Griffin, Southwest Silverton; Mr. and Mrs. Ware Fogerson, East Silverton; Mr. and Mrs. Walter Brannon, Haylake; Mr. and Mrs. Barney Stephens, Lakeview; Mr. and Mrs. Louie Kitchens, Wallace; Mr. and Mrs. Bill Holt, Holt; Mr. and Mrs. Chester Burnett, San Jacinto; Mr. and Mrs. Wayland Fitzgerald, Rock Creek; Mr. and Mrs. Roy Allard, Antelope Flat; Mr. and Mrs. Wade Steele, Francis; Mr. and Mrs. Arthur Arnold, North Ward; Mr. and Mrs. Arnold Turner, Northwest Silverton School District; Mr. and Mrs. Edgar Mills, Southeast Silverton School District; Mr. and Mrs. Albert Mallow, Southwest Silverton School District; and C. R. Badgett, Quitaque.

Last Rites Held In Tulia For W. T. May, Monday

Funeral services were conducted at the First Baptist Church in Tulia, Monday afternoon at 2:30 for W. T. May, long time resident of Briscoe County. Officiating was Rev. George Montgomery of Kress, assisted by Rev. Harvey Wolfe.

Guns Replaced by Syringes in Foot-Mouth War

A recent abrupt change in the joint United States-Mexican war on foot and mouth disease, involving an about-face on the "no vaccination" policy previously adhered to, is the cause of grave concern in livestock circles this side of the border.

Masonic Lodge Has Many Visitors At Regular Meeting

At a regular meeting of the Silverton Masonic Lodge, No. 754, A. F. & A. M., Tuesday night of this week, twenty-eight visitors from various towns in this vicinity were present for the meeting.

SWING OF THE SOUTHWEST FARM MARKETS

Egg prices dropped, and livestock showed mixed trends last week, as other southwest farm products remained generally steady to strong, according to the Production and Marketing Administration, U. S. Department of Agriculture.

Plans for the Silverton Hospital erection got under way today with the Hospital Committee meeting tonight to determine the location, it was reported here today by members of the committee.

The committee further stated that due to too much Federal and State Government "red tape" that plans to erect the hospital will continue to those originating at the beginning.

Fire Boys Are Called Out For Garage Fire

The Silverton Fire Department was called out this morning to extinguish flames which threatened to destroy the garage of Bryant Eddleman, the building located behind his home which is two doors south of the Silverton Hotel.

Extra Energy and Eye Spots Warn Of Cold, Say Docs

"Increased 'eye-dazzle' is one warning that you are coming down with a cold," say researchers in the snuffle-drip ailment.

"Foul Foot" Treatment is Top Discovery

A new treatment for "foul foot" in cattle has been cited as one of the top-ranking advances in veterinary science for 1947.

Locals Show Improvement At Flomot Game Tuesday

The Silverton Owls traveled to Flomot Tuesday night of this week to play three basketball games, Coach L. R. Bailey reports.

First Baby of 1948 Not Reported Yet

As the Briscoe County News goes to press this week, no report has yet been made to the News of the birth of the first baby born in the Silverton trade territory.

Managers Nerved

The following people have been appointed community campaign managers for the 1948 March of Dimes drive in Briscoe County.

Silverton Cemetery Ass'n. Needs Funds

George Seaney, president of the Silverton Cemetery association has this week made known his appeal to the people of this community for funds which are immediately necessary in order that work can be continued on the upkeep of the local cemetery.

Managers Rat to Own to Pay Income Tax

It's a funny thing to witness! A rat came to town on Tuesday morning of this week and immediately following his arrival ran as fast as he could to the courthouse where it is believed he got to his income tax return before the January 15th deadline.

Managers Rat to Own to Pay Income Tax

It's a funny thing to witness! A rat came to town on Tuesday morning of this week and immediately following his arrival ran as fast as he could to the courthouse where it is believed he got to his income tax return before the January 15th deadline.

No Substitute For Work . . .

J. J. Newberry, head of the national retailing chain system that bears his name, recently sent a message to store managers throughout the country which contains in simple, forceful language, fundamental truths that apply to all of us.

He wrote: "The person who makes his job the most important thing in his life, other than taking care of his family, and who has common sense and intelligence to apply to his job, should be entitled to greater success and rewards than the one who only wants to work eight hours a day, five days a week. . . .

"Everything in the way of farming, mining, manufacturing and distribution must keep on expanding to give work to the increased population and to produce and distribute the larger requirements of more people. This will call for more and more leaders of industry.

"Those leaders will be the people who have such enthusiasm for their work they would rather stay on the job and see that which they are interested in progress and grow than to spend their leisure time at less important pursuits. . . .

"When you hear bright young people talking about working only forty hours a week who expect equal compensation with the man who loves his work enough to put the necessary time in to make his company grow, then you owe it to such a person to tell him how wrong his ideas are."

This is an old-fashioned doctrine. It is in opposition to the new and engaging theories of the more advanced social and economic planners. But, whether we like it or not, it is a theory which is solidly supported by centuries of human experience—and human experiment. There is no substitute for production—which simply means there is no substitute for work. A genius may find an easy short cut to success, but the number of geniuses at large at any time can almost be counted on one man's fingers. Mr. Newberry has restated truths which, if abandoned and forgotten, will lead to individual tragedy and failure—and to the deterioration of the strength and pride of the country.

Behind The Scenes in AMERICAN BUSINESS

By REYNOLDS KNIGHT
NOTE TO READERS—The information contained in this weekly summary of happenings in the world of business and industry has been obtained from sources we consider reliable but is not guaranteed. Opinions and forecasts are based upon careful analysis but are subject to change without notice.
—The Editor

The high cost of living is pinching U. S. industry, just as it is putting pressure on every family. From figures recently released by the SEC, it is clear that American business needs money. Where is it going to get it? The savings accumulated by business during the war years are being used up to build additions to plants and new factories, to carry heavier payrolls and to carry heavier and higher priced inventories of goods. Savings, in the form of cash and government securities, are down some \$10 billion in the last two years. For plants and new machinery, U. S. industry has been spending at the rate of more than \$20 billion a year for the last two years. This rate is without precedent in our economic history. So far, industry has been getting the money it needed by borrowing. It has borrowed heavily from banks and other institutions. It has borrowed from the public by selling bonds. But this can not go on forever. Business needs "owner capital" which comes only from the sale of common stock. And for this it needs a higher securities price level.

TARIFF PUZZLE—Tariffs and puzzles usually do not go hand in hand. But an exception that came during recent trade-agreement negotiations in Geneva between the United States and the United Kingdom has perplexed and aroused operators of wholly-American-owned distilleries. Although owners of British and Canadian distilleries were permitted indirect representation at the conferences, similar representation was flatly denied U. S. distilleries owned in their entirety by Ameri-

can capital. The result? Arrangements were made (in the absence of American distillery representatives) for the establishment of a tariff, since inaugurated, which reduces the duty on whiskies and spirits imported here from the United Kingdom and Canada from \$2.50 to \$1.50 per proof gallon after a previous slash from \$5 in 1936. The American distilleries have consequently demanded an investigation. They charged that the original ban in Geneva was discriminatory and not only injures the wholly-American-owned distillery industry, its workers and suppliers, but also American consumers on the ground that the tariff forces them to subsidize foreign whiskey makers.

THINGS TO COME—Just when it looked as though the bubble-gum craze was under control, a new menace appears in the form of a pogo-stick made of aluminum. Hoping to get the jump on his competitors, the manufacturer says the devices are available now. . . . A Gadget-of-the-Month club, which promises its subscribers a new household item every four weeks. . . . A household photoelectric eye device to close windows when it rains, open garage doors, all automatically, of course. . . . A new bedside lamp that is turned off or on by tilting the shade. . . . Now pianos are being made with magnesium string plate. . . . Here's another knife sharpener, not a driven, and said to require no skill at all. . . . And for ice skates, a new handy carbide sharpener that looks as though it would work all right. . . . If you have any big arithmetic problems, you can get an electronic tube that will make all your calculations.

COUNTRY CLUB SET—The "station wagon set" is America's fastest growing automotive club because of increased demand for this smart and serviceable vehicle. Before the war, station wagons were seen mostly around exclusive suburban country clubs, at commuters' train platforms or gracing driveways of palatial estates. But today the demand for station wagons is tremendous, according to Powell Crosley, Jr., president of Crosley Motors, Inc., which re-

cently introduced the world's lowest priced station wagon. Many car manufacturers are raising quotas of station wagons introduced.

"This process of enlarging the so-called 'station wagon set'" Mr. Crosley said "making it more democratic through greatly expanded production, is due to the American tradition of obtaining the best possible item at the lowest possible price.

"Recognizing the increasing popularity of this model with American families," he declared, "our company currently is devoting about fifty percent of total production to station wagon models, priced to fit the pocket-books of today's new car customers."

BITS O' BUSINESS—The chemical industry, which has shown a steadier growth over the years than any other, continues to bound ahead. Principal reason: the steady flow of new products it is able to offer the public. Right now it is busy developing the entire field of soapless soaps, or detergents. In practically every grocery store you can find them, and from practically no sales before the war, these new products are expected to sell around 500 million pounds yearly. Of course, they will not hit this astounding total in 1948, but they are moving rapidly. New insecticides and weed-killers also are rolling up new sales totals for the industry. Experts estimate there is a potential market here of some 100

Banquet For Turkeys

NEW YORK, N. Y. — Turkeys comprise the banquet fare at parties but no one ever thought of giving turkeys a banquet of their own except lovely Joan Murray who was selected as "Miss Stardust" in the well-known beauty contest held each year for that coveted title. She played hostess at a novel turkey banquet at the Hotel Sherman assisted by Fraser Morris, overseas shipper of gift parcels and clothing.

FARM FACTS WORTH KNOWING

Q. How can goats be encouraged to drink sufficient water during cold weather?
A. In cool weather some goats will not drink water readily even when it is warmed. Sometimes a pinch of salt added to the water will do the trick, or a little molasses, bran or oatmeal can be added with good results. The important thing is to make sure that the water is always clean and fresh.

Q. What is the proper ratio of roosters to hens in flock matings?
A. There should be one male for every 15 females of the light breeds and one male for every 12 females of the heavy breeds.

Q. When should rabbits be weaned?
A. Many rabbit breeders follow the system of leaving the doe and litter together until the litter is 8 weeks of age. At the Research Rabbitry of the Ralston Purina Company, where it is the practice to breed the doe 21 days after kindling, the litter is moved when 6 weeks of age from the doe's hutch to the rearing pen where it remains until market age.

Q. What are the advantages and disadvantages of confinement rearing of turkeys?
A. Advantages of confinement rearing:

1. Death loss from predatory animals is practically eliminated.
 2. Easier to care for the birds.
 3. Disease losses lessened.
 4. Loss from stampeding less if groups of birds are not too large.
- Disadvantages of confinement rearing:
1. Higher investment per bird.
 2. Cannibalism and vices usually more prevalent.
 3. Greater feed consumption because of lack of forage crops.

Send your questions about livestock or poultry problems to FARM FACTS, 835 South Eighth Street, St. Louis 2, Missouri. Questions will be answered without charge, either by mail or in this column, as a service of this newspaper.

 war, resigned because of
 January 9 Associate
 Administrator Paul L.
 made the announcement in
 g with appointment of
 E. Wallace as new ad-

ministrator. Colonel Wallace, long prominent in veterans affairs throughout the state, was formerly head of the Fort Worth region.

The last round-up of buildings to be cleared from the Camp Maxey area near Paris, Texas, will be staged January 27, 28 and 29. The War Assets Administration will include all remaining buildings for offsite use, numbering 485, in the three-day location sale. It will be the second and concluding cycle of the public, informal bid operations on surplus real property at Camp Maxey. Grounds will be open for inspection January 15 through January 26 daily except for Saturdays and Sundays.

Relief for famine stricken Indians of the southwest is being furnished through the surplus food

stocks of the WAA. Thus far, \$125,000 worth of foodstuffs has been sent to 16 needy Navajo and Cherokee tribes, whose agricultural resources are not sufficient because of greatly increased population and sickness following the war. The zone office at Grand Prairie is cooperating with other WAA officials at Kansas City and San Francisco to speed shipments of food, clothing, and medical supplies to Indian Affairs Services in Oklahoma and Arizona.

Biggest all-veteran sale on the Texas schedule is a million dollar clearance of office furniture at the San Antonio War Assets Disposal Center. While veterans are inspecting and arranging to purchase the set-aside items of furniture at fixed prices, they can join with non-priority buyers to shop for lumber, paints, chemicals, cafe equipment and a quantity of other war surplus items being offered at the same location during the same four day period. Inspection has been set for January 19 and 20, with sales on January 21 and 22.

Central Texans will get a final opportunity to purchase Camp Swift buildings when the WAA conducts a high bid sale of some 600 remaining structures at the campsite near Bastrop, Texas. The buildings will include a number of permanent type two story barracks, as well as a variety of other GI facilities. No priorities will be observed, and the sale will take place at the Camp Swift sports arena on January 20, 21 and 22.

Uncle Sam will be out of the surplus aircraft business by March 31. That's the latest word from WAA's aircraft disposal branch, which still has approximately 300 C-46 transports and a few tactical models at its southwest depot at Walnut Ridge, Arkansas. The big transports are on sale now for \$5,000 apiece, and remaining planes will be offered to veterans and others during the next two months. The aircraft inventory in this area was greatly depleted during 1947 by sales of 1,350 surplus planes.

The so-called "heart" of a tree is really dead

SCRIPTURE: John 4:5-26; Romans 8:12-17, 31-39
 DEVOTIONAL READING: Psalm 103

Our Relationship to God

Lesson for January 18, 1948

THE Scripture lesson for Sunday is John 4:5-26 and Romans 8:12-17 and 31-39, with the 103rd Psalm as the devotional reading.

The passage in John presents the dramatic story of Jesus meeting with the woman from Sychar at Jacob's well, and of her discovery of the Water of Life.

There is no more convincing evidence anywhere in the Bible of Jesus as the one, and only approach to God. He is the Door through which one must pass into the Kingdom, whether bond or free, rich or poor, ignorant or learned, high or low. "I am the truth and the life and the way."

Jesus Teaches About God

IN THIS great story we see Jesus, wearied from the day's arduous tasks, sitting on the curb of Jacob's well, resting. The disciples had gone across the valley to the village to buy food. The woman comes to draw water from the historic well. She did not notice Jesus until he spoke to her. He is never too busy, never too weary, to seek to bring all men to a knowledge of God's love.

He asked for a drink of water. That was his way of making contact with her. She drew back, wondering why a Jew would speak to a woman in public. But Jesus got past the immediate wall which she threw up between herself and him, and soon was teaching her the way of everlasting life, to which she responded with gratitude.

How We Worship God

READ John 4:5-26 and see how Jesus led the woman of Sychar to understand true worship. Strangely enough, she knew a good deal about Jewish rites and ceremonies, but she had never known the basic truth that "God is a Spirit; and they that worship him must worship him in spirit and in truth."

Included in the record of how Jesus taught the woman to worship was the necessity of confessing her sins, having five husbands, and living at the moment with still another man. We cannot worship God if there is unconfessed sin in our hearts.

We often miss the joy of true worship because we fail to confess our sins. God looketh upon the heart. If there is sin in our hearts, it must be forgiven.

Our Need of God

"I shall die," Romans 8:13. Here is a solemn truth that many seem to forget — apart from God we are dead. The young person who undertakes to live with eating food will soon discover that his body is wasting away and his mind is broken and dissipated. Just so with the spirit of man. We are spiritual creatures, made in the image of God. If we live by the flesh, we die spiritually.

In the preceding chapters in Romans, Paul has shown how sin worketh death. He sets forth the penalties that result from carnal thinking and behavior. But in the 16th verse he comes on to say:

"It is the Spirit himself bearing witness with our spirit that we are the sons of God, or children of God," Romans 8:16.

Strong in the Lord

OUR age has made much of might — might that expresses itself in speed. We think in terms of atomic power. This lesson would help us to understand that we may be strong in the Lord. All power is with him. "All power hath been given me in heaven and on earth," said Jesus.

And this leads us to the climax of Sunday's lesson, when Paul declares:

"For I am persuaded, that neither death, nor life, nor angels, nor things present, nor things to come, nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in Christ Jesus our Lord," Romans 8:38, 39.

Satan had the woman of Sychar completely in his power until the grace of God lifted her feet upon the Rock of Ages. She could then stand in the midst of the people of Sychar and declare that she had met One who had released her from the bondage of sin. That is what will happen in every heart that comes to God through Jesus Christ.

On a heavy-duty job, give me new Advance-Design CHEVROLET TRUCKS
 and here's a "load" of reasons why . . .

Only Advance-Design Trucks Have All These New and Finer Features:

- ★ Cab that "breathes"
- ★ Flexi-Mounted cab
- ★ Unifield, all-steel construction
- ★ Larger, more durable, fully adjustable seat
- ★ 22% greater visibility
- ★ New, rear-corner windows
- ★ Stronger, new frames
- ★ Full-floating hypoid rear axles
- ★ Specially designed hydraulic truck brakes
- ★ Valve-in-Head Thrift-Master or Load-Master engines
- ★ More efficient loading (stake and high-rack bodies)
- ★ New, thorough sealing insulation
- ★ Standard cab-to-axle-length dimensions permitting interchange of bodies
- ★ . . . and MANY more!

Brother, how these stronger, new frames stand-up! Wheelbases are longer, too, for better load distribution. And the brakes are exclusively designed for greater brake-lining contact!

Look — rear-corner windows! New it's a cinch to back up without jacking-up. Yes, sir, these trucks are built new — heavy, efficient with Advance-Design. And they're packed with power — Chevrolet's most economical engine for its size — Chevrolet's Valve-in-Head engine.

*Fresh air heating and ventilating system and rear corner windows optional at extra cost.

Come in and see these trucks — today! There's a Chevrolet Advance-Design truck to meet your specific needs and offer you TRANSPORTATION ECONOMY.

TEN LARGEST FIRES IN 1947 REPORTED BY INSURANCE COMMISSIONER

Austin, Jan. 14—The ten largest fires in 1947 were listed today by Marvin Hall, State Fire Insurance Commissioner.

Compilations were made from fire marshals' reports from over Texas. Figures are approximate and losses based on property value.

"Number one on the list is of course the Texas City explosions

and fires, the greatest disaster not only this year, but the worst in the history of this State, both in lives and dollars," Hall stated.

Originating in the explosion of a ship carrying fertilizer, resultant fires and explosions took 468 lives, injured 3000, and destroyed property worth \$67,000,000.

"A lumber prefabricating plant suffered the second highest loss last year, \$27,000," the Commissioner said. "Cause of the fire was unknown."

This was a 2500,000 warehouse fire which also originated in 1947.

"DOCTOR JIM"

Stuart Erwin, popular Hollywood star, leads the cast in "Doctor Jim" feature picture to be shown in the Palace Theatre on Tuesday, January 20th. This movie headlines the John Deere Day entertainment and educational program for farmers and their families which is being sponsored by Coffee Implement Company. Admission will be by ticket only, but tickets can be obtained free of charge at the Coffee Implement Company.

"Doctor Jim" is a friendly, warm-hearted picture that pays a fine tribute to a small community's leading citizen—the country doctor. You'll like Doc and his wife, Sally—they're human folks who'll tug at your hearts and provide plenty of chuckles, too.

In the supporting cast are such other well-known artists as Barbara Woodell, Hobart Cavanaugh, William Wright and Netta Parker.

In addition to "Doctor Jim," several other new, all-talking pictures will be shown. They include "Keep Your Eye on the Soil"—an educational picture that sounds a warning to one in agriculture can afford to ignore—soil maintenance.

Doubling Thomas—an interesting story that will give you some new slants on new John Deere Models "A" and "B" Tractors... "Short Cuts in Forage Harvest"—which demonstrates the way to shorter, easier, and more profitable harvesting of hay and forage crops... "Save More Corn at Lower Cost" and "What's New for '48."

Mr. Coffee is extending a cordial invitation to all farm readers of this newspaper—and their neighbors—to be his guests on John Deere Day, next Tuesday. Be sure to call at Coffee Implement Company for your free tickets, if you don't already have them.

undetermined causes. Fourth, vegetable and fruit packing sheds burned with a total loss of \$265,000 and cause unknown.

Two fires ranked fifth: an oil mill company and a football stadium fire, both amounting to \$200,000 losses and both starting from unknown origin. The sixth highest damage was \$178,000 lost in a general mercantile store blaze. Cause was unknown.

A fire-packed bale of cotton set fire to a cotton warehouse causing \$175,000 worth of damage which ranked seventh. Eighth was a \$165,000 fire in an antique and art store which was caught by a cigarette.

Two fires also ranked ninth and were from unknown causes. A laundry fire resulted in a \$150,000 loss, and two buildings of a lumber company burned at a cost of \$150,000.

Tenth, a feed warehouse caught fire from unknown causes with the resultant blaze amounting to \$125,000 worth of damage.

The area of the state of Texas is 265,893 miles. Its fine climate and rich natural resources drew many people to it in early history. While it was a part of Mexico more Americans than Mexicans lived within its borders.

Veterans' News

More than 52,000 veterans in Texas, Louisiana and Mississippi were admitted to Veterans Administration hospitals during the past year. VA's Dallas Branch Office reported this week.

The report showed that 143,000 treatments and 242,000 examinations of veterans in the tri-state area were given by VA in outpatient clinics during the same period.

VA offices in the three states dispatched 11,000,000 pieces of mail and conducted 1,700,000 personal interviews with veterans during 1947.

Direct payments to veterans in the Dallas Branch Area during the year amounted to more than \$425,000,000. This included disability compensation, death claims, insurance settlements and tuition and subsistence to veterans in schools or training.

At the end of the year, VA was paying disability compensation to 161,000 veterans in the three states.

More than 43,000 loans on homes, farms or businesses were guaranteed by VA during 1947, bringing the cumulative total for the three states to 75,2000 loans with \$227,460,000 guaranteed by the government.

Veterans in training in the three-state area at year's end totaled almost 254,000. The number in school or institutional work increased 63 percent compared to a 15 percent decrease in the number of veterans training on-the-job.

Around 75,000 veterans reinstated lapsed National Service Life Insurance amounting to \$510,000,000 during the year.

Postal laws and regulations pertaining to delivery of checks for many benefits administered by VA have been modified for the greater convenience of veterans and beneficiaries.

The new regulation allow checks to be placed in city and county post office boxes, and in mail receptacles on the routes of city or rural mail carriers.

According to a recent announcement research developments offer reasonable promise that within a few years synthetic gasoline will be produced from coal at a cost close to that made from petroleum and natural gas.

NORTH WARD NEWS

Mr. and Mrs. Winston Hamilton spent Sunday with her mother, Mrs. W. A. Holt.

Visitors in the Floyd Wood home Sunday were Mr. and Mrs. J. C. McCloud of Tulla, and Mr. and Mrs. Billie Wood of Silverton.

Mr. Edward Edwards and baby came home Friday from the Tulla Hospital.

Elmer Beavers of the Matador ranch, visited Sunday night with Mr. and Mrs. Floyd Wood.

Clayton Wood spent Thursday night with Carroll Brown.

Mr. and Mrs. Elbert Stephens spent Sunday in the Shorty Hartman home.

Mr. and Mrs. Winston Hamilton went to Abilene last Friday on business.

Mr. and Mrs. Buck Lancaster moved last week to Wellington to make their home. They have been residents of this community for about a year.

Miss Luree Burson, who is attending school at Plainview, visited here over the week-end.

ENEMIES OF SWINE

Parasites disease and unbalanced rations often retard the growth of pigs so much that they actually sell for less than the cost of raising them. Livestock health workers point out that a concerted drive against these enemies of swine production would mean greater profits for farmers and more pork chops for the American public.

Texas leads all states in many ways. It has a much larger production of petroleum than any other state in the Union, its lands are productive in many kinds of farm crops, and in all parts of it are manufacturing institutions of various kinds.

North Carolina is one of America's progressive states. It produces a large variety of agricultural products, including peaches, pears and grapes. It produces a large amount of minerals, among which are gold, silver and copper.

Only six percent of all passenger automobiles registered in the United States in 1946 were less than five years old.

The United States has nearly five acres of trees for every person in the country.

DR. JAMES P. CORNETTE

More than 400 citizens of Northwest Texas gathered at the beautiful new cafeteria building on the campus of West Texas State College in Canyon Friday night to welcome Dr. James P. Cornette to West Texas. Dr. Cornette became executive vice-president of the college on January 1, 1948, coming from Baylor University. He will become the third president of the college on September 1. He will succeed Dr. J. A. Hill as president. Hill has served the college for 38 years, being the last member of the original faculty to retire. He has been president for 30 years.

The dinner was given by the Canyon Chamber of Commerce and the Canyon Rotary Club to guests from practically every town in this area. Herschel Coffee, president of the Rotary Club, presided and greetings were extended by Delbert Lowes, president of the Chamber of Commerce.

Newton Harrell of Claude, member of the Board of Regents, introduced the other visiting regents, Judge W. L. Kerr of Midland, Dr. M. C. Edison of Austin and Walter Woodul of Houston.

The regents highly praised the work accomplished by Dr. Hill during his long tenure of office, and pledged full support to Dr. Cornette in the further development of the college.

Dr. Cornette stated that he came to the Panhandle because of the splendid spirit which was shown by the citizenship. He has faith in the future of this area and great faith in the ability of the college to render service to the people of this section. He praised the spirit behind the development of the museum of the Panhandle Plains Historical Society, and urged full cooperation that other enterprises be established on the campus which will be of service to this section.

Dr. J. A. Hill thanked the thousands of people who had been of such great service in building the plant of West Texas State. He pointed out great accomplishments during the past 38 years, but this was just the beginning. The college has a mission to perform and the intelligent co-operation of all citizens of this section will bring about a greatly expanded program.

The Canyon City Commission and Randall County Commissioners Court offered to the Regents on Friday a tract of 200 acres adjoining the campus for development of aviation.

The state of Tennessee is rich in minerals, its livestock and agricultural interests are varied and important, its lumber production is large, its commercial interests are assisted by reason of its navigable waters, especially the Mississippi river.

The Kangaroo and the emu adorn the Australian coat-of-arms.

I'll never forget when I was given an encyclopedia a 12-volume set, absolutely free.

It was back a good many years ago when I was editor of a small town daily and felt a keen sense of my own importance as the holder of that exalted position.

One day, a well-dressed man, a few years older than I, came in and said, "I represent the world famous Blank Encyclopedia and I want to give you a set of these wonderful books, absolutely free."

At my look of astonishment, he continued, "In each city, we select some outstanding citizen and make him a present of a set. The only thing we ask is that you permit us

to use your name as endorsing the encyclopedia."

Well, that sounded reasonable enough, so I agreed.

"There will be a small charge, of course, for handling and shipping," he said.

"Oh, of course," I concurred. "And, naturally, you would want the de luxe edition in the special buckram binding?"

"Naturally."

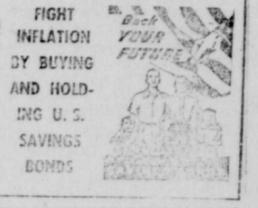

"There is an extra charge, a very small charge, for the buckram binding," he said. "but you'll never regret your decision."

Then he continued, "Of course, the Blank Encyclopedia is up-to-the-minute now but in this changing world, today's facts may be out-of-date tomorrow. Naturally, you will want to receive our monthly loose-leaf service?"

"Yes, naturally," I replied, rather weakly.

"There will be a small service charge for that. And now," he said, briskly, "just sign here."

I did and he shook hands and took a breezy departure as well as my check for \$22.85 for a set of books which I received absolutely free because I was an outstanding citizen.

I've Gone
All Out For
All-Electric Living

Lucky, lucky lady with all those wonderful electric appliances... her electric range, refrigerator, water heater, complete home laundry and other labor saving devices.

And behind these appliances, behind the walls of her home, she has all important Adequate Wiring. She knows that the electric wiring in her home is large enough

to provide her with plenty of electric service when and where she needs it.

Call or write your nearest Public Service office now for a wiring check-up by a specialist. There is, of course, no obligation.

Adequate Wiring MEANS:

1. ENOUGH CIRCUITS for serving efficiently and safely all the appliances you have.
2. LARGE ENOUGH WIRE for serving your present and future needs.
3. ENOUGH OUTLETS AND SWITCHES for convenient living.

We Have Nothing to Sell But Good Electric Service

Their Parents Celebrate Wedding Anniversary

Mr. and Mrs. P. J. Seaney of Erick, Oklahoma, celebrated their Golden Wedding Anniversary on December 21st with all their children present, it has been reported.

The children present and also celebrating the occasion were: Mrs. Steve Duncan and George Seaney of Silverton; Elma Seaney, Morton, Texas; Mrs. Cloud Hay, Linden, California; Mrs. Darwin

Johnson, San Leandro, Calif.; Mrs. Granvil Lawley, Hearld, Calif.; and Mrs. Hubert Pennington, Exeter, California.

Of the 17 grandchildren, eleven were present. Four great grandchildren were also present. They were Carolyn and Max Dee Garrison of Silverton, Patsy and J. M. Bradley of Tulsa. Also one brother was present—Mr. and Mrs. Pleasant Seaney of Richmond, Indiana.

Those attending the affair from Silverton were: Mr. and Mrs. George Seaney and Cecil, Mr. and Mrs. Steve Duncan, Mr. and Mrs. Pascal Garrison, Carolyn and Max

WANT ADS

Farm Market

Heavy hens ranged generally from 23 to 26 cents a pound, but New Orleans paid 35 to 38.

Wool activity fell off following the first flush of new year buying, but some average staple Texas 12-months grease wools sold. Spring clip contracting remained slow. One average staple fine wool clip was contracted at Roswell, New Mexico, at 43 cents a grease pound, estimated to shrink 63 percent at shearing time.

Most sheep sold strong to \$1 higher for the week, but lambs dropped 50 cents to \$1 at Wichita and Denver. Wichita bought good and choice at \$24 to \$24.50, as Denver paid \$24.75 to \$25.25, Oklahoma City \$24.50 to \$25, and Fort Worth \$24 to \$25. San Antonio took medium and good grades at \$19 to \$20.

Hogs scored net gains at Oklahoma City and Wichita, but lost ground at other southwest terminals. San Antonio reached a high point for the week of \$27, Fort Worth \$28, Oklahoma City and Denver \$28.75, and Wichita \$28.25. Most sows sold from \$23.50 to \$25, and stocker and feeder pigs from \$15 to \$23.

Cattle moved generally at strong to \$1 or more higher prices the past week, although slaughter steers and yearlings sold lower at Houston. Fort Worth and Oklahoma City, Houston bought common and medium grades at \$16 to \$22, and Fort Worth took medium and good lots from \$22 to \$30. Oklahoma City paid a top of \$34 for fed steers, and San Antonio set a new high of \$29 on commercially fed kinds. Medium and good steers brought \$25 to \$29.50 at Wichita, and choice \$32.50 at Denver.

Dee, and Mr. and Mrs. Bud McMinn and Fayree.

Open house was held during the afternoon and over 200 people registered.

The only natural nitrate minerals are found in a single deposit in northern Chile.

Vermont has 39 women legislators, largest number of any state in the Union.
