Honor Roll for Schools Given This Week

Following is the honor roll of the Silvertown schools as reported to the News this week by F. Talley, Superintendent:

First Grade
 Robert Bailey Hill, Stephens, Charles Strange, Burson, Janice Donnell, Gail, Zolie Sue Self, Marjorie Carson Grabbe, Dwain Dee Carroll Lynn Elkins, Kayson, Leah Dare Kellum, Nell McCutchen, LaWanda Vaughnell Rowell, Ginger and Wilma Shipman.

Second Grade
 Lyn Jones, Carlye Monroe, Lyn Paige, Lajuan Henderson, Deleath Peugh, Gay Lynn Day, Tom Thomas, Bradford James Ross Alexander, Stephens, and Betty Ann

Third Grade
 Lou Ballard, Fay Bradley, Dale Elkins, Victor Fogelina Lou Grabbe, Patricia, Ronald Dale Kitchens, Beth McDaniel, Ruth Nix, Reid, and Jo Ann Row-

Fourth Grade
 Ania Garrison, Sidney Mar-Charles Wayne Mayfield, Ledbetter, Joni Douglas, Bradley, Lola Mae Vaughn, Commilene Miller, James Betty Fitzgerald, Patsy Ann, Leonard Perkins, Ernest-ange, and G. W. Chappell.

Fifth Grade
 Jack Mayfield, Donna Mayfield, Ann Bomar, Patsy Dell Teague, Mildred Bean, Harrine Strickland.

Sixth Grade
 Copeland, Junis Mer-ndra Mallow, Sam Lusk, Steele.

Seventh Grade
 Ann Nance and Estelle

Eighth Grade
 Bomar, Mary Tom Lanelle Copeland, Nadyne, Vonna Wood, John Fran-oy Hyatt, and Duane

Sophomore
 Deavenport, Joye Brown Rue Gilkeyson.

Junior
 Morris and Gladys Hyatt.

Senior
 Jewel Leuty, Modine and Jack Paige.

Rely on the Remedies For Childhood Diseases

The incidence of chicken-er than 50 per cent higher rds indicate for a seven edian, Dr. George W. Cox, health officer, issued a nt today declaring, "It is mistake to treat ven-ises of childhood diseases s chickenpox, measles, scarlet fever or whoop-ugh as though they did unt to much. That sort of nt makes it possible for eases to spread and cause outbreaks among children r resulting impaired re-akes them easy victims rms of infection.

of the most serious out- of chickenpox which we d, have been traced to es—that is, to cases too the doctor to be called. nstances the children ntinued to go to school ssociate and play with ildren. In others, after ve been kept at home for days, they have returned and have scattered these ound among their school-Eventually a group of ometimes very serious ve developed from the y-handled mild case. The as another epidemic that ve been prevented."

ate health officer said family doctor is the best of the seriousness of such diseases, and suffering ety will be avoided if is put to bed, and a advice sought and fol-

Weekly Hours on Decrease, Wages on Increase U. of T. Says

Weekly hours on the decrease and hourly and weekly earnings on the incline continue to mark Texas industries, according to reports by The University of Texas Bureau of Business Research in cooperation with the Bureau of Labor Statistics.

Compared to January 1946, weekly hours in January 1947 were down in all industries except six and hourly earnings for the January-to-January comparison were up with the exception of two industries in the nonmanufacturing group.

St. Patrick's Cathedral in New York City is said to be the first and last major church structure in the United States to be built entirely by hand.

Large Crowd Attends Tacky Party and Pie Supper in Vets Hall

A nice crowd attended the Tacky Party and Pie Supper, sponsored by the Ladies Auxiliary to the Veterans of Foreign Wars, Tuesday night, March 11, in the Vets Hall.

Snap, Flying Dutchman and other old-time games were played by some, while others played "42" and dominoes.

Mrs. Bailey Childress was voted "tackiest" woman there and her son, Vance, was voted "tackiest" man. The prize was a huge decorated cake.

Members of the Auxiliary appreciate the fine cooperation they were given, and especially do they appreciate the help of Earl Cantwell, who was auctioneer.

Some time next month the Auxiliary will sponsor another entertainment. Watch for the date.

Poultry Raisers Given Warning Concerning Late Ordering

Texas poultry raisers who delay "until the last minute" ordering their 1947 pouls are likely to find hatcherymen unable to fill their orders.

That warning is given by Ted Martin, Extension poultry husbandman of Texas A. and M. College. Martin says hatcherymen are reporting that early pouls are moving very slowly, and that when the late rush to buy pouls comes along, the hatcheries may not have enough birds on hand to supply all needs. Even though growers do not want pouls until April Martin advises them to get the pouls on order now to give hatcherymen a chance to know what their needs will be, so that orders can be filled when the time comes.

Growers have found that it pays to be prepared for the pouls before they arrive, Martin says. Cleaning the brooders, putting heating and watering equipment in order are a few of the jobs that will help the grower be prepared for his pouls when they arrive.

The need also exists for producers to get their baby chick orders in now if they have not made arrangements already. Unlike pouls, chickens are moving fast and some hatcheries are already reported sold out.

George Seaney On Ticket for City Councilman

A week ago last Monday George Seaney, of the Seaney Appliance and Hardware store of this city, was nominated at a mass meeting of the voters as a candidate for councilman of the City of Silvertown.

Mr. Seaney opened his campaign on Monday of this week, using street cleaning and drainage as his platform.

With snow drifted deeply about the curbs of the business district, Mr. Seaney, with the assistance of a Jeep, drove up and down all the curbs in town making a ditch, in order that the water and slush from the melting snow might drain off more quickly.

March 15 Last Date For Making Entry In Lubbock Show

Last day for making entries in the South Plains Junior Fat Stock Show is March 15, Dave W. Sherrill, new Lubbock County agent and general superintendent of the exposition, reminded all would be exhibitors today. Sherrill said all entries postmarked not later than midnight of that date would be accepted by M. D. Fanning, Fat Stock Show secretary, Box 561, Lubbock, Texas.

Dates for the 1947 show are March 24, 25 and 26.

Many exhibitors who have had animals in the various junior fat stock shows throughout the South Plains will have fat pigs, calves and lambs at the Lubbock exhibition.

Plans are going forward for the free movie and complimentary barbecue for all exhibitors. Bob Humphries, member of the Lubbock Jaycees who are sponsoring the 4-H Club and FFA Boys Parade, will be parade master. He expects to have the best procession in the history of the event.

Veterans Dropping Government Policies May Reinstate Now

President Truman has signed legislation liberalizing the National Service Life Insurance Act for some 10,000,000 World War II veterans who have permitted their policies to lapse.

Policies, which have lapsed at any time, may be reinstated by payment of two monthly premiums provided the holders are in as good health as they were at the time of lapse. These liberal reinstatement provisions will remain in effect until August 1, 1947, the Public Relations section of Fourth Army Headquarters announced this week.

Farmers Should Have Seed Samples Tested Says Tech Professor

Seed germination tests to date indicate that seed from red top or sumac cane and from sudan grass harvested after frost last fall have a comparatively low germination rate, according to Dr. A. W. Young, head of the plant industry department at Texas Technological College.

Good seed will germinate more than 90 per cent, Dr. Young said, while much of last fall's late maturing crop has a rate of 60 per cent or less.

Farmers should have seed samples tested, either at the state agriculture department's seed testing laboratory in Austin or at a commercial plant. Dr. Young suggested. If the germination rate is low, producers will likely find it more profitable to sell their seed for feeding purposes than to plant extra seeds, he said.

Junior Play to be Presented Here next Thursday Night

The Junior Class of the Silvertown high school will present their annual Junior play in the high school auditorium on Thursday night, March 20, starting at 7:30, it was announced this week.

The Juniors have chosen as this year's production a royalty play entitled "The Campbells Are Coming", written by Jay Tobias and published by T. S. Denison and Company.

"The Campbells Are Coming" is a three-act comedy with a hill-billy theme that will give over two hours of continuous laughter. It is the story of Ma Brannigan

More Leaders For Girl Scout Troops Needed In Silvertown

If you enjoy putting on amateur theatricals or cooking a supper out-of-doors or you're interested in doing more to help your community, you may be one of the women seventy-two Silvertown girls are looking for.

Earl Brock, Commissioner of the Silvertown Girl Scout Council, revealed today that seventy-two who want to be Girl Scouts are on the lookout for six leaders to help them organize new Girl Scout troops. Right now these girls are having to sit on the Girl Scout sidelines because there is no room for them in Silvertown's four Girl Scout troops.

Hearing about the good times their friends are having as Girl Scouts is all right, they tell Mr. Brock, but being a Girl Scout would be a lot more fun.

Whichever troop she chooses, a new leader is not expected to start right out with only her interest and abilities as equipment. The Silvertown Council offers aid in familiarizing her with Girl Scouting. After she has become an active leader, she will meet informally with other leaders for workshops in the games her girls like to play, new camping ideas and all the other activities her Girl Scouts enjoy.

Farmers Should Have Seed Samples Tested Says Tech Professor

Seed germination tests to date indicate that seed from red top or sumac cane and from sudan grass harvested after frost last fall have a comparatively low germination rate, according to Dr. A. W. Young, head of the plant industry department at Texas Technological College.

Good seed will germinate more than 90 per cent, Dr. Young said, while much of last fall's late maturing crop has a rate of 60 per cent or less.

Farmers should have seed samples tested, either at the state agriculture department's seed testing laboratory in Austin or at a commercial plant. Dr. Young suggested. If the germination rate is low, producers will likely find it more profitable to sell their seed for feeding purposes than to plant extra seeds, he said.

Congratulations to:

Mr. and Mrs. Leo Comer on birth of a daughter, Julia Canella, weighing 6 pounds 8 ounces at the Northwest Texas hospital, Amarillo, March 8th.

In recorded history, no woman ever has set foot on the great continent of Antarctica.

Six-Inch Snow Falls Here This Week

A six-inch snow, which blanketed the county Sunday and Monday of this week, caused the people of this section to pull out their heavy coats and overshoes again for the fourth consecutive time in the past four weeks.

The snow, which was accompanied by higher-than-average winds, started falling in the early hours of the morning Sunday and by noon the earth was completely blanketed. Temperatures were a little above the freezing mark Sunday, thus much of the snow melted.

Moisture, as a result of this week's snow, amounted to .52 of an inch, it was reported by Ray C. Bomar, operator of the Federal Weather Bureau station here. The lowest temperature for the week, as reported by Mr. Bomar, was 26 degrees and the highest, 33 degrees. The lowest temperature was recorded on Thursday morning.

It is believed that the wheat has been greatly benefited by the recent snows and moisture, but the current wishes of the people seem to be turning toward warm days with more sunshine.

Dance to Be In Vets Hall Next Thursday Night

According to an announcement made here this week, the local posts of the American Legion and the Veterans of Foreign Wars are sponsoring a dance, which is to be held in the Veterans Hall, next Thursday night, March 20th.

Music for the occasion will be furnished by the West Texas Playboys, a hillbilly orchestra, which has played here at dances heretofore in the Vets Hall.

Admission prices are to be the same as usual and a good crowd is expected to attend—this being the first dance to be held in the Hall in over a month.

Tulia Man Owner of Jersey Cow that Sets Butterfat Record

Texas has a new butterfat champion—Welcome Volunteer Sable, five-year-old Jersey cow owned by J. Chester Elliff of Tulia.

J. W. Davis, Extension dairyman of Texas A. and M. College, has been informed by the American Jersey Cattle Club that the Jersey set a new state record in butterfat production when she produced 18,998 pounds of milk and 1,144 pounds of butterfat in 365 days, on a three-time-per-day milking basis.

Welcome Volunteer Sable's performance topped the 1,077 pound butterfat record made in 1945 by her half-sister, Welcome Volunteer Tiff, also owned by Elliff, a former FFA boy. Both Sable and Tiff were sired by the champion bull Welcome Volunteer, then owned by Elliff, who sold the sire last year to a Massachusetts dairy farm.

Sable is now third all time highest butterfat producer of the Jersey breed, according to Dairyman Davis.

Senior Scout Girls Practicing on Play To Be Given Soon

Mrs. Daisy Burson, Senior Scout leader, announced this week that the girls in her troop were practicing a three-act comedy that will be given in the near future.

Watch for the name of the play, the names of the characters and the date the play will be given.

SWING OF THE SOUTHWEST FARM MARKETS

Grain prices spiraled upward, and most other farm markets continued steady to strong last week, according to the Production and Marketing Administration, U. S. Department of Agriculture. Hogs eased back from record prices of recent days.

Heavy shipments of cabbage and citrus fruits continued to move from the Lower Rio Grande Valley, and carrots came into full tide. Cabbage prices weakened, but other vegetables held fairly firm, and demand for citrus fruits improved. Denver's wholesale market found Texas beets stronger, and early Texas strawberries were quoted at 50 cents per pint. Colorado potatoes gained strength, and Louisiana sweet potatoes remained about steady. Local cabbage weakened at New Orleans.

Eggs and poultry found a firm market last week, as demand remained good. Current receipt eggs averaged around 37 to 38 cents per dozen at San Antonio, Fort Worth, Dallas, and Oklahoma City; 35 at Topeka; 36 at Denver; and 39 at New Orleans. Spot cotton advanced about \$2.25 per bale. Activity increased.

See FARM MARKET—Page 8

Colds Are Costly Try to Prevent Them Warns Dr. Cox

What causes colds? Colds are caused by germs too small to be seen under a powerful microscope, they are known as "Filterable Virus." They are present in discharges from nose and throat. They are spread from person to person by sneezing, coughing, spitting, or on any freshly contaminated article, as a drinking glass, which will pass on the infected saliva. A cold is not likely to be passed on during the first 24 hours.

If we could each live like a hermit, apart from others, we would probably never "catch cold." People living in Greenland and Labrador, we are told, do not have colds in the winter even when exposed to the most severe weather.

The busy person in everyday life cannot avoid exposure to colds. We expect to be sprayed by careless coughers and sneezers. Young children, elderly people and invalids who suffer most from the effects of a cold should certainly be protected from those who have colds. Children with colds should be kept home from schools, and if rest and light food do not help the cold to disappear shortly, then the family physician should be called. This may not be a cold but even more serious, as most of the communicable diseases start with some of the symptoms of a cold.

What can we do to avoid colds that cause more loss of time from industry and schools than all the other diseases combined? Have your own cup and glass at home and elsewhere; dress for the weather; eat a balanced diet; get plenty of rest; keep away from persons with colds.

Colds are costly. Prevent them if possible.

In Memory of Mother Hardin

Mrs. Mary C. McDaniel Hardin was born in Bentonville, Benton county, Arkansas, March 9, 1869. She came with her parents to Hill county, Texas when she was 8 years old.

On November 21, 1888, she was married to William Franklin Hardin. She moved to Knox county in 1900 and lived there until moving to Silvertown in 1936.

Mrs. Hardin was converted and united with the Baptist church when she was 14 years of age. Her love for the church and the work of the Lord has been proven by the consecrated life she lived each day. Each and everyone loved her and will miss her.

Mrs. Hardin passed away March 3, 1947, leaving to witness her going one son, Otis J. Hardin of Lubbock; one daughter, Mrs. Hugh Stodghill of Silvertown; 20 grandchildren; 10 great-grandchildren; two brothers; three sisters; other relatives and friends.

Preceding her in death were two sons, Mart Hardin of Munday, in 1936, he left a wife, three sons and a daughter; and George S. Hardin of Vernon, in 1938, he left a wife, two sons and a daughter.

Funeral services for Mrs. Hardin were held at Silvertown March 4, 1947, from the First Baptist church, Rev. G. A. Elrod and Rev. H. W. Barnett officiated.

A short service was held at Munday March 5, in the home of Mrs. Mart Hardin. Burial was in Johnson cemetery March 5.

To Date There Is No War Between U. S. And Russia

Contrary to reports heard around Silvertown late yesterday afternoon, there is no state of war existing between the United States and Russia. Ex-service men can let off steam now just in case they heard one of these rumors.

The editor, after hearing such rumor, listened to his radio all afternoon and the only thing heard out of the ordinary was more Boogie Woogie than usual, and that the Republicans plan to cut income tax payments 20 percent.

PERSONAL ITEMS OF LOCAL INTEREST

Mrs. Clifford Allard has been confined to her bed with an attack of intestinal flu. She is reported to be improving now.

Mr. and Mrs. Earl Brock were in Plainview Tuesday attending to business.

Howard Brown was in Amarillo Tuesday consulting an eye specialist.

Mr. and Mrs. Bill Gatewood and daughter were business visitors in Tulia Tuesday of this week.

Mr. and Mrs. Bob Grimland of Oklahoma City and Mr. and Mrs. Cecil McKay of Turkey were weekend guests of Mr. and Mrs. Woodree Grimland and other relatives.

Preston Trower, owner of the Palace Drug Store was in Lubbock on Monday of this week attending to business relative to his drug store.

Mr. and Mrs. Jimmie Stevenson have purchased the home formerly owned and occupied by Mr. and Mrs. Roy Morris. They will move to their new home in the very near future.

Among those attending the Fat Stock Show in Amarillo last week were Mr. and Mrs. Bob McDaniel, Gordon Fore, Lillian Brooks and Mrs. Vern Beardin.

Mr. and Mrs. Clifford Simmons and Bonnie Jean of Plainview were guests of Mr. and Mrs. Bob McDaniel over the weekend.

Mr. and Mrs. Glenn Fore and Miss Lillian Holcomb of Amarillo visited in the home of Mr. Fore's sister, Mrs. Bob McDaniel, and family Friday evening.

Mrs. Vern Beardin is visiting relatives in Amarillo this week.

Miss Mildred Carruth, a student at WTSC, Canyon, is spending the weekend with her parents.

Power In The Southwest . . .

Some time ago, the Southwestern Power Administration submitted to Congress a plan for marketing the electric power output of the government-owned hydroelectric projects in the region. That plan involves spending nearly \$250,000,000 of public money—not counting the cost of flood control dams and their generating stations—for building tax-exempt steam generating plants and transmission lines which largely duplicate the existing facilities of the heavily-taxed electric utilities in the Southwest.

For the time being, that plan is being held in abeyance in Congress. But its proponents are working aggressively to get it approved in full. The American people should realize the enormous, unnecessary waste of public funds involved.

The electric companies of the Southwest have made an offer whose main points are: to purchase the entire hydroelectric output of all existing dams and all other dams built in the future; to build at their own expense any additional transmission lines which may become necessary; to give preference to public bodies and to Rural Electric Cooperatives, as Congress may prescribe—and, under public regulation, pass on to the consumer savings which may accrue through the purchase of the power.

This plan would give the Southwest full benefits of the government produced power. It would not cost the taxpayers a single penny for duplicating facilities. It would create new taxable resources for all units of government, from villages to the national treasury, instead of destroying taxable income and property. It is based solidly on logic, economics and the needs and rights of the consuming public. And it would prevent loading a new burden on the backs of the taxpayers at a time when budget reduction is vital to national solvency.

Under these circumstances, what possible excuse can be offered for appropriating enormous sums to build unnecessary, duplicate power facilities in the Southwest? Every taxpayer, wherever he may live, has a stake in this.

Weekly SURPLUS NEWS WAA

As of the close of business February 28, the Dallas and Fort Worth regional offices of War Assets Administration were officially merged. The new regional office, with administration over territories formerly administered by the two regional offices separately, will be known as the Grand Prairie regional office of WAA, with offices in the "B" plant of the North American Aviation plant, Grand Prairie, Texas. The mailing address will be Grand Prairie regional Office, P. O. Box 6030, Dallas 2, Texas. All inquiries regarding surplus property will henceforward be directed to the new regional office at the above address.

More than 600,000 surplus all-wool Navy dress and undress jumpers will be offered for sale on a competitive bid basis, WAA has announced. Bids will be accepted by the two regions in which the jumpers are located until 5 p.m., March 19. Most of the dress jumpers are located in the naval supply depot at Clearfield, Utah. The remainder are in the naval clothing depot, Brooklyn, N. Y. All jumpers are packaged 14 to 18 of one size in card board boxes. The garments are suitable for use by manufacturers of clothing particularly children's clothing. All inquiries should be addressed to the Customer's Service division, WAA, P. O. Box 6030, Dallas, Texas.

WAA announced today that approximately 13,500 unused surplus hospital and laboratory type sterilizers that originally cost the government \$2,800,000 will be offered in competitive bid sale from March 10 to April 7. Included in the offering are many types of items, ranging from small instrument sterilizers to large hospital type batteries that combine autoclaves, instrument sterilizers, utensil sterilizers and water sterilizers. Priority buyers, hospitals, universities, colleges, hospital and laboratory equipment manufacturers and distributors and exporters should make inquiries of the Customer's Service division, WAA, P. O. Box 6030, Dallas.

A sweeping three-fold plan to liquidate all remaining salable surplus aircraft has been announced by WAA. The salable planes—comprising types which can be converted for use in civil aviation—still remaining in surplus tocks number about 3,000. All of them will be offered by WAA in three distinct but concurrent sales during March.

Each year in Texas, about 250 people lose their lives in fires on farms or in rural communities. One-third of these people are children under 10 years of age.

Nitrogen fertilizers have increased consistently the yields of rice in experiments carried on near Beaumont by Texas A. and M. College Agricultural Experiment Station No. 4.

U. S. farmers borrowed 615 million dollars in 1946 from production credit associations.

During the war, between 90 and 95 per cent of all meat sold in the U. S. was federally graded as "choice, good, commercial, or utility".

Veterans Administration is authorized to accept gifts and donations for the benefit of veterans who are patients in VA hospitals.

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago Released by Western Newspaper Union

LESSON FOR MARCH 16

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

INTIMATE FELLOWSHIP WITH CHRIST

LESSON TEXT—John 14:1-6, 12-18; 15:1-6.

MEMORY SELECTION—Ye are my friends, if ye do whatsoever I command you.—John 15:14.

The hour had come for our Lord's final intimate words with his disciples. It was indeed a solemn, but also a blessed, hour.

It was the night before the darkest day in the world's history. On the morrow the Son of man was to hang on Calvary's tree for the sins of the world—for your sins and for mine. But for the moment he was alone with his disciples.

The last Passover had been eaten together, the betrayer had been discovered, and the Lord has told them that he was soon to go where they could not follow. Peter had, by his bold self-assurance, brought forth the prophecy of his denial.

The disciples were disturbed in heart and mind. Then came from the Saviour's lips the words of comfort, assurance and power which have been the strength and solace of his people through all the centuries. Our life both here and hereafter is in his mighty hands.

We learn in this precious portion of Scripture that

I. The Christian Need Not Be Fearful (14:1-6).

That is indeed a good word—a needed word! Troubled hearts are everywhere—in the palace and in the cottage, on land, in the air and on the sea. There is a place of rest, thank God! There is One who still speaks the majestic words, "Let not your heart be troubled, believe in God, believe also in me."

His comfort is one which covers the future life, for he says, "I go to prepare a place" (v. 2). Concern about future destiny is settled at once when Christ Jesus becomes our Lord and Saviour. We need worry no longer. He has gone on before to the Father's house to prepare a place for his own. When we come to that ever-peaceful shore we shall not come as strangers, but as sons and daughters to a prepared place in our Father's house.

His words, "I will come again" (v. 3), gives present meaning to the future promise. He not only prepared the place, but he it is who brings us there. The glorious hope of his coming again is the Christian's greatest comfort and mightiest incentive to useful, holy living.

II. The Christian Need Not Be Powerless (14:12-15).

Christ's followers are not here

in a world of sin and need as a little group of hymn-singing weaklings, thinking only of the day when they shall be in a brighter land. Ah, yes, they sing hymns and rejoice in them; they look for a better land; their weapons of warfare are not carnal. But weaklings? Oh, no! God uses them to do great and mighty things for his glory.

Note the blessed words of Jesus, "He that believeth on me" (v. 12). The army of God carries the royal banner of faith in a living Christ. "Greater works . . . shall he do" (v. 12). Jesus only began his work on earth; its greatest development was to be the joyous privilege of his followers. We are ashamed that we have not lived up to this great promise, but by his grace we will do better.

"If ye ask . . . I will do" (v. 14). Someone has called this a signed blank check on all the resources of God.

III. The Christian Need not Be Distressed (14:16-18).

The Holy Spirit, promised by Christ as the abiding comforter, came so to abide in the believer on the day of Pentecost (Acts 2). The ministries of the Holy Spirit are many, but here the emphasis is on his work as Comforter. What a blessed and helpful ministry, and how much needed by distressed and disturbed souls! The Christian may count on him—and not be distressed.

IV. The Christian Need Not Be Detached (15:1-6).

What is worse than the feeling that one does not belong to anyone else, that one is a detached individual? That is never true of the believer in Christ. We are as

close to him as the branch is to the vine. We are in him.

Christ is the vine, and the believer as a true branch is united with him. There is a oneness, here which is difficult to express, but delightful to receive and believe.

He who is the vine needs no cleansing, but the branch needs constant, daily purification by the word. Are we permitting God's Word to keep us clean? Only if

we are reading it, studying it, meditating upon it.

There is, moreover, a severer type of purging to which the husbandman subjects the vine that it may bear more richly, and that is pruning (v. 2).

Some branches must be cut away altogether and burned (v. 6). They lack the evidence of life—fruit-bearing—and must be destroyed.

National farm income for January and February of this year will be about one-third higher than for those months in 1946, the U. S. Department of Agriculture reports.

March 1-9 has been designated as National 4-H Club Week.

Texas grapefruit production for this season is now estimated at 25,000,000 boxes—one million boxes more than the 1945-46 production.

One of the easiest, most worthwhile means of increasing buying power today is the home production of vegetables in a backyard garden.

Farmall-A THE ROW-CROP TRACTOR WITH Culti-Vision

"The handiest, workingest little tractor ever built!" That's what owners say about the Farmall-A, designed especially for smaller row-crop farms.

Farmall-A has the power to plow deep, full-size furrows—5 to 7 acrs. a day. It will harrow, plant, cultivate, operate hay tools, binder, combine, or do any other kind of farm work. Its Culti-Vision design enables the driver to clearly see the work ahead of him . . . permits cultivating close to rows . . . assures better work.

Drop in the next time you are in town and let us tell you more about the Farmall-A and the equipment built to go with it.

Two of the millions of men who are helping to fight world starvation

The world's population is about 2 billion men, women and children. We have been told that about 1/4 of them are now facing starvation. Up to now, American farmers—men such as the two shown above—have been working day in and day out with less help and less machinery to keep up the never-ending flow of foodstuffs needed in all parts of the world.

The so-called "Bible Belt" of this country has produced more legislators, more mis-

sionaries, more scientists, more educators, more engineers, more God-fearing men and women than any other part of this troubled world. From our farms have come some of the greatest "spiritual giants" of the past three centuries.

Our sincere congratulations to the 3,000,000 farm families in this country for the great work they have done the past four years, and for what they are doing to fight off starvation all over the globe.

"The American Church and Sunday School are the greatest centers of good in all the world"

**The First Baptist Church
The Methodist Church**

It has been authoritatively estimated that about 9,000,000 Americans own stock in one or more corporations.

Only eight of the United States pay their Governors salaries of more than \$10,000 a year. New York is the highest with \$25,000.

Less than 20 miles offshore from Cuba's highest mountain—Turquino, 6,560 feet—the Caribbean Sea reaches a depth of 4 1/4 miles.

In 1826, eight tons of rubber imported from Brazil sufficed the needs of the United States for a full year.

NOTICE

I will be closed from the 17th of March through the 29th for a short rest and medical attention. Will be back the 31st of March to serve you better than ever.

True Burson —and— Wayne Crawford

DAY-TIME COTTON

This steel-gray chambray day-dress of floor length, worn by Eleanor Parker, beautiful Warner Bros. star, has icy-white wavy-lengths embroidered to the waist.

SHE PICKS COTTON

Lovely Jean Winfield, a Warner Bros. star, picked a smart hummingbird and floral pattern in this cool and playful outfit of white cotton.

At the fashionable winter colony of Nassau, the Bahamas, a model displays the latest sports dress with wadded bodice and self stole, made of dark, fine-striped brown or navy cotton.

A LOVELY LADY

By Mrs. Buster Wilson
(Dedicated to Mother Hardin)

I know a lovely lady
With such a pleasant smile—
That always seems to say to me
"I'm glad to see you, child."

In our little church I met her
'Twas there I heard her pray—
And that she loves the Master
She doesn't have to say.

I'm sure He dwells within her heart
His love shines from her face—
'Tis why this lovely lady's
So filled with charm and grace.

Mrs. Obra Watson Hostess to L. T. D. Club Last Week

L. T. D. Club met with Mrs. Obra Watson Tuesday, March 4, from 4 to 6 p.m.

"Guess Whats" were given to Mrs. J. W. Lyon, Jr., and Mrs. Conrad Alexander.

Refreshments were served to the following members: Mesdames Conrad Alexander, Arnold Brown, Dutch Tidwell, J. W. Lyon, Jr., Johnnie Lanham and Ware Fogerson.

The next meeting will be in the home of Mrs. Dutch Tidwell on March 18.

Texas Day Observed By 1925 Study Club Last Wednesday

"Texas Day" was observed by the Woman's 1925 Study Club when it met Wednesday in the home of Mrs. Cleat Miller.

Mrs. Fred Lemons gave an interesting and instructive discussion on "The Giant World of Texas." Mrs. Gordon Alexander had the subject "Literature, Music and Art in Texas." Mrs. Bland Burson of Channing, a former member of the club, was a visitor. She rendered several piano selections by Texas composers.

Mrs. Wimberley, president, was in charge of the business session. Mrs. G. A. Elrod was elected delegate to the District Convention at Childress, which will convene March 18.

The club presented Mrs. Burson with a beautiful vase.

Mrs. Miller served a refreshment plate that was in keeping with the program.

The next meeting will be March 26, with Mrs. Alton Steele as hostess and program leader.

A SAD SACQUE

Both of these sweaters were laundered the same way in the family washing machine — but the sad sacque being held up for size was not Koloc treated. What is Koloc? Well, it's a milk-like liquid derived from petroleum and coal tar products. When applied to woolsens, it reduces shrinkage from the range of 30 to 40 per cent to as little as two or three per cent. In addition, Koloc treated fabrics are said to be approximately 10 per cent stronger and promise longer wear.

Office Supplies at the News.

Six Sisters Enjoy Reunion in Wichita Falls Recently

Six sisters surprised Mrs. John H. Stephen, 2916 Baltimore, Wichita Falls, on her birthday recently, and counting the year celebrated, their combined age was 589 years. The honoree was 89.

Ranging in age from 72 to 95, those present for the party were Mrs. E. J. Vaughan, 95, Mrs. Mary R. V. Rodgers, 84, Miss Lucindia C. Spencer, 80, and Mrs. E. E. Hood, 78, all of Silverton, Texas; Mrs. Sallie E. Rodgers, 91, Erick, Okla., and the "baby" of the family, Mrs. Myrtle E. Moffett, 72, Mangum, Okla.

A brother, E. Ray Spencer of Erick, Okla., who is celebrating his 86th birthday Tuesday, was unable to attend. Another sister and two brothers are deceased.

Last Reunion in 1939
The celebration marked the first reunion of the sisters since 1939, when with Brother Ray and Sister Annie, now dead, they journeyed to New Mexico for a vacation, traveling in the car of one of the numerous offspring.

The Silverton sisters motored down to Wichita Falls, but the Oklahoma sisters "just stepped on the train and here we are." (Incidentally, the two whose surnames are Rodgers explained that Mary's Mr. Rodgers was a nephew of Sallie's Mr. Rodgers.)

The girls greying now and stooped from years of living, yet are active and carry on spritely discussions—contradicting each other as sisters do—of family history. All of the children were born in Texas, three being born in Harrison county, four in Bosque county, one in Smith county, one in Wood county, one in Tarrant county and one in Hill county.

Their father and his brothers were surveyors of undeveloped land and their work occasioned many moves for the family.

Pioneer Life
With the oldest sister born only four years after Texas became a state, before much of the land was settled, they can remember much of what it was like to be pioneers.

Prized possessions of the girls are pictures, one taken Thanksgiving Day, 1895, when Brother Bob and the other sister were

alive, and made 10 in the group, and one taken on the New Mexico trip, when there were nine.

The six sisters who married boast of their youngsters, including 20 sons and daughters, 41 grandchildren and 11 great-grandchildren.

ROCK CREEK CLUB WILL MEET TUESDAY, MARCH 18

Mrs. Wayland Fitzgerald will be hostess to the Rock Creek Club when it meets at her home, Tuesday, March 18.

All members are urged to be present.

According to the latest registration, there are 10,288 taxicabs in New York; 9,851 in the District of Columbia, and 3,275 in Chicago.

Rosetta Holland Bob Grimland Marry in Dallas

Rosetta Holland, daughter of Mrs. R. L. Grimland of Oklahoma City, became the bride of Bob Grimland, son of Mr. and Mrs. W. K. Grimland of Silverton, Friday night, March 7, at Dallas.

The bride wore a light blue suit with black accessories and corsage of red rose buds.

The couple is at home in Oklahoma City, where they are employed at Esquire Cleaners.

The speed of a champion greyhound on an English course recently was timed at 525 yards in 28.99 seconds, or 37 miles an hour.

Dr. K. M. Watkins
DENTIST
Offices Located in The
Old Frank Havran Bldg.

All of us have run across some
little poem or article whose
sentiment struck us as being of
such an appealing nature that
we have clipped it out and kept
it.

Your columnist never thought
that anything which he might
write would be worthy of such
regard, but a few days ago an
old-time friend, J. LeRoy Arnold
of Eastland, pulled from his bill-
fold a clipping that was yellow
with years, having appeared in
the paper when I was editor
there about 1922. Perhaps you
would like to read it!

"Seize the moments as they
pass. Fill them with kindness and
service to others. Courtesy and
consideration for those with
whom you come in contact cost
nothing, yet they often win a
loyalty and devotion that all
Midas' gold could never buy. And,
besides, they will mean happiness
to you; your heart will glow with
the satisfaction of having done
something worth while.

"Not all of us can aid in re-
forming a nation and uplifting
the condition of a people. Not all
of us can write poems that will
elevate man's mind or compose
music that will flood the soul
with harmony, or preach a ser-
mon that will turn mankind's
thoughts to noble themes. Not all
of us can write a novel that will
touch men's hearts with sympathy
nor can all of us lead an army that
brings liberation to a land.

"But, with our gifts and capaci-
ties we can—in our sphere,
whether large or small—do some-
thing to make people happier.

"What will it avail you, in the
evening of your life, if you have
succeeded in business but have
done so at the price of a hardened
heart and a shrunken and shrivel-
led soul?

"The man who makes those
about him glad, spreads smiles
and good cheer, and extends a
helping hand in time of need and
a consoling word in the hour of
sorrow, is the only true success."

You no doubt noticed in the
papers the other day where Miss
Nancy Huval of Pampa wrote a
letter to President Truman, say-
ing that if Alaska is admitted as
a state, it ought to be divided in-
to two or three, as "Texas just
has to be the biggest state."

For a good while, this columnist
has been giving thought to the
condition that would result if
Alaska becomes a state and it is
gratifying to learn that there are
others who feel concerned about
it, too.

The young lady from Pampa
is to be congratulated, however,
on doing something about it and
she showed fine judgment in
writing to the President himself;
there is nothing like going direct
to the "head man."

But if worse comes to worst and
Alaska is admitted as a state all

in one chunk, there is this con-
solation:

Texas—and especially the
hundreds of thousands who were
in the armed forces during the
war—have done a grand job of
letting the rest of the world know
how big Texas is and we have
such a head start on Alaska that
they will never be able to catch
up with us.

I used to tell this little story
in talks:

A Texas sergeant landed in
North Africa with a detachment
of Texans during the recent war.
He called them together and said,
"Men, we want to advance the
good neighbor policy; we are here
to create good will. If these
natives over here say that Africa
is bigger than Texas—why, just
agree with them."

But I quit telling the story be-
cause audiences thought that Tex-
as is bigger than Africa.

And, come to think of it, I be-
lieve Texas is bigger, too!

Chickens in Texas produced
191,000,000 eggs during the month
of January.

**Q. Is it more profitable to feed
a dry calf starter than to feed
calves whole milk?**

A. Yes. According to the Nutri-
tion Council of the American Feed
Manufacturers Association, at the
present time 100 lbs. of dry calf
starter costs about the same or
less than the selling price of 100
lbs. of whole milk, and yet 100
lbs. of dry starter will replace
300 to 500 lbs. of liquid milk.
Other advantages of a dry calf
starter are:

1. Simplifies calf feeding and
saves much time.
2. Eliminates the bother of
keeping milk warm and keep-
ing pails clean.
3. Greatly reduces dangers of
digestive upset due to im-
proper feeding.

**Q. How warm should the brood-
er house be?**

A. The Research Farm of the
Ralston Purina Company has
found that chicks do best when
they are started at a temperature
of 90 degrees. This temperature
should be dropped 5 degrees a
week until it is down to 60 degrees
where it should be held as long
as the chicks need heat.

**Q. What age do you recommend
for vaccinating, castrating, and
weaning pigs?**

A. It is better not to pile too
much trouble on little pigs at one
time. Castration, vaccination, and
weaning should be spaced two or
three weeks apart, and we recom-
mend castrating your pigs at
four weeks of age, vaccinating
them at six weeks, and weaning
at nine weeks.

**Q. What is a pedigree registry
certificate, and how does it differ
from a breeding certificate?**

A. A pedigree registry certi-
ficate certifies that an animal is
accepted as eligible for register-

**Q. Does the name "United States
Government Life (converted) In-
surance" include "National Ser-
vice Life Insurance?"**
A. No. "United States Govern-
ment Life Insurance" is insurance
issued to World War I veterans
or to persons who applied for
same while in active service be-
fore October 8, 1940. "National
Service Life Insurance" is insur-
ance provided for World War II
veterans. Each is sometimes re-
ferred to as "Government Insur-
ance" and each is administered
by Veterans Administration under
authority granted by Acts of Con-
gress.

**Q. How many offices does the
Veterans Administration have and
where are they located?**

A. The Veterans Administration
has a central office in Washing-
ton, D. C., and 13 branch offices
located in strategic centers of
population. In addition it has one
or more regional office field
stations or sub-regional offices in
each state. Some of these are
larger and have wider activities
than others but all are charged
with the duty of assisting veter-
ans and their dependents.

**Q. What identification data
should I give in writing about my
claim for benefits administered
by the Veterans Administration?**

A. If you are making applica-
tion you should give your full
name, grade, organization, serial
number, date of entrance into
service, date of discharge, and
date and place of birth. After
the claim is filed it will be as-
signed a claim number.

6 SIMPLE STEPS to
BETTER LIGHTING
There are six simple steps you can take to improve the lighting in your home. After you have taken these, you can learn more about good home lighting from the advice of a specialist. Fill in the coupon and mail it, or call your nearest Public Service office. Our specialist can tell you if the lightning is correct in your home or place of business. There is no charge or obligation for this service.
Clean Lamp Bows and Lamp Bulbs frequently to get more light from the lamps you have.
Use White Shades or shades with white linings. Dark shades waste light.
Avoid Direct Glare from lamp bulbs or bowls, by using shades that are deep enough and big enough.
Place Each Lamp so it puts no glare in the eyes of either person using it.
Fill Work or reading to the angle that gets rid of reflected glare. Try it, you can see the difference.
Sit Close Enough to the lamp to get all the help it can give your eyes. A difference of a few inches may mean 50% less light.

WESTERN RAILROADS
105 WEST ADAMS STREET • CHICAGO 3, ILLINOIS
Why freight rates are going up...
Since 1939, railroad employees have had three general pay raises totaling 52 1/2%, and the prices of fuel, materials and supplies have risen 61 1/2%.
But when the war ended in 1945, the railroads were still hauling freight at rates no higher, and in some cases lower, than when the war began.
Without increased revenues, railroads could not meet these costs and also provide improvements in equipment and facilities—improvements that are essential for the low-cost freight and passenger services which are necessary to America's high standard of living.
Under these circumstances—and almost a year after the last major wage increase—the Interstate Commerce Commission recently approved an average increase in freight rates of 17 1/2%.
Of all the price increases in America today, few have been so little and so late as that in the price of railroad transportation.
How important are healthy railroads to a prosperous country?
Only when the railroads are financially healthy can they provide the new equipment, improved road beds, and better terminal facilities needed for still better service to you.
The defense of the nation depends upon the continuance of the efficient transportation which served the nation so well in the last war.
The railroads are among the largest employers of labor. They buy over 100,000 different products. They pay big taxes—taxes which are spent not only for public schools, public health, and police and fire protection, but even for highways, airways, airports and inland waterways.
Railroads are America's lifeline—keeping goods flowing among the 48 states day and night in all weather.
They can continue to do this only if there is a reasonable balance between income and outgo. Like yourself, the railroads must make ends meet!
We are publishing this and other advertisements to talk with you at first hand about matters which are important to everybody.

MUTT AND JEFF
By Bud Fisher
JEFF, WHO DO YOU THINK IS THE WORLD'S GREATEST LOVER IN THIS DAY AND AGE?
WHO?
WELL, THERE'S CLARK GABLE, CHARLES BOYER AND THAT BARBER—
OH, I CAN NAME SEVERAL
YES, BUT WHO DO YOU THINK IS THE ONE GREATEST LOVER?
WELL—ER— I DON'T LIKE TO BRAG, MUTT! REALLY I DON'T BUT—ER—AH—EM!

NANCY
By Ernie
AUNT FRITZI— I JUST PHONED TO ASK IF I CAN SLEEP IN YOUR BEDROOM WITH YOU TONIGHT
BUT YOU HAVE YOUR OWN NICE BEDROOM— WHY DO YOU WANT TO SLEEP WITH ME?
AW, PLEASE, AUNT FRITZI!
OH, ALL RIGHT
NOW PLAYING THE MAD MONSTER
ALL HORROR PROGRAM
ONE
CHILLS
