THURSDAY, FEB. 15, 1951

Rites Are Held For Walter Montague Of Portales, N. M.

Funeral services for Samuel Walter Montague were held Saturday morning at 10 a. m. in the Wheeler chapel.

Mr. Montague died in the Portales, New Mexico hospital Thursday afternoon after suffering a heart attack.

He was born June 12, 1881, in Cleburne, Texas, and moved to Portales in 1930.

He is survived by his widow, five sons and five daughters.

They are Eddy Frank, Grant Todd, Gid, Fred Kelly and Clyde Ray Montague all of Portales, and Mrs. Peggy Joyce Parkey, Mrs. Maurine Betts, Mrs. Mozelle Carter, Mrs. Opal Hyatt all of Portales and Mrs. Gertrude Moore of Borger.

The body was taken overland by Wheeler mortuary to Plainview to be buried in the family plot where two children are buried.

Mr. Montague was a brother of the late Dan and John Montague, and a twin brother of Mrs. Annie Smith, of Colorado, whose husband died last week.

Mr. and Mrs. Montague were former residents of this county. They lived in the Lakeview community. They were married at Silvertown.

FUN AND FELLOWSHIP FOR SILVERTON YOUNG PEOPLE

For a full evening of recreation, refreshment, and fellowship, the Silvertown young people are invited to the Methodist Church Basement at 5:00 Sunday evening, February 18, 1951.

There will be sponsored games of ping-pong, shuffle-board, and others starting at 5:00. First ones there will get choice of starting games. At 6:15 the senior M. Y. F. program will begin and last until church time at 7:00.

Rev. and Mrs. G. A. Elrod, G. R. Dowdy and Mr. and Mrs. Sam Brown attended a layman and pastors conference in Plainview Monday.

Mrs. Record's Pupils Will Give Recital Tonight, Feb. 15

Music pupils of Mrs. Charles L. Record will present a music recital Thursday, February 15, at 7:30 p. m., at the First Presbyterian church.

The following students will present the program:

Susie Anderson, James Ross Alexander, Myrna Sue Bingham, Patsy Bomar, Sam Brown, Joni Douglas, Betty Fitzgerald, Victor Fogerson, Virginia Garrison, Frankie Lou Hunt, Evelyn Jones, Donald Ledbetter, Mona Kaye Mayfield, Cleatrice Miller, Tom-mileen Miller, Mike Reid, Sue Reid, Faith Smith, Helen Vaughan, Karla Weaver, and Frances Ely.

Miss Fayree McMinn Bride-Elect Honored With Shower

A bridal shower honoring Miss Fayree McMinn, bride-elect of Melvin Watkins, was given at the home of Mrs. Printz Brown, Wednesday afternoon, February 7. Assisting Mrs. Brown were: Mesdames Paul Ledbetter, Jim Bomar, Ray C. Bomar, Bailey Henderson, Sidney Rogers, Clyde Lightsey, R. E. Stephens, C. M. Chappell, Wilton Whitehead and A. D. Arnold.

The guests were greeted by Mrs. Brown at the door. In the receiving line were Miss Fayree McMinn, bride-elect, and her mother, Mrs. Bud McMinn and the groom's mother, Mrs. L. A. Watkins, of Plainview.

Mrs. Wilton Whitehead registered the guests and Mrs. Clyde Lightsey showed them to the gift room and to the dining room where they were served punch and white angel squares, with red hearts in center by Mrs. Sidney Rogers and Mrs. Ray Teeple. There were 70 guests registered and 59 sent gifts who did not attend.

The table was covered with a linen cut work cloth, the center piece was a big red heart with white carnations around the heart.

A HOME TO LIVE IN

Small House Planning Bureau, St. Cloud, Minnesota

DESIGN B-199. Circulation for the flow of traffic between rooms is ideal. For instance, the kitchen is located near the front and rear entrances, all rooms, including the basement stairs open into one hall and the bathroom can be reached directly from the rear door.

The living room has corner windows with book cases below, a fireplace and high book shelves on the inside. Coat closets are paced at each entrance, linen cabinet in bathroom and wardrobe closets in the bedrooms. A built-in chest of drawers separate the closets in the front bedroom.

Refrigerator, work counter and stove are built into the cabinets on the inside wall and sink under the rear window.

Exterior finish is siding on the walls and plywood gable ends, face brick chimney and living room walls and asphalt shingles.

The floor area is 1004 square feet and the volume is 20,024 cubic feet.

For further details see your local lumberman.

"Copper Canyon" Showing at Palace February 18-19

Ex-Confederate soldiers now operating mines are driven to desperation by a northern smelter owner who refuses their ore, and by a crooked deputy sheriff, Macdonald Carey, who ambushes them when they try to ship their copper out of town. The veterans appeal to Ray Millard, whom they believe to be—and actually is—a famous Confederate colonel, traveling incognito—for help. Millard learns that Carey's scheme is to buy the mining claims cheaply. Aided by Hedy Lamarr, an unwilling member of Carey's gang, Millard leads an army of miners which wipes out the crooks. A market is established for the southerners' ore, and Hedy and Millard leave town, taking with them the money which Millard earlier had stolen from the commandant while escaping a union prison.

Next week's program appears on page two.

WATSON DOUGLAS IN TEMPLE HOSPITAL

Watson Douglas, who became ill the latter part of last week was moved to a Temple hospital Monday. He was a patient in the local hospital. Reports from Temple indicate he is slightly improved, but so far the cause of his illness has not been determined. Mrs. Douglas and daughter, Joni, and other relatives are with Mr. Douglas at Temple.

C. F. JOINER MOVED FROM KEARNES CITY HOSPITAL

C. F. Joiner, who was injured in a car accident early in January near Kearnes City, was brought home last Thursday and placed in the local hospital. Relatives report that his condition is just about the same as has been for sometime.

Mr. and Mrs. Harley Redin and son, of Plainview, visited relatives here Sunday night. They had been to Denton on business.

Mr. and Mrs. Elmo Seaney and family, of Morton, visited in the Bud McMinn and George Seaney home Saturday night and Sunday morning. The Seaneys went to Erick, Oklahoma, to visit their parents, Mr. and Mrs. P. J. Seaney.

Mr. and Mrs. Claudia B. Welch moved Wednesday to Parnell where they will make their home.

Miss Fayree McMinn Bride Elect Given Shower at Plainview

Miss Fayree McMinn, bride-elect of Melvin Watkins, was honored with a lingerie shower Friday evening, February 9, at 8 o'clock in the home of Mrs. Sidney Roger, 405 Yonkers, Plainview, Texas. Mrs. Rogers was assisted by Mrs. Ed Watkins.

The hostess met the guests and presented them to Miss McMinn and her mother, Mrs. Bud McMinn of Silvertown.

In the dining room table decorations were in keeping with the Valentine motif. Coffee was served from a silver service.—Plainview Herald.

Program Floyd Co. Baptist Workers' Conference

Meeting with the Cone Baptist Church Tuesday, February 20, 1951. Moderator, Rev. Joe Wilson.

The following program will be carried out in the days meeting:

Theme: Evangelism.

Song leader—Host Church.

10:00, Devotional, Rev. McKay.

10:10, Program and Objectives of Evangelism, 1951, Rev. Ray Riley.

10:30, The Sunday School Leading the People to Witness for Christ, Rev. Earl Allen.

10:45, The Training Union Leading its Members to be Soul Winners, Rev. E. L. Parks.

11:00, The W. M. U. Leading its Members to Witness at Home, Mrs. Bert Black.

11:15, The Brotherhood Going After Men for Christ, Harmon Handley.

11:30, Announcements and Song.

11:35, Sermon on Personal Soul Winning, Rev. Clifford Potts.

12:15, Lunch.

1:30, W. M. U. and Board Meetings.

2:15, Song Service.

2:25, Sermon, Rev. W. R. Harmonson.

Mr. and Mrs. Jack Zimmell and daughter, Jackie Joe, of Borger, spent the week end with her parents, Mr. and Mrs. Joe H. Smith.

Mrs. Bud McMinn was admitted to the Briscoe County Clinic-Hospital Saturday noon with strep throat and was dismissed Monday.

Mrs. Carl Dean Bomar and daughter, Roy Ann, Mrs. T. C. Bomar and Mrs. L. D. Griffin, were in Lubbock, Plainview and Tulia Tuesday on business.

Elder E. E. Degge Is Called by Local Church of Christ

Elder and Mrs. E. E. Degge, of Plainview, have recently moved to Silvertown and Brother Degge has been called by the local Church of Christ, and will occupy the pulpit of that church each Lords day.

Brother and sister Degge are at home in the pretty little cottage of the church, situated just north of the church building and invite friends to call on them.

Brother Degge is an interesting and fluent speaker. His discussions of the book are most helpful and you are cordially invited to meet and hear him at 11 a. m. and again at 4 p. m., any or every Lords day.

"Come let us reason together". If you are not attending services elsewhere, come worship with us. If you are attending morning services elsewhere, you are most cordially invited to be present at the afternoon service. Remember the time, four o'clock p. m. sharp. Reported.

Mr. and Mrs. C. C. Whittemore, of Forney, Texas, who has been visiting their son, Mr. and Mrs. Perry Whittemore, for the past two weeks returned to their home Sunday. They accompanied Perry Whittemore, Norlan Dudley and Jack Strange, who were making the trip to Dallas to attend the Bankers Association Monday. Roy McMurtry also went with the group as far as Dallas and went on to Marlin, where he will join his wife, and take health for sometime.

Rev. and Mrs. G. A. Elrod left Wednesday night after prayer meeting for Abilene to visit their daughter an dfamily, Mr. and Mrs. Charles Lindsey.

Mr. and Mrs. E. E. Minter and son, Gene, visited Sunday in Lubbock with their daughter, Mr. and Mrs. Charles Yates.

Veterans County Service Officer Will Serve Briscoe

Briscoe County was among the first counties of the State to give their veterans the benefit of a trained County Service Officer, after the passage of the bill by the Texas Legislature creating the office of veterans county service officer in 1944.

Passage of this law was deemed necessary in order that veterans of all wars may have necessary assistance and information in filing claims and securing benefits granted to them by various Federal and State laws.

There are at present 194 county service officers in the State. Since some of the service officers serve more than one county, practically every county in the state has a service officer available. In order to qualify as a service officer it is necessary to attend a training school to study all laws relating to veterans and the procedure for filing claims, they pass an examination. After qualifying it is then necessary to attend schools of instructions conducted by the Veterans Affairs Commission twice each year in order to keep informed on changes in the various laws.

Briscoe County Service Officer is also employed by Swisher and Castro counties, each county paying a portion of his salary. He is in Silvertown each Friday and Quitaque each Saturday. Monday and Tuesday at Tulia and Wednesday and Thursday at Dimmitt.

JIM CROW RETURNED HOME SATURDAY

Jim Crow, who has been stationed at Fort Bening, Georgia, for several months arrived home Saturday and is on dispatch service awaiting his discharge. Jim is the son of Mr. and Mrs. Carl S. Crow, Silvertown.

Mrs. Bailey Henderson, of Lockney and Mrs. Sidney Rodgers and children, of Plainview, visited with friends and relatives here last week end.

Floyd County Well To Start Drilling March 1

Location has been made in Floyd County for a wildcat oil well eleven miles north and east of Floydada in section 11 block D-2 GS&SF survey. Footage is 330 feet from the south and 930 feet from the east lines of the section.

Contract says the test must start operations by March 1. It is on the J. S. Lackey land.

For several months there has been a strong royalty play in that area with prices starting at \$35 per acre and some deals being closed recently as high as \$150 per acre.

The location was made on a ten section block that had shown a magnetometer high assembled by the Concho Oil Company of Dallas.

The test is two and a half miles northwest of a test drilled two years ago by the Humble O&R Company. The Humble test was dry.

Last Rites Held February 7 For Little Mike Dickerson

Funeral services were held at 4 o'clock Wednesday afternoon, February 7, 1951, at Lubbock for Michael Alan Dickerson, sixteen months old son of Mr. and Mrs. Alan Dickerson of 2320 Indiana Avenue, Lubbock, Texas, who died in a Lubbock hospital Tuesday afternoon.

Rev. C. A. Bickley conducted the services in Asbury Methodist Church. Burial was in Tech Memorial Park.

Little Mike is survived by his parents and one sister, Dana Kay of Lubbock; parental grandmother, Mrs. Flora Dickerson, of Silvertown and maternal grandparents, Mr. and Mrs. E. L. Gardner, of Rising Star, Texas.

Mr. and Mrs. Barney Stephens spent the week end in Albuquerque, New Mexico, visiting their daughter, Mr. and Mrs. Robert Isbell.

Texas Venture
In Education • 1876-1951
Our first state college—Texas A. and M. is now in its seventy-fifth year

An emigrant boy who came to Texas in the days of the Republic and carved out a brilliant career as merchant and statesman, George Pfeuffer was one of the early Texans of great vision who made possible the development of the A. and M. College. He came to this country with his family at the age of 15, from his native Bavaria and settled at New Braunfels, where, after a number of years he and a brother established themselves as leading merchants. Soon he spread his holdings throughout the state, in the lumber business and even established sizeable holdings in Mexico. He served as county judge of Comal County and later served with distinction as a state senator. He was appointed a member of the board of directors of A. and M. College in 1880, and developed a deep interest in its educational opportunities, which he carried with him to the Senate. Almost singlehandedly he fought the battles of the college in the Senate at a time when it was being neglected while the new State University was being created. Pfeuffer Hall, oldest building standing on the A. and M. Campus today, was named in his honor.

Texas Venture
In Education • 1876-1951
Our first state college—Texas A. and M. is now in its seventy-fifth year

On a farm not far from the campus of the A. and M. College of Texas lives a quiet little man whose genius has done much to feed a hungry world. He is Edgar S. McFadden, plant breeder for the U. S. Department of Agriculture and the Texas Agricultural Experiment Station, who has been working at A. and M. since 1935. Known as the "Burbank of the Wheatfields," Mr. McFadden developed the world's first rust-resistant wheat, parent stock for grains which now grow on millions of acres around the world where wheat once could not exist. Since 1935 his work has spread the Texas wheat belt to three times its former size. He has received the *Readers Digest* annual award for service to humanity, is one of the five Texans to be named as Fellows of the American Society of Agronomy and has received citations of merit from scientific societies throughout the world. The farmers of his native South Dakota have erected an imposing marble monument to him in his old home town of Webster. The work of this one man is said to be worth hundreds of millions of dollars a year to the farmers of America.

Dairy Cows Need Plenty of Fresh Water all Times

It takes a lot of water to produce a lot of milk, and dairy cattle do not always drink enough water during the winter months. Quite often, this is because an adequate supply of good water is not available.

Good water is clean and cool, but not colder than 50 degrees F. says R. E. Burlison, associate extension dairy husbandman of Texas A. and M. College. There should also be an adequate supply of water and the cows should not be forced to walk long distances for their drink. They prefer to stay in the barn or under a shed on cold days, and the water supply should be nearby.

The dairy cow is primarily a converter of roughages, reminds Burlison, and since roughages are usually dry feed and comparatively high in crude fiber, the dairy cow needs a large amount of water for the digestion and absorption of feed nutrients and for the removal of waste from her body.

Burlison reminds also that milk is approximately 87 percent water. The lack of water will cause a more rapid drop in milk production than will the lack of most feeds.

The average dairy cow will consume from 100 to 120 pounds of water daily. Burlison says that a cow producing 60 pounds of milk daily may drink as much as 180 pounds of water. On the average, dairy cows need from two to three pounds of water per pound of milk produced.

Mr. and Mrs. Carl Dean Bomar moved to their new five room home recently completed in West Silverton Saturday.

Perennial Grasses In Critical Condition Says A. W. Crain

The cured forage remaining on pastures in Texas at the present time is higher in quality than during any year in the last 10 to 20.

This higher quality is the result of slow growth made by the grasses during the dry weather last summer and fall, says A. W. Crain, associate pasture specialist for the Texas A. and M. College Extension Service.

Because of the drought, however, the plants were unable to store a reserve food supply in the crown and root systems. Since new spring growth is made from stored food, the plants are in a somewhat critical condition.

Crain warns that, due to this situation, proper management is extremely important when the grasses put up new growth in the spring. He advises allowing little or no grazing until after the plants have made good growth.

Crain recommends making the best possible use of oats and other supplemental grazing crops this spring. This will allow the perennial pasture plants to get off to a start and avoid killing many of these plants.

When they receive adequate rainfall, the supplemental forage plants will grow rapidly and carry a large number of animals. Better utilization of the supplemental forage and better permanent pastures will result if the perennial grasses are not grazed for the first month or two after growth begins.

Bernice Welch, of Wellington, visited relatives here last Wednesday and attended to business.

Mr. and Mrs. J. W. Reid and sons, were guests of Mr. and Mrs. Carl D. Bomar Sunday.

Dream House Is Moved 1,200 Miles by Pair

NEWPORT NEWS, Va.—Houses are difficult to find these days, especially dream houses. A Vermont man and his wife knew this and as a result moved their house some 1,200 miles.

Bryon White and his wife built their Vermont home themselves, lovingly adding each new gadget and labor saving device. When the time came for them to move to Virginia they decided they wouldn't leave it.

Through half a dozen states, up hills, across ferries, down slippery wet pavement they drove, pulling their house behind them.

Sorely tired by fire, breakdowns, blowouts and vigilant policemen, they never gave up. After all, how could they abandon 14,200 pounds of house.

Altogether, with detours, they towed the house 1,200 miles.

Six Weeks Journey

But six weeks after the hazardous journey started, the house is set among a grove of evergreens. Its picture windows look out on rolling grass and gardens. Its winding driveway leads to the garage they have built at the rear of the much traveled, modernistic home.

White, an electronics engineer and former assistant professor at the University of Vermont, was just finishing up his house on university property when he took a job in Newport News with an electronics manufacturing concern.

The Whites had not overlooked the possibility that they might have to move their house when they planned it. The structure was built in the form of a T with the living room the T's crossbar. They built the living room so that by using hinges it could be folded up no wider than the T's perpendicular.

They had also used hardwood plywood—not yet on the home builders market—and aluminum screws instead of nails. This made for lightness.

Trip a Nightmare

When they hit the road for Virginia, the home, set on a specially made trailer, was 35 feet long, eight feet wide and 11½ feet high.

But if the house was a dream, the trip was a nightmare. They had to get permits from the states they planned to drive through. They had to avoid underpasses and some bridges. They had to write ahead to arrange for laws in some places. They spent \$250 on tires on the trip. Each time one blew out it ripped itself to pieces under the weight of the house.

Bear mountain in New York never will be forgotten by the Whites. Almost to the crest of the long, high hill their overheated motor burst into flame. When they got the fire out the crankcase oil was a chocolate brown from the heat.

Now that the house is set up again and liveable, some of the terrors of the trip seem humorous to the Whites. But they're certain of one thing, never again!

Long-Lost Century Clock Being Sought in Colorado

DENVER, Col.—Colorado officials have been presented with the mystery of the missing clock.

The timepiece was built by J. W. Hile, a Kansas clockmaker, and displayed in the Kansas-Colorado building at the Centennial Exposition at Philadelphia in 1876.

It was among the new-fangled gadgets, supposed to run for 100 years. Its power was supplied by a heavy weight attached to cords and set to drop 76 inches at a rate of three quarters of an inch a year.

Doane Eaton, Doraville, Me., wrote Governor Walter Johnson of Colorado that he found a reference to the clock in an old family record. Did the governor know what became of the clock? Was it still on time?

The governor didn't know. He passed the timepiece inquire to Mrs. Agnes Wright Spring, acting state historian. She sent it along to Orville R. Hagans, Denver horologist, whose extensive treatises on time-keeping gave the price of the 100-year-old clock at \$1,000, but no references as to where it might be.

The search goes on. Hagans passed the problem to fellow horologists in the country.

There's a **CHEVROLET TRUCK** for your job... and it's built to do it for less money!

There's a Chevrolet Advance-Design truck that's right for your job: Built to do it better, longer, and more economically. With the right Valve-in-Head engine for the work—92-h.p. HARVEST--QUEEN GRAIN COMPANY

FORMERLY FARMERS GRAIN CO. West of the Railroad Track, Silverton, Texas

The story of a faith that paid off

**YOU KNOW IT'S TRUE BECAUSE IT'S HAPPENED TO YOU
AND YOUR FRIENDS AND NEIGHBORS**

PROBABLY YOU'VE never thought of yourself as a maker of history. But you are. And here is how you, as a citizen of the United States, are creating the greatest success in all history.

Remember back in 1941 when the Defense Bonds you were buying suddenly had to become War Bonds? How you and your neighbors pitched in to buy them in ever-increasing numbers, to back our fighting men and to help achieve the victory of World War II? After V-J Day, when those bonds became Savings Bonds, you continued to buy them because you had learned how regular saving could build security and contentment for yourself and those you love.

The face of the land has undergone some dramatic changes in those years since V-J Day. Now the landscape is dotted with new homes that Savings Bonds built. Thousands upon thousands of new automobiles travel the highways—Savings Bonds cars, bought with the product of individual thrift. On the farms, Bond-purchased equip-

ment has helped produce bumper crops and prosperous years. Everywhere in America, man's urge to get into business for himself has become a bright reality. So has the ambition of loving parents to send their children through college. Time and time again, Savings Bonds have made those dreams and many others come true.

You KNOW they've come true, because it's happened to you or to some of your own friends.

And this is only the beginning of the story. Even after accomplishing so much, millions of American families still enjoy the financial security of owning more than fifty billion dollars—*fifty thousand million dollars* in Savings Bonds. More than at the peak of war-time Bond holdings!

How much money is that? It's enough

to build a new \$10,000 mortgage-free home for every family in San Francisco—and Sacramento—and Salt Lake City—and Denver—and Kansas City—and St. Louis—and Indianapolis—and Cincinnati—and Pittsburgh—and New York City—and the whole state of Texas!

And every week, everywhere in America, new millions of dollars are added to the total—as crisp new Savings Bonds are typed up with *your* name on them.

Kind of a king-size success story, isn't it? *Your* success story because you and the millions of your neighbors are living it right now. Your own faith in America—your own desire for the warmth of family security and independence—have made the story of United States Savings Bonds the thrift miracle of all time.

***For your security, and your
country's too, save now - through regular
purchase of U.S. Savings Bonds***

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and

Let Children Have War Toys, Advises Guidance Authority

NEW YORK—Parents have long been worried about the problem of letting junior have guns and war toys, afraid such items will make him warlike.

Dr. Grace Langdon, a child guidance authority, now comes up with the theory that if junior wants a toy flame-thrower, let him have it. It won't make him any less war-minded by depriving him of toy war weapons, she says.

Dr. Langdon debunked an idea which came up at the recent inter-parliamentary union meeting in Dublin. A resolution was offered to outlaw all toys dealing with war to prevent children from being war-minded. The resolution was killed, however.

"You don't take children's minds off war by depriving them of war toys," she said. "The desire is still there."

"The quickest way to stop children from wanting war toys is to stop war."

Author of several books and articles on child behavior, Dr. Langdon contends children naturally are imitators. So long as the father is a soldier, both son and daughter are going to play at being the same thing.

Much of the appeal of war toys is their noise-making ability, she said.

"The same appeal is found in cowboy toys. Children don't care whether the toy gun is for soldier or cowboy. He will play with it so long as it makes a bang."

Her only rule for buying toys is this: "Provide the child with plenty of toys and a variety of them. If he demands war toys, give them to him. But also take care of his other interests, whether it be in cowboys or construction sets."

Americans Spent Over 50 Million on Christmas Trees

WASHINGTON, D. C.—The agriculture department reported that Americans spent more than \$50,000,000 for Christmas trees during the past season. This represented the sale of 28,500,000 trees.

The department said about 21,500,000 trees were cut in this country and about 7,000,000 imported from Canada. Montana is the leading tree producing state, providing about a seventh of the country's cut.

The department said the 1950 supply about equaled the 1949 total and that prices were about the same throughout the country.

Doctors in Distant Cities Analyze X-Rays Over TV

BALTIMORE, Md.—Television viewers in five network cities—Chicago, New York, Washington, Columbus and Baltimore—recently watched X-ray analysis of patients by doctors in cities miles apart participating.

Four persons were examined under a special X-ray machine which fed the image directly to a television transmitting tube.

The technique may in time eliminate the need for a patient or a group of specialists to travel if diagnosis depends on the analysis of X-rays.

Dr. David M. Gould, assistant professor of radiology at Johns Hopkins medical school, conducted an examination of a man described as a patient whose back had been pierced by pieces of iron in an industrial accident.

After a five minute consultation with doctors in other cities over a three way telephone hookup, the radiologists declared that the iron had not affected the man's lung and that minor surgery was all that was needed.

Mate Forced Her to Wear Jeans, Woman Complains

ST. LOUIS, Mo.—Americans secure divorces on many grounds, but the latest is the woman who said her husband forced her to wear jeans to parties.

Mrs. Frances Valle Reyburn Nelson, 32, charged her wealthy husband insisted she wear blue jeans at social functions and made her use old newspapers instead of towels in the kitchen.

She also said her husband of less than a year made her save the breakfast dishwasher so the lunch and dinner dishes could be washed in it.

The husband, James Martin Nelson III, was formerly secretary-treasurer of the Exchange Investment Co. In 1946 he received a one-third share of his father's \$700,000 estate.

Polio Cases Reach a New Seasonal High, Report

NEW YORK—The National Foundation for Infantile Paralysis reported recently the increase in the number of polio cases throughout the nation probably is the greatest in history for the winter months.

It announced that 569 new polio cases were reported during the last week of November and called it "the highest incidence recorded for that time of year in the past five years and probably the highest in history." It has reported 31,360 polio cases since January 1.

MRS. CHARLIE KELLY HONORED WITH SHOWER

On Saturday, January 27, Mrs. Charlie Kelly, nee Joy Belle Davenport, was honored with a miscellaneous bridal shower in the home of Mrs. L. K. Gilkeyson. The house was decorated throughout with potted plants.

In the receiving line were: Mrs. L. K. Gilkeyson, who received the guest. Mrs. Lee Davenport, mother of the bride, Mrs. Charlie Kelly, honoree, Mrs. Lowell Jarrett, sister of the bride.

Miss LaRue Gilkeyson registered the guests in the beautiful brides book. The gifts were shown by Mrs. Ray Teeple, while Mrs. Wood and Mrs. Welch presided at the tea table, which was covered with a beautiful lace cloth and in the center of the table was a Roseville pottery bowl of yellow jonquils. Cookies and punch were served to thirty guests.

Hostesses were: Mrs. Ray Teeple, Mrs. Claudia Welch, Bobbie Edwards, Mrs. Omer Cornett, Mrs. Jim Bomar and Mrs. Clayton Wood.

Mrs. R. E. Campbell and daughters, Miss Roberta Campbell and Buddy Boh, of Hereford and Mrs. Glenn Burnett, of Amarillo, Mrs. Nona Jowell, of Hereford, and Miss Anna Lee Anderson spent the week end in Midlothian with relatives. The party also visited briefly in Fort Worth Saturday.

Mrs. W. J. Hyatt was a business visitor in Amarillo, last Thursday.

Mrs. Avis Cowart spent the week end in Amarillo with her daughter and family, Mr. and Mrs. Jack Burleson.

Mr. and Mrs. E. F. Nelson, of Lubbock, spent the week end with their daughter, Mr. and Mrs. Leo White.

Leo White attended a county agents meeting in Wichita Falls from Monday until Wednesday of this week.

FUNERAL SERVICES HELD SATURDAY FOR LEM STANDEFER

Last rites were held Saturday at the First Baptist Church of Flomot for Lem Standefer, 60, and burial was made in Floydada cemetery. Mr. and Mrs. Standefer lived in Silverton about twenty years ago.

Survivors include his wife, one son, Howard, three daughters, Mrs. Denver Anderson, Quitaque; Mrs. John Bourland, Bushland; Mrs. Bill Henshaw, Haskell, Texas.

Among those from Silverton who attended the funeral were: Mr. and Mrs. Ben Bingham, Mr. and Mrs. Ashel McDaniel, Mr. and Mrs. Claude Loudermilk and Archie, Ray Martin, Charlie Parker, of Fort Sill, Oklahoma; Natalie Toler and son, Billy Gene.

Mrs. Mary Watson Jones, of Perryton, was a week end visitor in the home of her parents, Mr. and Mrs. J. S. Watson.

Mr. and Mrs. Henry Price attended the Hardware Convention in Amarillo Tuesday.

SNOW TUESDAY NIGHT WILL ADD SOME MOISTURE

Snow which fell Tuesday night accompanied by high winds will add some moisture, however, it melted very little Wednesday and the temperature was down to 14 degrees during the blizzard. Much of the snow drifted and the highways were dangerous most of the day Wednesday.

Mrs. Thrasher, of Turkey, is visiting in the home of her son and wife, Mr. and Mrs. Marion Summers.

Mr. and Mrs. Raymond Payne were called to Houston Saturday on the account of the death of his sister.

Mr. and Mrs. Jesse Grimland and Mrs. W. K. Grimland spent Sunday in Turkey with relatives.

Mrs. J. E. Estes, of Amarillo, and Mr. and Mrs. H. P. Health and daughters, of Plainview, spent the week end with their parents, Mr. and Mrs. M. K. Summers.

Hint For Stretching The Food Dollar Given By Harris

Here's a suggestion from Jimmie Nell Harris, associate extension foods and nutrition specialist of Texas A. and M. College, that may help homemakers get more food value into meals at a low cost.

She suggests using dry or powdered milk for cooking. She points out that non-fat dry milk solids are made from fresh milk—the liquids are removed by evaporation. If you need a liquid, there are two methods commonly used for changing the dry powder into liquid skim milk.

Use a mixing bowl and pour into it enough water to make up the required amount of skim milk—sprinkle the dry skim milk powder on top of the water and beat with a rotary egg beater until the milk solids have dissolved. The mixture can also be placed in a glass jar with a tight fitting lid and—a few hard shakes will dissolve the powder.

After the dry solids have been changed to a liquid, Miss Harris says to use it just as you would fresh milk—and this includes proper refrigeration.

Mr. and Mrs. J. E. Vaughan and Mr. and Mrs. Wayne Vaughan spent the week end in Hollis, Oklahoma.

Mrs. Della May and Mrs. Glynn Bunch were shopping in Amarillo Thursday.

Mr. and Mrs. Orlin Stark, of Quitaque, visited Mr. and Mrs. Watson Douglas Sunday.

Mr. and Mrs. D. H. Davis visited Friday night in Lubbock with relatives.

Alvie Morris of Camp Hood, Texas, was home Sunday and Monday visiting relatives and friends.

Mr. and Mrs. Geo. Seaney attended the Hardware Convention in Amarillo Monday.

Mr. and Mrs. Cecil Seaney and family spent the week end in Liberal, Kansas, with her sister, Mrs. Pat Cogdill.

Mr. and Mrs. Milton Dudley moved to their new three bedroom home Saturday.

Mrs. Bud Alexander and daughter, of Strathmore, California, arrived Saturday to visit relatives here and at Turkey. Mr. and Mrs. Olga Turner, of Turkey, met them in Lubbock Saturday night.

Sunday dinner guests in the home of Mrs. C. M. Strickland were: Mr. and Mrs. S. R. Turner and Mr. and Mrs. J. M. O'Neal. Bert Douglas, of Lubbock, visited Sunday night with relatives in Silverton.

Mr. and Mrs. C. C. Garrison were business visitors in Lubbock Tuesday.

Mr. and Mrs. Bill Middleton, of Amarillo, visited with Mr. and Mrs. C. R. Badgett Sunday afternoon.

Silverton P. T. A. Met at School Auditorium February 8

The Silverton P. T. A. met in the high school auditorium February 8, for its monthly gathering. After a brief business meeting, the parents of the pupils of the different classes were counted, and the eighth grade received the prize this month for having the most parents present.

The eighth grade girls put on the "Founders Day" program. The Blue Bell Trio and eighth grade boys sang several songs.

Mr. Porter, directed his band in three numbers, then Mrs. Garrison's piano students played several numbers. The program was concluded by Supt. Moreland leading the congregation in the Parent Teachers Prayer.

This splendid program was given before a very small group of parents and teachers. This organization is less than two years old; so far it has been very active. We can keep it this way by a good attendance of the parents, teachers and officers. Let's keep our P. T. A. strong for the sake of our children.

Mrs. Albert Mallow, Publicity Chairman.

Stapleing Machines and Staples at the News Office

Mr. and Mrs. Geo. Jones, Mrs. T. D. Wallace and Billy were business viiitors in Plainview Monday.

Mr. and Mrs. Allen Dickerson, of Lubbock, visited Sunday in the home of his mother, Mrs. W. A. Dickerson.

Why your promptness is always appreciated

Your prompt payment of telephone bills helps keep down our collection costs. It also helps us pay the 15% to 25% Federal Tax and long distance connecting charges promptly out of receipts instead of reserves.

We appreciate your fine cooperation, for it helps us keep service values high and costs low.

Always Pay!

Add Spices and Herbs To Vegetables For Extra Flavor, Color

SPICE THE VEGETABLE and keep it interesting. Your family's enjoyment of these vegetables will pay you dividends not only in their health and well-being, even during winter months, but will also add luster to your reputation as a clever cook.

Though you may rely heavily on root and canned vegetables in the absence of produce from your own vegetable garden, there's no reason why vegetables should be dull eating. A dash of spice here, a sprinkling of herbs there lift them out of the ordinary eating class to the gourmet category.

A harvest ham dinner will be especially good when the vegetable served with it has green beans, cooked until tender but left a lovely green, then spiced with a gratings of nutmeg.

Lynn Chambers' Menu
 *Harvest Ham
 Baked Stuffed Sweet Potatoes
 *Green Beans with Nutmeg
 Pineapple-Grape Salad Hot Rolls
 Cherry Cobbler
 Beverage
 *Recipes Given

Mashed Potatoes with Rosemary Butter
 (Serves 2-3)
 3 small or 2 medium sized potatoes
 1/2 teaspoon salt
 Pinch black pepper
 Rosemary Butter
 3-4 pounds top milk or light cream
 Paprika

Peel and cut potatoes in half. Cook in boiling salted water until soft but not mushy. Drain. Crush with warm masher and beat until all lumps are out. Add salt, pepper, Rosemary Butter, and beat to blend. Add top milk or cream and beat thoroughly until light and fluffy. Place in serving dish and garnish with extra plain butter and a sprinkle of paprika.

Rosemary Butter
 2 tablespoons butter
 1/2 teaspoon crumbled leaf rosemary

Place butter and rosemary in small saucepan. Heat gently until butter is melted. Set in warm place to steep for 1/2 hour. Strain over rosemary leaves. Use as in above recipe.

Tongue and Vegetable Casserole
 (Serves 6)
 3 carrots, sliced
 1 cup cut green beans
 2 cups cubed potatoes
 1 small onion, sliced
 1 1/2 cups tongue broth
 About 1 1/2 cups milk
 4 tablespoons butter
 6 tablespoons flour
 1/2 teaspoon salt
 4 teaspoons horseradish
 12 slices beef tongue

Cook carrots, beans, potatoes and onion in the tongue broth until tender. Drain, saving broth and adding enough milk to make 3 cups of liquid. Make a white sauce with the butter, flour and liquid. Add salt, horseradish and vegetables. Slice the cold tongue about 1/4 inch thick. Pour half the creamed vegetables into a 7-cup casserole and arrange half of the sliced tongue over it; add rest of vegetables and lay rest of tongue slices on top. Cover and bake in a moderate oven, (350°) for about 20 to 30 minutes.

***Harvest Ham with Sweet Sauce**
 1/2 ham
 1/2 cup currant jelly
 1 1/2 teaspoons dry mustard
 1/4 teaspoon each ground cloves and cinnamon
 Whole cloves

Bake ham according to directions on wrappings. Skin and score top into small squares or diamonds. Insert a clove in center of each square. Combine jelly, mustard, cinnamon and ground cloves. Spread over top of ham. Bake 90 to 100 minutes longer, basting several times with juices in pan. Slice ham and arrange slices on platter. Pour cherry sauce over ham slices. If desired, platter may be garnished with sprigs of parsley.

Silvered potatoes and carrots can be cooked together to glamorize them. Season with butter, pepper and minced parsley.

Celery Leaves: Use in green salads, in bread stuffings, in stews and soups, with roasts and for garnish.

Cauliflower Leaves: Ask for untrimmed cauliflower. Save leaves nearest head. Trim off lower tough parts. Cook in boiling water to cover, 15 minutes. Drain. Season with butter. Or chop and add white sauce.

Savory White Beans
 (Serves 6)
 3 cups dried white pea beans
 1 1/2 teaspoon salt
 1/2 teaspoon garlic salt
 1/4 teaspoon sweet basil
 2 small bay leaves
 1/2 teaspoon black pepper
 1 finely diced green pepper
 2 medium sized onions
 3 large ripe tomatoes
 3/4 tablespoons dried parsley flakes
 1/2 teaspoon oregano, crumbled

Wash beans and soak overnight in cold water. Drain. Cover with water. Add salt, sweet basil, bay leaf and black pepper. Simmer until tender. Drain. Add 4 tablespoons of the butter in a frying pan. Add green pepper and oregano. Sauté about 10 minutes or until tender but not browned. Add to a totes cut into small pieces. Add oregano and parsley and simmer for about 5 minutes or until tomatoes are soft. Mash tomatoes some with back of spoon as they cook. Add beans, butter and stir gently to blend. Beans may be placed in baking dish and topped with a little grated Parmesan cheese and baked in oven in covered dish for 10 to 15 minutes, if desired.

Peas and Corn with Marjoram
 (Serves 6-8)
 1 package each frozen whole kernel corn and peas
 3 tablespoons butter
 1/2 teaspoon powdered marjoram
 2 tablespoons cream

Cook peas and corn until tender. Melt butter in small saucepan. Add marjoram and let steep 2 or 3 minutes in warm place. Pour over vegetables and toss gently to mix. Drizzle cream over vegetables.

***Carrots Julienne with Sage**
 (Serves 4-5)
 1 bunch carrots cut Julienne style
 2 tablespoons butter
 3/4 teaspoon powdered sage
 Chopped parsley

Cook carrots until tender. Melt butter in small saucepan. Add sage and let stand in warm place for 2 or 3 minutes to steep. Pour over carrots and toss very gently to mix. Arrange in serving dish and garnish with sprinkle of parsley.

***String beans with Freshly Grated Nutmeg**

FOR A GOURMET touch, add a sprinkle of freshly grated nutmeg to buttered string beans.

Leflover tongue combles with green beans, potatoes and onions in this hearty casserole. The horseradish seasoning gives a zippy flavoring to the white sauce which is so delicious with mild flavored vegetables and sliced tongue.

GUEST EDITORIAL

Darrell McWilliams

I want to thank all the students and grownups, that had anything to do with raising the money for the "March of Dimes." This money goes to a good cause, and every one should be glad to donate a few spare coins for it. You may not know it, but you or one of your close friends may be next.

The money you donate may be used to save your own life. The spirit of the people in raising money for this fund this time was greatly appreciated.

THE SPIRIT OF THE GAME

Now that another phase of high school sports is completed and the basketball suits have been put away for another season, it might be wise to recall for a moment the events of this past season. Don't stress the fact whether you lost a game or won it. That should take only a secondary place. How you won or lost should be of major importance to any player or fan. Too much emphasis placed on the mere winning of a game will destroy the true value of that game. When the referee called a foul that you definitely could not have made remember that he is only human too, and that very rarely will a referee make a wrong decision on purpose.

Did you do your utmost to keep the game as fair as possible and keep it "Clean"? Were you courteous to the other players and the officials? The fans too, have an important part in any game. As spectators, they can ruin a game or make it a worthy sport. Did you boo the referee, make fun of a player or try to make them miss the shot? If you, as an individual, did your part to keep the real spirit of the sport then you have helped to keep the true spirit of sportsmanship.

PUBLIC SCHOOL WEEK

On the week beginning March 5 there will be open house at Silvertown public school. Everyone is invited to attend or just come in and visit any part of the school or any class you would like to know about.

Of course, any one is invited to visit our school any time they like, but this is a special week for everyone. There will be pupils available at any time to show the visitors around.

More information will be given later about this Public School Week.

CHEERS FOR ROOM MOTHER

By Gloria Peibsworth

Mrs. Redin, eighth grade teacher, is singing the praises of the entire PTA and the "room mother" program in particular.

Mrs. Ely, Mrs. Mayfield, and Mrs. Tiffin with the assistance of Mrs. Jackie Wingo helped the 8th grade pupils in a program honoring PTA founders which was presented last Thursday evening. The program consisted of songs, readings, band numbers, and a pageant. Every member of the class had an opportunity to participate in the program.

The program was enjoyed by the audience. The youthful participants received many compliments on their work. The highlight of the program was the pageant given by Tommie Miller, Jean Elms, Sandy Ely, Joni Douglas, Fannie Tunnell, and Virginia Garrison.

The eighth grade won first prize by having the largest number of parents present. The seventh grade was a close second.

Mr. Glenn Bunch, Jim Baird and Red Stevens journeyed to Plainview to purchase a sign to place on the new F. F. A. pickup.

Gloria sure gets around. She was at Tulia with Darrell Saturday night, and at Quitaque Sunday afternoon with Eudean, Duke, Corkey and Wanda.

MRS. GARRISON'S MUSIC STUDENTS PLAYED LAST THURSDAY NIGHT

The following program was carried out:
 Donna Garrison, "A Little March"
 Paula Reid "Grandfather's Clock"
 Dianna Fogerson "Chicken Reel"
 Trio, Dianna Fogerson, Lawanda Reid, and Waynelle McCutchen, "Chickens March."

SENIOR PLAY CAST

The parts to the play "Take It Easy", have been given to the following:
 Mrs. High Gate, a forgetful, eccentric woman will be played by Dorothy Heckman.
 Nancy her attractive daughter will be played by Mary Lou Bellinger.
 Tom Lorence, an artist in love with Nancy, will be played by Darrell McWilliams.
 Lon Tarence, a house painter, will be Ted Vardell.
 John Florenz, an unknown quantity, is Dean McWilliams.
 Arthur, the mischievous yard boy, will be Roy Hyatt.
 Beagle Jones, a boastful detective, will be Donald Bean.
 Phillip, a bewildered butler, will be Pat Northcutt.
 Mary, a very plainspoken cook, will be Naydene Gamble.
 Florence, a coquettish maid will be Mary Tom Bomar.
 The date for the play has not yet been set, but it will probably be near the middle of March.

SPRING FOOTBALL TRAINING

By Joe Monday

Spring training is just around the corner and every boy who is interested had better try now not wait till later. There will be some mighty good material for next year's team if they stay eligible. Football is a clean rough sport which most boys like to play. You might get a few bumps but they will heal. The boys say they are going to win district next year and everyone can help by always saying a good word to them when they do something wrong. All of us hope they do as they want to do.

SOPHOMORE CLASS NEWS

By Gay Merrell

24 students enjoyed a party at the fire hall. They enjoyed refreshments of sandwiches, cokes, potato chips, and cookies.

Good records were furnished by Jim Baird and Sandra Mallow. Everyone liked the music and danced more than usual.

Nearly everyone learned to dance the "Heel And Toe Polka" and tried to figure out how to do "Glowworm."

A good time was reported by everyone.

SILVERTON BAND MAKES FIRST APPEARANCE

What the small band of the Silvertown school lacks in quantity it makes up for with ample quality. This was proven by its first appearance at the PTA program last Thursday night. Having been organized only since school started, and many of the students playing an instrument for the first time, they showed remarkable progress.

They played the following numbers: "There's Music In The Air," "Long, Long Ago," and "Alma Mater".

The following students are members of this class: Clarinet players: Jeanne Shy, Lola Vaughn, Thomas Strange, Michael Reid, Jackie Baldwin; Cornet, Pat Redin, Sharon Gilkeyson, Kenneth Ray Garvin; Drums, Leslie Marie Word, Lettie May O'Neal.

Mr. Frank Porter, who instructs the class, says that he is proud of the progress made by these students, and hopes that next year a larger number will turn out for band instruction. If enough were interested Silvertown could have a school band that one could take much pride in.

HIGH SCHOOL COLLECTS \$127.50 FOR POLIO FUND

Mr. Moreland reported this morning that the high school had collected about \$127.50. A basketball game between the high school girls and the outsiders brought \$77.50 and the students donated about \$50. This money will all go to the March of Dimes drive.

QUESTION OF THE WEEK

How some of the students feel toward paper-wad shooting.
 Norman Jasper—Let them shoot, it's their 10 points off.
 Zephyr—I think it is alright.
 Willie Reynolds—You have to defend yourself, but I think it is alright too.
 Joe Brooks—I think it improves your skill for other things.
 Sam Lusk—I think it keeps your body well co-ordinated.

GOSSIP

Hey! Sunshine, Joe Lee wants to know why you don't ever stay at home? He came after you Sunday night.
 Millie sure seems to like Quitaque. She was down there Saturday afternoon until Saturday night and Sunday afternoon until Sunday night.
 What's the matter Eudean? Were you having car trouble Sunday afternoon?
 Joe and Wayma were together again Saturday night. They seem to be making a habit of this.
 Roy, Joe Howard and Ted were in Turkey Sunday night—skating I think.
 Joe Wayne and Joe were in Turkey Thursday night at the ball game.
 Joe Wayne and Donna were seen together Saturday night and Sunday night.
 Nosey wonders what was the matter with Gay, Billie Don, Dean, and Dick Saturday night.

Week end visitors in the H. A. Morris home was their son, Pfc. Alvie Morris, 2nd Armored M. T. B. Fort Hood, Texas and Mary Jo Thompson of Claude, Texas.

Mr. and Mrs. Gordon Montague and Mr. and Mrs. Will Smithee were business visitors last Thursday in Dimmitt.

Kelly Dean Newman, son of Mr. and Mrs. Kelton Newman, of Tulia, and grandson of Mr. and Mrs. W. H. Newman, Silvertown, underwent an appendix operation in Tulia hospital February 7. Last reports say he is doing nicely.

LET REDDY'S ELECTRIC RANGE BE THE HEART OF YOUR KITCHEN

... and Valentine's Day will be every day, all day. Reddy and his electric range takes the cook (that's you) out of cooking... keeps you fresh looking no matter how many meals you prepare. You see, there's no unwanted heat escaping from an electric range. All heat created by the high speed electric elements is transmitted directly to the pots and pans by three scientific means of heat transfer. The food cooks when you cook electrically... you stay cool and fresh... always at your best. If you're not now cooking electrically, start now, like so many Panhandle-Plains-Eastern New Mexico, Pecos Valley women already have done.

Alcoholism Can Be Checked By Nutritional Treatment

Alcoholism can often be traced to the diet and overcome by nutritional treatment, Professor Roger J. Williams, nationally known biochemist of the University of Texas, declared at the sixth southwest regional meeting of the American Chemical Society held at San Antonio, Texas.

Describing a recent series of experiments on rats, in which the animals were studied as individuals rather than as types, Professor Williams said the rats were found to differ widely in their tendencies to drink alcohol—some becoming drunkards, some moderate drinkers, and some remaining teetotalers.

"When on an ordinary stock diet," he reported, "some drank heavily from the first. Some started in easy and built up their liquor consumption during a period of weeks or months. Some drank spasmodically and some drank moderately over a long period of time. Some were teetotalers and would not drink at all in spite of the fact that they were forced to make a deliberate choice."

The investigators found that these differences "have a genetic basis, but that they also have a nutritional basis," according to Professor Williams, who said:

"Rats can be made to drink or be abstainers, depending on their diet."

Recommending that the same approach be applied to the study of human alcoholism, he said:

"Man doesn't become alcoholic—only certain individuals. The cause for the alcoholism has, as we believe, genetic roots and nutritional roots, and very fortunately we are convinced that in many cases it can be treated nutritionally so that the tremendous urge is abolished."

Suet Hung From A Branch Will Keep Birds All Winter

Use the shade trees in your yard as a cafeteria for birds this winter. Hang suet from a branch or erect a simple little feeding station beneath a tree. That will bring many winter birds to your door for breakfast, lunch and dinner. And they may remain until spring returns.

Nourishing food may mean the difference between life and death for a bird in the stormy cold. The birds will repay you in the joyous sight of watching them feed and cultivating their friendship. But more than that, they are beneficial to your trees and garden, eating overwintering insect eggs and, like the woodpeckers, devouring harmful bark insect pests.

Woodpeckers, nuthatches, chickadees, brown creepers and jays are meateaters. They like "meat" such as suet or any kind of fat in their diet. Peanut butter because of its oil is a good substitute.

The vegetable eaters are the finches, cardinals, song sparrows, tree sparrows, juncos, chickadees, jays and nuthatches like sunflower seeds.

A feeding shelf or station may be a flat board a foot or more square hung from a tree or held by a pole. If it is surrounded by a coping an inch or two high, there will be less likelihood of food being scratched away. The shelf may have a simple roof, but enclosures on the side will scare away birds.

Suede-Like Flock

The "woolly" lamb on the greeting card or in a child's book is made possibly by a "flock" finish. This is produced by spraying or sifting fibers of such materials as rayon, cotton, silk or wool upon an undercoat of a special finish while this finish is still wet and sticky. In addition to being employed for decorative and novelty use, these finishes are applied to the bottoms of lamps, ash trays, and other articles to prevent scratches on furniture. They are also utilized in lining boxes, drawers and jewelry cases. Still other uses include card tables, phonograph turntables, toys and backgrounds for advertising displays. Flock finishes resemble suede and are made in many colors.

Sugar Beet Tops

Feeding of sugar beet tops that have been exposed to frost, wilting, drying, and other damaging conditions has been responsible for cattle deaths, the American Veterinary Medical association reports. The poisonous factor is an accumulation of nitrate in the leaves. In one Canadian herd of 70 cattle, 41 sickened and 19 of them died from this cause last year. Under ordinary conditions, beet tops can be fed without harm to livestock, the AVMA points out. But caution is in order if wilting and drying have occurred, as these conditions favor the accumulation of nitrate.

Three Most Popular Birds

The American cardinal, the western meadowlark and the mockingbird are the most popular birds in the nation. They can cite the lawbooks to prove it. Of the 33 states that have adopted an official bird by legislation, seven have picked the cardinal. Virginia, acting early this year, made the latest addition to the cardinal camp which now includes Kentucky, Illinois, Indiana, Ohio, West Virginia and North Carolina. Kentucky, first state to vote an official bird, started the cardinal parade back in 1895.

Brittle Stars Blow Tops, Shed Arms, Grow New Ones

Consider the brittle star, shy and streamlined cousin of the starfish. When handled or disturbed, it can cast off any of its five arms, growing new ones at leisure. In some cases it can literally blow its top, then gradually re-cover. Rare specimens of the brittle star have been reported taken recently from California waters off Santa Catalina Island.

The brittle stars, while rare in many of their forms and little known to the average seashore vacationer, are among the commonest creatures on the floors of the seven seas. Something like 1,500 species are recognized. The majority live on the ocean bottom in deep water. They form the largest of five classes of echinoderms, spiny-skinned sea denizens.

The five arms, or rays, of the brittle star are generally long and slender and capable of snakelike movement. Hence, its popular alias is serpent star, and its scientific name, Ophiuroidea, means serpent-tails. The name "brittle star" stems, of course, from the manner in which most species can break off all or parts of their arms, which may reach two-foot in length. Round or pentagonal in shape, the central body varies from pinhead size to as much as two inches in diameter.

The fact that brittle stars are fragile explains why these odd scavengers are little in evidence in shallow waters where waves break. They are abundant, however, where seaweed is thick or in dark crevices of rocks and coral. Tropical waters hold the greatest variety, colors ranging from near black to white. Colder northern depths hold the greatest numbers. They form an important part of the diet of north Atlantic haddock and cod.

Divorce Rate in America Continues on Downgrade

Divorces granted in the United States in 1949 show a decline for the third year in a row. The estimated total for the year was 391,000, which is a reduction of 7 per cent from the 1948 total of 422,000, and of 38 per cent from the peak year 1946.

Despite this trend, the number of divorces granted last year was the sixth highest in the country's history, exceeding that for every year prior to 1944, and more than one fifth higher than the figure for 1942, the first year of United States participation in World War II.

The decline since 1946 was sharpest in the North. Somewhat less marked in the South, and least in the West. In seven widely separated cities—Buffalo, Erie, Jacksonville, Knoxville, Minneapolis, New York and Portland—the decline was more than 50 per cent.

Some indication that the postwar divorce decline is nearing its end is seen by the statisticians.

Each of 59 major cities reported fewer divorces in 1948 than in 1946, but 15 of these cities showed increases in 1949. In Miami and in the divorce center of Reno the increases were substantial. In Miami the total rose from 4,451 in 1948 to 4,707 last year, and in Reno from 5,782 to 5,902.

Berkelium Radioactive

Berkelium is a new chemical element, whose discovery was announced early in 1950 at the University of California, located in the city of Berkeley, after which the element is named. It is number 97 in the list of elements and its chemical symbol is Bk. It was produced in very minute amounts by bombarding another element called americium, which was also discovered at the University of California a few years ago, with atomic particles from a cyclotron. Berkelium is highly radioactive and in less than five hours, half of a given amount will decay to another element.

Making Farming Safer

Although farm machinery and equipment actually account for a very small percentage of all farm accidents, inventors constantly supply manufacturers with new safety gadgets to protect the life of tractor and machinery operators. The National Safety Council is constantly testing and approving mechanical safety mechanisms designed to make farming a safer and more profitable occupation. The latest safety item for tractors is a device that automatically turns off the ignition of the tractor when it rolls or tips.

Origin of Alphabet

Whatever nation originated the alphabet, it is generally conceded that the Phoenicians prepared and launched it for world use. Those seagoing traders and craftsmen of the Mediterranean devised a simple, effective system of 22 letters. In the process, they apparently took a selection of picture characters of such everyday objects as an ox or camel; made crude letters of them, and gave them names. All consonants, this simplified, easy-to-read and write alphabet was used mainly for accounting purposes in business dealings.

Missouri Mule Fades Out, But Not Missouri Rabbit

Rabbits and mules have two things in common—both have long ears and when you think of either, you think of Missouri.

But, while the Missouri mule has given way to changing times, the rabbits carry on, undaunted by the growing army of those who want him. During the 1949-50 season, an estimated 2,094,400 Missouri bunnies fell to the hunter's gun. More than 438,700 were shipped out in the rabbit-meat trade and buyers from 39 other states purchased 305,500 alive for restocking purposes. This brought the total bag for the year to more than three and a half million rabbits, which is about an average harvest.

In view of this seemingly large harvest, the Missouri conservation commission is sometimes accused of sacrificing the state's rabbit population to the demands of both commerce and sport. But a look at the habits of the rabbit and other factors affecting cottontail posterity, reveals no such picture.

Commission Biologist Kenneth C. Rowe, who conducts state-wide studies on rabbits, says that the average mother cottontail produces 17 young during a single season. Bennitt and Nagel in their 1937 report of Missouri's first comprehensive game survey, placed the state's average fall population of rabbits at over 10 million. Even if only a few million are still hanging around by spring, their progeny will run into tens of millions.

A rabbit's greatest enemy, Rowe says, is not the gun, dog or trap. Of all bunnies born each spring and summer, only about 20 per cent survive for hunting in November. This high mortality is due largely to removal of protective and nesting cover, natural predation, freezing and drowning of young during unfavorable weather, overgrazing by stock and burning off cover, and disease. Actually, the controlled human harvest helps to keep this species within the carrying capacity of its surroundings.

Brucellosis Drive Aimed At Eradication, Not Cure

Farmers would fight a losing battle against brucellosis if they had to depend on drugs to cure it.

That is why the campaign against this disease is being centered on blood-testing elimination of diseased animals, and preventive vaccination of calves, according to a special committee of the American veterinary medical association.

The committee, headed by Dr. A. M. Orum of Carthage, Ill., was formed to aid the nation's current drive against bovine brucellosis. The disease, believed to be costing cattle owners \$100 million a year, causes lowered milk production, abortion, and other reproductive troubles.

"Regardless of what anybody has claimed, no drug or nutritional substance is known to cure brucellosis in livestock," Dr. Orum said.

Physicians regard several drugs as useful in treating human brucellosis, which is contracted from diseased animals, he explained. But even if veterinarians could utilize these drugs for treating brucellosis in animals, the cost under present conditions would be preventive except for highly valuable stock.

"We are convinced that the only sound and financially practical way to deal with this disease is to work toward its complete eradication," Dr. Orum said.

This can be done, he added, through a nationwide program of testing all cattle, disposal of reactors to the blood test, and calfhood vaccination coupled with strict sanitary measures in all herds.

How Flavoring Started

Thousands of years ago after man discovered fire and learned to cook his food, he sought to make it more palatable and interesting. Perhaps a leaf from a laurel tree fell onto the meat he was cooking, and noting the improvement in taste, he used it with frequency, and experimented with other leaves, barks, flowers, berries and seeds. Hence, flavoring is one of the oldest of the arts, and its heritage is as old as man himself.

R. E. Safety Guard

For a hobby, three Pennsylvanians experimented with a device to prevent collisions of automobiles with trains. At a recent demonstration before state officials, and representatives of railroads and insurance companies, it made an impression that promises serious consideration. Described as a "magnetic eye", when installed in an automobile, bus or truck it registers the approach of a train, brakes the vehicle to a halt and turns off the motor. The car is held to a stop until the train passes.

Pleasing Dining Room

An eye-pleasing dining room can be created with the aid of sky blue, rose, chartreuse, black and white. Use the pleasant light blue for the flat paint on the walls and a lighter tint of the same color for the ceiling. Gleaming white woodwork adds an air of cleanliness and crispness. Draperies and chair upholstery in chartreuse add an interesting note, while black-enameled furniture and a rose colored rug lend warmth and emphasis.

Finishes Pre-Tested
The term "industrial finishes" is applied to the finishes used by manufacturers to enhance their products. Before being applied, they are subjected to many special tests based upon the kind of usage to which the article may be subjected. For example, in addition to tests for adhesion, and hardness, finishes for refrigerators, stoves and kitchen cabinets are tested for their resistance to various foods, such as lemon juice, butter, lard and vinegar—as well as to various cleaning materials.

Wooden, Aluminum, Ladders
The rung of a wooden ladder will bend downwards about one-sixth of an inch for a 150-pound person stepping on its center. An aluminum ladder is constructed so that the deflection is much less. If it were built like the wooden ladder, the deflection of the aluminum rung would be about a ninth as much as for the wooden rung under similar conditions. This is because aluminum is nine times as rigid as wood (white oak).

Aluminum Production
To meet the continuing high consumer demand for aluminum products, the industry produced 360,707,827 pounds of primary aluminum during the second quarter of 1950. This is about 12 per cent above the 322,825,008 pounds produced during the first quarter of the year, and it is the largest amount of metal turned out by the industry in any quarter since the second quarter of 1944. Shipments of aluminum sheet and plate by association member companies (about 98 per cent of the U. S. total) during the second quarter totaled 271,157,929 pounds, about 4.5 per cent above the 259,772,137 pounds shipped during the first quarter.

City vs. Country Dog
Though dogs like the woods and fields, additional hazards lurk there. These include diseased stray dogs, poisonous food, steel traps, barbed wire, porcupines, and so on. Most of these dangers do not exist in the cities. Also, city dogs generally are more closely watched, better housed, and better fed. Contrary to the popular myth, the city dog lives longer than his country cousin does.

Texas Venture
in Education • 1876-1951
Our first state college—Texas A. and M. is now in its seventy-fifth year

Many and ingenious are the ways Texas boys have found for earning all or a part of their college expenses in order to secure an education. The old standby jobs of janitor and mess hall waiter have long been popular with working students at the A. and M. College of Texas, while others have found new and novel ways of their own after the standard jobs were filled. One of the Southwest's leading auctioneers today worked his way through school as a student auctioneer at A. and M. A present member of Congress divided his working time between the money catching poisonous snakes for study or to "milk" them of their poison for sale to manufacturers of medicines. One enterprising lad raised beavers on the campus and sold their pelts. Records of working students at A. and M. show that on the average their grades are as good, if not better, than those of boys who do not have to earn a part of their own expenses.
