Mrs. Vaughan Receives Letter From President Ike

Mrs. William H. Vaughan who eight weeks ago celebrated her 102 birthday has recently received the following letter from the President's office:

THE WHITE HOUSE Washington, D. C. March 24, 1954

Dear Mrs. Vaughan: The president was very much interested to hear that you recently celebrated your one hundred second birthday anniversary. He has asked me to extend his personal congratulations and good health for many years to come.

Sincerely,

Ann C. Whitman Personal Secretary to the President

The letter was addressed to Mrs. Vaughan % W. H. Tension, rural mail carrier, to be delivered personally. Mr. Tension had written the President a letter calling his attention to her birthday.

Mrs. Vaughan received over 600 letters, cards and telegrams on this special occasion, which included Congressman Lyndon Johnson, Senator Walter Rogers, Movie Actor Gene Autry. This was the fourth year to receive messages from Lyndon Johnson.

There have been 33 presidents since the Constitution was signed in 1789, and she has lived under 23 of them. She has lived 102 of the 175 years since the signing of the constitution. A piece of Mrs. Vaughan's recent knitting is being forwarded to the President and Mrs. Eisenhower by Mr. Tension.

Mrs. Vaughan was born in Wood County, Texas, she moved to Briscoe County in 1915. Her husband was deceased in 1928. She is survived by a son C. R. Vaughan, Oak View California and Mrs. W. A. Stephens, with whom she resides. She has 165 descendants.

FHA Girls Entertain With Banquet And Dance

Red roses and hearts formed the background for the annual FHA Sweetheart Banquet held last Friday evening in the High School. Tall white candles burned on the banquet tables. The center piece for the speaker's table was made of plastic foam with the letters FHA carved on one side and a holder for red roses and fern on the other side. The place cards were "people" made of hearts and pipe cleaners—the hearts forming the head and base where the name was written and the pipe cleaner forming the legs and arms. Faith Barrett, Chapter President served as Mistress of Ceremonies. Superintendent M. G. Moreland gave the invocation. The FHA girls sang their club song, followed by the High School Sextet who sang "Kentucky Babe" and "You, You, You" sung by the quartet. Virginia Garrison made the presentation of a gift to Norvel Breedlove the chapter sweetheart. Jack Williamson brought a trumpet solo. After a delicious meal prepared by the Homemaking Mothers and served by members of the 8th grade class, a most unique and interesting presentation "Toward New Horizons" was brought by Dr. Willa Vaughan Tinsley, head of the Homemaking department at Texas Tech. She interpreted these new horizons as the stages of boys and girls in family living. She enumerated many of the things a little girl and a little boy like and are, then the adolescent—saying "If you aren't adolescent, you are either under 12 or a parent". In a very humorous way she depicted the young people by picking out members of those present to illustrate her remarks. Places were set for 115 members and guests.

Probably half the people have never given a thought why "April Fool" The kids major interest in the occasion is to play "Hokey" from school, or play some prank on one another. From the Encyclopedia Britannica, the information concerning April Fool comes from Ancient India—the cradle of man's greatest ideas, probably also started the custom of playing practical jokes on the 1st of April. Though the origin of April Fools Day (or All Fools Day) is

disputed, it is believed to have taken place in India as a droll ceremony to mark the end of the spring festival of Huli—at that time a dignified East India will rock with mirth if he succeeds in sending a friend on a foolish errand. April Fool's Day was first observed in England in the 18th Century, and it was later observed by the American Colonist. In Scotland, victims of April Fool's Day are aptly called "Gowks" or Cuckoos, while in France they are not less suitably labeled "April Fish."

MAMA HAS HER SAY
The World As I See It
 Doris Amburn

Heretofore my only experience in the field of journalism took place when, as a new and enthusiastic teacher right out of college, sponsoring the school paper was dumped in my lap. Students' enthusiasm and work was rather spasmodic, so there were times when the sponsor did most of the work. My book knowledge of journalism is still about the same, but the editor of this paper has finally consented for me to try my hand at this little column. I'm not witty, nor do I possess, as far as I know, any special style of expression as taught in the books, but it's my own, however it may be. I thought someone might like incidents and happenings, and most of the time probably just plain thoughts, as seen through the eyes of a woman. From early childhood, the desire to express oneself is very evident, and I still am carrying this urge. I hope you'll understand.

For the present I have thought about giving this column "The World As I See It", because of the interesting things that are taking place around me each day. My work at present takes me to Plainview daily—along with my new and varied experiences as the wife of your local newspaperman, plus my own work and interests, I just had an urge to share some of my thoughts. If the reaction is too bad I'll stop!

Topics For Discussion

Few people deny that intelligence governs the universe. It matters not what you call this intelligence, Providence God or Nature, it is still the directing power. But the thing that we fail to realize is that our own minds are a part of this directing force in the same way that the rays of sun are a part of the Sun. A drop of water from the ocean has all the properties of the great bulk of water from the ocean, and a spark of electricity has all the properties of the thunder bolt. Having that power, we have only to realize it and use it to get from life any good we desire.

Man's principal business in life, it to contact that divine power and acquire an understanding of the power that is within him. Solomon said: "with all thy getting, get understanding."

"Happy is he man that findeth wisdom, and the man that getteth understanding. For the gaining of it is better than the gaining of silver. And he profit thereof than fine gold. She is more precious than rubies: And none of the things thou canst desire are to be compared unto her. Length of days is in her right hand: In her left hand are riches and honor. Her ways are ways of pleasantness, and all her paths are peace. She is a tree of life to them that lay hold upon her. And happy is every one that retaineth her." — Proverbs.

Mr. and Mrs. J. V. McCarty, Don and Glenna Mercer, of Phillips, visited Mr. and Mrs. H. C. Mercer and other relatives here from Friday evening through Sunday. On Saturday both families were dinner guests of Mr. and Mrs. Frank Mercer and family. Mr. and Mrs. H. C. Mercer are parents of Mrs. McCarty and of Frank Mercer.

Are YOU STEALING from YOUR TOWN?

Through a misguided sense of economy members of our town often shop in a neighboring city instead of here at home. Believing that better bargains are to be found elsewhere than with our own merchants they spend their dollars out of town. Thus Silvertown is deprived of the dollars it needs to build progress and prosper.

We invite you to first shop our local stores for all your needs. In them, we are sure, you'll find the bargains you are looking for. By so doing you'll save yourself time of travel, extra dollars and will serve your community by keeping "hometown dollars" at home where they will do the most for you and your family.

WRITE YOUR CONGRESSMEN

Write your legislator — he is any man you elected who can pass a law that governs you.

Write him, tell him what you think, ask him what he thinks. He will appreciate hearing from you whether he has time to answer or not. Every Congressman would rather have a personal letter from a voter back home than a desk full of signed petitions from pressure groups.

He can't read your mind, you have to tell him what you think. You owe your county more than just voting on election day. Watch your newspapers for pending legislation.

Then, write, write your congressmen, write your legislators. Let him know what you think—ask him what he thinks. Write

REAL VICTIMS OF ALCOHOLISM—THE FAMILY

A better view of the seriousness of the alcoholic problem may result from ignoring the individual alcoholic and considering the damage done to his family. Everyone is concerned about the child whose father is in an iron lung or in a TB sanatorium for months, but little thought is given the child who is exposed to the constantly repeated emotional storms and insecurity resulting from alcoholism.

How serious is the problem of alcoholism? How many alcoholics are there in Texas? No one knows exactly, but there are many clues which point at the magnitude of the problem. It is certainly so extensive and expensive that it should no longer be ignored or dismissed as a matter of individual responsibility.

Mr. and Mrs. Farris Martin and children were Sunday visitors with her mother, Mrs. C. O. Washington, in Tulla. They also called on her brother and wife, Mr. and Mrs. Omer Jr. Washington, who were recently married; she was the former Bernice Hinstey, of Floydada.

HOW MUCH DO YOU KNOW ABOUT YOUR MORTGAGE?

RELATIVE DIES AT ALVARADO

Carl and Stanton Crow received word that their sister in law, Mrs. Eula Crow, of Alvarado, Texas, had died Friday evening. Mr. and Mrs. Stanton Crow went to Alvarado on Saturday. The funeral was held in Alvarado on Sunday.

Pvt. Stanley Price, of Fort Sill Oklahoma, spent the week end here with his parents, Mr. and Mrs. Henry Price. They all made a business trip to Lubbock on Saturday.

This is the time of year to commence fertilizing the farm pond for top fishing later. The use of fertilizers makes growing fish by the acre possible and profitable.

Which is a Luxury?

One of these items is not a luxury. The excise or "luxury" tax which the government collects on liquor, tobacco and entertainment is also levied on the household dryer and ironer. The yacht is tax-free. When you buy a dryer or an ironer 10 per cent of the cost is "luxury tax." The government collects this tax because these household necessities are classified as luxuries.

There are still more than 40 million American homes without a dryer or ironer. The American Home Laundry Manufacturers' Association is appealing to Congress to remove this tax. Do you think this is a fair tax? You can have it repealed. Send a letter, post card or telegram to your Congressman in Washington today. Tell him what you think of this tax. He would like to know.

ANNOUNCING PHILLIPS 66

A PHILLIPS EXCLUSIVE! Now, for the first time, you can enjoy the benefits of the super aviation gasoline component—Di-isopropyl (pronounced di-iso-pro-pull). No other gasoline has this super power ingredient. It is available only in Phillips 66 Flite-Fuel.

They were needed to give our planes a tremendous power surge in aerial combat. Now military authorities have released restrictions on the use of these power-packed aviation gasoline components. So Phillips is able to use not only Di-isopropyl but also HF Alkylate, both originated and first manufactured by Phillips. That's why Phillips can bring you this great new gasoline—Phillips 66 Flite-Fuel.

YOU GET ALL THESE BENEFITS:
• Increased power
• Smoother acceleration
• Greater fuel economy

• Freedom from stalling

PLUS
• Famous Controlled Volatility and the extra clean burning features of Phillips 66 Gasoline

Local Farmers Can See New IH 10 Speed Tractors At Crass's

Local farmers can see one of the two revolutionary new 4-Row tractors recently introduced by International Harvester Co., Mr. T. T. Crass has announced. The new models contain a new tractor drive unit that instantly boosts pull-power up to 45 percent on the go, Crass said. The new models also contain a new power take-off that is completely independent of the forward motion of the tractor. When combined with the new torque amplifier drive, operators can decrease or increase tractor travel speed without shifting gears and at the same time, keep the drive machine at uniform speed. The two new tractors are the Farmall Super M-TA, and McCormick Super W6-TA. Both series include gasoline and Diesel engines. The Farmall series includes a high-clearance model. The new torque amplifier tractor drive unit is a planetary gear speed-reduction unit between the engine clutch and regular transmission. It gives the big tractors an additional speed in each of their forward and one reverse gears. This means that each tractor has 10 speeds forward and two in reverse. "The TA unit and new independent pto makes a mighty handy combination," Mr. Crass said. "You can slow the tractor while on the go for handling bunches in the windrow when baling, down grain when combining, and heavy patches in the stand when chopping corn or hay."

4-H Boys Did Good At Plainview Fat Stock Show

Briscoe County 4-H Boys did very good at the Plainview Fat Stock Show with their barrows and calves. This is a regional show open to 10 South Plains Counties.

Donnie Stephens of the Silverton 4-H placed second with a heavy Duroc barrow. Other high placing went to John Howard Burson on a light steer that placed 3rd in a class of some 25 steers.

Boys entering and placing in the show were: David Tipton Silverton 4-H 5th on a heavy Hampshire barrow and 8th on a heavy Duroc barrow. Donnie and Elaine Stephens had another barrow to place 7th. Randall and Verlon Hamilton of the Quitaque 4-H placed 5th and 6th on another pair of heavy Duroc bar-

rows. Burson's steer brought 36c per pound and the top three barrows all brought 31c per pound. The remainder of the barrows sold for 26.50. The boys cleared from 35 to 50 dollars per barrow as their record books show. The boys paid from 13.50 to 17.50 for the pigs when they were 8 weeks old. A good record for a bad year.

It Is Time To File For Cotton Acreage Premeasurement

Briscoe County cotton growers can arrange for official measurement of their 1934 farm cotton-acreage allotments prior to planting time, the County Agricultural Stabilization and Conservation Committee announced this week.

To get the premeasurement service, which is being provided on a cost basis, a cotton farmer must file a written request with the county ASC office prior to May 1, says Mr. Fred Mercer, committee chairman. The rate to be charged for the service in Briscoe County has been established at \$5.00 per farm plus \$2.00 per plot over one, and payment based on this rate must be made at the time the request for measurement is filed.

"The premeasurement is purely optional," says Mr. Mercer, "and is offered as a service to growers who prefer to have an official measurement to use as a planting guide."

The chairman explains that all cotton acreage in the county will be measured as soon as possible after the cotton "Comes up" to determine compliance with the acreage allotment-marketing quota program. When compliance is checked, the farm will be con-

sidered to be within the farm acreage allotment of the crop is planted within the premeasured area.
