from the County PMA Committee

1951 Cottonseed Support Announced

Price support loans on 1951 crop cottonseed will be available at \$65.50 per ton for basic grade (100), according to B. F. Vance, chairman, State PMA Committee. In areas where purchase program may be necessary, purchases will be made at \$61.50 a ton. This support price on 1951 cottonseed represents 90% of the January 11, 1951 parity price of \$71.00.

1950 Loan Cotton to be Pooled on August 1

All 1950 crop loan cotton still under loan August 1, 1951, will be pooled for producers accounts, the loans mature July 31, 1951.

There are only a small amount of 1950 crop cotton remaining in the loan (about 3,480 bales) as of May 17th. Producers may either sell their "equity" in the loan cotton or redeem the cotton from the loan and then sell it in the open market.

Warehouse Charge on Commodities Stored For Loan

The deduction of storage charges on warehouse stored wheat is a different procedure than that followed in previous years, and the storage charges must be deducted in computing the amount of the loan or purchase price, irrespective of whether or not such charges have been paid the warehouseman by the producer. The storage charge will be computed from the date of storage or the date on the warehouse receipt if the date of storage is not shown. All commodity loans will be available from time of harvest through January 31, 1952.

Old Timers of Silverton to Hold Picnic at Elwood Park July 4

There is to be a picnic for all old timers from Silverton in Elwood Park in Amarillo on the fourth of July. Everybody is invited. Tell all your friends and relatives. Come and let's have a wonderful time together. Meeting will be on the west side of the park. Bring a basket lunch, and your pictures, both old and new.

Mrs. Horace Simpson, 4015 Hughes, Amarillo, Texas.

Floyd County Pioneer Taken By Death

Funeral services for John Cephus Fortenberry, 91 years old, pioneer Floyd County rancher, were conducted at 2:30 Wednesday afternoon at the Lockney Baptist Church.

Rev. Guy Shields of Wichita, Kansas, officiated. Interment was in the Lockney Cemetery beside the grave of Mrs. Fortenberry, who died in 1943.

Mr. Fortenberry died Monday night at the Lockney Hospital. He had been in poor health since he suffered a hip fracture about a year ago. He had lived in the Cedar Hill community east of Lockney for the past 61 years.

Survivors are five sons, John, Joe and Tom Fortenberry, all of Lockney, and Jack and Hugh Fortenberry, Adrian; four daughters, Mrs. M. H. Taylor, Mrs. C. V. Lemons, and Mrs. J. R. Kelley all of Lockney, and Mrs. J. D. Seay, Duran, New Mexico.

Mr. Fortenberry was an uncle of H. Roy Brown of Silverton. He was Mr. Brown's mother's oldest brother. Mr. Brown attended his uncle's funeral Wednesday afternoon in Lockney.

Area Draft Board Meeting Held in Lubbock

Clerks and members of 25 West Texas county draft boards conferred Thursday and Friday morning in Lubbock, with state selective service officials about the new draft bill which requires only the President's signature to become law.

Lieut. Col. Morris Schwartz, deputy state director of selective service, with Capt. Walter Caetjens and Capt. Sam Harris, told the group of new regulations and classifications contained in the pending legislation.

The meeting is one of four being held over the state including one recently held at Dallas and two others scheduled at San Antonio and Houston. Schwartz conferred with board members also while in Lubbock and was in Amarillo Friday for a similar meeting with board members. Mrs. Frances C. Starkey, clerk of Local Board No. 20, attended the meeting.

College Students Must Submit Requests for Draft Deferments

College students wanting draft deferments must make requests in writing to the local board for occupational deferments before the board will consider the cases, Mrs. Frances C. Starkey, clerk of Local Board No. 20, said today.

"Many of the students don't realize they must make this written request," Mrs. Starkey said.

"The students must also ask college officials to submit evidence of their class standing and evidence they are in school or accepted for the next class," she added.

The Childress board has received forms for the college officials to fill out and expects to receive forms for the students within a week. On the students forms are places to indicate whether they have taken the college student draft exemption test; if they expect to take the test; and if college officials will forward records. These forms will be mailed to the students, Mrs. Starkey said.

Complete information regarding the student draft exemptions may be had at the draft board office, 2nd floor City Hall, Childress, Texas.

County Agent Leo White Leaves Today for A. and M.

County Agent Leo White and wife and daughter, Marsha Kay, left today (Thursday) for A. & M. College at Bryan, Texas, where Leo will attend short course several days. The White's plan to include in their trip a tour of the state including San Antonio, Corpus Christi, and other points of interest. They will return home June 28.

ATTEND ENCAMPMENT AT CETA CANYON

Rev. and Mrs. H. M. Secord spent last week at Ceta Canyon Junior Encampment composed of Plainview and Clarendon districts. Mrs. Secord was director of the camp and Rev. Secord was teacher council of one group.

109 children from the district attended. Four from the local Methodist Church. They were: Bob Haley Hill, Jimmie Don Marshall, W. L. Messimer and Karla Gayle Weaver.

Mrs. Secord made a trip to Perryton Tuesday to make preparation for their encampment which will be held at a later date.

Mr. and Mrs. John Ivey, of Vega, visited in the home of Mrs. Jeff Simpson Sunday. She accompanied them to Turkey to visit Mrs. Simpson's sister, Mr. and Mrs. Ben Turner.

Mr. and Mrs. A. J. Rowell went to Colorado City Saturday to get their children who have been visiting their grand mother, Mrs. J. D. Hawkins.

Local Board No. 20 Will Make No Call During July

The Texas Local Board No. 20, serving Childress, Cottle, Briscoe, Hall and Collingworth counties, was notified today that no registrants from this area would be called for induction for the month of July.

The office received today the first results of the Selective Service College Qualification Test from Princeton, New Jersey. Grades were received for about ten registrants, all of them having taken the test on May 26, 1951. Nearly all scores of those registrants who took the test on May 26 are expected to be on the way to local boards by June 22. Scores of those who took the test on June 15 are expected to be in the hands of local boards before August 20. Scores of those taking the test on June 30 and July 12 are also expected to be at local boards before that date.

Men may be deferred to continue their college training either on the basis of high standing in class or by attaining a required minimum score on the Selective Service College Qualification Test. Present regulations send that score at 70 for college freshmen, sophomores, and juniors, and at 75 for college seniors expecting to go on to graduate school. Reports of the class standings of registrants will not accompany the reports of the test scores. These will be mailed direct to local boards by the respective institutions upon request of the registrant.

Registrants who took this test may come to the local board office and the score made will be given to the individuals, Mrs. Frances C. Starkey, clerk of draft board, said today. These scores will not be mailed out to the registrants, Mrs. Starkey said.

The commission, which is to include three civilians, has four months in which to complete its study and report.

Watters Reunion Held at Edwin Dickerson Home Sunday

The family of the late Mack Watters had their annual reunion in the home of Edwin Dickerson at Lone Star on Fathers Day. All of the children were present except one. A number of grandchildren and great grandchildren attended. They were: Walter Watters and Bonnie; Mr. and Mrs. E. C. Newman, Mr. and Mrs. Roy Mack Walker and sons, Mr. and Mrs. Dud Watters and Sandra, Mr. and Mrs. Vergil Crow and Gary, Mrs. Maxine Dunham and boys, all of Silverton.

Mrs. A. F. Van Meter, Jr., and girls, of Quitaque; Mr. and Mrs. Doug and Tommie Fletcher, Mr. and Mrs. Hugh Lovett and Mrs. Elma Baker, all of Plainview.

Mr. and Mrs. Guy McDonald and son, Bob, of Mercedes, Texas, visited from Thursday until Monday with Mrs. McDonald's mother and sister, Mrs. D. W. Mayfield, and Mr. and Mrs. Perry Thomas, Jr. They left Monday for their summer home at Idaho Springs, Colorado, where they will spend the summer. Don Thomas accompanied them for a month's vacation.

Dinner guests in the home of H. T. Myers and daughters Sunday were: Mr. and Mrs. Elbert Dickerson. Calling in the afternoon were: Mr. and Mrs. Gillbreath, of Lockney, Mrs. Harley Bradley, Pauline, Fay and Mary.

Dr. and Mrs. Clarence Mast and children, of Midland, visited Mrs. Mast's mother, Mrs. O. T. Bundy over the week end.

Mrs. Berton Hughes and boys, Robert and Randy, are visiting her parents, Mr. and Mrs. R. E. Renfro in Belcherville, Texas.

Mr. and Mrs. Bryan Jones and granddaughter, of Electra, Texas, spent the week end with Mrs. Jones' parents, Mr. and Mrs. A. A. Dunagan.

Truman Signs New Draft Bill Which Lowers Age

Washington, June 19—President Truman Tuesday signed the new draft law.

The measure lowers the draft age, extends the Selective Service system four years and lays the foundation for universal military training.

Truman signed the bill in a White House ceremony at 11:15 a. m.

The new law keeps the draft in operation until July 1, 1955, and permits the induction of 18½ year olds for military service if local draft boards exhaust their supply of older eligible men. It makes no change in the present maximum draft age of 25.

The present law, which would have expired on July 9, prohibited the induction of anyone under 19.

The period of service under the new law is 24 months instead of the 21 under the expiring law. Although the minimum induction age under the new law is 18½ years, men still must register when they become 18.

The new law makes draft-age aliens liable to service if they desire permanent residence; reduces mental and physical standards for acceptance for service; puts a new top of 5,000,000 men on the overall size of the armed forces; and permits the induction of eligible men whose sole dependents are their wives.

It provides for appointment of a five-man commission to recommend to Congress a system of universal military training for 18 year olds.

The commission, which is to include three civilians, has four months in which to complete its study and report.

The training system would not become effective until Congress approved it and established a code of conduct and a schedule of disability and death benefits for trainees.

"Royal Wedding" Blue Ribbon Award Picture, June 24, 25

Whimsical gaiety, happy ending romance, riotous color, lilting lyrics, and original terpsichorean feats make up the entertainment features of "Royal Wedding," which has been voted the Blue Ribbon Award. Jane Powell makes as lovely a dancing partner as Fred Astaire has ever had, with the added attraction of her singing ability. Unlike many musicals built around a story of stage people, most of the settings for this are outside the theatre itself, with the dance scene aboard ship an example of ingenuity shown. Fred's top scene where he becomes a human fly and dances about on wall and ceiling is set in an ordinary room. Sarah Churchill's appearance is such that she should build up a good fan following from it in this country.

Next weeks program appears on page two.

VISITORS IN DUDLEY HOME SUNDAY

Visiting in the O. M. Dudley home Sunday were: Mr. and Mrs. Durward Brown and children, of Plainview; Mr. and Mrs. Pat Cogdill and Larry Don Byrd, of Amarillo; W. H. Graham, Jr., and Miss Jeanne Dudley, of Farwell; Mr. and Mrs. H. Roy Brown, Mr. and Mrs. W. A. Brown and children, Mr. and Mrs. George Seaney, Mr. and Mrs. Norlan Dudley, Junis Mercer and Sandra Mallow.

Guests in the home of Judge and Mrs. J. W. Lyon, Jr., last week were: Mr. and Mrs. Donald Stimmel, of Hagerton, Md.; Mr. and Mrs. James Rhoderick, Sr., and son; Mr. and Mrs. James Rhoderick, Jr., and son, Jimmie; Mr. and Mrs. Billy Frank Rhoderick and son, Mike, and Mr. and Mrs. J. W. Lyon, Sr., all of Quitaque.

Hollis Oklahoma Child Drowning Victim

Hollis, Oklahoma, June 18.—William Dale Vaughan, 22 month old son of Mr. and Mrs. Hershel Vaughan, was drowned in a livestock watering trough at their farm home four miles south of here Monday.

The body was discovered by an 8 year old sister, Cleta Joan, only 10 minutes after the small child had gone into the yard to play.

She and a 6 year old brother, Larry Neal, pulled the child from the trough. Efforts at revival were futile.

Funeral services were conducted at 3:30 p. m. Tuesday at the Coley Funeral Home Chapel in Hollis.

He is survived by his parents, one brother and one sister; his grandparents, Mr. and Mrs. J. B. Brooks of Fort Summer, New Mexico, and Mr. and Mrs. John Vaughan of Silverton, Texas.

Silverton Defeated Vigo Park in Ball Game Sunday 14-7

In the base ball game Sunday afternoon Silverton defeated Vigo Park 14-7. On June 10, they also defeated Vigo Park 11-10.

Next Sunday, June 24, they will play Hart here and the ball fans are looking forward to a good game.

Mrs. L. W. Kiker, of Plainview, visited her sister, Mrs. O. T. Bundy this week.

Funeral Services Held Wednesday for Paul A. Reid

Funeral services for Paul A. Reid, age 39, were held Wednesday afternoon at 3 o'clock at the First Baptist Church, conducted by Rev. G. A. Elrod, local pastor, assisted by Earl I. Cantwell.

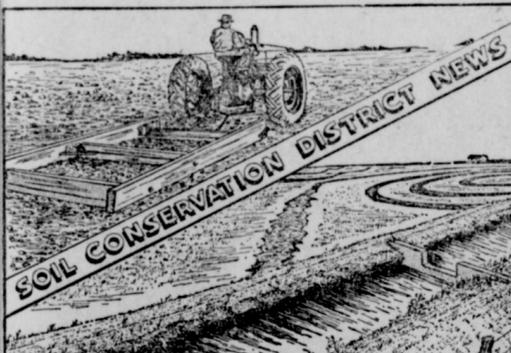

Mr. Reid had been in ill health for many years, and passed away at the local hospital June 19, 1951 at 3 o'clock a. m.

Deceased was born March 2, 1912 at Silverton, Texas, and had lived in the county most of his life. He was married to Miss Mildred Chappell, December 24, 1937, to this union two daughters were born.

He was converted and united with the Silverton First Baptist Church December, 1937.

Survivors include his wife, two daughters, Lawanda and Paula; his mother, Mrs. W. W. Reid, four brothers, Marvin and Dee, of Grants Pass, Oregon; Percy, of Silverton; Albert, of Oklahoma City; three sisters, Mrs. Allie Johnson, of Tulsa, Texas; Mrs. Lois McKinney and Mrs. Lola Shipman, of Silverton; four uncles, Oscar Reid, of Tucumcari, New Mexico; George McCracken, Allenreed; Amos McCracken, Floydada, Texas; Elbert McCracken, of California; five aunts, Mrs. D. W. Cox, of Amarillo, Texas; Mrs. A. A. Jones, Quitaque, Texas; Mrs. O. A. Britt, Porterville, California, and Mrs. Charles Tyree, Columbus, Kansas.

Interment was made in Silverton Cemetery under direction of Douglas Funeral Home.

The Supervisors of The Cap Rock Soil Conservation District are:

Chairman, Earl I. Cantwell; Secretary, Chester Burnett; Guy Edens, L. A. McJimsey and Glynn B. Morrison.

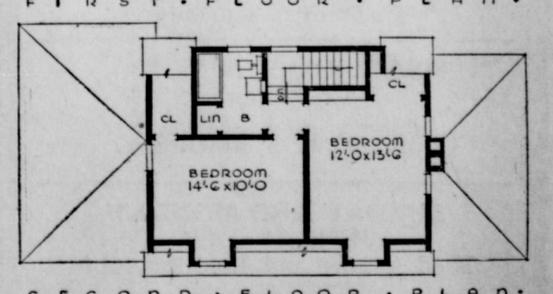

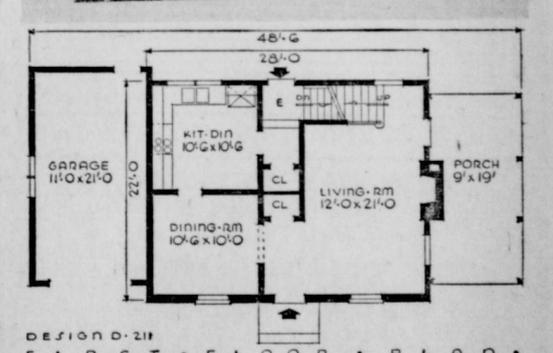

Since the Cap Rock Soil Conservation District was organized many articles have appeared on soils in your local paper. Articles about the kinds of soil in the district, the hazards of the soil, its proper use and treatment. Possibly you wonder why we continue to stress the different conditions relating to the soil. Every phase of conservation is dependent on the characteristics of the soil. Recently the department agriculture adopted the following as their basic objective: The use of each acre of agricultural land within its capabilities and the treatment of each acre of agricultural land in accordance with its needs for protection and improvement. The soil with its depth, texture, permeability, slope and erosion determine the capabilities and the treatment needed for each individual field or farm.

For example, let's consider two tillable soils that vary widely in their characteristics. Soil unit 2 mapped in this district and also variations within those units. By knowing the various soil units on your farm, you will be better able to care for your land properly. When you become a district cooperator, a map of your farm with pertinent soils information is furnished for your use. It is a free inventory of your land.

found on flat slopes with little erosion, only moderate conservation practices such as contour farming and good crop rotations are needed. For contrast, to soil unit 2, let's consider soil unit 20, as mapped by the soil conservation service. It is a shallow soil that is coarser in texture or more sandy and due to the coarser subsoil takes water much more freely. The fertility and moisture holding capacity is lower than for soil unit 2. It is susceptible to both wind and water erosion. Due to the characteristics of this soil, intensive conservation practices such as terraces, contour farming, stubble mulch tillage, grasses and legumes in rotation, etc., are necessary to adequately protect and improve it.

We have given examples of only two cases that exist in the Cap Rock Soil Conservation District. There are many more soil units mapped in this district and also variations within those units. By knowing the various soil units on your farm, you will be better able to care for your land properly. When you become a district cooperator, a map of your farm with pertinent soils information is furnished for your use. It is a free inventory of your land.

A HOME TO LIVE IN

SMALL HOUSE PLANNING BUREAU, ST. CLOUD, MINNESOTA

Design D-211. The plan shown here is a story and a half Colonial with three rooms on the first floor, two bedrooms and bath on the second, an attached garage and a porch.

As shown, the dining room and living room are joined by a eased opening, but the partition can be left up to form an L-shaped combination living-dining room. Cabinets are placed on two walls to permit space for kitchen dining. The double compartment sink is under the rear windows, the refrigerator to the right in the counter to the left.

The living room has light from three sides, an open stairway, fireplace and a coat closet. In addition there is an entry closet, linen cabinet and walk-in closets in the bedrooms.

Exterior finish includes, brick facing on the lower front wall, wide siding and asphalt shingles.

The floor area, excluding the porch and garage, is 616 square feet and cubage 15,400 cubic feet. For further details see your local lumberman.

FARM PROGRAM

1951 Cottonseed Support Announced

Price support loans on 1951 crop cottonseed will be available at \$65.50 per ton for basic grade (100), according to B. F. Vance, chairman, State PMA Committee. In areas where purchase program may be necessary, purchases will be made at \$61.50 a ton.

This support price on 1951 cottonseed represents 90% of the January 11, 1951 parity price of \$71.00.

1950 Loan Cotton to be Pooled on August 1

All 1950 crop loan cotton still under loan August 1, 1951, will be pooled for producers accounts, the loans mature July 31, 1951.

There are only a small amount of 1950 crop cotton remaining in the loan (about 3,480 bales) as of May 17th. Producers may either sell their "equity" in the loan cotton or redeem the cotton from the loan and then sell it in the open market.

Warehouse Charge on Commodities Stored For Loan

The deduction of storage charges on warehouse stored wheat is a different procedure than that followed in previous years, and the storage charges must be deducted in computing the amount of the loan or purchase price, irrespective of whether or not such charges have been paid the warehouseman by the producer. The storage charge will be computed from the date of storage or the date on the warehouse receipt if the date of storage is not shown. All commodity loans will be available from time of harvest through January 31, 1952.

Old Timers of Silverton to Hold Picnic at Elwood Park July 4

There is to be a picnic for all old timers from Silverton in Elwood Park in Amarillo on the fourth of July. Everybody is invited. Tell all your friends and relatives. Come and let's have a wonderful time together. Meeting will be on the west side of the park. Bring a basket lunch, and your pictures, both old and new.

Mrs. Horace Simpson, 4015 Hughes, Amarillo, Texas.

Floyd County Pioneer Taken By Death

Funeral services for John Cephus Fortenberry, 91 years old, pioneer Floyd County rancher, were conducted at 2:30 Wednesday afternoon at the Lockney Baptist Church.

Rev. Guy Shields of Wichita, Kansas, officiated. Interment was in the Lockney Cemetery beside the grave of Mrs. Fortenberry, who died in 1943.

Mr. Fortenberry died Monday night at the Lockney Hospital. He had been in poor health since he suffered a hip fracture about a year ago. He had lived in the Cedar Hill community east of Lockney for the past 61 years.

Survivors are five sons, John, Joe and Tom Fortenberry, all of Lockney, and Jack and Hugh Fortenberry, Adrian; four daughters, Mrs. M. H. Taylor, Mrs. C. V. Lemons, and Mrs. J. R. Kelley all of Lockney, and Mrs. J. D. Seay, Duran, New Mexico.

Mr. Fortenberry was an uncle of H. Roy Brown of Silverton. He was Mr. Brown's mother's oldest brother. Mr. Brown attended his uncle's funeral Wednesday afternoon in Lockney.

Area Draft Board Meeting Held in Lubbock

Clerks and members of 25 West Texas county draft boards conferred Thursday and Friday morning in Lubbock, with state selective service officials about the new draft bill which requires only the President's signature to become law.

Lieut. Col. Morris Schwartz, deputy state director of selective service, with Capt. Walter Caetjens and Capt. Sam Harris, told the group of new regulations and classifications contained in the pending legislation.

The meeting is one of four being held over the state including one recently held at Dallas and two others scheduled at San Antonio and Houston. Schwartz conferred with board members also while in Lubbock and was in Amarillo Friday for a similar meeting with board members. Mrs. Frances C. Starkey, clerk of Local Board No. 20, attended the meeting.

College Students Must Submit Requests for Draft Deferrals

College students wanting draft deferments must make requests in writing to the local board for occupational deferments before the board will consider the cases, Mrs. Frances C. Starkey, clerk of Local Board No. 20, said today.

"Many of the students don't realize they must make this written request," Mrs. Starkey said.

"The students must also ask college officials to submit evidence of their class standing and evidence they are in school or accepted for the next class," she added.

The Childress board has received forms for the college officials to fill out and expects to receive forms for the students within a week. On the students forms are places to indicate whether they have taken the college student draft exemption test; if they expect to take the test; and if college officials will forward records. These forms will be mailed to the students, Mrs. Starkey said.

Complete information regarding the student draft exemptions may be had at the draft board office, 2nd floor City Hall, Childress, Texas.

Local Board No. 20 Will Make No Call During July

The Texas Local Board No. 20, serving Childress, Cottle, Briscoe, Hall and Collingworth counties, was notified today that no registrants from this area would be called for induction for the month of July.

The office received today the first results of the Selective Service College Qualification Test from Princeton, New Jersey. Grades were received for about ten registrants, all of them having taken the test on May 26, 1951. Nearly all scores of those registrants who took the test on May 26 are expected to be on the way to local boards by June 22. Scores of those who took the test on June 15 are expected to be in the hands of local boards before August 20. Scores of those taking the test on June 30 and July 12 are also expected to be at local boards before that date.

Men may be deferred to continue their college training either on the basis of high standing in class or by attaining a required minimum score on the Selective Service College Qualification Test. Present regulations send that score at 70 for college freshmen, sophomores, and juniors, and at 75 for college seniors expecting to go on to graduate school. Reports of the class standings of registrants will not accompany the reports of the test scores. These will be mailed direct to local boards by the respective institutions upon request of the registrant.

Registrants who took this test may come to the local board office and the score made will be given to the individuals, Mrs. Frances C. Starkey, clerk of draft board, said today. These scores will not be mailed out to the registrants, Mrs. Starkey said.

Watters Reunion Held at Edwin Dickerson Home Sunday

The family of the late Mack Watters had their annual reunion in the home of Edwin Dickerson at Lone Star on Fathers Day. All of the children were present except one. A number of grandchildren and great grandchildren attended. They were: Walter Watters and Bonnie; Mr. and Mrs. E. C. Newman, Mr. and Mrs. Roy Mack Walker and sons, Mr. and Mrs. Dud Watters and Sandra, Mr. and Mrs. Vergil Crow and Gary, Mrs. Maxine Dunham and boys, all of Silverton.

Mrs. A. F. Van Meter, Jr., and girls, of Quitaque; Mr. and Mrs. Doug and Tommie Fletcher, Mr. and Mrs. Hugh Lovett and Mrs. Elma Baker, all of Plainview.

Mr. and Mrs. Guy McDonald and son, Bob, of Mercedes, Texas, visited from Thursday until Monday with Mrs. McDonald's mother and sister, Mrs. D. W. Mayfield, and Mr. and Mrs. Perry Thomas, Jr. They left Monday for their summer home at Idaho Springs, Colorado, where they will spend the summer. Don Thomas accompanied them for a month's vacation.

Dinner guests in the home of H. T. Myers and daughters Sunday were: Mr. and Mrs. Elbert Dickerson. Calling in the afternoon were: Mr. and Mrs. Gillbreath, of Lockney; Mrs. Harley Bradley, Pauline, Fay and Mary.

Dr. and Mrs. Clarence Mast and children, of Midland, visited Mrs. Mast's mother, Mrs. O. T. Bundy over the week end.

Mrs. Berton Hughes and boys, Robert and Randy, are visiting her parents, Mr. and Mrs. R. E. Renfro in Belcherville, Texas.

Mr. and Mrs. Bryan Jones and granddaughter, of Electra, Texas, spent the week end with Mrs. Jones' parents, Mr. and Mrs. A. A. Dunagan.

Truman Signs New Draft Bill Which Lowers Age

Washington, June 19—President Truman Tuesday signed the new draft law.

The measure lowers the draft age, extends the Selective Service system four years and lays the foundation for universal military training.

Truman signed the bill in a White House ceremony at 11:15 a. m.

The new law keeps the draft in operation until July 1, 1955, and permits the induction of 18½ year olds for military service if local draft boards exhaust their supply of older eligible men. It makes no change in the present maximum draft age of 25.

The present law, which would have expired on July 9, prohibited the induction of anyone under 19.

The period of service under the new law is 24 months instead of the 21 under the expiring law. Although the minimum induction age under the new law is 18½ years, men still must register when they become 18.

The new law makes draft-age aliens liable to service if they desire permanent residence; reduces mental and physical standards for acceptance for service; puts a new top of 5,000,000 men on the overall size of the armed forces; and permits the induction of eligible men whose sole dependents are their wives.

It provides for appointment of a five-man commission to recommend to Congress a system of universal military training for 18 year olds.

The commission, which is to include three civilians, has four months in which to complete its study and report.

The training system would not become effective until Congress approved it and established a code of conduct and a schedule of disability and death benefits for trainees.

"Royal Wedding" Blue Ribbon Award Picture, June 24, 25

Whimsical gaiety, happy ending romance, riotous color, lilted lyrics, and original terpsichorean feats make up the entertainment features of "Royal Wedding," which has been voted the Blue Ribbon Award. Jane Powell makes as lovely a dancing partner as Fred Astaire has ever had, with the added attraction of her singing ability. Unlike many musicals built around a story of stage people, most of the settings for this are outside the theatre itself, with the dance scene aboard ship an example of ingenuity shown. Fred's top scene where he becomes a human fly and dances about on wall and ceiling is set in an ordinary room. Articles about the kinds of soil in the district, the hazards of the soil, its proper use and treatment. Possibly you wonder why we continue to stress the different conditions relating to the soil. Every phase of conservation is dependent on the characteristics of the soil. Recently the department agriculture adopted the following as their basic objective: The use of each acre of agricultural land within its capabilities and the treatment of each acre of agricultural land in accordance with its needs for protection and improvement. The soil with its depth, texture, permeability, slope and erosion determine the capabilities and the treatment needed for each individual field or farm.

For example, let's consider two tillable soils that vary widely in their characteristics. Soil unit 2 as mapped by the soil conservation service technician is a deep, fine textured, slowly permeable soil. It is typical of much of the hard flat land above the Cap Rock. It takes up water slowly but has a high moisture holding capacity. In this district, this soil is usually fertile. When this soil is

County Agent Leo White Leaves Today for A. and M.

County Agent Leo White and wife and daughter, Marsha Kay, left today (Thursday) for A. & M. College at Bryan, Texas, where Leo will attend short course several days. The White's plan to include in their trip a tour of the state including San Antonio, Corpus Christi, and other points of interest. They will return home June 28.

ATTEND ENCAMPMENT AT CETA CANYON

Rev. and Mrs. H. M. Secord spent last week at Ceta Canyon Junior Encampment composed of Plainview and Clarendon districts. Mrs. Secord was director of the camp and Rev. Secord was teacher council of one group.

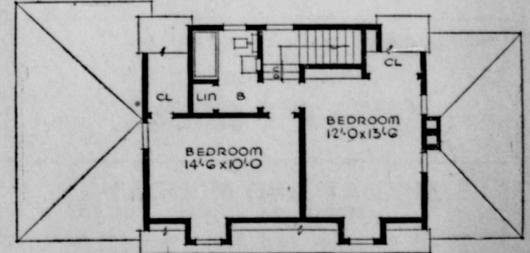

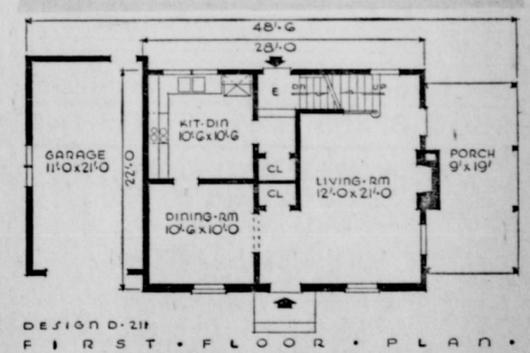

109 children from the district attended. Four from the local Methodist Church. They were: Bob Haley Hill, Jimmie Don Marshall, W. L. Messimer and Karla Gayle Weaver.

Mrs. Secord made a trip to Perryton Tuesday to make preparation for their encampment which will be held at a later date.

Mr. and Mrs. John Ivey, of Vega, visited in the home of Mrs. Jeff Simpson Sunday. She accompanied them to Turkey to visit Mrs. Simpson's sister, Mr. and Mrs. Ben Turner.

Mr. and Mrs. A. J. Rowell went to Colorado City Saturday to get their children who have been visiting their grand mother, Mrs. J. D. Hawkins.

A HOME TO LIVE IN

SMALL HOUSE PLANNING BUREAU, ST. CLOUD, MINNESOTA

Design D-211. The plan shown here is a story and a half Colonial with three rooms on the first floor, two bedrooms and bath on the second, an attached garage and a porch.

As shown, the dining room and living room are joined by a cased opening, but the partition can be left out to form an L-shaped combination living-dining room. Cabinets are placed on two walls to permit space for kitchen dining. The double compartment

sink is under the rear windows, the refrigerator to the right in the counter to the left.

The living room has light from three sides, an open stairway, fireplace and a coat closet. In addition there is an entry closet, linen cabinet and walk-in closets in the bedrooms.

Exterior finish includes, brick facing on the lower front wall, wide siding and asphalt shingles.

The floor area, excluding the porch and garage, is 616 square feet and cubage 15,400 cubic feet.

For further details see your local lumberman.

BRISCOE COUNTY NEWS

Published Every Thursday at Silverton, Texas
M. B. Cavanaugh, Owner and Publisher

Subscription (Outside Briscoe County) per year \$2.50

Entered as second-class mail matter at the Post Office at Silverton, Texas, under the Act of Congress of March 3, 1879

SUPPOSE THIS HAPPENED

It is commonly believed that the whole responsibility for getting rid of unnecessary government expenditures falls upon Congress and the Administration. But a third power must bear its full share of the responsibility too—and that power is the American people who, incidentally, pay all the bills.

Suppose, for instance, that chambers of commerce, civic groups, business associations, labor unions and other such institutions in every part of the Country came out for real economy—and said, frankly and flatly, that they wanted their states and their communities to willingly accept their part of the cuts that would follow. And suppose, finally, that when the cuts were made, these organizations would praise Congress for making them instead of crying to high heaven for more Federal tax money to be spent locally. The result would be to enormously encourage those men in government who honestly want to pinch the people's pennies and, at the same time, it would bring many new converts into the fold.

For good or evil, the men who run the government keep their ears to the ground. They listen to "the folks back home." Once they become convinced that their constituents want the government to banish the luxuries and the waste, they'll do just that. They'll never do it so long as they believe that everyone wants economy to be confined to the other fellow's pasture.

116,713 Texas farm boys and girls were enrolled last year in 4-H demonstrational work in agriculture and home economics.

Quality of High Plains Cotton Is Outstanding

The final test of cotton is its performance in a fabric, points out J. M. Ward, economist.

Hard and other experiment station workers recently made a study of the quality and fibre characteristics of mechanically harvested cotton on the high plains. Specially developed storm proof varieties are better adapted for the use of mechanical strippers than are open-boll varieties, Ward said.

After gins are operating at full capacity during the harvesting season, high plains growers have the choice of either storing the surplus seed cotton or leaving it unharvested in the field for stripping later in the season. Most growers practice full scale stripping and most of the storage is on the ground in the cotton fields.

"Samples of lint from the storm proof varieties graded higher than samples from other varieties," Ward reported. "Higher grades were produced on the sand and sandy loam soils than on the clay and clay loam soils."

Since high plains cottons vary in fineness, spinning tests were provided to show the spinnability, yarn grade and strength of these cottons. It was found that cotton of seven eighths inch staple, fair tensile strength and very fine fiber processed into yarns of equal strength to yarns produced from coarser, stronger cotton of the same staple length. And these yarns processed into strong durable fabrics.

Mr. and Mrs. Melvin Watkins, of Amarillo, spent the week end with Mrs. Watkins' parents, Mr. and Mrs. Bud McMinn.

Rural Living

Editor Tells of Its Beauty

NEWARK VALLEY, N. Y.—The beauty of living in a small town was expressed recently by Lloyd C. Allen editor of the Tioga County Herald published in this village (population 900).

Allen was asked by a friend, "How can you live in a town this size, especially without a car?"

Allen commented in his column: "It's true that a community of this size holds little promise of either fame or fortune. There are no night clubs and no shows and only weekly movies. We have few of the city's advantages. . . . But in what metropolitan center could a guy run a linotype and by a turn of his head watch cattle grazing or note the warbler migration or pause to watch a nuthatch? . . . Along what other Main Street can you dawdle on a bridge and watch the brook trout dart or jump? And all for free?"

Plain Citizen Tours England; Likes His Home Town Better

VANDALIA, Mo.—Back in the winter the town of Vandalia, Mo., decided it would be a good idea to have a first-hand account of what Great Britain is like today. So the small town's population of 2,600 persons got together and forked out \$1,308 to send Abraham Lincoln Kilby, a 58-year-old rural mail carrier to England and report back.

Kilby returned to make his report recently. And as far as he is concerned you can't beat the British for hospitality. But as for their Socialist government, give him the American competitive system.

When the mailman left Missouri he got a modest sendoff. In Britain, however, he created a furor. He was received as an ambassador and spent seven weeks tramping the street of London and provincial towns gathering his facts.

He told the home folks: "The social gains that have been made in Britain are good to a certain extent. But the economic policies, if continued long enough, will lead to utter economic collapse because incentive and private initiative will have been destroyed. "The morals of their government seem to be higher than ours. At least I didn't hear anything about fur coats, home freezers and the like changing hands on No. 10 Downing St. while I was there."

He said that this country didn't need the British socialized medicine setup, nor its national insurance plan. The insurance plan includes old age pension, maternity benefits and subsidies to mothers.

On one thing he was insistent, the British meat ration was the worst piece of "bungling" he observed. "The officials kept dickering around over the price rise of a few dollars on the ton until the nation was just about completely out of meat."

Seed of Texas 30, a new corn hybrid developed by the Texas Agricultural Experiment Station, will be available for use by farmers in 1952.

Renovating established stands of KR bluestem grass and fertilizing with a combination of nitrogen and phosphate will greatly improve the yield and quality of the forage produced on low fertility soils.

Every dairyman should put up from one to two tons of high quality hay for each cow in the dairy herd.

Married Girls Barred From Attending School

MOUNT MORRIS, Mich.—The 2,500 population of Mount Morris was in an uproar recently over the question of whether married girls, a pregnant one in particular, could attend high school.

Among other things, the controversy prompted a strike of 60 seniors at the high school and caused a mass meeting of students, parents, and school authorities.

As a result of the mass meeting, E. L. Clark, school superintendent, relented on a ban on married girls' attending classes and had invited four to return if they brought certificates from physicians that they were not pregnant.

A controversy between Clark and some parents had been running for weeks. When a majority of the high school's 88 seniors joined in a traditional "skip day", going on a picnic instead of to school, verbal fireworks broke out.

Seniors who didn't play hookey met and chose a student council, barring other seniors because they hadn't brought their excuses for being absent.

That caused an uproar from the majority, particularly when it was announced that those who observed skip day would be barred from the annual senior class tour of Washington, D.C.

The following day a ban against married girl students came from Clark. He gave as his reason for not allowing married girls to classes, "It causes so much talk among the younger girls and it is not good."

Women Win All Contests In Village Election

MENDON, Mich.—The women of Mendon won the village election recently, sweeping the entire board. It wasn't even close for any office.

There will be one lonesome male officeholder. He is city clerk Vern McClish, who was not opposed for re-election.

Mrs. Helen Hickmott, former Kalamazoo college teacher, was elected village president. She won over Marvin Daiman, incumbent, 77 to 43.

The women campaigned on a general platform that they could do a better job of running the village government than men. One result was a rousing vote turnout—a total of 120. The community has a population of 750.

Make Use Of Your Home Freezer This Year

Leave room in your home freezer for plenty of fruits and vegetables, says Maona Cox, foods and nutrition specialist for the Agricultural Extension Service of Texas A and M College. The nutritive value and flavor of frozen foods are nearer that of the fresh product than any other means of preservation, the specialist adds.

Miss Cox suggests 5 steps to successful freezing of foods: first—start with a good quality product. Freezing does not improve quality, just conserves it, so select fruits and vegetables of good variety and harvest at the right stage of maturity.

The second step is careful preparation and speed. Prompt handling, chilling and freezing helps retain quality.

The third step is select containers which are moisture and vapor proof to keep the product from losing flavor, color, food value, and changing in texture.

Then, freeze quickly at the right temperature. Home freezers are designed primarily for storing foods, but you can freeze small quantities of vegetables and fruits by placing the packages against the bottom or sides of the freezing chamber with space left around them, for air circulation.

The last step in successful freezing of fruits and vegetables is to store them at zero degrees F. If the temperature rises, the food changes in color, flavor, and loses food value.

For these five steps, detailed tables and directions for different fruits and vegetables, get a copy of the bulletin B-175 "Frozen Foods, How to Freeze, How to Cook," from your county extension agents' office.

Seed of Texas 30, a new corn hybrid developed by the Texas Agricultural Experiment Station, will be available for use by farmers in 1952.

Renovating established stands of KR bluestem grass and fertilizing with a combination of nitrogen and phosphate will greatly improve the yield and quality of the forage produced on low fertility soils.

Every dairyman should put up from one to two tons of high quality hay for each cow in the dairy herd.

Mrs. S. Teague and daughter, Carol, of Shamrock, left Monday afternoon for Shamrock where they will visit two weeks with her son and family, Mr. and Mrs. S. A. Teague.

How to take the Work out of Housework

SPEAKING OF WASHDAY. here's another helpful hint. For extra protection, snap fasteners and close zippers before putting garments in your washing machine. (Having trouble these days with washday weather? An electric dryer will solve that problem! Five minutes of drying costs just one penny!)

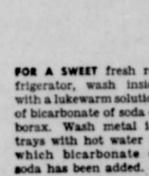

WONDER WHERE THE CUP HANDLES GO? Properly stacked and mechanically washed, you'll have no broken dishes. And they dry by themselves, need less handling! (Saves time and work as well as dishes—and costs so little to use! Only a penny or two a day!)

THERE'S MORE THAN ONE TRICK with a waffle iron! Use packaged mixes for cornbread waffles. . . for hot gingerbread waffles. And try adding finely chopped ham to regular waffle batter. Delicious! (Takes only one or two cents' worth of electricity to make all the waffles your family can eat!)

FRUIT SALADS ARE FESTIVE-LOOKING! And you can prepare them ahead of time. Slice the fruit, cover it with lemon or grapefruit juice and keep chilled in the refrigerator until time to serve. (Just one penny's worth of electricity protects a whole refrigerator full of food for almost two hours!)

FOR A SWEET fresh refrigerator, wash inside with a lukewarm solution of bicarbonate of soda or borax. Wash metal ice trays with hot water to which bicarbonate of soda has been added.

(About 5c worth of electricity will "refrigerate" your food for a week-end!)

WHEN CLEANING TILE or tile board, add a handful of starch to water. It gives a nice shine. When starch sticks to your iron, remove it by spreading salt on a newspaper and rubbing the hot iron over it.

(By the way, you can iron for hours . . . for just a few pennies cost!)

Hurry! Hurry! Hurry!

"Right this way to the Big Top! No crowding, please. Plenty of room for everybody! Hurry, hurry, hurry!"

Whether or not a real circus comes to your town this summer, do plan a circus party for the small fry, and serve these delightful little clowns. Imagine the squeals of delight that will meet their appearance.

And they are so easy to make! Just put generous amounts of snowy white shredded coconut in small serving dishes. Then invert an ice cream cone filled with chocolate ice cream (store-bought or homemade) into each dish. The coconut makes a delicate ruff which frames the little clown face. You won't need to suggest to the youngsters more than once that they should scrunch the cone around in the coconut for a wonderful chewy topping. The clown features, by the way, are made with bits of marshmallow.

Chocolate Ice Cream

- 1 to 1 1/2 squares unsweetened chocolate
- 3/4 cup milk
- 2 teaspoons unflavored gelatine
- 1/4 cup cold water
- 2/3 cup sugar
- Dash of salt
- 2 cups light cream
- 1 teaspoon vanilla

Add chocolate to 3/4 cup milk and heat in double boiler. When chocolate is melted, beat with rotary egg beater until blended. Combine gelatine and cold water; mix well. Add hot chocolate mixture and stir until gelatine is dissolved. Dissolve sugar and salt in hot mixture. Add cream and vanilla. Turn into freezing tray of automatic refrigerator, setting control for coldest freezing temperature. When partially frozen, remove from tray and beat with rotary egg beater until fluffy and smooth. Return to tray and freeze 30 minutes longer; stir. Then freeze until firm. Freezing time: 3 to 4 hours. Makes 1 quart.

The first step in bringing soils to their maximum production should be a soil test or analysis.

PERSONALS

Mr. and Mrs. Clifton McCain went to Dallas Saturday and brought A. J. Jones home. He had undergone surgery in a Dallas hospital. He is reported doing fine.

Mr. and Mrs. H. Roy Brown made a business trip to Plainview Thursday, and while there they visited their son and family, Mr. and Mrs. Durward Brown.

Dream Complexion

Every teen-age girl wants to be beautiful. It's as natural as flowers wanting to bloom in the spring, and birds wanting to sing at the dawn of a bright summer day.

If your complexion is one of your beauty problems, as it is for so many girls in their teens, remember that good health and cleanliness are the basis of the clear, glowing complexion that is every young girl's dream. For good health you need the right food, plenty of sleep, and regular exercise, preferably out of doors. Cleanliness means a daily bath and a thorough washing of the face (hands, too, of course) with soap and water at least three times a day.

Thorough soap-and-water washing—perhaps scrubbing would be the better word—will keep dirt and make-up from working into your pores. A good deal of complexion trouble, though, is the result of what doctors call self-infection, so instead of a washcloth that may be a germ-carrier it's a good idea to use a sterile gauze pad that can be used once and thrown away. The pads come individually wrapped in glassine envelopes. There is no chance of dirt or germs getting into them before they are taken out of their envelopes and used.

In saying that the right food is basic to a good complexion the emphasis is on the "right". No matter how much you may be tempted, remember that too many visits to the soda fountain aren't going to be a bit of help in giving you the lovely, radiant complexion that, with sparkling eyes, a trim figure and bubbling vitality, means so much in reckoning up a young girl's charm.

Mrs. J. H. Burson and daughter, Miss Lauree, were business visitors in Amarillo Thursday.

Wheel Chair Doctor Continues To Follow Stiff Office Routine

BENSON, Ariz.—Confinement to a wheel chair wasn't enough to stop Dr. James M. Hesser from continuing his practice. Paralyzed from the waist down, the 43-year-old carries on as a surgeon and general practitioner.

Dr. Hesser's spine was severed when his automobile went out of control as he raced to the scene of another highway accident. He spent weeks in a hospital learning to care for himself as a paraplegic, and the time determined to continue his practice in the ten bed hospital that he had converted from a small clinic before his accident. A sizable insurance policy would have permitted him to live comfortably, but he wanted to go on as if nothing had happened.

For a time, things looked anything but bright. His weight dropped from 167 to 130. But he kept at it. He decided to limit his work days to four hours each, although he sometimes runs over that limit. He hopes to work gradually up to an eight hour day.

Today, less than a year after the tragic accident, he is back as the school doctor, as well as doctor for the town, county, a railroad, and a powder plant. He sees approximately 20 patients daily at his hospital.

He makes house calls when it is necessary. For short runs he uses his wheel chair. He drives a car with hand-operated throttle, clutch and brake when making long distance calls.

Operating from a wheel chair has not impaired Dr. Hesser's ability as a surgeon. He delivers babies, cuts out appendixes, performs any task that he did before his accident.

The popular physician, a graduate of the University of Oklahoma, settled in Benson, population about 2,000, after doing wartime duty at nearby Davis-Monthan air base. From all indications, he means to stay.

Texas Wildlife Furnishes Much Food And Recreation

Wildlife furnishes not only recreation and food for a considerable number of the people of Texas, but also an income of more than \$2,000,000 yearly to landowners for hunting and fishing leases, while the pelts taken by hunters and trappers of furbearers amounts to several millions more. The wildlife population of the land is perhaps more thoroughly safeguarded and more widely distributed today than at any time in recent years. In 1950, for example, 996 deer, 160 antelope and 557 other wild species were shifted for restocking game preserves in other adapted areas. Inland fish resources stem from about

150,000 pounds on farms, 1,049 lakes of five acres or larger with a combined water area of 362,000 acres, and 2,000 miles of fresh water streams.

Preservation and propagation of species of animal and bird life in Texas is attributable in substantial measure to the demonstrations in conservation which the A. & M. College Extension Service has sponsored in cooperation with land owners for the past decade and a half.

That Old Gas Buggy May Still Have Life Abundant

CALHOUN, Ga.—The old family gas buggy may not be as lifeless as we sometimes think it is. At least, one here in Calhoun was quick on the trigger.

When fire broke out at a Calhoun funeral home, an automobile parked in an adjoining garage got out of the joint without the assistance of a driver.

The machine backed swiftly and surely out and all the way across the street. Mechanics said that the tremendous heat probably shorted out the starter to set the vehicle in motion.

Buster Offers Proof Cats Not Only Ones with Nine Lives

CHICAGO—A pet dog named Buster has offered evidence that cats are not the only animals endowed with more lives than one.

One day as his master, John C. Duner, watched, Buster was run over by a large truck near the Duner home.

Buster appeared dead, so his master sorrowfully buried him in a vacant lot. Several days later Duner's sons, John, 5 and Keith, 2, spotted a dog outside the house that looked like the supposedly dead Buster.

Close investigation discovered that it was Buster, a little the worse for wear. Veterinarians said the dog suffered a concussion, but would return to top shape with proper rest and care.

Exactly how Buster got out of his grave no one could tell.

Mailman Swamps Bobby, But Death Intervenes

DETROIT, Mich. — Death canceled Bobby Hiftline's plans for answering many letters. The six-year-old cancer sufferer died in an oxygen tent.

The mailman had brightened the last days of Bobby's short life by bringing him more than 300,000 letters and packages from well-wishers.

His mother, Mrs. Henry Hiftline, had written to the New York Times, explaining how her son loved to watch for the postman, and expressing the hope that "some kind people" would drop him a card.

The story was carried by the Associated Press, and within a day or two the flood of letters began.

Gifts overflowed the Hiftline home, and were carted in trucks to the First Baptist Church in Adrian. They continued to arrive, even as plans were being made for Bobby's funeral services, in the same church.

Luscious Blonde Britisher Shakes Butcher's Virtues

NORTHAMPTON, England — A magistrate has brought forth a complaint here against the Food Ministry's policy of using a luscious blonde to shake the virtue of Britain's sturdy butchers.

Oliver Bell told a magistrate's convention that the blonde thaws the meatmen with a sultry approach, talks him out of a cutlet over the legal ration, then chills him with a summons.

Bell termed the practice unfair, citing one day in which six local butchers were nabbed for giving away their heart over their head.

Household and Farm Employees Should Get Cards

Household workers and farm employees who have been included in the social security program for the first time since January 1, 1951, must get a social security number card by June 30, 1951, John R. Sanderson, manager of the Amarillo social security office said today.

Wages earned by these people during April, May, and June, 1951 will be reported by their employers during July and the social security number of each worker must be included in the report.

If the individual has never had a social security number, an application can be secured at any post office, employment service office, or social security office. It should be completed in ink and mailed or brought to the social security office, 324 Post Office Building, Amarillo. A card bearing the applicant's name and social security number will be mailed immediately. The worker should then show the card to his employer so that a record can be made of the number, Sanderson said.

Workers who have had such cards, but who have lost them should file an application for a duplicate number. The application is made on the same form as for a new number, but the form contains a question which informs the social security office that a duplicate number is required.

Bob Reid returned Friday from San Angelo, where he had visited Mr. and Mrs. Walter Tucker during the past.

Mr. and Mrs. Johnnie Freeman left Thursday for their home in Dallas, after having visited a week with relatives. Sam Brown, son of Mr. and Mrs. Roy S. Brown, accompanied them home for a visit.

Mr. and Mrs. J. S. Watson had as their guests Sunday the following children: Mr. and Mrs. Odra Watson and son, Joe Bob; Mr. and Mrs. O'Neal Watson and children, Dona Faye and James, of Amarillo.

Mrs. Grady Wimberly was a dinner guest of Mr. and Mrs. J. S. Watson Sunday.

Mr. and Mrs. Glenn Lindsey spent Sunday in Amarillo. They were accompanied by Mr. Lindsey's sister, Sue Lindsey, who caught the bus to return to her home in Lubbock.

Dewey Beavers spent last week in Grand Prairie.

NOTICE OF COUNTY'S INTENTION TO RECEIVE BIDS FOR THE PURCHASE OF CERTAIN ROAD MACHINERY

Notice is hereby given that SEALED BIDS, addressed to the County Judge of Briscoe County, at Silverton, Texas, will be received by the Commissioners' Court of Briscoe County, Texas, at the office of the County Judge until 10:00 o'clock A. M. on the 9th day of July, A. D. 1951, for the purchase of the following described road machinery for the maintenance and improvement of the roads in and for said county, to-wit: One Diesel Crawler Tractor of approximately 90 horse power; 74" Tread and with 20" Track Shoes; Equipped with electric starter and other standard attachments; Such tractor to be equipped with cable operated Bulldozer and with double drum rear mounted cable control unit; And one used, four wheel cable operated Scraper of approximately 6 1/2 cu. yd. struck capacity. All to be delivered immediately to Silverton, Texas.

It is the intention of said Commissioners' Court to issue warrants in an amount not to exceed \$10,500.00, bearing interest at the rate of not exceeding four and one-half per cent per annum, in payment of such machinery, over and above the cash payment.

Such SEALED BIDS will at said time be publicly opened and read before the Commissioners' Court of said County.

The Commissioners' Court of Briscoe County reserves the right to reject any and all bids.

This notice is given in strict compliance with the provisions of Chapter 163, Acts 1931, Regular Session of the 42nd Legislature of Texas, and all amendments thereto, and pursuant to an order of the Commissioners' Court of Briscoe County, Texas.

J. W. LYON, JR., County Judge, Briscoe County, Texas. 24-2tc

Circle Two of W. S. C. S. Met Wednesday, June Thirteenth

Circle Two of W. S. C. S. met Wednesday afternoon in the home of Mrs. Secord with Mrs. Edd Thomas as hostess. A very interesting program was given.

Mrs. Gordon Montague gave an interesting chapter from Islam the introduction to the study Near East Panorama.

Mrs. Glenn McWilliams gave an outstanding and very interesting chapter from our study Near East Panorama.

Mrs. Warner Grabbe gave the best bible lesson. Her subject was the Five Reys taken from the bible. This was indeed a wonderful lesson each woman expressed to Mrs. Grabbe it was the best they had ever heard. We closed with a prayer lead by Mrs. Edd Thomas.

A lovely refreshment plate was served. We welcomed each Methodist lady to be with us on June 25, in a joint meeting. Both circles will meet in the home of Mrs. Bailey Hill on June 25, at four o'clock. We hope that each Methodist woman can plan to be there on that day. Let us come and worship together. Reporter.

Families Reunion of Smith Family Sunday In Plainview

Mrs. J. W. Smith, of Plainview, mother of Mrs. Travis Marshall, Silverton, had the pleasure Sunday of having all her children home for the first time in three years.

Those present were: Miss Josephine and Mary Smith, Melvin Smith, Mr. and Mrs. Elmer Smith and Frankie, all of Plainview; Mrs. Edith Kindricks, Wesley, Linda and Melba, of Texas City, Texas; Mr. and Mrs. Marvin Smith, Joe and W. T., of Pecos, Texas; Mr. and Mrs. Albert Smith, Loreta and James, of Roosevelt, Oklahoma; Mr. and Mrs. Travis Marshall, Millie and Jimmie, of Silverton.

Mrs. Smith has fourteen grandchildren, and all were present except Mrs. Joyce Henniger, of Mexia, Mrs. Betty Mooney, and Sid Marshall, of Silverton and Sabis Kindricks, of Texas City.

BADGETT'S PHARMACY

They're Ready to Answer ANY Call

Telephone people have always outdone themselves when the pressure is the greatest. In local emergencies, the cool efficiency of the telephone worker has been duly praised.

In national emergencies such as the present one, you can depend on them. The telephone workers will keep running smoothly the communication that has been rightly named "the speaking voice of America's might."

PHONE No. 12

SILVERTON, TEXAS

"The bonds I bought
for our Country's defense
will see my twins
through college!"

MRS. MARY CALLON OF INDIANAPOLIS, INDIANA
CAN TELL YOU—IT'S PRACTICAL
AS WELL AS PATRIOTIC TO BUY BONDS FOR DEFENSE

"I have twin reasons for buying bonds," says
Mary Callon, introducing 17-year-old Jack and
Janet. "I've been a widow since my children were
8, but they'll have a college education. The U. S.
Savings Bonds I've bought will see them through."

Mrs. Callon says, "In 1942 I enrolled
in the Payroll Savings Plan at the
U. S. Naval Ordnance Plant where
I'm an executive secretary. I put 10%
of my pay each week into bonds. I've
discovered it's regular saving that
makes saving possible at all!"

"By careful managing, the twins and I
live comfortably. How thrilled I'll be
to see them enrolled in Butler Uni-
versity this fall, thanks to my U. S.
Savings Bonds! Every breadwinner
should buy bonds—there's no better
way to save money!"

Mrs. Callon's story can be your story, too!

What Mary Callon did, you can do, too—start now! It
takes just three simple steps.

1. Decide to put saving first, before you even draw your pay.
2. Save a regular amount systematically, week after week or month after month.
3. Sign up today in the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

You'll be providing security for yourself, your family,
and our free way of life.

**U. S. SAVINGS BONDS ARE DEFENSE BONDS—
BUY THEM REGULARLY!**

Bound Soldiers Killed by Bus Strike

ALTON, Calif.—A group of rted for Korea from nearby Cooke found a simple and e solution here when a bus strike tied up their tation. e to get rides into Los —200 miles away—for week- asures, they appropriated a rd stop sign from a side and set it up on the US high- freeway. e time a highway patrol ived to investigate, not a in sight. All had caught Los Angeles.

Reversible Bifocals Soon Available to Spec Wearers

A new type of eye glasses which allows the bifocal portion to be moved out of the way when not needed is described by Dr. David E. Rolf of Cleveland in the Archives of Ophthalmology, published by the American Medical Association.

According to Dr. Rolf, the lenses of the glasses may be rotated, or turned upside down, by a unique method of attachment, so that the bifocal part is on top instead of on the bottom. In his opinion this reversible lens arrangement has certain advantages. He said:

"Its flexibility will save many patients an extra pair of glasses. It offers a possible solution to the long-standing problem of the patient who cannot accustom himself to walking while wearing bifocals in their usual position. It also permits the bifocal segment to be placed upward and out of the way during all or part of his walking activities. It would also seem applicable for patients engaged in occupations with unusual visual demands. Patients in these categories include barbers, switchboard operators, painters and paper hangers, as well as most people employed in the building trades, where sure footing is a necessity."

Dr. Rolf believes that the mechanics of changing the position of the lenses are sufficiently simple so that most persons are able to master them easily. He said there are no limitations regarding size, shape or type of bifocals or trifocals that can be used and the technic of prescribing and fitting these lenses is not difficult.

Magistrates Continue Life Of England's Lilliput Town

At a Lilliput town of hip-high houses and finger-size inhabitants, the County Council planners of Buckinghamshire, England, have met a big detour sign.

The model village of Bekonscot, set up at Beaconsfield about two decades ago, will carry on, the Beaconsfield magistrates have ruled, in denying a recent Council demand for its closure as a detriment to the local residential area.

The decision will interest thousands of visitors who have flocked to this spot from all over the world. It is a reminder that the unique miniature of England's architecture and way of life has survived both wartime devastation and postwar austerity.

Tiny Bekonscot itself is a graphic example of planning a community to fit its environment. Covering some two acres of the Callingham estate, it spreads over a Lilliput landscape of hill and dale, complete with airport, docks, and an elaborate electrically run railway system.

Buildings, people, and animals have all been reproduced exactly to scale—an inch to a foot. The result is an illusion of reality so strong that a real bird alighting in a field of miniature farm lands and grazing cattle seems like some giant creature from the Brooding-nag land of "Gulliver's Travels."

Vanishing American

A bit of enchantment has fled the streets of American cities. The sight and sound of it made children dance and lifted the hearts of their elders. It was spring itself, that trio of organ grinder, barrel organ and "monk," notes the National Geographic Society. Yet today the great city of New York is reported to have but one organ grinder left, a man of 75 years slowly cranking out the tunes of yesteryear. The tinkling voice of his barrel organ is barely heard midst the whirl of motor cars with strident horns, the blare of countless radios, television sets and record players. Things were different 20-odd years ago. . . The Barrel organ—or hurdy-gurdy, as it is often called—was the rage of New York in the late, gay 1920's. While an estimated 300 professional Italian grinders strode the streets, rich and famous amateurs cranked away on their own "machines" set up in fashionable drawing rooms.

Painless Childbirth

An improvement of the nerve block technique in painless childbirth—which involves only one site of injection instead of the former two or four—is described in the Journal of the American Medical Association. Dr. Orlen J. Johnson of Bay City, Michigan, reports that he has used the new technique on 161 women, of whom 92 were becoming mothers for the first time. With skilled injection, he explained, the patient complains of no discomfort. He added that no reactions from the procaine, a local anesthetic, or complications have been encountered and that there has been no greater discomfort or delay in the healing of surgical incisions.

Compass Points

Except in the Arctic and Antarctic regions, the compass needle points approximately the same in both northern and southern latitudes. The needle is actually a small magnet, pivoted so that it can move freely around its center. One end points toward the north magnetic pole of the Earth, which is located on the Boothia Peninsula north of Canada. The other end points toward the south magnetic pole, in South Victoria Land, which is directly south of the eastern coast of Australia.

Heart Disease Kills More Than Is Shown by Records

Heart disease, long recognized as the No. 1 killer, accounts for even more deaths than previously attributed to it.

This is shown in the report of the Institute of Life Insurance on 1950 death rates among life insurance policyholders, for the first time on the new reporting system for cause of death.

Under the new system, the death rate among policyholders from the combined cardiovascular-renal diseases, commonly termed heart diseases, was down last year from 1949. This rate, however, was materially higher than the rate that would have been projected under the old reporting system. In fact, the increase in the heart disease total due to revising the basis was found to be nearly the equivalent of all deaths from automobile accidents.

During 1950, the new International List of Causes of Death was applied to life insurance mortality statistics and this resulted in changes in classification of many deaths, especially where two or more causes were involved. The doctor's judgment in diagnosis became more important in the final classification than the previous rules had permitted.

It's No Crime!

The days when wearing eyeglasses was considered a minor tragedy are gone forever—particularly in the United States. This change is due not only to great strides in the prescribing and making of glasses and fuller realization by the public of the vital functions that they fulfill, but also to the matter of acceptance from a style standpoint. Prominent figures in all phases of life, from sports to politics and from the theater and movies to industry and commerce, wear eyeglasses, and proudly. Both men and women. In fact, many women consider glasses a positive fashion asset. Smart and personalized styling of frames and their individualized fitting—coupled, of course, with lenses precisely suited to your eyes by the wonders of science—have made eyeglasses an American favorite. As one expert told the ladies, when you wear glasses your eyes are done up in veritable picture frames, in contrast to the "nudity" of the eyes without glasses.

Biggest Star

The largest known star is the invisible companion to the star known as epsilon in the constellation Auriga, the charioteer. From changes in the light of the bright star, when it passes behind the companion every 27 years, much information may be obtained. The diameter of the companion is about 2,500,000,000 miles, about 3,000 times that of the sun. It is so large that all the planets of the Solar System out to Saturn could revolve inside it. However, it contains only about forty times as much matter as the Sun, so if we had a piece of it on Earth we would call it a fairly good vacuum, for its density is about a millionth that of air. The temperature is very low (for stars), about 2400 F, so it gives off practically no visible light—only infrared rays.

How To Walk

The experts have some definite ideas on how to walk. You should stride along with the shoulders back, head up and body straight but relaxed, swinging your arms as you stride along. The tread should be firm with toes pointing straight ahead. It's a routine that you might try in your living room for a starter. If you're tired after a long walk—and who wouldn't be—bathe your feet in tepid, not hot, water, and give them an alcohol rub. Then rest with your feet raised higher than your body.
