Uncle Sam made the Bonds you own an even better bargain!

Now Your Maturing Series E Bonds **Can Earn Interest** 10 Years More at 3%!

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually when held to maturity.

The Bond you got for \$18.75 can now pay you \$33.67 a \$37.50 Bond will be worth \$67.34 . . and so on.

Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as \$1.25 a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45!

So join the Payroll Savings Plan where you work today. Or start the Bond-A-Month Plan where you bank.

> If you want to be paid your interest as current incomeinvest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased through any bank, annual limit \$20,000.

Now even better! **Invest more in Savings Bonds!**

\$100 a Month Paid To Youth if He Passes

KNOXVILLE-There have been many strange wills made through the centuries. One of the unusual is the will of Charles Gordon Davis' foster father who left the youth \$100 a month as long as he makes passing grades in school. If young Davis, a high school nore, graduates from col-

amount of monthly payment made Should Davis flunk a subject and

not make it up during summer school, the will cuts him off from the monthly payments or any other share in the estate. These are the provisions of the

will of Charles W. Davis, a Knoxville grocer, who died recently.

Lendon Dog Show Was Started in 1886

LONDON-Cruft's world-famous dog show, originated in 1886 by Charles Cruft, who began his ca reer as a clerk selling dog bis cuits for James Spratt, drew 5,865 entries this year and had 50,000

The first show was held at the Royal Aquarium, Westminster,

Within a few years it became very popular. Queen Victoria exhibited her collies and Pomeranians. King Edward VII sent his basset hounds.

Cruft died in 1938. Now the show is run by the Kennal Club which controls all dog shows and pedigrees in the British Isles.

Boy Earns Own Way HARTFORD, Conn.—A 12-yearold immigrant from Sicily, who now lives in Hartford, is earning his own way in this country.

He arrived in America two years ago. Now he works for both newspapers in Hartford, shovels snow runs errands and does odd jobs He also attends school.

He gets up at 4 a. m. and keeps going steadily until 6 or 7 p. m. His biggest thrill came recently when he withdrew \$150 from the bank and purchased his mother : set of silver as a gift. That's quite a gift for a 12-year-old.
