Explorer Rendezvous To Be Held at Reese Air Force Base

The South Plains Council, Boy Scouts of America announced today that an Explorer Rendezvous will be held at Reese Air Force Base, 12 miles West of Lubbock on Friday and Saturday, March 30 and 31. Explorers with their tents and bedrolls will arrive at the Air Base between 4:30 and 6:00 p. m. on Friday the 30th. The program will include survival training, fire fighting, link trainer instruction, instruction on the Rifle Range, and the highlight will be an actual flying experience in a multi-motored plane. All Explorers in the South Plains Council are eligible to attend.

Meals will be served in a consolidated mess hall. Explorers should make their reservations directly to the Council Office, 2109 Avenue X, in Lubbock, and send with it the \$2.00 reservation fee which covers all of the expenses. The Rendezvous will break up following the noon meal on Saturday, March 31st. The deadline for reservations in Saturday noon, March 24.

Dianne Rogers is Winner in Piano Contest

Denton.—Dianne Rogers, daughter of Mr. and Mrs. Paul Rogers, 1702 West Sycamore, was named one of four winners of a contest sponsored by the Houston Symphony Orchestra to select outstanding young pianists of North Texas, Saturday at Texas Christian University in Fort Worth.

Miss Rogers is a pupil of Dr. Isobel Sciolti of Denton. Her competition included pianists from Fort Worth, Dallas, Wichita Falls and a number of other cities in the North Texas area. Twenty-one took part in the event.

Miss Rogers now has a chance to win a cash prize of \$200 and an appearance with the Houston Symphony. A recording of her piano number will be sent to the conductor of the Houston Symphony, in competition with the other winners.

The Denton pianist chose the Greig Concerto as her offering Saturday. Dr. Sciolti played the orchestral accompaniment.

Miss Rogers is a former resident of Silvertown.

Mrs. Alton Steele was in Plainview Monday on business.

Miss Della Gay Teague Wed to Cpl. Bunker

Miss Della Gay Teague, daughter of Mr. and Mrs. Elzie Teague of Dimmitt, Texas, became the bride of Cpl. Merrill C. Bunker, of Bar Harbor, Maine, March 15, in an impressive double ring ceremony performed by Rev. Earl Landtroop in a setting of ferns, baskets of white stock and candlelight in the home of Mr. and Mrs. Clyde Damron, aunt of the bride.

Mrs. Melvin Sittle played the traditional wedding marches and accompanied Mrs. Sid Sheffy as she sang "Always" and "Oh Promise Me."

The bride given in marriage by her father, wore a tailored suit of navy blue with white accessories and a corsage of white gladioli.

The matron-of-honor was Mrs. Bob Mapes, sister of the bride. She wore a gray suit with black accessories.

Best man was Jack Teague, brother of the bride.

A reception followed the wedding. Miss Mona Simmons presided at the punch bowl and the wedding cake was served by Miss Pat Barney.

The bride attends Draughts Business College at Lubbock. The groom is stationed at Reese Air Force Base at Lubbock.

Mrs. Bunker is a granddaughter of Mrs. T. D. Wallace of Silvertown, Mrs. Wallace and Mrs. Geo. Jones attended the wedding.

The Century of Progress Club Met March 14

The regular session of the Century of Progress Study Club met March 14, 1951. Fourteen members answered roll call with a Texas Industry. During the business session the hour of meeting time was changed from 4:00 to 3:00 p. m.

A Texas Day program was presented with Mrs. L. D. Griffin as hostess. The progress was in keeping with Texas week.

Mrs. Donald Weast spoke on Boys Ranch.

Frontier and iPioneer Life in Texas was presented by Mrs. Billy Wood.

Flunoy Estes Hutsell reported for active duty in the Navy Air Corps Wednesday, March 14, in Amarillo. He was sent to Albuquerque, New Mexico for his physical and will be stationed at San Diego, California. He was graduated from Silvertown high school class of 1950. He attended Hardin-Simmons University at Abilene the first semester. Flunoy volunteered December 29, for Navy Air Corps. His father, and brother, Esdell and sister, Mrs. Jimmy Tidwell accompanied him to Amarillo Wednesday where he was inducted.

Week end guests in the home of Mr. and Mrs. T. C. Bomar were: Mrs. N. M. Lawler and Mr. and Mrs. John Gilbert and son, of Goodnight.

Rev. and Mrs. John Tucker, of Lubbock, visited Monday with her mother, Mrs. W. A. Dickerson and friends.

Rev. and Mrs. G. A. Elrod were in Plainview Monday on business.

Mr. and Mrs. Grady Wimberly visited Tuesday in Amarillo and with Mr. and Mrs. Carl Wimberly at Canyon.

Mr. and Mrs. Frank Mercer and family and Mrs. W. A. Rowell visited H. L. Rowell and family near Tulia Sunday afternoon.

Mr. and Mrs. Obra Rowell and family visited relatives in Tulia Sunday.

Mr. and Mrs. G. R. Dowdy were business visitors in Plainview Monday.

School Gives Two Holidays For Easter

The Silvertown Schools announce that they will take Friday and Monday as Easter holidays, and there will be no school on the above days. This will give the teachers and students time to enjoy a nice vacation from their regular routine of school work.

Baptists of Texas Will Hold Meeting in Amarillo April 16-18

Baptists from all over Texas will meet in Amarillo April 16-18 to talk about Sunday school work in their churches.

Andrew Q. Allen, Dallas, state Sunday school superintendent, said 5,000 persons of all ages are expected to attend the 22nd annual statewide Sunday school convention.

The convention will begin Monday afternoon and continue through Wednesday noon. Day sessions are to be held in the million-dollar First Baptist church and evening sessions, in the Amarillo Municipal Auditorium.

There will be a place in the convention sessions for all age groups from the cradle roll, which includes babies under three years old, to superintendents who have held Sunday school offices for 50 years.

Among speakers for the three-day meeting will include three representatives of the Southern Baptist Sunday School board, Nashville, Tenn.: Dr. T. L. Holcomb, executive secretary of the board; J. N. Barnett, editor of the "Sunday School Builder"; and W. A. Harrell, head of the department of church architecture.

Circle Two of W.S.C.S. Met March 14

Circle two of the W. S. C. S. of the Methodist Church met on March 14 in the home of Mrs. Hugh Nance. There were eleven present. We had a very interesting program.

A bible quiz game was really enjoyed by everyone. We had an outstanding program. Those taking part were: Mesdames Moreland, Bailey Hill and Gordon Montague.

We started the book, The Christian's Vacation. This is a very interesting book. Mrs. Mary Ray was welcomed as a new member in our circle. We were very happy to have her join us. Mrs. Leo Trimm of Virginia, was our honored guest. Those enjoying the afternoon program and the lovely refreshments were: Mesdames Bob Hill, M. G. Moreland, Mary Ray, G. D. Bunch, Glenn McWilliams, Watts, Bailey Hill, Gordon Montague, Secord, Leo Trimm, Hugh Nance.

Our next meeting will be March 29, meeting with Mrs. Homer Stephens at 2:00. There will be a very good program. Mrs. Secord and Mrs. Bunch have charge of the program.

Let's all remember this date and each member try to come. We are studying a very good book if you miss you have missed a good study and a good time.

Reporter.

Mrs. Nick Sirap and son, of Lubbock, visited Mrs. V. W. Baldwin and Mrs. W. A. Rowell last Thursday.

Mrs. Nora Estes, of Fort Worth, visited relatives in Silvertown and Flomot last week.

Mrs. C. G. Olive and daughter, Betty Lou, visited relatives in Dimmitt over the week end.

Mr. and Mrs. W. V. Bomar, Sr. spent Sunday in Lubbock visiting their daughter and family, Mr. and Mrs. N. A. Lyde and children. Mrs. Lyde was confined to her bed with virus pneumonia.

March 29 to be Ladies Night at Lions Club Meeting

The Silvertown Lions Club will hold ladies night March 29, and as their guest speaker, they have secured David Rasco, Amarillo News-Globe correspondent, who spent several months in Korea.

The public is invited to attend the speaking, which will be in the Methodist Church auditorium.

At this meeting the Lions Club will elect a queen to represent the club at the district convention at Hereford the latter part of April. Misses Dotty Heckman, Sandra Mallow and Mary Tom Bomar are the candidates. The winner at the Hereford meeting will go to the State convention.

Bill Wells, Safety Officer of the Texas Highway Patrol, will be guest speaker at the meeting of April 5.

Mrs. Joe Davis Honored With Miscellaneous Shower

Mrs. Joe Davis, nee Edwina Jackson, was honored with a miscellaneous shower Friday, March 16, at the home of Mrs. C. O. Allard. Assisting Mrs. Allard was Mrs. Bradley, Mrs. Jesse Grimland, Mrs. Bob McDaniel; co-hostesses were: Misses Virginia Garrison, Pauline Bradley and Jo Ann Hollingsworth.

Miss Jo Jackson registered the guests. Miss Virginia Garrison furnished music for the occasion.

Mrs. Jesse Grimland showed the gifts to the guests.

Refreshments of spice punch and cookies were served by Jo Ann Hollingsworth and Pauline Bradley.

Mrs. Davis received many useful and beautiful gifts. Approximately 100 registered and sent gifts.

Mr. and Mrs. Clyde Wright were business visitors in Amarillo Saturday.

Little Leanne Womack, of Big Spring, is spending two weeks with her grandparents, Mr. and Mrs. Bruce Womack. Mr. and Mrs. Womack went after their granddaughter last Saturday.

Mrs. R. C. Bomar and Mrs. A. D. Arnold were shopping in Amarillo Wednesday.

Extreme Caution is Urged in Purchase of Planting Cotton Seed

Commissioner of Agriculture John C. White expressed alarm over cotton planting seed in Texas and urged farmers to exercise extreme precaution when making purchases.

"It has been known for some time that a shortage of cotton seed existed for the 1951 goal of 11,000,000 acres", Commissioner White stated. "Quality seed were booked early and supplies completely exhausted. Texas seed stocks were supplemented by what amounts could be purchased from other states and much of this seed has come in labeled below standard for germination or approximately 60%."

Briscoe County Boys Win News-Globe Sponsored Trip

In a subscription campaign sponsored by the Amarillo News-Globe Victor Fogerson of Silvertown and Johnnie Lynn Johnston, of Quitaque, sold the required subscriptions during the month to entitle them to a tour of the Amarillo Globe-News plant, where they viewed the different steps in publication of the paper. They also were entertained with a banquet and by Uncle Jay and a picture on Wild Life, and a tour of the city of Amarillo.

While in Amarillo the boys were introduced to Gene Howe, Bob and Wes Izzard, of the Amarillo Glogs-News staff.

The trip was made to Amarillo Saturday. Mrs. Ware Fogerson and Mrs. Johnston accompanied their sons.

VISIT IN CORPUS CHRISTI

Mr. and Mrs. E. E. Minter and son, Gene, and Mr. and Mrs. Charles Yates and family, of Lubbock, visited from Friday until Tuesday in Corpus Christi with Mrs. Yates' parents, Mr. and Mrs. C. E. Yates.

Jimmy Tidwell, of Hobbs, New Mexico, came Saturday night for his wife and son, who had spent the week with her parents, Mr. and Mrs. R. C. Hutsell. They returned to their home Sunday.

"Air Cadet" Showing At Palace Theatre March 25-26

Air Cadets Robert Arthur, Alex Nichol and Richard Long are sent to Arizona for jet training under Stephen McNalley, a hard-riding, do-or-die taskmaster unknowingly suffering from a self-imposed guilt complex fostered during World War II when green pilots under his command too often didn't come back, who falls for Gail Russell, McNalley's estranged mate, gets unduly severe treatment.

His resentment doesn't lessen when he learns his war-ace brother, who shot himself, was under McNalley's command. When long inadvertently wrecks a plane and faces a washout, he demands a flight checker. McNalley takes the job, purposely puts the plane through the works, and blacks out. Long lands the plane, misunderstandings are cleared up, and the two men become friends.

Next weeks program appears on page two.

Singer Sewing Machine Course March 28

The Singer Sewing Machine Company will give a free course in dressmaking at the high school homemaking department on Mar. 28, at 2 p. m. The public is invited to attend.

Mrs. James Patton and daughter, Pat, were business visitors in Amarillo Saturday.

Mr. and Mrs. Pascal Garrison and Mr. and Mrs. Geo. Seaney visited with Mr. and Mrs. Steve Duncan at Happy Sunday afternoon. They said that Mr. and Mrs. Duncan are doing fine, and hope to come home over the week end after a re-check at the Plainview hospital.

Mr. and Mrs. Walter Massey and children, visited his parents, Mr. and Mrs. Massey at Roaring Springs Sunday.

Mrs. Esdell Hutsell and mother, Mrs. R. C. Guest, of South Plains were shopping in Plainview Monday.

IF YOU HAVE A CHANGE IN PERSONAL STATUS INFORM LOCAL DRAFT BOARDS

Austin, Texas, March 16.—Brigadier General Paul L. Wakefield, state director of Selective Service, today reminded all men registered with local draft boards that the law requires them to report any change in personal status to their respective boards.

"Young men have asked us by telephone and letter just what changes are required to be reported," General Wakefield said. "Generally, anything which may have a bearing on classification should be reported."

The state director pointed to the following things which would be regarded as a change of personal status.

1. Change of address. This is a change in the address at which a man expects to receive his mail.
2. Change in marital status. If a man marries, he should advise the local board of the name of the person he marries, the place and date of marriage, and name of county in which the marriage is recorded. If he has children, date and place of birth should be named, and place where birth is recorded. If he becomes separated, divorced, or his wife dies, this should be reported.
3. Change of job. The local board should be advised only if this is a permanent change.
4. Change in physical status. If a man has had a serious injury or has otherwise acquired a physical defect, it should be reported. It should be reported whether it is permanent or temporary.
5. Students. If a man becomes a student in a school, college, or university, this fact should be reported.
6. Members or armed forces reserves or National Guard. If a

man enters any of these, he should advise the local board, giving date of entry and name of organization.

7. Rejections by the armed forces. If a man has attempted to volunteer for the army, navy, air force, or any other branch of the armed services and has been rejected, he should advise the local board.

Much of this information is vital in determining proper classification of any man. The law requires men to keep local boards advised about such matters. All such information, if submitted by letter or card, must be signed by the man himself.

ONE'ER CORNETT'S ENTERTAIN SEVERAL GUESTS SUNDAY

Guests in the home of Mr. and Mrs. Oner Cornett Sunday were: Mrs. M. L. Welch and Mr. and Mrs. Clyde Hopson, of Winslow, Arizona; Mr. and Mrs. J. Custer, of Petersburg; Mr. and Mrs. T. W. Davenport and Bernice Welch, of Wellington; Mrs. N. M. Lawler and daughters, of Goodnight; Mrs. Maxine Dunham and son, Mrs. Bonnie Watters, Mrs. Clay Fowler, Mr. and Mrs. Freeland Bingham and family, Mr. and Mrs. Wade Welch and Mary, Mrs. T. C. Bomar, and Mrs. Bill Long and sons.

BIRTH

Mr. and Mrs. Macyle Boetler are the parents of a baby boy born Friday, March 16, in Peoples Hospital at Floydada. The boy has been named Bracy Gleen.

C. C. Medlock, of Lamesa, spent Thursday in the home of Mr. and Mrs. Geo. Jones.

Mr. and Mrs. R. E. Brookshier were business visitors in Plainview Saturday.

DEADLY COBRAS

Fear Snakes Are at Large

WASHINGTON, D. C.—Clarence Cottam of the United States fish and wild life service reports he believes the anaconda, a huge South American constrictor snake, is at large in the United States. He also indicated officials are afraid other dangerous tropical snakes—including the deadly cobra—may become established here unless some action is taken.

The service expressed alarm at the increasing numbers of escapes from snake shipments or snake collections, especially small roadside shows, catering to tourists.

Cottam said he believes that the anaconda, which sometimes reaches the length of 30 feet, has become established in swamps near Jacksonville, Fla. One of Cottam's informants reported that anacondas of different sizes have been collected.

Cobras Cause Concern

"Though not venomous, the anaconda is a huge, secretive, highly predaceous snake. It comes from the equatorial regions of South America, and its success here would not have been anticipated.

"Its escape alone would seem unlikely, for anacondas are large, slow and valuable."

It is not known how the anaconda got into the Jacksonville area.

The government is reportedly especially concerned at the possibility of cobras escaping and starting wild colonies.

Biologist William H. Stickle says a colony of snakes could result from the escape of a single female.

"Female tropical snakes can retain viable sperm for years," he said. "A female that had been captive for years without mating might reproduce if freed in an acceptable habitat."

"It is undesirable for a single individual of the cobra family to escape in this country even if it doesn't reproduce," he said.

"Many of them resemble black snakes or other harmless species and might be collected or attacked by persons who do not know the difference."

Tells of Danger

As support for their contention that tropical snakes could naturalize in this country, wild life agents pointed out that the Texas diamond-back rattler, which ranges normally from California and Texas north through Oklahoma, has set up a breeding colony in southern Wisconsin. The colony was probably started by specimens escaping from, or being released by traveling shows. The scientist describes this as an example of "surprising climatic tolerance."

Cobras especially worry the government because they are so deadly. When guarding eggs they are aggressive. They can catch up with and strike a running man. One bite is enough to kill an elephant.

There is no effective first aid treatment. Some of the cobras, Asiatic as well as African, are expert at squirting venom into the eyes.

The population of an imported snake might be distributed for miles before anyone knew the species was breeding in the wild, officials said.

Crews of men probably would have to work for several seasons to exterminate them, and then who could say they had the last snake?

Enrollment in Colleges Drops 9.4 Per Cent, Report

CINCINNATI, O.—Dr. Raymond Walters, president of the University of Cincinnati, reported recently the number of full-time United States college and university students dropped 9.4 per cent last fall.

He said, however, that the Korean War is not to blame.

California University again led all schools in full-time enrollment with 39,492 students, and New York University in grand-total enrollment with 46,357.

Dr. Walters blamed diminished 1950 attendance on the low birth rate of the 1930's. He said the low birthrate factor "will prevail for some time."

While he discounted the effect of the Korean War in the current survey, Dr. Walters predicted a transfer from campus to camp for nonveteran men students.

Skins of Six Sheep Used To Make Dogma Parchment

VATICAN CITY—The assumption dogma proclaimed by the Pope recently is inscribed on the skins of six sheep.

The document, on 26 sheets of parchment, each 15 by 20 inches, contains about 6,000 words. Each four sheets required one sheep skin.

Five months were needed to compile and prepare the document under the direction of the apostolic chancery.

It is contained in a blue leather envelope bearing the seal of Pope Pius XII, and a dove holding an olive sprig in its beak. The cover contains a dedication of the Daughters of Mary associations which paid for the making of the document. After it is signed by the pope and other church authorities it will be placed in the Vatican's secret archives.

GIVE YOUR SOW AND LITTER BETTER CARE AND SAVE MORE PIGS

Texas farmers can reduce their pig losses greatly by giving the sow and litter better care during and immediately after farrowing, says E. M. Regenbrecht, extension swine husbandman of Texas A. and M. College.

Regenbrecht advises increasing the ration gradually after the pigs are born until the sow is on full feed. A great deal of milk is required to feed a litter of growing pigs, and it is usually best to feed the sow all she will eat.

He cautions against losing pigs from nutritional anemia. A sow's milk is very low in copper and iron, the elements most necessary for the prevention of this disease.

Symptoms of anemia which the pigs may show are rough hair coats, wrinkled skin, highly arched backs, "stretched" bellies and gasping breath.

Regenbrecht says it is practically impossible to raise a litter of pigs to weaning age on a concrete floor without providing them with copper and iron. Both can be supplied by placing a shovelful of clean sod in the pen every day.

The pigs will pick up enough of the elements while rooting in the sod to prevent anemia, but Regenbrecht warns farmers not to use soil from an area that may be contaminated with swine diseases.

BIRTH

Mr. and Mrs. Loyd Stephens are the parents of a baby girl born Saturday, March 17, in the local hospital.

Mrs. Printz Brown was a business visitor in Plainview Friday.

Guests in the home of Mr. and Mrs. Wade Welch Saturday night were Mrs. L. W. Davenport and Mrs. Clyde Hopson.

EASTER

Easter is the spring time religious festival which honors the resurrection or rising from the dead, of Jesus. To christian people, Easter is joyous for three reasons. One is that it makes the return of life for Christ. The second is that it means the end of the forty days of lent. The third is the North temperature zone, is that it comes in the early spring. It is the time when flowers and warm sun and green grass push aside the snow and dreary cold winter. Even before the holiday had its religious meaning, people greeted the spring with celebrations.

Easter takes its name in English from that of an Anglo-Saxon goddess, Eostre, who represented light, on spring with celebrations. Some churches observe Easter Sunday with a special service with lots of music and flowers. In the Catholic church, Holy Weeks is a time of deep religious feelings and worships. (The seven days before Easter). A joyous Mass on Easter Sunday closes the observance.

There are many Easter customs. All people attend church on Easter Sunday. New clothes and finery are paraded. Easter bonnets are very popular. The wives usually have a spring house cleaning before Easter.

The idea of Easter eggs originated in Persia. The eggs represent a sign of new life and legend has it that they are layed by the Easter rabbit on Easter Eve.

White lilies decorate every church altar as a symbol of purity and light for the sinners to see.

GRADE NEWS

From the second grade three pupils have moved from Silverton, they are Jerry Lee Stodghill, Morris Lee Archer, and Dickie Vaughn.

Third Grade, Jimmy Smith started today. Billy Stodghill withdrew to move to Amarillo with his parents.

Fourth Grade. The A honor roll for the last six-weeks includes, Mary Jane West, Paula Reid, Joy Ann Gatewood, Diane Fogerson, and Susie Anderson. Our room enjoyed the visiting week very much and we hope the parents will visit again when we move into our new building. James Albert Jacobs is back in school after being absent for several weeks.

Seventh Grade. Jean Shy should have been included on the honor roll last week.

Eighth Grade. The eighth grade pupils—many of them seem to find it difficult to find time to study. With only nine weeks left the pupils need to prepare every assignment. Monday morning there were only ten pupils who had even a part of their history lesson prepared. Sixteen pupils were ready with their arithmetic assignment. At some time during the week end seven pupils studied for a science test.

Eighth graders have one hour each day in the study hall. They also have a part of several class periods for study on that subject. It is going to take work and the cooperation of pupils, parents, and teachers from now until the end of school if the pupils are to complete their work satisfactorily.

G. W. Chappell returned to school Monday. He had been absent since January 1, due to injuries received in a car wreck.

FHA NEWS

The FHA had a meeting Friday afternoon, March 16, to decide the price of plates for the March of Times Study Club Banquet to be held in May.

The FHA girls have made plans to go to Amarillo March 31 to the FHA meeting. All who want to go must bring their money by March 21 so the names can be sent to Amarillo.

Orders for FHA jackets were sent off last week.

ATHLETIC NEWS FROM COACH BROWN

Darrell McWilliams

Coach Brown and his football boys have completed their second week of Spring training. Coach says, "that most of the boys are shaping up pretty good. Several of the boys have received injuries. Jamie Allyson received a sprained ankle, Robert Barret sprained a shoulder; and Arnold Gilcrease received a nose injury." Coach Brown says, "he is looking for a quarterback and some ends." The spring session of football will end with a football game between the seniors and next year's team. This game will be about the 30th of this month. A new crowder tackling slide has been ordered and should be here any day.

Coach says, "that just as soon as spring training is over with, baseball practice will begin."

The district track meet will be held April 7th at Childress. The literary, softball and volley ball meet this year, will be held at Quitaque. The dates for this event will be given later.

NOMINEES FOR THE SILVERTON CLUB QUEEN

Glen Watters
 Nominations have been made for the Silverton Lions Club Queen. To be eligible the girls had to be between the ages of 16 to 21 years of age and single. The ones that were chosen were Mary Tom Bomar, Sandra Mallow and Dorothy Jo Heckman. They are the representatives of the Silverton Lions Club.

Eliminations will be made at the Lions Club meeting on ladies night. The ladies will also vote.

The one chosen will represent Silverton at a meeting held in Hereford, Texas on April 29, 30, and May 1. If she wins at Hereford she will go to the Texas State Lions Meeting. This date is not known. If she places here, she will then journey to the International meeting held at Atlantic City in New Jersey.

MEET THE JUNIORS

This week William Martin of the 1950-51 junior class was chosen to be interviewed. William is sixteen years old and is a member of the Silverton FFA group.

He began school in the first grade at Community Center in Childress County. He moved to Silverton in 1946. Then he went to school in Tulia for two years, then returned to Silverton where he hopes to graduate next year.

William's favorite subject is agriculture and he is very active in this field. After graduation, William has as yet not made any definite plans.

EASTER VACATION

We will have two days off for Easter. Friday and Monday. This will give us four days together for a vacation and several of the teachers will make trips over the week end.

QUESTION OF THE WEEK

What Does Easter Mean to You?
 Millie Marshall—Easter to me is a very sacred holiday. It was the day Christ arose.

Jack McFarlin—The only time I get to eat colored eggs.
 Ted Vardell—It means hunting easter eggs.

Glen Watters—A day off from school.
 Norman Jasper—That's when the little Easter bunnys come hopping around.

Zephy Bingham — That's the only time I like eggs, is when the bunny bring them.

Don Brooks—It means hunting easter eggs to all us freshmen.

Darrell O'Conner—Ever since I was a little boy I liked to go egg hunting.

MUSIC NOTES

Joe Wayne to Donna—I Love You Because.

Joe to Wayma—My Heart Cries For You.

Carl to Millie—Love's Old Sweet Song.

Pat to Mary Lou—I Love You Truly.

Willie to Valda—Ain't Love Grand.

Henry to Gloria—Darn It Baby That's Love.

Gloria to Darrell—Its So Nice to Have a Man Around.

Eudean to Duke—Letters Have No Arms.

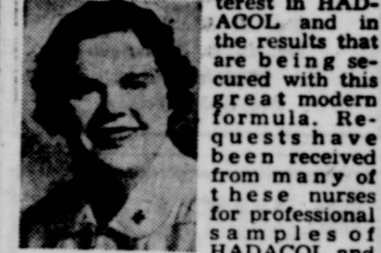

Wanda to Corky—Missing You.

Miss Burson to Soph Class—I Ain't Gonna Take it Sitting Down.

HADACOL Is Requested By Nurses

HADACOL Helps Folks Suffering Deficiencies of Vitamins B₁, B₂, Niacin and Iron.

Registered nurses, in increasing numbers, are showing a keen interest in HADACOL and in the results that are being secured with this great modern formula. Requests have been received from many of these nurses for professional samples of HADACOL and many of them indicated that they recommend the HADACOL formula to patients who are deficient in Vitamins B₁, B₂, Iron and Niacin.

Mrs. L. D. Lovett, a registered nurse who lives at 2205 Walnut St., Philadelphia 3, Pennsylvania, says this about HADACOL:

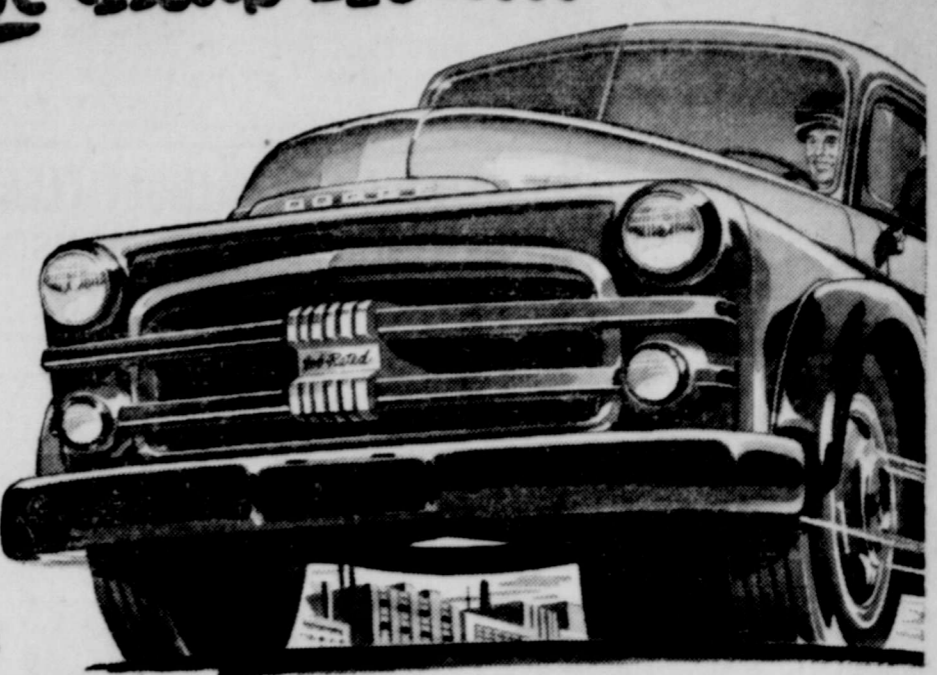

"I was down in Florida for the past month. I had no energy so several members of my family told me to try a bottle of HADACOL. My sister, who is a nurse, was taking a bottle so I tried a bottle. I feel fine since taking HADACOL I do private duty here. I am 50 years old."

HADACOL can help you if you suffer such deficiencies. Ask your druggist for HADACOL today. Only HADACOL gives you that "Wonderful HADACOL feeling."

For the best that's new...

SEE THE NEW DODGE "Job-Rated" TRUCKS

The trucks that do the most for you!

<p>NEW! More Power</p> <p>Power increases as high as 20% Eight high-efficiency truck engines—94 to 154 horsepower. The most powerful Dodge "Job-Rated" trucks ever built provide dependable power for your job!</p>	<p>NEW! Better Economy</p> <p>Higher compression ratio (7.0 to 1) on models through 1 ton, for top efficiency with flashing power. Here's real economy with outstanding performance—more power from every drop of fuel.</p>
<p>NEW! Easier Handling</p> <p>Shorter turning diameters than ever—and extra-easy steering with new worm-and-roller gears. Short wheelbase, cross-steering and wide front tread assure easier maneuvering.</p>	<p>NEW! Greater Safety</p> <p>Molded Cyclebond brake linings on hydraulic-brake models 1½-ton and up. Brand-new! Extra-quiet! Other safety features include new, improved independent hand brakes, extra-big windshield.</p>
<p>NEW! Bigger Payloads</p> <p>Increased Gross Vehicle Weights and Gross Combination Weights on many models—made possible by increased rear axle capacity and "Job-Rated" weight distribution. Help cut your trucking costs!</p>	<p>NEW! Better Comfort</p> <p>"Oriflow" shock absorbers, standard on ½-, ¾-, and 1-ton models. New! Revolutionary! Self-adjusting! New seat design, new steering wheel angle—plus lower hood line for improved visibility.</p>

Exclusive! gyrol Fluid Drive... Available on ½-, ¾-, and 1-ton models. Provides marvelously smooth performance with cushioned power.

PLUS all these time-proved features Dodge trucks have had for years...

Steering column gearshift standard on ½-, ¾-, and 1-ton models with 3-speed transmission. Chrome-plated top piston ring for longer ring life, better sealing. Synchronizing transmissions (3-speed, 4-speed, or 5-speed) rugged, silent, precision engineered. Deluxe and Custom cabs (with rear quarter windows) available on all models. And many other dependability features!

What "Job-Rated" means to you

A Dodge "Job-Rated" truck is engineered at the factory to fit a specific job... save you money... last longer.

Every unit from engine to rear axle is "Job-Rated"—factory-engineered to haul a specific load over the roads you travel and at the speeds you require.

Every unit that SUPPORTS the load—frame, axles, springs, wheels, tires and body—is engineered right to provide the strength and capacity needed.

Every unit that MOVES the load—engine, clutch, transmission, propeller shaft and rear axle—is engineered right to meet a particular operating condition.

Come in for a good deal on a truck that fits your job... a **DODGE TRUCK**

Coffee Motor Company

MAIN STREET TELEPHONE NUMBER 124 SILVERTON, TEXAS

"I got the story on

50,000 Miles-No Wear

and changed to New Conoco Super Motor Oil"

says Billie Smith, Photographer, San Antonio, Texas.

"WHEN A MAN BUYS A USED CAR from us, we want him to get his money's worth in performance and operating cost. That's why we put new Conoco Super Motor Oil in all our cars and tell the buyer to use nothing else," says H. C. Wheeler, Wheeler Motor Company, Denver, Colorado.

"50,000 MILES-NO WEAR!"—PROVED HERE:

After a punishing 50,000-mile road test, with proper crankcase drains and regular oil changes, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence... in fact, an average of less than one one-thousandth inch on cylinders and crankshafts.

AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000! This test proved that new Conoco Super, with OIL-PLATING, can make your car last longer, perform better, use less gasoline and oil.

Ask Me About "50,000 Miles No Wear!"

RESOURCEFULNESS
Lad Operates To Save Self

PRESTONSBURG, Ky.—But for his own resourcefulness and the intelligence and obedience of his dog, Ollie Lafferty, Jr., 14, would not be alive.
Ollie's adventure and narrow escape from death started when he started off into the woods with an ax, followed by his dog, to hunt for mistletoe a few days before Christmas.
He had gone about three miles back into the hills from his home when he found the mistletoe he wanted in the top of a tree. He proceeded to chop the tree down but as it fell it bounced and pinned his left leg to the ground.
Ollie, an eighth grader, had had no formal instruction in first aid other than that in his health books. But he wasted no time in applying what he knew.

Made Splint for Leg
He dug away dirt with the ax to free the portion of his leg that was injured, chopped limbs off the tree for a splint, and with torn strips from his shirt applied a tourniquet to stop the flow of blood and bind the wound.
Once the wound had been "dressed", he set to work to free himself. With the aid of the ax he was successful after a long time.
But now his troubles were only beginning. He was faced with the task of crawling home—over three miles of rugged terrain. It was bitter cold. His clothing he had ruined to bind the wound. It was then he enlisted the aid of his dog, Rock.

Tearing apart a small cardboard box, he scribbled a note to his parents that he had been injured. This he tied to Rock's collar and after much persuasion started the dog off for home. Then the boy began the slow crawl over the hills—his broken leg in the improvised splint.

3,000 Yards from Home
At the Lafferty home, Rock had trouble attracting attention. No one seemed to understand his mission. Finally, to let them know, he stood in a doorway—permitting no one to pass. Lafferty senior noticed the note, and the search for young Ollie was on.

They found him about five hours after the accident, halfway up the trail—some 3,000 yards from home. He was taken to a hospital where the attending physician said Ollie's treatment of the fracture was "one of the most perfect jobs I have seen—including those of my first aid teams."

As for Rock—Ollie was not certain as to his ancestry. "He's part collie and part shepherd—but mostly he's just a plain good dog," the boy said.
The doctor reported that Ollie's injuries could have been fatal but for the boy's resourcefulness.

Boy's Call to Santa Claus Proves a Great Success

PITTSFIELD, Mass.—No matter what you say, the Sacchetti family of Pittsfield believes in Santa Claus. It all started just before Christmas in 1949. David Sacchetti, 4, told his mother he was going to call up Santa. He went to the telephone and twisted the dial a few times, with no thought of the numbers.

Suddenly a man's voice said, "Hello."
"Is this you, Santa?" David asked.
"That's right," said the voice. "What can I do for you?"
"I want a fire engine," David said. "I live at 81 First Street."
"Your wish is granted," said the voice.

David's mother just laughed when he told her about the conversation. But on Christmas eve they found a package at the door. It was marked "For David" and inside was a fire engine.

Then on Christmas 1950 the telephone rang and when Mrs. Sacchetti answered, a man asked to speak to David. Mrs. Sacchetti thought it was peculiar, but she called her son to the phone.

"This is your old friend, Santa Claus," the caller told David. "I hope the fire engine was all right last year. What do you want this Christmas?"
"I want a bike," David said.

And believe it or not, on Christmas eve the Sacchetti family found a shiny new bicycle on the front porch. The tag said simply, "For David."

Per Capita Income Is Low In Russia, U. N. Reports

LAKE SUCCESS, N. Y.—According to estimates released recently by the statistical office of the United Nations, the Soviet Union has the lowest per capita national income of all industrialized and semi-industrialized nations of the world except Poland.

From official Soviet statistical reports it was learned that national income per capita in Russia in 1949 was equivalent to \$308 in 1949 United States dollars. This placed the Soviet Union in a ranking of 70 nations for which estimates could be made. That of the United States was nearly five times the figure of Russia.

NEMATODES INFEST LIGHT SANDY SOILS

Nematodes, microscopic worms which cause root-knot on various plants, infest many of the light sandy soils of Texas. According to J. E. Hutchison, associate extension horticulturist of Texas A. and M. College, they are seldom found in the heavier type soils.
Nematodes enter the plant roots from the soil and cause small knots on the roots. This usually stunts the plant's growth and gives it a sickly appearance.

Hutchison says that most of the common garden vegetables are susceptible to nematodes, but only about half of them are readily attacked. The other half are somewhat resistant to the tiny worms.

Beans, beets, cantaloupes, cucumbers, eggplants, lettuce, peas, Irish and sweet potatoes, pumpkins, squash, and tomatoes are some of the more highly susceptible vegetables. Some of the less susceptible ones are turnips, spinach, rhubarb, onions, rdishes, cabbage, cauliflower, and asparagus.

Hutchison says the best way to control nematodes is to keep them out of the fields. To avoid bringing nematodes from infested areas, he advises cleaning the soil from all farm equipment that has been used in infested fields.

Nematodes can be carried in drainage water; therefore, runoff from infested fields should be diverted around the clean areas.

Precautions should be taken to prevent bringing nematodes into clean areas on nursery stocks, bulbs, seedlings, tubers, and roots. Nematodes can also be spread in manure, so Hutchison advises against feeding plants from infested fields to livestock.

Nematodes populations can be

reduced by including certain resistant plants in the crop rotation. Resistant varieties of soybeans are Biloxi, O-too-tan, Acme and Haberlandt. Brabham, Conch, Iron, Monetta, and Victor are resistant varieties of cowpeas. Other root-knot resistant crops are bur clover, crotalaria, and velvet beans.

Mr. and Mrs. John Ivy, of Vega, visited her aunt, Mrs. Jeff Simpson briefly Sunday.

Mrs. Milton Perry, Mrs. Mattie Perry and Mrs. J. W. Brannon, Sr., were business visitors in Plainview Friday.

SHERIFF'S SALE

The State of Texas, County of Briscoe:

Notice is hereby given that by virtue of a certain Order of Sale issued out of the Honorable District Court of Briscoe County, on the 7th day of March, 1951, by Clerk of said court for the sum of Fifteen Hundred Twenty-One and 53-100 Dollars and costs of suit, under a certain judgment, in favor of J. B. Burk in a certain cause in said Court, No. 1377 and styled J. B. Burk vs. O. O. Toler and wife Nataline Toler, placed in my hands for service, I, Raymond K. Grewe as Sheriff of Briscoe County, Texas, did, on the 7th day of March, 1951, levy on certain Real Estate, situated in Briscoe County, Texas, described as follows, to-wit:

Being all of Lots No. Ten (10) Eleven (11) and Twelve (12) in Block No. 89 (Eighty Nine) in the town of Silvertown, Briscoe County, Texas, and levied upon as the property of O. O. Toler and wife Nataline Toler and that on the first Tuesday in April, 1951, the same being the 3rd day of said month, at the Court House door of Briscoe County, in the City of Silvertown, Texas, between the hours of 10 A. M. and 4 P. M., by virtue of said levy and said Order of Sale I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said O. O. Toler and wife Nataline Toler.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Briscoe County News a newspaper published in Briscoe County.

Witness my hand, this 7th day of March, 1951.

RAYMOND K. GREWE,
Sheriff Briscoe County, Texas.
By J. W. McCracken, Deputy.

Prediction

Perry Foresees Clash

WASHINGTON, D. C.—The clash of giants—the United States and Russia—over the issues of world freedom was predicted nearly a century ago by Commodore Matthew Perry, the man who opened the closed door of Asia.

"It seems to me that the people of America will, in some form or other, extend their domination and their power until they have brought within their mighty embrace multitudes of the islands of the great Pacific, and place the Saxon race upon the eastern shores of Asia," he said.

"And I think, too, that eastward and southward will her great rival of future aggrandizement (Russia) stretch forth her power to the coast of China and Siam, and thus the Saxon and the Cossack will meet once more, in strife or friendship, on another field. Will it be in friendship? I fear not."

Submarine

British Test Robot Subs

MADRID, Spain — Spanish newspapers have reported the British are experimenting with a revolutionary crewless submarine in the waters off Gibraltar. Some dispatches in the newspapers report that although the British admiralty is cloaking the project in secrecy, the submarine has dived to the greatest depth yet achieved anywhere in the world.

The newspapers also report that the French navy is experimenting with a new type submarine that uses water for fuel. Water is decomposed into hydrogen and oxygen in a high temperature chamber heated by kerosene. The two gases are then propelled into the engine where they are ignited. This type engine fuel is not entirely new. In Sweden, water is used as fuel on some trucks and has been found to be a 50 per cent saving over other types.

One County in U.S. Has No Federal Employees, Report

PIERRE, S.D.—It's hard to believe, but there is at least one county in the United States that does not have a single federal employee—Armstrong county, South Dakota.

It has only 52 residents, mostly Indians, and only 12 residents are taxpayers. It is a broad expanse of prairie in the north central part of the state.

The land is scarred by innumerable gullies which make travel possible only by horseback. There are no roads, towns, schools, or churches.

It not only has no federal employees; it also has no state employees, no county employees, no government, no postoffice, no federal agencies. In a moment the reader will be convinced there's no county.

It does exist, however, 525 square miles of grassland and gumbo which supports thousands of cattle, Jack rabbits, coyotes and grouse.

Armstrong's claim to fame as the only U.S. county without a federal employee was revealed in a report issued recently by the joint committee on reduction on nonessential federal expenditures, headed by Senator Byrd of Virginia.

Armstrong county is part of the Cheyenne river Indian reservation. The land is virtually inaccessible. It is bound on the south by the Cheyenne river and on the east by the Missouri river. The soil is so poor that it has never been settled. It is good grazing country, though.

For governmental purposes Armstrong county is attached to Stanley county on the south.

All seven of its residents who voted in the last election voted the straight Democratic ticket.

Trapper Fights Off Cougar That Invades Isolated Home

CAMPBELL RIVER, B.C.—Edward McLean, a rugged part-time trapper and linesman with the Canadian department of transport, revealed recently his hand to hand battle with a fierce cougar in his lonely one room cabin.

He reported he was getting ready for bed when a big cougar crashed through the window of his cabin—120 miles northwest of Vancouver. He fought barehanded in the dark, punching and kicking the 60 pound cat as it went for his throat.

"The crazed cougar clawed and chewed at my right arm and throat," he said. "I managed to drag him to a corner of the cabin and grabbed a butcher knife. Using my left hand, I plunged the knife into his throat and stomach."

McLean ran barefooted, and clad only in his underwear, to his nearby rowboat, intending to summon help from a line cabin six miles to the south. A brisk wind kept him adrift for more than two hours.

He reached the cabin but no one was there. He was too weak to strike a light. He crawled into a sleeping bag and slept for nine hours in subzero temperature.

When he awoke, he used the transport department's telephone to call for help. Two men rushed McLean 54 miles to a hospital. Then they returned to his cabin. The cougar was still alive, but barely breathing. A bullet finished it off.

England's Forces Now Have 23,000 Women in Service

LONDON, Eng.—There are 23,000 women serving in the women's sections of the British armed forces, it was reported recently.

They have the same rank system as the men and are serving in most of the nineteen countries and territories in which Britain is now standing guard. These countries are Germany, Gibraltar, Eritrea, Cyprus, Ceylon, the Caribbean, Hong Kong, Aden, Austria, Iraq, Jordan, Kenya, Korea, Libya, Malaya, Malta, Sudan, Suez and Trieste.

Though the women, all volunteers, are not trained for combat duty, many of them serving in the women's royal army corps stand ready to take over anti-aircraft batteries, as they did during World War II. Some of the women's royal air force members take up planes to test their equipment in the air, and many of the women of the women's royal naval service are trained in seamanship.

R. F. HINCHEY

C. I. WALL

R. M. CURRY

T. S. WHITIS

H. F. HEATH

J. J. WILEY

WEST TEXAS GAS COMPANY NAMED R. F. HINCHEY CHAIRMAN OF BOARD

R. F. Hinchey, West Texas Gas Company, was named chairman of the board of directors at a meeting in Kansas City last Tuesday afternoon. C. I. "Stony" Wall was named to succeed Mr. Hinchey as president.

Simultaneous announcements were also made about four other promotions within the company: T. S. Whitis was named vice president, transmission; H. F. Heath, vice president, distribution; J. J. Wiley, vice president, accounting and budget control; and R. M. Curry, assistant to the president.

These six men have a total of more than 100 years service with West Texas Gas Company.

Mr. Hinchey came to West Texas Gas Company from Okmulgee, Oklahoma, June 1, 1927, as vice president and general manager. His first task was to supervise construction of a gas transmission line from the Panhandle Gas Field down into the South Plains and of distribution plants in the various cities and towns which were to be served.

The entire working life of Mr. Hinchey has been spent in the natural gas business. This year he will complete his 47th consecutive year with the industry. His first job with the industry was that of water boy, during his early 'teens, with a construction crew building a natural gas pipe line from Bradford, Penn., to Buffalo, N. Y. He has been employed in

the gas industry ever since with the exception of about one year spent serving in the armed forces during World War I. His work with the industry has led him from New York and Pennsylvania to Ohio, West Virginia, Oklahoma and finally to Texas.

Known as "Ray" to his many friends, he has been actively identified with the progress of West Texas. His work with the Lubbock Airport Board, Lubbock Cerebral Palsy Club and many other civic organizations has been noteworthy.

It is interesting to note although his father was employed in an executive position in the natural gas industry, he literally pulled himself up by his own boot straps into key positions. His career reads like that of a person in Who's Who, and in fact is recorded in Who's Who In The South and Southwest.

Stony Wall, new company president, has a background in the industry that almost parallels that of Mr. Hinchey except that practically all his working life has been spent with West Texas Gas Company.

Except for a "slow arm" Stony might today be with one of the major league baseball teams. Failing to get the nod from Branch Rickey of the St. Louis Cardinals during a summer training school—Stony was told that he might ob-

tain a job with West Texas Gas Company which had just been organized.

This job he soon found out was that of checking pipe for the line being laid from the Panhandle Gas Field to the South Plains. His rapid rise from pipe checker to more responsible positions with the company, including such jobs as assistant purchasing agent, Plainview local manager, superintendent of city plants and vice president in charge of operations, is not surprising to his business associates. His ability to "turn out" work has won him the confidence of his business associates and the company's directors.

Stony is a member of the Lubbock Rotary Club, Masonic Lodge, and he also is well known for his active participation in civic work and his promotion of West Texas athletics. He is graduate of the University of Kansas, where he achieved national renown for his participation in collegiate football.

T. S. "Truman" Whitis, new vice president, transmission, began his career with West Texas Gas Company in 1930 as rod man and instrument man on construction of Littlefield city distribution plant. His other work with the company has included service as a surveyor and draftsman in the engineering department on city plant and main line construction, clerk in Lubbock city office, clerk in Plainview city office, superintendent of the gas measurement department in Lubbock, engineer, and general superintendent transmission.

Truman has been actively associated with the Southwestern Gas Measurement Short Course, held annually at the University of Oklahoma, for many years. He is chairman of the publication committee this year. Papers presented at the short course are compiled in a publication which is

used as a textbook by several colleges in the south. He also is an active member of South Plains Chapter Texas Society of Professional Engineers.

He studied engineering at Texas Tech, where he was one of the first to register when th college opened in 1925.

H. F. "Herman" Heath, new vice president, distribution, started to work for the company in 1928 as clerk in Lubbock city office. In 1930 he was appointed Brownfield district manager and remained in Brownfield until 1945, at which time he transferred to Midland as Midland district manager. He returned to Lubbock as superintendent of city plants in 1948. He was made general superintendent distribution in 1950, the job he held at the time of his recent promotion.

Herman is a member of the Masonic Lodge and the Lubbock Lions Club. He was president of the Brownfield Club while stationed there. He attended West Texas State College, Canyon.

J. J. "Bill" Wiley, new vice president, accounting and budget control, started to work for the company in 1937 as clerk in Lubbock City office. He was transferred to the company's general offices in 1940 to assume more responsible positions.

Bill was called back to active duty with the Navy in 1941. As Supply officer of the USS Corregidor, he participated in five invasions in the Pacific theatre of war, which included the Gilbert Islands, Marshall Islands, New Guinea, Saipan and Guam.

He returned to work for the company on his release from the Navy. In 1948 he was appointed assistant secretary and assistant treasurer of the company and in 1950 he was made chief accountant, the job he held at the time of his recent promotion.

Bill is secretary - treasurer of

the South Plains Society For Crippled Children and a member of the Lubbock Optimist Club. He was graduated from Texas Tech in 1937 with a BBA degree.

R. M. "Rod" Curry, assistant to the president, began his career with the company in 1927 as draftsman. He was with the company about a month when he was made chief draftsman. In 1933 he was appointed resident engineer and in 1950 he was made chief engineer distribution. He will continue to serve as chief engineer distribution.

Rod is well known in the industry for several of his regulator installations. Executives of the company give him credit for having designed distribution systems, buildings and regulators now used in West Texas Gas Company's operations.

He is a member of the Lubbock Rotary Club, South Plains Chapter Texas Society of Professional Engineers and the Masonic Lodge. This year he was elected to serve as vice president of the engineer's club. He is a graduate of Meridian College.

All six men will continue to make their headquarters in Lubbock.

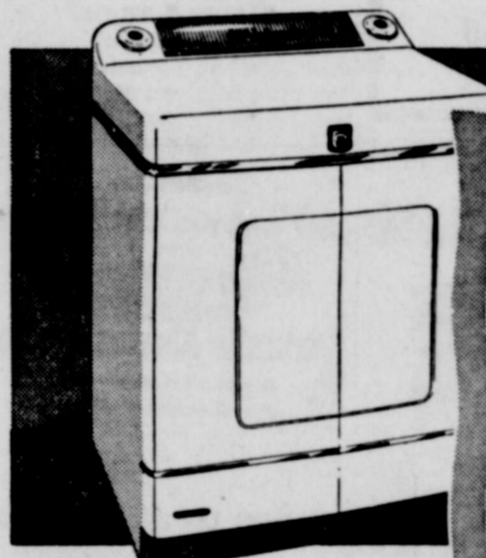

Mrs. Maxine Dunham, Bonnie Watters and Mr. and Mrs. Vergil Crow visited Sunday with the A. F. Van Meters, Jr., in Quitaque.

Don't forget to include a home garden in the plans you are making no covering the things to be done this spring. The garden can easily supply many of the vegetables your family will need for an adequate diet.

Cotton will be planted in 225 Texas counties this year. Farmers are urged to follow the recommendations outlined in the 7-Step Cotton Program for better yields, higher quality and more efficient production.

Escape Washday Drudgery

With An Automatic Gas Clothes Dryer

THROW THAT CLOTHESLINE AWAY PERFECT DRYING WEATHER EVERY DAY OF THE YEAR... RIGHT IN YOUR HOME!

LIKE THIS. Load quickly, easily.

NOT THIS. No more back-breaking, basket lugging.

LIKE THIS. Take it easy while the dryer does the work.

NOT THIS. No more twisting, kinky, dusty clotheslines.

LIKE THIS. Your clothes come out fluffy dry, sun-fresh.

NOT THIS. No more washings ruined by rain and dust.

Lugging baskets of wet clothes is a thing of the past. No longer is it necessary to carry heavy baskets of wet clothes out into the cold weather... drape them over chair backs... or hang them on lines strung across the bathroom. With an automatic GAS clothes dryer—any day... regardless of weather conditions... is washday. See the new GAS dryers at your dealer's today.

West of the Railroad Track, Silverton, Texas

City Folks Helping To Increase Price of U.S. Farm Land

WASHINGTON, D. C.—The agriculture department reports that city folks with money—and worries about possible further shrinkage in buying power—are helping to raise the farm-land market.

Many of the new buyers are businessmen and investors who are buying good farms as an investment hedge against inflation, the department reported.

As a result farm prices increased on a national average basis 3 per cent between July and November. They now are 5 per cent above the level set in March, 1920.

The department also predicted further increases in prices, as more city folk seek what they consider safer places to invest their money.

Contributing to the increase are the improved farm-product prices. Some buying is being done by farmers who already own land and who wish to invest surplus cash on real estate and at the same time take advantage of the better farm-land prices.

According to one prediction, farm incomes in 1951 will be at least 15 per cent higher than in 1950.

The department said land values advanced in all states from July to November. The east north central states showed the largest percentage gain for any region—6 per cent—but the west north central, south central and pacific regions were up 5 per cent.

Average prices were higher than a year ago in all but three states. Florida showed the largest gain—10 per cent—largely because of favorable returns from citrus fruits and pasture lands. During the year increases of 10 per cent or more occurred in Minnesota, Iowa, Missouri, Indiana and Texas.

There are also reports that many city people are buying farms as a safe retreat in the event of war. Many seem to feel that in large cities should be bombed it would be nice down on the farm.

Men With Tails Reported Among Dyaks in Borneo

WASHINGTON, D. C.—Although there are at least 92 reasonably authenticated cases of men with tails, it was only recently that the first known photograph of such an individual has been received by the American Genetic association. The photograph was published recently in the Journal of Heredity. The tail appears to be about three inches long.

Another account of men with tails was given by a Japanese doctor who worked among the Dyaks in Borneo during World War II. According to reports the doctor found among his patients a man from 30 to 40 years of age who had a tail. The tail was three inches long and somewhat less than an inch thick. It was wavy and wrinkled. The native doctor allowed close examination and he said his companions teased and laughed at him. The natives said there were others in the neighborhood having similar tails.

Dyaks of Borneo have been frequently mentioned as "tail-men", the journal reported, but none of the reports have been substantiated by travelers who offered real evidence. Some of the reports, however, are quite positive and clear. Tails appear to have been noted in both men and women. In one village, 20 tailed people of both sexes were reported.

Chief of Police Is Also Victim of Skullduggery

LAKE CITY — Someone who has been identified as Police Chief L. C. Crowther's braided hat. As a result the chief was routed out every top man on the force.

On suddenly several days later Crowther appeared on his desk. During his absence, the fancy lid was photographed atop the head of the police chief of nearby Ogden. Investigation revealed that the chief, Maurice Schoof, and the chief of detectives, William Crowther, had made a hurried trip to Lake City with a hat bag in the dark of night.

PERSONALS

Mrs. Fred Lemons spent the past week in Dallas on business.

J. T. Persons, of Quitaque, was a business visitor in Silvertown Tuesday.

Mrs. Ben Garvin left last week for California where she will visit relatives.

Mrs. Ben O. King was called to South Bay, Florida, Saturday on account of the serious illness of her sister, who had suffered a heart attack. Mr. and Mrs. King left late Saturday night to be with her sister.

Mrs. Dave Alexander, of Hereford, spent the week end with her sister, Mrs. Gordon Alexander.

Among those attending the Workers Conference in Floydada Tuesday were: Rev. and Mrs. G. A. Elrod, Mrs. O. C. Allard, J. E. Wheelock and Mrs. R. C. Bomar.

Mr. and Mrs. Curtis Bingham and daughter, of Kress, visited relatives over the week end.

Mrs. Albert Mallow and daughters were business visitors in Tulia Tuesday afternoon.

Mr. and Mrs. Sam Warren and children, of Plainview, visited with her sisters, Mrs. Lee D. Bomar, Mrs. Wayne Crawford and Mrs. Donald Alexander recently.

Mrs. Monroe Lowery visited Tuesday afternoon in Tulia.

Mr. and Mrs. Troy Wayne Vaughan were business visitors in Plainview Tuesday.

Mr. and Mrs. Elmer Vaughan and daughter, Lola Mae, took Mr. and Mrs. John Vaughan to Hollis, Oklahoma, Saturday to visit Mr. and Mrs. Hershel Vaughan and family.

Mrs. Lee D. Bomar and Mrs. Pearl Simpson were visiting in Tulia Tuesday afternoon.

Leo Comer, of Amarillo, was a business visitor in Silvertown Monday morning.

Mrs. Travis Gilliland and Mrs. Lester Vaughan, of Crane, Texas, visited Thursday and Friday with Mrs. M. M. Edwards, and Mrs. Haskell Jackson. Mrs. Gilliland is a sister and Mrs. Vaughan an aunt of Mrs. Jackson. Mrs. Edwards returned home with her daughter for a two months visit. While here they attended the shower honoring Mrs. Joe Davis.

Mr. and Mrs. Joe H. Smith, Sr. and Joe H. Smith, Jr., of Hereford attended the funeral of Mrs. Charles Trowbridge in Floydada last Tuesday.

Mr. and Mrs. J. E. Arnold visited friends in Amarillo Sunday.

FAMILY TRAGEDY

4 Brothers Await End

NEW YORK, N.Y.—In a New York apartment that is sunny, peaceful and quiet live Mr. and Mrs. Amonice Godfrey and their four sons. It is in this apartment that one of the great tragedies of our times is taking place, quietly and without fuss.

The sons are Robert, Michael, George and Roy. George, 24, is the oldest, Roy is 22, Robert 18, and Michael 12. All of them are dying of an incurable disease.

Ten years ago, when Roy was 11, he found it harder and harder to climb the five flights to the flat. The doctors finally figured out that he was suffering from muscular dystrophy, a progressive disease for which there is, to date, no cure. It always ends up attacking the respiratory power.

One Son in Navy
Out in the Pacific George didn't know he had it until, after the war, he found it harder and harder to get up the ladders on the U.S.S. Sutherland. The Navy shipped him home. He takes jobs, now and then, and adds to the family income. But he sits around a lot, like Roy.

Mrs. Godfrey, born on a farm near Eau Claire, Wis., says she could take all the children—Robert and Michael are slowing up a little, just as Roy and George did—out to the old place, but that would put them beyond reach of the one man who is searching desperately, full time, for some cure for muscular dystrophy.

The man is Dr. Ade T. Milhorat, on the staff at New York Hospital-Cornell Medical Center. Mrs. Godfrey tells how he tries all the new treatments on Roy and how, when the \$10 a day hospital bill got to be too much, the doctor paid it himself.

Mrs. Godfrey said: "Dr. Milhorat has about sixty new kinds of drugs, and he'll test a lot of them on Roy. Roy is one of his pet patients. That's why I can't take the boys out to Eau Claire. The doctor must come up with something, some day. He works so hard at it."

Mother Has Hope
The boys get outdoors, once in a while. A stranger would never guess the fate that dogs them; they look strong and husky, and fresh-faced. That's one of the weird things about muscular dystrophy.

At the present time Dr. Milhorat is the only doctor in the United States giving full time to research of the disease, although it takes 100,000 lives a year.

Roy said: "Some of that stuff he gave me last time, I felt maybe the strength was coming back to my leg muscles. Then it faded away; it always does."

But Mrs. Godfrey will not give up hope. "I'm pretty sure the doctor is going to strike some cure soon," she says.

Man Who Wanted Son Gets Two Boys—and Two Girls

PONTIAC, Mich.—It has happened again. Mrs. Kenneth Rosebush of Pontiac, Mich., recently gave birth to quadruplets.

Mr. Rosebush, father of four daughters, often bewailed the female predominance in his household. He wanted a son.

Well, he got two, but he lost out on the chance to even the count. Two of the quads were girls.

The four infants, nearly 16 pounds, were delivered by Caesarean section at St. Joseph, Mercy Hospital.

Rosebush, a wiry, shy stonemason from Oakwood, is 36. His wife is 34. They celebrated their 17th wedding anniversary the day before the quads were born.

"I really wanted four boys," commented the father after an all night vigil. "I've been the only man around a houseful of women-folk long enough."

"But we're pretty happy as it is," he added, "even if it does look like the girls are going to run the house."

Dr. Edward Christie, a Pontiac specialist, and Dr. Harold F. Stahl, the family physician, delivered the quads in 90 seconds. First came a 4-pound 3-ounce boy, then a 3-pound 9-ounce girl, and finally a 4-pound 8-ounce boy.

Mrs. Rosebush, told several weeks before their birth to expect quadruplets, was ready with names—Kenneth, Jr., Keith, Krystal and Kristene. Quadruplets occur about once in every 512,000 births.

Electric Pacemaker Starts Heart to Beating Again

BOSTON, Mass.—An artificial electrical pacemaker that has been used successfully in animal experiments to make stopped hearts beat again was announced recently.

The pacemaker applies an electrical shock to a small knob-like area of the heart. The shock stimulates this area, which in turn causes the heart to beat. By controlling the regularity of the electrical shock, doctors can thus control the beating of the heart.

The pacemaker is expected to be used for a period long enough to enable the heart to function on its own powers, and in cases of irregular heart beats, to restore the heart's action to a normal rhythm.

NOTICE, NEW INVENTION!

If you are a Farmer and own a Hoeme or Chisel Type Plow, I have an automatic turn lift patent pending. Quick assembled. No ropes, no trip dogs. Tractor automatically raises and lowers plow on turns. Saves gas, gear changing, ware on brakes and tires and increases plowing. Invented and manufactured by—
