County wide Meeting Called to Discuss Grasshopper Control

Johnnie Burson asks the Briscoe County News to announce that a county-wide meeting had been called for Friday night, May 8, to discuss the control of grasshoppers in this county during the coming season.

Two men in the employ of the Federal government will be here on that date and will be qualified to advise local farmers and ranchers on the matter of grasshopper control.

Heavy loss was sustained in Briscoe County last year due to the hoppers, said Mr. Burson, as well as some ten or twelve other panhandle counties. It is feared by many people that the losses will be greater this year unless drastic action is taken at an early date to control the pest.

All farmers and ranchers are urged to turn out for this meeting as it is their personal interest to hear the discussions which are scheduled.

School Receives Award for Part in Clothing Drive

Some few weeks ago you will recall, a drive was made for clothing to be sent to children in Korea and other parts of the world through the schools. Our children and their parents responded in a very fine way and we were able to send eighteen large bags of good usable clothes to the Save The Children Federation.

In recognition of this fine job done by all of us, an award certificate has been received by us for the Silverton Schools.

We are proud of this and feel sure that each of you who helped in any way are glad that you had a part in seeing that some boy or girl had clothing to keep them warm. We want to thank each of you for your fine spirit of cooperation in this as in all other matters pertaining to our school.

M. G. MORELAND, Superintendent of Schools.

"Go-togethers"

Newlyweds and the electric freezer-refrigerator combination are perfect go-togethers.

The small family finds ample storage space in the freezer compartment of the combination, and gains the economy that the big family finds in the home freezer. Roasts, stewing chickens, ham, and other economy meat cuts can be stored and made into individual meals that are both economical and attractive. Thus you end the usual "cooking for two" expense, which usually means expensive "one time" meat cuts.

When there are two, and the marriage is new, it's the freezer-refrigerator for you.
