VOLUME 41, NUMBER 31

PUBLISHED EVERY THURSDAY AT SILVERTON, BRISCOE COUNTY, TEXAS

THURSDAY, AUGUST 4, 1949

Farm Tour of Co. Scheduled For August 26

A tour of the irrigated area of Briscoe County will be conducted on the afternoon of August 26, according to a statement from Leo White early this week. The tour will begin at Silvertown and travel over irrigated sections making six or seven stops.

Many practices will be observed in the interest of water application, irrigation pumps, crop production and soil conservation. The tour is sponsored by the district supervisors of the Cap Rock Soil Conservation District. The supervisors have appointed Lem Weaver, Leo White and Earl Cantwell on the committee to work out the details.

Methodist Revival Starts Friday, August Five

The Silvertown Methodist Church revival will start Friday, August 5, and continue through August 14, according to Rev. Grady Adcock, pastor.

Rev. C. A. Halcomb, pastor of First Methodist Church of Tahoka will conduct the revival meeting, assisted by Rev. Oran Smith, pastor of Aiken Methodist Church as singing leader.

Services will be held each morning at 10:30 a. m., and evening at 8:00 p. m.

Everyone is extended a cordial invitation to attend the revival.

Forgerson Enlarging And Re-Arranging Lumber Building

Forgerson Lumber and Supply Company have work underway at the local yard, and plans are to re-arrange the building and place a large show room in front. The office has been moved back about 40 feet, and a large plate glass window will take place of the small ones at the south entrance.

An addition is being annexed to their present store, which when completed will give ample floor space for a large stock of merchandise. New and modern shelving and storage bins will be built, and a modern lighting system installed throughout the store.

Last year the Company built new lumber sheds and bins, and when the present building is completed stocks will be much more accessible and easier to show Mrs. Forgerson said.

"JOHN LOVES MARY"

A fast moving comedy with plenty of laughs to make you forget your cares. With Jack Carlson, Ronald Reagan, Edward Arnold and Virginia Field you have tons in comedy casts.

"John Loves Mary" comes to the screen after a long successful Broadway stage run. It's a Mary Quo Round of mythical mixups. Dollars to doughnuts, it's the funniest picture you'll see this season. Palace Sunday and Monday, August 7 and 8.

For week's program see page 2.

Lion Club To Meet August 4, in Regular Gathering

Attention, All Lions! You are urged to be present for our regular meeting at 8:15 p. m., in the basement (eats) of the Methodist Church Thursday, night August 4. We will have a surprise for you in the way of entertainment from a neighboring club, as well as a report on the recent International Convention by a member of this same visiting club.

Program Committee.

Local People Trade Homes

Mr. and Mrs. Wayne McCutchen last week traded their home in the west part of Silvertown to Mr. and Mrs. W. Hamilton for their 120 acre farm home four miles northeast of town. The two families will move in the next few days to their newly acquired homes.

Mr. and Mrs. Bud McMinn and daughter, Fayree, returned home Wednesday from a three week's vacation trip. They visited eight states while away, and reported a wonderful time.

NOW LADY LIBERTY HAS SEEN EVERYTHING . . . It was the ghost from an evil past that glided into New York harbor recently. When he was plotting world conquest, Adolf Hitler often must have had a notion that some day he would sail into New York harbor on his palatial yacht "Grille." Well, half of the notion came true, anyway. Here is the "Grille," from whose deck Nazi Admiral Dönitz broadcast the news of Hitler's death. The vessel passed the Statue of Liberty, not as the carrier of a conqueror but only as a reminder that the would-be conqueror is gone. Present owner of the yacht, George Arida, will put the craft on exhibition here for various charities.

WORKING IN THE SALT MINES . . . The Dominican Republic's biggest salt mine is Las Salinas (The Salts) in Barahona province. It penetrates Salt Hill, a peak of almost pure salt extending for a length of 10 miles and towering 1,100 feet. It is estimated to hold some 75 million tons. Salt can be extracted in 50-pound chunks that are 99 per cent pure. Photo shows workmen removing some of the salt from the mine in barrows. Since the Dominican Republic has set in motion a plan to raise the output of salt from Barahona province mines to 200,000 tons annually, Salt Hill has assumed a major degree of importance in the country's economy.

Data Concerning Bond Election Silveston School District Saturday, Aug. 6

I. \$1.50 Maintenance Tax

(1) Due to consolidations a uniform maintenance tax must be spread over the entire district as now constituted.

(2) The School Board can levy any part of the \$1.50; they are under no obligation to levy the entire amount, it is merely a maximum limit.

(3) The Plainview, Amarillo, Borger, Lubbock, Childress, Memphis, Levelland, Muleshoe, Tulia, Happy, and Brownfield Districts have a \$1.50 tax. This is only a sample; almost all Districts in the Panhandle have a \$1.50 tax limit. Schools have higher operating costs by 25 to 50 per cent now than ten years ago.

II. Bond Assumption

(1) State law provides that an election must be held to spread the indebtedness of each individual district which has consolidated over the entire district as now constituted.

III. \$100,000 School Bonds

(1) The bonds, both new and old can be paid by a 50 cent tax, 79 per cent collected, on a \$3,000,000 assessed valuation.

(2) A \$3,000,000 valuation would equal \$9.02 valuation per acre of land in the county. There are 270,720 acres in the district. The debt per acre would be 77.9 cents.

(3) The bonds are set up to make a tax level basis of pay-

ments; meaning that the payments are made as nearly the same each year as possible.

(4) The district is in fine financial shape, having bought in \$10,000 4% bonds due 1960-62. There is a surplus in the Interest and Sinking Fund.

(7) The percentage of net debt (Continuing Interest and Sinking Fund) would be under 7 per cent based on a \$3,000,000 valuation. In comparison: Plainview's is 7.25 per cent; Brownfield's, 7.47 per cent. The bonding companies consider the district to be a sound investment.

(6) Total interest cost on the \$100,000 new bonds would be about \$65,000 over the entire period of thirty years. The average interest and principal payment per year is \$11,900.00 on new and old bonds.

(7) Previous defaults on bonds were not caused by the depression, but by mismanagement. Schools now must make financial statements to the State Board, and any discrepancies are immediately caught and run down. Silvertown School District's collections on taxes are well over the 79 per cent margin for the last twenty years.

Wm. Heckman, of Amarillo, visited several days last week in the home of his sister, Mrs. Ashel Cross and family.

UN-OFFICIAL BALLOT

Proposition No. 1 FOR Maintenance Tax. AGAINST Maintenance Tax.

Proposition No. 2 FOR assumption of outstanding bonded indebtedness and the levying of the tax in payment thereof. AGAINST assumption of outstanding bonded indebtedness and the levying of the tax in payment thereof.

Proposition No. 3 FOR the issuance of bonds and the levying of the tax in payment thereof. AGAINST the issuance of bonds and the levying of the tax in payment thereof.

Silvertown Independent School District School Tax, Bond Assumption and Bond Election, August 6, 1949.

Mrs. Rhoda McGowan returned to her home Friday after spending several days in Lubbock for medical treatment. She is reported to be doing nicely.

Mrs. Orren Burnside, of San Diego, California, and Mr. and Mrs. Worth Moore and children, of Phoenix, Arizona, have been visiting Mr. and Mrs. Grady Wimberly and other relatives.

Football Season Draws Near-- Practice Soon

By Coach Cortese

Palace Theatre sound System Overhauled This Week

The Palace Theatre this week has had an Altec Service Engineer overhauling and replacing parts to put their sound system in the picture show in first class shape. The management has gone to considerable expense to give Silvertown theatre goers one of the most perfect sounds that is possible to be had.

Simpson Chevrolet Company Improves Sales Lot

Simpson Chevrolet Company this week have underway the improvement of their sales lot which is just northwest of the garage. The property consists of one-fourth block lying east of the City Park and on the highway.

A residence will be moved in and will be occupied by one of the company's mechanics. A small business office will be erected on the property which will be used by the salesman for this department.

Farm machinery will also have parking space here. The property was cleaned and graded and gravel has been spread to keep the cars and machinery out of the mud.

New electric signs will be erected as soon as other work on the project is completed, John Earl Simpson said.

Silvertown's First Polio Case Is In Plainview Hospital

Jerry Perkins, 18 months old son of Mr. and Mrs. Ott Perkins of Silvertown, was admitted for treatment at the West Texas Polio Center in Plainview Tuesday.

The child's condition is not reported serious.

There were 37 patients in the center Tuesday morning when the Perkins child was received. All available space in the ward is occupied and cribs for six children have been placed in the treatment room. It is also reported that there is space available for emergency use at the hospital for approximately 20 more polio patients. Unless some cases are discharged or transferred to other polio treatment centers before new patients are received here, emergency space will have to be used, hospital personnel said.

TEXAS TAKES CARE OF ITS OWN

Theatre owners of Texas are meeting today to work out plans to raise \$500,000.00 for Gonzales Warm Springs Foundation. The South Plains Theatre managers are meeting in Plainview, and Mr. J. H. Hotchkiss local theatre manager, is in the meeting.

Collections will be taken at the theatre beginning August 11, and continuing each night for one week. All the funds raised by the theatre's stay in Texas. The health department's bureau of vital statistics in a report Tuesday said polio had cost 67 lives in the first six months of 1949 as compared to 63 for that period in 1948. The total number of cases for the year is 1,218, with this year's incidence far ahead of last year's high of 961 for the same period.

Bring your "change" and help "Texas Take Care of It's Own."

Dutch Tidwell made a business trip to Colorado last week.

The talk of football is becoming more and more prevalent as the fall training period nears. Thus, we give you a brief summary of the prospective candidates.

The Owl roster will consist of four returning first string men, six other lettermen, twelve squadmen, and a number of freshmen of which the most prospective seem to be Jim Baird and Joe W. Brooks.

Jett Mason's left half back slot will be a scramble between Billie Ray Satterfield, Bob Baird and Darrell McWilliams. These boys will have to play some ball to fill Mason's shoes. As soon as Bob Baird realizes that he is just a pretty strong lad, he may give Donald Rhea some trouble for that fullback post.

Dick Turner will not be back at right half for this year and the most likely candidates seems to be Donald Bean with perhaps some competition from Joe Wayne Brooks.

The quarterback post argument should be interesting to watch. Two boys, Donald Paige and Milton Thornton, have much the same characteristics. Both are hard working, clean living, and assume an attitude that is beyond reproach. Each boy will have to keep on his toes.

The center position is a big question mark. Pat Northcutt, Donald Bean and Billie Wilson may see service here.

All-regional night guard, Flunoy Hutsell may be converted into a tackle for this year. His right guard post can most ably be held down by tough little John Francis.

The tackle position is hit hard. All four of the last year tackles have departed. Dwane Lemons was slated for this post but has transferred to Floydada. Jim Baird will be in there plugging for this birth.

The right end position will be held down by Wayne Hamilton, the only 3 year letterman on the squad. Billie Tension will see service here.

Elton Cantwell will play left guard with maybe some help from Joe Wayne Brooks.

Left tackle, I don't know, it's wide open, with possibly Richard Tunnel filling in.

There is some question about the eligibility of Robert McPherson but he will be left end if eligible. Melvin Hamilton should give him some help.

Other boys that may work themselves into the line-up are Don Brown, Buford Clemmer, Billie Don Stephenson, Joe Lee Bomar, Jim Hardin, Gene Hardin and Wayne McMurtry.

There is a chance that the boys will be taken on a training camp and for that reason we urge all boys to get their equipment ready now. The boys should get their white jerseys, sox, shoes, supporters, and notebook and pencil ready now because there may be a fast departure.

A birth certificate will be required of every boy before they will be permitted to play. The local doctors have consented to give the boys a physical examination without charge. This will be another requirement for each boy before he will be permitted to play.

There will be more information in this paper next week about the camp and football training.

Mrs. B. H. Turner and Mrs. Roy Fuston, of Turkey, visited in the home of Mrs. Jeff Simpson last Thursday. Mrs. Turner is Mrs. Simpson's sister and Mrs. Fuston is a niece.

ARNOLD BANKS, EVANGELIST

Evangelist Arnold Banks Coming to Silvertown to Make Home

Arnold Banks began local pulpit work with the Church of Christ here July 3. He formerly preached in Anton, Texas, where he preached at the Lawrence Avenue Church of Christ. Mr. Banks has been preaching for nine years. His work has carried him into California, Nebraska, and Texas. He is a graduate of George Peppard College, Los Angeles, California, holding a B. A. Degree with a major in Religion.

Mr. Banks and wife are the proud parents of two lovely children. Keith is eight years of age and Sharon Gail is three years old.

Both Mr. and Mrs. Banks have been elected to teach in the local school. Mr. Banks is to teach Social Studies in the grade school and Mrs. Banks homemaking in high school.

The Banks family looks forward to establishing their residence here and making new friends.

Mr. Banks will be engaged in a chapel meeting in Causey, New Mexico, from July 29 through August 7. Following this meeting on Friday night, August 12 he will begin preaching for a ten night's meeting here in Silvertown. The local Church of Christ members cordially invites all the citizens to attend these services and get acquainted with the evangelist. His messages will be from the Book Divine—A Godly man with a Godly message.

Miss Jeanne Dudley Attended Fraternity Meeting in Dallas

Miss Jeanne Dudley returned to Lubbock Thursday from Dallas where she attended the National Beta Sigma Phi convention.

The organization, a college journalism fraternity, held its meetings July 24 through July 27. Delegates attended from every state in the union.

GILMER-AIKEN DECISION GIVEN IN RULING

Attorney General Price Daniel sounded the death knell recently for "dormant" school districts.

They must, he wrote in an opinion, consolidate under the new Gilmer-Aiken education reform law.

(A dormant district is one which has "farmed out" its students to other school districts for two consecutive years.)

It was the first ruling Daniel's office has made on the Gilmer-Aiken law, passed by this year's 51st Legislature. The opinion was addressed to three authorities—Young County Attorney Tom H. Miller of Graham, Howard County Attorney Elton Gilliland of Big Spring and Runnels County Attorney Roy Hill of Ballinger.

Mrs. Jimmie Tidwell and little son, Mike, returned to their home in Odessa, Texas, Monday after visiting with her parents, Mr. and Mrs. R. C. Hutsell for two weeks.

Mr. and Mrs. Shelby Haynes entertained several of their friends Sunday afternoon with a watermelon party.

PERSONALS

Miss Jo Ann Dixon, of Brownfield, visited her cousin, Mrs. Edsell Hutsell last week end.

Mr. and Mrs. Rusty Arnold carried their cousin, Miss Nannie Adams, to her home in Olney Monday.

Mrs. O. H. Kemp, Jr., of Lorenzo, spent the week end with her husband.

Mrs. A. W. Blaine and children, of Muleshoe, came for her husband Sunday evening. Rev. Blaine has been conducting a revival at the First Baptist Church.

Mr. and Mrs. Durward Brown and children of Plainview, visited with relatives over the week end.

Mr. and Mrs. T. C. Bomar and daughter, Mary Tom, Mr. and Mrs. Wylie Bomar visited W. M. Amerson in Canyon Sunday. Mr. Amerson is critically ill.

Mrs. Geo. Edmons, of Happy, visited relatives in Silvertown last Thursday.

County Planning To Honor Early Quinine Sponsor

ARROW ROCK, MO.—Belated honor to the memory of an obscure country physician whose courage and learning made possible the opening of much of the nation's frontier is being sought by the D.A.R. of Arrow Rock, Mo.

The doctor is John Sappington, who introduced quinine over the bitter opposition of fellow physicians, to defeat the malaria which in areas like Pike county, Ill., wiped out as much as 80 per cent of the pioneer immigrants in one year.

The D.A.R., through its committee chairman, Miss Mary Turley and Mrs. B. M. Lanham, is seeking the aid of Missouri physicians and others to erect a state memorial shrine to the doctor.

Learned of Quinine Distressed by the malaria, which 125 years ago threatened to halt settlements of all the Mississippi valley, Dr. Sappington searched the world's medical literature for latest developments in treating the disease. Thus he was among the first to learn of it when two youthful French pharmacists isolated quinine from cinchona bark in Paris in 1820. Three years later, when manufacture of quinine was begun in Philadelphia, Dr. Sappington obtained a supply and after use on his patients knew he had the remedy he had sought so long.

Accordingly, Sappington's son was sent east for 100 ounces and through error, came back with 100 pounds. As other physicians ridiculed the treatment, and the doctor could not use such quantities in his practice, he took the bold step of opening a factory to make anti-fever pills. Soon the magic of the remedy became so well known that bells were rung at eventide in many a pioneer village to remind people to take the pills.

Published Book

When the business was at its height, Dr. Sappington published a book on fevers in which he revealed that quinine was the active ingredient in his magic pills. He advised readers to buy quinine at their drug stores and thus deliberately wrecked his business. His purpose had been accomplished. The threat to national expansion had been thwarted.

At his death, Dr. Sappington left a fund of \$20,000 to aid needy students of Saline county, Missouri, to obtain an education. To date, F. C. Barnhill, Marshall, Mo., reports that, with the accrued interest, \$217,614.80 has been expended, 12,584 students aided and \$85,551.47 still remains.

Yet, despite great services of the country doctor, he lies virtually unremembered in a tomb amid the leaning tombstones of the Arrow Rock cemetery. Now, in long overdue recognition of the doctor's achievements, the D.A.R. has set out to provide a suitable memorial.

Reformed Head Hunter Gets Impressive Sight of N. Y.

NEW YORK—A barefoot South Sea islander with a blue wool shirt, a GI haircut, and wearing a big smile arrived in New York for his first look at the "big fella place." He found it was the "now me get up no good" of his life.

By that, Robert Salau, 42, son of a reformed Solomon Islands headhunter, meant the biggest city in the world was the biggest surprise of his life.

He was amazed that the Empire State building looked just like the tattered picture he had carried halfway around the world.

It is "high up too much," he declared.

Salau, a Seventh-Day Adventist missionary, arrived on the Mauretania after a visit to England, France, and Switzerland.

Emphasizing his friendly remarks by brandishing an eight-foot war spear, he said his voyage on the big ship was "more better than a war canoe."

About 40 years ago Salau's tribe was persuaded by missionaries to stop chopping off the heads of enemies and also saving the skulls of deceased members of families. During the war Salau and thousands of other converts gave vital information to U.S. marines. He received a citation.

Australia to Divert River On One Side of Mountain

SYDNEY.—Australia is about to undertake the greatest engineering feat in her history, diverting a river on one side of the Australian Alps so that it flows into rivers on the other side.

Headwaters of the Snowy river will be made to flow west and north across the mountains into the upper Murry and Tumut rivers, instead of flowing eastward and southward as the river now does.

Its new artificial course will be cut through the mountains, then directed through natural valleys. It is all part of a huge hydroelectric project to cost Australia 680 million dollars over a period of years.

Supervisors for Cap Rock District—Earl I. Cantwell, Chairman; Obra Watson, Bray H. Cook, L. A. McJimsey and R. L. Brunson

The President of the United States has proclaimed the week of July 24 to 30, 1949 as National Farm Safety Week. It is the long range purpose of the National Farm Safety Week to make all members of every American farm family as safe as possible. This can be accomplished only by the farm families taking an interest in the causes of accidents and eliminating those hazards or guarding against them before an accident happens.

National Farm Safety Week was conceived by the National Safety Council in 1944, and is sponsored by the Council and the United States Department of Agriculture in cooperation with the National Fire Protection Association, the Farm Equipment Institute, the American Farm Bureau Federation, the Farmer's Union, the National Grange and many other organizations interested in agriculture and farm life.

Everyone in the United States is affected directly or indirectly by accidents to farm residents. Of course, the greatest grief is to the farmers themselves. During 1948 a resident on one out of every six farms was the victim of an accident ranging in severity from sudden death to sprained ankles. In addition to the great loss through the cost of medical and hospital care, accidents resulted in the loss of more than 17,000,000 man days and many thousands of fatal accidents. An average of 2,400 accidents occurred to farm people every day of the year, resulting in the average medical, dental and hospital cost of \$43.00 per accident.

Ranking at the top of the list of accidents are: falls, burns, shock, and those caused by ma-

chinery, hand, tools, livestock, and guns. These accidents are the result of frayed electric cords, unsafe ladders, rotten boards in porches, faulty mechanical equipment, cleaning clothes with gasoline, etc.

Most accidents can be prevented. We must learn to watch for hazards and correct those hazards not only during Farm Safety Week, but every day during the year. By doing this we will be able to protect ourselves and our children, and greatly reduce the staggering loss of life, health and income. It is each farmer's duty to his family to remove or guard against all hazards.

Dr. H. H. Bennett, Chief of the Soil Conservation Service, has said and we repeat:

"Both the spirit and precepts of National Farm Safety Week are vital to our Nation's welfare. The prevention of accidents and suffering on the farms of America is a responsibility which must be shared by all who live on the land. The Conservation Program necessarily includes the protection, not only of the soil, but also of the keepers of the soil."

Doctors and nutritionists say the yellow fat of beef is a better source of Vitamin A than the more popular white fat. The yellow color of beef fat is due to carotene in feed that grazing animals eat. Tests have shown that the fat of rase-fed cattle may have 20 times more Vitamin A than cattle fattened on a grain ration low in carotene.

A high producing dairy cow deserves good feeding, kind treatment and comfortable surroundings.

Facts About The Texas Veterans Land Program

The Veterans' Land Board Members are: Chairman, Bascom Giles, Commissioner General Land Office; Allan Shivers, Governor; Price Daniel, Attorney General. The questions and answers reproduced in this article were taken from the several thousand letters received by Bascom Giles, Commissioner of the General Land Office from veterans.

ELIGIBILITY

1. Q. Who is allowed to take part in this program?

A. Any Texas veteran of World War II now residing in Texas who served as much as 90 days (unless discharged sooner for a service-connected disability) and who has an honorable discharge, or is still in the service.

2. Q. Who is considered a Texas Veteran?

A. Any man or woman who was a bona fide resident of the state at the time of entering the service between September 16, 1940 and December 31, 1946, and is a bona fide resident at the time of making application for a loan under the provisions of the Veterans' Land Bill.

3. Q. If I were born in Texas but was residing, registered and inducted in another state, but am now residing in Texas, am I eligible?

A. No. Registered mail is a very safe method of application.

4. Q. If I was a legal resident at the time I entered service but since my discharge have been voting in another state, am I eligible?

A. No, you must be a legal resident at the time you make application.

5. Q. If my wife and I were both in the service, can we each buy a tract of land?

A. Yes.

6. Q. Is there any preference given to veterans who were engaged in combat?

A. Veterans having a service-connected disability sustained in combat will receive a 90-day priority.

7. Q. Are veterans of World War I eligible?

A. The Act provides only for veterans of World War II.

8. Q. Where is this land which is for sale?

A. At the present time no state-owned lands are available under the program. The eligible veteran may purchase land from any individual or corporation.

9. Q. Where can I find some land to buy?

A. You are permitted to select a tract of privately-owned land anywhere in the state.

10. Q. May I buy land from a relative?

A. Yes.

11. Q. Can I buy any type of land I wish?

A. Yes, as long as the price is reasonable and the land will yield an income.

12. Q. What must the land be suitable for?

A. It can be either agricultural, ranch, stock-farm, poultry farm, or almost anything that will yield a return on the investment.

13. Q. Do I have to buy only improved land?

A. You may purchase either improved or unimproved land.

14. Q. How much land can I buy?

A. No loan will be made by the Veterans Land Board on less than twenty (20) acres. There is no limit on the maximum acreage except that the Board will not expend more than \$7,500.00.

15. Q. Can I buy a tract of land within a town or city?

A. If it contains twenty (20) acres or more.

16. Q. How will the value be determined?

A. The type of soil, access of water supply, improvements, average rainfall, productivity, topography, value of adjacent lands and location as to accessibility of transportation will be some of the basic factors used as a yard-stick for proper evaluation.

17. Q. Who will pass on the value of the land on which I apply for a loan?

A. Qualified appraisers appointed by the Veterans' Land Board who are familiar with land values in your area.

18. Q. What if the appraisers do not approve the valuation of the land?

A. It will not be purchased.

19. Q. How much interest will I have to make?

A. The Board requires a minimum down-payment of 5% of the purchase price. For example, on a tract costing \$7,500.00, a down-payment of \$375.00 will be required.

20. Q. If the tract of land I desire to buy costs more than \$7,500.00, will the board consider it?

A. Yes, up to \$10,000.00, but you will have to pay any difference above \$7,500.00 at the time of purchase plus the usual 5%.

21. Q. After I have selected the tract of land I wish to buy, what is the next step?

A. Get all the necessary service-record papers together, secure an agreement from the owner to sell at a stipulated price, fill out the forms supplied you by the Veterans' Land Board, and make formal application.

22. Q. Who will provide me with the necessary forms for filing a loan application?

A. Write the Veterans' Land Board, Bascom Giles, Chairman, General Land Office, Austin, Texas, and request them.

23. Q. Must I come to Austin to file my application?

A. No. Registered mail is a very safe method of application.

24. Q. Will I have to pay any fees?

A. The Board requires that the cost of examining the title shall be borne by the purchaser, but that this fee shall not exceed \$50.00.

25. Q. How much money will the board loan a veteran?

A. The Board will make a maximum loan of \$7,125.00 after down-payment has been made.

26. Q. Do I purchase land from the owner?

A. No. You secure a commitment from the owner to sell to the Veterans' Land Board. The Board will purchase the land from the owner, then re-sell it to you at the same price. Actually, you make purchase from the Veterans' Land Board.

27. Q. How much down-payment will I have to make?

A. The Board requires a minimum down-payment of 5% of total purchase price. For example, on a tract costing \$7,500.00, a down-payment of \$375.00 will be required.

28. Q. When is this 5% to be paid?

A. At the present time no state-owned lands are available under the program. The eligible veteran may purchase land from any individual or corporation.

29. Q. Where can I find some land to buy?

A. You are permitted to select a tract of privately-owned land anywhere in the state.

30. Q. May I buy land from a relative?

A. Yes.

31. Q. Can I buy any type of land I wish?

A. Yes, as long as the price is reasonable and the land will yield an income.

32. Q. What must the land be suitable for?

A. It can be either agricultural, ranch, stock-farm, poultry farm, or almost anything that will yield a return on the investment.

33. Q. Do I have to buy only improved land?

A. You may purchase either improved or unimproved land.

34. Q. How much land can I buy?

A. No loan will be made by the Veterans Land Board on less than twenty (20) acres. There is no limit on the maximum acreage except that the Board will not expend more than \$7,500.00.

35. Q. Can I buy a tract of land within a town or city?

A. If it contains twenty (20) acres or more.

36. Q. How will the value be determined?

A. The type of soil, access of water supply, improvements, average rainfall, productivity, topography, value of adjacent lands and location as to accessibility of transportation will be some of the basic factors used as a yard-stick for proper evaluation.

37. Q. Who will pass on the value of the land on which I apply for a loan?

A. Qualified appraisers appointed by the Veterans' Land Board who are familiar with land values in your area.

38. Q. What if the appraisers do not approve the valuation of the land?

A. It will not be purchased.

39. Q. How much down-pay-

A. It must accompany your application for purchase.

29. Q. If for any reason purchase is not completed, due to no fault of the veteran, what disposition is made of down-payment?

A. If loan is not approved, it will be refunded and veteran will be free to make another selection.

30. Q. How much interest will I pay?

A. 3%.

31. Q. How often will my payments come due?

A. Your payments on principal and interest will come due semi-annually.

32. Q. Where must payments be made?

A. To the Veterans' Land Board, General Land Office, Austin, Texas.

33. Q. Will checks be acceptable as payments?

A. Yes.

34. Q. Should I overlook the payment date, will my contract with the State be forfeited?

A. As a courtesy of the Board, you will be notified before forfeiture.

35. Q. Can my purchase contract be cancelled?

A. The Board has the authority to forfeit your contract for failure to make payments when due.

36. Q. If I should have my contract forfeited for failure to make payments when due, is there any way I can regain possession of this land?

A. You may reinstate your claim any time prior to date on which the Board shall order the land to be advertised for resale or for lease for mineral development by paying amount past due plus reinstatement penalties.

37. Q. How soon can I pay off the loan on my land?

A. You will execute an or-or before note for 40 years on which you may pay all or a part of the unpaid balance at any time you desire.

38. Q. Will I be required to "homestead" or live on this land for a specified period of time?

A. No. You may rent or lease it out.

39. Q. If I, an eligible veteran, purchase land under this program, could my brother who is not an eligible veteran occupy it?

A. Yes. Or anyone else who has your consent.

40. Q. Are there any regulations as to what crops may be planted?

A. Not as far as the Veterans' Land Program is concerned.

41. Q. Will I be allowed to sell, transfer or trade my land any time I have the opportunity?

A. No. You must not sell, transfer or dispose of it until three years from date of purchase.

42. Q. Do I retain all mineral rights on the land?

A. Yes. The Veterans' Land

Board does not share in mineral rights. There are restrictions which are explained in other inquiries.

43. Q. May I sell mineral rights?

A. Yes. But before the indebtedness is retired, 50% of all receipts from rentals and bonuses must be applied against the indebtedness.

44. Q. In the event of a sale of mineral rights, is the veteran authorized to negotiate his own transaction?

A. Yes.

45. Q. May a veteran assign mineral rights to a relative?

A. Yes. Subject to the regulation that 50% of bonus and rental receipts must be applied against the indebtedness.

46. Q. Does any portion of the mineral rights belong to the permanent school fund?

A. No.

47. Q. Will the Land Board restrict my leasing the land for minerals?

A. Only to the extent of approving the terms and considerations of the lease.

48. Q. May a veteran drill for oil on the land he purchases under this program?

A. Yes.

49. Q. Can I buy land with no mineral interests therein?

A. No applications will be approved with more than 1-16 royalty interest outstanding. 50% of the mineral rights must be available at the time of purchase.

50. Q. Where can I obtain a list of State-Owned lands?

A. There are no state-owned lands for sale to veterans at the present time.

51. Q. Should the Veterans' Land Board acquire state or federal land for resale to veterans, how will the plan work?

A. The Board will survey the land thus acquired into tracts, none costing more than \$7,500.00, and sell them under sealed bids.

52. Q. How will I find out about them?

A. They will be advertised state-wide and offered for sale through sealed, competitive bids with awards going to highest bidders on each tract.

53. Q. How will the value of such land be determined?

A. By the usual methods of appraisal.

54. Q. Will the same financing plan be in force on this land as on land personally selected from a private owner?

A. Yes. Bidders will be required to accompany their bid with a 5% down payment of the total bid.

55. Q. May two veterans buy a tract costing \$15,000.00?

A. Yes. If the tract is divided and the sale is handled as two separate transactions.

56. Q. Will the State Veterans'

Oldsmobile's New Glamorous Holiday Coupe

Oldsmobile's glamorous new Holiday Coupe, resembling a convertible but possessing a permanent steel top, is now in production at the Division's main plant in Lansing, S. E. Skinner, vice president of General Motors Corporation and general manager of Oldsmobile announced recently.

The luxurious new Futuramic Oldsmobile was first introduced to enthusiastic automotive fans when a display model was exhibited at the General Motors "Transportation Unlimited" show at the Waldorf in New York. More than a half-million Americans visiting the New York and Detroit GM Shows expressed their approval of its zestful styling, its new safety features and its restful comfort.

The Oldsmobile Holiday Coupe has the long low, graceful lines of the Series "98" deluxe convertible coupe, yet it has a rigid steel top that provides greater passenger protection and comfort. Inno-

ventions in design of the Holiday Coupe, in addition to the steel top, include the new rear window of curved glass which gives greater visibility in that direction than any other closed body style in the Oldsmobile line; elimination of support pillars between the top and lower portion of the body, thereby giving an unrestricted view to the sides, and new styling touches in interior trim.

Mr. Skinner explained that exterior laquer finish of the Holiday Coupe may be ordered in several two-tone combinations. Oldsmobile dealers will soon be advised of production-line colors, he said, adding that the price of the new model would also be available through Oldsmobile dealerships in the near future.

Oldsmobile's Holiday Coupe is powered by the Division's new high-compression "Rocket" engine of 135 horsepower. GM Hydra-Matic Drive, with Oldsmobile's noted "Whirlaway" acceleration feature, is standard equipment on this new model, Mr. Skinner stated.

Soft becoming broadcloth

The elegance of its fine all-wool broadcloth makes you love this lady-like new coat... lets you wear it with pleasure for work or "best." Smooth yokes in front and back, a small collar to wear high or flat, self-covered buttons. In black, brown, green, beige, grey or wine. Misses sizes, 10 to 20.

JUNIOR GABARDINE

Here's what makes this good fall suit so smart—

A new little petal collar. A smooth-fitting yoked back. Tricky button-and-tab-trimmed pockets. A tiny waist. In beautifully tailored pure wool gabardine. Choose your shade from red, black, brown, deer brown, grey, wine, hunter green, kelly green and navy. Sizes 7 to 17.

When yours does, finance the net cost with an economical Bank Auto Loan.

SOUTH SIDE SQUARE — FLOYDADA, TEXAS

A HOME TO LIVE IN

Design A-124. Designed for a narrow lot and without a basement, this plan has a large living room, a screened front porch, a combination kitchen and dining room, a utility room and two bedrooms.

The utility room has a coat closet, a storage closet, space for the heater near the chimney and laundry facilities next to the bathroom wall. The first floor is an insulated slab laid on a gravel bed and covered with asphalt tile or linoleum.

There is a coat closet in the living room, linen cabinet in the hall, also accessible from the bathroom, and wardrobe type closets in the bedrooms, with storage space above.

The kitchen has a large dining area with two windows and cabinets arranged in an L-shape. Exterior walls are 8" concrete blocks, stripped on the inside for lath and plaster. The roof is asphalt shingles.

Overall dimensions are 26'-8" by 40'-8" with an area of 1011 square feet and 12,132 cubic feet.

For further information about construction address the Home Building Editor of this newspaper, or your local lumberman.

Supervisors for Cap Rock District—Earl I. Cantwell, Chairman; Obra Watson, Bray H. Cook, L. A. McJinsey and R. L. Brunson

H. H. McPherson, a cooper with the Cap Rock Soil Conservation District, living 11 miles south of Rockcreek has about 20 acres of Hubam clover on his irrigated farm. Part of the clover was seeded in the spring over an earlier planting of barley and has been cut for hay. Exact tonnage of production is not known but the cutting is reported to be rather heavy. The clover on the harvested portion of the field has

made considerable regrowth since harvesting and is now in bloom. Mr. McPherson expects to harvest seed from the unharvested portion of this field and possibly some late seed from the harvested portion.

Considerable soil building and conditioning benefits are expected from this legume crop. Mr. McPherson grew some clover two years ago and was well pleased with the soil conditioning results.

He said that where adjacent irrigated land ran together and became hard the land under clover remained mellow and plowed and absorbed irrigation water much better.

struction is now completed for T. R. Whiteside, who built big broad-base terraces.

Dr. and Mrs. Gale Seigler left Saturday morning for a vacation trip into Old Mexico. Mr. and Mrs. A. C. Fry and children are living in their home while they are away.

SCS technicians ran terrace lines for D. T. Northcutt, a cooperator northeast of Silverton. Con-

Summer Care of Pulletts Should Not be Under Estimated

It's pretty hard to say that one thing is more important than another when it comes to properly taking care of the pulletts that will be the egg producers this fall, says Leo White, county agent, but plenty of tender green feed on the summer range is one of them.

Good range furnishes the growing pulletts with a supply of vitamins, minerals and other growth factors that just can't be supplied fully from any other source, continues the county agent. Pulletts should not be pushed too fast. It can cause trouble later on. They develop sexually before they develop physically and actually begin laying before they are mature. So it's best to keep the pulletts growing in body and gaining weight as fast as possible before their combs and wattles develop. These kind make better egg producers.

Feeds containing soybean meal and cottonseed meal for protein, with small amounts of fish meal and meat scraps seem to be the best. The growing pullet should get this feed along with liberal amounts of grain and the best tender green range that you can give them. The addition of choice alfalfa meal to the mash you're feeding is a good substitute when good range is not available.

It is important to supply the growing birds with plenty of shade, pure, cool water and keep them clean. Mr. White says, if the pulletts are developed properly, they will be ready to produce next fall and winter when egg prices are best. The kind of birds that go into the laying house this fall will be largely determined by the treatment they get this summer, and concludes Mr. White, now is the time to practice proper poultry range management.

MISS AMERICAN LEGION OF TEXAS, pretty Jerry Gibbons, uses a fan to keep cool while trying on a new coat which will be among the advance winter fashions to be shown at the American Styles meeting in Dallas, August 14-19. While most Texans will be complaining about the heat, some 4,000 buyers from all parts of the Southwest will attend the exhibit to see a forecast of what American women will be wearing next winter.

Briscoe County News

British Astronomer Says Moon Receding From Earth

The moon is receding from the earth at the rate of five feet every 100 years, and has been doing so for about four billion years, Sir Harold Spencer-Jones, astronomer royal of Great Britain and director of the Greenwich observatory, told a University of Chicago audience.

Discussing "The Age of the Stars," Sir Harold, who holds the two highest awards in the field of astronomy—the gold medal of the royal astronomical society and the Bruce medal of the Astronomical society of the Pacific—gave a resume of the evidence placing the age of the universe at about ten thousand million years.

"Astronomers can find no conclusive evidence that evolution has been in progress for an appreciably longer time than a few billion years, so scientists can speak, in a sense, of the beginning of time a few billion years ago. What preceded that beginning of time must be merely a matter of speculation.

About 20 years ago, according to Sir Harold, opinion favored a longer time scale of possibly 100 times that age, but in recent years interpretation of various lines of evidence has been converging in favor of the shorter time scale.

"One evidence of the age of the universe is deduced from the igneous rocks of the earth's crust," Sir Harold said. "The decay of uranium and thorium gives lead as one of the end products, but the isotopes are not in the same combination as in ordinary lead. An examination of this lead suggests the age of the earth to be between two thousand million and five thousand 400 million years."

Clothing Course for Men Scores on Cornell Campus

Clothes may not make the man—but they help. At least a group of Cornell undergraduates seem to have come to that conclusion. Twice a week 27 of them from all over the campus trudge up the hill to Martha Van Rensselaer Hall, college of home economics, for a course called "Clothing for Men," offered for the first time this year.

Associate Professor Margaret Humphrey of the department of textiles and clothing initiated the former-only course after numerous questions convinced her of the demand for it.

"What's the most serviceable material for a business suit?" they wanted to know. "How can I get a grease spot off my trousers?" "Should I wear a dark suit to an afternoon wedding?"

Miss Humphrey began working on her curriculum a year ago. She contacted manufacturers of men's suits, shirts, hats, shoes, gloves; and they responded by sending her comprehensive exhibits of the history of men's clothing and the processes of their manufacture from the raw product to the finished shirt, suit, coat or derby. Ithaca merchants also cooperated by sponsoring field trips to their retail establishments.

Comb Honey Production

While many small beekeepers produce comb honey, they do not take full advantage of the opportunities at hand because of poor management. Swarm prevention, or control and proper supering during the honey flow demand more skill and time than for extracted honey production. Wherever beekeepers have followed the recommendations of keeping colonies in two or more hive bodies it is necessary to reduce the colony to a one-story brood nest at the beginning of the clover honey flow. One or two procedures may be followed. The single story brood nest should contain frames of emerging and capped brood and the queen. Depending on the strength of the colony, one to two comb honey supers are immediately added. Queen excluders are NOT needed in comb honey production.

Isaac Adolphe Cremieux

The French statesman who emancipated the Jews of Algeria in 1870 was Isaac Adolphe Cremieux, then minister of justice. Cremieux was born in 1796 and died in 1880. He was famous as an orator and lawyer. He was elected to the chamber of deputies (parliament) and took an active part in the Revolution of 1848. In the second French republic he served as minister of justice. He was responsible for abolishing slavery in the French colonies. When Louis Napoleon seized power, ending the Second republic, Cremieux refused to take any further part in public life. But after Napoleon III was overthrown, Cremieux was made a senator for life.

"Ship's Camel"

In 1690 an ingenious Hollander, Meeuwes Bakker, invented the so-called "ships' camels," consisting of two separate concave drums, not unlike a simplified model of the sides of a modern drydock. These drums were filled with water, attached under the ship with chains, and then emptied, so that they lifted the ship high enough to be towed by fishing boats above or through the mud of Pampus bank. This cumbersome and costly method of bringing ships into and out of the harbor remained in use for 135 years.

Mission and Literature Program For August 8th

The following program will be held at 4 o'clock at the First Baptist Church August 8:

Subject—Christ the Answer for errors of Catholicism.

Song—Amazing Grace.

Prayer—Mrs. G. A. Elrod.

HOUSE JOINT RESOLUTION NO. 15

Proposing an amendment to the Constitution of the State of Texas by adding a new Section to be known as Section 48-b, authorizing the Legislature to provide for the establishment of health units, and authorizing a tax in support thereof.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That the Constitution of the State of Texas be and the same is hereby amended, by adding a new Section to Article III of said Constitution to be designated Section 48-b, reading as follows: "Section 48-b. The Legislature shall have the authority to provide for the organization of county health units and the operation thereof and to authorize counties and cities to provide a tax not to exceed twenty cents (20c) on the One Hundred Dollar (\$100) valuation of taxable property in counties and cities for the purpose of financing the said county-city health units; provided that no such tax shall be authorized except by a vote of the people residing in the city or county in which said tax shall be levied only on county valuations."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the second Tuesday in November, 1949, at which election all ballots shall have written thereon:

"FOR the Constitutional Amendment authorizing the Legislature to pass laws for the creation and operation of city-county health units and to authorize cities and counties to vote a tax in support thereof;" and

"AGAINST the Constitutional Amendment authorizing the Legislature to pass laws for the creation and operation of city-county health units and to authorize cities and counties to vote a tax in support thereof."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution for Amendments thereto.

SENATE JOINT RESOLUTION NO. 4

Proposing an amendment to the Constitution of the State of Texas, by amending Section 19 of Article 16, so as to provide that the qualification of no person to serve as a juror on grand juries and on petit juries shall be denied or abridged on account of sex; providing that existing provisions of the Constitution shall be construed in conformity herewith; providing for the submission of this amendment to a vote of the people of Texas; providing the time, means and manner thereof; and making an appropriation for such purpose.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS

SECTION 1. That Section 19 of Article 16 of the Constitution of Texas be amended so as to hereafter read as follows:

"Section 19. The Legislature shall prescribe by law the qualification of grand and petit jurors; provided that the qualification of no person for service on grand juries or on petit juries shall be denied or abridged on account of sex, and no person shall be exempt from service on grand juries or petit juries on account of sex."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held on the second Tuesday in November, 1949, at which all ballots shall have printed thereon:

"FOR the amendment to the State Constitution qualifying women as grand and petit jurors."

"AGAINST the amendment to the State Constitution qualifying women as grand and petit jurors."

Each voter shall scratch out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment.

Section 3. The Governor shall issue his proclamation calling said election and have the same published and said election held in accordance with this Resolution and the Constitutional Laws of this State, and return shall be made and the votes canvassed and counted as provided by law; and if said amendment is adopted by the vote of the qualified electors of this State, the Governor shall issue his proclamation as required by law.

SENATE JOINT RESOLUTION NO. 1

Proposing an amendment to Section 2 of Article VI of the Constitution, repealing the provision making the payment of a poll tax a qualification of an elector; requiring the Legislature to pass a general registration law for voters; providing for the necessary election, proclamation and publication by the Governor, and making an appropriation.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Section 2, Article VI of the Constitution of the State of Texas be and the same is amended hereby so as to read hereafter as follows:

"Section 2. Every person subject to none of the foregoing disqualifications, who shall have attained the age of twenty-one (21) years, and who shall be a citizen of the United States, and who shall have resided in this State one (1) year next preceding an election and the last six (6) months within the district or county in which such person offers to vote, shall be deemed a qualified elector; provided that before offering to vote at an election a voter shall have registered as an elector before the first day of February next preceding such election. This provision shall be self-enacting. The Legislature shall pass a general registration law requiring registration of voters at a time not later than the first day of February for each election to be held for that calendar year, and the Legislature shall have power to prescribe a registration fee. The Legislature may authorize absentee voting."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State at an election to be held on the 8th day of November, 1949, at which election all ballots shall have printed thereon (or in counties using voting machines the said machines shall provide for) the following:

"FOR the amendment to the Constitution of the State of Texas eliminating the provisions in said Constitution making the payment of poll tax a requirement for voting, and providing for a general registration law;"

"AGAINST the amendment to the Constitution of the State of Texas eliminating the provisions in said Constitution making the payment of poll tax a requirement for voting, and providing for a general registration law."

SENATE JOINT RESOLUTION NO. 5

Proposing an amendment to Section 5 of Article III of the Constitution relating to sessions of the Legislature and what may be considered thereat and an Amendment to Section 24 of Article III relating to compensation of Members of the Legislature; specifying the time when the Amendment shall take effect if ratified; and providing for the submission of the proposed Amendment to a vote of the people.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS

SECTION 1. That Section 24 of Article III of the State Constitution be amended to read as follows:

"Sec. 24. Members of the State Senate and House of Representatives shall receive from the State Treasury an annual salary of Three Thousand Six Hundred Dollars (\$3,600.00), to be paid in monthly installments on the first of each month.

"They shall also be entitled to mileage in going to the seat of government for each session of the Legislature and returning therefrom, which mileage shall not exceed Two Dollars and Fifty cents (\$2.50), for every twenty-five (25) miles, the distance to be computed by the nearest and most direct route of travel from a table of distances to each county seat

prepared by the State Comptroller."

Sec. 2. That Section 5 of Article III of the Constitution be amended to read as follows:

"Sec. 5. Two (2) regular sessions of each Legislature shall be held; and until otherwise provided by law, the time of the convening of the first regular session shall be at noon on the second Tuesday in January of each odd-numbered year, and of the second regular session, at noon on the second Tuesday in January of each even-numbered year.

"At other times, when called by the Governor, the Legislature shall convene in special session.

"Appropriations for monthly recurring expenses and salaries paid by the State shall be made for a period of not more than twelve (12) months.

"At the second regular session of each Legislature, only proposals to amend the Constitution and to make appropriations to pay monthly recurring expenses and salaries and such other measures only as four-fifths (4-5) of the Membership of each House may determine shall be considered."

Sec. 3. The Amendments proposed herein, if ratified by the people, shall become effective January first, A. D. 1950.

Sec. 4. The foregoing Constitutional Amendments shall be submitted to a vote of the qualified voters of this State at a General Election to be held throughout this State on the second Tuesday in November, 1949, same being November 8, 1949, at which election all ballots shall have printed thereon:

"FOR the Constitutional Amendments relative to sessions of the Legislature and to compensation of its members."

"AGAINST the Constitutional Amendments relative to sessions of the Legislature and to compensation of its members."

Each voter shall express his vote on the proposed Amendment in the manner provided by law.

Sec. 5. The Governor of this State shall issue the necessary proclamation for said election and shall have same published as required by the Constitution and laws of this State.

SENATE JOINT RESOLUTION NO. 5

Proposing an amendment to Article III of the Constitution of the State of Texas, authorizing the Legislature to provide for the creation and establishment of rural fire prevention districts.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. That Article III of the Constitution of the State of Texas be, and the same is, hereby amended by adding to said Article a new section, to be known and designated as Section 48-d, reading as follows:

Sec. 48-d. The Legislature shall have the power to provide for the establishment and creation of rural fire prevention districts and to authorize a tax on the ad valorem property situated in said districts not to exceed Three (3c) Cents on the One Hundred (\$100.00) Dollars valuation for the support thereof; provided that no tax shall be levied in support of said districts until approved by vote of the people residing therein."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State at an election to be held on the second Tuesday in November, 1949, at which election all ballots shall have printed thereon (or in counties using voting machines, the said machines shall provide) the following:

"FOR The Constitutional Amendment authorizing the Legislature to provide for the creation and establishment of rural fire prevention districts;" and

"AGAINST The Constitutional Amendment authorizing the Legislature to provide for the creation and establishment of rural fire prevention districts."

Each voter shall mark out one of said clauses on the ballot, leaving the one expressing his vote on the proposed amendment; and if it shall appear from the returns of said election that a majority of said election that a majority of the votes cast are in favor of said amendment, the same shall become a part of the Constitution of the State of Texas.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State.

Sec. 4. The sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of

the State not otherwise appropriated, to pay the expenses of such publication and election.

Football Practice Has Opened at Texas Tech College

Four of the eight former Red Raiders planning to play professional football this fall are working out daily on the field. Others plan to join the group later.

Heading the practicing delegation is Walter Schlinkman, Dumas, named to the second All-National League team last fall as fullback. Schlinkman will be playing his third year with the Green Bay Packers. Bill Kelly, Idalou, end, and Glenn Lewis, Quitaque back, also are working out in preparation for their first year with the Packers. Bernie Winkler, Temple tackle and former Red Raider captain, is getting in shape for his second

year with the Los Angeles Dons. Expected to show up for workouts later are: Charles Reynolds, Odessa, back, signed with the Los Angeles Rams; Bob Flowers, Plainview, Packer guard; Ralph Earhart, Houston, Packer back; and Roland Nabors, Lubbock, New York Yankees center.

The storage for canned foods should be cool, dark, dry, well-ventilated, clean and free from

odors. Even good quality canned foods will develop a flat, sour taste and will lose food value when stored at warm temperatures.

Farmers Fighting Nature's Whims By Seeding Wheat "Below The Dust"

Thousands of dry land wheat farmers this season will plant their seed "below the dust" by using deep seeder boxes and attachments on chisel plows. Testing this method (above) Dannie D. Birt, whose Guymon, Okla., plant produces such specialty farm equipment, deep seeds an Oklahoma Panhandle farm. Reports from areas which had only normal moisture the past year show deep-seeding outproducing disc-seeding by sizable amounts.

CHICAGO—The winning combination of deep seeding and of furrow plowing has passed the experimental stage and will be extensively practiced this season by progressive farmers throughout the dry-land wheat belts.

Chisel-type plows, which leave a deeply-furrowed surface that retains moisture and resists blowing, are in wide use. Deep seeding, which plants the seed 5 to 8 inches deep below the dust where there is usually sufficient moisture for germination, was a natural next step in the farmer's constant fight to master wind and drought. Widespread use has waited only upon development of the right equipment.

Such equipment, in varying forms of a seeder box attachment with flexible seed distributor tubes, has now been field-tested for two planting seasons and will be used this season throughout the wheat country, according to survey information just revealed here.

Production may be the bottleneck this planting season, the survey shows. Only two or three specialty manufacturers are in the field, although reports are that a major manufacturer is tooling up for production.

One of the specialty manufacturers who has pioneered in developing the attachment, reported: "greater interest than has been shown in any postwar farm tool."

This firm, Dandee Manufacturing Company of Guymon, Okla., said that its research personnel has just concluded 22,000 miles of travel throughout the wheat coun-

Silverton Wins in Matched Roping Here Sunday

In the Matched Roping Contest Sunday afternoon between Floydada and Silverton at the local arena, Silverton's time was 284.7 seconds, while the Floydada men used 520.8 seconds.

A very nice crowd attended and had it not been for bad luck in crippling one of the calves the gate fees would have showed a profit for the local arena boys.

J. W. Brannon, Jr., of the local boys says the club appreciates the nice crowd out Sunday.

NOTICE!

On August 22, 1949, the Board of Trustees of the Silverton Independent School District, will receive bids as Depository Bank for the funds of said district for the biennium of 1949-1951. The bank selected as depository to make satisfactory bond said funds.

Board reserves right to reject any, and all bids.

Respectfully,
BOARD OF TRUSTEES,
Of the Silverton I. S. D. 31-2tc

Ritchey-Stephens Wedding Rites Read Sunday July 24

The Harold Ritchey home at Conlen was the setting Sunday, July 24, for the marriage of their daughter, Lorene, to Truman Stephens, of Silverton.

The pretty bride was given in marriage by her father before an altar of white gladiolus. For the wedding the bride chose a powder blue dressmakers suit with white accessories. Her corsage was of white and pink roses. She also carried her white bible.

Miss Wanda Ringo was maid of honor. Her dress was a corded two piece suit, her corsage was white gardenias. Mr. Rance Stephens, brother of the groom was best man.

Miss Ritchey graduated from Stratford High School in 1948, and since then she attended West Texas State College at Canyon.

Mr. Stephens graduated from Silverton High School in 1945.

Following the reception the young couple left for a honeymoon trip to Yellowstone National Park.

Those present for the wedding were the bride's parents, Mr. and Mrs. H. B. Ritchey, her brothers, Raymond, Carl and Robert Ritchey; Mr. and Mrs. Charlie Tabor, Mr. and Mrs. B. L. Stephens, Rance Stephens, Buck Hardin, of Silverton; Louise Neal, of Beaumont, Texas; Mr. and Mrs. Robert Isbell, of Silverton; Mr. and Mrs. H. A. Ritchey, Mr. and Mrs. Cleavinger and Wanda Ringo, of Stratford.

Mr. Stephens is associated with his father in farming south of Silverton, where the young couple will make their home.

Mr. and Mrs. Durward Brown, of Plainview, visited in the H. Roy Brown home over the week end.

Mr. Jim Hill, of Amarillo, visited Sunday with Mr. and Mrs. F. C. Gatewood Sunday.

Wheelock Steps Down As Canyon Football Coach

Canyon High School gridlers, basketballers and trackmen will have to look forward to a new coach for the 1949-50 season. It was learned Tuesday that Coach R. D. Wheelock has tendered his resignation as head athletic coach for the Canyon Eagles.

Wheelock has piloted Eagle teams through the last several seasons with a more than commendable record.

Wheelock in tendering his resignation let it be known that he will still be with the school system but in the new job as a physical education instructor in order that he may devote more time to his farming activities.

"Prospects," he said, "for next year are good. Eleven leftmen will return to the Eagle gridiron club with seven more for the basketball squad."—Canyon News.

Joy Riethmayer One Of 35 Texas High School Students

Denton, Texas, August 2.—Joy Riethmayer, of Silverton, is one of 35 Texas high school students participating in a music choral clinic now in progress at North Texas State College.

Sponsored by the NTSC School of Music to encourage individual growth in talented young singers, the clinic will continue through August 6. Activities will be climaxed the evening of August 4 when the participants join the college Symphony Orchestra and Summer Great Chorus to present a choral concert in the main auditorium.

Miss Riethmayer is a soprano. Mr. and Mrs. Louie Riethmayer and Mrs. Jackie Wingo left today (Thursday) to attend the concert.

L. T. D. Club Met With Mrs. Bob Hill

The L. T. D. Club met Tuesday with Mrs. Bob Hill. The "Guess What's" were given to Mrs. L. D. Griffin and Mrs. Ware Fogerson. Refreshments were served to those in attendance. The next meeting will be with Mrs. J. W. Lyon, Jr.

August of 1948 Most Dangerous of Year For Motorists

Pointing out that August of 1948 was the most dangerous of the year for motorists, Colonel Homer Garrison, Jr., director of the Texas Department of Public Safety, appealed today to all drivers to exercise extreme caution in their driving this month. During August of 1948, 212 persons lost their lives in Texas traffic accidents surpassing the month of December for the first time. December, Colonel Garrison stated, was normally the month of most traffic fatalities.

Mrs. Loyd Jarry, of Tucumcari, visited in the home of Mr. and Mrs. S. Teague over the week end.

PERSONALS

Mr. and Mrs. Perry Thomas and children returned Saturday night from Colorado where they had been on a two week's vacation trip.

Mr. and Mrs. L. B. Hill, Jr., of Frisco, spent last week with their daughter and family, Mr. and Mrs. F. C. Gatewood.

Mrs. Floyd McCoy, of Electra, and Mrs. Lewis Cobb and daughter, of Dallas, are visiting this week with Mr. and Mrs. Harold Seefeldt.

Mrs. Joe H. Smith, Mrs. Grady Adcock, Mrs. Hugh Nance and Mrs. R. M. Hill attended a meeting of the Methodist Church in Lubbock Monday.

Mr. and Mrs. Edwin Crass, Patsy and Bobbie; Mr. and Mrs. Aubrey Rowell, W. D., and Vaughn; Wayma Ray and Gaynell Callaway, all of the Francis community visited Mr. and Mrs. W. A. Rowell Sunday evening.

Mr. and Mrs. Geo. Jones and Billy, have returned from Lubbock and will make their home again in Silverton.

Mr. and Mrs. A. P. Dickerson returned the first of the week from a vacation in Colorado Springs, Colorado.

Mr. and Mrs. W. C. Hubbard and little grandson, Burl, of Hillsboro, Texas, visited Mr. and Mrs. W. L. McMinn over the week end. Mrs. Hubbard is daughter of Mr. and Mrs. McMinn.

Mr. and Mrs. Curtis Cherry, of Vigo Park, visited his brother and family, Mr. and Mrs. T. C. Cherry Sunday.

Penicillin Treatment for Mastitis Now a Matter of Seconds

Easy-to-use tube saves time, is hygienic and painless.

NEW BRUNSWICK, N. J.—Introduction of a new penicillin ointment, which comes in a specially-designed "easy-to-apply" tube, now enables dairymen to treat Mastitis with penicillin easily, effectively, and at relatively low cost.

Mastitis has been one of the dairymen's worst destroyers of profit, for it is an insidious udder infection which makes milk unsalable and progressively reduces milk production, causing losses each year of millions of dollars to the dairy industry.

It was as long as five years ago, in 1944, when it was first discovered that penicillin was effective against *Streptococcus agalactiae*, an organism which was responsible for 80 to 90 per cent of all cases of bovine Mastitis.

In the early days, however, the use of penicillin was restricted by the high cost of the drug and by the complicated procedure of application then obtaining. With the increase in production of penicillin, the price was reduced, but it remained for the veterinary profession and the pharmaceutical industry to perfect a penicillin treatment which would be easy to apply, as well as stable, non-toxic, non-irritating and long-lasting in its curative action.

Working with members of the veterinary profession, scientists at E. R. Squibb Laboratories here were successful in perfecting a penicillin ointment meeting these rigid requirements. It remained, however, to provide a proper dispensing agent, so that the penicillin would get into the infected quarter of the cow easily, quickly and without pain.

Clinical tests of the ointment in tubes showed that no tube then on the market was of the proper dimensions. Veterinarians envisioned a tube with a long, tapered, smooth nozzle which would be snug-fitting when inserted in the teat opening. Moreover, it must be small enough in diameter to go into the teat opening easily and without injury to the quarter.

Such a tube was finally designed by the Veterinary Division of E. R. Squibb and Sons. Tube manufacturers first thought it impossible to make, but this specially-designed tube is now in mass production and is being used by several manufacturers of penicillin.

The thoroughness with which penicillin ointment acts is largely due to the dispersing agent—petrolatum. After injection into an infected quarter, the ointment floats on the milk and is dispersed throughout the udder. The penicillin is released slowly from the ointment, prolonging effective action for as long as 72 hours after treatment.

"Instant-use" tubes of penicillin are available in most stores where drugs are sold. Injection is simple: the dairymen has only to insert the nozzle in the cow's teat opening and squeeze the tube. Treatment is only a matter of seconds. This revolutionary method of treating Mastitis is saving millions of gallons of milk otherwise lost, and saving thousands of valuable cows from slaughter.
