RIP ROARIN' BLACK MARKET

"Without the patriotic sanctions of wartime," says an editorial in Life, "rationing and price controls would result in the rip-roarin' black market the world has ever seen. Indeed, the American who puts freedom ahead of his pocketbook—and there are many such citizens—might consider it his duty to patronize the black market, just as many essentially sober people once considered it their duty to drink in defiance of the Volstead Act. Life does not advocate law-breaking, but it does hate to see the type of law passed that ends by creating a contempt for any and all laws."

The country had a taste of that rip-roarin' black market when the war ended but OPA remained in business for many months. The legitimate retail systems, such as the chains, were often out of scarce goods—they just couldn't buy them at the legal price. But the customer to whom price was no object could always get what he wanted from some shady operator. This dangerous situation even had a bearing on the nation's health—black market meat, for instance, was rarely inspected, and the consumer had no means of knowing what he was getting.

Today, while all the talk goes on, pro and con, concerning controls, the consumer is living in an economy of abundance. Retail stores, chain and independent alike, offer highly varied stocks of goods, and the list of shortages has grown small. Typical stores report that their profit per dollar of sales is often less than it was when OPA was in the driver's seat. That is the result of open competition—the kind of competition that makes every businessman work hard and long to gain public favor. And competition will bring prices down if and when conditions make it possible.

IT'S STILL BUNK!

The Saturday Evening Post recently ran a lead editorial with the straightforward title, "Having More By Making Less is Still

Bunk!" In it, it said: "It has become common—place with post-Roosevelt politicians that every American has a 'right' to a good house, or a 'right' to inexpensive medical care, or a 'right' to a standard of living represented by a salary of \$5,000 a year, or a 'right' to the good things of life at prices he can afford to pay."

"People three hundred years ago would be mystified by a generation which expects to enforce the 'right' to a high standard of living by closing down the nation's coal mines, railroads, packing houses and automobile plants. Capt. John Smith's bustling workers and the settlers in equally 'reactionary' New England would not have understood how people could have more things by producing fewer."

The philosophy of less and less work for more money is the most iniquitous thing that can happen to a country. Every real gain made in living standards is the result of greater efficiency and increased production. Otherwise all the wage increases must simply be offset by higher prices—which is just another way of saying that inflation becomes inevitable.

Even worse, the philosophy of producing less and earning more has led to a dependence on the government which prior generations would have regarded as disgraceful. Millions of people seem to have come to the conclusion that the principal function of government is to provide cradle to the grave security—that it's job is to stand between the individual and every conceivable economic contingency. That is the attitude that makes dictatorship possible. It was the selling point on which Hitler, Mussolini and all the rest of the modern tyrants came to power. And it is now approaching another full flowering in England, where the state is determined to control everything—and the individual is turning into a cipher.

In this country, the labor unions have been major offenders in developing the idea that a higher standard of living for the masses of people can be accomplished without doing a full day's work for a full day's pay. In some

fields that illusion has reached scandalous proportions. And that, in the long run, is the sort of thing that produces depressions.

The men who built this country, and developed the most nearly perfect system of government ever conceived, knew that the only way to perpetuate freedom was through vigilant and independent people. They didn't run to the government for help every time something went wrong. And they didn't work on the theory that the less an individual produced the more he should have. It's time we again looked the facts of life in the face, and learn that the only real "rights" are those we earn.

JUST A MATCH

Take a look at a match. It's a cheap, necessary, and innocent looking little article. Yet matches have caused the destruction of hundreds of millions of dollars worth of property and tens of thousands of lives.

The same thing is true of cigarettes. Great forests, homes, factories—all have gone up in smoke and flame because people didn't go to the small trouble of putting smoking materials completely out when discarding them.

How about the cords that carry the juice to your lamps? Their cost is small and they can be installed in a matter of minutes. Yet, easy as it is to replace them when frayed, short-circuits also have a gigantic toll of destruction to life and property to their credit.

These three examples show the main causes of fire—and the ease with which such fires can be prevented. The vast majority of fires are the result of one thing only—the human factor. Someone is lazy. Someone is careless. Someone puts off till tomorrow what should be done today. Then fire strikes. The loss may be great or it may be small. In either case, it is totally unnecessary. Keep that in mind when smoking, when checking household equipment, or when doing anything that has a bearing on fire hazards.

There isn't any such thing as something for nothing. Someone pays.

GOOD "OLE" BRISCOE NEWS

Briscoe County News

Dear Sir:

We have recently got city mail delivery. Will you please change my address from Rt. 4, to 306 South Monroe Ave., Sulphur Springs, Texas. I'd hate to miss a copy of the good "ole" Briscoe News.

Very truly,
P. E. KOLB.

Educational Standard Will be Lowered Unless we Prepare

Austin, Texas—Texas must adequately prepare for 150,000 more children in its schools in the next decade or lower its educational standards.

Charles H. Tennyson, director of public relations for the Texas State Teachers Association, sounded that warning here today.

The huge increase in the birth rate during the last few years will add to the enrollment in Texas schools by nearly 82,000 pupils four years from now and by 152,000 in 1957, Tennyson said.

"The vastly accelerated birth rate throughout the United States since 1941 has cheered business men, but it is causing great concern among educators," the TSTA official declared.

"Texas is no exception. From figures on the annual birth rate provided by the United States Bureau of Vital Statistics, we know that births increased 1,549,601 throughout the United States from 2,360,399 in 1940 to 3,910,000 in 1947.

"Enrollment started increasing throughout the country last year. In Texas it was up more than 7,000 pupils. The State Department of Education this week estimated an additional 8,000 students would enroll this fall.

"That is just the beginning. Enrollment will snowball from then on. The situation will become acute in 1953. An accurate estimate places the hike in enrollment in Texas that year at 81,568 pupils. Nine years from now we will have 152,004 additional students in our schools, or a total of 1,660,004."

Federal and state bureau and insurance company statistics show that nearly 80 per cent of the children born each year reach school age. Those experience figures

make accurate estimates of future enrollment possible, Tennyson explained.

"An increase of 80,000 pupils in the short time of four years and 150,000 in nine years does not seem so tremendous until it is realized that we will need 2,719 more teachers by '52 and 5,066 classroom instructors by 1954," Tennyson declared.

"It stands to reason we will have to have many more classrooms.

"Leaders in school districts and state government should take careful note. The situation calls for planning along practical lines in order that adequate provisions be made for education of these children.

"That is particularly necessary in more than half of the Texas schools in which children are already over-crowded.

"It will call for expenditures of large sums of money. If each of the 5,066 additional teachers was paid only the present minimum salary of \$2,000 annually, that would increase expenditures by \$10,132,000.

"No one can hazard a guess as to how much additional money must be spent on classrooms and equipment."

"A recent survey disclosed that about 50 per cent of students in Texas schools are in over-crowded classes. Educators agree that pupils cannot be given adequate instruction when there are more than 30 or 32 pupils in a class.

Some Texas cities have already recognized the impending situation. A recent survey made by Fort Worth school officials disclosed that by 1953 the district will need 367 more teachers and additional classrooms, according to B. C. Shulkey, assistant Superintendent.

Austin this fall is adding 15 teachers to ease the overcrowded classroom situation in the capital city.

Nicknames Lead to Confusion in Keeping Security Records

Full names, not nicknames, should appear on social security returns, J. R. Sanderson, manager of the Amarillo social security office said today. Employers should insist on seeing new workers' social security cards and copy the name and number from them. Nicknames are convenient among friends, but they lead to confusion in keeping social security records, continued Sanderson.

Many times employees when going to work give their employers their nicknames or an abbreviation of their real names. When this incorrect name is reported on social security returns, the social security office has to make a check because its file shows the correct, legal name of the wage earner and the social security account number assigned to that name.

The result is that thousands of letters per year are mailed out to employers asking the names of workers as they appear on their social security cards. Identification is completed in most cases by correspondence. In others, personal visits are needed to effect identification. Despite all efforts, a small percentage are never identified. This means smaller social security benefits for those accounts are not completed.

REGISTRATION FOR 1948-49 TERM TEXAS TECH WILL BEGIN SEPTEMBER 16

Registration for the 1948-1949 school term at Texas Technological college will begin Thursday, September 16.

W. P. Clement, registrar, said September 16, 17 and 18 will be devoted to registration. Classes will begin September 20.

Only the Servel GAS Refrigerator

STAYS SILENT... LASTS LONGER

GIVES YOU A TEN-YEAR GUARANTEE

IS TEXAS' BIG FAVORITE...

MORE AND MORE TEXANS want the Gas Refrigerator. This modern refrigerator stays silent, lasts longer because it has no moving parts in its freezing system.

There's no motor to wear! No machinery to get noisy! And that's why your new Servel comes with a ten-year guarantee of noise-free, worry-free performance. (A guarantee of noise-free, worry-free performance is not unusual—usually, 18 and 20 years' satisfaction is not unusual—say many of Servel's 2,000,000 happy owners.) In the Gas Refrigerator just a tiny gas flame does the work. And Servel operates anywhere—on any kind of gas.

Come see the new models now on display. You'll find every new convenience you want—a big frozen food compartment, lots of ice cubes, moist-cold and dry-cold for fresh foods. It's first come, first served for Texas' big favorite—the Servel Gas Refrigerator.

Operates anywhere ON NATURAL, BUTANE OR PROPANE GAS

Bride Elect Complimented With Shower

Miss Thelma Gene Mercer, bride-elect of H. B. Fulton, Jr., was named honoree at a miscellaneous shower on Friday afternoon in the home of Mrs. Woodson Coffee, Jr.

Hostesses were members of the Women's Society of the Christian Service of the Methodist Church.

Guests were welcomed by Mrs. J. W. Brannon, Jr., who presented them to Mrs. J. B. Mercer, mother of the bride-to-be, and the honoree.

Those assisting the guests in registering at the bride's book were Miss Wilma Lee Francis and Miss Dorothy Ray McMurtry.

The artistically appointed serving table was laid with a hand-made lace cloth, and table appointments were in crystal. An arrangement of yellow and white gladioli in a low bowl on a reflector formed the attractive centerpiece, with yellow tapers in crystal holders completed the arrangement, carrying out the bride's chosen colors. Miss Jean Dudley, assisted by Mrs. Len Weaver and Mrs. Kenneth Morehouse presided at the punch bowl.

As special entertainment Mrs. Jackie Wingo and Miss LaRue Gilkeyson rendered special piano selections throughout the receiving hours. Bouquets of garden flowers decorated the entertainment rooms.

Assisting in the house party were: Mrs. Ben O. King, Mrs.

Shafe Weaver, Miss Janis Mercer, Miss Kay Steele and Miss Pat Jackson.

Eighty guests called during the afternoon.

News Items From Dr. Mayer's Office

Carl Crow was taken to the Amarillo Osteopathic Hospital last Monday where a tonsillectomy was performed. He has returned home and his condition is very good.

Kenneth Morehouse was reported to have broken some ribs; however, he is doing nicely.

Dr. Mayer examined the football squad for any physical defects Tuesday to insure a healthy football squad for the coming season.

URGES CITY WIDE CLEAN-UP

Due to several cases of typhoid fever in and around town, Dr. Mayer urges the public to be wary of any high temperature with no apparent cause. The origin of the cases has not been determined and the city water has been tested and has been found to be pure and free from any contamination. All food handlers, restaurants and the like are requested to disinfect their premises.

Joe O'Neal is now under treatment for undulant fever with a new type of therapy. Dr. Mayer called long distance to Minnesota to obtain the new treatment and he is reported to be progressing very nicely.

Dr. Mayer, one of a board of three of the Texas Osteopathic Insurance Committee will meet next month with insurance representatives to see about putting the seal of acceptance of the American Osteopathic Association on health, accident, and hospitalization policies.

Coke Stevenson is the man the people of Texas want for their United States Senator. Be a good citizen—go to the polls Saturday and vote. Coke Stevenson's platform is his public record. Vote for Coke!

Mr. and Mrs. Eddie Induik, of San Diego, California, visited her mother, Marie Edwards and her grandparents, Mr. and Mrs. J. N. Cantwell last week.

Mr. and Mrs. G. O. Gelispie and Dicky, of Dallas, visited recently in the Jeff Simpson home. Mrs. Gilispie is a niece of Mrs. Simpson.

Take a hand in choosing your next United States Senator. Go to the polls Saturday and vote for Coke Stevenson. He is dependable, experienced, trustworthy. Let's send Mister Texas to Washington.

CLYDE WRIGHT (Paid Political Advertisement.)

GUESTS IN ALLARD HOME SUNDAY

Guests in the home of Mr. and Mrs. W. W. Allard Sunday were: Walter Cox, of Stephenville, Texas, Mrs. Pete Speed and son, of Hobbs, New Mexico; Mrs. N. M. Lawler, of Goodnight, Mrs. Edna Christianson, of Kingsman, Arizona.

VETERANS' NEWS

Veterans carrying National Service Life Insurance term policies will be able to renew them for an additional five years upon expiration of the present term period, Veterans Administration announced.

G-I term insurance taken out by veterans before January 1, 1946, carries a term period of eight years from date of issue. Policies issued after that date are for a five-year term.

Those who renew their term insurance when it becomes necessary will pay a higher rate than before, based on their age at the time of renewal.

The majority of veterans attending colleges and universities full-time under the G-I Bill will be able to work part time without having their subsistence allowances reduced.

No reduction in subsistence will be made as long as income from productive labor and subsistence allowance do not exceed these monthly "ceilings" established by Public Law 512 last spring: (1) \$210 for a veteran without dependents; (2) \$270 for a veteran with one dependent; or, (3) \$290 for a veteran with more than one dependent.

This does not mean that there is a limit on what a veteran may earn while attending college full time. It does mean that a veteran-student may receive his full subsistence allowance if his monthly earnings are not more than \$135 if he has no dependents, \$165 if he has one dependent, and \$170 if he has more than one dependent.

For full time training in colleges or universities, a veteran may receive \$75 a month subsistence if he has no dependents, \$105 a month if he has one dependent, and \$120 a month if he has more than one dependent.

PERSONALS

Mr. and Mrs. John Mayes and Mrs. Doug Strange, of Comanche, Oklahoma, spent the week end with Mr. and Mrs. Bill Mayes.

Mr. and Mrs. James E. Andrews and baby daughter, Peggy Ann, of Duncombe, Iowa, are visiting Mrs. Andrews' mother, Mrs. J. H. May and family.

H. C. King, of Dumas, was a business visitor in Silverton Saturday.

Mr. and Mrs. Bill Shivers and son, Billy, who had been on a visit to east Texas, stopped by for a brief visit with Mrs. Shivers' sister, Mrs. Pearl Simpson. They were returning to their home in Tulia.

Mesdames Autry Hodges and T. S. Stevenson, visited relatives in Silverton Thursday.

Mr. and Mrs. D. O. Bomar of Lubbock, visited relatives in Silverton Sunday night and Monday.

Mrs. C. M. Strickland visited in Plainview Thursday with relatives.

Earl Brock took Mona Brock and Mary Tom Bomar to Tulia Wednesday where they visited LaNell Copeland. Mr. Brock went on to Plainview on business.

A. J. Anderson, of Kim, Colorado, spent the week end with his sister and family, Mr. and Mrs. Printz Brown.

Mr. and Mrs. J. E. Wheelock were dinner guests of Mr. and Mrs. J. M. Thompson Sunday.

Mr. and Mrs. Geo. Edmons, of Happy and Mr. and Mrs. A. G. Stevenson and daughter, Gloria June, were business visitors in Amarillo Wednesday.

VETERANS ADMINISTRATION QUESTIONS AND ANSWERS

Q—I applied for a job as bartender and was told I could have it if I obtained advanced training in mixing drinks. May I take a course in bartending under the G-I Bill?

A—Yes. First you must submit to VA complete justification that the course is in connection with your contemplated occupation. You must wait for approval from VA before you can start training.

Q—I work in my father's hatchery and would like to enroll in an institutional on-farm training course under the G-I Bill. Am I eligible?

A—No. Institutional on-farm training is limited to farms and other agricultural establishments operated for the purpose of raising crops or breeding poultry and livestock, or both. Establishments engaged exclusively in other processing, distribution or sales—such as a hatchery—are not included in the program. However, on-the-job training may be available to you if a suitable training program is set up and the training establishment is approved by the State Approving Agency.

Q—Are veterans eligible for medical treatment while going to school under the G-I Bill?

A—The G-I Bill makes no special provisions for medical treatment, except the payment of customary fees in a school which, in some cases, include certain medical services for all students.

Q—May I complete grade school under the G-I Bill?

A—Yes.

Mrs. Kenneth Bain, of Floydada, visited her brother and family, Mr. and Mrs. A. G. Stevenson and Mrs. W.S. Smithee.

Mr. and Mrs. Cecil Stephens of Portales, New Mexico, visited in Silverton with relatives over the week end.

Mrs. Cecil Tidwick and family, of Dalhart and Mrs. J. B. Burke and family, of Borger, spent several days with their parents, Mr. and Mrs. Jeff Davis.

FOR LYNDON B. JOHNSON

Some of the reasons I am for Lyndon Johnson for Senator are: He has been my friend for many years. I have worked with him for several years building the greatest project in Texas, the Lower Colorado River Authority Project. We built four large Dams which created four large lakes. That serves Central West Texas with cheap power and provides water for the cities and furnishes irrigation water to the rice farmers in South Texas.

These dams prevent floods in the River Valley. They also furnish fishing, boating, and bathing for thousands and thousands of people.

They also serve several large REA's cheap power that turn serves thousands of farmers and ranchmen that could not get electricity at any price before these Dams were built. He has made the 10th District the best Congressman they have ever had. He is young enough to do the job and has the experience, energy, integrity, and ability to make great senator.

He is honest and a hard worker and he will tell you where he stands on all public questions; while his opponent, Coke Stevenson, straddles all issues. You cannot get Coke to commit himself on any issue. I worked with them both for years. I recommend Lyndon B. Johnson.

C. R. PENNINGTON.

GROW the BIGGEST HOG IN TOWN...

PURINA HOG FATENA

Oh man! Think of a pile of tasty ham, and sausage you'll eat next winter! For a lot of pork in a bag of Purina Hog Fatena. And folks tell us it really grows fast... economical, too! So, you want to raise the biggest hog in town, it's a complete feed.

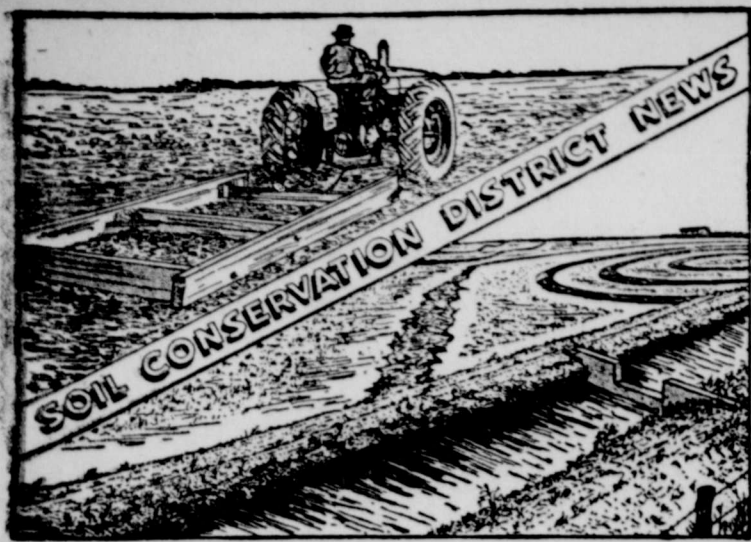

FEED HOGS 2 to 3 coffee cans a day. Increase the amount gradually when the pig gets over 100 lbs. For extra economy feed Hog Fatena with table scraps and slop.

WORM PIGS with Purina Pigtab Granules Just mix in the feed... pigs grow faster... takes less Hog Fatena, too!

STORE WITH THE CHECKERBOARD SIGN

FARMERS GRAIN COMPANY
W. T. GRAHAM, OWNER

SUPERVISORS FOR CAP ROCK DISTRICT—Earl I. Cantwell, Chair. Obra Watson, Bray Cook, L. A. McJinsey and Bill Helmes.

Seeding of improved pastures will start sometime next month. Cooperators who plan to seed pasture mixtures this fall should be preparing for seed. The type of grazing and season of grazing should be considered when

buying seed. Some grasses are adapted for year round use, some for cool seasons, such as spring or fall, and some for summer use. Choose the kind that you need. Pasture needs will determine the mixture or kind of grass to

sow. A legume such as alfalfa, hairy vetch or sweet clover should be included in every planting to improve quality and quantity of forage produced. Local district technicians can help you in planning your mixture.

Jimmie Webb, who operates the W. E. Schott ranch below the cap-rock 15 miles northeast of Silverton, had district technicians lay off some terrace and diversion lines this past week. Mr. Webb plans to start construction as soon as possible.

A high point for an irrigation well was located this past week on the Clay Fowler farm which is situated seven miles east of Silverton.

Irrigation ditch lines were run for the following cooperators of the Cap Rock Soil Conservation District recently: Elmer May who operates the Orlin Stark place, J. L. Self, Elbert Stephens, Oscar Weeks and Merle Graham.

Abilene Christian College Will Open September 14

Abilene Christian College, Abilene, Texas, opens its 43rd school year September 14, offering for the first time degrees in 33 major fields covered by 441 courses. As a part of the twenty-year expansion program adopted recently by the Abilene Christian College Planning Commission, the college dining hall is being remodeled and an athletic dormitory added to the campus this summer.

College officials expect an enrollment slightly larger than that of the last school year, when 1,655 students from 33 states and ten countries were enrolled. This year's ACC faculty will be the largest in the history of the college.

Majors are being offered in art, Bible, Biblical languages, Christian Education, English, mathematics, French, Spanish, music education, history, speech, piano, voice, violin, band, economics, government, dramatic arts, biology, accounting, general business, secretarial training, chemistry, elementary education, secondary education, home economics, physical education, physics, pre-engineering, psychology, animal husbandry, dairy husbandry and agronomy.

\$5,000,000 To Play Tennis Tournament In China

Five million dollars is the entry fee Harold Beckmeyer of Lubbock, former Texas Technological college letterman, is paying to play in the Shanghai open tennis tournament. He has written campus friends this amount is in Chinese dollars.

The \$5,000,000 is equivalent to about \$1.50 in good old American dollars, Joe Ma, Chinese student at Texas Tech estimates.

The tournament, to be played in the old French concession area of Shanghai, is open to any resident of the city and has drawn entries from many countries. Beckmeyer is a lieutenant in the navy, stationed at Shanghai.

Jack Duane Paige Enlisted in the Air Force

Jack Duane Paige, son of Mr. and Mrs. Lester E. Paige, Silverton, Texas, enlisted in the United States Air Force for a three year period in the grade of private. Private Paige was sworn into the service on 18 August, 1948. He departed for Lackland Air Force Base, San Antonio, Texas where he will receive his basic training, and upon completion of this training he will be assigned to a tactical unit for specialized training.

Location Made For Deep Oil Test In Swisher County

Location has been made by Humble Oil and Refining Co. for a deep oil test on the Nanny pasture northwest of Plainview. The location is just inside the Swisher county line on section 9, block O. D. It is 1980 feet from the north and 660 feet from the east lines of this section. This block OD is a strip running north and south, and is split by the Swisher-Castro boundaries.

This location is 15 miles due west of Kress.

Humble has part of the 7,214 acres of the Nanny pasture lands under lease and also part of the large Dinwiddie tract.

Contract has been let and it is anticipated that drilling will start about the first of September.—Tulsa Herald.

Going away for the holiday

To make sure yours will be a carefree holiday, let your Conoco Mileage Merchant check and service your car. Above all, be sure he drains out contaminated old oil and refills with fresh, clean Conoco Nth Motor Oil.

That's the surest way we know to leave worry behind. Because the moment Nth Oil (Patented) enters your engine, an extra, added

film of lubricant fastens itself so closely to metal that cylinder walls are actually OIL-PLATED! Because OIL-PLATING stays up... won't all drain down, even overnight, you're extra-protected against destructive "dry" friction, against metal-eating combustion acids, against power-choking sludge and carbon due to wear.

For an extra-happy holiday...

Make a date to OIL-PLATE!

Through the years since 1924

A collection of your electric service bills from Southwestern Public Service Company since this company was started in 1924 would tell an interesting story.

For example, you'd see that today your electric service costs just about one-half what it did a few years ago.

Your electric service statements would tell a story of increasingly better living. You'd probably remember when you purchased your first radio, your electric refrigerator, started depending on electric service to make household tasks easier, and remember too how much more low cost electricity you're using today for better living—everyday.

Our 24-year story is a story of growth on our part, but more than that, it is a story of ever increasing benefits, in the way of better living, to all the folks we serve in the Panhandle Plains, Pecos Valley area.

SOUTHWESTERN PUBLIC SERVICE COMPANY

JOHN VAUGHAN'S RECEIVE LETTER FROM MEXICO

The following letter was received by Mr. and Mrs. Vaughan, which is self explanatory:

Amistad, New Mexico,
August 11, 1948.
and Mrs. John Vaughan,
Laque, Texas.

Dear People:
I know you will wonder who I am but I just couldn't resist writing you when I read of you celebrating your golden wedding.

Bro. Carr being the minister who married you. We also married us 32 years ago coming Christmas Eve and only lived three weeks after that. We were the last ones he married as he became sick almost immediately after the ceremony.

He was a grand old man. I don't know how much you knew of the old but if you didn't know him and would like to know about them, I can tell you. I have a scrap book and I intend to put your picture and the clipping of your letter in it because it has his name in it.

Would like to know you both. I live in New Mexico 50 miles north of Clayton. But have only been here four years. I was raised in Floyd County, near Floydada and that's where we knew the Carr's. Would enjoy writing from you if you feel like writing.

Best regards,
MRS. JIM BAGWELL.

View of the partially completed loading docks and pens at the new Amarillo Stockyard. This photograph shows the concrete post and oak panel construction of the pens and the incomplete hard surface that is to be installed in approximately half the pens. Also shown at the left of the picture is the rear of one of the administration buildings and the Fairbanks-Morse Scale that will be used to receive cattle at the yard.

AMARILLO STOCK YARDS NEAR COMPLETION

The new and very modern Amarillo Stockyards is nearing completion and should be in operation sometime in September.

J. D. Amend and Paul Higgs, well known cattlemen of this area, have selected an ideal location for their yard, Northeast of Amarillo at the junction of Highway 66 and 136, the Fritch Oilfield Highway. In addition to the easy availability to truck traffic, the new yard will be served by SPU tracks from two railroads, one from Santa Fe, and one from Rock Island.

The new operation will feature Commission Firms, with alley sales daily, a sales ring, and facilities to feed, water and rest any size shipment of cattle, whether by rail or by truck. The sale days for the sale ring will be announced as soon as construction has been completed.

The sales pavilion will be spacious, well ventilated and will have comfortable seating arrangements.

Pens will be "bull proof," constructed with concrete posts and oak panels, making the yard as nearly fire-proof as possible. Fresh running water will be available in every pen in concrete troughs and large feed bunks are being built-in in all pens. As an added feature, approximately half of the pens will be hard surfaced to keep cattle out of the mud in wet weather. Concrete alleys are being built around all of the pens for the convenience of the stockmen and buyers, and as an added precaution, the entire yard is built with two way grading to permit adequate drainage.

Upon completion, the units under construction will allow the easy handling of up to eight thousand head of cattle at any one time, and plans are underway to increase this capacity as the need warrants the expansion.

The Amarillo Stockyard owns two hundred acres of land at the site of the new yard, and inquiries have been received from two meat packers with reference to securing locations for packing plants. It is the aim of the owners of the Amarillo Stockyards to establish a central market in Amarillo to serve the surrounding territory in a comparable manner to other central markets throughout the country.

Two modern buildings will house the various offices and there will be comfortable waiting rooms and facilities for visitors and customers.

The personnel to operate Amarillo Stockyards is being "hand picked" by Amend and Higgs. Their aim is to get the top hands to handle the various jobs, thus assuring the shippers and buyers of safe, efficient, prompt, and fair handling of all cattle.

This new stockyard is geared

to handle the needs of a five-state area including New Mexico, Oklahoma, Kansas, Colorado, and Texas.

This Emblem Identifies
Great Trucks

Here are 3 things we want all our Customers and Friends to know

1. International Harvester recently announced price reductions on 12 models of International Trucks and on certain attachments. In announcing its price reductions, International Harvester said: "Any price is too high if it can be reduced."

We are backing Harvester's price policy 100 per cent. Note this delivered price on one model International Truck:
KB-5—159 in. w. h.; 7.50-20 ten-ply tires—and cab.
Price delivered here \$10,000.00

2. Our customers and friends have been patient and cooperative while waiting for new trucks. We want them to know that we appreciate the fine spirit they have shown.

3. The high standard International Truck maintenance service we furnish has kept old trucks operating, and has kept the operating costs of those trucks down. That high standard maintenance service continues. We urge all truck operators to use it. That way they'll keep old trucks in shape until new ones can be supplied.

Yes sir, we're backing International Harvester prices, service and policies 100 per cent. For delivered prices of new International Trucks—for top quality service for your present trucks—see us promptly.

"We Appreciate Your Business"

FOR COKE

I, am for Coke Stevenson for U. S. Senator, because of his faithful service, well performed. As County Attorney, County Judge, State Representative, Lieutenant Governor and as Governor he was true to the trust imposed on him. As State Representative he did a great service in defeating the proposition of voting State Highway Bonds, but in that fight he protected the interest of the counties in securing the approval of the plan for a part of the State Highway Fund, to be used in payment of the county road bonds, outstanding at the time. He secured the passage of a bill creating the office of State Auditor, he also had revised and improved the system of bookkeeping in the State Treasurer and Comptroller offices, and much other good work. As Speaker of the House, and as Lieutenant Governor in presiding over the Senate he made a very efficient officer and kept the legislature working in harmony, and secured the passage of bills aiding agriculture, protecting the rights of labor, greatly increasing the social security benefits, old age pensions, education and improving and bettering State Highways.

As Governor—well he was one of the best since Jim Hogg. When he went into office as Governor the State general fund was over thirty millions in the red, when we went out that fund was over thirty five millions to the good, and that was done without increasing taxes or impairing any needed services, but the addition of many increased benefits. During the war he cooperated with the Federal Government in all matters necessary to the successful prosecution of the war. In his first address as Governor he said, "Our great President shows determination to resist every force of aggression and conquest which threatens the liberties we enjoy. Texas is a vital part of this aroused nation. It is incumbent on every citizen of Texas to support our Commander in Chief in the defense of our rights, our ideals, our standards of living and our fundamental principals."

He is not an isolationist, and is for strong preparedness. He is a sound and strong constitutional lawyer, standing strong for our State's rights; guaranteed to us under the Federal Constitution. When he heard about Pearl Harbor he said, "I am willing and anxious to cooperate with our Federal Government in every way possible in this crisis." Yes he is calculating, and that is well in this day and time to have a Senator, who can and will carefully calculate the result of each bill before Congress, study the effect of each, carefully decide what is right, and then stay with it, measuring each bill by the Constitution. In talking about the Constitution he says, "This great law is the chart of human rights and liberties, the compass by which to steer the ship of state."

His opponent during the last two or three years has voted three times against bills that were introduced to control communism, Coke will never be guilty of such action, but will do all he can to stamp out that great menace to our very life and liberties. Nor has HE ever been charged with being a "yesman" and never will be a yes man for any one person or for any corporation or association of men; but will make up his mind after careful consideration of all sides of a question and then back it to the limit.

When he went out of office in January, 1947, Stevenson following the Texas custom which dictated that an outgoing Governor shall mark a passage in the Bible for the attention of his successor. The passage he marked was significant. It was the fifteenth verse of the second chapter of II Timothy: "Study to shew thyself approved of God, a workman that needeth not to be ashamed, rightly dividing the word of truth."

This shows some of the reasons why I am for Coke, why I think he is the man we need in the Senate, he stands for what is right, will do the square thing, will work for all and will not do anything that we need be ashamed of, we will be glad and proud to say to anyone anywhere, "Yes Coke Stevenson is our Senator and we are proud of him." Lets all go to the polls Saturday and vote safe. VOTE for COKE.

DOYLE HUNTSMAN, MANAGER

AGAINST COKE

After spending a great part of ten years in Austin observing Coke's actions in his offices as Speaker of the House, Lt. Governor and Governor.

Here are some of the reasons I am voting against him. He was one of Jim Ferguson's henchmen for years. Ferguson managed both his campaigns for Speaker.

He is always on the "Special Interest" side. Quoting the Houston Press, "Mr. Stevenson is by nature and by choice an isolationist," this is no time for an isolationist in the Senate. He pardoned and paroled more convicts than even Jim Ferguson. He is trying to ride both sides of the fence on the Taft-Hartley Law. He refuses to say whether he will vote for a repeal or not. He refused to cooperate with the L. C. R. A. He is one of O'Daniel's cohorts. When we were in the war he refused to cooperate with the Federal Government on the rationing program, he was the only governor that refused to cooperate.

These are only a few of my reasons for voting against him. C. R. PENNINGTON.
(Political Adv. paid for by C. R. Pennington.)
