NUMBER 41, NUMBER 44 PUBLISHED EVERY THURSDAY AT SILVERTON, BRISCOE COUNTY, TEXAS THURSDAY NOVEMBER 3, 1949

Funeral Held For Mrs. Mollie Rhoda McGowen Tues.

Funeral services were held Tuesday afternoon at 2:30 at the high school auditorium for Mrs. Mollie Rhoda McGowen, age 72, conducted by Jehovah's Witness Minister, H. B. Gillman, of Amarillo. Interment was made in the Quitaque cemetery under the direction of Douglas Funeral Home. Mollie Rhoda Smith was born April 26, 1877, in San Jacinto County, Texas. She was married to Lee McGowen in 1884. The family moved to Briscoe County in 1918. She passed away in a Lubbock hospital October 30, 1949, after having been in ill health for some time. To this union twelve children were born. Two preceded her in death. Survivors include Mrs. Lem Standler, Plainview; Mrs. Warren Merrill, Quitaque; Mrs. Lettie Moffit, Abilene; Mrs. Claude Loudermilk and Mrs. Elsie Tolar, Silvertown; Ben O. McGowen, Lockney; Other McGowen, Amarillo; Mrs. Dyke McMurray, Dumas; Mrs. Dessie Gerlic, Amarillo; Richard McGowen, Silvertown. One brother, Lee Smith of Bellinger; several half brothers and sisters. Thirty grandchildren and 22 great-grandchildren also survive.

American Legion Auxiliary Elects Officers

American Legion Auxiliary Tuesday evening in the presence of the president, Mrs. A. P. ... After the meeting was held to order the new officers who were installed in office, assumed their respective duties. There will be a meeting on Thursday of each month beginning in January and a planning program for each meeting. All members will be notified in regular time and place and all are invited to attend. Plans were made for the Poppy Sale on Saturday, November 5. After the meeting adjourned cold drinks and refreshments were served to the following members: George Allard, Mrs. Constance Alexander, Mrs. Tom Bomar, George Seaney, Mrs. Jim Seaney, Mrs. Dee McWilliams, Mrs. E. Minaryard, Mrs. Alice Seaney, Mrs. Alvin Redin, Mrs. Crawford, and the hostess, Mrs. A. P. Dickerson.

Record to Hold Musical Thursday, November 10

Students of Mrs. Charles ... will present an informal musical program Thursday, November 10, at the high school auditorium at 7:30 p. m. An entertaining program consisting of solos, ensembles, and instrumental numbers will be presented and the public is invited to attend this program. Artists who will appear will include: James Ross, Linda Adcock, Judy Burson, John Howard Burson, Patsy Burson, Jomi Douglas (accordeon), Ann Ely, Patsy Ely, Betsey Gerald, Faith Smith, Ellen Stevens, Helen ... and Karla Weaver.

Open House Held in New Parsonage Tuesday Night

A housewarming honoring Mr. and Mrs. Arnold Banks and family was held in the parsonage of the Church of Christ, Tuesday night. Many friends and members enjoyed an evening reminiscing over old times. Donations were given to buy draperies for the parsonage. Refreshments of punch and cookies were enjoyed by all.

Percy Reid Grows Huge Turnip—Weights 3 3/4 Pounds

Percy Reid was in the News office Tuesday and had with him a turnip he grew on his mother's farm that weighed 3 3/4 pounds. Mrs. W. W. Reid's farm is about ten miles west of Silvertown.

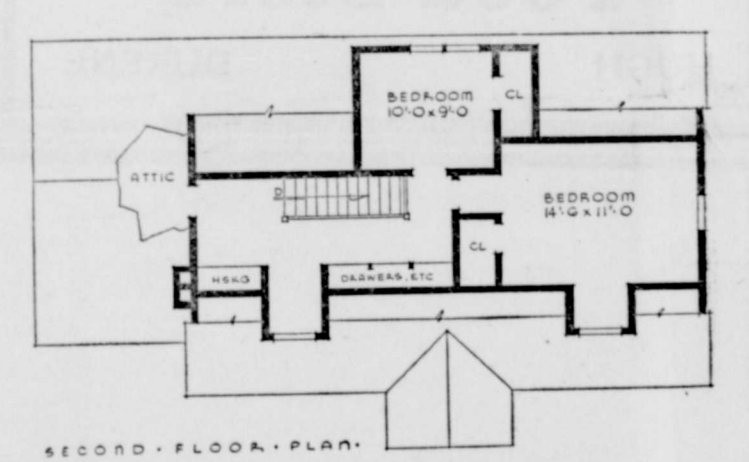

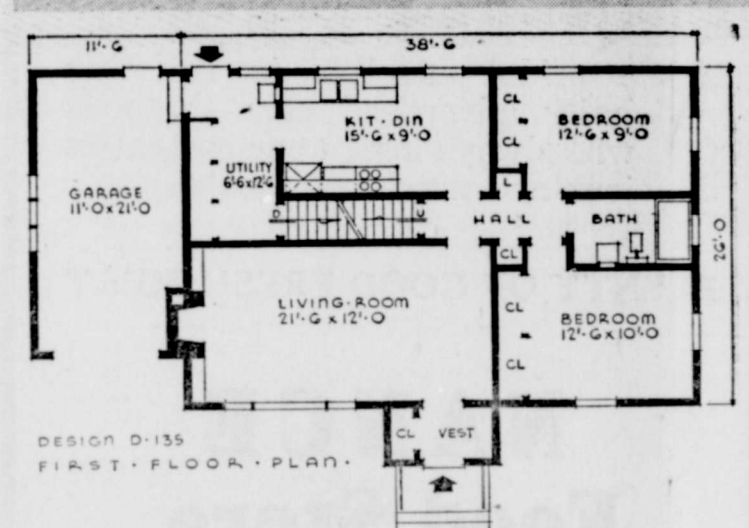

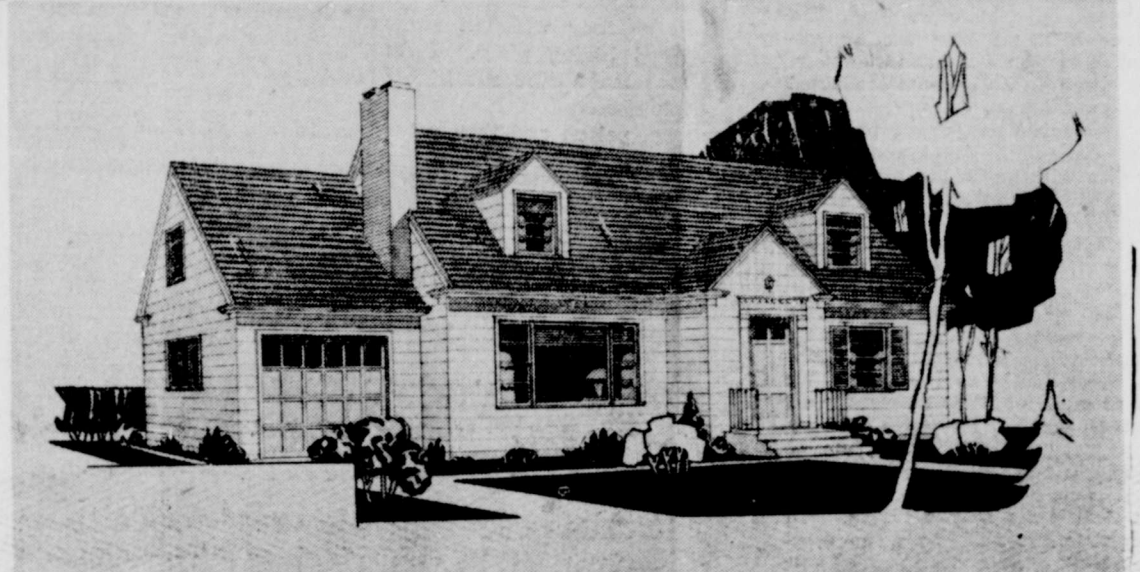

Lions Club Meeting Held Thursday, October 27

The Lions Club met Thursday, October 27 at the Methodist Church. One guest and thirty-three members were present. Mr. H. C. Winborn of Amarillo was guest speaker for the evening. His topic was weather forecasting. Jimmy Howard, Joy Reithmeyer and Clifton Stodghill furnished the music for the evening. The next meeting will be held Thursday, November 3. Cal Farley will be guest speaker for the evening.

Benefit Show at Palace Theatre Wednesday, Nov. 9

The Palace Theatre is giving a benefit show for the Quarterback Club to raise funds for the new stadium that they are working on. The Theatre is furnishing a good first run picture on the night of November 9, and the Quarterback Club will have a stage presentation of local talent. Funds derived from this night's performance go to the club for the stadium fund. Keep this date in mind, and when the pep squad or Quarterback Club calls on you to buy tickets, remember it will benefit the stadium fund. All seats 50c.

A HOME TO LIVE IN

Design D-135. This story and a half house, in the Cape Cod style, has two bedrooms on each floor and an attached garage. The exterior has wide siding and asphalt shingles with a wide dormer on the rear and two small dormers in front for cross ventilation. The vestibule entrance has colonial trim and wrought iron railings. The kitchen has cabinets on opposite walls with the sink under the window and the refrigerator and range on the inside wall, leaving ample space for dining. The rear entrance leads into a small utility room equipped with lavatory and storage cabinet, including coathanging space. The basement stairs lead from the utility room. The living room has a fireplace with book shelves, and a large picture window unit. The bedrooms on the first floor have wardrobe type closets with overhead storage space and the second floor bedrooms have walk-in closets. Linen closets are located in the bathroom hall and a large storage cabinet and closet in the second floor hall. The overall dimensions are 50 feet by 26 feet. The floor area is 1001 square feet and the cubage is 2,719 cubic feet including the basement, but excluding the garage. For further information about type of construction and plan features see your local lumberman.

Silvertown Owls Vs Estelline Cubs Friday Night

Saturday, November 5 is Poppy Day

IN FLANDERS' FIELD By Colonel John McCrae
In Flanders' Fields the poppies blow
Between the crosses, row on row,
That mark our place, and in the sky
The larks still bravely singing fly,
Scarce heard amidst the guns' blow
We are the dead.
Short days ago we lived, felt dawn,
Saw sunset glow,
Loved and were loved and now we lie
In Flanders' fields.
Take up our quarrel with the foe,
To you from failing hands we throw
The torch—be yours to hold it high.
If ye break faith with us who die
We shall not sleep, though poppies grow
In Flanders' fields.

Tour of School Planned For Next P. T. A. Meeting

An error was made in reporting the date of the next P. T. A. meeting. It will be held Thursday, November 10, at 3:00 and will tour the school, planned for you and your child's benefit. Mr. Tally will call attention to specific needs of the school, and Mrs. Bertha Mae Allard will show how we could best help the cafeteria. Plans are also being put into effect to increase the membership. We ask your wholehearted cooperation in this drive. At the next meeting and each succeeding meeting the room represented by the largest number of registered parents will receive a gift. These gifts will be chosen with the idea of beautification of the rooms, so please be there to help your child. He will be gratified to know that you are eager to see him win. But remember you will have to pay your annual dues of 50c to be registered and to count in the contest. For those who wish to subscribe to the National P. T. A. magazine the address is: National Parent Teacher, 600 S. Michigan Boulevard, Chicago 5, Ill.

Hardin Home Scene of 42 Party

Mr. and Mrs. W. H. Hardin entertained friends with 42 in their home Wednesday night. After playing, refreshments of coffee, cakes, and popcorn balls were served to Mr. and Mrs. Clay Fowler, Mr. and Mrs. Barney Stevens, Mr. and Mrs. Printz Brown and the host and hostess Mr. and Mrs. W. H. Hardin.

Singing at Church of Christ Sunday

There will be a singing held Sunday afternoon at the Church of Christ at 2:30. Everyone is invited to attend.

Mr. and Mrs. Oliver Clark spent the week end in Quitaque with relatives. E. B. Tunnell of Plainview was in Silvertown Monday.

Christmas Cards Just arrived at News office.

Mrs. Herman Ely Employed by the News

Mrs. Herman Ely has been employed by the News to assist in gathering news and soliciting advertising. It will be appreciated by the News management and Mrs. Ely if you will cooperate in turning in local news.

Mr. and Mrs. R. C. Hutsell had as their guest last week their son, Lt. R. C. Hutsell, of Patuxent River, Md., and Lt. Grace Raisler, of Fraigo, North Dakota.

Lt. Raisler is a flight nurse with the navy air corp and stationed at Amanda, California. Lt. Hutsell is being transferred to a navy base at Corpus Christi, Texas. He has been in the service since 1942 and this is the first time he has been stationed in Texas.

Miss Mona Brock of Dimmitt, and Jett Mason of Lubbock, visited friends here Friday evening.

Tom Brooks, of Borger, spent the week end with his parents, Mr. and Mrs. Jim Brooks.

A. J. Jones returned Sunday from a business trip to Houston.

Mr. and Mrs. Glenn McWilliams and Mary made a business trip to Lockney Monday.

Mr. and Mrs. Earl London of Corpus Christi have returned to their home after having been here for the past six weeks constructing the home of Mrs. W. A. London.

Clifford Allard and Alvin Redin took Mrs. Redin's parents, Mr. and Mrs. Joiner to Denton for a two weeks visit.

Mrs. Virgil Chitty and Mrs. George Bishop of Amarillo, visited in Silvertown with relatives and friends Saturday.

Manly Wood was a business visitor in Lubbock Monday.

Mr. and Mrs. R. E. Sweek and family spent the week end with his parents, Mr. and Mrs. John Sweek, at Mineral Wells, Texas.

Mrs. J. M. Thompson spent the past week in Lamesa visiting with her daughters, Miss Blanche Thompson and Mrs. Durward Schmidt and family. Mr. Thompson returned for her this week end.

Mrs. Clyde Lightsey and Mrs. Evelyn Watts, were business visitors in Plainview last Wednesday.

Mr. and Mrs. J. E. Wheelock visited Wednesday in Plainview with Walter Watters

Fairy Morrison spent Sunday in Quitaque with relatives.

Mr. and Mrs. Judd Donnell and children, and Mrs. Cora Donnell visited in Canyon Sunday with Mr. and Mrs. Bill Bingham and Mrs. Deene Donnell.

Mr. and Mrs. Hugh Hassell of Kirkland visited in the home of her daughter, Mrs. Lynn Perkins and family Sunday.

Mr. and Mrs. W. B. Hughes had as their dinner guests Saturday Mr. Hughes' brother and wife, Mr. and Mrs. B. D. Hughes of Phillips, Texas. They were on their way to the Baptist Convention in El Paso, Texas

Texas Farmers Spent 5 Million for Nitrogen Fertilizers

The most expensive element in the fertilizer bag is nitrogen and Texas farmers last year spent five million dollars for nitrogen fertilizers. This bill will probably increase yearly unless more soil-building work is done on the land and that means higher production costs, says Leo White, county farm agricultural agent.

Farmers should be interested in cutting costs and Leo says it is possible to save a lot of the money that is now being spent for nitrogen fertilizers by growing it. He says, grow fall or spring seeded legume crops such as vetches, winter peas or clovers and let them convert the unlimited free nitrogen in the air to usable plant food. It is necessary to supply these crops with the low cost phosphate needed to produce more growth and bigger yields from the crops to be planted after the legumes are turned under. Legume seed should be inoculated with the right kind of inoculant before they are planted, he adds.

Growing your own nitrogen for next year's crops is where the profit comes in. You not only get the fertility element placed in the soil in usable form, but the organic matter helps to hold the rain that falls on the land and permits deeper moisture penetration. The fertilizer freight bill and cost of distribution is also cut down.

According to Leo, an acre of rye and hairy vetch can be seeded for about seven or eight dollars, excluding the cost of phosphate. The crops should produce four to five tons of green material and should contain around 75 pounds of nitrogen. The same amount of

nitrogen—supplied in commercial form—usually costs from \$9 to \$15 depending on the source material. That means, says Leo, a saving of \$2 to \$8 in favor of growing your own and the grazing is thrown in as an extra. It is worth money too.

The cost of seed for Madrid and Hubam sweetclover, recommended on heavy soils, will increase the seeding expense for these crops, but on the positive side these clovers definitely decrease cotton root rot. The cotton grower gets a double profit—one from the nitrogen added and another from a decrease in the amount of "dead cotton" in the field next year.

Dollars saved will look mighty good on the profit side of the ledger next year says Leo.

Watch Your Elbows When Driving—Avoid An Accident

Elbow bending often leads straight to traffic accidents, according to the 1949 edition of the National Safety Council's statistical yearbook, "Accident Facts." One out of every six drivers involved in fatal motor vehicle accidents during 1948 had been drinking, accident reports showed. One out of every four adult pedestrians killed in last year's motor vehicle accidents had been drinking, too.

The yearbook also shows that one out of every eight drivers violating traffic laws was driving while under the influence of alcohol.

Milk Diet Alone Found Sufficient For Human Needs

ITHACA, N. Y.—According to results of a survey conducted at Cornell university's animal husbandry laboratory, a diet of milk only may be sufficient to sustain healthy human life.

The nothing-but-milk-for-a-life-time experiment was tried on white rats. They were compared with an equal number of white rats fed the best ordinary diet. Milk lacks copper, iron, manganese, and iodine. These minerals were added to the diet of the milk-fed rats.

Have No Cancer
The rats on milk have lived as long as those on other food. The survivors' ages now are equivalent to the 80's and 90's in humans. Dr. Olive M. McCay, who conducted the experiments, says:

"These studies permit two conclusions. First, that mineralized milk can serve as the sole article of diet from weaning to death. Second, the milk of the cow is not injurious when fed throughout life to a strange species, such as the rat."

Man, who drinks cow's milk, is also a strange species. It is notable in the milk-fed rats that they had no more cancer, no more hardening of arteries, or other diseases, than rats on ordinary food. This ordinary food was the diet that man eats.

The first practical result of these experiments is milk bread, baked at Cornell and sold in Ithaca. This bread is also made by a few commercial bakers and by mental hospitals for their patients. Milk bread is not in any way a treatment for insanity. It is more nutritious than the bread that most mental hospitals have been able to afford. It is made with low-cost, dried skimmed milk. The advantage in the mental hospitals is that their aged patients eat lots of bread.

Animals Like Milk
"One question that has been debated for centuries," says Dr. McCay, "concerns milk as suitable food for grown people. Many feel that milk is not a good food for the adult."

"I suppose this feeling starts from our knowledge that every animal stops nursing and eats the food of its parents. Have you ever asked yourself if this change is due to the unsatisfactory nature of the milk as a food for the adult, or as a means of protecting the health of the mother?"

"Most adult animals will consume large amounts of milk if they can get it. Cats drink milk throughout life. Great Dane dogs drink milk when they weigh 120 pounds. Barge pigs learn to steal milk from cows. We even feed it to chickens and to trout. Certainly milk must be a complete food, or chickens and fish that never taste it naturally would not thrive upon it when they can get it."

War Surplus Materials Find Many Strange Uses

LINCOLN, NEBR.—War surplus materials worth an estimated two million dollars, ranging from 10-cent bottles of disinfectant to \$25,000 radar sets, have been distributed among Nebraska colleges and schools during the past 12 months.

Floyd Parker, director of the war surplus division in the state school superintendent's office, said the materials which helped the United States win the war are being put to uses never dreamed of by their manufacturers.

Parker cited some of the peacetime conversions:
Rubber-covered gasoline tanks—The rubber was cut up for stair pads, and tanks halved and used to store rugs and sweeping preparations.

Gas-mask cases—Used by basketball players to carry their gear.

Pup tents—Sewed together for drop cloths.

Radio equipment parts—Salvaged to set up school-wide communication systems.

Snow shoes—To be used in actual instruction.

Baking powder, 6,000 pounds—Home-economics departments snatched at this item.

Even sample sets of false teeth can be "easily disposed of," Parker said. He added that a few schools have taken materials for new buildings and equipped them, all from surplus materials.

Requirements Recounted For Happy Marriages

CHICAGO.—Are there any special requirements for a successful marriage? Mrs. Emily B. Mudd, director of the Philadelphia marriage council says "yes."

She lists them as follows:

1. The ability to obtain and hold a job that provides enough income to support a home and children.
2. Knowledge of how to maintain a comfortable home and repair usual household equipment.
3. Knowledge of cooking, balanced diets.
4. Ability to budget income and knowledge of what is necessary for financial protection and security.
5. Knowledge of health.
6. Knowledge of sexual needs and behavior.
7. Some knowledge of child care and what planning for a baby involves.

Rid The Farm of Rats And Save Your Grain Crop

Most farms could use the services of the "Pied Piper" for a few minutes at least but since this is hardly possible, you had better make plans to collect a few rat scalps on your own. The best time to get rid of the rats is before the barns and bins are filled with this year's grain crops.

Clean-up work removes hiding places and tends to concentrate scattered rat populations so that they can be poisoned easier. Pile posts and lumber on supports at least two feet above ground. Scrap lumber not worth saving and other junk should be destroyed or removed from the premises. Stack bottoms, other feed waste and manure piles should be scattered in the field so they will not give rats a good hiding place. Tall weeds also make fine rat hide-outs if left standing.

Clean up, poison and then rat-

proof farm buildings. Farm buildings in a good state of repair aren't likely to be infested with rats. Check to see that walls are tight, and foundations and floors are in good shape.

Mr. and Mrs. Olis Chitty and her brother, Mr. and Mrs. Steve Morgan, of Kress spent the week end in Oklahoma City.

BALANCE YOUR GRAIN FOR EXTRA EGGS

PURINA CHOWDER

JUST ONE TABLESPOON Per Hen Per Day DOES THE JOB!

Yes, it takes so little Purina Chowder to turn your grain into a scientifically balanced egg maker. You'll see the difference in egg production... a difference in your birds. That's because Chowder supplies what your grain lacks to do a job in the hen house. You'll be pleased, too, to learn how little it costs to get more eggs from your grain the Purina way!

LET US GRIND YOUR GRAIN and Balance it with PURINA CHOWDER

Bring in your grain. We have accurate grinding and mixing equipment. Our formulas are Purina Approved. We have one to fit your grain. Takes only 100 lbs. of Chowder to each 400 lbs. of grain.

WE ALSO HAVE THESE EGG-MAKING GRAIN BALANCERS

PURINA LAY CHOW **PURINA EGG CHOW**

A supplement for scratch grain. Feed half and half with grain for lots of eggs. An economical ration that gets results.

No grinding or mixing. Just put grain and Egg Chow in separate hoppers. Birds eat about 3 times as much grain as Egg Chow.

Waukegan Municipal Garden Selected to Test Roses

The association of the country's leading rose growers and nurserymen, has designated Gage park, Waukegan, Kas., as the newest of its gardens for the study of new varieties.

The unique testing program was introduced 10 years ago to assist the public in selecting roses of the best quality for their gardens. There are several thousand varieties available to the average grower, he needs some sort of guide to help in the selection of those that will do well in his particular section of the country.

To this end, the system of "pre-testing" requires that new varieties undergo a two-year period of trial in gardens located throughout the country before they are put on the market. During the trial period, they are thoroughly studied under widely varied soil and climatic conditions.

Test gardens are located at leading universities, nurseries and municipal gardens where impartial reports study the plants under actual growing conditions. Each plant is carefully checked for such characteristics as hardiness, fragrance, length of flowering period and all other important qualities of a top flight rose. Plants are identified only by a code number and scored on the basis of a uniform point system. Only those meeting rigid standards over the two-year trial period may be awarded the coveted designation of "All-America Rose Selection."

Help for Night Blindness Seen in Action of Niacin

Recent studies have revealed that niacin, of the vitamin B family—known as a pellagra preventive—is also important in the mechanism of seeing, according to the Better Vision Institute.

The retina contains a red substance called rhodopsin, which bleaches when exposed to light. The bleaching causes the chemical processes responsible for seeing, including the making of yellow substance called retinene, which is converted to colorless Vitamin A, necessary for night vision. The Vitamin A is joined to a protein to produce more rhodopsin, and the cycle continues.

The recent research shows that the conversion of retinene to vitamin A is brought about by the action of niacin. This discovery is expected to aid in the treatment of visual difficulties, especially forms of night blindness.

The importance of vitamins A and B to eyes makes an A-B-C of eyes, the Better Vision Institute points out—the three Cs being Care, Correction, and Conservation.

Sheep Pull Fast One

Sheep owners may be wasting their money and fooling themselves when they attempt to treat parasitized animals by so-called easy methods. An Ohio veterinarian reports, in the professional magazine "Veterinary Medicine," that sheep are somewhat like children when it comes to taking certain drugs. For example, if given a large medicated bolus or tablet and then turned loose, the sheep may regurgitate it and let it drop to the ground as soon as the owner is out of sight. Or, if fed salt mixed with large amounts of phenothiazine, the animal may refuse it.

The writer says that use of a stomach tube is the foolproof way to administer parasite-killing drugs to sheep, regardless of what kind of drug is used.

Agricultural Experiment Station

The world's first agricultural experimental station (and still one of the most famous) was Rothamsted in Hertfordshire, England, developed in the middle years of the last century by John Lawes, who "invented" superphosphate, and in so doing made enough money to finance the center. At Rothamsted the foundations of modern fertilizer practice were laid, the importance of soil micro-organisms first emphasized, and the possibilities of soil fertilization first exploited. Research into soil science and agronomy is still carried on there, some of it on by far the oldest continuously maintained test fields in the world.

Prevention of Fire

Years ago, a disastrous fire was regarded as an act of God. There was little organized effort to prevent fires. Little information on the subject was available. When a man's property or business was destroyed by fire, it was no one's affair but his own. Today there is a more enlightened viewpoint. Fire destruction is a matter of national concern. Its effect upon the community has become the community's business. Prevention of fire is regarded as an important attribute of good citizenship.

Exotic Birds

Man has made errors in introducing exotic birds into this country, and when he makes such mistakes, he generally pays dearly for them. Such is the case with the starling which was imported from Europe in 1890 and 1891, when approximately 100 birds were liberated in Central Park, New York City. Further importations became illegal in 1900.

Rush for Gold in Finland Stirs Land of Laplanders

A gold rush recalling sourdough days in the Klondike is under way north of the Arctic Circle in Finland's land of the midnight sun, reindeer herds, and a sturdy dwarfish people called Lapps.

The latest gold finds now reported to be luring Finnish fortune seekers from all over the country have turned up along the Lemmen river, not far from the borders of neighboring Norway and Sweden. Last year the gold cry was raised along the birch-framed banks of the Ivalo in the same Finnish region. And two years previously gold was discovered farther west in Norwegian Lapland.

The Lapland region, stretching from Norway's far-north coast to Russia's White sea, is aptly named skuleap. It already is noted as an iron and copper producer, especially in the Swedish section where some of the world's largest iron deposits are found.

The Lapps are real-life counterparts of Scandinavia's legendary dwarfs. Of Asiatic origin, they usually are four and a half to five feet in height, stout, and with great physical strength.

They make a living chiefly by fishing, hunting, and tending reindeer. Farming in their treeless country of frozen marshland and tundra is a meager business.

The reindeer to the Lapp is what the coconut palm is to the South Sea Islander—food, shelter, and clothing. Lapps eat reindeer meat and cheese; drink reindeer milk; use antlers and bone for tools, and sinews for thread. They dress in reindeer skin, and for warmth stuff their boots and gloves with grass.

U.S. Railroads' Progress Helped by Standard Gauge

Development of American railroads into the world's greatest transport system would not have been possible without standardization of railroad gauges.

Where uniformity was achieved, the interchange of traffic from one line to another and through services became possible. In early railroad history, almost every other road had a different gauge, causing freight and passengers to be shifted from one train to another at connecting points.

When the industry was in its infancy, each new road set its own gauge, probably not foreseeing the congested rail system of today. As late as 1871, there were more than 23 different gauges used throughout the country, ranging from three feet to six feet. In the same decade, numerous narrow-gauge railroads were built, causing a "narrow gauge fever." Altogether, there were 148 different lines, totaling 4,188 miles of track, with a three-foot gauge in 1879.

Habitats of Tapir

There are four kinds, or species, of tapir, all closely related and classed in the genus Tapirus. Three species variously distributed in tropical America, from southern Mexico into southern Brazil and Paraguay, are the largest indigenous land animals south of the United States. The fourth species, the Malay tapir, lives in distant Burma, Siam, French Indo-China, the Malay States and Sumatra. Were it not for investigations into the past history of the earth, this remarkable instance of discontinuous distribution between American and Asiatic tapirs would be difficult to explain. We know that in past epochs tapirs abounded over considerable portions of the northern hemisphere. Adverse climatic conditions, combined with the rise of animals, caused the extinction of tapirs except for the few survivors that wandered southward into their present widely separated habitats.

Effects of Color

Industry is constantly learning new tricks with paint and color. There is, for instance, the matter of the heat contained in sunlight. This heat radiation is subject to control through the use of color. Dark colors absorb heat rays; light colors reflect them and therefore cast them away. Oil companies make use of this knowledge when they select white and light tints for painting tanks to keep their gasoline evaporation as low as possible. In gasoline storage tanks, the U. S. bureau of mines reports, a white tank had an evaporation loss of 1.40 per cent; a red tank had a loss of 3.54 per cent—more than double. This test was made over a four-and-a-half-month period.

Opening Ammonia Bottle

Ammonia water, as purchased and used for household purposes rarely contains more than 5 per cent of ammonia and presents few risks. However, if the bottle becomes heated and is opened while in a heated condition, the pressure developed in the bottle may cause a spray of the solution to be thrown into the face. When a bottle of ammonia water is opened, it should be opened in a well-ventilated place and with the bottle held well away from the face to prevent the escaping fumes from coming into contact with the membranes of the eyes, nose, or mouth and irritating them.

PERSONALS

Mr. and Mrs. Rex Holt and daughter, Mr. and Mrs. Homer Stephens and children, Mr. and Mrs. Ewing Edwards and children, Mr. and Mrs. Doyle Stephens and daughter had dinner with Mr. and Mrs. W. A. Stephens Sunday.

Mrs. Perry Thomas, Jr., returned Monday from Van Alstyne, Texas, where she has been at the bedside of her sister and brother-in-law, Mr. and Mrs. D. W. Wilson who are both ill.

Howard Harvey who was injured in a car wreck is much improved.

Mr. and Mrs. Bill Swendel of Hart spent Friday with her parents, Mr. and Mrs. Jim Clemmer.

Mr. and Mrs. Berna Stewart entertained with a fish fry Sunday night. Out of town visitors were Vernon Pruett, George Kirby and Jake Crouch of Brownwood, Mr. and Mrs. J. W. Harvey of Quitaque, and Mr. and Mrs. Marvin Carter and Mr. and Mrs. Charles Cowart of Silvertown.

TRY A NEWS WANT-AD

Here is a delightful dinner in a dish. Prepare the Golden Corn Meal Ring first, then fill it with the tangy Meat Sauce.

Golden Ring
1 cup enriched corn meal
3/4 cups water
1 teaspoon salt

Mix corn meal with 1 cup cold water. Add salt to remaining 2 1/2 cups water and bring to boil. Add corn meal mixture stirring constantly. Cook until thickened. Continue cooking over low heat 10 minutes, stirring frequently. Add cheese and Worcestershire sauce, stirring until cheese is melted. Pour into greased 8-inch ring mold. Let stand in warm place while preparing sauce.

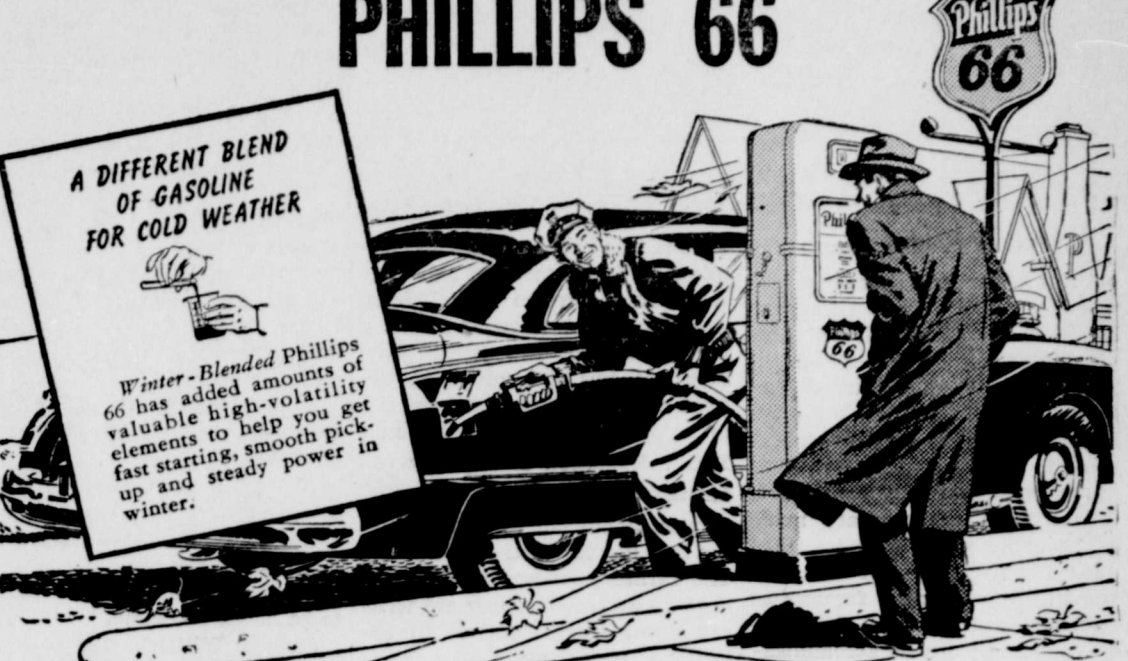

Meat Sauce
2 tablespoons cooking oil
1 small clove garlic, minced
1/2 cup chopped onion
1/4 cup chopped green pepper
1 cup diced celery

1/2 pound ground beef
2 1/2 cups tomatoes (No. 2 can)
1 teaspoon salt
1 bay leaf (optional)

Heat oil in large skillet. Add garlic, onion, green pepper, celery and ground beef and cook until lightly browned. Add tomatoes, salt and bay leaf. Cook slowly about 30 minutes. Unmold ring on large plate, piling sauce in the center. Makes 8 servings.

Supervisors for Cap Rock District—Earl I. Cantwell, Chairman; Chester Burnett, Bray H. Cook, L. A. McJimsey and R. L. Brunson.

In the very near future the harvest of cotton and grain sorghums in the Cap Rock Soil Conservation District will be completed, and the terracing season will begin. Due to limited personnel, it will be difficult for the soil conservation service technicians to fill all requests for lines at the exact time they are needed, unless these requests are made as early as possible and spaced over a longer period of time. We want to help as many farmers as possible, and through your cooperation this can be accomplished.

We would like to offer this suggestion to the farmers in the Cap Rock Soil Conservation District who are not cooperators; but plan to apply conservation measures on which they will need technical assistance. The District is governed by five local men known as the board of supervisors. To become a cooperator, the farmer makes an application for assistance to this board. When the application is approved a soil conservation service technician known as a soil scientist makes a survey map of the farm. This survey shows the soil type, the slope of the land and the amount of erosion that has taken place. This information is used by the farmer and a soil conservation service technician in determining the best use for each acre of land. The farmers set-up or the practices he intends to apply are written down and submitted to the board of supervisors as the farmer's plan. If the board of supervisors approves the plan, the soil conservation service is then ready to render whatever assistance it has available. This process takes a considerable length of time. Therefore, if you are going to need assistance in the application of conservation practices, you should submit an application for assistance to the board of supervisors well in advance of the

BRISCOE COUNTY HOSPITAL NEWS

Mrs. Norlin Dudley underwent major surgery last Wednesday and was dismissed last Thursday.

Ramon Lewis of Quitaque entered the hospital for medical treatment, last Wednesday and was dismissed Thursday.

Mesdames Gordon Alexander, Clyde Wright, Warner Reid and Mrs. Clyde Tunnell gave interesting papers.

Mrs. Alexander presided over the business session.

Ask your neighbor about Frigid-aire, she has one. Simpson Chevrolet Company. 39-tfc

Mrs. Clyde Lightsey underwent major surgery Monday at the Plainview Hospital. Her condition is as good as can be expected.

Mrs. Scott Dunham and Mrs. Wade Welsh took Mrs. Dunham's father, Mr. Walter Watters to Tucumcari, New Mexico Wednesday.

CARD OF THANKS

We wish to thank everyone for the nice cards and letters we received while we were in the hospital and to the friends that shocked our feed and tended to our things. We are grateful and will never forget you.

Mr. and Mrs. M. C. Kitchens.

Miss Joy Brown of Canyon has been visiting her family, Mr. and Mrs. U. D. Brown over the week end.

time that it will be needed. For further information inquire at the Soil Conservation Service Office.

Technicians of the soil conservation service have made topographic maps on the farms of Sid Thomas and Roy Montague. The maps will be used in designing a system of irrigation for improved water application.

Hallowe'en Party Held In Home of Mrs. Cliff Allard

It was a spooky Hallowe'en at the home of Mr. and Mrs. C. O. Allard when a group of ladies of the W. M. Society gathered for a happy time.

Mrs. Allard welcomed the guest with a "happy good morning." While Mrs. Stodghill pinned a corsage of yellow mums on the guest, Mrs. Roy S. Brown registered the members in a white leather guest book with a remark to be remembered by the "spooky hostess."

The house was beautifully decorated with seasons cut flowers and Hallowe'en decorations. The serving table was covered with a Brazilian cloth, with a center piece made up of pumpkin stage coach drawn by three miniature horses.

Mesdames W. E. Stodghill, Mrs. Carroll Garrison and Mrs. R. H. Stodghill assisted Mrs. Allard in serving "the witches brew," a delicious hot tea, and also coffee, fruit drop cookies and peanut butter cookies.

After the refreshments, a pumpkin seed and musical contest of who's who? was enjoyed by the members. Mrs. Jim Bomar led the group in singing "Blessed Be the Tie," after which each guest left wishing the hostess another good time.

Those present were: Mesdames Winnie Wimberly, Ruby Gilkeyson, Pearl Simpson, L. Dowdy, Mae Bomar, Susie Garrison, Lydia Arnold, E. Stephens, H. P. Howard, Sam Brown, Vivian Hughes, Lottie Garrison, Ollie McMinn, W. L. McMinn, Katie Jackson, Jewell Lyons, Zollie Brown, Minnie Haynes, W. H. Tension, C. R. Badgett, Charlie Bomar, Dossia Stodghill, Cleora Dickerson, Clarabell Stodghill, Marie Garrison, Jessie Bomar, and the hostess Hannah Allard.

Christmas Cards \$1.00 per box at News office.

Father and Daughter Honored on Birthday

Mr. and Mrs. Pascal Garrison entertained in their home Sunday honoring their daughter on her sixth birthday, also his father, Mr. Gabe Garrison on his birthday.

Those present were: Mr. and Mrs. George Seaney, Mr. and Mrs. Cecil Seany and David, Mr. and Mrs. Arnold Brown and children, Mr. and Mrs. Pat Codgill and son of Liberal, Kansas, Mr. and Mrs. Gabe Garrison, Mr. and Mrs. Leroy Saul of Kress, Texas, Mr. and Mrs. Vernon Garrison and family, Mr. and Mrs. Carroll Garrison and family, and Mr. and Mrs. Don Garrison.

Miss Frances Lee Becomes Bride of W. E. Buchanan

In a double ring ceremony read recently in the Gomez Baptist church parsonage, Miss Frances Lee, daughter of Mr. and Mrs. Ben Lee of Brownfield, became the bride of W. E. Buchanan, son of Mr. and Mrs. A. B. Buchanan of the Gomez community.

Rev. T. L. Burns, pastor of the church, performed the rites in the parsonage which was decorated in garden flowers.

Miss Ruth Lee, sister of the bride, was the bride's only attendant. She wore a dress of blue organdy, white accessories and a corsage of white carnations.

The bride's wedding ensemble was a street length dress of champagne French fashioned with sherry bodice, a cape effect across the back and three-quarter length sleeves. She wore white accessories and a corsage of talisman roses.

Burl Blake served as best man. Both the bride and groom are 1947 graduates of Brownfield High School. Mrs. Buchanan attended Bethany Peniel college at Oklahoma City, Oklahoma. Mr. Buchanan attended Wayland college at Plainview.

After a brief wedding trip, the couple is at home in Brownfield.

Mr. Buchanan is a grandson of Mr. and Mrs. Ed Brown of Silverton.

SCOUTS ENTERTAINED WITH PARTY IN SPONSOR'S HOME

Scout Troop No. 2 was entertained with a Hallowe'en party and wiener roast in the home of their sponsor, Mrs. Lem Weaver. Afterward the scouts went about town playing "trick or treat" on their friends. Several members were present.

Mrs. R. C. Hutsell Feted on Birthday at Simpson Home

Mrs. Pearl Simpson and Mrs. R. H. Stodghill were co-hostess at a luncheon Tuesday honoring Mrs. R. C. Hutsell on her birthday at the Simpson home. The rooms were decorated with chrysanthemums and potted plants.

Upon the arrival of the honored guest the group sang "Happy Birthday to You."

The luncheon consisted of fried and baked chicken, salads, creamed macaroni, beans, pie, cake and coffee.

The honoree friends presented her with many beautiful gifts including two beautiful table lamps.

Mesdames G. R. Dowdy and Grady Wimberly sent beautiful bouquets of chrysanthemums.

Twenty two guests were present for the occasion.

Mr. Grady Wimberly was a business visitor in Amarillo Monday.

Hadacol Now Nation's Best Selling Tonic

Sale of Hadacol, which is made with five of nature's B vitamins and four important minerals, has spread from a small section of Louisiana to more than 20 states, and is now the nation's largest selling tonic.

Dudley J. LeBlanc

Mr. LeBlanc is directing the south's largest advertising campaign for Hadacol and newspapers, especially weekly newspapers, are playing an important part in this effort.

The LeBlanc Corp. is using every weekly and daily newspaper in Louisiana, Arkansas, Mississippi, Texas, Oklahoma, Tennessee and Alabama this week to tell the story of how Hadacol put the Chief of Detectives of Hot Springs, Ark., back on the job after all else failed. He had suffered from a deficiency of B vitamins and certain minerals, which Hadacol contains.

"You must use the newspapers, daily and weekly, if you want to bring your message to the grass roots of America, the towns and wonderful rural areas," said Mr. LeBlanc. Besides being founder and President of LeBlanc Corp., Mr. LeBlanc has many other business interests, and is President Pro-tem of the Louisiana state senate. He is well known for his work for pensions for old folks and other social advances.

'Dumb Animals' Are Anything But Dumb In Survival Battle

NEW YORK.—Three animals, generally thought of as "dumb animals" are proving to be anything but dumb as they continue to thrive amidst the perils of civilization and the danger always inherent in the presence of man.

These "dumb" animals apparently have developed a trait which many people find it impossible to develop—the faculty of getting along with mankind. The success of the animals seems to point up these requirements if you're to get along with men:

Be sly, smart, fast, secretive.
Or wear a coat of mail, and be quick to go underground.
Or be shy and bashful, and keep out of man's way.

These might be the secrets of success stories told by three strikingly different wild animals, with one thing in common. They are all getting along with man so well that they are extending their range in the United States.

This trio is the coyote, armadillo, and whitetailed deer. It's not only a matter of their habits, but circumstances which make them successful while so many other animals face danger of extinction, says Dr. Harold E. Anthony, curator of the department of mammals, American Museum of Natural History.

Smart is the coyote. Originally it lived in the open country of the west. But now it has worked east to Ohio, and north into Alaska. It's even found east of Ohio, but got there largely through free rides from man. Coyote pups make good pets, but later may escape their owners, or be turned loose.

"Unlike the wolf, the coyote seems to thrive near civilization," Dr. Anthony said. "It is well able to take care of itself, learns how to avoid traps and can be so secretive that few are aware of its presence. Although constantly hunted, trapped and poisoned, the coyote appears to be holding its own over much of its range, even though it is becoming rare in some sections."

Wolves battle the coyote, too, particularly in the north. But the coyote usually gets out of the way, through cleverness or speed.

Man Some Day May Kill off Thunderstorm Start

LAKE SUCCESS, N. Y.—Man someday may kill off thunderstorms before they lash out with an "atomic bomb" punch in damaging winds, hail and lightning, according to Dr. Vincent J. Schaefer.

Even a small thunderstorm, he said, releases energy equal to several atomic bombs.

Man may also be able to create sky reservoirs of snow and get rain or snow at times where he wants it. Flying ice patrols may keep air lanes free of icing conditions. Or planes may shoot holes into dangerous clouds ahead.

All these are possible benefits from new studies of weather control, he told the United Nations conference on conservation and utilization of resources.

Dr. Schaefer nearly three years ago found ways of producing snow or rain from certain clouds by seeding them with dry ice, silver iodide or water.

Snow or rain can't be brought down from any kind of cloud, any time. And there's no apparent way to break a drought when there are cloudless skies, or clouds with only a little water in them, he said.

Wisconsin Shop Deals Out All Sorts of Magic Items

MADISON, WIS.—Do you like to be fooled, tricked, caught on tricks, gimmicks and gadgets, or to catch others by the use of such gadgets?

If you do, you can find them along with a thousand other gimmicks, at Art Brush's magic and fun shop here.

Art, a professional magician, prefers shop keeping to a try at the big time with a road show or theater circuit, "mainly because in this business the customer is always wrong."

"Look," he says, "a customer comes in and asks for a simple trick. I work it for him, but I won't tell him how. He buys it anyway. See what I mean?"

"Not only that," he added, "but now that women have entered bars, this is the only field left solely to men."

It all started 25 years ago, when Art was six years old. A relative gave him a magic set for a Christmas present, and "the idea just stuck." Now Art is listed among the top magicians of the country.

Once he gave a command performance for an Arabian sheik. That was during the war when Art was stationed in Arabia with an army airways communications outfit. The sheik had heard about "the astonishing American who can make a man dead and bring him back again."

Art thought the sheik was probably referring to hypnotism. Apparently he was, for Art was rewarded for his demonstration with a gold threaded headress, usually worn only by state dignitaries.

The story itself epitomizes the fine points of the flamboyant art of deception.

Whittemore Selected As County USO Chairman

Perry Whittemore has been named chairman of Briscoe County for the Texas USO Reactivation Campaign, J. H. Harrison, district chairman, of Childress, Texas, announced this week.

The quota for Briscoe County is \$262.50, which is Briscoe County's share of the \$500,000 goal for Texas.

Mr. and Mrs. Pat Codgill of Liberal, Kansas were week end guests of their daughter, Mrs. Marcella Brown and family.

Rev. Grady Adcock Attended School of Evangelism

Rev. Grady Adcock, Silver Methodist pastor, attended school of evangelism at the Arlington, Texas Methodist church October 24-27. It was a part of the program of advance which seeks to add two million church members.

Sessions of the school were conducted mornings and afternoons. Each minister attending from distance assisted in a visitation evangelistic program in one of the nearby local churches in the evenings. About 1,200 comments to Christ and church membership resulted.

The school, attended by 150 Texas ministers, was led by Rev. Dawson C. Bryan of the Board of Evangelism, Nashville, Tenn., and Bishop William C. Martin of Dallas-Fort Worth area.

EDITORIAL

Have you noticed our campus lately? Do you think we could improve its looks? I do.

Everywhere you look, you see paper of one kind or another. Fruit peelings are also seen quite often. Whose fault is this? Yours and mine, no one else's.

I am sure our campus looks much worse to visitors than it does to us. We are so used to seeing it dirty, we scarcely notice it. When a visitor approaches our building, I am sure he thinks we are just about as trashy as our campus.

Let's try to make that first impression a good one, because first impressions are always remembered.

The next time you see a piece of paper laying on the ground, why not pick it instead of throwing another down to keep it company?

From the appearance of the beer cans found laying around every morning. It looks like we might have some stinks in school. Please put them elsewhere kids; after all, this isn't the city dump.

It seems some individuals insist on breaking windows at school. The glass is a hazard to the pupils as well as a deterioration to the beauty of our campus.

The grass is one of the most becoming features about our campus. When we walk on it instead of on the sidewalks, we deteriorate the looks of it to a certain extent.

Playing football on the grass is a bad habit of the smaller boys. I guess it is pretty nice to have something soft to fall on, but please find something other than the grass.

The next time you come to school, just look around and see what you can do to help the looks of old S. H. S.

ARE YOU PREPARING TO MAKE THE BIGGEST MISTAKE OF YOUR LIFE?

You may not realize it, but you are; that is, if you are intending to make your high school work your final schooling.

The Gallup Poll recently published results obtained when they asked grown people of every age and occupation this question: "What do you consider to be the greatest mistake of your life?" Over twenty percent of both men and women answered: "Failure to get enough education." This answer was given twice as often as the next high ranking answer.

Every high school student should seriously consider these results. No matter how much we may scoff at older folks' advice, we must admit that an older person is in better position than you or I to judge the greatest mistake of his life.

HALL PROBLEM CAN BE SOLVED

One of the major problems in our school today is that of passing in the halls. This problem of confusion in the crowded halls cannot be solved without the cooperation of the student body.

The time that is allowed between classes is sufficient enough so that no one need rush in order to get to his class on time. Students who talk or loiter in the halls block the way of others who are trying to get to their classes. Pushing and shoving in the halls are also unnecessary.

The problem in the halls can be solved only if the students will follow these few simple rules: first, do not shove or push in the halls; second, do not run up or down stairs; third, do not enter a room as students are leaving; and fourth, do not talk or loiter in the halls.

By having a little more consideration for their fellow members, the student body can decrease the confusion in the halls.

Answer to last week's riddle: Donald Rhea.

The Senior Class is sorry to have lost a student last week. If the boys keep dropping out of school, maybe the girls will get to rule like they want to for a while. Laying all jokes aside, we are sorry to have lost you, Jimmy.

The Seniors had a class meeting last week and selected the invitations to be used at the end of the year. We also selected Mr. John Lowrance as co-sponsor of our class.

THE OWL HEARD...

Well, Peggy, how are you and Richard getting along? Huh!

Gloria's party seemed to have been swell. It seems everyone had a wonderful time, including Valda Jo.

What curly headed Junior boy and diminutive Senior girl just plighted their troth?

Are the engagement rings a passing fancy? Let's hope not. We sure think they are pretty, all of them.

Well, Wayne, it seems you have gone back to the old fiance. Maybe her dad wasn't so mad after all.

Who put a dead chicken in a certain party's jeep Saturday night? I wonder if Flute and Melvin had anything to do with it.

It seems our exes still want to get a glimpse of the old home town occasionally. Those home over the week-end were: Joyce Deavenport, Mickey Cornett, Joyce Brown, Jim Mercer, Edwin Jowell, Walter Bean, Clifton Wells, LaRue Gilkeyson, Beth Joiner, Stanley Price, Don Burson, and Beebie Garvin.

Mona Brook was over to see the Owls big game of the season Friday night. We are always glad to see Mona back again.

I wonder what happened to Jerry's car Sunday night? Does anyone know. You might ask Donald and some of the rest of that crowd.

Well, Mary, who were you and Sandra with Saturday night? It seems Mary found something new and Sandra pulled out something old. Quite a coincidence that they were brothers!

When are Sam and Zephyr going to learn? Every time you see them, they're fighting.

Well kids! Did you notice the

change of couples Saturday night? Mary Lou was with Roxie and Mary Tom was with Pat.

My! Haven't the waste baskets been full since everyone got their pictures.

Does Wayne just grow dead chickens or could it be that someone likes him well enough to give one to him.

Why was Junis absent Monday morning?

Joe Wayne got tired and finally put his arm down.

Where did Lettie get the boy's ring she is wearing?

PARADE TO TURKEY

At the request of the Quarterback Club, sixty-nine cars followed the pep squad in a parade to Turkey last Friday night. Many other cars either preceded or followed the main parade until over a hundred cars were in Turkey from Silvertown. It was, indeed, a beautiful sight to see the long line of cars winding their way down the Cap Rock. Most of these cars were decorated with streamers in red and white, the school colors. As they passed through Quitaque all the cars began to honk and inhabitants rushed to the doors to see what was happening.

The pep squad girls, the football boys, and the Quarterback Club wish to take this opportunity to thank the citizens of Silvertown and this community for their splendid support and fine cooperation.

TURKS DEFEAT OWLS

In the District 2-B contest, Friday the 28th, the unbeaten Turkey Turks were victorious over the Silvertown Owls.

Bobby Lane, Turk quarterback, handled the ball excellently for the Turks. Lane with Logan was a pair that was hard to stop.

The Turks made touchdowns in the first, second, and third quarters but were unable to cross the goal in the fourth quarter.

The Owls came to life late in the fourth quarter and Donald Rhea crossed the line for the Owls' only touchdown. The conversion was kicked by Donald Paige.

Final score: 18-7.

The Owls will meet the Esteline Bearcubs on Friday, Novem-

ber 4th on their home field.

GIRLS' BASKETBALL NEWS

The Basketball Girls are trying to raise enough money to buy complete new uniforms.

Their first project is a play, "The Hermit House", which is to be given November 18th. There will be other things in the future.

The girls are working hard under Coach Wilmoth and he thinks we have a winning team.

The game between Quitaque and Silvertown on Wednesday the 26th was quite an event. Bonnie Watters was high-point man in the Quitaque game. At the end of the game the teams were tied and they had to play three overtime periods before the winner was declared. The Owls came out victorious with the score 31-29.

The games scheduled for this week are: Quitaque, there, on Monday; Lockney, there, on Wednesday; and Tulia, here, on Thursday.

Everybody should help to back the team. Let the girls know that you are rooting for them just as much as you are for the football team.

THE EIGHTH GRADE

The eighth grade has been studying Parliamentary Procedure. The boys find the knowledge very useful in their 4-H Club meetings.

The teachers of the elementary grades are hoping for lots of visitors on next P-T. A. meeting day. They are anxious to meet the parents whom they do not know.

The Grade School Football team defeated the Turkey Grade School last Thursday night. Score: 27-18.

Mrs. Jackie Wingo, music teacher, attended a conference and musical program in Amarillo Monday afternoon, October 31st.

The State Department of Education advocates one or two "visiting" days for each teacher during the school year. The purpose is for the teachers to visit other schools to learn more effective ways of handling their own problems.

The grade school children have "wished 'n wished" for a Halloween carnival. Would it be possible to have one next year?

Attendance in the grades has

not been as good this last month as it was the first. This is largely due to children staying out to pull cotton. This is necessary at times, but it surely makes school work harder as well as less interesting for the pupils.

The Eighth Grade ordered their class rings Friday, October 28th.

THE OWLET (Continued from Page Seven) Introducing Our New Teachers

Mrs. Hank Brown (Nee Lucille Martin) was born in Loraine, Texas, where she attended elementary and high school until graduation. After that she went to Abilene where she attended Hardin - Simmons University, graduating with a B. S. degree from that school in 1945. She majored in Physical Education and minored in Business Administration. While in H-S Univ. Mrs. Brown was a member of the famous Cowgirls. Her favorite sport is tennis and her favorite spectator sport is football. Her favorite food is hot rolls. Mrs. Brown taught in the Littlefield High School for two years and in the Loraine Elementary School for a year and a half. She enjoys reading, but her newest hobby is tending to her young son, Ronnie, and that does not leave her much time for reading.

Richard L. (Hank) Brown was born in Tarrant County. He attended high school in Silverton for three years. Later he went to Hardin - Simmons University in Abilene where he received a B. S. degree in 1946. He majored in Physical Education and minored in History. "Hank" Brown played four years of football and one year of basketball. He entered the Marine Corps in August of 1943 and served two and one half years in the Pacific Theatre of Operations. After completing his education he taught in Loraine, Texas, for two years, and coached there at the same time. His favorite sport is football. His favorite food is meat, any kind, just so it is meat. His favorite hobby, right now, is teaching his young son, Ronnie, to be the All-American of 1970. We are very happy to welcome these two fine teachers to our faculty and our community.

Richard L. (Hank) Brown was born in Tarrant County. He attended high school in Silverton for three years. Later he went to Hardin - Simmons University in Abilene where he received a B. JOKES

Joe Lee: I think the driver of the car ahead must be my teacher.
Mary Tom: What makes you think that?
Joe Lee: She's so stubborn about letting me pass!

NEW CAE
Sister's thrilled with it,
Mother selects it,
Father's billed with it,
And Junior wrecks it.

Auto salesman: This used car is the opportunity of a lifetime.
Customer: Yes, I hear it knocking.

"My girl friend is a twin"
"How do you tell them apart?"
"Her brother is taller than she is!"

Question: If a man smashed a clock, could he be accused of killing time?
Answer: Not if he could prove the clock struck first!

THE STUDENT'S PRAYER
Now I sit down to cram.
I pray I shall pass this darned exam.
But if I fail to get this junk,
I pray the Lord I will not flunk.

BEFORE THE TURKEY GAME Ham: I'm so worried, I've got butterflies in my stomach. Coach: Take an aspirin, the butterflies will go away. Ham: I took an aspirin; they are playing ping-pong with it now.

Melvin: "How did you make out in your history test today?"
Richard: "Like Napoleon, I went down in history."

Question: How is a school room and a model T alike?
Answer: They both have a crank in front and nuts inside.

HOME MAKING CLUB
The Home Making Club met Friday and elected officers. They are: President, Teresa Crass; vice president, Jeanie Garvin; Treasurer, Mary Tom Bomar; Parliamentarian, Loretta Parker; Reporter, Gaylia Bomar.

CHORAL NEWS
The Choral Club is going to sing for the Lions Club on November 16.

In Choral some of the boys don't know how old they should be. Mrs. Wingo seems to think they don't act their ages. You might ask Ted about this.

Aren't you supposed to go to the office when Mrs. Wingo sends you? Or are you supposed to go home?

Looks like a lot of boys in Choral have been travelling down to Mr. Wilmoth's office. Better watch it.

We are very proud of our new member in choral. Billy Jones joined us recently.

Mr. and Mrs. Joe Brooks and Joe Wayne and Vonna Woods visited the JA Ranch and had dinner at the Wagon Sunday.

Mr. and Mrs. Joe Brooks took Joe Wayne to Plainview Saturday and had the cast removed from his arm.

Mr. and Mrs. Knox Stewart were in Portales, New Mexico on business over the week end.

Mr. W. H. Talley from Snyder has been in the home of her son, Mr. and Mrs. Talley this past week end.

Ask your neighbor about Frigid-aire, she has one. Simpson Chevrolet Company. 39-4fc

KIMBLE OPTOMETRIC CLINIC
Dr. J. W. Kimble
Dr. O. R. McIntosh
Optometrists
Floydada, Texas

Had RHEUMATISM So BAD That He Had To Quit Working

Mr. Jerry Watkins, chief of detectives of the city of Hot Springs, Arkansas, suffered from rheumatism so much and the aches and pains were so terrible that he had to quit working in an effort to regain his health after he had tried everything which his friends recommended.

Detective Watkins is well known and his countless number of friends throughout the country will rejoice to know that he is now healthy, free of rheumatic aches and pains and now working hard.

Mr. Jerry Watkins

"For several years," Mr. Watkins says, "I suffered from a rheumatic condition in the hip and leg. I was very nervous and finally developed migraine headaches. I tried all kinds of medicines but nothing seemed to do me any good. I seemed to be growing worse and worse and was finally advised to take a leave of absence from my work on the police force in an effort to recover my health."

"The pains in my head sometimes were unbearable. I suffered tortures and I was miserable. At night particularly I lay awake and could not sleep."

Mr. Watkins said that someone finally persuaded him to try HADACOL, and after taking the first bottle he said he could see an improvement in his general condition.

"On January 14th of this year," he said, "I felt so much better I decided to go back on the job. The examining doctor told me I was in perfect health. Now I am

working from 8 to 12 hours daily and I am able to sleep as any normal person. I have taken six large size bottles of HADACOL and all my friends know I owe my good health to HADACOL."

Mr. Watkins is one of the many thousands of people who suffered from a deficiency of the B vitamins and the minerals that HADACOL contains and who, therefore, found relief in HADACOL.

It is a well-known scientific fact that the lack of only a small amount of the B vitamins and certain minerals in your system will cause certain bodily disorders such as nutritional neuritis, which causes the aches and pains commonly known as rheumatism, and there is no known cure for the ailment except the administration of the needed vitamins and minerals. This is why people who suffered for years and years never were able to obtain any relief until they took the vitamins and minerals the lack of which was causing the disorders.

HADACOL does not contain only one but has five of the B vitamins and four necessary minerals. It comes to you in liquid form so that it will be easily absorbed by the blood and, therefore, carried to the parts of the body which need them most.

So, it matters not where you live—no matter who you are—if you have tried all the medicines under the sun, you should be fair to yourself and give this wonderful preparation, HADACOL, a trial. And if your disease is caused by a lack of the B vitamins and minerals which HADACOL contains, then don't go on suffering—don't continue to make your life so miserable. Temporary relief for you is not enough. Take HADACOL.

Sold at all leading drugstores. Trial size only \$1.25, but save money; buy the large family economy size, only \$3.50. If your druggist does not handle HADACOL, order direct from The Le Blanc Corporation, Lafayette, La., and when the postman brings your package, just pay the amount plus the c.o.d. and postage. If you remit with the order we will pay the postage.

Then, if you don't feel perfectly satisfied after using HADACOL as directed, just return the empty carton and your money will be cheerfully refunded. Nothing could be fairer.—Adv.

ALUMINUM GATES

Why worry with a poorly constructed gate or maybe a wire gap when it is so easy to install an aluminum gate that will always open and close with the greatest of ease. They come in sizes from 3 feet to 16 feet long and 4 and 5 feet high. See them at our yard now.

A CARLOAD OF LUMBER WILL ARRIVE THIS WEEK

We will receive a carload of lumber this week which will be made up of several varieties. Other cars are on order and will be received most any time now.

WATER ECONOMY FOR 4" WELLS OR LARGER

Here's why I take my JOHN DEERE Equipment to the man who knows it Best!

"There are three mighty important reasons why my John Deere Equipment goes to a John Deere Dealer for reconditioning. First, I benefit from the skill of his trained mechanics, schooled in servicing methods recommended by John Deere. Second, his shop is well-equipped with up-to-date precision equipment. His mechanics have the tools to do the work right. Third, he uses only genuine John Deere Parts, which are made to fit and wear like the originals they replace. Thus, it's a three-way assurance of work well done... economically done." It will pay you to consider the important servicing advantages we offer. See us soon for complete details.
