Halloween Carnival Friday Night at School

There'll be fun galore Friday night, October 31st, at the high school auditorium when the schools have their annual Halloween carnival, it was reported this week by L. R. Bailey, coach of the local schools.

Other than the Queen contest, which to date has already raised more than \$600.00 for the new curtains for the stage, the school will sell food, pop, candy, and will have many other interesting things of entertainment, such as a fish pond, etc.

The schools had their run-off in the queen contest Wednesday of this week and there are now 3 girls left in the race. They are: Pat Jackson, 4th grade; Fathie Smith, 6th grade; and Eva Lou Self, 12th grade.

For an evening of fun the public is cordially invited to attend the Halloween carnival.

Community Sing To be at Methodist Church Sunday

A community singing will be held at the Silvertown Methodist Church next Sunday afternoon at 2:30 p. m., it was reported here this week.

Everyone is extended a cordial invitation to be present and enjoy the good singing as well as the fellowship of the occasion.

Owls Beat Turkey With Score 13-6

Possibly one of the best football games played in class B ball was staged at Turkey last Friday night. It was not a one sided contest and the fans really got their money's worth, according to L. R. Bailey, coach of the local team.

The Owls received the first kickoff and on the first play Mason slipped between the guard and tackle and ran about 75 yards for the first Owl touchdown making the score 6-0. The Owls missed two more good chances to score in the first half when Fred Arnold dropped a pass in both the east and west end zones. The Turks came back fighting mad in the second half and scored themselves a touch down and the situation looked bad for the Owls all through the second half. The Owls scored again at the last of the third quarter and converted the extra point to make the score 13-0. The Turks never gave up and were on the one foot stripe when the game ended. In the first down department, the Turks beat out the Owls 11 to 10, but in the penetration department the Owls were head 4-1.

This afternoon the Owls travel to Flomot to clash with Flomot and it will be one of the best games for the Owls this season because Flomot has a fine ball club and are not going to give back ground on their home field. Flomot had an easy game last week and will be primed and ready for the Owls. The following Friday the Owls take to the road again traveling to Lakeview for the third straight conference game away from home.

Tickets for the Happy-Silvertown game will go on sale here in a few days and all people going to Tulsa for that game are asked to buy their tickets here because the Owls get all the money for the tickets sold here and only get 50% of the money if you wait and buy your ticket at Tulsa. Let's back these Owls a hundred percent by buying at the Carnival Friday night and having a good time with your friends.

Guests in the home of Mr. and Mrs. R. C. Hutsell Sunday included Mr. and Mrs. Lee D. Bomar, Mr. and Mrs. Joe Lee; Mr. and Mrs. Hugh Stodghill and Jo; Rev. and Mrs. G. A. Elrod, and Mrs. Pearl Simpson.

Austin Bailey was a business visitor in Dallas last Thursday and Friday.

Doctor Available Here Either Day or Night

An announcement made here yesterday by Richard M. Mayer, osteopathic physician and surgeon, with offices in the Ballard Drug Store, stated that even though his office hours were from 9:00 a. m. to 5:00 p. m., should anyone desire his services at night, or at any time other than his office hours, they may reach him at the Silvertown Hotel by calling 23-J.

Dr. Mayer stated that since he will not gain possession of his home in the West part of town for approximately 30 days, that he will reside at the Silvertown Hotel until his house is available. At that time he will move his wife to Silvertown.

Due to the fact that many people of this community don't quite understand everything an osteopathic physician and surgeon is capable of doing, Dr. Mayer, in his announcement, which appears on page five of this edition, has listed several things his office will handle. For further information turn to page five.

Joanna Southcott was an English religious visionary of 1750.

My Next Door Neighbors Boy

By TOM Q. ELLIS

The following poem is taken from "The Royal Arch", a masonic publication, and is reprinted by request:

Across our drive—10 feet at best He nightly broke my needed rest, Thruout his babyhood, the pest, My next-door neighbor's boy.

Then thru all his boyhood days, A fight to pick, a fuss to raise, Seemed he could find more ways Than any boy I knew.

Teenhood years gave no respite. For Puppy love was at its height. He'd hum & croon 'til late at nite And moan and bill and coo.

So when the Axis' fiendish horde, Began to march with fire & sword I thrilled that our Selective Board Reached out and tagged the pest; For when he crossed the briny foam,

To march the streets of conquered Rome, A stillness gripped my neighbor's home,

At last I got some rest. I pictured not the shot & shell That step by step around him fell. His day and night a living Hell. As ever on he pressed.

I bought some bonds, the world to free, I used less sugar in my tea, No sacrifice too great for me, Just so I got my rest.

And then one day a message came. That made my cold heart burst aflame.

And bowed my selfish head in shame. And stole my restful joy.

For, yonder far across the sea, While I was sleeping peacefully, A hero young had died for me. My Next-Door Neighbor's Boy!

Dr. Chas. Donnell Looking For Briscoe Co. History

Dr. Charles Donnell, of Plainview, but formerly a physician of Silvertown, was in Silvertown last week contacting old-timers and gathering information for a history of the people who settled Briscoe County during the 1890s or prior thereto.

Dr. Donnell stated that he would be in Silvertown on November 4th and 7th and will be glad to see as many of the people who were here in the 1890s as possible so that his history of Briscoe County will be more complete.

Midnite Show At Palace Theatre Friday Night

The spooks will prowl at the Palace Theatre Halloween night, October 31st, when a top notch spook movie, "The Brighton Strangler," will be shown. Preston Trower, owner, reported here yesterday.

Tickets for the midnight show will go on sale at 11:30 p. m. and the first two persons appearing at the ticket office in costume will be admitted free.

"The Brighton Strangler" starring John Loer and June Duprez is expected to have the audience sitting on the edge of their seats as the Strangler, a desperate fiend, creeps through the darkness and strangles his victims.

Married at Local Parsonage Saturday Night

According to a report by Rev. G. A. Elrod, pastor of the First Baptist Church of this city, he united in marriage at the parsonage last Saturday night, Mr. Miles Kemmel, Jr. and Miss Mary Lee Painter.

Both Mr. and Mrs. Kemmel are residents of Quitaque.

Mr. and Mrs. Glenn Smith and daughters, spent last Sunday with Mr. and Mrs. A. L. Phillips.

Worsted Suit Price Up Considerably Kestnbaum Testifies

CHICAGO.—The basic worsted suit in the Hart Schaffner & Marx line, which was priced for \$21.50 (\$35 retail) for fall, 1939, is \$36 today (to retail at \$60), an increase of 70 percent, but production costs are up 78 percent. Meyer N. Kestnbaum, president, told the congressional price-investigating committee here.

The fabric is up 100 percent, trimmings 90 percent and direct labor 54.3 percent, he estimated. Spring, 1948, prices may be higher because of worsted advances, he warned.

Hart's pays their workers an average of \$54.25, he said. The Amalgamated Union is giving excellent cooperation, but output suffers because of the scarcity of workers. Mr. Kestnbaum said this would be remedied if immigration of skilled and semi-skilled needle workers were permitted.

What is needed is greater output of clothing, he said, and that alone, rather than price control or rollbacks will solve the price problem in the men's clothing industry.

Answering a question, Mr. Kestnbaum said the Army had chosen some "inconvenient" times to make large purchases of apparel, but he could not quite agree with the president of Richman Bros. Co., who told the hearing in Cleveland that Army buying was a prime element in the rise of clothing prices.

Doyle F. Huntsman, owner of the Silvertown Dry Cleaners, stated that in all probability his suit prices will be advanced in the very near future so it is suggested that if people want a new suit that they purchase now before the prices advance.

Mr. Huntsman also stated that he now picks up and delivers clothes and if the public wants this service they should leave word at the cleaning shop or call him at 104-J.

Dining cars were introduced in American railroads in 1868.

Nazareth, the birthplace of Christ, is famed for the beauty of its women.

Womanless Wedding to Be Given Here Soon

Prayer Written By Lester Paige, Jr., Who is Overseas

The following prayer was written by Pfc. Lester Paige, Jr., who is stationed in Chetos, Japan. He is the son of Mr. and Mrs. L. E. Paige of this city.—The Ed.

Great God, the Protector of our lives, and the Guide of all Eternity, lead us through the strife of our present, guiding us into a fruitful future. Lend us Your guidance and help us to build a safe and secure future for the children of all nations. Guide us oh Father so that our future with other nations will be friendliness and faith.

Help us Great God, from jumping down the throats of our neighbors. Guide us as individuals from the sins of life. Make us understand our neighbor next door. Make us help him with gladness in our heart.

Help those who have nothing to show for the goodness of guidance they have given loved ones. Ease their troubles for they have yet years to be on Your Earth.

Oh Fearing God, look down upon Your creations and have pity on us. There is only one Power on earth to keep it in peace and that is Your Power, God. Oh great Creator of the Universe, look down on Your disobedient creations and wrought miracles to make them fearful of You and believe in You. Oh God look down on Your lowly people and hear this prayer.

Amen.

Congratulations to:

Mr. and Mrs. Billy MacBiffle on the birth of a daughter, Linda Ann, at the Tulia Hospital, Sunday, October 26th. The baby weighed 7 lbs.-10 ounces.

SWING OF THE SOUTHWEST FARM MARKETS

Late losses on grain and cotton markets pointed up generally unsettled conditions on southwest farm markets last week, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Spot cotton sales again topped all previous weeks of the current season, as farmers sold more freely. Prices rose early but lost Friday to close \$3 a bale up.

Dry weather in winter areas and heavy buying for overseas shipment raised wheat early, and Friday's break left a week's gain of 5 cents. The same dry weather hastened maturity and drying of the corn crop, and marketing increased. Late-week corn losses erased early gains, while oats, barley and sorghums also closed lower.

Rice markets made further gains during the past week. Some feed ingredients fell, but formula feeds still found good demand. Alfalfa hay showed a slightly weaker tone, while prairie hay advanced \$1 per ton. Light commercial demand forced most farmers' stock peanuts into government warehouses. Wool met greater demand.

Egg prices held up well in the Southwest, but hens and young chickens weakened at most markets. Fryers ranged generally from 31 to 36 cents per pound, and heavy hens mostly 22 to 28 cents except at New Orleans which paid 30 to 31. Seasonally light receipts of turkeys sold mostly at or near government support prices.

Midweek snow and freezing temperatures cut supplies on Denver's farmers' market, and prices fell sharply. Onions and potatoes held steady to firm at shipping points, but many growers held for higher prices. Potatoes and lettuce found unsettled markets at Fort Worth, with tomatoes firm, and Texas citrus fruits trending lower. Light receipts at New Orleans sold mostly steady in fair trading. Slow demand made dull markets for sweet potatoes in producing and consuming centers.

Most cattle markets closed the week about unchanged, but Oklahoma City gained strength, while weakness developed on slaughter classes at Denver and on Brahman stocker calves at Houston. Denver sold low good to average choice steers at \$25 to \$32.25, and Wichita moved medium and good steers at \$19 to \$24.50. Common to medium steers and yearlings brought \$13.50 to \$18.50 at Houston, \$15 to \$19 at San Antonio, \$13 to \$20 at Fort Worth, and \$17 to \$24 at Oklahoma City.

Hog prices slumped around \$1 per hundred pounds during the past week. Good and choice medium butcher hogs sold late in the week around \$27.75 at San Antonio, \$28 at Fort Worth, \$28 to \$28.50 at Oklahoma City, \$27.25 to \$27.50 at Wichita, and \$27.50 to \$27.75 at Denver. Sows ranged mostly from \$25 to \$26.50.

Lambs gained sharply at most southwest markets. Fort Worth and Oklahoma City advanced around \$2.50 and Wichita \$4, with Denver as much as \$1.75 higher and San Antonio mostly unchanged. Slaughter ewes went

See FARM MARKET—Page 4

There'll be no end to laughter on Thursday night, November 6th, when the merchants of Silvertown, the committee of the hospital fund, and many others of this community, join hands to put on the first Womanless Wedding in many years at the local high school auditorium.

The wedding, which is all men-including the flower girls and bridesmaids will be the funniest program ever to be staged in Silvertown.

Many columns could be written about such an affair but the cast of characters should be sufficient to guarantee the readers of this story an evening of the best entertainment available when they attend the Womanless Wedding. The list of characters, etc., follows:

Dance of the Fairies: Arnold Brown, L. D. Griffin, Carl Dean Bomar, Jack Strange, Tommy Wyrick and Joe Powell. Three numbers by the Bridal Choral, Roy S. Brown, Earl Cantwell, Alton Steele, George Martin, Carver Monroe, Fred Mercer, Lee Deavenport, J. Lee Francis, Arthur Arnold and Mr. Goodwin. The pianist will be Dillard Scott.

Soliste Herman Ely will sing the traditional wedding marches, while the minister, Coach Bailey, will unite the bride and groom, Chick Northcutt and Bob Hill in matrimony.

The Maid of honor will be E. A. Belling. Henry Price will be best man and M. J. Dunn will be ring bearer.

Flower girls will be Ware Fogerson and Durward Brown while T. R. Whiteside and G. R. Alexander will carry the bride's veil.

Bridesmaids will be Roy Coffee, Junior Brannon, Wm. F. Talley, J. W. Lyon, Dee McWilliams, Leo White, Hugh Nance and W. E. Schott, Jr.

The bride's family will be: M. L. Burk, father; L. K. Gilkeyson, mother; Grady Wimberly, grandmother; twin brothers, J. E. Simpson and Perry Whittemore; Big brother, Bob London; Baby sister, Johnny Lanham; Baby brother, Earl Brock and old-maid sister, George Seany.

The groom's family will be: Virgil Ballard, father; J. L. Webb, mother; J. E. Minyard, grandmother; Louie Kitchens, big sister; Perry Thomas, little brother, and Wayne Crawford, baby sister. Isle Rollers will be Hugh Stodghill and Winston Hamilton.

Ushers will be Theron Crass, C. A. Tunnell, Mike Mason and Johnny Quillan.

Candle Lighters will be L. B. Garvin and Keith Tiffin.

Rehearsals for Actors

All actors named in the above are requested to be on hand at the high school auditorium next Tuesday night for the first rehearsal and again on Wednesday night for a dress rehearsal, so that everything will be in readiness for Thursday night.

Admission prices will be 30c and 75c and all funds will go to the hospital fund for use in the erection of a hospital for this community.

Mr. and Mrs. Chester Strickland visited Mrs. C. M. Strickland and other relatives of this city last week-end.

Mr. and Mrs. Durward Brown were business visitors in Tulsa Wednesday of this week.

ROCKET LAUNCHING MARKS NEW ERA IN NAVAL WEAPONS

Marking "the beginning of a new era in Naval weapons," the United States Navy fired a captured German V-2 rocket from the flight deck of the 45,000 ton aircraft carrier USS Midway on September 6, 1947. This was the first time in history such a bombardment rocket has been launched from ships or a moving platform. The primary purpose of the experiment, held at sea several hundred miles off the East Coast of the United States, was to ascertain if large bombardment rockets could be fired off modern aircraft carriers without modifications affecting flight operations. The rocket traveled six miles and exploded. (Official U. S. Navy Photograph)

PERSONAL ITEMS OF LOCAL INTEREST

Mr. and Mrs. Sam Huss of Okmulgee, Oklahoma, returned home Tuesday after visiting several days with her brother, A. L. Phillips and family.

Mrs. Gracie Keele, and son, Doyle, of Wynona, Okla., are the guests this week of Mr. and Mrs. Johnnie Lanham.

Mr. and Mrs. Sam Huss of Okmulgee, Oklahoma, and Mr. and Mrs. A. L. Phillips of this city, visited relatives in Lubbock last Monday.

Guests in the J. E. Wheelock home last week-end were Mr. and Mrs. R. D. Wheelock and children, of Canyon.

Mr. and Mrs. Shelby Haynes visited Sunday with her parents, Mr. and Mrs. Jeff Burson of Plainview.

Jeanne Dudley, who is a student at Texas Tech, and her roommate, Polly Bryan of Plainview, visited Jeanne's parents, Mr. and Mrs. O. M. Dudley last weekend.

Dillard Scott was a business visitor in Plainview, Tuesday of this week.

Mrs. Clifford Allard visited Mrs. Alvin Kalbfold in Amarillo Thursday of last week.

Government and Bread and Butter . . .

It is probable that a very small minority of the people realize to what extent the cost of government enters into present day living costs.

The Tax Foundation recently published a remarkable comparison of the cost of food and the cost of the Federal government, which was prepared by the Chief of the St. Louis Star-Times Washington Bureau. The comparison shows that government costs—exclusive of war activities—increased from \$4,000,000,000 in 1929 to \$21,000,000,000 in 1946. In the same period, food costs increased from \$20,000,000,000 to \$43,000,000,000. And, in 1946, retail food sales came to twenty-four billion dollars—which was only \$3,000,000,000 more than the cost of the Federal government, not counting war expenditures. These figures, it should be emphasized, do not include the cost of state and local governments.

It's a sure bet that if the government had done as much to hold costs down as has the American business, we'd be far better off now. The cost of commodities has gone up in spite of the efforts of industry to keep prices from getting out of line. No manufacturer wants to see his customers priced out of the market. No storekeeper, whether he sells food, clothing, or anything else, wants to see consumers forced into buying less. That feeling is shared by great manufacturers and small producers—and, on the distribution end, by the big chain stores and the little stores alike. But the tide of inflation has been running strongly, and business cannot check it with the cost of government entirely beyond its control.

Excessively costly and wasteful government is one of the most dangerous and powerful inflationary forces. So, when we revile high prices, we should remember that government has been a major factor in causing them—and that the policies of government will largely determine what prices do in the future.

Behind The Scenes in AMERICAN BUSINESS

By REYNOLDS KNIGHT
NOTE TO READERS—The information contained in this weekly summary of happenings in the world of business and industry has been obtained from sources we consider reliable but is not guaranteed. Opinions and forecasts are based upon careful analysis but are subject to change without notice.

NEW YORK, Oct. 27—Back in the late 1930's, opponents of pump priming and deficit financing (the two measures by which the administration was then increasing the money supply) used to cry "This will bring on inflation." The cry was raised so often that soon the public paid it no heed. People soon became something like the villagers in the fable. They had heard the boy cry "wolf" so many times that when the wolf finally came, no one heeded the alarm. Last week it really began to look as though inflation had arrived with a vengeance. In all the commodity markets prices were running away. It was not only the grains. Hides were up. Lard, cottonseed oil and cocoa advanced. Even rubber, which had been declining in price for months, turned firmer.

Thus history repeats itself. There has always been a lag between inflationary money issue and the inevitable rise in prices. This was true after the Revolutionary War and the Civil War. There is only one remedy: the painful one of hard work to produce more goods to offset the heavier supply of money.

PAYROLL PAYOFF—Industrial research, financed out of funds available to management to develop new products and new markets, plays a key role in the American economy. Besides the creation of new jobs and needed goods and services for the nation as a whole, thousands of additional jobs as well as redoubled security for all employees is often the end-product of a company's research activities. A case in point is the development of safety plate glass. Urgently needed as a safeguard in the closed type of automobile, commercial safety glass represented an outlay of \$7,000,000 in the Libbey-Owens-Ford Glass Company research program plus several years of profitless operation of what is, today, the big laminating industry in Toledo. In 1930, when the first safety plate glass went to market, there were 305 men on the work with an annual payroll of \$425,000. John D. Biggers, president of the company, discloses. Today there are 3,430 workers

with a payroll of \$11,800,000 yearly employed in the company's safety plate glass manufacturing alone.

THINGS TO COME—Canned citrus juices prepared especially for the baby food trade . . . Movie shorts at football games to entertain the crowds between halves—and carry the sponsor's advertising message . . . It is already here: a new camera by Eastman Kodak that will take 11 million frames (pictures) in one second. Will be useful in studying projectiles, jet propulsion, etc. . . Ready-to-serve frying chickens soon to be introduced by a noted meat packer . . . For drug store fountains: a new three-way drink dispenser, able to handle three kinds of beverages from one control lever . . . Now they have a device to sharpen the gadgets that sharpen pencils . . . Can't find the light in your room? Here is a lamp stand treated with phosphorescent pigment that glows in the dark . . . Here is another glare shield for the motorist that is fixed to the windshield by a suction cup . . . Newest in tire chains are made from rubber, do not rattle and do not jolt your car . . . Electric iron to singe chickens, other towels.

FARM DEBT—For the first time since shortly before the war, farm debt shows an increase. The increase is small (only \$170 million over-all). But the rise attracted the attention of the Federal Reserve Bank of St. Louis just because it was the first uptick in a long time. So the bank took a long look at the typical farm borrower. They found he was engaged in general farming, and was operating a farm of from 70 to 140 acres. His net worth ranged from \$2,000 to \$10,000. But borrowers also include many small operators, and a small number of large scale farmers, some of whom have net worth of \$100,000 and over. Generally

speaking, the farmer has handled his recent prosperity very wisely. His liquid assets, such as cash, bank deposits and Government bonds, have risen from about \$5 billion in 1939 to \$22 billion at the end of 1946. Overall farm debt has been cut from \$10 billion to \$8 billion.

MORE FOOD, NOT LESS—Meatless and wheatless days are all very well as a means of dramatizing the desperate need for food in Europe, but the best way to get more food there is to grow more here. That is the opinion of Joseph W. Frazer, chairman of Graham-Paige Motors Corporation. Since most large-scale farming operations are already producing at peak capacity this increased production of food must come from small farms. From greater utilization of sub-marginal lands, from revival of the highly successful wartime victory gardens and from intensive utilization of all our land, the noted industrialist told a press conference this week. If any further incentive than the present high

crop prices is needed, Frazer said, the government might justifiably offer awards or bonuses to farmers who either increase their present yield per acre, put additional land under cultivation, or do both. "The American way," he said, "has always been to produce more so everyone can benefit, not to do without so the few can gain. It works in the production of automobiles, clothing and virtually everything else that is manufactured; there is no reason why the same tried and improved principle cannot be utilized to solve the current food crisis."

Approximately 396,000 farm families and other rural consumers in 44 states and Alaska will get electricity as the result of loans approved by REA during 1947.

Texas farmers bought 26 tons of fertilizer in the first months of 1947, as compared with 212,858 tons for the same period in 1946.

Over 94,000 Texas farmers members of groups organized under the Smith-Doxey Act in 1937 to promote the improvement of cotton.

Sophisticated Brocade

A HANDSOME rayon fabric used for a simple, classic blouse gives you a costume that looks Paris-inspired. This lovely brocade made of Avisco rayon is typical of the many rich, rayon fabrics available to home sewers this year. If you're sewing your new wardrobe, write to this newspaper for a copy of a helpful, free leaflet, "Tips on Sewing With Rayon." Be sure to enclose a stamped, self-addressed envelope.

Keep Pace with the PANHANDLE-PLAINS

through the pages of its fastest growing daily newspaper

The Amarillo Times

Whether you read for pleasure or to be well informed, you'll find the cream of the news in concise, easily-understood bulletins in the Amarillo Times.

24 PAGES OF THE WORLD'S TOP NEWS

—reported by the nation's best reporters.

From the far corners of the world, the Times offers unexcelled news coverage by such agencies as International News Service, United Press, Central Press, Science Service, the Times' Washington Bureau, and a large staff of trained special correspondents.

PLUS THESE BIG TIME FEATURES

TO ADD TO YOUR READING PLEASURE:

- Ray Tucker's National Whirligig
- Drew Pearson's Washington Merry-Go-Round
- Walter Kiernan's One Man's Opinion
- Westbrook Pegler's Fair Enough

THE VETERAN'S FRIEND

Can I get wartime compensation paid for disabilities incurred in peacetime service?

No. If your disability was incurred in peacetime service you are not entitled to wartime rates unless your service falls under P. L. 359—77th Congress provides wartime rates if disability was the direct result of armed conflict or was incurred while you were engaged in hazardous service.

How can I show that my disabilities are dependent on me for support?

Dependency will be held to exist if your parents do not have income sufficient to provide reasonable maintenance for themselves and members of their family, legal age, or members of the family otherwise dependent on you for support because of mental or physical condition.

Q. If I accept the compensation check VA has sent me, does that mean I am satisfied with the rating given me?

A. No. The acceptance of a check does not waive any rights you may have in claiming greater compensation or pension than that which has been awarded you.

Q. What identification data should I give in writing about my claim for benefits administered by the Veterans Administration?

A. If you are making application you should give your full name, grade, organization, serial number, date of entrance into service, date of discharge, and date and place of birth. After the claim is filed it will be assigned a claim number which should be mentioned in all subsequent communications.

SCRIPTURE: James 3-5, Acts 4:1-10
DEVOTIONAL READING: Proverbs 12:13-22

Christian Conduct

Lesson for November 2, 1947

CHRISTIAN standards of conduct must be understood as Christ's standards, not man's standards. Our lesson makes this quite clear when James declares,

Dr. Newton

"My brethren, be not many masters (judges), knowing that we shall receive the greater condemnation," James 3:1. James goes on in this third chapter to emphasize the truth that man is by nature inclined to "run away," even as the horse when he is not bridled, or the ship when he is not controlled.

Which brings the first practical lesson—that of the tongue. "The tongue is a little member," says James, "and boasteth great things. Behold, how great a matter a little fire kindleth!"

The Words I Say

IN PROVERBS 8:7, we read, "My mouth should utter truth." And again in Proverbs 25:11, we read, "A word fitly spoken is like apples of gold in pictures of silver."

Which adds up to this: The words we say have much to do with what people think of our standard of conduct. If we speak words of truth and kindness, we need not be concerned what people will think of us.

Boys and girls who guard their tongues will have friends. Boys and girls who speak words of envy, prejudice and falsehood will be shunned.

The Right Words

WHAT is in our hearts determines what we say and do. Therefore, if we are to speak the right words, our hearts must be right—right with God.

I have just come from a playground where a group of junior boys and girls were having a picnic. I got there at the moment when a boy was in the decisive ninth inning. One of the junior boys was umpire. He called a pitched ball a strike, and the batter objected. Words followed—not altogether pleasing words. They saw me standing on the sidelines, and asked me to settle the matter. I had not seen the pitched ball closely enough to express an opinion.

The boy who had spoken most sharply went to the boy who was umpire, took his hand, and said, "It's okay with me. I am sorry I said what I did." That boy had the right attitude. He turned wrong words into right words, because his heart was right.

The Power of Words

"SPEAK not one against another," writes James 4:11. Two teenage girls were walking home from school. One spoke bitterly to the other of a third girl. They parted at the corner, and the girl who had spoken the bitter words of her neighbor slipped and fell as she passed the home of the girl about whom she had been speaking. The neighbor girl rushed to her side, helped her into the house where her mother dressed the ankle. Waiting for her father to come with the car, the girl who had spoken bitter words began to cry. Thinking that her neighbor was crying from the pain of the ankle, the girl who had been bitterly assailed spoke sympathetically to her neighbor.

"Will you forgive me?" cried out the distressed girl.

"Forgive you?"

"For the unkind words I spoke about you to Mary. O, I am sorry, sorry."

Forgiven, they became trusted friends.

Words Reflect Character

THIS lesson should summon every heart to utter the prayer of the Psalmist:

"Let the words of my mouth and the meditation of my heart be acceptable in thy sight, O Lord, my strength, and my Redeemer." Psalm 19:14

Our words reflect our character. Christ's standard of conduct calls for words wisely chosen. Longfellow put it well when he wrote:

I shot an arrow into the air,
It fell to earth, I knew not where;
For so swiftly it flew, the sight
Could not follow it in its flight.

I breathed a song into the air,
It fell to earth, I knew not where;
For who has sight to keen and strong,
That it can follow the flight of song?

Long, long afterward, in an oak,
I found the arrow still unbroke;
And the song from beginning to end,
I found again in the heart of a friend.

(Copyright by the International Council of Religious Education, on behalf of 40 Protestant Denominations. Released by WNU Features.)

Veterans News

One in every five World War II veterans holding National Service Life Insurance policies has converted to one or more of the half-dozen available permanent plans, the Veterans Administration reports.

Of the 5,746,000 policies in force in August, more than 1,037,000 were permanent policies and the remaining 4,708,000 were five-year level term policies.

Total value of all GI policies in force amounted to more than \$34.4 billion. Permanent forms accounted for over \$14.4 billion of this total.

NSLI term policies issued before January 1, 1946, may be continued for eight years from the effective date at the original rates, while such insurance issued after that date may be continued for five years on a term basis.

Term policies do not accrue cash, loan, paid-up or extended insurance value. They may be converted at any time before the

expiration of the term period to any of the six permanent plans available.

Veterans acquiring dependents after entering training under the GI Bill as single men, should notify the Veterans Administration immediately so that an adjustment may be made in their subsistence allowance payments. The VA increases payments as of the date it is notified and not retroactively to the date the veteran actually acquired a dependent.

Veterans who fail to repay subsistence allowance over payments while in education or training under the GI Bill and who later apply for unemployment or self-employment allowances will have the amounts they owe the Government deducted from the latter benefit checks, the Veterans Administration says.

In 1947, 19.5 million pounds of meat at retail weight were consumed in the United States at an average price of 55.5 cents per pound in comparison with 14 million pounds at an average price of 29 cents per pound in 1937.

Sugar cane stalks often grow 18 feet tall.

HELP IN SIGHT ON NOXIOUS PLANTS

A project aimed at control and practical methods of eradication of noxious range plants has been set up under the Research and Marketing Act, according to word received at Texas A. and M. College from E. A. Meyer, administrator of the new act. The project has been assigned to the U. S. Forest Service.

It is estimated here that loss to Texas ranchmen from such plants is around \$20 million a year.

The Forest Service, according to the Washington announcement, will set up "a study of the ecology and physiologic of certain noxious range plants. The work, which will be conducted in the southwest, will be aimed at finding better control or eradication

methods based on fundamental principles."

Pioneer work on eradication of such plants, both by mechanical and chemical means, has been done in Texas by R. R. Lancaster, extension pasture specialist, and M. R. Bently, extension agricultural engineer, in cooperation with Virgil Parr of the Soil Conservation Service's range studies research division, ranchmen and county agents; H. P. Smith, agricultural engineer of the Texas Agricultural Experiment Station; A. Anderson, Texas Forest Service; R. E. Dickson and C. E. Fisher of the Spur substation; A. Hall, Beeville substation; and W. H. Dameron and L. E. Bourton of the Sonora substation.

Lightning travels at a speed of about 20,000 miles a second.

L. T. D. Club Has Meeting in Fogerson Home Tuesday

The L. T. D. Club met Tuesday, October 28th at the home of Mrs. Ware Fogerson.

"Guess Whats" were given to Mrs. J. W. Lyon, Jr. and Mrs. Arnold Brown. Refreshments were

served to Mesdames: J. W. Lyon, Jr., Dillard Scott, Gatewood Lusk, Arnold Brown, Theron Crass, Bob Hill, Conrad Alexander, Otis Tidwell, and Obra Watson.

The next meeting will be at the home of Mrs. Bob Hill on November 11, 1947.

Rock Creek Club Enjoys Meeting in Ruth West Home

The Rock Creek Club met Tuesday, Oct. 21 with Ruth West, it was reported here this week by the Secretary of the club.

For a program the club had a grab-bag and one quilt was quilted. Those members present and enjoying the day were:

Verna Allison, Forene Fitzgerald, Margaret Frizzell Marie Garrison, Mrs. W. W. Reid, Margie Turner, Eula Shelton, and the hostess, Ruth West.

The next meeting of the club will be Nov. 4th with Margaret Frizzell.

W.M.U. Meets in Bible Study Program Monday of this Week

The W. M. U. of the First Baptist Church met in its regular Bible study program, October 27, with 15 members present.

The president, Mrs. Alvin Jackson presided over the business meeting, after which the following program was given: song, "I Love to Tell the Story," by the group; prayer, led by Mrs. Simpson; and the lesson on prayer, given by Mrs. Ed Brown. The dismissal prayer was led by Mrs. G. R. Dowdy.

Many People Visit Canyon Museum Since Opening in 1933

More than 400,000 persons have visited the Panhandle-Plains Historical Society Museum in Canyon since it was opened in 1933. During the month of September, 3,291 visitors registered from 38 of the 48 states. Record month of the year to date was August, with an attendance of 6,336.

Texas led last month with 2,881, Oklahoma was represented by 81; New Mexico, 51; California, 32; Kansas, 21; Illinois and Missouri, 19; Iowa, 17; Indiana, 16; Colorado, 13, and New York and Georgia, 12.

Thousands of school children visit the museum annually. They are invited to visit by classes, and by previous arrangement can be conducted through the museum, thus having the benefit of a general lecture as they view the exhibits.

Study clubs and groups of various kinds, as well as Boy Scout organizations spend many instructive hours in the museum. The museum library also offers an excellent opportunity for research.

When the second unit, now under construction, is completed, many additional collections will be displayed for the first time. The stairway in this unit was completed this week, and plastering, floors, and installation of lights and heat are needed to finish the unit. It is hoped that funds for this work will be available at the close of the current campaign, December 1st.

About 68 per cent of the 4,200 so-called "company stores" in the United States are operated by coal companies.

Presbyterian Ladies Enjoy Meeting Monday, Oct 20th

The Presbyterian Auxiliary met in regular session on Monday October 20th, at the church with Mrs. Kemp Thompson acting as hostess.

A most inspiring program led by Mrs. D. F. Wulfman was presented on "The Nerviness of Life," a Prayer Retreat of the Women's Synodical Missionary Society with all members present taking part.

Those members were: Mesdames Kemp Thompson, D. T. Northcutt, D. F. Wulfman, Sid Richards, Monroe Lowry, Gordon Alexander, Perry Thomas, and Roy Mayfield.

The next meeting will be held on November 3rd, in the home of Mrs. Tony Burson.

It is estimated that it costs about 1.7 cents a mile to operate a motor car on paved roads but 2.9 cents on dirt roads.

DURWARD BROWN, Owner

SUPERVISORS FOR CAP ROCK DISTRICT—Earl I. Cantwell, Chairman, Obra Watson, Bray Cook, L. A. McJimsey, and Bill Helms.

Jimmie Webb, a cooperator who operates the W. E. Schott ranch below the cap, put in a trial planting of western wheat grass and Canada Wild Rye this week. If these grasses are successful, he plans to use the seed produced to increase the size of the plantings.

Both of these grasses are cool weather grasses and when established should furnish grazing in the fall and spring.

H. H. McPherson, a cooperator in the Francis Conservation Group,

and Edwin Crass, a cooperator in the Crass Conservation Group, have recently harvested some Rubam Clover seed. Mr. McPherson grazed his Hubam during the early part of the summer and got a crop of seed in addition.

Alvin Redin, farming in the Crass Conservation Group, five miles south of the Rock Creek Station, has planted 28 acres of alfalfa with some orchard grass in it for hay and 22 acres of mixed legumes for pasture.

It Happened ...

20 Years Ago

22 Years Ago Today

J. Grady Burson, son of Jeff Burson and associated with the Peoples Pharmacy here, married Miss Minnie Lou Hodel of Lockney Tuesday evening, Oct. 20.

Sheriff C. C. Garrison has received the new 1926 auto and truck license plates. His requisition was for 800 cars and 200 trucks. The new licenses have an entirely different color scheme from the old ones, having a battleship gray background with a black figure.

The radio program put on at Station WDAG, Amarillo, Texas, at 8 P.M. Oct. 24 by entertainers from Silverton was made possible by the chamber of commerce and several business firms and individuals of Silverton. Those who took part on the program were: Mrs. W. M. Gourley, piano; Eloise Morgan and Clay Fowler, violins; Paul I. Odor, trombone; Luther Fowler, clarinet; D. L. Morgan, saxophone; Margurite Morgan, ukulele. It is estimated that several thousand people in Amarillo listened to the program which was pronounced excellent by scores

that telephoned the studio, but the extraordinary "static" made it impossible for it to be heard here. One telegram was received from a listener in Wisconsin stating that he was receiving the program.

J. R. Myers says that the recent grading has ruined the streets of Silverton. Mr. Myers was in town Monday night in his car and when driving across the street near Nix's Blacksmith shop broke one of the front wheels of his car. He brought a bale of cotton to town Tuesday afternoon and in passing over the same spot broke the coupling pole of his wagon thus proving his point and also that "the lightning can strike twice in the same spot."

18 Years Ago Today

A tax levy of 97 cents for general fund and 33 cents for water-works was voted at a recent meeting of the city council.

Hoot Gibson, in "Burning the Wind" will be seen at the Palace Theatre Saturday and Monday. Hoot is the "Western Ace that Sets the Pace." It has a fascinating plot and is entertainment that lifts you out of yourself.

Nineteen students of vocational agriculture will accompany their instructor W. M. Gourley, to the State Fair at Dallas, leaving Friday night on the Denver Railway from Quitaque. They are: Ware Fogerson, Keltz Garrison, All Stevenson, Clinton Brown, Edd Spilman, Carroll Garrison, Warner Grabbe, Vernon Garrison, R. D. Wheelock, Norman Brown,

Fabric Elegance

SMART and simple is this lovely afternoon dress. High neckline and cap sleeve outlined in a triple band of sequins give it a quiet elegance. The luxurious Avisco rayon crepe fabric lends itself well to the soft, draped skirt. The large-brimmed hat in rayon satin is typical of the glamorous fabric hats so popular this season.

Obra Watson, Jack Brown, Howard Brown, Malcolm Brown, Earl Allard, Nathan Montague, Carver Monroe, Cecil Vaughn, and Herbert Davis, who is the State Secretary.

11 Years Ago Today

Taking advantage of the \$3.15 special fare, over two hundred Briscoe County students and adults are expected to leave Quitaque November 6th at 12:00 noon, for the Dallas Texas Centennial. Students making the trip will be able to get room, board and admission tickets while in Dallas for \$2.85 or less. \$6.00 will cover the entire trip for the school kids. Join in folks—there won't be another Centennial for a hundred years.

Miss Veleria Williamson, of Childress and Lem Weaver of Silverton, were united in marriage Saturday night, October 24th.

Little Vivian Janet came Thursday to make her home with Mr. and Mrs. Lowell Rowell, both mother and baby are doing fine.

One Year Ago Today

Grain drills, which have been busy the past two or three weeks are beginning to take a rest this week as the trend has turned toward the harvesting of the abundant feed crop. Indications are that wheat acreage will be about the same as it was last year and the season in the ground is ideal.

Where Quality Tells and Price Sells

BOYCE HOUSE

Paraphrasing Browning, "Oh, to be in San Antonio now that autumn's there!"
Most romantic of Texas cities! Herds of bawling cattle once were driven down main street.

Stagecoaches dashed in with a story of a holdup or an Indian attack. Mules, jingling little bells, plodded in, loaded with Spanish silver.

Her history is a procession of Spaniards, Mexicans, filibusters, Comanches, cowboys brawling in the saloons, cattle kings betting thousands on the turn of a card.

From San Antonio, Jim Bowie set forth to seek the San Saba mine (known to legend, too, now as "the lost Bowie mine"), had an epic fight with redskins and, because of his wounded men, had to turn back.

Roy Bean lived in San Antonio

FARM FACTS

WORTH KNOWING

Q. Is it possible to raise ducks that will weigh 5 to 6 lbs. at 10 weeks of age? How much feed will they require?

A. Many commercial plants are raising ducks that reach 6 lbs. in approximately 9 weeks. To reach this rapid growth, the ducks are fed special duck rations, and each duck will require approximately 22 lbs. of feed.

Q. What is the best treatment for ringworm or "Barn Itch"?

A. Ringworm responds readily to proper treatment. Any one of the following may be used and should be applied to the affected parts daily until cleared up.

1. Sulphur ointment.
2. A saturated solution of salicylic acid in alcohol.
3. Whitfield's Ointment, which consists of salicylic acid 1 gram, benzoic acid 2 grams and petrolatum or lanolin 30 grams.

Q. How important is the pasture as part of a profitable hog program?

A. According to the Research Farm of the Ralston Purina Company, pastures are important because they save feed and help keep the hog herd healthy. This Farm has found pastures for hogs very valuable when properly developed and used.

Q. How should snuffles in rabbits be treated?

A. Some rabbit raisers use nose drops and vaccines, but in general the use of these has been disappointing. If you identify the disease soon enough, it may help to give each infected rabbit 1/2 grain of sulfathiazole plus 1/2 grain of baking soda per pound of live weight. Give this dose once a day for 5 days. You can probably get sulfathiazole from your local veterinarian. Ever when rabbits do recover from snuffles, however, it is a good idea to dispose of them and start with clean breeding stock. Rabbits that recover are likely to be carriers and may be a constant source of infection to other rabbits.

Send your questions about livestock or poultry problems to FARM FACTS, 815 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

Will he left for Langtry to become "the Law West of the Pecos."

San Antonio not only is the scene of the Alamo but here too were fought the Council House fight, the Grass Fight, Salado, Alazan, Medina, Conception; and the city was stormed by Texas patriots responding to the ringing call, "Who will go with Ben Milam into San Antonio?"

Shanghai Pierce of the booming voice; Big-Foot Wallace, Texas Ranger, stagecoach driver, hero of the Mer expedition and of the War with Mexico; Bet-a-Million Gates; Sam Bass on the dodge; Ben Thompson, master of the six-gun; Robert E. Lee; Capt. Jack Hays; Sidney Lanier; O. Henry; Brann the Iconoclast—all were here.

What a cast of characters! Imagine writing a whole book about San Antonio and leaving all this—or nearly all of it—out! Well, a fellow did.

Efficiency, And Not More Money, Is Need In Patent Office

WASHINGTON — Appropriations for operation of the Patent Office represent about two-hundredths of 1 percent of the budget to run the government. They represent only about 4 percent of the Commerce Department appropriations. These figures emphasize the small amount of federal money used to maintain the American Patent System, nerve center of open competitive enterprise, according to National Patent Council. Balance of the operating cost is derived from patent fees and the sale of patent copies.

With minor deficits in operation of the Patent Office the last few years there has been a hue and cry among Washington officialdom to increase patent fees and thereby wipe out the deficit. It is not an increase in fees that is needed John W. Anderson, President of National Patent Council, said here, but more efficiency. In 1930 patent applications totaled 91,651, with 49,509 patents granted—54 percent of the number of applications. In 1946 there were fewer applications

filed—77,940—with only 24,045 patents granted, 31 percent of the applications. In the meantime personnel of the Patent Office has been greatly expanded.

Appropriations for the Patent Office emphasize its relatively low cost to the taxpayers as compared with other departments and bureaus, which give to the public, without charge, their accumulations of data. The Patent Office charges 25 cents for each copy of a patent. It receives \$30 with each patent application, another \$30 with the granting of each patent.

In past years the Patent Office has been self-supporting when fees were lower: \$15 with each application, \$20 for each patent. Copies of patents, available to everyone, then cost but five cents each.

Now, however, to cover the deficit, bills have been before Congress to up the cost of obtaining patents to \$100 instead of the

present total of \$60 and to require large "maintenance fees" five and ten years after the grant of a patent.

"The cost of obtaining patents should be reduced, not raised," Anderson asserted. "It is an imposition to burden inventors with support of the Patent Office, more logical to pay inventors for disclosing their ideas increasing the wealth of the country, making jobs."

In the first four months of 1947, 124 million pounds of peanuts were exported by the United States.

Americans are eating more nuts. In 1909, the average consumption was four-fifths of a pound; in 1945, one and two-fifths pounds.

Farmers Home Administration made new adjustment loans to 23,654 veterans, amounting to \$30,159,937 during 1947.

Delaware is the second smallest state in the Union.

Weekly SURPLUS NEWS WAA

Agricultural representatives for War Assets Administration are encouraging the purchase of war surplus explosive agents for the use of farmers, ranchers and construction men. Approximately one million pounds of both TNT and dynamite blocks, stored at the

Red River Arsenal, are now on the surplus property market at low prices per pound or block. Contrary to popular belief, handling of the powerful TNT has been demonstrated to be somewhat safer than dynamite, for example. The place for complete details and ordering of either type of the surplus explosives is the WAA's Customer Service Center, Grand Prairie.

World War II veterans will find it profitable to call at the Grand Prairie Customer Service Center when they are in the vicinity of

Dallas or Fort Worth. A new veterans counter for the sale of set-back items on a cash and carry basis has been added to the center's facilities. Whenever supplies of these items become available, they are immediately placed on sale in the center, and rationed out to each veteran customer. No certification is needed other than discharge papers or other proof of service. Although such supplies have been quite limited this far, quantities of blankets, watches and clothing items have already been distributed over this veterans counter.

A survey of war surplus inventories in Texas indicated this week that while present stocks of personal property are comparatively small, the amount of real property, particularly camp buildings, available for sale in the area will be considerable in the coming weeks. Present disposal plans give priority groups the opening option period on such property, with buildings and plants then offered on a non-priority basis to the public at large.

One of WAA's biggest offerings of surplus drugs and medical supplies will be available to veterans, priority buyers and the public on a national scale beginning October 27. More than ten million dollars worth of drugs and medicines, surgical and dental instruments and laboratory and hospital supplies are going on sale at the Louisville, Ky., medical depot. Many buyers will be able to qualify for a "small business" priority, it was pointed out. Interested persons are invited to contact the WAA Customer Service Center, 410 West Jefferson St. Louisville.

A "We, the People" radio program in which the former "Dr. I. The carbon black plant at Seagraves, Texas, now under lease by the Columbia Carbon Company is up for sale. Sealed bids will be considered by WAA's Office of Real Property, at Grand Prairie, until November 5.

Q. outlined his plans for entering the ministry has resulted in the acquisition of a surplus Camp Bowie chapel by the Eastland, Texas, Holy Trinity Episcopal Church. A member of the Grand Prairie WAA Information office, listening to a broadcast by Rev.

SNAPPY!

Here's a snappy number! It's a modern, form-fitting bathing suit made with a new controlled elastic yarn that puts snap into woven, knitted or braided fabrics and webbing, according to National Patent Council. The attractive model is Betty Jane Creamer of Akron, O. The new yarn can be used for everything from foundation garments to surgical fittings, it is claimed.

James McCalin, former network announcer, mailed him a letter inviting consideration of his new congregation to the Brownwood camp's chapels, and the transaction followed.

Knowledge of Meat Cuts Big Help In Balancing Budget

Balancing the food budget is one of the hardest problems the homemaker faces today. However, there are ways and means to help the budget over the humps. Reba Staggs, well-known food authority, offers a few suggestions for making the most of your money in buying and preparing meat.

First of all, a few minutes each day spent in learning the large variety of cuts of meat pays dividends in the end. There are many illustrated charts and books on cuts of meat, and the meat retailer welcomes questions about meats displayed in his case. Among these cuts are many that are equal in flavor and tenderness to the more demanded cuts, yet are wiser buys.

Next, in learning these cuts, pay particular attention to the less demanded cuts. Not only learn to know them, but school yourself in the art of cooking them. Among these cuts are pot-roasts of beef and veal, beef short ribs, beef flank steak, and pork and veal shoulder, breast of lamb and veal, lamb neck slices, lamb and veal shanks, brisket of beef and beef heel of round. When properly cooked, all cuts are flavorful and tender.

A type of cooking known as moist heat cookery is used for preparing these cuts. One of the most important ways is braising. The meat is first browned in hot lard or drippings in a heavy frying pan or Dutch oven. A small amount of liquid is added, and the meat is covered and cooked slowly until tender.

The other method is known as "cooking in liquid." It is used for stews or certain large cuts of meat, such as heart, tongue and

brisket in which the meat is actually covered with liquid during the cooking time. Stews, of course, are usually browned before cooking. The meat is covered with liquid, in a closed kettle, and cooked slowly until tender.

Last and most important, according to Miss Staggs, is a rule which covers all meat cookery. Cook the meat slowly and more servings will result. When braising or cooking in liquid the meat should always simmer, never boil. The meat is tender and more easily carved. Meat cooked at a high temperature shrinks a great deal more than that cooked at low temperature, with a resulting loss in number of servings.

Life-Saving Drug To Be Available Soon For Farm Animals

The American Veterinary Medical Association reported this week that greatly increased production of streptomycin, one of medical science's "wonder drugs," will soon make it possible to use this life-saving compound in the treatment of various animal diseases. Heretofore, the extremely high cost and scarcity of the product precluded its use by veterinarians except in rare cases, but mass production is expected to bring it soon within the financial reach of the average livestock owner.

With livestock values at a peak, many producers are asking veterinarians to use streptomycin to save the lives of animals in cases where other drugs fail, according

to the Association. The veterinary group also said that a great amount of research is now being carried on with streptomycin in the treatment of animal diseases and the facts discovered about its usefulness are being brought to the attention of practitioners without delay.

NEW SERVEL WITH FROZEN FOOD LOCKER

Up to 60 packages of frozen foods—a whole bushel basketful—fit easily into the big Frozen Food Locker of the 1947 Servel Gas Refrigerator. And that's only one of Servel's new conveniences. For fresh foods, there's moist cond and dry cold to keep vegetables crisp, fruits appetizing, meat tender. There's extra roominess, too, for clear-across shelves

adjust to eleven different positions. Famous for silence, the Servel Gas Refrigerator is basically different from all others. It has no moving parts in its freezing system. Instead, a tiny gas flame does all the work. That's why, as more than 2,000,000 owners know, Servel stays silent, lasts longer, New 1947 Servels are now on display.

Pension Payments Jump High During June, Office Reports

Monthly payments totalling \$256,700 were paid to 52,618 residents of Texas in Federal Old-Age and Survivors Insurance checks in the month of June, J. E. Sanderson, Manager of the Amarillo Social Security Administration Field Office announced today. These figures, according to Sanderson, do not include the

amounts paid as lump-sum payments, during the month in cases where no survivor was entitled to monthly payments immediately.

Although 1506 residents of the 26 Panhandle counties served by the Amarillo Office are drawing \$23,555 monthly, others are losing payments because they fail to file application for them. Mr. Sanderson emphasized the fact that these payments are not automatic, and that a claim must be filed with the Social Security Administration before payment can be made.

For the nation as a whole in the month of June the Treasury Department paid out \$35,071,472 in monthly payments under this program. This total was the amount actually paid during June, and does not include the amounts which many others who had filed claims would have been paid if they had not been earning more than \$14.99 a month at jobs in commerce and industry.
