**New Pastor Takes
 Over Local Church
 Last Week-end**

Rev. Grady Adcock, who was appointed pastor of the Silverton Methodist Church at the conference meeting in Amarillo recently, by Bishop Charles C. Seelman, arrived in Silverton last Thursday afternoon where he immediately took over the duties as pastor of the local church. Brother Adcock comes to Silverton to succeed Rev. H. W. Barnett who was sent to Denver City. Rev. Barnett had served the Silverton church since November 12, 1944.

Rev. Adcock, his wife and two daughters, came to Silverton from the Harrah Methodist Church of Pampa, Texas, where he had served for the past two conference years. He received his degree from McMurry College, Abilene, in 1945. While attending college he supplied McCauley church two years, Abilene one year, and Goree one year.

When asked to make a statement for the paper, Rev. Adcock said, "I think Silverton is a very nice little town and I am glad to become a resident and be among the fine people of this community."

**Car Overturns
 While Enroute to
 Rock Creek Station**

While enroute to the Rock Creek Station yesterday afternoon about 2:00 p.m., Mr. and Mrs. Riley Seay had the misfortune of having their 1937 chevrolet turn upside down, probably caused when their car started skidding on loose dirt. Mr. and Mrs. Seay were approaching the Rock Creek Station from the south on the new highway.

Mr. and Mrs. Seay were shaken up considerably but it is believed that no serious injuries resulted.

First of County's 1947 Wheat Crop Is Harvested Tuesday Morning, June 10th

**Swimming Pool
 Health Standards
 Upped by Health Dr.**

A pamphlet entitled "Minimum Swimming Pool Standards" is being distributed by the State Health Department throughout the State to operators of swimming pools or other interested parties according to Dr. George W. Cox, State health officer.

The standards set up were prepared for the protection of public health and include recommendations of the Joint Committee on Bathing Places of the Conference of State Sanitary Engineers and the American Public Health Association. These standards provide for proper sanitation practices at all types of pools from the "fill and draw type" to the modern "recirculating type".

Some of the specifications for standard sanitation are that the bacterial quality of the water should be equal to that of safe drinking water; frequency of changing or recirculating water should be such that maximum safety will be provided as well as proper economy; the water should be sufficiently disinfected to kill all disease bacteria and standards for clearness and algae control should be enforced.

Dr. Cox advises that the State Department of Health offers many services to the pool manager or operator. These services include free bacteriological analysis of the water, free kits for making chlorine residual tests on the water, and information and advisory service on any problem that may be encountered in sanitation, engineering, or operation. All operators or managers are invited to write the State Health Department if they wish to obtain the bulletin on pool operation or a free chlorine residual testing kit.

**Mr. and Mrs. Crass
 Proud Owners of
 New Airplane**

The proud owners of the new shiny-looking airplane, which has been whizzing around over Silverton this week are Mr. and Mrs. Theron Crass, the editor learned this week.

The new plane carries a title of "Ercoup" and according to Mr. Crass it has a cruising speed of 100 to 110 miles per hour. The plane, on the take-off, travels at the rate of 70 miles per hour and usually lands at the same speed; however, it can be brought down at 48 miles per hour, Mr. Crass said.

Having a tricycle landing gear, the Ercoup is designed for easy riding and comfort as well as dependability.

The new plane is in its hanger at the local airport when not being used.

Mrs. Louelle Simmons of Harlingen visited with her niece, Mrs. Brubs Bomar, here and with her brother, W. J. Hyatt, and family of San Jacinto last week-end.

ANDREW Q. ALLEN

**Allen to Head New
 Office of Baptist
 General Convention**

The selection of Andrew Q. Allen, assistant to the administrator of Baylor University Hospital, to head a newly created office of director of public relations for the Baptist General Convention of Texas was announced Tuesday by Dr. J. Howard Williams, State Baptist leader.

The decision was reached at a meeting of the State Executive Board of the Convention in Dallas.

Allen is widely known among Baptists of Texas and the South. He has served as business manager and assistant administrator of Baylor Hospital for the past three years, giving much of his time to public relations and personnel problems. Previously he has been assistant State Sunday School secretary for five years, State Sunday School leader in Tennessee for three years and with the Southern Baptist Board for six years.

He is a native of Petersburg, Hale County, and holds degrees from the University of Texas, Southwestern Baptist Theological Seminary, Fort Worth and Peabody College, Nashville, Tenn.

In announcing the creation of the new department, Dr. Williams stated that Mr. Allen would interpret Baptist news through the press, serving as contact representative, and would also interpret the press to Baptist.

A second and vital phase of his work, the Baptist leader said, will be the creation and production of literature, posters and other publicity matter for the various departments and branches of the Convention.

**ILL IN PLAINVIEW
 HOSPITAL THIS WEEK**

Miss Mary Tom Bomar, the daughter of Mr. and Mrs. Tom Bomar of this city, is ill in a Plainview hospital, it was reported here Wednesday. Mary Tom is suffering from bronchial pneumonia.

Mary Tom was reported doing all right yesterday afternoon and her condition is said to be improving.

**Summer Season is
 "Strain Season" on
 Ladies Hosiery**

Summer time is always a straining season upon hosiery, because of increased contact with perspiration and dust which weakens the fibers. Mrs. Dora R. Barnes, Extension clothing specialist, gives a few tips on giving hosiery longer wear through wise purchasing and good care.

A wise buy in hosiery means stockings that are sturdy enough to suit the purpose and that fit properly. Mrs. Barnes says that a stocking that is a half an inch longer than the foot wears better than one that fits snugly.

Rayon and nylon hose should be washed in luke warm water, with a mild soap or flake suds. Mrs. Barnes warns that hose should never be rubbed or wrung out. Hose should be rinsed well, rolled in a turkish towel for a few minutes, and then dried in the shade.

Here's another tip on hose buying. Mrs. Barnes says that when a sheer rayon hose is preferred, the buyer should look for a high gauge and a low denier. A denier means the weight in grams of a specified length of rayon yarn. Gauge means the fineness of the knitting. When the gauge is high, the mesh or wales are more closely knit than when the gauge is low.

**Deaf Smith County
 To Have Bumper
 Sugar Beet Crop**

Sugar beet acreage in Deaf Smith county will reach the 1,600 mark this year.

County Agricultural Agent Hugh L. Clearman reports that farmers in the county are in the process of planting about 1,600 acres to the crop and practically all of them have applied commercial fertilizer to sugar beet fields.

In many cases, says the county agent, barn yard fertilizer was applied to cropland during the winter, to put land in good shape for sugar beet production.

The application going on much of beet acreage is 100 pounds per acre of 16-20-0 commercial fertilizer.

Congratulations to:

Mr. and Mrs. Arnold Brown on birth of a daughter, Rita Gayle, June 7 in the Tullia hospital. The baby weighed 5 pounds 5 ounces.

Mr. and Mrs. Doyle Stephens, of Hobbs, N. M., on birth of a daughter, Donna Ann, June 3rd in the Hobbs General hospital. The baby weighed 4 pounds 15 ounces. Mrs. Stephens is the former Merline Yates.

Mr. and Mrs. Durward Schmidt of Lamesa on birth of a son, Kenneth Gene, June 6 in a Lamesa hospital. They baby weighed 7 pounds 6 ounces. Mrs. Schmidt will be remembered here as Alma Ruth Thompson.

**SWING OF THE
 SOUTHWEST
 FARM MARKETS**

Active demand at firm to higher prices ruled the majority of southwest farm markets last week, according to the Production and Marketing Administration, U. S. Department of Agriculture. Wheat, cows, calves, shorn lambs, and hens were the losers.

Liberal offerings of new crop wheat broke the market early last week, and prices fell fifty cents per bushel after the long holiday weakened. Later rallies recovered only a little of the loss, and Friday closed \$2.45 for No. 1 hard at Fort Worth and Galveston. New crop oats and barley dropped some too, but corn and sorghums gained.

Seasonal dullness ruled rice markets last week. New crop made rapid growth and looks well. Principal feed ingredients maintained strength despite abundant green feeds. Weather held back alfalfa cutting but dehydration plants continued to operate. South Texas peanut crop looked good, and other areas tried to finish planting. Choice 12-months Texas and Territory staple wools found good demand. Finer mohair sold steady.

Onions of generally good quality and medium to small sizes moved in volume from North Texas areas last week in a strong market. Fifty pound sacks of U. S. No. 1 yellow Bermudas brought \$1.75, and Crystal White Wax \$2.00. Tomato shipments declined in the Lower Rio Grande Valley and increased in East Texas amid advancing prices. Valley haulings of green-corn lightened, and grapefruit strengthened near the season's end. A few cantaloupes moved out. More Coastal Bend watermelons came on the market.

Spot cotton prices climbed steadily last week to score total advances of around \$4.50 per bale. Fairly numerous inquiries for the higher grades attracted only slight offerings. The new crop made favorable progress in most areas.

Eggs and most poultry maintained steady to firm prices last week. Hens showed slight weakness, and sold mainly at 22 to 26 cents per pound. Most areas bought eggs at 36 to 38 cents per dozen; but South Texas and Louisiana centers paid 40 to 50 cents.

Hog prices fluctuated some last week but netted mostly gains of 25 to 75 cents. Heavy weights at Wichita showed the only real weakness. Closing bulk of good and choice butcher hogs brought \$24.75 at Fort Worth and Denver. Closing top was \$25.25 at Oklahoma City, and \$24.60 at Wichita. Week's top was \$24.25 at San Antonio.

Spring lambs gained mostly 50 cents to \$1.00 at southwest terminals last week, but aged sheep and low grade shorn lambs dropped almost as much; lower Good and choice spring lambs brought \$23.50 to \$21.50 at San Antonio; \$23.50 to \$25 at Fort Worth; and

See FARM MARKET— Page 4

Harvesting of the 1947 wheat crop in Briscoe County got underway here Tuesday morning when Jimmie Webb brought in the first load to the new Co-op elevator in this city. Mr. Webb's wheat was raised on the Schott Place which is located about 15 miles east of Silverton.

Due to the fact that cutting had just begun, it was impossible for an accurate estimate to be made in regard to the yield per acre; however, Mr. Webb stated that he believed it would make 20 to 25 bushels per acre. Webb's wheat tested 62 and demanded a price of \$2.00 per bushel, elevator men said.

According to Leo White, county agent, Mr. Webb planted the Wichita variety of wheat which is the variety recommended by Texas Experiment stations for its earliness. This variety is a high-yielding type of wheat and it possesses good milling qualities. Wichita was developed by the experiment stations to replace Early Blackhull which has a weak stalk and poor milling qualities.

Early maturing wheat is desirable in Briscoe County because it is usually harvested before the hot winds have time to burn the kernel, causing the head to fill with swivelled grain. Many times the early maturing varieties are in the elevator when the other varieties are in the field being subjected to rain and hail.

**Vets Kinsfolk May
 Choose Place of
 Burial For Vets**

Nest of kin requesting burial of World War II dead overseas may choose any one of the 14 permanent American military cemeteries and 3 National cemeteries which the War Department plans to establish as final resting places, according to an announcement received today by Col. C. C. Strawn, Commanding Officer, San Antonio General Depot.

Temporary U. S. Military Cemeteries laid out during World War II but which will become permanent cemeteries are: Cambridge, England; Margraten, Holland; Hamm, Luxembourg; Henri Chapelle, Belgium; Neuville-en-condroz, St. Laurent, St. James, Epinal, St. Avold, and Draguignan, France; Nettuno, Italy; and Manila, Philippine Islands.

Florence, Italy, and Tunis, Tunisia, will also be cemetery locations, although the exact sites are not yet chosen by the Quartermaster General and the American Battle Monuments Commission.

The 3 new National Cemeteries to be established under the plan are Honolulu, Hawaiian Islands; Guam in the Marianas; and at San Juan, Puerto Rico. These National Cemeteries will provide final resting places for any armed forces personnel or honorably discharged veterans who may wish to be buried in Hawaii, Guam, or Puerto Rico in addition to those who died during World War II.

Congratulations To:

Mr. and Mrs. Troy Cox on birth of a daughter, Latreca Lorene, Sunday, June 8, in the Tullia hospital. The baby weighed 8 pounds 12 1/4 ounces.

PERSONAL ITEMS OF LOCAL INTEREST

Mr. and Mrs. B. F. Clemmer and Rowena, of Meadow, were visitors last weekend with their son, Jim Clemmer, and family.

Mr. and Mrs. Roy Brown and son, Mr. and Mrs. J. E. Wheelock, Joe Hutsell and Joe Stodghill were Sunday dinner guests in the Buster Wilson home.

Mr. and Mrs. Wylie Byrd of Tullia visited in the home of his aunt, Mrs. J. W. McCracken, Sunday.

Mr. and Mrs. H. Roy Brown and Mary Frances Dudley were Plainview visitors Tuesday.

Mrs. Onar Cornett underwent major surgery in Lubbock General hospital Monday. She is reported to be doing nicely.

W. D. Mills and Harold Shaner of Kingfish, Okla., visited with Mrs. Ola Mills in the Fred Mercer home Monday night.

Misses Lois Wyrick and Lois Schultz of Valley, Nebraska, spent several days in the home of Miss Wyrick's brother, Tommy Wyrick, and family.

Mr. and Mrs. Roy Morris, Jean Morris and Mrs. Elsie Hearon were Amarillo visitors Thursday.

Mr. and Mrs. R. M. Haverty were Plainview visitors Tuesday.

Sue Linosey is visiting friends in Anton this week.

Mrs. Leavie Lindsey and Sue attended a reunion of the Lindsey family at the MacKenzie Park in Lubbock Sunday.

Mrs. Ola Mills spent the week-end with her sons, Emory and Vernon Mills, near Tullia.

Mrs. Una Burson was taken to the St. Mary's hospital at Lubbock Sunday night for a clinical examination.

Mr. and Mrs. L. W. Kiker of Plainview spent Sunday afternoon with Mrs. O. T. Bundy.

Mrs. Virgil Ballard and daughters, Joni Jo and Betty Lu are spending the week in Dallas.

Mrs. G. Tunnel is spending the weekend in Dallas.

Mrs. Clarence Mast and daughters of Lubbock spent several days last week with Mrs. O. T. Bundy.

Mrs. Billy Dickerson left Monday for Canyon where she will visit with relatives for several days.

Mrs. Heiman Ely and daughters returned home Wednesday morning from Henrietta where they had been visiting the past several days.

Mrs. S. F. Wanser is in Amarillo this week where she is visiting relatives.

B. N. Mason, Jett Mason and Bill Biffle are in Quanah this week where they are harvesting wheat. The group will return home Sunday night.

Mr. and Mrs. Preston Trower were Lubbock visitors Monday night and Tuesday.

Unions Should Sell Themselves . . .

From the point of view of the individual worker, one of the most compelling arguments against the 100-per-cent closed shop is that it does not make for maximum efficiency and service to members on the part of the union.

Under the closed-shop principle, each worker must join the union or lose his job. As soon as he goes to work in the industry in question, he automatically becomes a dues payer. If he doesn't like the union and quits it, his employment in that industry terminates. That is why the closed shop union monopoly should be ended, the same as any other monopoly that destroys individual freedom.

A union, on the other hand, which depends for its membership on service, is like a business—it must please its customers or they will not patronize it. Thus, the union whose membership is purely voluntary and not compulsory will be on its toes to do the best possible job for its membership.

This is not a theoretical argument. The railway brotherhoods, for example, do not have the dubious advantage of the closed shop—that is specifically outlawed by the Railway Labor Act. No railroad worker has to join them and pay them dues. But they have signed up the vast majority of railroad workers in all categories because the workers feel that the unions are doing excellent work on their behalf and that they should be supported. And railway labor is among the best paid in the world, and enjoys innumerable other benefits.

A union which has a monopoly of workers in its field can take it easy. It isn't concerned whether the members are happy with its policies or not. A union which has to sell itself will produce top results.

BOYCE HOUSE
"Gives You Texas"

A bill has passed the House almost unanimously to appropriate \$1,500,000 to create a new four-year technological college. Whose idea is this? Had you heard anything about it? Texas Tech at Lubbock is a great school; so is Texas College of Arts and Industries at Kingsville. Why not send

tech students to one of these highly successful colleges?

Just a few weeks ago, this columnist visited A. & I. and it is a fine school but is greatly in need of buildings for the excellent technological equipment it has—electrical, aviation, oil and gas equipment.

Instead of starting a new four-year college, why don't we first provide the buildings and other needs of the colleges already in existence? The University of Texas, A. & M., and our other state schools have largely gone without new buildings since 1941. They are bursting at the seams. They are crowded with veterans enrolled under the G. I. Bill of Rights.

Another thing: This legislature already has appropriated \$2,000,000 for a new university for the negroes. Isn't one big school in one year enough for the State to start? And that \$1,500,000 for the proposed new technological college will only be a starter. Don't doubt it; give 'em that and it won't be long till they'll be back for more.

The governor warns that the State treasury is not going to have enough money to pay for all the things the legislature is voting. Which do the people of Texas want: a new technological college—or more pay for our public school teachers?

A new technological college—or some farm-to-market roads?

Do the people want another four-year state college—or do something for the elderly who are having to get by on 80 cents a day when the cost of living has gone up 75 per cent in the last few years?

Chickens and turkeys selected for processing must be high quality birds if a good carcass is to be turned out.

For best results in feeding lambs, each animal needs about one linear foot of trough space.

CARD OF THANKS

I wish to express my sincere thanks to the many friends who sent cards, letters and gifts while I was in the hospital. And I want to gratefully thank Mr. and Mrs. A. A. Howard and family for the interest they have shown in my home while I was ill and since I came home. Your thoughtfulness will never be forgotten.
May God bless you all.
Mrs. Ada Cox

Texas farmers could save millions of dollars worth of rainfall each year by doing more terracing and contouring on cropland.

Land is usually in best shape for terracing after the crops have been gathered and before breaking is started.

Pasture yields are increased by applications of organic matter which can be profitably obtained from many sections of Texas by using green manure crops and barnyard manure.

A good ration for corn feeder calves is equal parts yellow corn chops, whole ground oats and cottonseed.

Improved Uniform International SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago Released by Western Newspaper Union

LESSON FOR JUNE 15

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JUDAH'S APPROACHING DOOM

LESSON TEXT—Jeremiah 36:2, 3, 28-31; II Kings 24:1-4. MEMORY SELECTION—The fear of the Lord prolongeth days; but the years of the wicked shall be shortened.—Proverbs 10:27.

The decline of a nation from strength and glory to weakness and shame is always a sad thing

to contemplate. Still worse is the evident cause of such decay in the sinfulness of the people and their stubborn rejection of God's mercy and grace.

The religious reforms in Judah under Josiah were only temporary in their effect on the people; partly because of their own insincerity, and partly because Josiah was soon killed in battle. Yet God did not leave his wandering people without good counsel, for it was in those days that the great prophet Jeremiah ministered. He had been the helper of Josiah in his good purposes; now he continued to plead with Judah to submit themselves to God and to his will.

His efforts proved to be fruitless as far as Judah was concerned, for we see that

I. Judah Would Not Respond to God's Mercy (Jer. 36:2, 3).

God commanded his prophet to write down his words in order that the people might not only know the inevitable impending judgment, but especially be reminded of God's desire that they should turn from their evil ways and be forgiven.

One would have thought that they would have responded to such mercy with an immediate and grateful return to the Lord, but they did not.

Jeremiah, a unique man of great ability, was so tenderhearted that he has often been called the weeping prophet. Do not infer that he was a weak emotional character, for he was strong in the Lord, and courageous in the face of rejection and persecution. He urged upon Judah the necessity of submitting to Babylon, to whom God had given power, and above all to the Lord, for a spiritual cleansing and revival.

Our second section brings before us the further sin of King Jehoiakim, who led his nation on to destruction. We see that

II. Judah Would Not Receive God's Word (Jere. 36:28-31).

At God's command Jeremiah and his scribe Baruch had prepared the scroll with God's Word upon it. One of the nation's leaders was moved by it, and through his urging, the scroll was brought to the attention of the king.

Jehoiakim, sitting before the fire, heard only part of it, and then in defiance of God he took a penknife and cut it up and burned it.

One cannot help but think of those in our day who call themselves modern thinkers, or liberals, who have also used their penknives on God's Word. They cut out of the Bible everything they do not like, and offer the hungry people the stone of their own philosophies in place of the Bread of life. Think what their judgment will be!

God's Word is not so easily gotten out of the way! The prophet was commanded to rewrite the scroll, and in it to declare the awful judgment of God upon the one who mutilated his Word.

To try to destroy God's truth by fire and violence is as fruitless as to try to tear the stars from the heavens or to keep the sun from shining. The wicked leaders of a great nation have tried that once more in recent years, and they now lie dead for their sins, with the nation a subject people, broken and all but destroyed.

One wonders why those who profess to serve the Lord will engage in such activity, even as one

wonders at Judah, a favored people of God, refusing to receive his Word.

God is not willing to give up, and now tries chastisement. But we see that

III. Judah Would Not Recognize God's Providences (II Kings 24:1-4).

Jehoiakim had become the vassal of Babylon, but after three years he decided to try to throw off the yoke of his oppressor, Nebuchadnezzar. He was not able at the time to deal with the situation, and so he incited marauding bands from various other nations to harass Judah.

We see, however, that this came about at the commandment of God (vv. 2, 3). Evidently he was now using the distressing experiences of life to turn Judah back to him; but once again it proved to be in vain.

God does deal with men through what we call his providences, and these may include not only his mercies, but his chastisement. Trouble and sorrow may be God's means of leading us to the place of repentance and blessing.

What folly it is to disregard the hand of God in our daily lives, or to become embittered at the circumstances which are intended to bring us to God's place of blessing. Happy is the man or woman who, being reproved in this way, profits by the Lord's admonition (Heb. 12:11).

DDT-Sulphur is Sure-Fire Killer For Plant Aphids

DDT and sulphur mixture can mean dollars saved to West Texas alfalfa growers this year, judging from the experience of Hale County farmers.

Hale County Agricultural Agent M. W. Ayers reports that the DDT and sulphur mixture now has the nod of approval from several farmers who had a severe infestation of pea aphids on alfalfa recently. Before the aphid poisoning could get underway, however,

the insects had slowed down alfalfa growth to the extent that some farmers lost their entire first planting.

A local insecticide dealer cooperated with the agent and a few farmers in running some field trials in an effort to find the best poison to use against the aphids on alfalfa. Their best results were obtained with ten percent DDT and sulphur, applied at the rate of 20 to 30 pounds per acre. Most of the poison trials

were done by airplane. The farmers who have used the treatment are well satisfied that it will pay dividends, says County Agent Ayers.

In North Dakota, farmers use low grade dehydrated potatoes as a substitute for corn in feeding sheep.

Sources of Platinum in order of importance are: Canada, Columbia, Great Britain and Russia.

Are you too skeptical about the work of Foreign Missionaries?

During the past 100 years, thousands of men and women of all faiths have voluntarily dedicated their lives to spreading the "Good News" found in the Scriptures. Some have been physicians; others have been agricultural specialists; others have been teachers.

Missionaries have laid the foundation stones for world peace, that they have changed the thinking of millions of people all over the globe, and that they have made it possible for nations to trade with each other with confidence.

When your Pastor, Rabbi or Priest asks you for money to expand the work of some Foreign Missionary, invest as much as you can. Your returns will exceed anything you have ever known.

Wanser-Shelton Vows Exchanged in Amarillo Sunday

The parlor of the Methodist Church, of Amarillo, was the scene Sunday afternoon, June 8th, for the exchange of vows between Miss Ernestine Wanser, the daughter of Mr. and Mrs. S. F. Wanser of this city and Robert G. Shelton, of Amarillo.

Miss Wanser graduated recently from nurses college in Wichita, Kansas, with top honors.

Complete details of the wedding will appear in next week's edition of the News.

Pelting raindrops speed up soil erosion by splashing soil particles as high as two feet in the air.

Rock Creek Club Has Meeting at Schoolhouse Tues.

The Rock Creek Club met in the Rock Creek school house June 3. Two quilts were quilted for Mrs. D. O'Neal.

Those present were Florene Fitzgerald, Margaret Frizzell, Marie Garrison, Mannie Dell Newberry, Mrs. W. W. Reid, Eula Shelton, Margie Turner, Ruth West, Ruby McWatters, and Mrs. Henry McWatters.

The club will meet at the school house June 17 with Mrs. Spillman as hostess. Each person will bring a covered dish.

Office Supplies at the News.

Morris Family Is Host to Reunion Here This Week

Mr. and Mrs. H. A. Morris had 10 of their 12 children with them Sunday when a reunion was held in the home of Mr. and Mrs. Roy Morris.

The children and their families who were present are: Mrs. Eunice Bryant and daughter, Joan, of Ft. Worth; Mr. and Mrs. Leroy Cupell, Linda and Arlene of Dalhart; Mrs. Fred Grimland of Los Angeles; Mrs. Mike Moore of San Diego; Mrs. Elsie Hearon of Wichita Falls; Mr. and Mrs. W. W. Grimland and children, Jean Morris, Alvie Morris, Mr. and Mrs. Roy Morris and children, Mrs. Bobby Edwards and Juanita and Mike Moore, all of Silverton.

Others present were Mrs. T. J. Hayden, a sister of Mrs. H. A. Morris who is from Gainesville. Mr. and Mrs. Jack Ingram of Plainview were afternoon visitors.

The two children who were unable to attend are Pete Morris of Los Angeles and Mrs. Avis Handley of Portland, Oregon.

Helping Hand Club Has Meeting with Mrs. Frank Mercer

The Helping Hand Club met Thursday afternoon with Mrs. Frank Mercer.

Mrs. Wade Steele drew the "Club Lucky".

Refreshments were served to the following members: Mesdames U. D. Brown, L. A. Calloway, Wade Steele, Charles Francis, Hollie Francis, J. Lee Francis, J. C. Jacobs, Alva C. Jasper, Betty Hodges, Jack Jowell, Clyde Mercer, Aubrey Rowell, A. J. Rowell and H. C. Mercer, and one visitor, Mrs. W. A. Rowell.

The next meeting will be with Mrs. H. C. Mercer.

SENIOR SCOUT TROOP HAS MEETING SATURDAY

The Senior Girl Scouts, Troop 3, held a meeting Saturday, June 7, in the Red Cross room.

It was voted that the troop would not hold any more meetings until in August.

Fat Saving Is Urged By Secretary Of Commerce

W. Averell Harriman, Secretary of Commerce, urges women to continue to save used cooking fat, in a statement released today by The American Fat Salvage Committee, Inc. The statement reads:

"Used cooking fats have represented a substantial part of our total industrial fat supply. The more than 600 million pounds that American homemakers have saved and turned in since 1942 has been of vital importance. It is a record

FARM MARKET—

\$24.50 to \$25 at Wichita. Oklahoma City bought medium to good kinds at \$20 to \$24.

Generally steady to slightly weaker prices prevailed at Denver last week for steers, heifers, and cows, while low grade cows and calves moved generally lower at other southwest markets. Bulls and some stocker classes showed weakness at San Antonio and Oklahoma City. Canner and cutter cows sold at \$8.50 to \$10.50 at Houston; \$9.50 to \$11 at San Antonio; \$8 to \$12 at Fort Worth; \$9 to \$12 at Oklahoma City; \$10.50 to \$13 at Wichita; and mostly \$11.50 to \$14.50 at Denver.

of which every woman who contributed may well be very proud. "The United States still lacks adequate supplies of fats and oils. And we are particularly short of industrial fats, many of which require industrial fats, or the products of industrial fats, such as soaps, and glycerine, in their manufacture.

"Won't you keep up your good work and continue to save and turn in every possible pound of used fat?"

Weekly SURPLUS NEWS WAA

A half million dollar site clearance of four West Texas installations will be held at the Midland Army Air Field, it was announced this week through the War Assets Administration's sub-regional office at El Paso. The clearance will be an informal bid sale of surplus materials located at Midland: Pacific Air School, Fort Stockton; Pyote Air Field and Pecos Air Field Hardware, kitchen supplies, furniture and a few vehicles will be included in dozens of lots of related materials to be offered. Inspection and bidding will be carried on at each of the four locations on June 17, 18 and 19, with the bid opening scheduled for 9 a. m. June 20 at the Midland field.

Fourteen military chapels, including all installed equipment, at Camp Bowie, Brownwood, Texas, are to be offered for sale until July 9 through War Assets Administration. First consideration concerning use of the chapels after sale shall be "given to their use as shrines or memorials and second consideration shall be for use for religious purposes," it was said. Offers on the chapels will be accepted by WAA for transmission to the Chief of Chaplains, War Department, who, with the advice of representative church groups, will recommend the person or organization to whom disposal shall be made, WAA officials declared.

Various regional offices of WAA cooperate with each other in disposing of stocks of surplus property that might be "slow" in one area and in sharp demand in another. This practice resulted in the sale of 70,000 gallons of outside white paint to a Texas dealer recently. The paint was located in the inventory of the Spokane WAA regional office, where its sale was rated as "slow". This paint was in "tight" demand in the Grand Prairie region, where a customer was seeking the prod-

uct. Correspondence between the two regional offices effected the sale and delivery of the 70,000 gallons to the Texas dealer.

Army folding cots in quantities sufficient to bed down nearly 40,000 soldiers for sale until June 25 through War Assets Administration. They will be sold through sealed competitive bids on lots. A sample is on display at the Customer Service Center of the Grand Prairie WAA office as well as in San Antonio and El Paso.

Army News From Here and There

Burial of War Dead
Washington, D. C.—(June 11).—The Veterans Administration has announced that because of the limited number and size of its cemeteries, burials are restricted to veterans who die in its 126 hospitals and homes and whose relatives do not desire burial elsewhere.

Radioactive Poison Gas
Washington, D. C.—(June 11).—The Army is experimenting with radioactive poison gases a thousand times more effective than any previous types. The big problem the Army has not yet solved is how to protect its own soldiers while they store and use the deadly new gases. Alpha and gamma rays penetrate all known materials except thick walls of lead or concrete.

Reemployment Unit Set Up
Washington, D. C.—(June 11).—A Veterans Reemployment Rights Division has been established in the Department of Labor to aid ex-servicemen seeking their old job back under the conditions set forth in the Selective Service Act.

Affiliate With Industry
Washington, D. C.—(June 11).—A Program to organize Reserve Corps units to be affiliated with private industry is being undertaken by the War Department.

Affiliated units will be sponsored by civilian organizations which engage in a business closely related to the military in terms of the kind of work preferred. Each of the affiliated units is to become a part of the Organized Reserve, but will be maintained on an inactive status with personnel furnished by officials and employees of the sponsoring organizations.

Unit Endorsed By Advisor
Fort Knox, Ky.—(June 11).—Three civilian consultants in the Neuro-psychiatric Division of the Army Surgeon General's Office have pronounced Universal Military Training to be a "program which develops good adult attitudes among the nation's youth. It preserves a man's initiative and dignity. It is a good mental hygiene program."

Discharge System Revised
Washington, D. C.—(June 11).—Revision of the Army enlisted discharge system effective July 1 has been announced by the War Department Director of Personnel and Administration.

The present system of awarding discharged enlisted personnel one of three types of discharge papers will be abandoned as of that date and four types of certificates will be substituted. Addition of a fifth type of discharge, the "bad conduct" type, has been approved by the War Department but will require enactment of legislation which is now before Congress.

The Rural Electrification Administration has approved a loan of \$250,000 to an electric cooperative organization at Stamford, Texas. The loan will be used for system improvement and for 205 miles of lines to serve 403 rural customers.

The growth and development of plants is influenced by climate, disease, insects soil structure, soil texture, fertility and the acidity or alkalinity of the soil.

It has been demonstrated that under intense heat, and in the presence of oxygen or air, the carbon in a diamond unites with the oxygen and the gem burns itself into a black, worthless crisp.

People Are Urged To Buy Their Sugar Now

The estimated record wheat crop coming up is due to affect the distribution of sugar to Texas store shelves.

The U. S. Department of Agriculture has urged the nation's homemakers to cash in their sugar stamps—numbers 11 and 12—as soon as possible. While the total year's supply of sugar for the nation, estimated earlier at about 6,800,000 tons, remains unchanged, the distribution of the supply is another question USDA says. The large wheat crop is expected to create a difficult transportation problem. In another month, there will not be enough box cars to carry both wheat and sugar.

Due to that situation, the No. 12 sugar stamp in housewives' ration books was made good in advance. Grocers can accept both Stamp 11 and Stamp 12, and will continue doing so until October 31.

Miss Gwendolyn Jones, food preservation specialist of the Texas A. and M. College Extension Service, reminds Texas homemakers that no sugar will be allowed them especially for canning, and that any canning sugar used must come from their regular allotment.

USDA says that many consumers are apparently postponing the use of their stamps. Housewives making last-minute runs on stores to cash sugar stamps are likely to find local shortages, since the wheat crop is due to tie up rail transportation.

Total amount of farm fertilizers sold to Texas farmers and ranchers in 1945-46 was 305,510 tons, as compared with 217,760 in 1944-45.

Ideas to Dress Up a "Pot-Luck" Meal for Guests

An easy way to turn a pot-luck dinner into a company meal, or "dress up" a simple meat dish, is to serve some interesting accompaniments with the meat. It may be a fruit or a vegetable, a special sauce or dressing.

The purpose of including such an item in the menu is to add color, flavor, and variety to the meal. The following are good examples, including two fruit accompaniments to serve with meat, and two unusual sauces.

Ruby Bananas

- 1 cup cranberry jelly
- 1 tablespoon cold water

2 large bananas

Beat cranberry jelly until smooth, and stir in the water. Place bananas in shallow baking dish, cover with the sauce and bake in moderate oven (375 degrees F.) for 10 minutes. If desired, the bananas may be cut in halves lengthwise, or more bananas used to serve more than two people.

Curried Peaches

- 6 to 8 peach halves
- 1 teaspoon sugar
- 1/4 teaspoon curry powder
- 2 teaspoons butter

Sprinkle peach halves with sugar and curry powder, dot with butter. Broil along with meat.

Apple-Horseradish Sauce

Attractive suit for a young wife is shown above as pictured in the April issue of Good Housekeeping magazine. It is a light-weight imported linen for summer or the South side-fastener with gill buttons. Available in natural, pale pink, green, and powder blue.

HOPING SOME DAY to ride a real horse is 5-year-old Jennie Monteith of Nacogdoches, Texas, a patient at the Scottish Rite Hospital for Crippled Children, Dallas. Giving Jennie a ride on a new hobby horse is Dr. Marshall T. Steel, pastor of the Highland Park Methodist Church, Dallas, who will deliver the principal address at the 10th annual memorial service on the hospital grounds June 15. Services are held each year to honor men and women of Texas who have died and left legacies in their last wills and testaments to carry on the work of the hospital. Dr. Steel's address will be broadcast over the Texas State Network at 3 p.m.

- 3 apples
- 2 tablespoons white vinegar
- 3 tablespoons grated horseradish
- 2 teaspoon sugar

Grate the peeled apples into vinegar and blend at once so apples will remain white. Add grated horseradish and sugar. Serve with simmered beef.

Gingersnap Sauce

- 4 gingersnaps
- 1/2 cup brown sugar
- 4 tablespoons vinegar
- 1 cup water
- Juice of 1 lemon
- 1/4 cup seedless raisins (optional)

Crush gingersnaps. Add remaining ingredients. Cook mixture until smooth, about 10 to 15 minutes. Serve with tongue or ham.

Mineral Oil Has Harmful Effects

Although mineral oil has generally been regarded as a safe internal medication for livestock, scientists are finding that it also can be harmful.

This week, the American Veterinary Medical Association issued a warning to farmers that mineral oil interferes with the absorption of carotene, vitamin D, calcium and phosphorus in the animal body and that, therefore it must be used with caution in caring for the ills of livestock.

Mr. and Mrs. D. V. Shelnett and Jeanette of Canyon spent Sunday night with Mr. and Mrs. Shirley Pitts.

Mrs. H. K. Ownby was in Canyon on business Wednesday.

The Forest Service reported that in 1945 forest fires destroyed \$5,000,000 worth of timber, and caused physical damage estimated at \$26,726,919.

More than 100,000 plants form a giant floral clock at the zoo in Sydney, Australia. The clock's dial is 18 feet in diameter and the minute hand is eight feet long.

Expert Tells How to Select and Store Fish

An Army veterinarian who supervised the inspection of over a million pounds of fish for the armed forces during the war has cited some pertinent facts that should aid housewives in selecting and preparing this food.

Writing in a current issue of the Journal of the American Veterinary Medical Association, Colonel Jesse D. Derrick of the Army Veterinary Corps says that gills spoil faster than any other part of a fish and should, therefore, be removed immediately.

As to what to look for when buying fish, the Colonel says that if it is really fresh, it has a bright appearance or "bloom", the scales glisten and adhere firmly to the body, the eyes are bright without opacity, the gills are bright red and have no unpleasant odor and the gill covers and mouth are closed. He also states that the fish should not bend when laid across the hand, and it should sink when placed in water.

Frozen fish, according to Colonel Derrick, can be held in storage for five or six months without damage to the eating quality, provided the storage conditions are proper. When defrosting, he says, the fish should not be in contact with water, but should be placed so that moisture drains easily. Fish should never be placed in warm or hot water to hasten the thawing process, he cautions.

Ten inches of snow equals in water content, on the average, approximately one inch of rain.

Mrs. Bud Perkins and family spent the weekend with her sister, Mrs. Otha Denham, in Amarillo.

New Termite Killer Is Being Used by Lipscomb Farmers

Pentachlorophenol, a chemical used widely in the treating fence posts against insect damage and decay, is killing termites in farm buildings for Lipscomb county farmers.

Charles Imke, Follett Community farmer, treated two buildings with 35 gallons of five per-

cent pentachlorophenol last February.

A recent check-up by Lipscomb County Agricultural Agent E. M. Gossett, Jr., showed a complete kill as far as he could determine. The county agent plans future inspections to see if the material will keep the termites down over a period of years.

The pentachlorophenol was applied with a spray developing 30 pounds of pressure, which was

enough force for good penetration, says the county agent.

The majority of birds have three toes on each foot, three on one behind, however, of the woodpecker and families are yoke toe—two toes point forward and backward.
