Wheat Loan Rate Set At \$1.98 Per Bushel

Miss Marian Arnold and Wayne Hamilton United in Home Ceremony

A double ring ceremony performed Thursday morning at 9 o'clock, July 6, 1950 at the home of her parents united Marion Arnold, daughter of Mr. and Mrs. Arthur Arnold, and Wayne Hamilton, son of Mr. and Mrs. Winston Hamilton. Rev. G. A. Elrod, pastor of the First Baptist Church officiated at the ceremony. Mrs. John Arthur Arnold sang "Always" with Miss Jo Ann Allen, of Amarillo, cousin of the bride, at the piano. Miss Allen also played the traditional wedding march. Pedestal baskets of mixed gladiolus on either side of drawn drapes framed the background. Given in marriage by her father, the bride wore a street length dress of pastel blue allover lace with navy accessories. She carried a white bible topped with an orchid with streamers of white ribbon.

Teresa Crass, bridesmaid wore a pastel pink organza street length dress with navy accessories. Her hair was of white carnations. Miss L. Burton, of Robert Lee, was served as best man. For her daughters wedding Mrs. Hamilton wore a pastel blue nylon dress with white accessories. Her hair was of white carnations. Mrs. Hamilton, mother of the groom wore a beige nylon dress with navy accessories. Her hair was of white carnations. For the reception immediately following the ceremony, the lace topped table was decorated with meline and white gladiolus. The tiered wedding cake was served by Mrs. Fred Arnold and John Arthur Arnold presided the punch bowl.

A white suit with navy accessories was worn by Mrs. Hamilton after going away costume. Both the bride and groom were high school graduates. Those attending the wedding were the couples immediate families. They were honored as being their four grandmothers present: Mrs. Hamilton of Dimmitt, Mrs. Emma Holt, Mrs. A. C. Holt and Mrs. J. H. Burson, of Silverton.

After a brief honeymoon the couple returned to their new home two miles north of Silverton that they had recently completed, where he is engaged in mining.

Harold Marler New Home Is Nearing Completion

Mr. and Mrs. Harold Marler are to move into their new home early part of next week. The home is a modern two bedroom home with garage attached, located just east of Dick Garvin's home on the paved highway. Mr. Marler is among the newcomers to Silverton who have made it rather ruff for a place to live.

G. MORELAND FAMILY MOVE TO SILVERTON

G. Moreland and family, of Lubbock, moved into their new home in West Silverton this week. Moreland has been employed at the local school board as superintendent of the Silverton schools. Mr. Moreland stated that some finishing work yet to be done, their home would be complete.

Mr. and Mrs. Jim Whiteley left Wednesday for Waco, where they will spend several days visiting Whiteley's children.

A basic loan rate for the 1950-crop wheat produced in Briscoe County of \$1.96 per bushel was announced this week by the Production and Marketing Administration County Committee. Last year's rate was \$1.92 per bushel.

The basic rate, applies to wheat grading U. S. No. 1, Mr. John E. Wheelock, committee chairman points out. Wheat produced on farms cooperating in the 1950 wheat acreage allotment program grading No. 3 or better, or No. 4 or No. 5 because of test weight or because it contains wheat of the classes durum and for red durum, will be eligible for Commodity Credit Corporation loan or purchase agreement. The chairman says that a schedule of premiums and discounts for the various qualities of 1950-crop wheat will be issued at an early date and will be available for inspection at the county PMA office in Silverton.

To be eligible for the loan, wheat must be placed in approved storage either on the farm or in a commercial warehouse or elevator, according to the chairman. He points out further that storage allowances will be continued for the 1950-crop wheat on the same general basis as last year.

Mr. Wheelock explains that the county rate is based on a national average rate of \$1.99 a bushel to farmers for No. 2 wheat as announced by PMA on June 30, 1950. The equivalent national average rate for U. S. No. 1 wheat is \$2.00 per bushel.

The Agricultural Act of 1949 requires that the price of the 1950-crop wheat be supported to the farmers at 90 percent of the parity price on July 1, 1950, the beginning of the marketing season. Mr. Wheelock reports that the July 1 wheat parity price was \$2.21 a bushel. For the same date last year the wheat parity price was \$2.17 per bushel.

Loans and purchase agreements will be available from CCC through the county PMA office, in accordance with the program provisions, from time of harvest January, 1951. They will mature on April 30, 1951 or earlier, on demand.

Miss Mona Brock Married Last Friday In Clovis New Mexico

Miss Mona Brock, daughter of Mr. and Mrs. Earl Brock, of Dimmitt, former residents of Silverton, and Mr. Glen Merritt, of Dimmitt, were united in marriage Friday evening at 8:30 o'clock at Clovis, New Mexico, by a Clovis minister. They were attended by Miss LaRue Gilkeyson and L. B. Garvin, of Silverton.

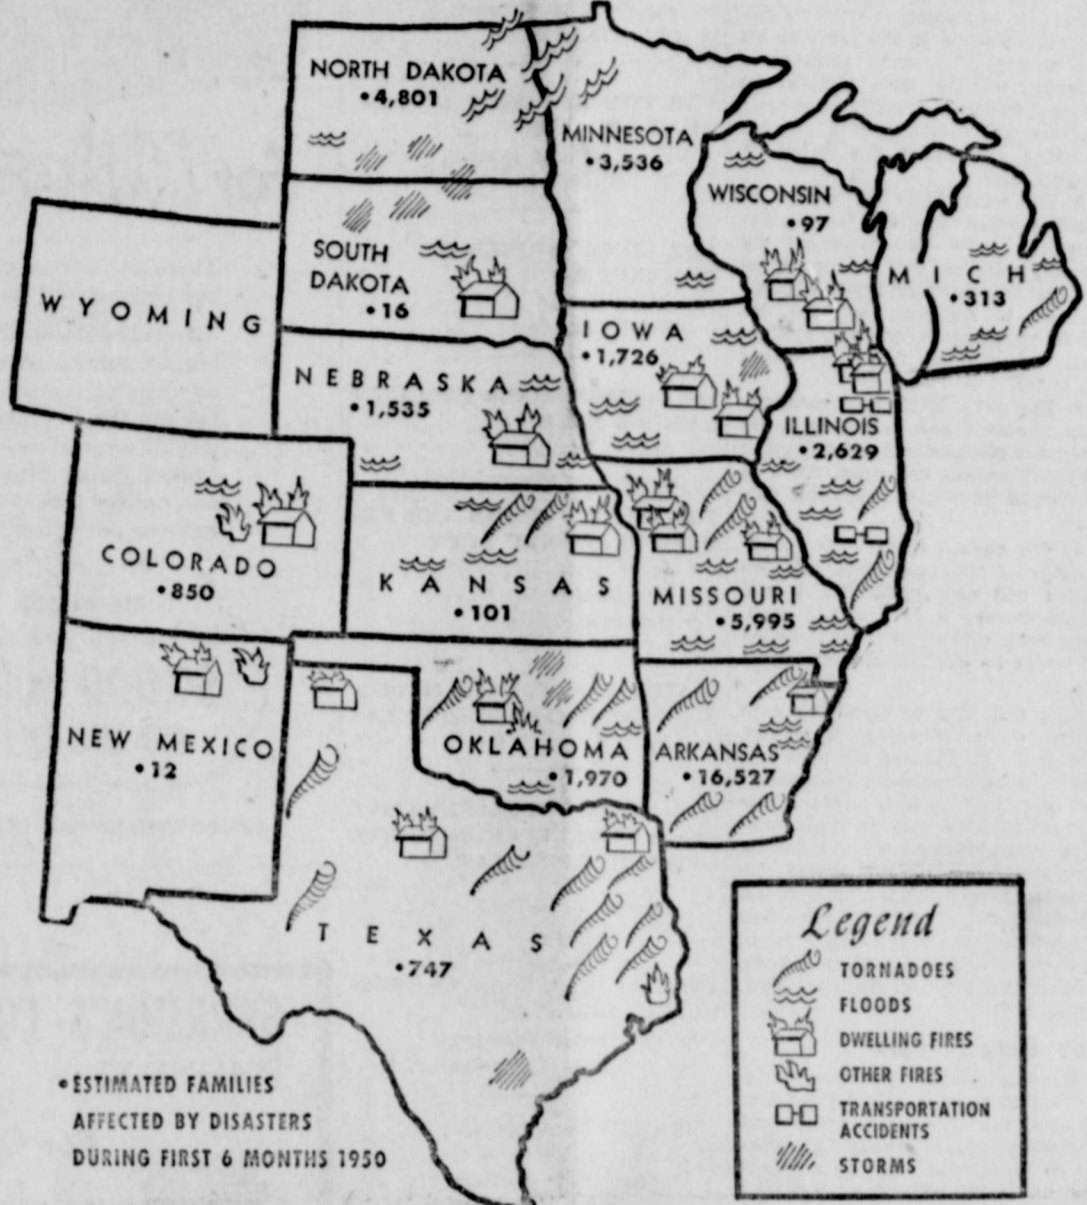

Mr. and Mrs. Merritt left immediately after the ceremony for Colorado Springs, where they will spend their honeymoon, after which they will make their home in Dimmitt.

Miss Brock attended Silverton schools, and graduated with the spring class at Dimmitt. Her father was manager of the Southwestern Public Service Company for several years in Silverton, and is employed in the same capacity at Dimmitt.

Mr. and Mrs. W. G. Byrd had as their Sunday guests Mr. and Mrs. R. B. Byrd and daughter, Vesta, of Pamona, California; Mrs. Carlos Curry and son, and Mr. and Mrs. John Toles and two daughters and Mr. and Mrs. J. W. Byrd and family, all of Happy; Ruth Austin, of Amarillo; Mrs. Adell May, Mr. and Mrs. Wayne McCutchen and family and Mr. and Mrs. J. W. McCracken.

Mr. and Mrs. J. A. Gleen of Kress, visited with Mr. and Mrs. Ray C. Bomar Monday.

40,000 Families Affected By Disasters in 16 States, 6-Month Survey Shows—Floods, Tornadoes Cause Greatest Loss

Floods, tornadoes, storms, fires, and other disasters this year have struck an estimated 40,000 families in 15 of the 16 states comprising the American Red Cross Midwestern Area, shown by the above map. Red Cross officials in charge of aiding disaster victims in the area report a number of disaster operations continuing into the second half of 1950. Largest continuing operations are in the North Dakota-Western Minnesota flood area, where Red Cross has provided continuous assistance since the end of March, with operations complicated by recurring floods and blizzards.

Deep Test Oil Well Planned In County

Truman Love Funeral and Burial Held in Carlisle, Arkansas

Funeral services were held the first of the week in Carlisle, Arkansas for Truman Love, 49, who died here last Wednesday morning. Joseph Truman Love was born May 28, 1901 at Carlisle, Arkansas. His parents were Mr. and Mrs. William Franklin Love. Mrs. Love, wife of the deceased who was vacationing at the time of her husband's death, was located Saturday afternoon at Salt Lake City, Utah. Among survivors are his wife and four brothers.

School Bond Election Carried Saturday by Good Majority

The \$65,000.00 bond issue and maintenance tax proposals were approved by voters here Saturday. Trustees of Silverton Independent School District were authorized to issue \$65,000.00 in bonds and to levy a maintenance tax not to exceed \$1.25 on the \$100.00 valuation. The vote for issuance of bonds was 181 to 92. The maintenance tax vote carried 184 to 72.

Money obtained through the bond issue to be used to build four additional class rooms on the grade school, to repair the grade school building and to construct a modern school lunch room, as well as to give the entire school plant needed repairs. The building now used as a school lunch room is to be remodeled for use as a homemaking cottage.

According to an announcement appearing in the Amarillo Times the location of a deep test oil well in Briscoe county was tentatively announced Friday by the Sinclair Oil and Gas Company and the Texas Company.

The new test, following the trend of exploration between the Panhandle fields and the new Scurry county reef formations, will be approximately 9 miles northeast of Silverton on the JA ranch. It will be a joint operation by Sinclair and Texas.

Considerable leasing has been underway in the county this year. It is estimated that from 85 to 90 per cent of the land in the county has been leased.

Local Girls Attend Baptist Encampment Near Floydada

The following Junior girls sponsored by Mrs. G. A. Elrod, Mrs. Frank Mercer and Mrs. Don Garrison attended the Baptist Encampment at Floydada from Monday until Wednesday: Gail Mercer, Kay Garrison, Leah Dare Kellum, Sharon Gilkeyson, Wilma Beth Shipman, Donna Gale Garrison, Glenna Mercer, Joe Jackson.

Intermediate girls and their sponsors attending from Wednesday to Friday were: Virginia Garrison, Bonnie Watters, Beth Mason, Patsy Bomar, Christina O'Neal, Margaret Stephens. Sponsors Mrs. G. A. Elrod, Mrs. Gabe Garrison and Mrs. C. L. Wilson.

Miss Joy Reithmayer Wed to Clifton Stodghill

Miss Joy Reithmayer, daughter of Mr. and Mrs. Louie Reithmayer, was married Saturday afternoon at 3:30 o'clock to Clifton Stodghill, son of Mr. and Mrs. Hugh Stodghill, in Clovis, New Mexico. The impressive single ring ceremony was performed by Rev. Thomas Raper, pastor of the First Methodist Church at the latter's home. They were attended by Mrs. Calvin Stanfill, of Clovis, cousin of the bride. The bride wore a Norman original dress of rose colored lace and chiffon over taffeta, with navy accessories. She carried a white bible topped with an orchid. Mrs. Stanfill wore a brown printed silk dress with brown accessories, and carnation corsage. The couple returned to Silverton Sunday where they will make their home. Mr. Stodghill is employed with his father in the hardware business.

Visit Rio Grande Valley and Old Mexico

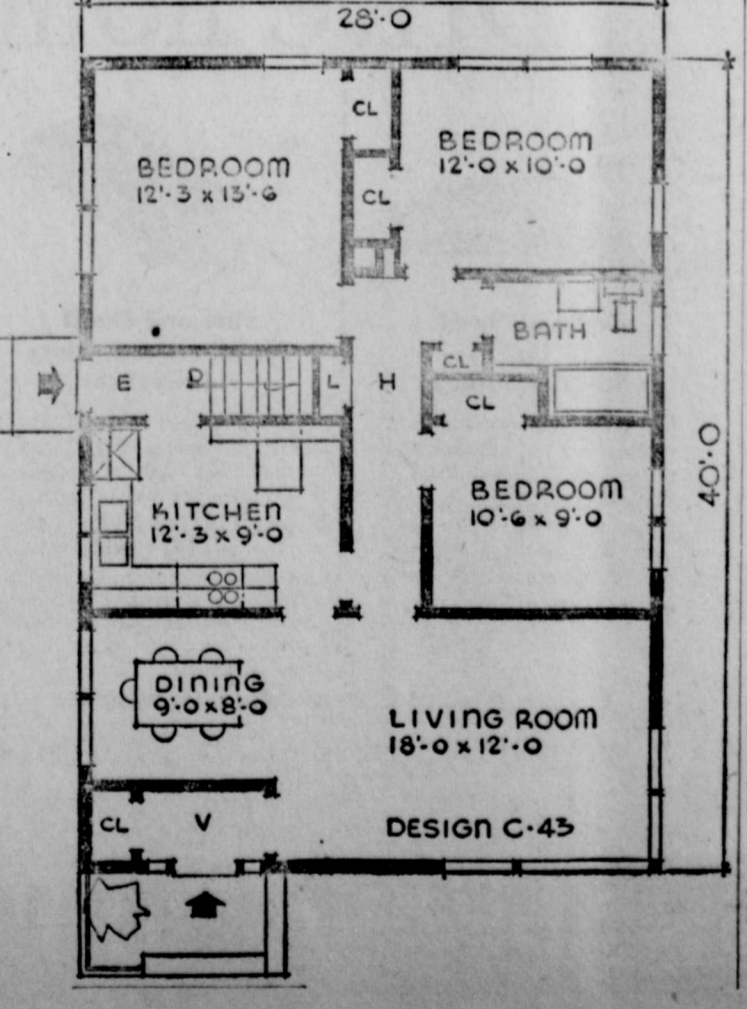

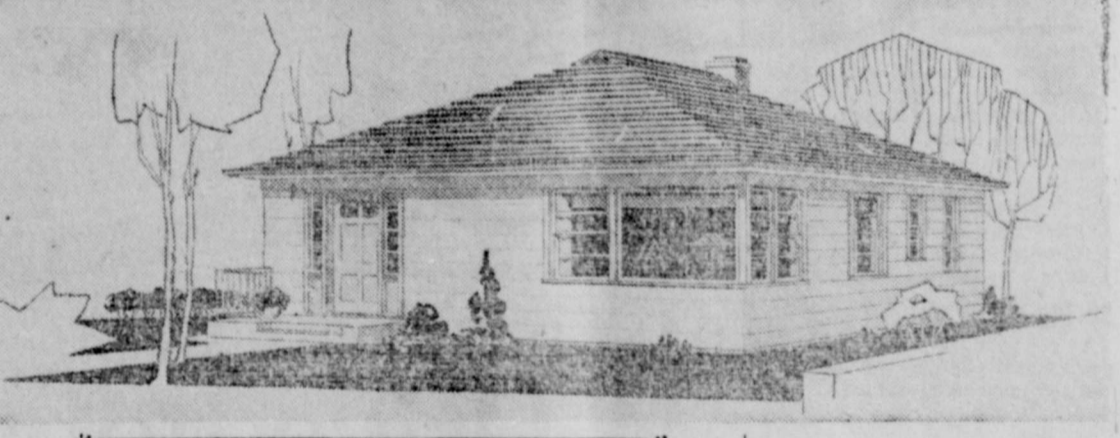

Mr. and Mrs. Edd Thomas and Mr. and Mrs. J. B. Webster, returned Friday night from a weeks vacation trip to the Rio Grande valley, and Old Mexico. They spent one day at Port Isabel where they enjoyed boating and fishing. The party spent July 4 in Old Mexico, where they attended a bullfight. They saw three bulls killed like they kill them in Spain and two on horses like they kill them in Portuguese. They reported a very enjoyable time.

REV. G. A. ELROD IS IN MEETING AT JONESTOWN

Rev. G. A. Elrod, pastor of the First Baptist Church, is in Jonestown, Texas holding a ten day revival. Rev. Earl Hughes, missionary from Costa Rica, spoke at the Baptist Church Sunday morning in the absence of Rev. Elrod. Rev. Hughes and his family are spending a month in the states visiting with his parents at Kress.

B. D. and Randy Frendiger, of Fort Worth, Texas, and George Frendiger, of Vernon, Texas were visitors in M. O. Blackshear's home last Wednesday and Thursday. They are brothers of Mrs. M. O. Blackshear.

A HOME TO LIVE IN

SMALL HOUSE PLANNING BUREAU ST. CLOUD, MINNESOTA

DESIGN C-43. Plain rectangular lines, low roof pitch and wide eaves feature this three bedroom plan, designed for a narrow lot.

The front entrance vestibule and coat closet form a dining alcove in the living room, giving cross light and ventilation. In addition to this dining alcove there is also a large dining space on the inside walls of the kitchen. The side entrance leads directly into the full basement.

All rooms open into one central hall which has a linen cabinet, closet and clothes chute. Wardrobes are used in the bedrooms, with double doors for the hanging space and separate doors above for storage.

Plans call for frame construction, siding and asphalt shingles. Overall dimensions are 28 feet by 40 feet. Floor area is 1,120 square feet with 21,280 cubic feet.

For further details and type of construction see your local lumberman.

Mrs. Durward Brown and children are spending the week with Mr. and Mrs. H. Roy Brown.

MILK IS A VERSATILE FOOD —ONE OF OUR FINEST

College Station, July 12 — The spot light during the past month has been thrown on one of our finest all-round foods, milk and milk products. The month of June carried a special designation as "Dairy Month," but according to Jimmie Nell Harris, associate extension foods and nutrition specialist of Texas A. and M. College, every family should plan to use milk generously in the daily menus.

She points out that children should have at least one quart of milk per day and that adults can profitably consume from one pint to a quart daily. Milk and milk products furnish fats, carbohydrates and proteins in easily digestible forms along with calcium and other minerals, vitamin A and riboflavin. All are needed for properly balancing the daily diet.

Milk may be purchased in many forms; fresh, dried, evaporated or sweetened condensed and one quart of the following may be used instead of a quart of whole milk. One pint of evaporated milk plus one pint of water; one and one-eighth cups of dried whole milk plus a quart of water; one quart of liquid skim milk plus three tablespoons of butter or one cup of dried skim milk plus one quart of water and 1 1/2 ounces of butter will, according to Miss Harris, be equal in food value to one quart of whole milk.

She says milk is a versatile food. It can be used as a liquid in meat loaves or in creamed dishes such as chicken, eggs and many of the vegetables. It can and is used in many of the cream soups. Desserts provide the homemaker with many opportunities to use milk. There are custards, cream pies, sherbets, ice creams, pud-

dings and gelatin mixtures to name a few, and cool milk drinks are a favorite for hot weather. Children, especially, like milk chocolate and milk shakes of all flavors.

She says milk and milk products are among the best and cheapest sources of fats, carbohydrates, proteins, minerals and some of the vitamins. It is a well balanced food that can be used in many different ways, and dishes that utilize milk are usually easy to prepare and serve—two mighty important considerations for the homemaker during the hot summer months.

HELPING HAND CLUB MEETS WITH MRS. ROWELL

Mrs. Aubrey Rowell was hostess to the Helping Hand Club July 6. Roll call was answered with a canning hint.

Refreshments were served to Mesdames Vergil Baldwin, Lowell Calloway, Hollie Francis, Alva Jasper, Jack Jowell, J. D. McGavoc, Frank Mercer, Scott Smith; Norman Strange, Gay Lynn Calaway, Jimmie Francis, Johnnie Jowell, Chafp and Johnnie McGavoc, Gail, Sandra and Peggy Mercer, Kay Strange, W. D. Rowell, Vaughnell Rowell;

Lowell Calloway, Hallie Francis, Alva Jasper, Jack and Edwin Jowell, J. D. McGavoc and Aubrey Rowell. The next meeting will be July 20 with Mrs. Frank Mercer. Roll call will be answered with a laundry hint.

Mr. and Mrs. Paschal Garrison and family returned last Saturday from a trip to Carlsbad Caverns, New Mexico.

Mr. and Mrs. Roy Montague spent the weekend in Fort Worth.

The Washington MERRY-GO-ROUND DREW PEARSON

New Weapon Developed

THE NAVY is itching to rip the "top secret" label from the most revolutionary weapon since the atomic bomb—the guided missile. Reason for the navy's itchy fingers is that it thinks guided missiles may make the big bomber as obsolete as the dodo.

Here are some of the facts which can be revealed without giving aid and comfort to the enemy:

1. The guided missile is guided unerringly to the target by radar echoes. If, for instance, a missile is fired five miles to one side of the target, it will automatically change its course while in the air and hit the target. The exact distance a homing missile will change its course remains a military secret; but the effect is that of a magnet drawing a bullet to the target. It cannot miss.

2. The joint chiefs of staff, including sober, cautious Gen. Omar Bradley, were so impressed by homing missiles they persuaded reluctant Secretary of Defense Louis Johnson to earmark millions for mass experimentation and production. Johnson has finally approved an order.

3. The navy in its new construction program now before congress proposes two cruisers and a number of small vessels and submarines be converted into guided-missile carriers.

4. The navy has developed anti-submarine and anti-ship missiles which will dive under water and speed toward a fast-moving ship. This may make the transportation of troops in wartime almost impossible.

5. It will also be fairly easy to shoot down invading airplanes. Comdr. L. P. Ramage of the navy's guided-missile research reported to the secretary of the navy: "The highest priority goes to those missiles whose targets will be hostile aircraft. The pendulum swings one way and then the other. The guided missile shows promise of achieving a quantum jump in the effectiveness of weapons available to a task force against the bomber. Success is inevitable."

The Navy's "Lark"

The only missile which can be described in print is called the Lark, of which the navy has manufactured and tested approximately 200. Originally developed as a counter-weapon to the Jap kamikaze, the Lark has two liquid rocket engines, uses acid and aniline fuel, and can operate outside the dense oxygen layer of the earth's atmosphere.

When the Lark nears the target, a second and independent electronic system automatically picks up the target and guides the missile to it. A proximity fuse sets off the bomb. The Lark weighs 1,200 pounds and is 15 feet long. It has two pairs of wings at right angles.

It is a healthy fact that the air force, instead of bucking a navy development which may put big bombers out of business, is giving 100 per cent cooperation to the navy. In fact, the air force was so impressed with the Lark, it purchased 82 from the navy. It also went to bat with Secretary Johnson in demanding that funds be allocated for further developments.

Note—Another weapon in the navy's bag of scientific tricks is a pilotless ram jet plane. It operates on a radical principle—the more air it rams into, the faster it goes.

Basing-Point Lobby

A genial back-slapping lobbyist named Frank McCarthy is one reason administration ranks have been split wide open over the hot Basing-Point bill.

No relation to the Wisconsin senator, McCarthy is a graduate of Paul Nutt's old Indiana machine, and is now Washington lobbyist for some of the railroads which would profit by more cross-hauls under the Basing-Point bill. McCarthy's infectious good humor helped to line up such Democratic bigwigs as Sen. Francis Myers of Pennsylvania, and spurred on elder-statesman Sen. Joe O'Leahoney of Wyoming.

Note—Lobbying against the bill on the Republican side during the senate debate was done by William Simon, former counsel for the Capehart subcommittee on trade practices, now an \$1,800-a-month lobbyist. At the time Simon was working for Senator Capehart, he also lobbied with the federal trade commission on behalf of alleged violators of the trade practices he was supposed to be investigating. And Senator Capehart let him get away with it.

Merry-Go-Round

Ex-Sen. John Sherman Cooper, the state department's Republican adviser, has his eye on the governor's mansion in Kentucky. The popular and liberal Cooper may run in 1951. A win would put him in the spotlight at the 1952 GOP national convention. . . . The Republican primary in Tennessee's first district is a bitter scrap between right and left wings of the party. Congressman Dayton E. Phillips, a GOP progressive, is opposed by mossback ex-Congressman Carroll Reece.

POLITICAL COLUMN

Subject to the action of the Democratic Primaries the Briscoe County News has been authorized to announce the following candidates for the offices set above their names:

FOR SHERIFF AND TAX ASSESSOR AND COLLECTOR:

Raymond K. Grewe
Frank Gillespie
Glynn Morrison

INVENTIONS THAT SERVE YOU

Samuel F. B. Morse

Samuel F. B. Morse had already won fame as an artist before he invented the telegraph. He was one of the founders and the first president of the National Academy of Design. While making his livelihood as a teacher of art he spent all of his spare time tinkering with the telegraph idea. He was 41 years old when he began experimenting. Finally he perfected an instrument that worked as he had planned. It was patented June 20, 1840, and brought a new era to the world of communications. By speeding business it made many jobs possible.

PATENTS MAKE JOBS

Wood Carver's Mistake Names Land 'America'

NEW YORK—If you ever wondered how this land of ours got its name America—it was a mistake. The only known copy of a world globular map printed in 1507, the first to show the Western Hemisphere and to designate it "America" was put on sale recently.

The map was issued in April, 1507, just 15 years after Columbus made his discovery. It was made by Martin Waldseemüller, a German cartographer. It was Waldseemüller who made the mistake and named this land America.

Many contribute the mistake to his absorbing interest in Amerigo Vesputci. Later, so the story goes, Waldseemüller realized Vesputci did not discover the new continent, and in 1516 he dropped the name. It was too late, however, for the public refused to give up the name which he had coined.

Map Cut From Wood

The global map was cut from a single wood block and measures 9½ by 15 inches. It was designed in twelve connected globular segments, presumably to be cut out, mounted on heavier paper and shaped into globe form.

However, you wouldn't recognize America from Waldseemüller's map. It's shaped something like a boomerang and is about a fifth of the size of Europe.

The map is assumed to have been printed in St. Die in Lorraine, but there is a possibility that it was produced in Strassburg, a famous center for wood cutting and printing.

The map was the remaining item and prize piece of what was until recently the world's largest and most famous private collection of early maps. In the last year the collection was acquired by Hans Kraus, dealer in rare maps and books in New York.

Collectors Item

The collection numbered 14,000 items and was owned in its entirety at one time by Franz Ritter von Hauslab of Vienna, who upon his retirement from military life as an Austrian field marshal-lieutenant and director of artillery, devoted himself to scholarly researches and to the forming of his collection.

After his death von Hauslab's maps, manuscripts and other collected material were purchased by the first Liechtenstein owner, Prince Johann II, whose family has owned it ever since.

Fifteen Years in Man's Life Lost by Judge's Order

SEATTLE—Fifteen years in a man's life have been officially lost—by judicial order.

Allen Paul Hull, 60, absconded with \$8,500 in bank funds from the Tower Savings Bank in 1935. He had been executive vice-president. Last November he returned, repaid the money, pleaded guilty to grand larceny, and was sentenced to six months in jail without revealing where he had been during the past 15 years.

The convicted man, anxious to keep his 15-year's absence a secret, said: "I have established a business. I expect I have 10 years of productivity left in my lifetime. If I tell where I've been, I'll be ruined."

For that reason Superior Judge Chester A. Batchelor signed an order that the usually public records of the parole officer, to whom Hull must report periodically, will be kept secret.

Celebrities Use Many Ways To Put Themselves to Sleep

HOLLYWOOD—How do celebrities put themselves to sleep? Here's what they say:

Rube Goldberg puts a pillow on his feet.

Hugh Herbert claims watching goldfish makes him yawn and relax.

Olivia de Havilland eats lettuce or celery at bedtime.

Jean Bennett drinks a cup of hot milk with a hump of butter in it.

Katherine Mayo drinks a cup of hot milk with a half teaspoon of pepper in it.

Norman Rockwell imagines he is someone else.

Stuart Chase reconstructs maps in his mind.

Jack Benny imagines he's painting a gigantic figure "3" on the side of an even more gigantic barn door.

Gracie Allen counts oranges on an imaginary orange tree.

Businessman Bails Out 200 Dogs for Memphis Children

MEMPHIS, Tenn.—A Memphis businessman read about a flock of unclaimed dogs in the city pound. He came up with an idea that made 200 kids in that city happy.

"I got to thinking," he said, "there must be a lot of little boys in Memphis who would like to have dogs. I'm willing to pay out 200 dogs for any little boys."

The gesture cost Chambers more than \$200. It cost \$1 to get a pup under 4 months old and \$1.50, plus a \$1 license fee, for older dogs.

U.S. Locksmiths Making It Tough Upon Spies

NEW YORK—American locksmiths. They have come up with some new locks which they say will defy the best efforts of the finest espionage agents in the world.

Even our own agents, and there are none finer, admit they can't crack the new locks.

As for burglars and criminal safe crackers, they just aren't in the running.

Three new locks now are being shown. One already is in use, a second is ready for general distribution, and a third was set up on an experimental basis only a few days ago. All three are made by Sargent & Greenleaf, Inc., of Rochester, N. Y.

The company, founded in 1857, says its invention of the time lock was the greatest forward step in the industry until today.

To mark that milestone, Sargent Greenleaf invited to a private showing in a New York hotel what it considers some of the best picklocks in the country. They also invited bankers, businessmen and government agents.

Some of these lock experts can be quoted. The agents can't, because their job is two-fold. One is to pick the other fellow's lock. The second is to protect their secrets. Combination locks are simple. Discs with slots are aligned until a lever falls into the slots. Then the lock opens. The moving discs and the falling lever makes a noise.

Legendary cracksmen felt their fingertips to the quick and felt the movement. So locks were refined. Then cracksmen used stethoscopes to listen to the movement. Locks then were made too smooth for

AGRICULTURAL FILLERS

Freshly laid eggs will cool from 100 F to 50 F in three hours if spread out on a wire tray. They'll cool in four hours if held in a wire basket; twelve hours when held in solid pails and 18 to 24 hours when held in an egg case. Fast cooling is essential to quality.

The 1950 Texas peach crop will be short and homemakers are urged to make the best possible use of the small crop that will be harvested.

Deep-rooted clovers open up the sub-soil and this permits either rain or irrigation water to go into the ground instead of running off.

Three tablespoons of lead arsenate dissolved in one gallon of water and applied as a spray will control bagworms. A second application may be needed in two or three weeks to get the late hatches. Wet the infested plants thoroughly.

Collections of wool lint around the baseboard of a clothes closet makes an ideal home for moths and carpet beetles. The same goes for accumulations of dog and cat hairs.

Tiny baseboard lights that stay on at night make for safety in the home.

**SILVERTON LIONS
CLUB WEEKLY
NEWS REPORT**

FLASH! ATTENTION LIONS!

We have just received word that the Lions Club of Silverton was for the month of April this year, no, not the first in Texas or the Southwest, no, not in the whole U. S., but in the whole of the Western Hemisphere, and that is some territory, but exclusive of Canada, as that country was not listed. Just think that if you don't think Silverton is getting on the map through the 'Biggest Doers in the World' namely Lions International, that for that month we were first in new and reinstated members. Austin, Texas was the next city in this great scope of territory with 26 members, we being listed at 27, but it should have been 28. Marion, Ohio, a large city also was third with 25, and so in until we reach our neighbor on the southeast down on Quitaque creek which was 32nd with 10.

Little did yours truly think when back in that noble, spring month when we were jumping you boys for your dues that we would, anywhere wind up with a record like that. Yep, look what little Willie did (for Silverton). I told you we could put Silverton on the map, and we 'aint started yet. "He that tootheth not his own horn, the same shall not be tooted." Now, with this record, and the fact that we have a Deputy District Governor out of our club, could it be possible that we could increase our attendance, because of these things. Could we celebrate and have 100% attendance some night soon in celebration? Say July 20th.

Well, I'll admit that seems impossible, but in further noting the record, I see that there were two towns in the great Southwest that had 100% attendance from Sept. 22nd to April 22nd, namely Orange, Texas and the hometown of that roaring old Lion Bellinger, namely, Tullarosa, New Mexico. Maybe when he gets a little fatter after his operation he will help us to know how it is done, or do we guess that after he left, they only lacked him all the time of being 100% in attendance all the time.

Did you know that an 8 months perfect attendance of all members would give a club \$300 in cash from Lions International, Impossible! Nope, not with those New Mexicans and shipbuilders.

New members of late days are John E. Arnold, Roy Morris, Richard (Hank) Brown, and M. K. Summers. Come on in boys, the water is fine!

Yours in Lionism,
WILLIE H. TENNISON,
Secretary, Lions Club of Silverton

Mr. and Mrs. Kenneth Autry and baby, of Littlefield, are spending this week with their parents, Mr. and Mrs. W. E. Autry and Mr. and Mrs. H. A. Morris.

Business Picking up At District Draft Office in Childress

From Childress the following story is transmitted to the News. Briscoe County young men and boys will probably be interested in what is said. The story reads: "Business has been picking up for the local draft board office, it was announced here Saturday by Frances Starkey, board clerk. Delinquent registrants for selective service have rushed to the local board during the past two weeks, she said.

The Childress clerk reported that of the 3,125 registered with the local board only 267 are in a 1-A classification.

The present international situation apparently reminded the boys, 18 to 26, that they are supposed to register with the local selective service board, Mrs. Starkey explained.

An average of three registrants each day have been made during

the two weeks since the beginning of the Korean hostilities, prior to that time the board on many days did not have a single registrant, the clerk continued.

"Some registrants were overdue as much as three months and others had changes in status that had not been reported," she added.

She explained that calls have been coming in from the towns located in the five county area served by the Childress office making changes in material and family status of the registrants.

Mrs. Starkey pointed out that many of the young men who registered when the draft was resumed two years ago and were single at the time are now married with children. This will make a lot of difference in their selective service classification, she explained.

Meanwhile, state selective service headquarters in Austin announced a moratorium on prosecuting draft delinquents, and warned that tardy registrants

should report immediately. Brig. Gen. Paul L. Wakefield, state draft director, said registration of all delinquents would be accepted at the present time "without report for violation of law."

The law requires that males register on their 18th birthday anniversary or within five days of that time. Those legally required to register include any born after August 30, 1922, or in subsequent year through 1931, or who has reached the age of 18 and was born in 1932.

This number includes all those registered in the draft age in Childress, Hall, Cottle, Briscoe, and Collingsworth counties.

Members of the local draft board include W. I. Hughes, Childress, as chairman; J. J. Boney, Parnell; Henry H. Moore, Paducah; D. T. Northcutt, Silverton; and T. E. Lemmon, Dodson.

The office of the selective service board here is on the second floor of the Childress city hall and is open at present from 8:30

to 11:30 a. m. Monday through Thursday and from 8 a. m. to 12 noon on Friday, a total of 16 hours each week.

Genuine Frigidaire Refriger- ators at Simpson Chevrolet Co.

BIRTH

Mr. and Mrs. George Long are the parents of a baby girl, born Friday, July 7, 1950 at the local hospital, named Nancy Kay. Grandparents are Mr. and Mrs. Eugene Long of Silverton, and Mr. and Mrs. A. E. Frizzell, of Lockney.

BIRTH

Mr. and Mrs. Peter Hoyt are the parents of a son, born Monday, July 10, 1950 at the local hospital. The young man is a grandson of Mrs. Fred Elliston, of Silverton.

Mrs. J. M. Shy and daughter, Rhonda, arrived home this week from California where they visited the past two weeks with relatives of Mrs. Shy.

Labor Legislation

TAFT-HARTLEY LAW put end to the closed shop in many states. The railway labor act had the same thing in connection with railroad operation some years ago. Any and all railroad workers were privileged to join one of the brotherhoods they wished. When they did so, they automatically joined with their fellow bargaining collectively with management, but each one into his own pocket to pay his union dues, fines and assessments.

There was no check-off system that obligated the employer to withhold from employee's pay envelope any amount he might owe to the union. Under the terms of the railway labor act the unions have grown in strength, have largely increased their membership, have bargained collectively with management.

There have been a force to enforce their demands by strikes, but would not bar any one desirous of a railroad job from soliciting such a job because he is not a member of the union representing that line of railroad.

There has been introduced in the house and senate bills in both the house and senate that, if passed, again establish the closed shop system on all railroads. That would prevent any worker from securing a railroad job unless he be a member of the railroad union representing the line of work in which he wanted the job. It would go further than that by preventing any worker from belonging to more than one railroad union. It would confine his activities to the one of railroading in which he had union membership. It would prevent the switchman to remain a switchman, with no opportunity for advancement to a job in any other

the house of representatives that bill is No. 7781. In the senate, it is bill No. 3295.

number of state legislatures have passed laws abrogating the closed shop. These proposed laws, if passed, would deny to any state the right to legislate in their state in any way that would conflict with the terms of proposed federal laws, and automatically abrogate such laws as have been passed.

The check-off system as proposed in these bills would force every railroad to become a collection agency for all of the railroad unions, with heavy penalties for each and all failures to meet union demands. It would mean a considerable increased cost to the railroads.

To offset this cost, they would ask for and be granted an increase in passenger and freight charges. In the end, the public would pay the bill.

This is simply an effort to nullify the beneficial provisions of the Taft-Hartley law in so far as they apply to the closed shop and the check-off systems on the railroads.

If it can be put over on the railroads, similar bills will be introduced to apply to all industries. It is not the rank and file railroad employees who want the passage of these bills, but the union officials.

The passage of these bills would mean a system of coerced and controlled union memberships. Those who will decide are the representatives of your districts and the senators from your state. They would like to know how you feel about this legislation.

It is not the southern but the northern Negro whose political voice is being sought by the passage of the FEPC bill. It is the Negro vote in ten of the northern states that represents Fair Deal patronage for controlling congress. The idea of switching the Negro vote from the Republican to the Democratic party started in Pennsylvania. It was accomplished by Fair Deal patronage. The present effort to pass the FEPC bill is a matter of political expediency, not sentiment. Any of those favoring it do not believe it could be enforced if enacted.

California, more than California, is the sunshine state.

"There is a long, long trail winding" before England gets back to conservatism and stability.

American naval officers are not greatly worried over any part of the Russian navy may play in World War III, if it should come.

Suggested as a concise and easily understood Fair Deal and "members" platform: We favor the option of English socialism.

AUSTRIAN WINTER PEAS DO WELL IN HANSFORD COUNTY TESTS

Austrian winter peas are making a favorable showing in Hansford county this year, reports county agent Zack Jagers. The plants were not harmed by green bugs, and they withstood the drought almost as well as wheat. Jagers says the fields that were planted early in August made excellent fall and early winter pastures, but were caught by a dry freeze in a luxuriant state of growth and the plants were killed by winter freezing.

Peas that were planted late in August and in September did not make sufficient growth to furnish much fall grazing, but did not winter kill. They made excellent spring growth, and by the middle of May had made a deep luxuriant cover on the fields. Although this cover was suitable for a green manure crop, Jagers says that fast farmers who had prospects for a seed crop left their peas to be harvested for seed.

Jagers predicts that, due to the satisfactory showing being made by Austrian winter peas in Hansford county, the acreage planted will be greatly increased this season.

Mr. and Mrs. Bruce Womack spent the weekend in Grayson County and Oklahoma visiting with relatives.

Youth Street Gangs Of Major Concern To Nation's Police

NEW YORK — The problem of street gangs in the large cities of this country and Europe is of major concern to police officials.

In New York last year street-war gangs took the lives of ten schoolboys, but the gangs are not as numerous or powerful as five years ago, police report.

Chicago, Detroit, Los Angeles and many other American cities have the problem of boys and girls who run in gangs and do mischief or worse.

In London, for instance, once the world's safest big city, teenage gangs are assaulting and robbing adults and fighting among themselves with knives, blackjacks and bicycle chains.

Police in Rome and other European cities have their hands full with youth gangs.

Social workers report the anti-social activities of the gangs is part of a world-wide malaise that has come out of the late war.

Years ago gangs had "cellar clubs" which they used for headquarters and plotting their mischief. Now, however, the teenage gangsters "hang out" in candy stores, pool rooms, cafeterias and meet in streets and parks.

The problem of juvenile delinquency, too, is being approached in a different manner. In New York the Youth Board will spend \$2,000,000 this year to prevent and control delinquency.

Police through the country are operating on the theory that increased recreation facilities for youth will cut delinquency. As a result, many communities are opening community centers of boarded up settlement houses and abandoned churches in underprivileged and crowded areas.

Latvian Girl Is 150,000th Displaced Person in U.S.

WASHINGTON — A 12-year-old Latvian girl with long blonde braids was the 150,000th displaced person to arrive in the United States.

The Washington sesquicentennial commission entertained her and arranged a news conference. She revealed she liked television very much, she liked New York city very much, she liked America very much.

"Do you plan to become an American citizen," one of the reporters asked?

"Oh, yow," said Dace Epermanis. But she appeared puzzled at that one. Apparently it never before occurred to her that anyone might not want to.

Dace's father, Bernhards, and a 15-year-old brother, Juris, who has decided he wanted to be known as George, went to work on a Perry, N. Y., dairy farm.

Sunshine Makers Declare War on New York Rain Maker

PALISADES—New York's rain maker, Dr. Wallace H. Howell, has new troubles—as if he didn't have enough already.

The sunmakers, Dr. G. A. Sykes and Edward Twardus, have declared war on him. The two sunmakers claim they can make the sun shine and report experiments to prove it.

Dr. Howell has been seeding cloud formations with dry ice over the New York water shed in an effort to fill the city's reservoirs and eliminate the water shortage. He gets \$100 a day.

The sunmakers ask \$500 a day for every day they made the sun shine on condition that they pay double for the days that they fail.

Wrong Letter to Wife Costs Man Three Years

NEWPORT, KY.—A wrong letter cost Jack Baldrige three years in prison.

Baldrige, on probation for three years for a past crime, was picked up recently for not supporting his wife. While in jail he wrote two letters, one to his wife and one to the other woman.

He asked his wife to help him reform and aid him financially. The other woman's letter expressed love and saying they would go out west when he was released.

Baldrige got the letters in the wrong envelopes. His wife produced the one to the other woman in court and the judge sent Baldrige to prison for the three year probation time.

Relatives Here For Anderson Funeral

Among the relatives here for Mr. T. L. Anderson's funeral were: Mrs. Carrie Arthur and children, Mrs. Ralph Webb and daughter, Aneta, Mr. and Mrs. Gene Presley and little daughter, Thama, of Maricopa, California. In Memory of T. L. Anderson

WHEREAS, it has pleased the Supreme Architect of the Universe, to remove from our midst our beloved brother T. L. Anderson; who has for over fifty years been a useful and valued member of our Order, and to translate him to that Country from whose bourne no traveler ever returns.

AND WHEREAS, in the passing of our beloved Brother, this County has lost its oldest voter; One who with honor to himself and satisfaction to his people, served, as Justice of the Peace, Sheriff, County and District Clerk of this County; always being faithful and punctual to his trust, never flinching from any duty or obligation, his office imposed on him;

AND WHEREAS, in the departing of our esteemed Brother, the Silverton Lodge No. 754, A. F. & A. M., has lost its oldest member, one who has for more than a half century, served it faithfully, and to the satisfaction of all of its members; one who has lived his masonry in his daily life, one who was universally beloved by all of us, and by all others who knew him, for truly he "Was one of Natures Noblemen."

Therefore be it Resolved, by this lodge that we extend to his family, relatives and friends, our deep regret at his passing, we too will be lonesome without "Tommy."

We commend each of you to the Great Comforter and Father, who alone can bring consolation, and to whom he always went in times of trials and troubles;

To the members of this lodge we refer you to the life of our deceased Brother, that you may emulate his example, and live up to his high ideals.

Be it further ordered that a page in our Minutes be set apart sacred to his memory, and that a copy of these resolutions be furnished to his family, and to the Briscoe County News.

Respectfully submitted, Grady Wimberly, Dee McWilliams, C. D. Wright, Committee.

Words fail us when we try to express the thanks and appreciation each of us feel for all those who were so thoughtful and kind in so many different ways during the illness and death of our dear husband, father and grandfather, T. L. Anderson.

To all those who sent cards and flowers during his illness, to the V. F. W., for the use of their hospital bed, to the doctors and nurses who attended his every need; to the boys who volunteered to dig his last resting place; to all those sending food, messages of sympathy and understanding, and the beautiful floral offerings; last but not least to everyone who stopped at our door with an encouraging word, a handshake or a smile, we wish to extend our humble and heartfelt thanks.

May God bless each of you in our prayer.

Mrs. T. L. Anderson and Anna Lee, Mr. and Mrs. Clarence Anderson, Susan and Joe; Mr. and Mrs. T. H. Anderson and Tommy; Mr. and Mrs. Clagett Anderson; Ronald Anderson; Mrs. J. E. Thompson; Mr. and Mrs. Peter Hoyt and children; Mr. and Mrs. A. G. Tadlock and children.

Mr. and Mrs. Ray C. Bomar spent Sunday in Lubbock with Mrs. Bomar's sister and family, Mr. and Mrs. Carl Hawkins.

Mr. and Mrs. J. P. Cogdill, of Liberal, Kansas, are spending this week with Mr. and Mrs. Arnold Brown.

Mr. and Mrs. Olin Cribb, of Arlington, visited Tuesday and Wednesday with Mrs. Cribb's mother, Mrs. E. H. Perry.

TALLEST BUILDING IN THE SOUTHWEST

One of the largest and finest office buildings ever erected in this country, shown above, will soon dominate the already impressive skyline of Dallas, the Southwest's great cosmopolitan city. The new Republic Bank Building, announced recently by Fred F. Florence, President of the Republic National Bank, will embody the most modern and advanced architecture, including every convenience possible for both customers of the Bank and tenants of the building. The tallest building in the Southwest, it will soar 440 feet in height. It will include a garage and most modern structure erected in the United States and office building. The main shaft of the building will rise 36 stories above the ground with an additional four stories below the street level. Its tower, extending some 160 feet further into the sky, will give the structure an overall height of 600 feet.
