WASHER-WOMAN AT WORK ... but she's left all the work to Reddy Kilowatt and her automatic clothes washer. Her work is done-she's put the clothes in the washer, that's all there is to it and now, complete with perky little hat, she's going out for the morning. You can go to town-perky hat and alland still be a washerwoman at work, with an automatic electric clothes washer. THE SYMBOL OF MODERN ELECTRIC APPLIANCES

PUBLIC SERVICE

29 YEARS OF GOOD CITIZENSHIP AND PUBLIC SERVICE

Look Under Surface to See Real Worth of Old Dwelling

underneath, and if new roofing, siding, and interior finish are put on an old framework a smart-looking, comfortable home is often the very the result.

discerning house - hunter shouldn't be discouraged by poor exterior appearance. He should pry off a section of old siding to examine sheathing and study, and he should closely inspect the roof deck and rafters, joists, sills, the foundation, and other structural parts.

If the structure, or most of it, is und, chances are good that the use could be rebuilt at consid-

Old houses are like sloppily wrapped packages. What shows on the outside isn't any clue to what's underneath.

The fact is that many old houses are in considerably better shape than they seem to be. They're than they seem to be. They're reconditioned with hexagonally more wornout on the surface than shaped asphalt shingles. Contributing basic weathering ability, fire-resistance, and a choice of solid and blended colors, new asphalt roofing usually can be applied directly on top of the wornout material

To complete the major work on the exterior, the old broken sid-ing boards were covered with new

white siding shingles.
Interior improvements began with new flooring. The remnants of old plaster were removed and insulating board was laid over the plaster lath. New wiring and plumbing and a new heating system were installed.

ALVIN REDIN, MANAGER

You'll be pleasantly surprised at how much an extension adds to the value and usefulness of your present telephone. You'll be pleased, too, with how little an extension adds to your monthly telephone bill how many steps it subtracts from your daily housework.

No matter where you put it, a second telephone in kitchen, bedroom, den or hallway places service always at your fingertips. Greater convenience encourages greater telephone use - brings you greater value for your telephone dollar. That's true at home and at the office, too.

Just call or come by to order an extension telephone installed right away. It's our pleasure.

*For a minimum additional charge, we will be glad to install extension wall plugs in several rooms of your home, enabling you to move your extension telephone from one location to another. Ask about this added convenience.

Only Gas Dries Clothes Faster

... at less cost

Gas for automatic clothes drying is much faster than any other method . . . as much as 15 times faster than the old clothes line routine. Lightweight fabrics are ready to iron in 15 minutes, completely dry in 20 minutes. As for blankets . . . you can count on 4 minutes in a Cas dryer for every hour on the line. And don't forget, it costs less than one cent to dry a load of clothes with Gas. See the modern automatic Gas clothes dryers at your dealer's.

West Texas Gas Company
