TOM BROOKS UNIT DOWNS OVER 100 JAPS

Technician Fifth Grade Thomas T. Brooks, a resident of Silverton in Briscoe County, Texas, is now serving with an Antiaircraft Artillery Unit in the Pacific theatre that accounted for more than 100 Japanese planes destroyed or damaged during the Leyte campaign.

Prior to his induction April 27, 1943, he attended West Texas State College majoring in pre-law and starting as an 880 yard runner and as a member of the college's track mile relay team. Upon conclusion of the 1942 season he was elected captain of the track team, but by the time it took the field for their 1943 season their captain-elect was a member of a much greater team — the U. S. Army.

T-5 Brooks was promoted to his present rank on September 10, 1944, and participated in the New Guinea, Admiralty Islands and Philippines campaigns. He wears the Presidential Unit Citation and is the holder of five bronze battle stars.

NEW TIRE RULES

Elimination of Central Truck Tire Inspection Stations, effective September 1, was announced today by the District Office of Price Administration. The inspection stations are located in Lubbock, Odessa, Big Spring and El Paso.

At the same time the District Office announced the following changes the elimination of the stations would bring about:

1. Tires on hand at central truck tire inspection stations September 1 must be returned immediately to applicant or forwarding inspection station.

2. No tires need to be turned in with certificates issued after September 1 for truck tires, if the inspection was made prior to that date.

3. After September 1, tires (both passenger and truck) must be turned in to selling dealer, except on certificates for truck tires issued prior to September 1. The inspection stations are not to hold any tires after August 31.

4. All tires turned in at time of purchase are to be held 30 days for examination by OPA tire examiner.

The District Office also announced that quotas for large truck tires will be turned back to local Boards September 1 and Boards will handle all applications for these tires. The Emergency Truck Tire Board at the District Office has been eliminated and the responsibility for issuing certificates for large truck tires returned to local Boards.

We wish to thank each and every one for the beautiful flowers, cards, letters, phone calls, and each and every prayer that was offered in our behalf, also the work that has been given us. May God bless everyone of you.

Light Voting In Saturday's Poll

As was expected, the voting on the Constitutional Amendments Saturday was rather light and 262 votes were cast. Two amendments carried and two were defeated by Briscoe County voters, the salary raise proposal and the change in the Supreme Court measure being defeated here. State-wide returns showed that the only measure defeated was the "salary" amendment, which was defeated by a vote of about 5 to 1.

In the soil erosion election, the voters showed that they favored the establishment of a Soil Erosion District. Something like 200 landowners voted in this special election and it carried by more than the necessary two-thirds majority.

Mary Cowart And Jack Burleson Wed

Sunday, August 26, at ten o'clock in the morning, Miss Mary Cowart, daughter of Mrs. Avis Cowart, became the bride of S-Sgt. Jack Burleson, son of Mrs. Jo Annie Burleson of Amarillo Texas, in a double ring ceremony performed by the Rev. G. A. Elrod, in the home of the bride's mother.

The rites were read before the fireplace which was banked with baskets of white gladioli and ferns. White tapers in a graduated white candlebra graced the mantel.

Attending the couple were Mrs. Lawrence Gregory of Plainview, Texas and Pfc. Arnold Brown. Junior attendants were Mary Tom Bomar and Wayne McMurtry. Miss Clynell Hutsell played nuptial music before the ceremony and "Always" during the rites.

Eck Bomar Passes Away Monday

BRIDAL SHOWER

At the home of Mrs. W. Coffee on Saturday, August 25th, from 5 to 7 P. M., Mesdames Coffee, D. O. and T. C. Bomar were hostesses to a lovely bridal shower honoring Miss Mary Cowart, who was married Sunday to Sgt. Jack Burleson.

The rooms were attractively decorated with seasonal flowers with pink predominating. The bride and all members of the house party wore corsages of pink carnations.

Guests were greeted at the door by Mrs. W. Coffee, who directed them to the guest book, which was presided over by Claynelle Fowler. The serving table was beautiful covered with an Irish lace cloth and centered with an attractive arrangement of pastel flowers, ferns, baby breath, typifying showers of good wishes for the honoree.

Mrs. D. O. Bomar poured punch. She was assisted in serving by Evelyn Coffee, Mrs. Hugh Nance, and Mrs. Tommie Wyrick. Mary Tom Bomar showed the gifts, which were many in number and beautiful.

A vocal duet "Tell Me Why" sung by Jean Northcutt and Dorothy McMurtry accompanied at the piano by Clynell Hutsell, highlighted the entertainment.

The honoree, whom we know as Mary and is the lovable, attractive daughter of Mrs. Avis Cowart, was beautiful in a white eyelet embroidery dress. Throughout the evening smiles (which is characteristic of her nature) of love and appreciation played over her face as she thanked each guest individually. More than 90 guests called and many sent gifts who could not attend.

1925 STUDY CLUB READY FOR NEW YEAR

The Woman's 1925 Study Club will resume their studies September 19, according to a new club book which was completed this week at the News Office. The course of study for the club year 1945-46 will be "Education for a Better World Order", and the talks and discussions scheduled by the ladies at the various meetings are very timely with this time of reconversion and getting back to world normalcy. The club books and programs were planned by Mrs. R. E. Douglas, Mrs. M. A. Graham, and Mrs. G. A. Dowdy, the yearbook committee.

Officers for the coming year are: President, Mrs. T. R. Whiteside; First Vice-President, Mrs. Grady Wimberly; Second Vice-President, Mrs. M. A. Graham; Recording Secretary, Mrs. Fred Lemons; Corresponding Secretary, Mrs. Warner Reid; Treasurer, Mrs. R. E. Douglas; Parliamentarian and Custodian, Mrs. W. Coffee, Jr.; Reporter, Mrs. Cleat Miller; Federation Council, Mrs. Grady Wimberly.

The yearbooks themselves are attractively printed in green on heavy book paper, bound in a white leatherette cover with green silk cord. They seem to come up to the standard expected by the ladies since their books were placed in the state a few years ago for general appearance and excellence of programs.

From the South Pacific comes this letter from Edward Edwards: My Dearest Mother Will drop you a few lines today to let you know I am O. K. and I hope this finds you the same.

Well, it has been very quite around here for the past few days. I haven't had much to do. But I believe I like it better this way.

I suppose everyone at home is in a good mood since the war has just about stopped. I reckon the guys will be coming home before too long although on the present set up, I still like a good bit yet. I only have 4 1/2 points and two and one half more, but if they give us anything for combat duty, I should have enough. I think it will change soon. I sure hope so. But if it doesn't, I still will be able to get out in February, so I have something to look forward to which isn't so bad.

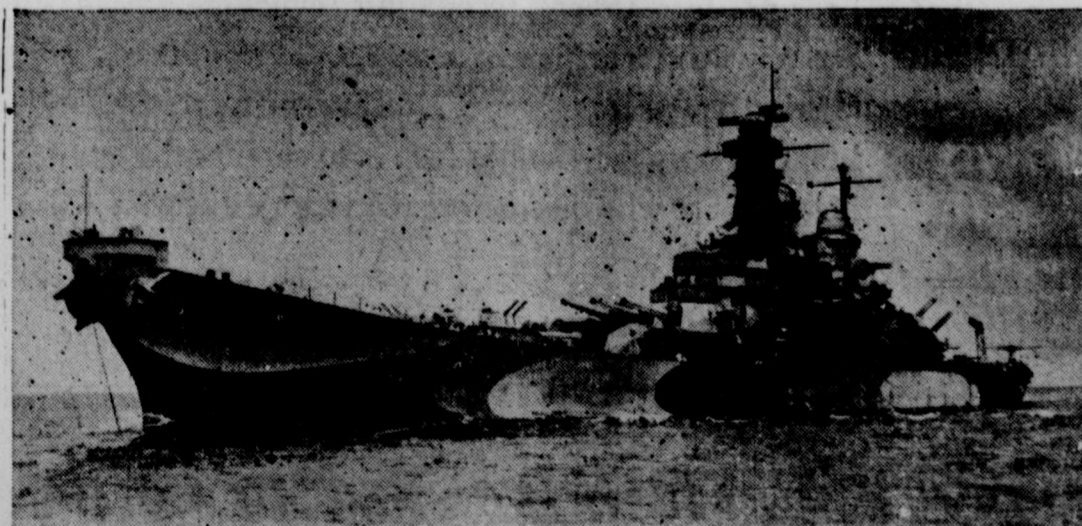

Guess I had better sign off for this time. News is rather poor.

Oh, yes, I went in on the beach the other day and looked around and saw some pretty interesting things.

MEMBER PANHANDLE PRESS ASSOCIATION

HERE'S ONE THEY are telling around that came from Preacher Jenkins. . . There was a bat that lived in the attic of a big honky-tonk. The building burned down and the bat was forced to find a new place of abode. He finally decided on the attic of a big church. The next morning, so the story goes, he was awakened by organ music. He looked down through the ceiling, and said to himself, "Ah, a new juke box". He then looked down into the room where the young women

were holding their morning Sunday School class, "Ah, he says, "A new bunch of girls". He flew on and looked down on the men's class room, "Oh, oh," he says as he went back to his perch, "The same old bunch of men".

SEVERAL NEW BUSINESSES are coming into Silverton and others are inquiring and coming here to look the town over. Right now is the time that we should be putting our best foot forward, and should be making an attempt to get new businesses. In fact this is our last chance. With the right kind of cooperation from us all, Silverton will go ahead and be a lot better town. We are rightly located to be a better town--a large trade territory--county seat--diversified farming and ranching--new irrigation wells coming in all around--nearly everything is favorable except co-operation among ourselves. I wish there were some way so that every man in business here would know that we are not in competition with ourselves--we are in competition with other towns. And that competition is going to get tough.

OTHER TOWNS ARE already organized and working. They are making overtures toward returning veterans and others who are interested in getting into business for themselves. They are offering inducements that make the newcomers feel that they are wanted and needed but we, I hate to say it, but we give a newcomer the feeling that he is INTRUDING. I know what I am talking about for not too many years ago I was new here myself. I happened to be hard headed enough to keep right on intruding, in fact rather liked the sensation, but few do. But what I am trying to say is . . .

until we break this old attitude of "I've been here for years, and I do things to suit myself" our town will do well to hold its own, let alone progress.

TO ILLUSTRATE . . . a few years back I was continually harping on better streets, and so on. And I heard a man who holds a very influential place in the town made this remark, while he was pretty aggravated at something I had said, "What the hell do we want paved streets and better buildings for? The first thing that would happen is that a bunch of chain stores would come in and give us competition that we couldn't meet. I like the town the way it is." Now isn't that a progressive statement for a town leader to make? See what I mean?

A FEW MONTHS ago the City Council warned folks repeatedly through the paper to clean up vacant lots--called attention especially to old junked cars and said that if they were not cleaned up by May 1st that drastic things would happen and that the lots would be cleaned up and the bill charged to the ones responsible. Well the car bodies are still there--perhaps a few have been added worst thing about it is that a lot of them are on lots owned by the city. Surely that could be remedied. From the way I hear it from other council members, the mayor was made a committee of one to see that the cleaning up was done. The only logical explanation I can think of is that the committee is not large enough. Or perhaps the deadline date of May 1st meant next year, or the year after, or the year after.

THERE WILL BE an election of directors for the Silverton Nation-

al Farm Loan Saturday at the office here and all members are urged to attend. There has been a movement afoot for a long time to dissolve the Silverton office and it is something to be proud of the way the local boys have stuck up for their rights. They say now that it looks like they have won an uphill battle, but a lot depends on the attendance of members at the election Saturday.

Mrs. N. C. McCain and Cecil have moved to the G. Mayfield place southwest of town. Mr. and Mrs. Albert Rowland, who formerly lived there have moved to town and now have rooms in the T. D. Wallace home. Mr. Rowland is employed at the Clay Plant.

City Fat Saving Record Falls Under Town and Farm Push

Ever since our government asked town and farm women to save used fats, the record previously set by city women has taken a beating. We must keep up the good work! This country is facing a shortage of 1 billion, 500 million pounds of fats in domestic supplies, alone. Tons of vital war and home-front supplies requiring fats are still needed. We in towns and rural districts are in a better position to save fats than most city folks, so the government is depending on us. Save every drop, every scrap. Melt down solid fats. There's never too little to save! Butchers will give you up to 4¢ and 2 red points a pound. If you have any difficulty, call your Home Demonstration or County Agent. Approved by WPA and OPA. Paid for by Industry.

IN THE HOUR OF TRIUMPH

Behind us lie 3 1/2 years of deadly struggle in which, with God's help, we have prevailed. So, today, we celebrate a victory. After the celebration, what lies ahead? For most of us, the outlook is a bright one. If we will simply use the brains, the will, the energy, the enterprise . . . the materials and resources . . . with which we won our war, we can't fail to win the peace and to make this the richest, happiest land the world has known. For most of us, the years ahead are bright with promise. But for others of us--and, ironically enough, their part in bringing victory was a major one--the years to come must bear a different look. In America today are hundreds of thousands of injured men. Men with neatly pinned-up sleeves and trousers. Blinded men. Men with clever iron hooks instead of hands. Worst of all, men with hurt and darkened minds.

These men need our help. Helping them will cost a great deal of money. We can help them best by buying Victory Bonds. Far away from America today are millions of Americans. As we would be, they're on fire to get back--to their wives, to the children some of them have never seen, to their jobs. These men need our help. Helping them will cost a great deal of money. And we can help them best by buying Victory Bonds. This is our day of triumph. But it's theirs too--the injured men, the men who are still far away. Let's not forget them, in our just rejoicing. And the one way we can help most to care for our wounded, to bring our veterans home . . . to give them a fresh start in the country they fought for . . . to care for the families of those who died before the victory was won . . . is simply this: Buy all the Bonds you can. Keep all the Bonds you buy.

SELECTIVE SERVICE BOARDS ASKED TO REMAIN ON JOB

Commenting upon the continued induction of men for the armed forces and the consequent resignation of some Texas local boards, General J. Watt Page, State Selective Service Director, said Friday that "as a matter of fact, the number of local boards who have asked that their resignations be accepted is so small as to be almost negligible -- only four out of 351 boards."

"Naturally," General Page said, "they are all tired after five years of arduous service. As board members they have done one of the most patriotic jobs in the annals of our country. In addition to being non-compensated, they have neglected their own business. In

many cases they have lost money and friends of long standing, and have been subjected to all manner of abuse -- these men without decorations. They can never be fully paid for their contribution to the winning of World War II. Their only remuneration is contained within their hearts and souls in the knowledge that they have served fearlessly, tirelessly, and honestly for their country. No man can do more. BUT THEIR SERVICE IS NOT YET COMPLETED, even though the shooting war is over.

"Millions of our boys are overseas and have been there and in combat for several years. Certainly, they should now be allowed to come home to their families. For example, I haven't seen my

We've Got Our Honorable Discharge, Too!

Reconversion is already a fact at

PHILLIPS 66

We're lucky! So are you!

For 24 hours a day, from Pearl Harbor to V-J Day, our refineries went full blast for Uncle Sam.

And now? Why, they're going full blast for you... speeding the wonderful new Phillips 66 gasoline on its way to you.

That's what we mean by reconversion!

The high octane fuels that once went into the big bombers will now go to you -- especially adapted for your engine.

All the tricks, all the better ways we learned to do things, will now go to work for you.

From now on mister, the only priority you're going to need to get a tankful of Phillips 66 is the car you drive and your own good common sense.

Come and get it!

boy for over three years. Now 'my boy' is simply representative of hundreds and hundreds of thousands of other fathers and mothers and wives with men long in the service. The government is strenuously trying to return these men. In fact, right here in Texas the official reports of discharges which we are receiving at Selective Service Headquarters now total close to 1,000 notices per day. The Army, the Navy, the Marine Corps and the Coast Guard cannot keep this up unless, of course, we can send able-bodied men overseas to replace those who should now be sent home.

"Surely, in this democratic country of ours, it is expected that every man shall participate in its wars. A great many of our young men in the 18 through 25 group have been deterred for several years for one reason or another. These young men have been on good salaries. They have been able to sleep in good beds and have good food. They have had almost complete security with little or no jeopardy of life or limb. Why should not these young men now take up the gun and 'stand guard' for a while?"

"That is why we must for the present continue to issue calls for the induction of men. The calls are small -- about 50,000 per month for the nation -- but, as President Truman has pointed out, they are still necessary. That is why most of the local boards are 'standing by their guns' and not resigning. The boys 'over there' didn't lay down their guns until it was all over."
