## \$7,000.00 Contributed To Hospital Fund

### An Editorial

I wholly disapprove of what you say, but I will defend unto death your right to say it.—Voltaire.

#### Have You Thought About It??

Texas is a big state. Briscoe county is a big county and this county is a pretty big community. Someone near us is chronically ill or the care of a doctor nearly every day. What few of us have not had a doctor in some surrounding town during the past two months an effort to receive medical attention? How many of us would not have consulted a doctor in our own community had there been one available? There could only be a few! Where will you go when ill—strikes in your family?

A suggestion might be to take the one who is ill to Tullia, Lubbock, or Amarillo. You might get Grade A medical attention there, but did you ever stop to think that people have died while being long distances to see a doctor? Too, have you considered that other hospitals are "swamped" with patients and that they have all they can do in their own communities without taking extra people? Many of us have evidenced this fact by spending 4 to 8 hours sitting in some doctor's reception room trying to be examined and as a result, obtain a cure for our ills.

Maybe you haven't thought just how lucky we, as a community, have been during the past few months. We haven't had an epidemic of any sort. With winter rapidly approaching it is not possible there be epidemics of influenza, pneumonia, and various other ailments which old man Death will be found? Yes, it is a fact and not a want one and we, as broad-minded citizens, must not confuse our carefree healthful days of today with those in the unknown future. They may be as today—they may not! As a community we must be prepared.

Many of our citizens have given this matter much thought and found that the only solution to the problem is by erecting a hospital and securing a doctor, or doctors, so that we will be prepared for any day, but in future days also.

To accomplish that which is so essentially necessary to our physical and community well-being, a sum of \$12,000 is badly needed to build a hospital—a true Angel of Mercy—for our people. Of this amount, \$7,000 has already been freely contributed, leaving only a sum of \$5,000. Are we to quit now? Definitely not! Not as long as the welfare of our loved ones is at stake. We must contribute all that is possible so that this great undertaking will be accomplished.

Lots of our people have already contributed to this all-important cause. Others have not! Are you one of those who haven't? If so, think over and if you think we need a hospital for the people of our community, give all that you possibly can.

It will be impossible for the committee soliciting funds to contact everyone in our community and they shouldn't have to! They receive income what-so-ever for their efforts and when they are at work are disregarding their own personal interests in business, and, in addition, for the benefit of everyone in the community. They should be commended and truly warrant all the cooperation that we, as citizens, possibly give them.

Why not show the committee you appreciate their efforts by giving them your contribution or mailing it to them? There is no need for them to have to waste their time and breath trying to get such with you and explain all about why we need a hospital, etc. by same-thinking person in this community should already know.

Should you want to give to this worthy cause and can't conveniently give your contribution to a committee member, you may mail it to the Hospital Fund in care of the Briscoe County News at Silvertown, Texas, and the News Office will see that your check goes to the hospital fund. Members of the committee to whom you may give your contribution are: Winston Hamilton, True Burson, Mrs. Raymond Crass, Edwin Crass, Mrs. Watson Douglas or George Seay.

You owe it to yourself, your loved ones and your friends to take an active part in the building of our hospital. Do your part now—won't you? Your contribution and good will is all that is necessary.

**F.A. Boys Go to Lubbock Fair Today; Won \$25.00**

A party of the Future Farmers of America from the local high school agriculture classes are attending the Lubbock Fair today, as announced here early this morning.

The group, which left here in a school bus, will visit agricultural livestock booths at the fair grounds in the morning and in the afternoon they will enjoy the entertainments on the midway.

**Won \$25 with Exhibit**  
The local F. F. A. boys who had an educational exhibit at the Lubbock Fair won \$25.00 with their exhibit, it was reported by Mr. M. Burks, agriculture teacher. Although the local boys only placed 10th place at the fair with their exhibit it is believed they did exceptionally well considering the fact that the club had only been organized some 3 or 4 weeks prior to the fair date.

**THE WEATHER**  
Whether its cold or whether we gotta have weather—either or not?  
**Dry—Getting Drier**  
Wayne McCutchen and Gordon Tyler were business callers in Tullia last Thursday.

### Fogerson Buys War Surplus at Amarillo Field

Ware Fogerson, Box 535, Silvertown, purchased surplus army material at the War Assets Administration clearance sale at the Amarillo Army Air Field last week, according to a report received here this week from the War Assets Administration.

Mr. Fogerson's purchases included assorted material, such as mechanics' material and boiler tanks. The WAA sale cleared the Amarillo Air Field of all equipment and as a result returned approximately \$26,000 to the government.

### Briscoe County Old-Timer Here For Reunion and Visit

George F. Holland, of Wichita Falls, a pioneer of Briscoe County, spent Saturday and Sunday in Silvertown attending the Cooper reunion and visiting relatives and friends.

Mr. Holland came to Briscoe County in 1890 and lived in Silvertown about four years.

This year's visit was Mr. Holland's first visit here in over 53 years. He spoke of the wonderful changes of the town and country during these fifty three years and seemed very happy to spend a short time in Silvertown again visiting with the few pioneers he met so many years ago.

### Congratulations To:

Mr. and Mrs. "Shorty" Hartman on the birth of a boy born September 21st in the Tullia hospital. The baby weighed 8 lbs. 4 oz. and was named Timothy James.

Mr. and Mrs. Preston Trower on the birth of a daughter, Toni J., born Saturday, September 27th in the St. Anthony's Hospital of Amarillo. The baby weighed 6 lbs. Both mother and baby are doing fine and the father is on the road to recovery.

### Owls Beat Claude With Score Of 13-7

Claude, the team which pushed the locals aside last Fall, and romped their way to a victory to the tune of 6 to 0, were on the lower end of the score this year when the locals gave the tide a turn and whalloped the Claude team to the tune of 13 to 7 last Friday night, L. R. Bailey, coach of the local team, reported here yesterday.

The first score of Friday night's game came in the first quarter when Claude was forced to kick formation from their own 30-yard line. The ball came down into the arms of John Arthur Arnold, who took to the side lines and went over for a touchdown. The second half found both teams unable to make a headway.

At the beginning of the second half Claude kicked to Silvertown.

### Staff For School's 1947-48 Annual Given This Week

According to an announcement made here yesterday by L. R. Bailey, the staff for the 1947-48 school annual has been selected and already planning for the best "Owlet" to be published in many years.

The 1947-48 staff was given as follows:

Joye Bell Deavenport, Editor; Mickey Connett, Associate Editor; Carl Tidwell, Business Manager; Wayne McMurry, Assistant Business Manager; John Arthur Arnold, Photographer; LaRue Gilkeyson, Art Editor; Clifton Stodghill, Sports Editor; Teresa Crass and Joye Brown, Activities; and Gladys Hyatt, Typist.

### Soil Conservation District to Have Election Tuesday

In accordance with the provisions of the State Soil Conservation Law, qualified voters residing in Sub-Division 4 within said Soil Conservation District will assemble at the home of Louie Kitchens at 8:00 p. m., October 7, 1947, and then and there elect one of the qualified voters residing within said sub-division to serve as a member of the board of supervisors of the Cap Rock Soil Conservation District, it was announced this week.

Sub-division No. 4 is bounded on the north by the Silvertown-Antelope Road, on the east by the Cap Rock on the south by the district boundary and on the west by the Silvertown-Floydada road which is highway 207.

"All land owners living in this sub-division are urged to vote," it was concluded.

Mr. and Mrs. J. E. Cooper returned to their home in Midlothian, Texas, after spending ten days here visiting with his sister and attending the reunion.

### County to Get 127 Miles of REA Lines

#### Bargain Days Are Here Again For Daily Subscribers

The Briscoe County News has this week received authorization to accept renewal subscriptions at bargain day rates to the Amarillo Daily News and the Fort Worth Star-Telegram. Due to the newsprint shortage no new subscriptions can be taken by either paper, and bargain day rates are for present subscribers only.

#### The Amarillo Daily News

Bargain days for subscribers of the Amarillo Daily News (daily and Sunday) will last only 30 days this year, a letter from that paper revealed. Therefore all subscribers to the Amarillo Daily who want to take advantage of the Bargain Rates must renew their subscriptions before October 31st.

Yearly subscription rates are as follows:

Regular Price \$12.00  
Bargain Day Rates \$10.95

You Save \$1.05  
(Renewal subscriptions Only)

#### Ft. Worth Star-Telegram

The Ft. Worth Star-Telegram bargain days this year are also limited to present subscribers only. Newsprint shortages prevent the acceptance of new subscriptions. Star-Telegram Bargain rates are now in effect and may last longer than October 31st but to be sure of taking advantage of the bargain rate it is suggested that subscribers renew their subscriptions during the month of October regardless of whether or not their paper is out in the next month or so.

Those people who desire to renew their Star-Telegram during Bargain Days are urged to bring the address label from their copy of that paper. This address label is the small colored label on which the subscriber's name appears and the expiration date of his paper. Star-Telegram officials state that it is very important that these labels be sent in with the subscription because this is the only way their old subscribers can be protected and be assured of continuing to receive their paper.

The Star-Telegram, daily and Sunday, yearly subscriptions rates are as follows:

Regular Price \$15.00  
Bargain Day Rates \$11.95

Reader Saves \$3.05  
(Renewal Subscribers Only)

Those subscribers to either of the aforementioned publications are urged to visit the Briscoe County News at any time during this month and renew their subscriptions to their favorite daily at these special bargain rates.

Marie Edwards returned home Friday of last week from California where she had been visiting her children.

Of interest to many Briscoe County farm folks this week will probably be the fact that Briscoe County was recently approved by REA for 127 miles of electric power lines.

The information reached the Swisher County Electric Cooperative, Inc., on September 22, when Congressman Gene Worley sent the following telegram:

REA advises approval loan for Swisher County REA \$430,000.00 to build 333 miles of line to serve 375 members. Randall County to get 11 miles, Swisher to get 143 miles, Briscoe to get 127 miles, Armstrong to get 2 miles and Castro to get 8 miles.

### Friday is Silvertown Day At South Plains Fair

A report from the Panhandle South Plains Fair Association this week disclosed that Friday, October 3, 1947 has been designated as Silvertown Day at the Lubbock Fair.

Fair officials have stated that all the publicity possible will be given Silvertown on the aforementioned day and they hope to see a large attendance of Silvertown people on the Fair grounds that particular day.

### Quarterback Club To Have Big Pie Supper Monday Night

A big pie supper will take place at the High School auditorium next Monday night, October 6th, it was reported here yesterday by E. Dillard Scott, publicity chairman of the Quarterback Club.

Proceeds from the supper will be used to finish paying for the newly installed lighting system on the football field and the balance applied to the fund to be used to erect bleachers.

The supper will start at 8:00 p. m. and the public is invited to attend and everyone bring a pie.

### SWING OF THE SOUTHWEST FARM MARKETS

Farm commodities moved to generally unsettled markets last week, with moderate to sharp declines on many products, according to the Production and Marketing Administration U. S. Department of Agriculture.

Wheat rallied at southwest markets for gains of around 12 cents per bushel but corn sank steadily. White corn losses totaled about 35 cents, to close Friday at \$2.50 for No. 2 white yellow dropped 15 to 20 cents to sell at \$2.35 at Fort Worth and Galveston. Oats, barley, and sorghum grains netting.

See FARM MARKET—Page 4

Proving that citizens of this community are backing the hospital fund and are giving all they can possibly afford in order to secure a hospital for this community, was evidenced this week when an unofficial report estimated that \$7,000.00 in donations has been received in the last few days to the hospital fund.

The committee in charge of contributions began work last Saturday and have only worked a few hours. They reported that many people had donated as much as a \$500.00 and were happy to have done so, but that not anything near all the people had been contacted.

**\$12,000.00 Needed**  
At the last meeting of interested persons in the high school it was found that contractors for the hospital had submitted plans for the erection of a hospital building and that bids for the building of a hospital, with a reasonable number of rooms, would amount to \$12,000.00.

Of the amount necessary to complete the stupendous undertaking an approximate amount of \$5,000.00 is badly needed before the efforts of the committee, and people in general, can cease.

Those people who haven't yet donated to this all-worthy cause are urged to consider the necessity of a hospital for our community and then donate all they can possibly afford toward the Silvertown hospital fund. Don't wait for the committee to call on you—save the committee a little work. If you live in the country and you want to mail in your contribution you may send it to the Hospital Fund in care of the Briscoe County News and it will be given to the proper authorities.

**Committee Meets Tonight**  
The members of the committee who are soliciting contributions for the Hospital Fund will meet at the High School tonight where all funds contributed thus far may be added and the exact amounts contributed so far will be known. With several committees busy in various communities, an exact tabulation is not available.

### Veterans to Sponsor Dance Here Friday Night

The Veterans organization of Silvertown, namely, The Veterans of Foreign Wars and the American Legion are jointly sponsoring a dance at the Vets Hall tomorrow night, Garner M. Guest, VFW Commander, reported yesterday.

Dancing is to begin about 8:00 o'clock and last until 12 midnight. The music for the occasion will be rendered by Rip Ramsey and his Texas Wanderers, well-known artists from Amarillo. For an evening of dancing pleasure the public is cordially invited to attend. All funds obtained through the sponsoring of such activities are used by the organizations in sponsoring larger activities and for the maintenance of the Vets Hall.

Admission price for the dance is \$1.00 per person, tax included.

## PERSONAL ITEMS OF LOCAL INTEREST

Mr. and Mrs. J. L. Hedrick, of Hale Center, visited his sister's family, Mr. and Mrs. D. O. O'Neal over the week-end.

Mr. and Mrs. Bill Swindle, of Hart, were weekend guests of Mr. and Mrs. Jim Clemmer.

Mrs. Myrtle Moffett and Mrs. Sally Rodgers and son, Tom, of Erick, Okla., brought Mrs. Mary Rodgers, who had been visiting with them, to her home in Silvertown last Friday.

Byron Abel, of Lubbock, was a Silvertown visitor last week.

Wayne McCutchen and Gordon Tyler were business callers in Tullia last Thursday.

Mr. and Mrs. Larnce McCain, and Mr. and Mrs. Elvin Hutson and Norman, went to Grapevine last Thursday night to visit with their father, Tom McCain.

Mrs. Nellie McCain attended the V.F.W. Convention in Canadian the past weekend. She went as a delegate from the local Ladies Auxiliary.

Mr. and Mrs. Doyle Stephens were visitors in the Ed Vaughan home Saturday morning.

Mr. and Mrs. Jessie Hill, Buel Hill and R. M. Hill left Saturday morning for a visit with relatives in Rochester, Wash. They plan to return by way of California where they will visit with relatives also.

Miss Erma Lee May, who has been attending nursing school at the West Texas Hospital in Lubbock, visited with relatives here last week before going to Houston to take the state examination.

Dick May of Santa Barbara, Calif., was here last week visiting with his mother and other relatives.

Jean Eilson has returned to his home in Crosbyton after visiting in the home of his brother and wife, Mr. and Mrs. James Eilson.

Charlie Holt, of Plainview, spent the weekend here where he visited relatives and friends.

Miss Lillian Brooks of Roundup, spent the week-end in Silvertown with relatives and friends.

Mrs. George Jones and Mrs. T. D. Wallace visited in Childress last week.

Rusty Arnold and W. E. Schott were business visitors in Lubbock one day last week.

Mrs. Watson Douglas was a business caller in Quitaque and Turkey last Friday.

Charlie Matthews of San Angelo was a Silvertown visitor one day last week.

Mrs. Ruth Cline left Friday for a visit with relatives in Happy.

Raymond Lindsey received a medical examination at the Veterans Hospital at Amarillo the latter part of last week.

Jess Saierfield and children moved to Quitaque last week-end.

Mr. and Mrs. Lewis Gilkeyson took Mr. and Mrs. Blain Speer and baby to Tullia Thursday night. The baby received medical attention.

Glen Lindsey of Anton and George Criswell of Lubbock spent the week-end with Mrs. Leavie Lindsey, Sue and Raymond.

Mr. and Mrs. Donald Blackmon of Abertauy, visited with her sister, Annette Wilson, here Sunday.

## Socialism Is Inefficient . . .

One characteristic of socialism is its efficiency. The best current example of that at present is England, where the labor government has been attempting to make the enormous transition from a free enterprise system to a socialistic system with unusual speed. The result has been severe decline in production. The British mines are producing less and less coal—and for the first time in her history, England is having to import coal from us. The British mills are producing less steel. The threat of immediate socialism is a damper on the British electric industry. And the output of export commodities, which was depended upon to revitalize England as a financial power, has been far below the forecasts.

This inefficiency is implicit in the socialist system. First of all, socialism destroys initiative—what rewards there are go to the state, and the best the individual can hope for is a political job. Second, socialism depends upon the use of force of one kind or another to achieve its ends. Labor is compelled to accept a certain kind of employment whether it wants it or not—and the man who works under compulsion never does his best. Third, socialism ties up all the energies of the country in an impenetrable jungle of rules, regulations, red tape, priorities, ration schemes, and so on. Again, initiative is smothered.

We hear much of Russian production. But here, again, it is the result of mass effort—of an unlimited supply of slave labor with an incredibly low standard of living. Judged by any American standard, Russia is abysmally inefficient.

Only under free enterprise do we attain maximum efficiency, the maximum standard of living for all—and, most important, maximum freedom for all. That is the one fact Americans must never forget when schemes for further government ownership of industry are presented.

## Behind The Scenes in AMERICAN BUSINESS

By REYNOLDS KNIGHT  
NOTE TO READERS—The information contained in this weekly summary of happenings in the world of business and industry has been obtained from sources we consider reliable but is not guaranteed. Opinions and forecasts are based upon careful analysis but are subject to change without notice.

—The Editor

Where do all the people get all the money? Many a merchant is asking that question today as he sees his aisles again swarming with willing spenders. For there is no doubt about it—retail sales are again moving upward. So the latest survey of the Commerce Department on income payments is most timely. Not only does it measure the big jump in earnings of the average person over the past six years, but it also picks out those states where the rise has been greatest. As everyone knows, income payments to individuals were more than twice as big in 1946 than in 1940. But some states show a greater-than-average gain. For instance, income to the state of Washington citizens was 184 per cent ahead of 1940; Oregonians saw their income rise 173 per cent; Californians 165 per cent. In general, the far west states fared best; the big central-west states such as North Dakota, South Dakota, Nebraska ran them a close second, showing the influence of better prices for the farmer's products. The older sections of the country did not participate fully in the boom. New York state's citizens had only a 94 per cent rise in income; Massachusetts only 80 per cent. So, it would seem, the money came mostly from new industries and from farm products.

NEW RAILROAD DINER CLICKS—America's newest innovation in railroad dining facilities—the diagonal diner—is making a major hit with the hundreds of thousands of persons who have viewed General Motors' Train of Tomorrow during its nation-wide tour. Embedding an entirely new principle of seating this diner was one of the feature cars designed and introduced by Pullman-Standard Car Manufacturing Company in its "Tomorrow's Train Today" showing shortly after V-J Day. So impressed were General Motors designers with the model that they incorporated the ideas in their deluxe show train. Diagonal placement of seats and tables makes it possible for each occupant of the car to have a side of the table to himself. This arrangement allows the diner to slip in or out of his seat without disturbing others at the table and waiters to step between tables and serve each passenger from the side, thus keeping the aisle open. An improved table setting results from keeping water bottles, creamers, sugar bowls and menus on triangular shelves along the car wall. America's first two postwar trains, delivered to the Pere Marquette and Chicago & Eastern Illinois railroads by Pullman-Standard, also feature the company's diagonal diner design.

THINGS TO COME—Newest auto accessories are glass tops for convertibles. The tops, weighing 50 pounds, can be installed by two persons in 15 minutes. . . A new chemical process in laundering is said to double the life of woolen wearing apparel by preventing shrinkage. . . Soon to be on the market is new device which opens vacuum-type cans with a twist of the wrist. . . New ashtray design prevents lighted cigarettes from dropping to tables or

## TIRE REPAIRS

floors . . . The comic book technique, widely used for wartime military and industrial training, is coming into peacetime use for training of sales and merchandising personnel. . . An improved dentifrice is packaged in tablet form—biting into one cake supplies enough for one tooth brushing. . . Tiny palm-size radio set is said to have a 100-mile reception range and full-band reception of local stations. . . New book-mark flips over as pages are turned to keep the reader's place automatically.

## PRODUCTION PLEDGE HOLDS PRICES DOWN

When a company and its employees pull together to keep production up and costs down, the postwar battle of prices can be won. In the plants of the Libbey-Owens-Ford Glass Company, of Toledo, Ohio, management and workers—from top executive to hourly-rated production hand—have joined forces to resist rising costs and to boost output of glass. This year, employees will take home \$34,000,000

in pay checks as compared with \$29,000,000 last year, largely as a result of wage raises made without increasing glass prices. But increased productivity plus employee cooperation in keeping down unit costs has enabled the company to continue its policy of guaranteeing glass prices for future construction projects and even to extend this hold-the-price-line policy to cover Thermopane, the company insulating window. Today, average glass prices are only 18 per cent above 1938, a "depression" year, although wages have increased 84 per cent and material costs are still rising in the glass industry.

BITS OF BUSINESS—Brightest spot in the food picture at the moment is the low price level of dried fruits, peaches, apricots, prunes, apples and raisins, which are selling well below last year's levels. . . Europe needs a redistribution of manpower, as well as money, materials and machinery to carry out a recovery program. Eight nations report a de-

ficit of more than 600,000 unskilled and skilled workers while Italy and allied occupation zones report a surplus of labor. . . A dip in employment, now at an all-time high, may precede any general drop in price levels, most economists believe. . . The fact that Americans got used to eating less sugar during the war will spur sweet-tooth sales promotion drives to ward off the economic effects of a sugar surplus, which looms for 1947. . . Industry has been displeased by government as the principal "financial angel" of research. More than 60 government agencies throughout the nation employ 30,000 scientists and operate research facilities valued at about \$1,500,000,000.

French Morocco is larger than France by about 19,000 square miles.

In auto-ownership per capita, New Zealand ranks next to the United States.

LET US BE YOUR QUALITY SERVICE HEADQUARTERS

# Veterans' News

Approximately 30,000 veterans and World War II who suffered impairments in service are eligible for a special program of rehabilitation that the Veterans Administration has established to help them overcome their disabilities.

Veterans may take advantage of this program whether they require medical attention or whether their hearing or whether their rehabilitation to overcome the handicap of a permanent physical impairment.

The complete rehabilitation program includes a series of hearing tests, the selection of a hearing aid if indicated, auditory training, lip instruction and speech training if necessary.

At the State University at Tulia is one of 26 institutions throughout the nation with the Veterans Administration contracts to provide this service for veterans.

Opportunities for careers in forestry are described in a "Handbook on Entering Forestry" which has been distributed to all Veterans Administration vocational advisers by the Society of American Foresters in Washington. The booklet contains descriptions of positions in forestry, working conditions, salary requirements for entry and of applying for jobs.

The handbook also lists agencies, both private and Government, which employ foresters and persons in related occupations. Veterans desiring to train for forestry positions under the G. I. Bill were cautioned that the field is limited and possibly might become over-crowded.

Approximately 104,000 World War II veterans are learning to become skilled mechanics and repair men under the job-training provisions of the G. I. Bill, V A reported. Of some 600,000 veterans taking on-the-job training, mechanics led the list followed by salesmanship and retail management with 80,000 veteran trainees.

## Poultry Raisers Given Tips on Prize Poultry

Since a host of shows are coming soon now for Texas poultry breeders, they may want the idea of a poultry judge as to what makes a winner.

Ted Martin, poultry specialist of Texas A. & M. College Extension Service, who will help judge many of the state's bird shows this year, says that poultry awards can be won or lost at home, when the breeder selects his birds and prepares them for the show.

In selecting poultry for competition, choose the healthy, vigorous birds, says the specialist. Health in a bird is indicated by alertness, bright combs, good flesh and feathers.

Cleanliness goes a long way with a judge, too. A good bath for the birds is a smart idea, says Martin, especially the white breeds. In bathing poultry, use three tubs of water. The first—good and soapy, and luke warm.

The second tub—clean, clear water. And the third tub—blueing. "About as much blueing as your wife uses in a tubful of sheets," Martin says, "will turn your white birds out looking ready for the judge."

Martin warns prospective poultry show entrants to watch several points that can disqualify them in competition. For instance, clipping any main wing or tail feathers will push a bird out of the race. Also, "side sprigs", a point-like growth on the comb is a disqualifying fault, as well as feathers below the knee joint, except on those breeds which are supposed to be feathered on the shanks.

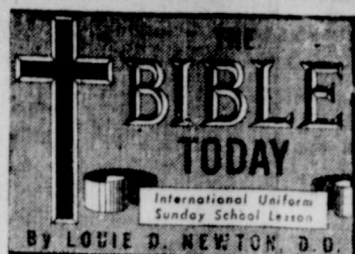

A bit of pre-show training, says Martin, will improve the breeders' chances. If the poultryman will remove his show birds from the rest of the flock, give them extra care, handle them gently, they will be accustomed to handling when the judge examines them. The bird can be taught to pose, using a round, blunt-pointed stick as the poultry judge carries.

Another smart idea is consulting the show superintendent for information on how the event will be conducted, and for tips on breeds and varieties to show.

The poultryman who has been missing the blue ribbons at shows lately may want to check up on some of these things, says Martin. They can mean the difference between winning and disqualification.

Polyandry in the Marquesas Islands in the South Seas is attributed to the fact that there are about seven men to every woman on the islands.

There are said to be about 21,000 different ways to earn a living today.

SCRIPTURE: Hebrews 1-2, 8:6-13; Matthew 3:16, 17; John 14:5-11.  
DEVOTIONAL READING: Psalms 49:1-8.

### Better Revelation

Lesson for October 5, 1947

WITH Sunday's lesson we turn into another field of Bible study for the concluding quarter of the year—messages from the Epistles, other than those of Paul.

This lesson, and the next two, are from the Epistle to the Hebrews—one of my favorite books in the Bible. The passages of study for this lesson are Hebrews 1-2, 8:6-13; with kindred passages in Matthew 3:16, 17 and John 14:5-11. Suggested devotional reading for the lesson is Psalms 49:1-8.

Dr. Newton The title of the lesson has reference, of course, to Christ—the better revelation of the Son of God in his appearance to bring the father's plan of redemption nigh unto all men.

#### The Father's Son

"GOD, who at sundry times and in divers manners spake in time past unto the fathers by the prophets, hath in these last days spoken unto us by his son, whom he hath appointed heir of all things, by whom also he made the worlds." chapter 1, verses 1 and 2.

"And Jesus, when he was baptized, went up straightway out of the water; and, lo, the heavens were opened unto him, and he saw the Spirit of God descending like a dove, and lighting upon him; and lo a voice from heaven, saying, This is my beloved son, in whom I am well pleased." Matthew 3:16, 17.

Could there be a more beautiful and impressive manifestation of God's acknowledgment of Jesus Christ as his son?

#### Love is the Key

IN THIS better revelation of Jesus Christ, we find that love is the key that opens the door into the brightly lighted room. "The father loved the son, and hath given all things into his hand," John 3:35.

Love is the key. It is ever so with all the revelations which God makes of himself to his trusting children.

And this revelation of God in Jesus Christ carries the further truth that "all things" have been placed in the hands of our blessed Saviour. We read elsewhere that "all things consist in him," which means that all things hold together in him—the world itself. Jesus said, "All power hath been given unto me, in heaven and on earth."

It is not a picture of passive love, but a picture of perfect love in action, with all things committed to his administration. Again we can sing, "This is our father's world."

Christ Reveals God

NOT only does Christ reveal himself, but also the father, for they are one. Reading now into the second chapter of Hebrews, we find these words: "God also bearing them (angels) witness, both with signs and wonders, and with divers miracles, and gifts of the Holy Ghost, according to his own will."

It is God's own will that he be revealed, and he must do the revealing. Turn to John 14:5-11, where we read again that revealing incident when Jesus patiently reassured Thomas and Philip, declaring "He that hath seen me hath seen the father."

The better revelation of God in Jesus Christ brings us far beyond the revelations of God in the Old Testament, dramatic and impressive as they were.

A New Covenant

THE better revelation means "a more excellent ministry," because Jesus Christ has now become "the mediator of a better covenant, which was established upon better promises," Hebrews 8:6.

The first covenant was imperfect, because it was manifest through humanity. Only the perfect son of the perfect God could manifest the better covenant. Jeremiah foresaw the better covenant. See Jeremiah 31:31-34.

Now that the better revelation is our portion, what shall be our response? One cannot be excused today by claiming ignorance of God's proffered salvation unto all men. He has revealed his love in the death of his only begotten son on the cross. He has revealed his love in abounding and forbearing mercies.

"How shall we escape if we neglect so great salvation?"

## Liquid-Cooked Meat Saves Much Worry

New again this summer is the vast array of delicious foods that arise from flavorful liquid-cooked meats. The experienced homemaker has learned this lesson well and the new homemaker can follow her lead in serving them.

For the information of those who have not prepared them before, many large, less-tender cuts are cooked in liquid until tender, though a few tender cuts are cooked this same way for variety's sake. Less tender cuts include beef neck, beef shank, beef heel of round, beef plate, beef brisket, beef short ribs, beef tongue, beef heart, corned beef, veal neck, veal shank (for jellied veal), veal tongue, veal heart, and lamb shanks. Smoked ham, smoked picnic shoulder and smoked butt are among the tender cuts which may be cooked in liquid.

When cooked and chilled, these meats are much in demand for substantial meat salads, sandwiches, sandwich fillings, jellied meat loaves, and countless other summer favorites.

To prepare the meat, place in a kettle and cover with liquid. This type of cooking differs from braising in that it requires more liquid and the meat is not usually browned before cooking. Reba Staggs, home economist cautions that the meat must be cooked covered. Season with salt and pepper and other desired seasonings, such as pepper-corn, bay leaf, celery tops, parsley, thyme, marjoram or cloves.

Cover kettle tightly, and simmer until tender. Fresh and corned beef require 40 to 50 minutes per pound, cured pork 20 to 30 minutes per pound (smoked picnic shoulder requires 35 to 45 minutes per pound). It is important that the meat simmer, rather than boil, so it will be tender, flavorful and juicy, rather than dry, stringy, and tasteless.

Cool the meat quickly. Cooked meat is always stored, covered, in the coldest part of the refrigerator, and used within a very few days.

The superstition that to break a mirror gives seven years bad luck started with the Romans about the first century of the Christian era.

Quinine in 1823 sold for \$20 an ounce.

FIGHT INFLATION BY BUYING AND HOLDING U. S. SAVINGS BONDS

John Deere Dealer

Specialist in the treatment of JOHN DEERE Farm Equipment

Our shop is in the hands of factory-trained mechanics—first-class mechanics with the special training that gives them expert knowledge of all your John Deere farm equipment. They have the "know how" that makes for quick, accurate and efficient work.

That means a great deal to you, Mr. John Deere owner. It means that all required work will be done—nothing omitted, and nothing unnecessary added. It means the work will be done in the shortest possible time—no cost for the time an untrained mechanic wastes in finding how to do the job. And, most important of all, it means that your John Deere equipment will be in perfect condition to deliver full, uninterrupted service when the next season comes.

Be prepared to follow through on Victory, and play safe by having your John Deere farm equipment serviced by our John Deere Specialist.

COFFEE -Implements-

Our slogan is double Church gifts for devastated areas.

Businessmen are shipping the Scriptures by the ton

Starting with less than a dozen gifts in 1816, the American Bible Society last year received hundreds of thousands of individual contributions for copies of the Scriptures, the Bible, and the New Testament.

Today, from every part of the globe, requests for copies of the Scriptures are being received from millions of men, women, and children in devastated areas.

Knowing the great good that has followed the work of our Missionaries, American businessmen are urging their friends to double their gifts to the American Bible Society—for 130 years a nonprofit organization.

5¢ will pay for a portion of the Scriptures, 20¢ will buy a New Testament, and 50¢ will place a copy of the complete Bible in the hands of someone who is starving for God's Word.

NEW 1947 SERVEL STAYS SILENT

Don't hear a sound with the new 1947 Servel—when it's installed or after years of use. That's because of Servel's famous, differencing system with no moving parts. There are no motors, valves or belts to cause noise or wear or need fixing. A tiny amount circulates the refrigerant that provides constant cold and ice cubes galore—efficiently, dependably.

What's more, the new 1947 Servel Gas Refrigerator brings you the last word in modern storage for fresh and frozen foods. The big Frozen Food Locker holds up to 60 standard-size packages of frozen meats, vegetables, fruits. And for fresh foods, there are two de-waxing vegetable fresheners as well as a generous-size meat keeper. Today—stop in and see the new Servels on display.

### Hodges-Thomas Vows Solemnized In Canyon Recently

In an impressive candlelight ceremony last Friday evening, Mary Hodges, daughter of Mr. and Mrs. R. A. Hodges, became the bride of Wayne E. Thomas, son of Mr. and Mrs. Zerell Thomas of Hereford.

Rev. Joseph Findley, pastor, read the double-ring service in the First Christian Church. Vows were exchanged before a Gothic window entwined with fern and centered with an arrangement of white chrysanthemums. Flanking the window were baskets of white flowers and candelabra bearing lighted white tapers.

Bridesmaids, Miss Carlyn Wimberly and June Wimberly, cousins of the bride, wore identical gowns

of blue taffeta and net, styled with fitted bodices and long peplums. Their hats were of blue net to match their gowns.

Attending her sister-in-law as matron-of-honor, Mrs. James W. Hodges of Tulsa wore an orchid net gown with a matching hat. Miss Sada Ruth Hoskins of Spearman, maid-of-honor, was attired in pink net. All of the attendants carried Colonial nosegays of rainbow colored asters tied with rainbow satin streamers.

Ray Brickley of Dalhart was best man and groomsmen were Howard Weatherley of Panhandle, Charles Bruce of Vega and Joe Merriman, of Amarillo.

Entering on the arm of her father, who gave her in marriage, the bride was attractive in a gown of ivory satin, designed with a bouffant skirt, fitted bodice, ba-

teau neckline, and tunic effect extending into a graceful train. She carried a bouquet of orchids surrounded by stephanotis and showered with streamers of rainbow satin ribbons. For something old, she wore a pair of gold bracelets which her grandmother Hodges wore at her wedding and for something borrowed, she wore a double tiered veil of illusion belonging to her cousin, Mrs. Harold Seefeldt, of Silverton.

Following the ceremony, the bridal party was feted at a reception in the home of Mrs. T. S. Stevenson, aunt of the bride. A tiered wedding cake surrounded by asters centered the serving table, which garlanded with fern caught by small bouquets of asters. Mrs. J. L. Spencer of Pampa, aunt of the bridegroom, presided at the punch bowl and Mrs. W. R. Kendall of Amarillo, aunt of the bridegroom, served the cake.

Mrs. Thomas was graduated from West Texas State high school and received a degree in music from West Texas State College, where she was a member of Gamma Phi Sorority and Alpha Chi honorary scholastic fraternity.

Mr. Thomas was graduated from Adrain High School and received a degree in political science from West Texas State College, where he was a member of Alpha Sigma Xi Fraternity, Alpha Chi and Alpha Psi Omega, honorary dramatic fraternity.

After a wedding trip the couple is to be at home in Pampa, where both are employed in the Pampa schools. For traveling the bride wore a brown gabardine suit with matching accessories and an orchid corsage.

Mrs. Thomas is a relative of many Silverton people and has many friends in this community.

### Cooper Family enjoys Reunion Here Last Saturday

On Saturday, September 27, in the home of Mr. and Mrs. Clarence Anderson the Cooper family with other relatives and friends, met for their annual reunion, which proved to be a very enjoyable occasion for all.

Of the eight surviving brothers and sisters only five were present. Immediate members of the Cooper

family attending included Mr. and Mrs. J. E. Cooper of Midlothian, Texas; Mrs. Emma Waller, Kress; Mrs. M. P. Stone Mrs. R. L. Campbell and Mr. and Mrs. T. L. Anderson of Silverton. Mr. I. N. Cooper, Cove, Ark.; Mrs. C. P. Arthur, Maricopa, Calif., and Mrs. T. E. Osborne, Irving, Texas, were unable to attend but sent greetings to the group by telegrams and letters.

Other relatives and friends enjoying the day were, Mr. and Mrs. Raleigh Martin, Lubbock; Mrs. Marcia Meriwether, Lockney; Mr. and Mrs. L. A. Hollor, Vernon; Geo. F. Holland, Wichita Falls; Mrs. Henry T. Wolf and daughters Billie Jean and Mary Helen of Iowa Park, Mrs. C. B. Witt, Amarillo; Miss Roberta Campbell and Buddy Bob Herford; Mrs. Dave Eakin, Edgar and Nina, Marian Bowery, M's Fern Orr and Larry and Kenneth, all of Electra, Tex.; Mr. and Mrs. Fred Elliston, Miss Anna Lee Anderson, Mr. and Mrs. Clarence Anderson, Susan and Joe, Mrs. Emma Frieze, Mrs. Jettie Garvin and Mrs. D. N. Montague, all of Silverton.

### W.M.S. Closes Year's Work at All-Day Meeting Monday

The W.M.S. of the First Baptist Church closed their year's work with an all-day meeting at the Church Monday of this week. It was reported.

Mrs. G. R. Dowdy, the out-going president, was in charge of the meeting.

Those present at the meeting were as follows:

Mesdames: John Wheelock, Luther Gilkeyson, Ray C. Bomar, Alvin Jackson, R. E. Stephens, G. A. Elrod, Charley Chappell, G. R. Dowdy, Jim Bomar, Pearl Simpson, Lee D. Bomar, A. D. Arnold, G. C. Harrison, Grady Wimberly, Gabe Garrison, Sam Brown, Carol Garrison, Allen Kellum, Roy S. Brown, Burton Hughes and Miss Eunice Coe.

### March of Time Club Enjoys Meeting on Poetry

At a recent meeting of the March of Time Study Club the group reported an interesting program on "Poetry"

Mrs. Wayne Crawford gave Rudyard Kipling and Mrs. Clarence Anderson gave Carl Sandburg.

Members present were: Mrs. Conrad Alexander, Mrs. Alvie Mayfield, Mrs. Troy Burson, Mrs. Clarence Anderson, Mrs. Tony Burson, Mrs. Anna Lee Anderson, Mrs. Roy Mayfield, Mrs. Gordon Montague, Mrs. Gatewood Lusk, Mrs. Chick Norheutt, Mrs. Wayne Crawford, Mrs. Johnnie Lanham, Mrs. J. W. Lyon, Jr., and Mrs. True Burson.

### L.T.D. Club Has Meeting in Arthur Brown Home

The L. T. D. Club met at the home of Mrs. Arthur Brown Tuesday, September 30th for its regular meeting, the club reporter re-

ported this week. "Guess What's" were given to Mrs. Conrad Alexander and Mrs. Gatewood Lusk.

Refreshments were served to: Mesdames J. W. Lyon, Jr., Dillard Scott, Durward Brown, Conrad Alexander, Johnnie Lanham, and Gatewood Lusk.

The next meeting will be in the home of Mrs. Durward Brown on Tuesday, October 14th.

### FARM MARKET—

ted little change. Rice demand continued slow at prevailing prices last week. Principal producing areas escaped major hurricane damage. Grain product feeds declined, but others sold unchanged to higher. Hay prices advanced \$2 per ton. Peanuts moved at government support prices. Texas fine wools sold actively at 42 to 52 cents per grease pound.

Spot cotton prices declined from \$4 to \$6 per bale during the week, and there was a further weakening of the basis. Demand was good for Army Purchases qualities but only fair for domestic purchases. Harvesting made rapid progress.

Cattle closed this week generally 30 cents to \$1 or more lower. Calves fell the heaviest pressure. Good calves held at \$17.50 to \$19.50 at Houston, and choice heavy calves moved at \$21 to \$23 at Oklahoma City. Good and choice calves turned late in the week at mostly \$17 to \$19 at San Antonio, \$16.50 to \$19 at Fort Worth, and \$16 to \$19 at Wichita. Denver's practical top was \$21.50 for calves and vealers.

Hogs suffered losses of mainly 25 cents to \$1 for the week, and pigs fell as much as \$2 at some markets. San Antonio closed the week at a top of \$27.50, Fort Worth and Oklahoma City at \$28. Wichita at \$27.75, and Denver at \$28.75. Sows brought \$24 to \$25.50 at Fort Worth and Oklahoma City, and \$23 to \$26 elsewhere.

Slaughtered lamb prices dropped \$1 to \$2 per hundred at most southwest markets last week, while aged sheep and feeder lambs fell mainly 50 cents. San Antonio moved common and medium spring lambs at \$16 to \$19, and Fort Worth sold medium to good kinds at \$19 to \$21. Good and choice grades brought \$21 to \$22.50 elsewhere.

Liberal offerings of most seasonal fruit and vegetables moved rather slowly at Fort Worth, where lettuce and celery met dull demand, but cabbage held steady, and onions and cauliflower sold firm to higher. Carrots and cantaloupes brought better prices at Kansas City, while tomatoes and sweet potatoes stayed the same. San Luis Valley Colorado potatoes remained about unchanged, but cauliflower and Arkansas Valley onions showed strength. Local prices strengthened at New Orleans.

Good demand held poultry prices firm during the week, and young chickens tended higher. Some turkeys moved largely at government prices. Eggs remained fairly steady. Seasonally best candled offerings sold mostly around 50 to 55 cents per dozen, but some areas including New Orleans paid up to 60 cents or more.

Mr. and Mrs. B. H. Turner, of Turkey, visited in the Jeff Simpson home Sunday. Mr. and Mrs. Simpson celebrated their 50th wedding anniversary on that day.

## FATHER and SON

### MODEL SUBMARINE

Budget: Dad, \$3.00 for motor—Son, 60c for materials

Dear Dad:  
This almost true scale miniature  
submarine can be made to dive or  
run free on the surface at will. It  
is powered with two 10c Eveready  
flashlight cells which actuate a  
miniature electric motor driving a  
small 3-bladed propeller.

The switch, which operates on  
the push-pull system, extends  
through the dummy periscope and,  
when on, seals the periscope tube  
against possible leaks. Upper and  
lower sections of the hull are se-  
cured with seven brass screws as  
shown in the drawings. Thus the  
hull is readily opened for battery  
changes or other servicing. If con-  
structed properly no leaks will  
occur but it is important that the  
propeller shaft is well greased be-  
fore inserting in the shaft tube or  
housing. Water will not harm the  
motor but the Eveready batteries  
can be damaged by water. It is  
essential the hull is tested against  
leakage.

To build: Lay out full size draw-  
ing from the squared pattern given  
in Fig. 1 and rough out the hull as  
shown in Fig. 2. The degree of  
fidelity will depend upon your pa-  
tience and skill but truthfully  
there is no particular difficulty in  
working up this hull. It will be  
helpful to have a few pictures of  
real submarines on hand while  
getting out the hull.

The external keel shown is neces-  
sary, not only to produce verti-  
cal balance but also to trim the  
sub so that it will dive when the  
diving rudders are set. Keel should  
be just heavy enough to permit

the sub to float with deck awash  
and so that a gentle shove will  
send her under. Exact size and  
weight of this keel will have to be  
determined on the job. The fore-  
and aft diving rudders are made  
of tin can stock crimped over  
pieces of paper clip.

Electric leads are best soldered  
but this is not essential. A liberal  
use of model airplane glue will do  
the trick and for that matter the  
propeller can be secured to the  
shaft in the same way. Do not use  
a larger diameter propeller but  
follow the full size pattern given.  
This propeller should be bent to a  
moderate pitch and if properly  
balanced will develop surprising  
speed on this 1 7/8-inch model.

The hull should be thoroughly  
painted inside and out before  
testing. Outside finish is up to the  
builder but the original model was  
done in flat grey dope paint and  
this is recommended.

The rubber gasket which seals  
the hull joint can be cut from a  
piece of ordinary bike inner tube.  
Total cost of this model, less mo-  
tor, should not exceed 60 cents if  
paper clips, odd bits of tin and  
so forth are utilized. The keel may  
be a problem for those who do not  
understand the properties of lead  
but actually it is a simple matter.  
Just melt down a small piece of  
lead pipe and cast it in a thin  
strip in a flat can and then cut up  
as required until the desired bal-  
ance is obtained.

Sincerely yours,  
Doug Rolfe

A meeting was held in the high  
school auditorium at 8:15 for the  
purpose of organizing a Choral  
Club. The following officers were  
elected: J. D. Strickland, presi-  
dent; Jonnie Bundy, Sec.-Treas.,  
Graham Chandler, vice-president  
and Mildred Jackson, News re-  
porter. The club will be sponsor-  
ed by Mrs. King.

### One Year Ago Today

Temperatures for the past two  
weeks have been rather low a few  
times and jackets and coats are  
seen quite frequently on the  
streets as a result. The lowest  
temperature during the past two  
weeks was 38 degrees and a high  
of 80 degrees, Mr. Bomar report-  
ed.

### 11 Years Ago Today

Miss Sylvia Day of Matador, and  
Mr. Ware Fogerson of Silverton,  
were united in marriage, Satur-  
day, September 26, at Matador, by  
the Methodist minister there.

There was a thin skim of ice in  
the bar ditches Tuesday morning.  
Also some people reported some  
of their flowers frosted in the  
yards the same night.

A meeting of the Silverton  
school girls who were interested in  
organizing a 4-H Club was held  
at the Silverton school Wednes-  
day morning with 56 girls present.  
The following officers were elect-  
ed: Nora May Thompson, Presi-  
dent; Vera Davis, Vice-president;  
Anna V. Burleson, Sec.-Treas.,  
and Georgia Kirk, Reporter.

Introducing Autumn's smartest  
frook. Snug at the waistline and  
flared below, a youthful inter-  
pretation with snap and dash.

### Rock Creek Club Has Meeting With Mrs. Fitzgerald

The Rock Creek Club met with  
Mrs. Florence Fitzgerald on Sep-  
tember 23 it was reported this  
week by the secretary of the club.  
During the course of the meet-  
ing one quilt was quilted.

Members present were: Vera  
Allison, Florence Fitzgerald, Mar-  
garet Frizzell, Marie Garrison,  
Juanita Stephens, Eula Sheffer,  
Mrs. W. W. Reid, Mrs. Spillman,  
Mrs. Ruth West and two visitors,  
Mrs. Dee Ford and Mrs. Lee John-  
son.

The next meeting will be held  
in the home of Mrs. Eula Sheffer  
on October 7th.

Penicillin was first isolated as a  
brown powder in 1499 at Oxford  
University.

U. S. wheat acreage jumped  
about 10,000,000 acres between  
1941 and 1946.

made a deal this week whereby  
they became owners of the South  
Side Grocery. This grocery store  
has grown until it is one of the  
leading business centers of the  
town and Messrs. Brown and Bo-  
mar promise to do their best to  
make it continue to grow as the  
county grows as well as the town.  
Both Mr. Brown and Mr. Bomar  
have been in this section of the  
Panhandle for many years and are  
well known, even before they en-  
tered the grocery business.

Men who are ex-soldiers and  
sailors of the World War are being  
urged to meet at the courthouse  
next Thursday night, October 8th  
for the purpose of organizing an  
American Legion Post.

Briscoe County took ninth  
place at the Tri-State Exposition  
in the agricultural exhibits win-  
ning a cash prize of \$75.00.

The Burson Motor Company re-  
ceived two more of the new Ford  
Cars this week.

Jewelry becomes more and more  
important. The jewelers now fash-  
ion jeweled buttons, belts, clasps,  
pins, and ornaments of every sort.

### 18 Years Ago Today

Texas has 491 ice plants with a  
daily capacity of 21,129 tons.

In Randolph Field, San Antonio,  
Texas is to have the largest and  
most modern airport and flying  
school in the world. Plans have  
been accepted by the War De-  
partment for its construction.

The cow belonging to the Meth-  
odist church and which is kept at  
the Farm of T. J. Hodges was  
stricken the first of the week with  
a severe case of milk fever. W. M.  
Gourley, agriculture teacher, who  
was visiting in Canyon, was called  
home Sunday morning by Rev.  
Marvin Br. therton to administer  
the prescribed treatment. At last  
reports the Methodist cow was re-  
covering in good shape.

Did you ever hear of "dropping the pigeon"? Back in Memphis, Tenn. when I was a young reporter, "dropping the pigeon" was frequently reported to the police. How the name was derived, I don't

know but it was a swindle in which the sharpsters and the victims were negroes. The scheme worked this way:

A cotton picker, with his season's earnings, alighted from a train and as he entered the railroad station, a well-dressed negro perceived from the new arrival's clothes and his gawking at the sights that he was a greenhorn so he stepped forward and said, "Judge Brown, when did you get to the city?" and then he said, "Ah begs yoah pa'don, suh, but you looks so much lak mah friend, Judge Brown, de distinguished lawyah from Grenada dat Ah mis-

took you".

Of course, the rustic was flattered at having been mistaken for so distinguished a personage and then his new friend said, "Ah'm goin' to walk up town; ef you would care to accompany me, Ah'd be glad to point out de sights", an invitation which was accepted.

They had walked only a block or two when the city man stooped down quickly and picked up a billfold, then jerked his companion into a doorway, saying, "Lets git in heat befo' somebody sees what we found." In the billfold was a fifty-dollar bill. "Huh, no name or address; we can't return it, so it's 'uahs", said the finder. "You has orung me luck so we will split it." But he didn't have change. The visitor however produced \$25 so his friend pocketed this and handed him the fifty-dollar bill. A few minutes later, the finder of the billfold shook hands with him cordially and then told him goodby. When the country negro made a purchase he learned that the bill was counterfeit. The billfold had of course been dropped by a confederate of the

smooth talker.

During a trial for theft, the defendant suddenly changed his plea to guilty. The jury came back in a little while with a verdict of "Not guilty... The judge said, "But the defendant confessed." "Pshaw, judge", replied the foreman, "we all know Bill and we know what a big liar he is."

### Heart Disease is Responsible For Many People's Death

Rheumatic heart disease is now the first cause of death among children aged 10 to 14, and is second only to tuberculosis at ages 15 to 25. Despite the importance of this disease its epidemiology is not completely established. No vaccine such as those that prevent typhoid, diphtheria, smallpox, and whooping cough has yet been developed for its prevention or control. We do know, however, some of the danger signals and with the physician's accurate diagnosis some of the damaging results of the disease may be prevented.

Exposure to frequent chilling,

### FARM FACTS WORTH KNOWING

Q. What is the cause of a cow giving bitter, rancid milk?  
A. This trouble is usually due to the action of an enzyme known as lipase which is normally not present in milk but may occur in the last stages of the lactation period or in cows suffering from mastitis. If not due to mastitis, the trouble will usually disappear when the animal freshens or after she goes on pasture. The difficulty may be overcome by heating the milk to 145° F. and then cooling promptly.

Q. What factors should be considered in selecting the boar for the breeding herd?  
A. The major factors to consider in selection of the herd boar are:  
1. Individuality or outward appearance.  
2. Ancestry or the inherited ability to produce strong, healthy and desirable offspring.  
3. Performance record or the test of production.

Q. After rabbits have been mated, is it advisable to have the does rebred?  
A. Yes. The Rabbits at the Ralston Purina Research Farm recommends that rabbits be mated and the same pair remated five hours later. Then, because of the possibility of does going through a period of pseudopregnancy (false pregnancy) all does are rebred again on the 18th day.

Q. My five-month-old capons are developing breast blisters. These capons have been raised on wire since they were four weeks old. Is there any way to get rid of these blisters, and will they affect the quality of the meat?  
A. These breast blisters are no doubt caused by irritation from the wire floors. Raising the birds on slat floors will prevent most of this trouble. Blisters that become punctured and infected would make the carcass unsalable. But ordinary breast blisters do not affect the quality of the meat although they do hurt the appearance of the carcass when dressed.

Send your questions about livestock or poultry problems to FARM FACTS, 871 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

damp or overcrowded living quarters, a poor diet, an attack of scarlet fever, a bad cold or other infection caused by certain streptococcus germs are likely to be predisposing factors in the appearance of rheumatic fever.

Dr. George W. Cox, State Health Officer, points out that in general the danger signals of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows, or wrists. The pain usually is felt in one of these centers and spreads to the others. Oftentimes a child will get irritable and cross without any visible signs of a good reason for this attitude; he may cry easily or develop habits of nervousness. A physician should be consulted at once in such a situation, for these symptoms may be the beginning of rheumatic fever.

According to Dr. Cox the best safeguards against this disease are to have each child examined at

least once a year by a physician, to have the right kind of food and plenty of rest. When the disease is suspected of being present, a doctor should be consulted at once, and if he prescribes complete bed rest, his advice should be implicitly followed.

The United States uses about 500,000,000 fence posts a year, enough to build 1,500,000 miles of fence.

### ARMY NEWS FROM HERE & THERE

**Army Appointments**  
Announcement of names of appointments to Regular Army commissions in the last increment of the second officer integration program will be made during the week of October 1-5.

Present indications are that the list will contain approximately 2,000 nominations of which 500 will be allotted to Army Ground Forces, 1,300 to the Service Forces and 4,300 to the United States Air Forces.

Applicants now on inactive status and residing within the Fourth Army area who have not

been notified of their ineligibility for appointment, are requested to notify the Commanding General, Fourth Army, Attention: AGO-RA, Fort Sam Houston, Texas, by wire or letter of their present mailing address.

**Training Plan For Officers**  
Field grade officers are now authorized to volunteer for training with Regular Army training divisions. An overall quota of 170 officers has been established by the Army Ground Forces for the six Army areas.

Field grade officers who volunteer may be assigned for a minimum of 12 days and a maximum of 30 days including travel time.

The Regular Army training di-

visions to which officers will be assigned are the 9th Infantry Division, Fort Dix, New Jersey; the 4th Infantry Division, Fort Ord, California; the 5th Infantry Division, Fort Jackson, South Carolina and the 3rd Armored Division at Fort Knox, Kentucky.

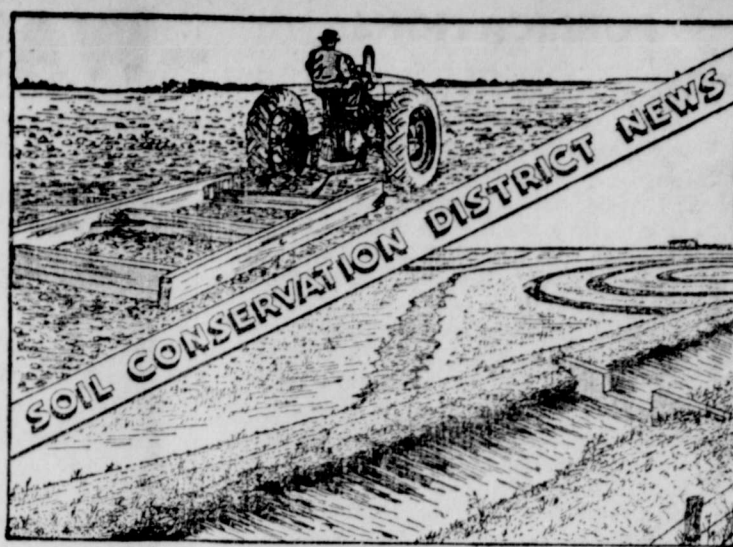

**Expenses Of Parades Cut**  
Maximum economy in the movement of troops for participation in parades, ceremonies and celebrations, due to the limited amount of funds available, has been ordered by General Jacob L. Devers, Army Ground Forces Commander.

**Plans For Reserve Officers**  
Representatives of the Department of the Army Research and Development Division stated that matters concerning Reserve Officers who are professional scientists are being studied in the division. Among the subjects being considered are: Composite Research and Development Reserve units; scientific reserve resources; active duty training assignments for Reserve Scientists; scope and administration of proposed technical training program for Reserve Scientists; mobilization assignments for Reserve Scientists.

**Take Non-Veterans In Reserve**  
Enlistments in the Army Enlisted Reserve Corps may be stimulated soon by removal of the barrier against men who had no service in World War II. The matter is currently under study in the Department of the Army and approval is expected. Liberalization of the present policy would put the Enlisted Reserve Corps on a par with the National Guard in recruiting for which is not confined to veterans.

**Reserve Pigeon Companies**  
Three pigeon companies soon will be established as affiliated units of the Organized Reserve Corps according to Major General Spencer B. Akin, Chief Signal Officer.

Two of these units will be sponsored by the American Racing Pigeon Union and the third by the International Federation of American Pigeon Fanciers, Headquarters of the units will be located at Newark, New Jersey, Chicago and Pittsburg.

SUPERVISORS FOR CAF ROCK DISTRICT—Earl I. Cantwell, Chairman, Louie Kitchens, Obra Watson, Pierce White and Bray Cook.

H. H. McPherson, a cooper of the Francis Conservation Group, has recently completed leveling off an old elevated ditch across his farm to facilitate irrigation under his present system. The dirt was moved with County equipment and checked for grade by Soil Conservation Service personnel.

O. W. Mitchell of the Rock Creek Conservation Group seeded approximately 5 acres of improved pasture last week. The seeding was made with a mixture of grasses and legumes from which Mr. Mitchell hopes to get a n abundance of grazing for livestock and hold the land against wind and water erosion.

True Barson of the Mercer Conservation Group completed two dirt tanks on his place southeast of Silverton last week. These tanks were staked by Soil Conservation Service personnel and built with a crawler type tractor and carry all. Mr. Barson had these tanks built for better stock water distribution over his range and to control washes which had started in the land.

Oscar Weeks of the Rock Creek Soil Conservation Group ran irrigation ditches last week to start watering wheat land. Lines for the ditches were run by Soil Conservation Service personnel.

and filter elements inspection and bidding has been set for from 8:30 a. m. to 3:30 p. m. next Tuesday and Wednesday, with opening of bid boxes to commence at 8:45 a. m. Thursday.

Creation of a fast-moving sales organization in each of the six War Assets Administration Zone offices to dispose of the remaining inventory of surplus war plants and other real property has been announced by WAA officials. Disposal of surplus real property is now well past the half way mark, with \$4,780,420,000 disposed of or leased and \$3,560,735,000 remaining at the end of August. The new plant is expected to give disposal the final push.

A veterans merchandise section to the War surplus sales facilities of the WAA's Customer Service Center has been added to the Grand Prairie office. Only very limited stocks of set-aside items for veterans are anticipated for the time being. Under the plan, veterans may buy and take with them merchandise available in this section.

The sale of 562 buildings at Gulf Port Army Airfield at Gulf Port, Mississippi, was recently postponed on account of damage wrought by the recent hurricane. War Assets Administration announced that new sales dates would be posted some time in the future.

A lone military chapel at Fort

### Weekly SURPLUS NEWS WAA

One of the biggest automotive parts sales ever held in Texas will take place at the Red River Arsenal near Texarkana Tuesday through Thursday, October 7, 8 and 9, with \$700,000 worth of war surplus parts up for informal bidding. A total of 500 lots will be on display at six warehouses in the arsenal, most of them small for the "little buyer" as well as the commercial dealer. Included will be such materials as engine assemblies, bearings, battery acids, maintenance equipment, oil seals

The "Old Cotton Patch"

IS BIG TIME BUSINESS NOW

King Cotton has found the promised land! Here in the fertile Panhandle-Plains-Pecos Valley Area we market more than \$81,000,000 worth of cotton and cotton seed a year.

New uses are being found constantly for one of our number one crops. And today "the old cotton patch" is big time business for the folks in our area.

We have so much confidence in the cotton industry—and all other industries we serve—that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to industry and better living—electrically—to everyone!

TEXAS

EDITOR'S NOTE—This poem is reprinted from the Southwest Review, Southern Methodist University, Dallas, Texas.

By Terry Cauley Texas, in the old days of Jim Ferguson And of Ma Ferguson and of Pappy O'Daniel I have wept for you! And when you have bowed down To Oil and Sulphur and the Hundred-Percenter. I have almost despaired of you; But never in any case Have I ceased to love you.

You are ignorant and intolerant; You are a mass of prejudices; You are the worst of the Democrats And the scum of the Republicans Rolled together into one grand conglomerate of God-knows-What But you are also friendly and lusty And capable of stupendous labors; And you know so little of what you want That you overlook not ever getting it.

You are a sweep of prairies, An infinity of windy plains, A morass of swampy rivers, A lost world of desert mountains. You are a thousand sleepy little towns; You are a dozen militantly modern cities That have grown like weeds And are almost as ugly. You are drought-tortured and flood-tortured; You bask in the searing sun of summer, And you freeze under the pitiless pelting of the Northerners. You are a maze of contradictions, And yet a vast synthesis.

You are the Alamo and the Battle of San Jacinto; You are also Jesse Jones and The Humble Oil and Refining Company. On a Saturday afternoon, You are a rodeo in a little town Where one man is as good as another. "And probably a damn sight better." You are also a bunch of peckerwoods Lynching a nigger because he was uppity. You work hard and make money And build schools and colleges and universities; And then you are too damned dumb To let a man who differs In honest opinion with you Have a place in one of them.

But if that same man Were a stranger in a strange land, You would speak to him and buy him a drink And tell him your wife's maiden name And what a whale of an income tax you paid last year, And invite him to the Men's Bible Class At the Baptist Sunday School And see to it that he met the right people. You're a hell of a fine fellow If people will only do things your way; And you know so damn well That there's really no room for argument. And I, being a Texan, am not now arguing—I'm telling you!

Amarillo Farmers Penalized For Poor Wheat

A lot of Panhandle wheat farmers are finding that it costs money to sacrifice quality for quantity. Potter County Agent A. P. Bralley reports to Extension Service headquarters at Texas A. and M. College that terminal market mill buyers are penalizing incoming loads of wheat from Potter and other Panhandle counties. Reason: poor milling quality. Twenty-one percent of the total acreage in the Panhandle wheat belt was planted last year to two

wheat varieties that have milling reputations, says the county agent. The overall figure for poor quality varieties is 20 percent, he reports, that millers throughout the country are either discounting it in some manner or purchasing the grain at a lower price. Farmers plant low milling varieties because they get higher yields, says Bralley. Comanche and Wichita are all good millers, have produced good if not better yields in county than the poor millers. Many farmers have turned to these three varieties for this year.

Announcing The Opening of The PALACE CAFE On Friday, October 3rd, 1947 FREE COFFEE and DONUTS TO EVERYONE Visiting Us FRIDAY! Our cafe has been remodeled and repainted and we are inviting you to attend our opening as well as patronize us when you are eating out.
