## BOY SCOUTS SWIMMING POOL

Pictured above is the new dam which has just been completed on Camp Mamie Haynes of the Boy Scouts of America. Camp Haynes is located about 13 miles Northeast of Silverton. The new dam is approximately 150 feet long—110 feet thick at the bottom and approximately 30 feet high. Water backed up by the dam will provide an excellent place for the Boy Scouts to swim and fish next summer. Mr. Henry Teubel of Tulia, and Mr. John Haynes of Silverton, initiated and pushed the project through to its completion.

## Farm Elections And Democracy

### Palace Theatre Showing Babe Ruth Story Nov. 14-15

The true story of Babe Ruth and how he built the Yankee stadium. This picture shows the Babe played by William Bendix, Co-starring Claire Trevor. If you want to see a real picture that you will enjoy, and that has some very good entertainment, be sure and see the "Babe Ruth" story, Sunday and Monday, November 14-15 at the Palace Theatre.

### NEW TELEPHONE OPERATOR

Mrs. Ida Marie Jewett has been employed by the Southwestern Associated Telephone Company as telephone operator of the local office. Mrs. Jewett assumed her job Saturday morning. She comes to Silverton highly recommended as an operator, having worked in Houston, Texas, for quite some time. She succeeds Mrs. Irene Lightbourne who was operator.

### RELIGIOUS PICTURE TO BE SHOWN AT BAPTIST CHURCH NOVEMBER 14th

Rev. G. A. Elrod, pastor of the First Baptist Church announced this week that Sunday night, November 14, at the First Baptist Church, at 7:30, Henry McMinn, of Levelland, will show a religious picture. Everyone is invited to attend.

Johnnie Quillan underwent an operation last week in the Osteopathic hospital in Amarillo for appendicitis. His wife and mother Mrs. Kate Fowler was with him. Mrs. Fowler returned home the latter part of the week. He is reported to be doing nicely.

Mrs. Jim Bomar is employed at the Briscoe County Hospital and Clinic.

Mrs. Tommie Lucas, Mrs. A. U. Livingston and Miss Irene Livingston, of San Berden, California, visited over the week end with Mrs. Elmer Livingston.

Mrs. Fred Porter, of Amarillo, spent Thursday with her mother, Mrs. J. W. Haynes, and brother, Mr. and Mrs. Shelby Haynes and family.

Mrs. W. L. Long, of Lockney, and Miss Lucy Crum, of Floydada, visited Sunday afternoon with Mr. and Mrs. M. B. Cavanaugh.

Mr. and Mrs. Bud McMinn and Fay, visited Sunday with Mr. and Mrs. Paul Ledbetter.

About the easiest way for us farmers to lose the voice we have in the administration of the farm program is for us to neglect to use that voice, says B. F. Vance, Chairman of the Texas Production and Marketing Administration Committee.

"Under present legislation we can elect the committeemen who administer the farm program locally. We can elect the delegates to the county convention where the county committee is elected. From these county committees comes the leadership for the county committees. These county committees in turn are furnishing the leadership for the State Committees. Again from the State Committees of the country comes the leadership for National administration of the farm program.

Ahead are vital decisions having to do with price support and soil and water conservation, the chairman points out. "That is why it is so important for the committeemen elected in the communities and counties to be the choice of the majority of the farmers in the communities and counties of the country."

All Texas farmers, who are eligible to vote, should participate in the elections, he urges. Failure to vote may mean that the committee elected will represent but a small portion of farmers in the community. "You are helping to elect a committee whether you vote or not and you may be helping to elect the committeemen you don't want, if you fail to vote," Mr. Vance said.

"Unless the going is real rough there is a tendency to let such things as elections and similar responsibilities slide. It is when we neglect our rights that we lose them."

All farmers who are participating in the 1948 Agricultural Conservation Program, Sugar Program, or who had a contract with the Federal Crop Insurance Corporation for this year, are eligible to vote in these farm-committee elections. Notices of elections will be posted before elections are held in each community.

### GIRL SCOUTS ANNOUNCE PIE SUPPER NOV. 16

The Senior Girl Scouts are making the announcement this week that they will give a pie supper, Tuesday, November 16, at 8 o'clock at the High School Auditorium. Everyone is invited to attend and urged to bring a pie.

Mr. and Mrs. Judd Donnell and children, visited Mr. and Mrs. Bill Bingham in Canyon Sunday.

## Heel Flies Cause Damage and Discomfort to Cattle.

A great deal of progress has been made during the past five years in controlling heel flies, reports Leo White, County Agent. Some farmers have completely eradicated these pests from their places by using rotenone during the winter. Heel flies are killed while they are grubs in the backs of cattle. The most common method of killing these grubs is to dust the backs of the cattle with a powder containing five percent rotenone and rub it with the hands to scatter the powder evenly over the backs of the animals. White says that the first application of dust should be applied when the first grubs are changing color. The grub turns brown before it emerges from the back and falls to the ground to spend the remainder of the winter. The grubs usually appear in the backs of animals in November and some of them remain until the latter part of February. The first grubs begin to change color in December. Three treatments at two week intervals will do a pretty good job. There is no need to treat an animal unless the grubs can be felt in the back because the rotenone causes the grubs to emerge before maturity and die. The most encouraging fact about heel fly control is that a heel fly seldom travels more than a half of a mile from where it is hatched. This makes it possible for one man to clean up his herd and get very little reinfestation from his neighbors. Heel flies cause lots of damage and discomfort to animals that should be stopped.

### American Legion Auxiliary Poppy Sale Proved Satisfactory

The American Legion Auxiliary Poppy sale last Saturday was a success due largely to the girl scouts who gave their services. The Scouts who helped with the sale were: Kay Steele, Mary Dudley, Mildred Marshall, Mildred Bean, Faith Smith, Ann Brown, Patsy Crass and Wayma Calloway. The Auxiliary wishes to express their appreciation to these girls and the community for making our sale a success.

### ATTEND LUNCHEON IN LUBBOCK WEDNESDAY

Mrs. G. R. Dowdy and Mrs. Alvin Jackson spent last Wednesday in Lubbock where Mrs. Dowdy attended a luncheon in the home of district 9 W. M. U., president, Mrs. R. E. L. Pattillo, honoring the eight associational W. M. U., presidents.

Mrs. A. H. Chappell is a patient in the Silverton Clinic and Hospital this week. Her husband said she was improving nicely and would be home in a few days.

Mrs. Grady Adcock visited her mother, Mrs. R. L. Livingood and sister, Mrs. C. L. Medford, at Haskell, Texas, over the week end.

Mr. and Mrs. Billy Mack Biffle and daughter, Linda, of Levelland, spent the week end with her parents Mr. and Mrs. B. N. Mason.

Rev. Grady Adcock spent the week end with his mother, Mrs. J. W. Adcock, at Lamesa.

Mr. and Mrs. Seymour Brannon and son, Mr. and Mrs. Richard Hill were dinner guests Sunday of Mr. and Mrs. Walter Brannon.

Mr. and Mrs. E. H. Cox and Miss Mary Lou Wise, of Floydada, visited Sunday with Eddie and Eunice Cox.

Mrs. Berta McDonald, of Amarillo, is visiting Mr. and Mrs. Clay Fowler this week.

Mr. and Mrs. Tommy Wyrick and daughter, Carolyn, of Hereford, visited Sunday with Mr. and Mrs. Ralph Lemons.

## BRISCOE COUNTY CLINIC AND HOSPITAL AT SILVERTON

The above picture is the Briscoe County Clinic and Hospital built at Silverton, through the efforts of the business people and citizens of Silverton and surrounding community. The hospital was built by donations. The structure is of lumber construction with stucco outside, and is modern in every way. The clinic is operated by Dr. J. M. Shy, of Quitaque, who has moved to Silverton since the hospital was completed.

## Happy Cowboys Vs Silverton Owls Will Play At Tulia Friday 2:30

The Silverton Owls jumped on the Lakeview Eagles and romped to a 31-13 win. However, the owls are destined to run into trouble Friday, November 12, at 2:30 in the afternoon at Tulia when they face the Happy Cowboys.

Donald Rhea led the scoring for the Owls racking up four touchdowns and tearing off considerable yardage through the Lakeview ranted defense. Spectators that came to see Jett Mason tear loose on one of his long touchdown jaunts thought they were going to have to go home without seeing it, but late in the fourth quarter Jett tore through the line and bolted 85 yards to score. Extra points were made by Jett Mason and Don Burson.

Outstanding linemen were Walter Bean, Flute Hutsell and Cliff Beardson. The blocking for the Owls was somewhat improved over recent games but the defense was ragged and leaky as the Eagles poured through time and again.

The Happy contest is the last regularly scheduled game for the Owls. Should they win this one they will clinch a tie for the district championship. Then if Happy beats Kress the district will be tied up between Happy, Turkey and Silverton, the regional representative being decided by a flip of the coin.

The so called experts do not give the Owls much of a chance to beat Happy but the Silverton boys have different ideas. Sporting from their win over Lakeview, the boys feel like nothing short of Notre Dame could stop them. A high spirited team is hard to beat no matter how high the odds stack up against them. However, the smart money is going on Happy to win by three touchdowns.

### SILVERTON SCHOOL TO OBSERVE ARMISTICE DAY WITH HOLIDAY

The Silverton Public School will dismiss Thursday and Friday to observe Armistice Day. School will open Monday morning, November 15th.

### ATTEND STATE BAPTIST CONVENTION AT HOUSTON

Rev. and Mrs. G. A. Elrod, Mrs. G. R. Dowdy and Mrs. Alvin Jackson, left Sunday afternoon for Houston, Texas, where they will attend the Baptist State Convention which convenes in that city this week.

Mr. and Mrs. Jim Clemmer and children visited their daughter, Mr. and Mrs. Romalee Swindle at Hart Sunday.

Mr. Bill Hardin was in Tulia on business Saturday morning.

### Abner W. Wimberly Is Buried at Tulia Wednesday Evening

Funeral services for Abner W. Wimberly were held at the First Baptist Church in Tulia Wednesday afternoon at 2:30 o'clock with Rev. C. G. Sewell of Tulia and Elder Earl Cantwell of Silverton, officiating. Pallbearers were Orbaelee Baker, Buster Sadler and Hoyt Crow of Tulia, Warneed Deed and James Savage of Silverton, and Tom Daniels of Floydada.

Abner Winston Wimberly was born October 11, 1906 near Portales, New Mexico. He was the son of the late Abner Cooper Wimberly and Ova Wimberly, early pioneers of this section of the Plains. He spent the greater part of his childhood near Silverton and lived in that town for several years.

Abner attended the Tulia Public High School from which he was graduated. He was converted and joined the Baptist Church at the age of 16. He volunteered his services to the National Guard for one year just prior to the recent World War and spent two years in the Medical Corp of the army during the war. He has resided in Dallas for the past two and one-half years where he died on November 1, 1948 of pneumonia.

He leaves to cherish his memory his mother, Mrs. A. C. Wimberly of Tulia; one daughter, Peggy Wimberly of Plainview; two sisters, Mrs. L. G. Conner of Tulia and Mrs. Townsend Douglas of Amarillo; two brothers, Carl Wimberly of Canyon and Clifford C. Wimberly of Vega.—Tulia Herald.

### MOVED TO LOGAN, NEW MEXICO

Mr. and Mrs. C. P. Hood left Sunday for Logan, New Mexico, to make their home. Mr. Hood will be employed by A. R. Northcutt on his ranch. Mr. and Mrs. Hood visited the first part of the week in Oklahoma with relatives.

Roy Coffee, of Coffee Dry Goods spent the early part of the week in Dallas attending wholesale market.

Mr. and Mrs. Clyde Lightsey spent last week end in Amarillo with his sister Mrs. Grace Irion. Misses Lala Graham and Miss Opal Cross, visited friends in Silverton recently.

Mrs. A. A. Howard is visiting her daughter, Mr. and Mrs. Bill Cannon at Cotton Center this week.

Mr. and Mrs. George Seaney, Mr. and Mrs. H. R. Brown and James Roy, Mr. and Mrs. Ben O. King, were Plainview visitors Sunday.

### Dr. S. H. Condron to Speak at School Thursday, Nov. 18

The patrons of Silverton Public School will be glad to know that Dr. S. H. Condron of West Texas State College at Canyon, will speak at the high school auditorium on Thursday, November 18, at 7:30 o'clock. Dr. Condron, an outstanding lecturer and authority on world affairs, will talk on the international situation.

All patrons of the school are invited to attend and to remain after the lecture to discuss the organization of a Parent-Teachers Association.

### VISITING IN CALIFORNIA

Mr. and Mrs. J. T. Neese left Monday for Strathmore, California, where they will visit sometime with their son, Mr. and Mrs. G. R. Neese. They were accompanied by Mrs. Milton Perry who will visit her son, Mr. and Mrs. Otho Perry at San Bernado, California, and Mrs. L. C. Yates will also visit relatives.

### Legion Auxiliary Met Thursday With Mrs. Alvin Redin

The American Legion Auxiliary met Thursday, October 28, in the home of Mrs. Alvin Redin. A very interesting program on The Memorial flower, the poppy, was presented. The next meeting of the auxiliary will be held on Thursday, November 18, at 7:00 p. m., in the home of Mrs. George Seaney. The program will be on National News and the roll call will be current events. All members are urged to be present at this meeting.

### T. E. L. CLASS MET FRIDAY

The T. E. L. Class of the First Baptist Church met Friday in a business meeting at the home of Mrs. R. E. Stephens, with twelve members present.

Elmer Beavers of the J. A. Ranch visited his parents, Mr. and Mrs. Dewey Beavers Sunday.

Mrs. W. B. Hodges left Sunday for her home at Jacksonville, Texas. Mrs. Hodges has been visiting her husband who is building the Grady Wimberly home. Mr. Hodges is Mrs. Wimberly's brother.

Mr. and Mrs. John Vaughan visited Mr. and Mrs. Jack Williams at Haskell Texas, over the week end. They also visited Mrs. Adcock's mother, Mrs. R. L. Livingood, who is ill while in Haskell.

Claude Witherspoon, of Plainview, was a business visitor in Silverton Wednesday.

### H. C. Doak Observes 90th Birthday at Granddaughter's

The following relatives and friends from Silverton attended a birthday dinner Sunday, November 6, given in honor of H. C. Doak by his granddaughter, Mrs. George Olson and Mr. Olson, at their home near Hereford, Texas; Mr. and Mrs. R. E. Brookshire, Mr. and Mrs. Jesse Hill and little granddaughter, Lajuan, Mr. and Mrs. A. L. McMurtry, and J. S. Brookshier.

Mr. Doak who resides at Hereford formerly lived in this community for many years. "Pa" Doak as he is affectionately known to his friends, was ninety years "young," is well and quite active for one of his age. He is the father of Mrs. R. E. Brookshier, of Silverton. Other daughters are Mrs. V. R. Gardner, Sr., of Tulia, Mrs. Ira Woolery, of Hereford. His son E. E. Doak, of Hereford, was also present to enjoy the day with their father as was several grandchildren.

Many other relatives and friends enjoyed this happy occasion and the bountiful dinner. When they departed late in the afternoon expressed the wish that "Pa" will pass many other milestones before reaching the end of life's journey.

### H. E. EUBANK SOLD FARM TO R. C. BURLESON OF LUBBOCK

H. E. Eubank has recently closed a deal on his 160 acre farm located three and one-half miles north of Silverton to R. C. Burleson, of Lubbock. It is not known if Mr. Burleson will move to the farm. He is in the real estate business in Lubbock, Mr. Eubank stated.

Mr. and Mrs. Eubank are busy getting their business in shape to move. He has considerable feed yet to harvest before leaving. They have not announced their future plans.

### Silverton Pharmacy Installing New Soda Fountain Today

The Silverton Pharmacy have received a new stainless steel soda fountain at their store, and are installing it this week. The old fountain is being move out, and the new, modern fountain is taking its place. Workmen will probably complete the installation by the latter part of the week.

### R. L. BREWER DISTRICT MANAGER OF TELEPHONE CO. HERE ON BUSINESS

R. L. Brewer, district manager of the Southwestern Telephone Associated Company, of Memphis, Texas, was in Silverton last Saturday attending to business.

## Egg Laying Contest Off to Good Start Reports Ted Martin

Already a month old, the Texas Farm and Home Egg Laying Contest is off to a good start, reports Ted Martin, extension poultry husbandman of Texas A. and M. College.

There are 394 entries in the contest with nearly 122 thousand birds on the records. There is no upper limit, but all entries must have at least 100 birds to enter. According to the entrance applications, the size of the flocks range from 170 to 7,500 birds. The average number of birds in all flocks is 331.

Single Comb White Leghorns top the list of breeds with 269 flocks out of the 394 entered. The total number of Single Comb White Leghorns in the contest is nearly 95,000 birds. After the White Leghorns come New Hampshire, White Plymouth Rock and Austra-White in the order named. entered in the contest, but the number of flocks is small and there are very few birds per flock.

All sections of the state are represented in the contest and there are 89 different counties

with all the heavy poultry producing areas represented.

Here are a few figures Martin worked out on the contest. If each hen in the contest requires 70 pounds of feed—and that's an average—over eight and a half million pounds of feed will be used by nearly 122 thousand birds. And, if that many chickens lay 150 eggs each, there will be over eighteen and a quarter million eggs produced in the contest.

October 1 was the kick-off date, and the final gun won't sound until July 31, 1949. There are fifteen cash prizes ranging from \$100 to \$10. First prize is \$100, second is \$75, third is \$50, fourth is \$35, fifth is \$25, sixth is \$20, seventh is \$15, and the next eight prizes are \$10 each, said Martin.

"Texans never brag," said Martin, "and until some state comes forth with proof that they have more laying flock demonstrators than 394 with a total of 121,801 birds, we are going on record as having the most."

This year's Texas crop of alfalfa seed is estimated at 35 thousand bushels, thresher-run, the fourth largest crop on record.

TRY A NEWS WANT-AD

## Experts Say Texas Cattle Are Facing Hard Winter

Texas cattle, both beef and dairy, face a hard winter.

In average years cattle enter the winter months in good shape after feeding on green grass. This year, however, many cattle are already suffering from a lack of the green feed. There just isn't any to be had.

Many cows that are now carrying calves may not be quite up to the task of giving birth and taking care of their young, says Dr. W. C. Banks, extension veterinarian of Texas A. and M. College.

Banks suggests that stockmen plan a good feeding program for the cattle. In addition to protein feeding, plenty of good quality hay should be kept on hand. And, if possible, hay with a good, green color is recommended. If you can't get green hay, Banks suggests getting some other source of vitamin A to add to the ration. Your local veterinarian can give you the names of several commercial sources of vitamin A or you can give the cattle a dose of some kind of cod liver oil.

Only in a well planned feeding program, can we expect to keep down the death losses of both cows and their calves, says Banks.

## Specialist in Field Of Rural Recreation Has Been Created

The appointment of a specialist in the field of rural recreation has been announced by Dr. Ide P. Trotter, director of Texas A. and M. College Extension Service.

She is Dorothy Lee Brightwell, from Alvin (Brazoria county), a

former teacher in Rosenberg schools and officer in the U. S. Navy WAVE's.

"Her position on the headquarters staff of the Extension Service is a new one, created to fill the need of farm and ranch families for guidance in recreation activities," Dr. Trotter said. "She will work with boys' and girls' 4-H clubs and also with the adult recreation program."

Miss Brightwell received a BS degree from Texas Christian University in 1937 and an MA from Columbia University Teachers' College in 1948. She entered the Navy in 1943 as ensign and served as assistant welfare and recreation officer on three primary training air stations in the United States and for the Fleet Air Wing Base in Hawaii. She was discharged in 1946 as lieutenant.

Since then, she has been on the staff of the Council of the Girls' Friendly Society of the diocese of New York, while attending Columbia University Teachers' College.

Her appointment was effective November 1 and her headquarters are College Station.

Texas has 394 entries in the Egg Laying Contest representing nearly 122 thousand birds. If each bird lays 150 eggs during the year of the contest, there will be over 18 and a quarter million eggs produced in the contest.

In 294 households where the laundry was done at home the time spent on the job ranged from less than three and a half hours to more than nine and a half hours. A hundred of these families—or 34 per cent—of them reported between five and a half to seven and a half hours spent each week in laundering.

## Mrs. Conrad Alexander Honored With Pink and Blue Shower

On Saturday, November 6, Mrs. Conrad Alexander was honored with a pink and blue shower at the home of Mrs. Dee McWilliams. Hostesses being Mrs. Arnold Brown, Mrs. L. D. Griffin, Jr., and Mrs. Dee McWilliams. As the guests arrived they were asked to register in the Log of Life presided over by Mrs. Gatewood Lusk. They then proceeded to the lovely shower room where Mrs. L. D. Griffin displayed the gifts and introduced the guests to the honoree's mother, Mrs. M. C. Rampey, and to Mrs. Gordon Alexander.

Refreshments were served from a beautifully appointed lace covered table presided over by Miss Geraldine Rampey, sister of the honoree, and Miss Dorothy McMurtry.

Pink and blue the appropriate colors were used in the centerpiece which was a revolving miniature merry-go-around covered by a canopy of blue net from which lovely white mums fell into a shower of small toys and animals filled with white and pink carnations.

Approximately fifty guests called from three to five o'clock, including one of the towns most fashionable ladies, "Mrs. Jack Strange" and her escort Cecil Seaney.

## Thelma Mercer Fulton Named in Who's Who

Thelma Mercer Fulton of Silvertown was one of 17 students named to Who's Who in American Colleges and Universities this year.

A music major, she is a member of Alpha Chi, national honorary scholastic fraternity, the college choir and girls, sextette, Gamma Phi, social sorority, performed with the Variety Show last year and sang with the swing band.

Students were presented with a certificate of membership in assembly Thursday of this week by Miss Edna Graham chairman of the Who's Who committee. They will be pictured in a section of the college yearbook, Le Mirage. Representatives from 600 colleges and universities are selected for Who's Who each year.

At the present time, 42 of the 48 states have artificial dairy breeding associations in operation.

Because of Texas' long dry spell, cattle are faced with poor pasture and range conditions. They'll need plenty of protein feeding and lots of good, green hay if it's available. If there is no good green hay, the cattle will need some vitamin A.

A number of gifts were received from several parties who were unable to attend.

Discounting the possibility of war adverse weather conditions, the 1949 prices of most commodities from Texas farms and ranches are expected to average slightly lower than the prices of 1948.

**Plane With Radical  
Wing Design Makes  
Successful Flight**

HAGERSTOWN, MD. — An aircraft with wings like two halves of a barrel cut lengthwise made its first successful flight, Willard R. Custer, inventor of the strange machine, said.

The craft uses what is known as the "Custer channel wing." Eventually it will have two straight wings along with the semi-circular airfoils but Custer said the device is being flown with only the channel wings to demonstrate that they alone can lift it.

The pilot on several short, straight flights at Municipal airport was Frank D. Kelley, commercial photographer.

The plane has two 75-horsepower engines set on spars across the top of the two semicircles. The propellers are at the trailing edge of the channel. They draw air through the channel, giving the effect of high forward speed even when the machine is standing still.

Because of that, Custer said, the plane is able to rise almost vertically. He said the plane took off at a speed of about 30 miles an hour and rose very sharply. Because of the radical design and necessity of acquainting himself with the strange ship, Kelley went up only 15 feet or so on the first flight, Custer said.

The plane has no brakes. Take-off, flight and landing must be done within the length of a single runway until the machine can be maneuvered for a circuit of the field. This probably will not be done, Custer said, until straight wings are added outboard of the channels.

Custer, a former automobile mechanic, has been working on the invention at his small chicken farm west of here for 10 years. More than \$200,000 has been invested.

**English Dignitary Defies  
Tradition, Speaks Frankly**

ST. PAUL'S CRAY, ENGLAND.—British dignitaries, when called upon to launch new public building projects, traditionally dig up a few inches of soil and then proclaim:

"I declare this sod well and truly turned."

London Councilman I. J. Howard, launching a 22-million-dollar housing project here, jabbed and twisted futilely with a chromium plated spade and finally gave it up with a disgusted:

"I could'a done better with a pick."

**Loan Shop Owner Discovers  
Bargain Furs Are Expensive**

INDIANAPOLIS, IND. — Max Sacks was sad. Those two \$250 fur scarves he bought for \$30 each had been such bargains too.

Detective Sgts. George Hubbard and Ernest Hughes said Sacks, proprietor of a loan company, told them a man came in some time ago offering a scarf he said was worth \$250 for \$30. Sacks bought it. Some time later the same man came back with another—also valued at \$250.

The scarf man returned to the loan company a third time. Sacks, suspicious, whispered to the detectives, who were in his office. They arrested the man on a vagrancy charge.

Detectives listened to his story and then arrested his former wife on a vagrancy charge. Sacks was surprised when he learned her identity.

The woman, he told detectives, was his employee and the scarves he had bought were from his own vault.

**Nature's Moods Overcome  
By 'Manufactured' Weather**

TOLEDO, OHIO.—Known in industry as temperature and humidity, weather can affect the quality of dozens of items of every-day use, from candy to coffee and sweaters to shower curtains, but industry has a way to beat Mother Nature's moods.

Production men call it "manufactured" weather.

Without it, the processing of beans in Boston, nylons in New York and gasoline in Galveston can be thrown off balance by such tricks of the weatherman as excessive dampness, a sudden cold snap or even a hot, dry spell. A case in point, the tobacco industry must minutely control the atmosphere in factories and warehouses and many textiles and plastics can be processed only under ideal temperature and moisture conditions.

**Woman, 90, Marries Suitor,  
37, Before Capacity Crowd**

MOIRA, N. Y.—Mrs. Eliza Murray, believed to be over 90, and 37-year-old Clarence McGee were married before a capacity audience in the Methodist church here.

Both are residents of Brushton, a small northern New York village about two miles from here near the Canadian border.

The bride gave her age as 80 for the marriage license, but her son James, who is 68, said she was "over 90."

The bride has three living sons and daughters. Her first husband, Charlie, died at the age of 98.

**Father Searches  
Borneo Bay for  
Body of Soldier**

WALDOBORO, ME.—A gray-haired dad came home after traveling around the world and told his motherly little wife he thought he'd found the body of their long-lost soldier son—buried in a plane's wreckage beneath a Borneo bay.

Many months and many dollars ago John Foster set out from his Down East cottage to seek his boy, Donald, 21, missing and presumed dead by the army after vanishing aboard a Liberator bomber October 22, 1944.

Ironically, it was a Japanese war prisoner—a member of the race his son was hunting—who led Foster to the wreckage under the sea near Balikpapan, Borneo, which Foster believes hides his boy's remains.

**Sure of Location.**  
"I'm sure that's where my boy lies," said Foster with a trace of huskiness in his throat. "Harry Belcher, who used to be a flight lieutenant and now is a civilian government employee at Manila, is working to have the plane raised. When it is I'll know."

"I met several other people whose sons are missing around Borneo. We might organize three or four families to go there to find their sons."

This has been a quest of hazardous headaches for the 55-year-old former Massachusetts businessman who had hoped to find peace in this village when he retired.

"I'm going to find our boy," he said as he set out. He said it with a quiet sureness that silenced friends and government officials who tried to dissuade him.

In his pocket was only meager information, based on army records concerning the lost plane's scheduled flight and personnel. But with this he flew to Australia and on to Asia.

**Travels Through Mountains.**  
He journeyed south through jungles and over mountain peaks, meticulously following scores of false threads, painstakingly checking each faulty tale.

He slept in huts and under the stars on a dozen steaming jungle islands, risking the perilous wilds of the South seas.

Then on Borneo came the first real clue from the unnamed Japanese who told of seeing a B-24 macassar straits. The tale jibed with sketchy government records so Foster went to the spot and there with the help of new-found friends he found the splintered wreck.

So Foster came home through India, Egypt, Italy and the British Isles, his heart a little more at ease.

What will he do if the wreckage yields the body of his son? Not sure yet, the father said, but perhaps they'd bring the lost lad home to rest beneath the Waldoboro pines.

**Hospital Holds No Terror  
For Dogs; Comfort Assured**

ARDMORE, PA.—Dog days should hold no terror for the pampered pet that is lucky enough to be sent to the veterinary profession's newest gift to the animal kingdom, a hospital here that is completely air conditioned.

Designed by Dr. Otto Stader, chairman of the building committee of the American Animal Hospital association, the hospital contains newest scientific equipment for treatment of all ailments that beset small animals.

Conditions of comfort best suited to rapid recuperation are provided by complete atmospheric control. A system designed by engineers of Minneapolis - Honeywell Regulator company keeps temperatures 10 degrees cooler than that outside and maintains relative humidity at 45 to 50 per cent—a level that should arouse envy of city dwellers in the summer.

Dr. Stader said that the optimum of comfort was important, especially for his animal patients that undergo major surgery, such as caesarian, appendix and brain operations. He built the Ardmore hospital as a model laboratory for the modern veterinarian.

**Biologist Identifies Queer  
'Sea Serpent' as Rare Shark**

SANTA BARBARA, CALIF. — A strange-looking relative of a sea serpent fished out of the ocean near Point Arguello has been identified as a Chlamydoselachus Anguineus by Dr. Elmer R. Nobel, chairman of biological sciences of the University of California here.

It is called a frilled shark because of frilled edges to its gill slits. It is said to be the first of its kind ever caught off North American coasts.

The fish was caught by Pete Metson in one of the nets from his fishing boat. It was put on ice and placed on exhibition at the Museum of Natural History where hundreds of people have seen it.

Dr. Nobel said there are about 17 specimens of the frilled shark in American museums but all have been shipped to this country from European coasts.

He said the frilled sharks normally dwell on the bottom of the sea and feed on squids.

**Texas Tech Co-Ed  
Has Short Hair and  
Tubular Skirts**

The typical co-ed at Texas Technological college this fall has short hair and wears tubular skirts, preferably grey, brown or green, of corduroy, jo sweaters and has a boxy coat.

Facts concerning the dress of the Tech co-ed while on the campus were compiled in a fashion count by a group of home economics students enrolled in textile merchandising.

Results of the fashion count indicate also that the majority of married co-eds are wearing hose to classes. About 34 per cent of all women students are bare legged and 4 per cent wear anklets.

The bell fashioned skirt ranked second to the tubular in popularity. The bustle type, predicted to be a leader in skirt patterns, has not found its way to the campus yet.

Average length of skirts ranges from midcalf to long. Very few co-eds are clinging to the "short skirt" fad.

Three counts were made before the final results were tabulated.

**QUESTIONS AND  
ANSWERS**

Q—When a veteran secures a loan under the GI Bill, does the government make an outright payment on it without charging the veteran anything?

A—Yes, VA pays the lender, for credit to the veteran's loan, an amount equal to 4 percent of the guaranteed loan. For example, if the guaranteed portion of the loan is \$4,000, the lender will receive \$160 from VA to credit to the debt of the veteran.

Q—I am a World War II veteran and wish to go in business. Must I have experience in the business in order to get a GI loan?

A—Experience is an important element in the success of the average business. You should be able to show a reasonable expectation of success in your venture in order to get your loan.

Q—Must a disabled veteran go to a vocational school or may he go to a liberal arts college, a high school, or similar institution under the Vocational Rehabilitation Act?

A—He may enroll in any VA-approved educational institution or training establishment offering the course of training which VA has found he needs to insure his proper rehabilitation in line with his own desires.

Q—My brother, a disabled World War II veteran, is being rehabilitated under Public Law 16. Must he find his own job or will VA do this?

A—Veterans Administration will help your brother look for a job after he finishes his training.

**VETERANS' NEWS**

Student veterans who acquire dependents or additional dependents while in training under the GI Bill should notify the Veterans Administration as soon as possible in order to qualify for increased subsistence allowance payments.

Notice of dependency change should be sent to the VA regional office in which the veterans' records are kept. The notice should be accompanied by legal evidence of the dependency, such as certified copies of public records of

births, baptisms or marriage. VA increases subsistence payments as of the date it is notified

Supervisors for Cap Rock District—Earl I. Cantwell, Chairman; Obra Watson, Bray H. Cook, L. A. McJimsy and Bill Holmes.

The Supervisors of the Cap Rock Soil Conservation District met Monday, November 8. During the gathering three Farmer-District agreements were signed: being Gordon P. Montague, H. A. Boggs, and Sam D. Massie. An application for assistance was also signed for Gordon P. Montague. Mr. Earl Cantwell, chairman of Board of Supervisors was leaving following the meeting to attend a State Association of District Supervisors meeting at Brownwood. He plans to return with valuable information for the co-operators and soil technicians as well.

Soil technicians ran irrigation ditch lines for Alvin Redin of the Redin Conservation group, Wednesday, November 3.

Irrigation ditch lines were run for W. A. Stephens, a cooperator in the Francis group, Wednesday, November 3 by the soil technicians.

Soil technicians ran diversion ditches for J. H. Burson Land and Cattle Company Friday, November 5. This place is in the Ranch Group.

**PERSONALS**

Mr. and Mrs. J. M. Thompson and Mrs. F. M. Autry were visitors in Plainview last Wednesday. Mrs. Carl Naylor, of Clarendon, spent the week end in the A. D. Arnold home.

Mrs. Raymond Sanders mother of Mrs. Avis Cowart, returned last week from Amarillo, where she had visited her son, Raymond and wife for several weeks.

Mr. and Mrs. W. A. Smithee, of Clovis, New Mexico, spent the week end with relatives.

Mr. and Mrs. Earl Brock were dinner guests of Mrs. Pearl Simpson Friday.

Mr. and Mrs. Jim Arthur and son, of Ralls, visited Mr. and Mrs. W. A. Rowell Sunday.

Mr. and Mrs. W. Coffee were dinner guests Sunday of Mr. and Mrs. Alton Steele.

Mr. and Mrs. Mack Gaston, of Amarillo, Mr. and Mrs. Paul Reid and daughters, visited Sunday with Mr. and Mrs. Charlie Chappell.

**PERSONALS**

Wilson Folly, of Plainview, visited Saturday in Silverton with relatives.

Mr. and Mrs. Chester Strickland and daughter, Kay, of Denton, visited over the week end with relatives.

Mr. and Mrs. Burton Hughes are the parents of a baby boy, born Sunday, November 7, at the Tulia hospital.

Mr. and Mrs. Clarence Barclay, of Brice, were visitors in Silverton Saturday.

Mrs. E. Posey went to Vernon Friday where she will spend several days and receive medical treatment.

Mrs. G. R. Guest who has been visiting in Dallas with her daughter, Miss Ona Dell Guest, returned home Sunday.

Mr. and Mrs. Bud McMinn went to Happy Saturday to visit Rev. and Mrs. Travis McMinn.

County Judge, Briscoe County, Texas. 45-2tc

### MOVING HERE TO MAKE HOME

Mr. and Mrs. Veral Vaughan, of House, New Mexico, are moving to Silverton to make their home. Mr. Vaughan has purchased the Paschal Garrison house south of the Seaney home.

### Study Club Enjoys Book Review November 4

"The Victory of Paul Kent" by Garth Hale was the book interestingly reviewed by Mrs. Tony Burson at the regular meeting of the March of Time Study Club on November 4. Mr. Hale, the author, is a professor at Texas Tech. Mrs. Clarence Anderson, president, presided at the meeting, and Mrs. Arnold Brown acted as program leader.

The next meeting will be held in the Red Cross Room on November 18, at which time the subject to be studied is "Music."

### CARD OF THANKS.

We wish to take this means of expressing our sincere gratitude to our old neighbors and friends for the many acts of kindness extended to us during our recent sorrow. Your coming to us with words of condolence and sympathy in our hour of need, the beautiful flowers sent and other thoughtful deeds have helped to comfort us in our bereavement. May God bless you.

PEGGY WIMBERLY,  
MRS. A. C. WIMBERLY and family.

### PERSONALS

Ray S. Brown made a business trip to Fort Worth this week.

Tom Blessingame and children, of Clarendon, were business visitors in Silverton Monday.

Rev. and Mrs. Travis McMinn visited Saturday evening with Mr. and Mrs. Bud McMinn.

Mrs. Cora Donnell is visiting her children in Dallas this week.

Mr. and Mrs. Freeman Tate and Dick Bomar were in Tulia Sunday evening.

Mrs. R. H. Stodghill and son, Clifton, were visitors in Tulia Monday.

Mr. and Mrs. Paul Neese and baby, of Guthrie, Oklahoma, visited relatives in Silverton over the week end. Mrs. Neese and baby remain for a longer visit.

Mrs. Pearl Simpson is visiting in Lubbock with her brother and family, Mr. and Mrs. D. O. Bomar, for several days. Mrs. Simpson went to Lubbock Tuesday afternoon.

Christmas Cards at the News.

### USDA's Production And Marketing Adm. Suggests

November grocery shelves will be filled with a large assortment of foods from which the housewife can choose. Homemakers can save on the family food bill by filling their grocery baskets with selections from the November Plentiful foods list, says USDA's Production and Marketing Administration.

All the foods on the plentiful list are reasonably priced in comparison to the less plentiful foods.

At the head of the list of plentiful fresh fruits and vegetables are red and white potatoes, white and yellow onions, cabbage, carrots, grapes, citrus fruits, cranberries and pears. And the cranberry is a big item on the Thanksgiving Day menu. Grocery shelves are also well stocked with apple juice, applesauce, grapefruit segments, fruit spreads and honey.

Other reasonably priced and plentiful foods include dried figs, prunes, raisins, oat products, peanut butter and pecans. The fish list has on it fresh red snapper, Gulf trout, frozen roe, halibut and haddock.

Along about the middle of the month corn meal, grits and syrup will also be on the plentiful foods list, according to the PMA.

Mr. and Mrs. Joe Brooks had as their dinner guests Sunday Mr. and Mrs. Jim Brooks and Nancy June.

Bob Baird, of Clarendon, visited Saturday and Sunday with Mr. and Mrs. Rusty Arnold.

Mr. and Mrs. M. M. Edwards visited Mrs. Dewey Beavers Sunday afternoon.

Mrs. Marvin Thompson who has been ill with the flu is able to be up and out again.

Miss Betty Marshall, of Ft. Worth, spent the week end at home.

Mr. and Mrs. E. A. Billingsley spent the week end with Mr. and Mrs. Jack Billingsley.

Mrs. A. F. Van Meter and Jimmie, of Quitaque, visited Silverton Monday.

**Texas State Department of Health Sends Out Warning**

In a statement on controlling communicable diseases issued by the Texas State Department of Health, Dr. Geo. W. Cox, State Health Officer states that if every case of suspected communicable disease were seen promptly by the family physician and definitely diagnosed, thousands of susceptible persons would be protected from these disabling diseases.

"The theory that it is a good thing for children to have these catching childhood diseases and get them over with, has long been proven an error which may actually endanger a child's life," says Dr. Cox. "The longer he can avoid having these diseases, the better it is for him. Every child should be protected by immunization against all diseases where an immunity can be established."

Prompt diagnosis, isolation and good medical care give the patient the best chance for a satisfactory recovery without the serious complications that sometimes accompany even the milder forms of communicable diseases. Dr. Cox emphasized that obeying the public health laws regarding isolation and quarantine protects not only the patient, but helps to prevent the spread of the disease to other persons.

"The State Health Department," Dr. Cox said, "does everything within its power to protect the health of the people of Texas, but the cooperation of every individual in protecting his own health and that of his community will do more than anything else to successfully check the spread of communicable diseases among our people."

**SOME FUN**

**Gag Writers Worry, Too**

NEW YORK—Sidney Reznick, a lugubrious young man under any circumstances, folded the newspaper and gave himself up to woe.

"You wouldn't realize it," he said, "but the international situation is what makes my job so hard these days. How can I know what will make people laugh when the world is so upset?"

Reznick is a gag man and, typical of many in his ulcer ridden craft, hasn't had a hearty laugh himself in years. His normal reaction to an uproarious joke is a dead panned nod and the single word: "Great."

"My ulcers are getting ulcers," he said, "trying to keep people laughing when every day brings them worse news in the international sphere. Probably you haven't noticed but we've had to switch many of our premises for humor."

**They Laughed at This**

"For example, we used to get howls with situation humor. That is where the laughs are built into a situation. Like this: Husband leaves house and immediately boy friend enters. Husband unexpectedly returns so boy friend hides in closet. Husband forgot his brief case and is looking for it. Now practically every bit of dialog can produce a laugh because of the fact the audience knows the boy friend is in the closet."

"You have a situation," in other words. After squeezing all the laughs you can out of the situation you can get a final blast by having the husband kiss his wife good-by a second time and then, as he passes the closet, knock on it and say: "Good-by, Sam!"

Reznick said the hair trigger news from abroad was making people impatient with the "situation" gag and its long buildup.

**Times Do Change**

"They want split second jokes," he said. "And those are the toughest to write. Also there is a peculiar trend toward 'neurotic' humor—if that's the right word. Psychiatry has become a good subject for laughs, which is sadly indicative of the times."

"Take this one. Woman on vacation sends her psychiatrist a post card: 'Having wonderful time. Wish you were here to tell me why.'"

This emphasis on the punch line, Reznick said, is effecting the renascence of the pun.

"I know it's supposed to be the lowest form of humor," he said, "but I'll bet 75 per cent of the jokes people laugh at are puns or near puns."

Since Reznick has written jokes for such stars as Milton Berle, Al Jolson, Jimmy Durante, Ed Wynn and Phil Silvers, he is somewhat of an authority.

"I remember," he continued, "the first time Gov. Jim Folsom of Alabama came to New York. I was with a joke writer and the first comment he made was 'you can Folsom of the people...'"

**Police Charge Ex-Sexton in France With Double Slaying**

BORDEAUX, FRANCE—A former church sexton was charged with killing his wife and a mistress, and was being questioned about a missing third woman.

Police said the case of Emile Descamps, 64, might develop into another "Bluebeard" horror story. After an all-night grilling, Descamps confessed that he had killed the two women, but later, after trying to kill himself in his cell, he denied everything.

Descamps was questioned along with his current mistress, Marguerite Pujos, 54. They live in a village 10 miles from Bordeaux. Police searched their house and said they found women's rings, handbags and watches.

Police said Descamps' story began in 1939 when Helene Aubry left the village of Mezin with a "Louis Descamps" and never returned. Six years later, they said, Miss Aubry's son, Jean, notified police of the disappearance and demanded an investigation. The search led to the discovery that a second woman had disappeared. She has not yet been identified.

Detectives then began trailing Descamps' wife. It developed that she also had disappeared in 1945 after resuming life with her husband in a hamlet near Bernary.

Descamps told his employer that he had taken his wife to "her brother's." He returned home alone and later left the village. He was arrested in a town near Bordeaux.

Police said they still were working on Descamps. They said he tried to kill himself with a small dagger.

**Trapped Soldier Forces Way Out of Submerged Automobile**

NORTHUMBERLAND, PA.—Woodrow Car, 26-year-old army sergeant, has only a few scratches to show for this series of events: Carr's automobile swerved off a bridge near his home at Northumberland and plunged 100 feet into the icy waters of the Susquehanna river.

Carr found the water pressure had sealed the car's doors.

He finally managed to push one door wide enough to wriggle out and swim 50 feet to shore.

**'Wonder Boy' Attacks Tuna Canning Trust**

ASTORIA, ORE.—The efforts of a Seattle "wonder boy" to break the tuna canning monopoly of California packing firms might well decide the price of a tuna sandwich at the corner drugstore.

Nick Bez, a determined Yugoslav immigrant from Seattle, has just delivered the second blow of a one-two punch.

A converted navy vessel is fishing at present off Costa Rica in "home waters" of the Californians. The ship is a former repair ship renamed the Saipan.

The Saipan is the "mothership" in a new technique to freeze and store yellowfin tuna off the hot, tropical coasts of Latin-America. Capacity is 75 tons of fish.

Financed by RFC

The Saipan is the follow-up of Bez' first blow which he delivered with the aid of four million dollars spent on the ship Pacific Explorer by the reconstruction finance corporation.

The Pacific Explorer is being refitted in Seattle for further "exploratory" trips, probably into the Bering sea off the Russian coast.

The determined Bez has still another blow ready for delivery. Another "mothership" called the Tinian is being outfitted at Astoria.

It, too, will store 75 tons of frozen tuna.

And here is how Bez hopes to affect that drugstore tuna sandwich by his gamble on the high seas.

**Operation Is Seasonal**

The Astoria tuna canneries have been operating only during the summer and fall months, canning Alabaca tuna, caught off the west coast of the United States.

If the expensive machinery and well-paid workers can be kept busy all year canning the tropical yellowfin tuna, then the sandwich is going to cost less.

Also, there will be a wider market for northwest canneries because the scarce Alabaca is a de luxe tuna, not like the yellowfin which loves to snuggle up to a milk shake.

But the counter punch in this battle may land squarely on the Bez beak. He has to whip the tough, enterprising California packers.

He also has to find the tuna.

And there are a lot of bankrupt tuna fishermen around who explain that the latter can be very difficult.

**New Disposable Nursing Bottle Eliminates Baby's Problems**

CHICAGO—More than 80 years ago the standard glass nursing bottle was invented. Before that, babies who, for one reason or another, could not be nursed by their mothers did the best they could with the aid of a flask-shaped bottle and a long rubber hose. At the end of the hose was a crude nipple, forerunner of today's variety.

With the exception of a few minor changes and adjustments, the glass nursing bottle has remained virtually unchanged.

One of the first major changes in baby nursing is a new collapsible, disposable, pre-sterilized bottle which does away with many of the headaches that have been plaguing mother.

The new bottles are made of a plastic material which, while strong and sturdy, is at the same time soft and pliable. In fact, as the infant removes the formula, the bottle actually collapses, entirely eliminating problems of back-pressure and collapsed nipples.

With these new bottles, you use one just once and throw it away. The bottles come in a long roll, sealed off from each other at intervals to form either four or eight-ounce bottles. When mother prepares the formula, she merely snips off the number of bottles needed, fills them, and puts them in the refrigerator. The only things she sterilizes are the nipples, the caps, and the rings which hold the nipple to the bottle.

**FBI Finds 8.5 Per Cent of Federal Workers Break Law**

WASHINGTON—The government is uncovering some strange and embarrassing facts about its federal workers as a result of loyalty investigations.

One of every 12, the federal Bureau of Investigation is finding, has some previous police record. The number so found now runs into thousands.

"The great mass," says J. Edgar Hoover, chief of the FBI, "are felons; we have very few misdeemeanors."

Charged with ferreting out disloyal workers, the FBI has proceeded far enough in its loyalty investigations so far to establish that a fairly consistent ratio of 8.5 per cent of government workers apparently have been lawbreakers.

However, the FBI director notes that even for those with police records, the files reflect no disloyalty information whatever in 99 per cent of the cases.

Thus far, a boxscore of the FBI investigations indicates that 6,221 of the 71,920 seeking atomic energy positions and 11,521 of the 410,211 workers checked under the loyalty program have prior police records.

Mrs. Ola Long, of Clarendon, visited Mr. and Mrs. Dewey Beavers and Rex Long Sunday.

Mr. and Mrs. Roy Mack Walker visited relatives in Melrose, New Mexico, Sunday.

Mrs. R. C. Hutsell visited several days this week with her daughter, Mr. and Mrs. Jimmie Tidwell at Odessa.

**GET MORE POUNDS GAIN FROM YOUR GRAIN AND ROUGHAGE**

**Balance with PURINA STEER FATENA**

You feed cattle to make money... and the more pounds of gain you get from your grain and roughage, generally speaking, the more money you can make.

Feedlot tests prove that Purina Steer Fatena makes grain put on more pounds gain. At the Purina Research Farm it took 117 pounds less grain feed to make 100 pounds of gain than with a single protein supplement. And hundreds of cattle feeders also report top results—proof that Steer Fatena pays off in the feedlot—pays off in saving grain.

So, before you buy feed ask us about Purina Steer Fatena. It's priced right for profit!

**AN ECONOMICAL LUXURY**

IN THIS SECTION where winter weather usually gets unpleasant, you'll find a home laundry dryer an economical luxury. Just think, no more bundling up to go out to the clothes line, no more waiting for "good drying weather". Just put your wash, fresh from your washing machine, into your home dryer. A gentle stream of warm air will toss your clothes to dryness in just a few minutes. Your family's clothing will last longer, with no bitter wind pulling at them, no burning sun bleaching them.

Best of all, of course, is the fact that with electric service cheaper than ever before, your home laundry dryer will cost just a few pennies a month to operate.

See an appliance dealer soon about a home laundry dryer.

### Food Companies Seek Ways to Use Coconut Milk

NEW YORK.—Anybody know a good way to use coconut milk—in huge quantities?

A few gourmets' recipes call for it. But one of the nation's biggest processors of the hard-shelled nut has been trying for years to figure out a way to salvage it. Milk of the tropical nut, however, is one of the few by-products of the food industry which is thrown away.

Figuring out ways of using leftovers is just one of the research jobs in progress all over the country today. Most of the big food companies employ scientists, working in modern laboratories, whose job is to improve established products and develop new ones.

Thomas M. Rector, a big, good-natured Virginian, is the vice-president in charge of research and development for General Foods corporation, which markets a large variety of products. What to do with coconut milk is one of the few things that has him—at the moment—stopped.

"We package the meat of the nut," he explained, "we sell the shells to industry, because they make a very high grade of charcoal—in World War I all gas masks used charcoal from coconut shells. But we dump the milk in the river."

**Small Sugar Content**

The sugar content of the milk is only four per cent, so it's impractical to try to distill it as alcohol. The supply is irregular; it's not a popular drink.

Meanwhile, however, there's still work being done on leftovers, because big companies, like housewives, dislike throwing good things away.

Take decaffeinated coffee. Caffeine is actually removed from the bean. But is it thrown away?

"Of course not," said Rector. "It's sold to drug houses for medicinal preparations. And it is sold to people who make cola drinks."

**Apples Contain Pectin**

Everybody knows apples are full of pectin—the stuff that makes jelly jell. But Rector's organization also found pectin in the skins of citrus fruits. So now they extract the juices, chop up the fruit—and process the leftover skins into powdered pectin.

Sometimes, of course, a new product is not developed in the laboratories. Like the time the cousin of the emperor of Afghanistan walked into Rector's office with a revolutionary process for processing rice.

The gentleman from Afghanistan had just happened on a method the food people had been looking for for years—a rice that would be ready to serve after a few minutes cooking. The man from Afghanistan has a patent on the process, General Foods sells the product—and everybody is very happy, including the income tax collector.

Which doesn't milk a coconut—commercially—but someday that nut will be cracked, too.

**Reward for First Yank In Berlin Goes Unclaimed**

NEW YORK.—David Kay, a man who never has got over the wonders of democracy, said that he probably would find a scholarship with the \$1,000 reward he offered for the first American soldier to reach Berlin.

Kay posted his offer and another \$1,000 for the first Russian soldier to reach Berlin, in the closing days of World War II.

A few months ago he was advised that the Russians had been unable to trace their first man. They suggested that Kay might want to contribute instead to the fund for rebuilding Stalingrad.

"I did so," Kay said. "Now the war department advises me it is impossible to trace the first American soldier."

"The Veterans of Foreign Wars made the suggestion that I found a scholarship for the son of a dead veteran. It sounds like a fine idea to me."

"I made the offer because I love this country. I was a Polish immigrant kid, now I'm a millionaire. Where else can that happen? Where else can you speak as freely as here and do the things you want to do?"

**Dwindling Diet Concerns People of Great Britain**

LONDON.—Britain's dwindling diet is a "matter of grave concern," Food Minister John Strachey told the house of commons as potato-a-day rationing began.

Strachey said many Britons were receiving less than the 2,700 calories-a-day figure set by the government as standard for the current crisis.

"The 2,700 is an average figure," he said. "There are many sections of the population getting very much more than that. Therefore, there are many getting very much less."

### Quick Cobbler Rates Applause

"Can she bake a cherry pie?" Well, she whips up the best cherry cobbler you ever tasted. With a pancake ready-mix and ingredients you always have on hand, you'll mix a cobbler in just a few minutes. Your family will sing out when you repeat their favorite dessert with either fresh or canned cherries, blueberries, peaches or apples.

**Cherry Cobbler**

For the fruit base:  
 2 cups cooked cherries  
 2 tablespoons pancake ready-mix  
 1/4 cup sugar  
 1 tablespoon lemon juice  
 1 tablespoon butter or margarine

Combine the sugar and ready-mix with the fruit. Add lemon juice. Place in a greased 8-inch square cake pan. Dot with butter or margarine.

**Topping:**  
 1 1/2 cups ready-mix for pancake  
 1/4 cup sugar  
 1 beaten egg  
 3/4 cup milk  
 1/4 cup melted shortening

Measure pancake ready-mix into bowl; add sugar, mixing well. Combine beaten egg and milk and add to dry ingredients, stirring until batter is fairly smooth. Fold in melted shortening. Pour batter over the fruit base. Bake in a hot oven (425°F.) 30 minutes.

### Check Flues Now for Possible Fire Hazards

"Don't wait any longer to check chimneys, furnaces and stoves for possible fire hazards," Mrs. Bernice Claytor, extension home management specialist of Texas A. and M. College, warns. "While careless use of matches and smoking materials continues as the leading cause of fires, winter months usually see a rise in the number of fires from defective or overworked stoves and chimneys."

Here are some recommendations from Mrs. Claytor for checking the home against such hazards.

Check the flues and chimneys carefully to be sure they are ready for winter fires. Chimneys should be free from cracks and loose bricks, and soot and trash cleaned out regularly.

Place all wood and coal stoves on a metal floor covering which extends at least 18 inches in front of the stove door. If stoves and stovepipes are not at least 18 inches from woodwork, protect it by a metal cover. Cover unused flue openings with tightly fitting metal covers.

Replace rusty stovepipes, and if they pass through ceilings or walls, provide ventilators for protection.

Before using an oil stove, clean it and see that it is properly adjusted—and keep it that way. And always use a metal container to take out hot ashes.

"Rural families may find Extension Circular C-190 of help to them in checking the home and outbuildings for fire hazards," Mrs. Claytor says. "It not only tells you how to check your buildings, but also how to fight grass and wood fires, burning grease,

### Coach Harley Redin Basketball Schedule Of 22 Games

Opening the season against Sayre Junior College of Sayre, Oklahoma, in Plainview on November 22, the Wayland College Pioneers, defending State Junior College Champions, have a basketball schedule that calls for 22 games.

Included on the tough schedule are games against McMurry College, Hardin College, and Eastern New Mexico. Eleven of the games

will be played in the Lindsey Nunn Gym on the Wayland Campus, and the other eleven will be away from home on a return game basis.

Youthful Coach Harley Redin, who is starting his third year as head Wayland mentor, believes his squad will be comparable to the 1948 crew. D. W. Harkins, Leveland fire-ball who was the third high point man in conference play throughout the state last year is back along with big Leon "Runt" Burch of Plainview, six foot five inch pivot man, co-captain T. K. Criswell of Anton, and Bill Knighton of Canyon, excellent floor men who should have a better season this year than last.

With four men back in his starting quintet, Coach Redin will have an excellent opportunity to make a fine showing as the Pioneers play their last year in Junior College competition.

Several hardwood prospects will give the four lettermen plenty of competition before Redin picks his starting quintet. The coach will have plenty of material to fill up the gap vacated by George Goodson, the other starter on last season's championship squad. Goodson, a junior at Wayland, is not eligible for conference play.

Conference games this season will include dual battles with Howard County, Odessa Junior College, Amarillo Junior College, and Clarendon Junior College, a newcomer to the West zone of the Texas Junior Athletic Conference.

### SUNDAY DINNER GUESTS

Sunday dinner guests in the home of Mr. and Mrs. A. P. Dickerson were: Mr. and Mrs. Bill Tension and James, Mr. and Mrs. H. P. Howard, Mrs. Pearl Simpson.

**S CLUB ORGANIZED**  
 The S Club was organized Thursday afternoon. They elected as their officers:  
 President, Jett Mason; Vice President, Clifton Bearden; Secretary, Carl Graham.  
 To be a member of this club you must show good sportsmanship.

The football queen, Betty Dickerson, was crowned Friday night by Jett Mason, the captain of the football team. Their attendants were Mary Tom Bomar and Carl Graham.

Why doesn't some one help that poor Bufford Clemmer with his lessons? He just wanders around study hall looking lost. I'm afraid he will lose all interest in school.

Can't Roxie keep up with Tom without calling every one in town

and eating them out because they don't know where she is?

I just over heard Carl Graham say that he thought that they should crown the football queen again. He seemed to kinda like that old stuff.

Was that Juanita we saw down at the rodeo pen trying to rope calves—could it be she is trying to keep up with her old flame?

I'll agree that the answer that Mary Lou gave on the quiz program Monday morning shocked the audience, but did you see Pat's face?

I know that Don Brown would not cheat on his chemistry notebook and make a hundred on it, but what brought on that 18 on his test.

What was Melvin Hamilton doing out in Haylake the other night? Could he have been trying to find Merrell's house?

Why was everyone feeling so dizzy Monday afternoon in study hall? Doesn't Betty Ruth know you are supposed to wear shoes?

What happened to Gaylia and Rex? I saw Rex driving around in that new car with a longer face than the boy sitting beside him—If that's possible. Better watch him Gaylia!

The kids around school have already cast their bets on who will give in first on the coat deal. Beth—or—Wayne.

Those seniors with the pride should loose it pretty soon. The treasurer will give the report of the money in the bank in the morning, so don't be surprised if you have a real close friend—A senior. That is, any donations will

**CARD OF THANKS**  
 I wish to thank my many friends for the beautiful flowers, cards and visits during my illness.  
 MRS. RAGS RIDDELL

Mr. and Mrs. Earl Brock and son, Bobby and daughter, Mona, Mary Tom Bomar and LaRue Gilkeyson visited in Lubbock Thursday afternoon.

Don't throw the celery tops away. They can be saved and chopped up fine or dried for future use in soups, stews, creamed vegetables, dressing or vegetable loaf.

Dairy farmers are losing 50 million dollars worth of milk a year due to brucellosis. That doesn't count nearly two hundred thousand calves that would have made about five million dollars worth of veal.

Housewives will find large assortment on the grocery shelves this month. On November's plentiful food list are red and white potatoes, white and yellow onions, cabbage, carrots, grapes, citrus fruits, cranberries and pears.

The football boys had their football pictures made this week. You can say what you want to but I still think they all look like frogs. I haven't seen but one—the center.
