County Crops Receive Showers

Briscoe county farmers were benefitted greatly this week by showers falling the latter part of last week which measured .69 of an inch, according to Ray C. Bommar, operator of the Federal Weather Bureau Station here.

The first shower in over a month fell last Thursday evening and measured .24 of an inch. The second came Friday afternoon and measured .43 of an inch.

Crops Benefitted
As a result of the showers feed crops were greatly benefitted, most farmers reported. Many patches of feed that had already begun to curl and wilt due to hot, dry winds, took on new life the first of this week and at present look strong and sturdy.

Cool weather has been prevalent throughout this section of the country since the showers and it is believed that all moisture was retained and will keep crops growing nicely for several days.

A Booster
Last night (Wednesday) another shower measuring .02 of an inch which brought the total to .71 of an inch, for a week, acted more or less as a "booster" to the season already on the ground.

Press time finds the skies filled with clouds and more rain is expected before next week's edition of the News.

Dysentery Season Is On; Watch Infant Feeding

This is the season when dysentery, diarrhea and "summer complaint" are most prevalent throughout the State, and Dr. Geo. W. Cox, State Health Officer, has issued a warning to parents of young children regarding the prevention of these diseases.

"The chief causes of these intestinal diseases are impure milk, water and food; allowing a child to become overheated; using too much sugar and cream in the diet; and under or over feeding," Dr. Cox said. "All foods should be fresh and clean, and left-overs should be properly refrigerated to prevent spoilage."

Dr. Cox said definitely that when a feeding formula for infants is used, it should be prescribed by a physician and then prepared with extreme care, especially in regard to cleanliness and refrigeration. Babies should be fed at regular intervals and on definite schedule. Their stomach and bowels can become easily upset if they are fed haphazardly whenever they happen to be fretful or restless.

The State Health Officer declared that with dysentery, as with many other diseases, the fly is an agent of transmission, and every home should be well screened and free of flies.

If diarrhea or dysentery develops, consult a physician at once, Dr. Cox advised. "This so-called 'summer complaint' can become a very serious menace to your baby's health if not an actual threat to his life."

Midget auto racing is again in full swing in Lubbock at the Fair grounds every Thursday night and will continue weekly until opening of the 30th Annual Panhandle South Plains Fair.

Des Abbott, new promoter of the races, has agreed not only to furnish a fast and exciting program weekly, but will also put on daily afternoon contests at the Fair, September 29 through October 4.

Fifteen drivers drove in the best races of the season last week over the improved track. Three races were decided by less than a car length. Starting position meant little as the lead changed hands several times. The main event was won by Lloyd Ruby, Wichita Falls.

Office Supplies at the News.

Ware Fogerson Buys Buildings at Dalhart AAF

Ware Fogerson, Box 535, Silverton, was one of the successful buyers of camp buildings at War Assets Administration's first venture in disposing surplus Texas real property through informal bidding this week at the Dalhart Army Air Field.

Mr. Fogerson won building awards with bids totaling \$1,225. More than 100 buyers participated in the sale, bringing a cash recovery to the government of \$33,250.50 for approximately 90 of the field's buildings.

June Brides Give S. S. Department Big Headache

Came June, came brides, came headaches for the biggest book-keeping organization in the country, the Social Security Administration.

Being proud of their new names, working brides almost invariably ask their boss to show their new names on the payroll—and being human, most of them put off bringing or mailing their cards to the Social Security Administration office for the official Social Security name change, John R. Sanderson, Manager of the Amarillo office, reports.

So, last month's bride now appears on her employer's social security report as Mary Brown along with the number that the Social Security Administration records show for Mary Smith. The Social Security Administration suspects that a marriage might be the answer to the discrepancy, but there is also the chance that Mary Brown is a new employee who was accidentally reported with Mary Smith's number.

The Government can't afford to take chances, and correspondence with the employer is necessary before Mary Brown, nee Smith, can get credit for the wages she earned. "In most instances, the records are cleared and Mrs. Mary Brown gets credit for her wages," Sanderson said, "but this happens only after the Government and the employer have spent considerable time and effort in untangling the mix-up."

"Now that June is over I'm extending all June brides an invitation to have their new name officially added to their Social Security account number card," he concluded.

Mary Lou Bellinger was ill Monday.

Beth Joiner had lunch with Juanita Edwards Sunday.

Supplies of glass jars, jar rubbers and closures are bigger than in recent years. The homemaker will also find better supplies of pressure canners, home freezers and more freezer locker space.

Agriculture, with more workers than any other industry, had a death rate last year of 54 per 100,000 workers, compared to the all-industry rate of only 31.

Mr. and Mrs. Jack Burselon of Tucuman, N. M. and Mr. and Mrs. James Allred of Amarillo, Texas were weekend guests of Mr. and Mrs. Roy Hahn in Loveland, Colorado formerly of Silverton, Texas.

Miss Jeanette Shelnett of Canyon is spending a few days with her sister, Mrs. Shirley Pitts and family.

Mrs. Berton Hughes and Robert returned home Sunday night after visiting the past week with her parents, Mr. and Mrs. R. E. Renfro of Nocona and her brother of Dallas, Texas.

Silverton Girl On Honor List At Denton College

June Brown, daughter of Mr. and Mrs. S. P. Brown of Silverton is among 441 upperclassmen named this week to the dean's honor list for the summer semester at North Texas State College.

The dean's list is composed of the names of all upperclassmen who attended the college the previous semester and were accredited with at least 12 semester hours with an average grade of "B" and no grade lower than "C".

Inclusion on the list permits students to miss classes without suffering grade point penalties and to have access to the stacks in the NTSC library.

Highway Department Does Lots of Paving Since 1929

Reviewing the activities of the Texas Highway Department now entering its 30th year as the state's road building agency, Commission Chairman John S. Redditt reported paved mileage on the state system had more than quadrupled since it was first accurately measured in 1929.

The endless struggle to build new roads as fast as traffic demand increased has shoved the 1929 paved mileage of 6,061 up to 25,734 miles on July 1, with more being added every day.

"This still isn't enough," Redditt declared. "The blight of congestion and hazards to safety on many sections of these paved roads render them inadequate to handle the heavy traffic using them."

He expressed confidence that the Commission's recent expanded policy for building farm-to-market roads on a cooperative basis with counties, together with the current federal aid program, would result in substantial improvements to the state's farm transportation program.

The total investment in the state road network stood at \$934,197,811.55 on July 1, Redditt announced. This includes all expenditures made under the supervision of the Texas Highway Department since it was created thirty years ago.

"It has been a good investment," he said. "I doubt if any other similar expenditure of public funds has done so much good for so many people."

The Chairman paid tribute to the thousands of employees who had built the organization into one of the top road building agencies of the nation. "Of the 7,663 employees on the payroll today, 2,278 have been with us for ten years or more, while 100 have served the Department 25 years or more.

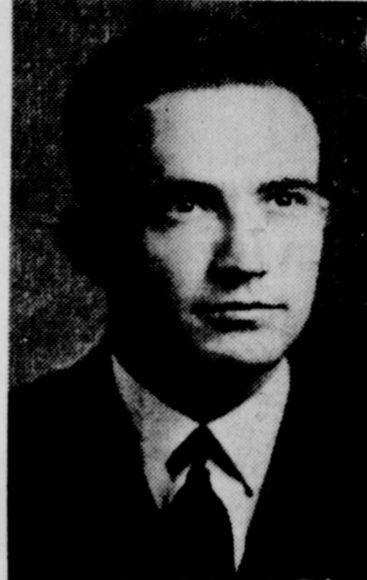

Only one has completed 30 years of service, but two others are approaching the 30 year mark."

"This organization has made it possible for Texas to maintain its place at the top among the states of the nation in carrying out a vast postwar construction program. Today work is progressing on contracts in excess of \$77,000,000, a volume that has never before been reached in the Department's history."

Betty Gardner and Juanita Edwards were in Tulla Monday.

Mr. and Mrs. Bob Smith are vacationing in Colorado.

TO PREACH HERE

Jay W. Channell, pictured above, of Lockney, will preach here during the local Church of Christ Gospel meeting, which starts here Sunday morning.

John Deere's to Have New Type Wheels

Farmers of this community will be interested to know that W. Coffee, local John Deere Farm Equipment dealer, is announcing a revolutionary development in general-purpose tractor design—the new John Deere Roll-O-Matic "kne-action" Front Wheels.

New driving ease... increased riding comfort... new smoothness and safety of operation and longer tire life are among the advantages claimed for this new development, according to Coffee.

Engineered by John Deere, Roll-O-Matic is a radical departure from conventional design. Instead of being rigidly mounted, front wheels are free to oscillate. The slightest up-or-down movement of either wheel is immediately transferred through gears which automatically equalize the load on both front tires.

By minimizing the up-and-down movement of the front end, and equalizing the load between both front wheels, Roll-O-Matic offers a smoother, safer, more comfortable ride, and greatly increases front tire life. Steering, also, is greatly improved. Mr. Coffee claims the difference is immediately apparent upon driving one of these tractors—in the way it steers over rough ground... on sidehills... in furrows—on top of beds—along the contour—in almost any operating condition. There's no fighting the wheel, no creeping, no weaving from side of side. With just a guiding hand on the wheel, the tractor literally climbs out of furrows, "walks" right over obstructions, operates in rough fields with greater stability.

Mr. Coffee says that Roll-O-Matic is an exclusive John Deere feature and will be made available for the new John Deere Models "A" and "B" Tractors recently announced.

Congratulations To:

Mr. and Mrs. Sumner Clayton, Jr. on the birth of a 7 1/2 lb. baby girl, Elaine, on July 14 at the Lubbock hospital. People of the community will remember the mother as Jean Jackson. She is a sister of Mrs. Clifford Allard.

Betty Gardner and Juanita Edwards were in Tulla Monday.

Mr. and Mrs. Bob Smith are vacationing in Colorado.

Last Rites For Orlee Mills Held Yesterday

204 Dead Soldiers Identified in Philippine Islands

Identification of an additional 204 American soldiers who died in the Philippine Islands while confined in Japanese prisoner of war camp has been announced by the War Department. They had previously been listed as unknowns. The identified were among a group of about 1600 prisoners who were buried in the Camp O'Donnell Prisoner of War Cemetery on Luzon.

The names of 37 men from the Fourth Army area identified and listed by city and state of residence are as follows:

Arkansas: Pvt. Chesley A. McCall, Mayflower, and Pvt. Johnny Reynolds, Redfield. New Mexico: Pvt. Fred E. Archuleta, Dawson; Pte. Pete Botello, Albuquerque; Cpl. Ocie E. Brown, Loving; Cpl. Maclovio Gonzales, Taos; Cpl. Johnny Hamilton, Gallup; Pte. Nestor Herrera, Albuquerque; Sgt. William R. Hooten, Elk; Sgt. Lloyd L. Maness, Oil Center; S-Sgt. Frederick C. Miller, Albuquerque; T-5 George J. Richman, Folsom; Cpl. Ohmer O. Richmond, Carlsbad; T-4 Arthur W. Robbins, Clovis; Pfc. James S. Roberts, Mimbres; Pte. Claude O. Smith, Alamogordo; and Pfc. Robert E. Young, Las Vegas. Oklahoma: Pfc. Robert C. Mathias, Perkins.

Texas: Pvt. Ray Bechtold, Jr., Amarillo; Pvt. Morris J. Bergeron, Houston; S-Sgt. Edward C. Bills, Galveston; Pvt. Frank L. Brooks, Denton; Pte. Lafayette P. Bruner, Houston; T-4 William M. Carr, Alto; T-4 Hushell Clark, Elkhart; Pfc. Sam S. Fairchild, Luling; Pfc. Lewis M. Fryar, Amarillo; Pfc. Wayne Garret, Richards; Pte. Grady Gentry, Lufkin; Pte. Roy P. Hervey, Jr., Abilene; S-Sgt. Gerald D. Hudson, Seagraves; Pte. Alfred E. Jarish, New Braunfels; Sgt. Arthur B. Lampkin, Kilgore; Pte. Hilding H. Mattson, San Angelo; Pte. George O. Rivers, Tenaha; Pfc. William C. Seelig, Houston; and Pfc. Leonard M. Shadwick, Longview.

Henderson Home Burns Last Saturday Afternoon

The Silverton Fire department was called out last Saturday afternoon about 3:00 p.m. when the home of Mr. and Mrs. J. E. Henderson, in the west part of town caught fire and as a result burned down.

It was reported that Mr. Henderson was upstairs in the two-story building cleaning a kerosene cook stove and was testing it when it exploded setting the house on fire.

Firemen and volunteers cleared the structure of nearly all the furniture and fixtures in the lower story before the house tumbled.

Mr. and Mrs. Berle Fisch and Kay spent Sunday with Mr. and Mrs. F. A. Fisch.

Juanita Edwards spent Wednesday night in the Beth Joiner home.

SWING OF THE SOUTHWEST FARM MARKETS

Many southwest farm markets developed easy spots last week, although the general trend of most commodities continued steady to strong, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Cotton climbed to twenty year record levels of around 39 cents per pound or more last mid-week, but dropped back by Friday for net losses of \$3.00 to \$10.00 per bale. Spot activity increased, as new crop harvest progressed well in South Texas.

Winter wheat harvest made rapid progress in the Great Plains area last week. Inadequate transportation and storage forced millions of bushels to be piled on the ground in Texas, Oklahoma, and Kansas. Heavy buying for export held losses to 6 cents. Friday's price stood near \$2.37 per bushel for No. 1 hard at Fort Worth and Galveston. Corn eased under favorable weather reports; and sorghums dropped 15 cents.

Rice markets held firm last week at the higher levels established after price controls ended June 30. Hay moved slowly, as most farmers produced their own, and pastures held up well. Mill-feeds took a sudden upward spurt, partly offsetting recent downward trends. Peanut harvest started in South Texas, with yields low on early plantings. Texas 8-months wool began to move as 12-month clips became scarce.

Best candled eggs sold firm to slightly stronger last week. Easier undertone developed on current receipts and undergrades following government announcement discontinuing purchases of dried and frozen eggs after July. Poultry held about steady. Heavy hens sold at 23 to 25 cents per pound at Fort Worth and Dallas.

Cattle prices receded late last week from mid-week highs, but closing sales held mostly from about even with a week earlier to as much as \$1 or more higher. However some spots netted losses up to a dollar for the week. Bulk of common and medium grass steers at San Antonio sold at \$20 to \$22.75, and average to top medium lots set a new all time high of \$24.50. Houston paid \$14 to \$20 for common to medium steers and yearlings, while Fort Worth took medium kinds at \$19 to \$23.50.

Hogs advanced generally around 50 cents to \$1 or more in last week's trade. Good and choice butcher hogs reached \$26.25 at San Antonio, \$25.50 at Fort Worth, \$26.75 at Oklahoma City, \$27.35 at Wichita, and \$27.25 at Denver.

Most sheep sold steady to \$1 higher last week, but spring lambs netted losses at Oklahoma City and Wichita, and feeder lambs fell lower at San Antonio. Medium to low choice spring lambs turned at \$18 to \$21.50 at San Antonio, and medium to good kinds brought \$20 to \$24 at Fort Worth. Wichita

PERSONAL ITEMS OF LOCAL INTEREST

Mr. and Mrs. Jack Burselon of Tucuman, N. M. and Mr. and Mrs. James Allred of Amarillo, Texas were weekend guests of Mr. and Mrs. Roy Hahn in Loveland, Colorado formerly of Silverton, Texas.

Miss Jeanette Shelnett of Canyon is spending a few days with her sister, Mrs. Shirley Pitts and family.

Mrs. Berton Hughes and Robert returned home Sunday night after visiting the past week with her parents, Mr. and Mrs. R. E. Renfro of Nocona and her brother of Dallas, Texas.

Mr. and Mrs. Paul Neese of California arrived Thursday morning for a visit with relatives and friends.

Mrs. Clifford Allard visited in Amarillo Wednesday in the home of Mr. and Mrs. Alvin Kalfhold.

Mr. and Mrs. Joe Powell visited relatives and attended the rodeo at Plainview over the week end.

Those visiting in the O. M. Dudley home Sunday were Mr. and Mrs. Harold Stoltenberg and son of Tulla, Mrs. J. B. Dudley of Waxahachie, and Martha Dudley of Lamarque.

George Graham returned to his home in Nacona, Texas after visiting relatives and friends in Silverton and Amarillo for the past two weeks. He is the brother of Mrs. A. H. Chappell.

H. A. Morris and Jeanne left Monday morning for San Diego, Calif. to visit relatives.

Mrs. George Lee of Lubbock visited in the home of her son, Mr. and Mrs. G. W. Lee and Marcalynn Tuesday and Wednesday.

Mrs. Beth Joiner and Mrs. A. A. Howard were in Plainview shopping Tuesday.

Mr. and Mrs. A. H. Chappell and G. W. visited Mrs. R. E. Stephens in the Lubbock hospital Sunday.

Mrs. R. E. Stephens underwent major surgery in the Lubbock hospital last Wednesday. She is reported to be doing nicely.

Mrs. Clay Fowler, Claynelle and J. C. and Milo Payne left Tuesday for Montana where they will visit for a few days.

Mrs. E. L. Gardner left Monday for Cross Plains, Texas where she will attend the funeral of her aunt, Mrs. M. E. Flippen.

Mr. and Mrs. Floyd Williams ate lunch in the Beth Joiner home Wednesday.

Jimmie Price spent Saturday night in Floydada with Lewis Lloyd.

Mr. and Mrs. W. H. Brooks and family have been visiting his parents, Mr. and Mrs. A. T. Brooks.

Billy Newberry of Floydada visited in the Dillard Scott home last week.

Theo Tillery is in the Texas Hospital at Lubbock this week being treated for pneumonia.

Funeral services were held yesterday afternoon at 3:30 p.m. from the Silverton High School Auditorium for Orlee Mills, 28, who died late Monday afternoon in the Tulla hospital.

Mr. Mills' death came as a result of injuries received about six o'clock Monday afternoon when he was caught in his well-drilling rig some seven miles east of Tulla on the farm of Jack Montague.

Reports indicated that Mr. Mills had been having trouble with an outside clutch on the well digger and at the time of the accident he was down under the machine oiling the gears while it was running. Cecil Seaney, who was working with Mr. Mills, stated that he had been to Tulla to secure a belt for the machine earlier in the afternoon and had already returned and that they had quit work for the day when Orlee had decided to grease the clutch before they left the rig. It is believed Orlee's shirt was caught between two of the turning shafts causing him to be pulled into the machine and crushed. Mr. Montague, owner of the property, on whose farm they were drilling, was present when the accident occurred and he and Cecil rushed Orlee to the hospital.

Mr. Mills' never lost consciousness until he was in the Tulla hospital. He regained consciousness once after that time but succumbed only a few minutes afterward.

Orlee Mills was born on July 10th, 1919 some four miles south of Silverton and has resided in and around Silverton all his life. On June 14, 1941 he served his country in the Army at March Field, California, and Salinas, California, being honorably discharged on June 20, 1942.

In March, 1945, Orlee was married to Miss Mildred Flora Williams and to this union one child was born, both of whom reside at the family residence on the West edge of the town section.

A military funeral honored the deceased at the High School and later at the graveside. The Tulla VFW was in charge of the service.

Funeral services were conducted by Earl I. Cantwell, Rock Creek Church of Christ minister, with the Silverton Funeral Home in charge of arrangements. Burial was in the Silverton Cemetery.

Mr. and Mrs. George Oyler and Dennis Schwarz visited in the home of Mr. and Mrs. Ted Childress last week.

Wanda Newberry, who has been visiting in the Dillard Scott home, returned to her home in Montrose, Colorado Monday.

The presence of flea hoppers in cotton can be detected by looking for small, blackened, dead squares less than one-fourth inch in size.

People Oppose Power Socialism

The theory that the drive to socialize the electric industry is backed by concerted public opinion is not justified by any available evidence.

The evidence, in fact, is directly to the contrary. For example, one of the national opinion polls asked a cross-section of the population, in 1938, if the government should own and operate the electric utilities. Only 15 per cent said yes. It asked the same question eight years later in 1946—and at that time only 11.2 of those queried gave an affirmative answer.

A great many local elections have been held in recent years involving the issue of private or public operation of utility companies. The people have thus had their chance to vote for or against municipal plants, utility districts, etc. In the great majority of cases, the popular verdict has been against socialism.

The truth seems to be that the socialism drive is purely of political origin. Its most enthusiastic backers are those who profit from it—such as the employees of the government projects, and the legion of professional politicians and bureaucrats who are always seeking more and more authority and more and more patronage. The taxpayers, who must foot the enormous bill, have a very different point of view.

No industry in this country has a finer record of public service than the private utilities under state and national regulation. They have reduced the cost of service, even in times of general price inflation, to where it is lost in the average family or business budget. They represent the free enterprise system at top efficiency.

Mr. and Mrs. Scott Smithee and Faith visited Friday and Saturday in Amherst.

Mr. and Mrs. U. D. Brown and Anne and Sue McJimsey visited Sunday with Mrs. Si Brister of South Plains.

FIXING UP the HOME

By Diane Greeter

Try Persian Limes for Flavor

THE OTHER day, as I was quarantining a beautiful, green, juicy Persian lime, I realized that many homemakers are not acquainted with the goodness and usefulness of this little known and delightful member of the citrus family. It is not at all like other limes. It seems to be a cross between a very sweet lemon and a bottle of rare, exotic perfume.

Containing all the vitamins and minerals found in other citrus fruits, the Persian lime has, be-

sides, an aroma and piquancy of flavor all its own. There is nothing quite like Persian lime marmalade, for instance, and it is as simply made as other marmalades. Lime pie, too, is a favorite in our family, and our guests have never failed to ask me for the recipe.

The bright green of the lime make it an attractive—as well as savory—garnish for fish, oysters, dressing and salads. And if you are among those who like a slice of lemon to bring out the flavor of your tea, try a quarter of Persian lime instead. It will bring a gentle breeze of the tropics, faintly scented with exotic blossoms, as well as a new taste sensation to your tea table.

Abraham's purchase of a field as a sepulchre for Sarah is the first monetary transaction recorded in history.

Wilbur and Orville Wright's first business venture was a bicycle repair shop, which led to their experiments in airplane building.

Stuffed Peppers Offer Variety In the Menu

Stuffed peppers are one of those adaptable dishes that ingenious homemakers keep in mind, to serve frequently. They can play the part of a vegetable dish or a main dish, depending on the ingredients included in the stuffing. Their best use, right now, is to make a tasty main dish with a small amount of meat.

The recipe given below is a good one to use as a basic pattern. This may be made with any kind of left-over cooked meat; or with one of the canned or ready-to-serve meats. If a highly seasoned meat is used, the poultry seasoning and Worcestershire sauce may be omitted, if desired.

Stuffed Green Peppers

- 2 cups chopped or ground cooked meat
 - 4 tablespoons grated onion
 - 1/2 cup mashed potatoes
 - 1/2 teaspoon Worcestershire sauce
 - 1/2 teaspoon poultry seasoning
 - 1/2 teaspoon salt
 - 1/2 cup catsup
 - 1 1/2 cups gravy or meat stock
 - 6 green peppers
 - 1 medium tomato
- Chop or grind left-over cooked meat, canned or ready-to-serve meat. Add onion, potatoes, seasonings, and gravy or thickened stock to moisten. Remove seeds, and membrane from peppers. Parboil pepper cases for 2 minutes, rinse with cold water and drain. Fill with meat mixture, and place a tomato section on each pepper. Arrange in pan and bake in moderate oven (350 degrees F.) for 30 minutes. Baste occasionally with remaining gravy. Serves 6.

There are at least 10,000 species of wasps.

Eighty percent of all activities are guided by the eyes.

Veterans' News

The Veterans Administration is seeking pharmacists for employment in Texas, Louisiana and Mississippi, VA announced this week.

Salaries for the positions range from \$2,644 to \$4,149 per year. Application forms and further information may be obtained from the Board of U. S. Civil Service Examiners, Veterans Administration, Branch Office No. 10, 1114 Commerce Street, Dallas, 2 Texas.

The Veterans Administration has negotiated contracts with about 130 correspondence schools in the United States to furnish veterans instruction under the GI Bill.

Veterans are eligible for these Office Supplies at the

"mail order" courses if the the qualifications for GI Bill education or training.

A veteran gets up to a \$500 dollars worth of course allowance is paid for correspondence courses.

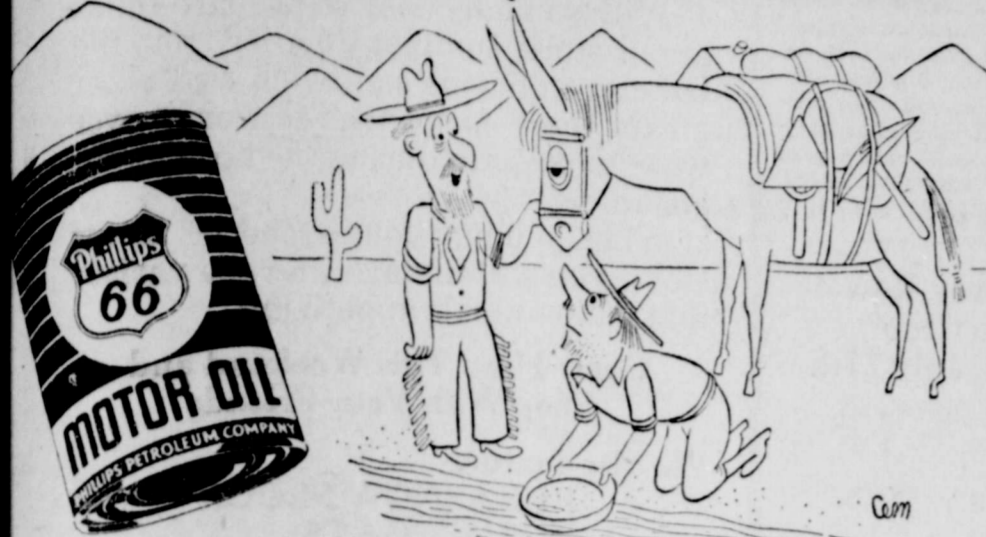

Only schools which have tract with VA and which proved by the state in which operate may be paid for courses under the GI Bill.

About 35 per cent of the ans who have entered or training have terminated courses, VA reports.

The great majority of the crans are eligible for additional study—if they want to some time in the future.

There are many reasons minations, VA found. These include ill-health, lack of financial problems, school facilities, employment opportunities and personal problems.

Wisdom, Understanding For Our Daily Living

LESSON TEXT FOR JULY 27-PROVERBS 1:1-5; 3:13-18; 9:9, 10; James 1:5. MEMORY SELECTION-Wisdom is the principal thing...

EDITOR'S NOTE: Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

By HAROLD E. LUNDQUIST, D. D., of The Moody Bible Institute, Chicago. EDUCATION is so widespread in our day, and so eagerly sought after...

Why this is not true appears clearly in our lesson: for it is wisdom that the world needs, and wisdom is quite different from the understanding or memorizing of a mass of facts.

Wisdom teaches us how to use knowledge effectively for the glory of God. We see in our lesson:

I. The Meaning of Wisdom (Prov. 1:1-5).

PROVERBS are pithy, useful sayings, which gather up the wisdom of a people in easily remembered form.

We learn in this passage that they are given to us that we may "know" that we have both wisdom and instruction.

Knowledge must be coupled with discernment (v. 2), which speaks of going beyond and below the surface meaning.

The one who has come to this place is ready to give (v. 4) help to others, especially to the young...

A surface copper mine at Bisbee, Ariz., which covers 35 acres, has produced more than 20,000,000 tons of copper ore.

China introduced tea to Japan about 600 A. D. Paul H. Gilbert, a newspaper columnist, defines "Prohibition" as...

The days when liquor was the best seller in the best cellars. Did you know that the first World War began on July 28, 1914 with Austria's attack on Serbia?

Gum is soft and sticky and on the south side of coniferous trees.

Our slogan is double Church gifts for devastated areas. DAILY BIBLE PASSAGES FOR FAMILY WORSHIP

Businessmen are shipping the Scriptures by the ton

Starting with less than a dozen gifts in 1816, the American Bible Society last year received hundreds of thousands of individual contributions for copies of the Scriptures, the Bible, and the New Testament.

Today, from every part of the globe, requests for copies of the Scriptures are being received from millions of men, women, and children in devastated areas.

Knowing the great good that has followed the work of our Missionaries, American businessmen are urging their friends to double their gifts to the American Bible Society...

5¢ will pay for a portion of the Scriptures, 20¢ will buy a New Testament, and 50¢ will place a copy of the complete Bible in the hands of someone who is starving for God's Word.

"The American Church and Sunday School are the greatest centers of good in all the world" The First Baptist Church The Methodist Church

Weekly SURPLUS NEWS WAA

All remaining war surplus at five army installations in West Texas will go under the high bid hammer during the final four days of July. Under priority orders of the army, the camp sites must be cleared of all surplus electronics and aircraft materials as well as the residue of personal property left over from previous War Assets sales. Link trainers, engines and aircraft maintenance supplies, advance type radio and communi-

cations equipment and limited quantities of clothing, furniture, hardware and auto supplies will be among the dozens of lots of related materials to be displayed at the various locations. All property is located at the Midland, Pecos and Pyote Air Fields and at Biggs Field and Fort Bliss near El Paso. Bidding and inspection is invited at all locations through July 28, 29 and 30. All bids will be opened and awards made to the highest bidders present at 9 a. m., July 31, at Fort Bliss, Texas.

There are 34 items available through donation until August 6 to schools and other public institutions through the priority claimants division of the Grand Prairie office of War Assets Administration. Among these items

are shell tapping machine, two threading machines, a router drill and 28 pneumatic electric drills.

It happened at Camp Bowie, near Brownwood, Texas, where Uncle Sam's star salesman, the War Assets Administration, was conducting an emergency site clearance sale of surplus government property which had originally cost \$253,886.32. The sale resulted in complete clearance of all surplus property as 220 bidders claimed the 106 lots offered in a space of two hours.

In its first Texas venture of "over the counter" sales of surplus real estate, the War Assets Administration disposed of 92 Dalhart Army Air Field buildings recently at the rate of one every three minutes. Many of the structures will be converted into grain storage warehouses, barns and bins. The buildings were sold by the "spot bid" method instead of the usual formal, sealed bid procedure. One Dalhart grain elevator operator, bought a large warehouse for the purpose of storing 35,000 bushels of wheat.

Top preference in buying farm and construction machinery will be given World War II veterans in two current sales ending July 28 and August 6. Full details may be secured from the priority claimants division at the Grand Prairie office of War Assets Administration.

Starting August 4, general hardware items, including tools, dishes, ice refrigerators and kitchen equipment, will be for sale through the Customer Service Center of the Grand Prairie WAA office. All buyers may participate, it was said.

Amateur wiring or overloading of electrical equipment is a big cause of disastrous fires on Texas farms.

Department of agriculture agronomists are saying that the record wheat crop in Texas and the U. S. this year is due in part to new varieties of wheat which were planted. In the past ten years, 30 improved varieties of wheat have been distributed to American farmers.

Miss Bomar Weds Jack Billingsley in Lubbock Sunday

At 4 o'clock, July 20, Miss Fay Tice Bomar, daughter of Mr. and Mrs. D. O. Bomar of 3213 Twentieth, Lubbock, Texas, and Jack W. Billingsley of 2709 Thirtieth, Lubbock, Texas, were married in a double ring ceremony which was read by Rev. W. L. Brian of Suddan.

Vows were repeated in the Bomar home before an altar of palms, white flowers and white candles in candleabra. Wedding music was offered by Mrs. Dorcell Young, pianist.

The bride, who was given in marriage by her father, wore a dusty pink gaberdine dressmaker suit with white accessories and a white corsage. She carried a white Bible. Mrs. W. A. Colston of this city, sister of the bride and matron of honor, wore a gray gaberdine suit identical to the bride's with white accessories and flowers.

Donald Billingsley served as his brother's best man and Don Bomar brother of the bride, was candlelighter.

The bride's table, at the reception which followed the ceremony, was laid with a white satin damask hand embroidered cloth and decorated with a wedding ring cake placed on a reflector, a silver bowl of shasta daisies and a cut glass punch bowl.

For travel to Ruidoso, the bride wore a rose and gray gaberdine suit with white accessories and a white corsage. The couple will be at home in Silverton.

Miss Bomar is a graduate of Silverton High School and attended Texas Technological college for three years and Mr. Billingsley is a graduate of Lubbock High school served in the Navy for two years and attended Abilene Christian college.

Out-of-town wedding guests were present from Tulla, Silverton Hereford, Muleshoe, Batesville, Miss. and Ft. Worth.

T. E. L. Class Has Regular Monthly Meeting Thursday

The T. E. L. Club of the First Baptist Church met in a regular monthly business meeting in the home of Mrs. Pearl Simpson with Mrs. Clyde Lightsey and Mrs. L. A. McKinsey as co-hostesses Thursday morning at nine o'clock.

The meeting was called to order by the president, Mrs. Grady Wimberly. Mrs. Shelby Haynes gave the minutes of the last meeting. Committees reported on old business and new business was discussed. The program was opened with a song, "Amazing Grace." Mrs. Elrod pronounced the prayer and Rev. Elrod read the devotional from the 5 Chapter Acts, the Apostle, following a prayer link service for the Revival Meeting.

Refreshments of watermelon was served to the following: Mesdames Clifford Allard, Ed Brown, Levia Lindsey, Clyde Hutsell, Shelby Haynes, G. R. Dowdy, Dee Garvin, Grady Wimberly, Ray Bomar, Jim Bomar, A. H. Jackson, Gatewood Lusk, Doug Arnold, Rev. and Mrs. Elrod, and the hostesses.

No More Worry For Homemakers In Silver Polishing

Homemakers may bid goodbye to spending long and tedious hours polishing the family silver.

Flatware may be rendered gleaming in from two to five minutes by placing it in an old aluminum pan and boiling it in a solution of one teaspoon of soda and one teaspoon of salt per quart of water, according to Miss Lola M. Drew, assistant professor of home management at Texas Technological College. Each piece of silver should touch the pan while boiling.

Knives with hollow handles should not be polished in this manner, as the boiling water will loosen cement, Miss Drew cautioned. Neither should silver with oxidized or French gray finishes be treated with this method, since chemical action of the solution and aluminum will remove the soft finish and make the entire piece shine brightly.

However, for other pieces, many authorities say this treatment is less detrimental to silver than old fashioned rubbing.

A smart practice for the poultryman is raising at least 25 more pullets than he intends to house, so he can cull out the poor birds. Poor pullets are a waste of time and money

FARM MARKET—

took good and choice at around \$24.

Watermelons and cantaloups eased some last week, as liberal shipments supplied most markets. Lettuce gained sharply, and sold as high as \$7 per crate at St. Louis. Hot weather promoted spoilage and hampered movement of the large peach crop. Colorado cabbage, cauliflower, and other products were well received at many markets. San Luis Valley peas started moving and held steady at \$3.25 per bushel for U. S. No. 1.

Mrs. Aubrey Rowell Hostess to Club Thursday, July 17th

The Helping Hand Club met Thursday, July 17th, with Mrs. Aubrey Rowell.

Mrs. F. A. Fisch drew the "Club Lucky."

Refreshments were served to Mesdames U. D. Brown, L. A. Calloway, Edwin Crass, F. A. Fisch, Charles Francis, Hollie Francis, Betty Hodges, J. C. Jacobs, Jack Jowell, H. C. Mercer, Scott Smithce, Wade Steele and J. T. Smith.

The next meeting will be a social in the home of Mrs. Scott Smithee.

NEW JOHN DEERE ROLL-O-MATIC "KNEE ACTION" FRONT WHEELS

New driving ease... increased riding comfort... new smoothness and safety of operation and longer tire life are only a few of the advantages of this new development.

Roll-O-Matic is a radical departure from conventional designs. Instead of being rigidly mounted, front wheels are free to oscillate. Gears automatically equalize load on both front tires.

This new development is not on hand at present but will be available soon and will fit new John Deere Model "A" and "B" Tractors.

THE VETERAN'S FRIEND

A World War II veteran school course that receives hours per week. Am I entitled to receive subsistence under the G. I. Bill?

You are taking an undergraduate at a college or you are eligible for the full subsistence but if it is a high school course of less than four years per week, you are not eligible for any subsistence.

A veteran-amputee. Am I entitled to a service card and what is the limit on repair service costs allowed?

A. Yes, if you are a veteran wearing an artificial limb, you are entitled to repairs at government expense and may obtain a Prosthetic Service Card. This card enables the veteran to get immediate repair service up to \$35 without prior approval from the Veterans Administration.

Q. I am a disabled veteran and have completed my on-the-job training course, but have not been able to get a job. Am I entitled to receive unemployment compensation under the G. I. Bill?

A. Yes. The Servicemen's Readjustment Act (G. I. Bill) provides that you can draw adjusted unemployment compensation up to a maximum of 52 weeks, provided that you are able and available for work at the time. The number of weeks of readjustment allowance payable to you is determined by the length of your service. The service must have been 90 days or more between Sept. 16, 1940 and the end of World War II.

Q. As a World War I veteran with a nonservice-connected disability, which does not permit me to work regularly, am I entitled to a pension?

A. Your only pension relief is through the law which gives you the right to a pension of \$60 per month, provided you are permanently and totally disabled and unable to follow a substantially gainful occupation. This pension is not payable if your income exceeds \$1,000 if single, or \$2,500 if married or with minor children.

Soil Conservation Lectures Sponsored By Railroads

Interest in soil conservation and agricultural development throughout the territories served by Burlington Lines in Texas was heightened today by word from headquarters, of Ft. Worth and Denver City Railway and the Wichita Valley Railway, Fort Worth, to the effect that the Second National Bank of Houston and Burlington Lines cooperatively will sponsor a series of lectures in centrally located cities along the lines of these railroads November 10th to 15th, by Louis Bromfield, nationally known author and lecturer.

The results of a series of soil conservation meetings in West

Texas and the Texas Panhandle last January were so gratifying, according to an announcement made by C. D. Peckenpaugh, Vice-President and General Manager, Burlington Lines, Fort Worth, that the management of the Second National Bank at Houston, with these railroads cooperating, has decided upon a much broader soil conservation and agricultural development effort. Present plans call for the operation of a special train carrying specially built soil conservation exhibits in baggage cars and 100 or more executives and industrial leaders of the nation, who are interested in preserving the natural agricultural wealth of Texas.

It is expected the train will leave Houston over the Burlington Lines the evening of Sunday, No-

ember 9, the first scheduled stop to be in Corsicana on Monday, November 10th. Following the November 10th meetings in Corsicana, the plans call for an all-day stop with afternoon and evening lectures in Fort Worth, November 11th; in Amarillo, November 12th; Lubbock, November 13th; Wichita Falls, November 14th; and Abilene November 15th. Following the Abilene meetings the special train group will return to Houston through Wichita Falls, Fort Worth and Dallas.

Local committees are being organized among Women's Garden Club groups and kindred organizations and in the several Soil Conservation Districts throughout the Texas territory included in the tour, to work out detailed plans for afternoon and evening meetings in each of the six named cities in which Mr. Bromfield will be presented.

NEW SUPER-BRIGHT LUMINOUS FISH HOOKS. At last here are the sensational new fish hooks that definitely insure fish to bite, run and set. The hooks not only hold fish after they are hooked, they really lure more fish and bigger fish to your hook. The super bright plastic compound molded on every GLO-HOOK is the most highly luminous known to modern science. And it is well known that fish, as well as many other creatures of nature are attracted almost irresistibly to light.

FOR THE BEST FOOD IN TOWN EAT AT THE Silvertown Hotel. Image of a person holding a glass.

For an Economy Dish Serve a Rich Variety Meat Loaf

Many homemakers are not aware of the fact that some of the variety meats make delicious meat loaves. In fact, this is an excellent way to introduce these meats to your family, if you're not in the habit of serving them. Other meats may be combined with the variety meat to give added flavor and richness.

When used in loaves or patties, liver is usually cooked slightly before it is put through the meat grinder. This merely makes it easier to handle. It may be either simmered in water for a few minutes, or browned in a frying-pan; but it should not be cooked completely.

Here are two tested recipes for

Kidney and Bacon Loaf. 1 pound beef kidney, 1 cup milk, 8 slices bread, 1/4 cup bacon drippings, 2 eggs, 1 green pepper, minced, 1 1/2 teaspoons salt, 1/4 teaspoon pepper, 3 tablespoons grated onion, 1/2 teaspoon powdered sage, Sliced bacon. Wash kidneys in cold water. Drain and trim. Grind, including internal fat. Soak bread in milk. Combine all ingredients except bacon. Line bottom of pan with slices of bacon. Pack loaf mixture firmly into pan. Bake in a slow oven (300 degrees F.) for 1 1/2 hours.

Sausage and Liver Loaf. 1 pound ground liver, 1 pound bulk pork sausage, 1 1/2 cups bread crumbs, 1 cup milk, 1 tablespoon finely minced onion, 2 tablespoons ketchup, 2 tablespoons prepared horseradish, 1 egg, slightly beaten. Cook liver for a few minutes in hot water, or brown in a small amount of drippings, in a frying-pan. Grind, and combine with bulk pork sausage. Add bread crumbs and seasoning, moisten with milk and beaten egg. Pack into greased loaf pan and bake in a slow oven (300 degrees F.) for 1 1/2 hours.

Uniform Traffic Code Effective September 5, 1947

Contrary to accurate reports, the new Uniform Traffic Code does not prohibit hitchhiking. George Clarke, managing director of the Texas Safety Association, said today in Austin.

The Code, which goes into effect September 5, was supported by the Texas Safety Association and 58 statewide cooperating groups in the recent session of the legislature as a safety measure.

The two-line subsection of the traffic code pertaining to hitchhikers reads:

"No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any vehicle.

A roadway is defined in the bill as "that portion of the highway improved, designed or ordinarily used for vehicular travel."

The bill defines a highway as "the entire width between the boundary lines of every way publicly maintained when any part

FARM FACTS WORTH KNOWING. Q. Is it all right for sheep to graze in a pasture that has been sprayed with 2-4D Weed Killer? A. Yes, pastures treated with 2-4D Weed Killer are safe for cattle and sheep. Experiments made by the USDA have shown that this weed killer is not harmful to stock.

Q. What is meant by "flash" treatment of eggs? A. This is a method of egg preservation introduced by Dr. Alexis Romanoff of Cornell University. It consists of dipping the eggs in boiling water for five seconds which causes a slight coagulation of the albumen on the inner shell membrane. The eggs are then held in a refrigerator. Eggs treated by this "flash" method apparently keep better than untreated eggs.

Q. Can anything be done to increase the fertility of male rabbits during the summer months? A. Yes. Experiments at the Research Farm of the Ralston Purina Company have shown that fertility can be increased by keeping the bucks in a cool spring house during the summer months when most breeders experience a dropping off in production.

Q. Is it safe to milk a cow shortly before she is due to freshen? A. Pre-milking should be done only if the cow has a tendency toward milk fever or an extremely large udder that is in danger of breaking away or being injured. Milking the cow before calving helps relieve the shock which may result in milk fever in some cows. Also, in the case of very heavy udders, pre-milking will relieve the weight and the pressure on the udder. The disadvantage is that the valuable colostrum milk is lost before the calf is dropped. Without the protective antibodies of the colostrum milk, the calf has less chance to survive.

Send your questions about livestock or poultry problems to FARM FACTS, Mrs. South Eighth Street, St. Louis 2, Mo. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

thereof is open to the use of the public for purposes of vehicular travel."

Clarke emphasized that the bill does not forbid any person to stand on the shoulder of the road for the purpose of soliciting a ride from a driver.

He said that it is a prevalent practice in the state for hitchhikers to stand on the concrete or corrugated surface of the road, and that this action constitutes a definite hazard to the hitchhiker, as well as to the traffic.

Penalties for violations of the act range from \$1 to \$200.

Army News From Here and There

Victory Medals

The Army, Navy, Marine Corps and Coast Guard have announced that distribution of the American Defense Medal and the World War Victory Medal to eligible veterans will commence on August 1, 1947. Veterans are requested to refrain from making mail inquiries as full details will soon be published.

The American Defense Medal is for those who served between September 8, 1939 and December 31, 1941, inclusive. The World War Victory Medal is for active service between December 7, 1941 and December 31, 1946, inclusive, only those who served and were discharged under honorable conditions are eligible to apply for the medals.

Inflatable Pads

The Army Quartermaster Corps is developing a new type of inflatable sleeping pad to provide troops sleeping on the snow or cold ground with adequate protection from chilling due to heat loss. The pad weighs 56 ounces, and it can be folded and readily packed for carrying. It is 6 feet 6 inches long.

New Materials Tested

Improved types of insecticides and insect-repellents will be tested this summer by the U. S. Army. An attempt is being made to develop more efficient cotton and nylon nettings for the protection of personnel against mosquitos, ticks, flies, etc.

The goal is to get away from the fine-mesh materials which keep out the air and cut down visibility as well as the insects. The trend toward coarse nettings treated with insecticides and insect repellents is expected to be a big improvement.

Army Examinations

More than 50 educational and psychological tests prepared by Army psychologists before and during the war have been de-classified and are now available for public reference.

The well known Army General Classification Test, which with later comparable tests, have been given to more than 10,000,000 men has been de-classified. In addition, Educational Achievement tests are de-classified. They cover a variety of subjects including algebra, arithmetic, chemistry, English grammar and composition, geometry, German, Spanish, physics, trigonometry and United States History.

These educational achievement tests are considered valuable mainly as sources of reference for high school and college tests as they were experimental editions and have been only partially validated.

Summer Training

General Jacob L. Dovers, Commanding General, Army Ground Forces, has announced that the Army Ground Forces troops, ROTC students, and National Guard troops will have a full summer program in all six Army areas.

The U. S. Constitution did not deny the vote of women but interpretation of the document did.

Electricity is being used now on 53 per cent of the nation's farms.

Every bride treasures the lovely, fragile lingerie in her trousseau. Each article was selected with thoughtful care and each delicate pastel trimmed with wisps of lace and embroidery will require just as much care to keep as fresh and new looking. So here are a few suggestions on how to keep it lovely.

Dainty lingerie should never be allowed to soak or it won't be dainty long, and never wash your these and thoses in hot water, nor use strong, harsh soap. Instead a lather of mild chips or flakes in luke-warm water is best for fine lingerie materials. Handle the articles lightly, swishing them around through the suds. Vigorous rubbing pulls the seams, tears the lace and weakens the fabric as well. But do give extra attention to the hem and straps since these two receive the hardest wear.

Ironing pretty underthings is satisfying when you see the fruits of your labor; however, ironing, too,

must be done correctly for best results. For instance, iron with the grain of the material, and be careful that the iron is not too hot if your particular make does not have a gauge to regulate the temperature for individual fabrics. Iron slowly, particularly around lace so that the tiny threads will not be torn. And don't forget that satins and lace should be pressed on the wrong side.

When after long wear lingerie becomes faded from frequent launderings, remedy this by tinting with all-purpose dye. Fresh, sparkling color can give these faded fabrics a new start with a promise of much longer wear. Remember, though, that these days it is very difficult to distinguish between real and man-made fabrics, or in other words rayons from silks, etc. So use an all-purpose dye which is guaranteed to work on all materials. When tinting remember, too, that colors appear darker when wet and they will be lighter after ironing.

SUPERVISORS FOR CAP ROCK DISTRICT—Earl I. Cantwell, Chairman, Louie Kitchens, Obra Watson, Pierce White and Bray Cook.

Records show that the death and disability rate among farm and rural workers and their families is higher than the rate among any other major industries. The week of July 20-26 has been officially designated as "National Farm Safety Week." During this week special attention to farm safety is urged.

In observing National Farm Safety Week it is imperative that each of us examine ourselves. Ask yourself a few questions such as: Is my home a safe place for me and my family? Is it safe for my friends and neighbors? Is my work shop safe? Do I drive safely? Do I handle machinery safely? Do I handle livestock safely? Be fair with yourself when you answer

these questions as only an honest answer will bring out where you are careless. The Supervisors of the Cap Rock Soil Conservation District take this method of bringing farm safety to your attention and urgently request that our farms be made safer and in turn a much better and happier place to live and bring up our children.

Preliminary surveys for the control of runoff water in the area south, east, and west of Quitaque are being made by Soil Conservation Service technicians assigned to the local Cap Rock Soil Conservation District. The problem of controlling excess run-off water from the cap rock is becoming more pressing each year and efforts are being made to work out a practical solution to the situation.

Helium can be maintained in liquid state if shielded by a bath of liquid hydrogen, in turn protected by a bath of liquid nitrogen.

Bolivia plans to receive 100 European refugee families for agricultural settlement.

bill for \$30 from the expert. The club members consulted an attorney in their town to learn whether they had to pay the \$30 and he advised them that they did as the man they had consulted was an expert in the field of bridge rules and that such advice was the way he earned his living. So they paid him the \$30.

Then at the end of the month came a bill to the club for \$10 from the lawyer!

Which reminds me of Mr. Goldberg. His friend, an attorney, said, "You look worried."

"Yes" he explained, "I have a chance to put over a big deal but there is an obstacle." He proceeded to describe the situation, whereupon the lawyer told him how the difficulty could be surmounted. Goldberg made the deal, with a profit of several thousand dollars. Soon after, he received a bill from the attorney for \$500 for professional advice. The bill was paid.

A week or so later, the businessman was walking along when he met the lawyer and said, "It's a fine day, isn't it?" Then before the attorney could reply, Mr. Goldberg hastened to add, "Remember: I'm telling you, not asking you!"

While in a South Texas town recently, I was told that an argument arose at a ladies' bridge club as to whether when after one cuts the cards before they are dealt, the one making the cut should put the two stacks back together. So (according to the story) they decided to write to a famous bridge expert. He replied that, while there was no actual rule, it was courtesy for the one cutting the cards to put the two stacks together.

With that, the ladies thought the matter closed. But not quite, for at the end of the month here came a

Tech To Have Earthquake Recording Station

A seismographic station capable of recording earthquakes and seismic disturbances all over the world is to be established at Texas Technological College. Dr. Leroy

T. Patton, head of the geology department, has announced.

The new station will be the only one in operation between St. Louis Mo. and Tucson, Ariz. One of the most modern and complete seismographic stations in the country, it will be equipped with long period and short period instruments and is being designed so that in-

struments may be observed at any time without disturbing their operations.

The college will cooperate with the United States Coastal and Geodetic survey and will send reports of all seismic disturbances to them. The survey will send an expert to inspect and test college equipment.

The station is made possible by assistance of the college research committee to the geology department. Mr. Patton said. The college has been in the process of acquiring needed instruments over a period of years, and the complete set is expected here by Sept. 1.

Early watches were too large to carry in the pocket and were usually hung from the girdle.

Office Supplies at the News.

Texas Women Receive Word of Thanks From Luzon

Texas farm women have received word of thanks from Luzon for canned goods which they donated through the U. S. Philippine War Relief.

Gratitude for 12 cases of assorted canned foods was expressed in a letter from Leandro V. Uyguanco medical officer in charge of the Central Luzon Leprosarium, where food was received and used by the leper patients in that institution.

Maurine Hearn, vice director for women and state home demonstration agent of the Texas A. and M. College Extension Service, who received the letter, said that much food had been contributed by Texas rural women through War Relief.

"In the name of the lepers of this institution, I wish to express our most sincere gratitude and thanks," Uyguanco stated in the letter.

That gratitude and thanks, said Miss Hearn, goes directly to the farm women who contributed war relief food.

NOTICE — Silvertown Masonic Lodge No. 754 will have its regular meeting, Tuesday, Aug. 11 at 8:00 p.m. All masters urged to attend 11-tfc Carver Monroe, W. M.
