texas farms, according to Peyton L. Legg, #SA Supervisor in Briscoe County. As part of a concerted effort to stop the annual loss of life and property resulting from carelessness, farmers of this county are preparing to join in observing July 22 - 28 as National Farm Safety Week.

Last year in the nation 17,200 persons died as a result of accidents on the farm and property damage in excess of one billion dollars was caused. An additional 3500 lost their lives in farm fires which destroyed ninety million dollars worth of farm property. While accidental deaths are being curbed in most cities and in most industries as a result of intensive educational efforts, loss of life and property on farms continues to mount. Seventeen per cent of the nation's workers are employed on farms, yet agricultural pursuits accounted for twenty-four per cent of accidental deaths in 1944.

"Farm machinery ranks first as a cause of farm accidents," said Mr. Legg. "Careless handling of livestock and workstock and accidental fires rank second and third."

Farm Security Administration families in this county are urged to check their premises for all types of hazards. High on the list of danger spots are broken ladders, uncovered cisterns and wells, broken steps, rusty nails in farm yards, insecure pens for livestock, gasoline and other in flammables stored near farm buildings, and absence of lightning rods. Mr. Legg also cautions farmers to use care in handling insecticides, and against making adjustments or fueling farm machinery while it is in motion.

"Let's stop the enormous waste of life and property on our farms. A day by day application of safety rules will do the job," he adds.

CARD OF THANKS

We take this means of saying "Thank you" for the many loving deeds tendered us in the death of our daughter Lou Ella. For the lovely floral offering and other deeds which lightened our sorrow. Mr. and Mrs. D. L. Fogerson and son

Mr. D. O. Bomar and Don of Lubbock spent from Tuesday until Friday in Silverton.

CPL. LORENE WAGNON daughter of Mr. and Mrs. H. G. Wagon of Quitaque entered the WACS in December of 1942. She received her training at Ft. Ogerthrope, Ga. and is now stationed at Turner Field, Ga.

PFC. GENE VAUGHAN is attending a six weeks special school at Spokane, Washington.

CECIL SEANEY who has been here visiting his parents left Monday for Miami, Florida.

S-SGT. JOHN B. PIGG is with the 185 Infantry in the Philippines. He entered the service Feb. 28, 1942 and went overseas in August, 1942. He spent a year or more in the Hawaiian Islands. He saw action on New Britain Island and was with the Ranger Commandos who liberated the prisoners on Luzon. Sgt. Pigg is the son of Mr. and Mrs. G. H. Pigg of Quitaque.

SGT. W. J. THOMPSON came Tuesday to be with his wife and her father, Eck Bomar who is quite ill. Sgt. Thompson has a seven day emergency furlough, he was in Louisiana.

T-SGT. and Mrs. Bob McGuire and children are here from Camp Kilmer, N. J. visiting the T. J. Hodges. They will leave Thursday night to visit the McGuires at Denton before returning to New Jersey.

S-2c FOY W. PEACOCK entered the Navy in December 1944. He took his boot training at San Diego and is now in school in Gulfport, Miss. His wife and little daughter are making their home while he is in school there. He is the son of Mrs. H. G. Gregg of Quitaque.

ESDELL HUTSELL who has been stationed in Oklahoma is being transferred to Port Arthur, Texas. He spent a few days here with his parents, Mr. and Mrs. R. Hutsell before reporting to Port Arthur.

TEXAS PRESS

MEMBER PANHANDLE PRESS ASSOCIATION

NEWSPAPER ADVERTISING got a boost last month by a strike in New York. The how of it is that newspaper deliverers were on a strike and consequently, merchants were unable to get their advertisements before their customers. As a result, New York ran way behind other large cities, actually behind the previous month, while stores in St. Louis, Kansas City, Cleveland, and other large cities sold more than the previous month by about 40%. Incidentally, taking the nation as a whole, people are buying themselves silly. They've got the money, and they spend it one way or another.

GOT A LONG letter from Cranberry Allred, who by the way has now become officially James Allred according to the Navy payroll sheets. Doc Minyard just had been over to see Cranny and they went over the V-E Edition together.

Allred said, "I had already read it page by page, but when Doc got there we took it apart picture by picture" . . . Both of these guys have been in service over three years and they are beginning to wonder if they can remember how to live as a civilian if, and when they ever get out.

COMES A RAY of sunshine from Jettie Hardcastle. She says "It is surprising how many people do read the "Head Ache", and encloses a clipping from the "Country Gentleman". The clipping was from the Briscoe County News and was in their "Read'em and Weep" column which is made up of unintentional (but funny) squibs they have picked up from papers all over the United States. It is worth repeating—and I wonder at whose bridal shower it occurred . . . "The guests were seated in a wide circle and the many lovely guests were opened by the bride-to-be, and then passed around the circle for the guests to see." Country Gentleman had headed the article "Post Mortem."

I JUST READ a pretty good one in "This Week Magazine". An English diplomat was visiting in the U. S. and saw a group of kids playing football. The game was explained to him several times, but he finally asked, "Wouldn't it just be simpler to give each team a ball of its own?"

AND SOME ADMIRER of Dean Allard's writes from Lubbock and says, "Fix old Doc Allard up with this, Barber: What's the matter? Ain't the razor taking holt? Victim: Yeah it's taking holt all right but it ain't lettin' go again!"

BUD PERKINS TOLD me how he got captured. Said they were spread way too thin when the Germans broke through and his patrol got surrounded. The sergeant went out by himself and pretty soon he was hollering, "Perkins, where are you?" Bud was in pretty good shape himself, with a machine gun going, and he'd answer, "OK I'm right here." Then the sergeant would say, "We might as well surrender—they've

got us surrounded." And Bud and rest of them talked it over and decided to stay. "They are closing in on us, Perkins, let's surrender," hollered the sergeant from his forward position. And finally they did—and they found that the sergeant had already been captured and a German had a sub-machine gun at his back forcing him to holler at the rest of the patrol.

Your mind is your garden, your thoughts are your seeds, and you surely will harvest either flowers or weeds.

Think of your own faults the first part of the night when you are awake and the faults of others the latter part of the night when you are asleep.

You cannot establish sound security on borrowed money.

Land of the tourist's pride!

Give thanks! . . . No "scorched earth" scars our U. S. A. Ever beautiful . . . enriched in interest . . . she'll be calling someday for you to "come see." And your car will go like a thing unleashed, when you are able to get **NEW-DAY CONOCO BRONZ-Z-Z GASOLINE.**

Transferred into your tank will be the latest results of the research lavished on war-winning gasolines.

You'll know high-octane power . . . panther-like getaway . . . and mileage aplenty. You'll know strictly new-day gasoline—unsurpassed—in your **NEW-DAY CONOCO BRONZ-Z-Z.** Continental Oil Company

Trustworthy Gasoline today

You want assurance today, that your gasoline is made to deliver all the performance possible under current restrictions. Then go to Your Conoco Mileage Merchant—where you see the big red Conoco Triangle sign. That's his Station Identification . . . And make it yours!

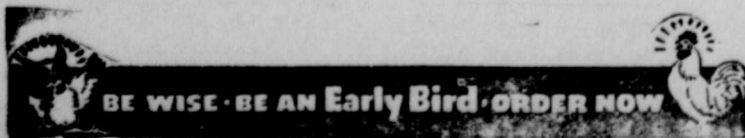

Hold up there, friend. Those are fighting words and we know it . . . words to make any real American's blood boil. Yet the fact remains that millions of war-vital cars have been scrapped since Pearl Harbor, and this scrap aids the Japs because it weakens our wartime transportation system.

Don't let carelessness or neglect put your car out of action. Keep on the alert for the warning signals of trouble—motor noises, body squeaks, rough riding, fat brakes, engine "miss," hard starting, or any of a score of other symptoms that tell you something is wrong. Better yet, bring your car in to us regularly for inspection, and let us stop trouble before it begins.

LOOK FOR THIS SIGN - IT'S RIGHT NEARBY

Dorah and Alma Lee Dudley of Plainview visited in the Milton Dudley home the first of the week.

Mr. and Mrs. O. M. Dudley and Mary Francis were in Plainview Wednesday.

Mr. and Mrs. Sid Brown of Floydada visited relatives in Silverton Sunday.

We've Had Some Interesting Experiences, Too!

Curtiss Halliday Dive-Bomber in action against the Japanese in the Pacific.

Whether you fly 'em... or make the fuel that flies 'em... you learn something!

The boys who have been filling Tojo's fleet as full of holes as an old tin can will have some interesting stories to tell when they get home.

And Phillips is going to have some interesting things to tell you (and show you) too!

Because a big part of our job the last five years has been to produce the 100-octane Aviation Fuel that has kept the big boys over Berlin and Tokio. And it hasn't always been an easy job.

In some ways it has involved almost as many trials and tribulations as a pilot goes through before he wins his wings. We've built vast new laboratories and staffed them with the wisest and most experienced scientists we could find. We've built new plants and introduced new processes. In short, we've gone "all out"—with every bit of brains and brawn we have—to give our fliers every ounce of precious 100-octane fuel that could be produced!

The result—today Phillips is one of the very biggest producers of 100-octane Aviation Fuel in the country! That's a mighty important fact—and one of which we're very proud.

And it's a significant fact, too—for every man and woman who plans to drive a car after the war. Because you can bet your bottom dollar that all the experience, all the know-how, all the scientific knowledge we've gained in becoming one of the largest producers of 100-octane gasoline—will be packed into the Phillips 66 Gasoline which powers your post-war car!

When you see the Phillips 66 Shield, remember—it stands for fuels for Victory today, and fuels for better driving tomorrow.

Quality MEATS

REAL HOME BEEF from the J. H. Burson Ranch. You know the kind of beef you are getting when you buy here—for we have the reputation of the ranch to uphold, as well as that of the store.

We now have a full time butcher and meat cutter at our counter and we can assure you of quick, courteous service.

We know that sometimes we don't have the exact product you expect, but we are doing our level best to keep well stocked in all lines. We are very grateful for your co-operation in this time of war shortages.

Main Line of Power

IN WEST TEXAS AND EASTERN NEW MEXICO

Serving electricity the "high-line" way assures you of an adequate supply of cheap electric power 24 hours a day. From town to town—from factory to factory—from farm to farm, electricity from our power stations, strategically located in the territory we serve, comes to you at a lower cost than ever before.

Cities and towns that receive their electric service the "high-line" way have a definite advantage. With adequate and dependable power, new industries are more attracted; better service for all. Yes, the "high-line" way is the modern way!

**TOWN AND FARM
WOMEN BEATING CITY
FOLKS AT FAT SAVING**

Our government knows that city women have done an outstanding job saving used fats—but, now that you town and farm women have rolled up your sleeves, you are providing more used fats per kitchen than any other group in the U. S. Keep it up! 100,000,000 more pounds of used fats are needed this year to help make vital war supplies. Without your record savings, we'll never make that quota. Save every drop! Remember, it's the small amounts that fill the salvage can faster. Drippings, skimmings, scrapings, and fat scraps melted down. Your butcher will give you 2 red points and up to 4¢ a pound. If you have any difficulty, call your Home Demonstration or County Agent. Approved by WFA and OPA. Paid for by Industry.
