Rain Fall And Hail Widely Scattered Here Tuesday

Rain and hail struck Silvertown Tuesday in mid afternoon. Rain fall in Silvertown was .77 according to Ray C. Bomar. There were two periods that hail peppered down all sizes of hail stones here in Silvertown. There was no reported serious damage here in town. The rain and hail in the Silvertown vicinity varied greatly, according to Robert Ledbetter, county agent. Rock Creek area reported light rain and hail with 2 to 3 of moisture. Earl Cantwell and Edwin Crass in this area reported only light showers.

Robert Isbell near Whately reported that he had cotton up and a good stand, that was hailed out. Rain was heavy there. The heavier rains and hail fell South and East of Silvertown varying and scattered. Johnnie Burson received 1.25 at the Burson Ranch north east of town.

L. V. Vaughn, brought some mighty big stones into town for display. He had several stones that measured 10 inches around and one that measured 11 1/4 inches. Lots of hail and 60 of rain with little to no damage to building and growing crops, was his report. He lives 9 1/2 miles south east. Carver Monroe reported large hail stones but only slight damage at his place, with rain about like here in town.

The report seemed to be an inch of rain with hail amounts varying considerably east of town. There had been several instances of hail damage but did not cover extensive area. Some wheat fields that were ripening were damaged.

Ray Bomar gave 3.69 as the day total rainfall. Antelope Flat received heavy rains last Sunday afternoon, they were reported to have fallen hard and fast, much damage was done in that area. Terraces were washed out leaving the fields in bad shape for farming.

Robert Ledbetter said that there were several pastures with grass hopper infestation and that pastures and fence rows should be checked, and sprayed as soon as all eggs have hatched. That the young hoppers would start moving in on young tender plants if they were kept under control.

Farm Improvement Program Recently Organized Here

A Silvertown Farm Improvement Program, designed to acquaint the public with local problems, and to promote fellowship, has recently been set up. This program is being promoted and sponsored by the Briscoe County Farm Bureau, Extension Service, Silvertown Bank and Business Men. July 1 is the date set for the first program and the program will include a fish fry. Cotton John Smith from station KGNC Amarillo will be the Master of Ceremonies. "Entomologist for Cotton Insects" will be discussed by a representative from A. & M. College; "Farm Credit and Banking", by the First State Bank of Silvertown; Hub King, State Director Farm Bureau, from Brownfield, will participate on the program. "The Problems of Storage for Grain Sorghum" will also be discussed.

The public will be invited. Plans are being made to sponsor three or four programs of this type during the year.

Bids To Be Let For Two Briscoe County Roads In July

Contract for completing the highway to Memphis, which is designated as highway 256, will be let in July. This information was received recently by County Judge J. W. Lyon, Jr. from Bill Hamm, senior resident engineer, of Childress. Mr. Hamm stated in his communication that; "We have just received information to the effect that the unfinished portion of State Highways 256 and 70 will be let in the July letting."

Farm to market highway 70 will be let at the same time. This will be a strip which will connect highway 256 to Turkey.

Farwell Tot Goes For A Ride

Farwell, May 28 — The car came around the corner, hesitated, then ran up into the front yard on the Martin residence here. Mrs. Mabel Martin went out to welcome the visitor.

At the wheel she found Ronny Dale Graham, age 1, a blue-eyed cotton-top who belongs to Mr. and Mrs. W. H. Graham, Jr. of Farwell's State-Line Tribune.

The engine of the Chevrolet sedan was running. The driver, chugging in the manner of Grundoon Groundchuck, was struggling with the transmission control lever. No one else was in the car.

As Mrs. Martin ran to the car, Ronny's grandmother, Mrs. W. H. Gaham, hove into view. Presently she recovered her breath and explained:

She had left Ronny in the front seat when she stopped for a few minutes at a neighbor's house. The motor was running and the transmission lever was in the "park" position. Ronny, accustomed to sitting in his father's lap and "driving" on occasion, did the rest. The car had gone a block, turned a corner, straightened out, and turned into the Martin's yard.

"Birtgix nx ll," said Ronny, reading from a prepared manuscript as he met newsmen after his exploit. Which means, "No trouble at all."

Ronny Graham is the grandson of Mr. and Mrs. Milton Dudley, Silvertown. We have heard that Milton says that since he is in politics this year he has no comment to make on his grandson's latest escapade.

Local Softball Team Now In Lockney League

The Silvertown Softball team has been voted into the Lockney Softball league. There will be eight teams in this league this year. Two are from Lone Star; Frizzell and Co-op. Three Lockney teams; Lockney Fire Boys, American Legion of Lockney, and Lockney High School. Beedie's team from South Plains, and the Silvertown Softball team will compose the league.

Buddy Travis is manager, and Glynn Bunch Assistant Manager of the Silvertown Club.

The first game was called off last Tuesday night with Frizzell team from Lone Star, because of rain.

The second game is scheduled with Lockney Fire Boys for Friday night.

NOTICE:

There will be a meeting of the Softball League Monday night June 7, at 8 p. m. in the County Courtroom. Everyone is urged to be present.

F. F. A. Meeting Monday June 7

First Regular monthly F. F. A. Meeting will be held Monday, May 7. It is to be at 8:30 P. M. in the Agricultural Building. Glynn Bunch, Agg. teacher stated that this was a very important meeting and that all Agg. students are requested to be present.

Bride To Be

Mr. and Mrs. Roy Mayfield announce the engagement and approaching marriage of their daughter, Donna, to Joe Wayne Brooks, son of Mr. and Mrs. Joe Brooks. The wedding will be read on Friday July 2, in the home of the bride's parents. Both Miss Mayfield and Mr. Brooks are students at West Texas State College Canyon.

Game And Fish Meeting Slated For Tuesday Night

A meeting important to hunters, fishermen, and landowners will be held in the County Court room, County courthouse, Silvertown at 8:00 P. M., June 8th.

Representatives of the Texas Game and Fish Commission will hold a public hearing on proposed regulations to be recommended to the commission for adoption at its July meeting. Biologists will review their findings and explain the current status of game species.

Public discussion will be invited, and resolutions from the floor will be transmitted to the Commission for consideration.

There will be a free showing of a wildlife motion picture, and the general public, including children, is invited to attend. For information contact Woody Pond, State Game Warden, Canyon, Tex. Box 801, Phone 5-3950.

To The People Of Briscoe County

I wish to take this means of advising you that it will be necessary for me to be away from Briscoe County for the next two or three weeks as I will be engaged in operating my combines in the wheat harvest.

To those whom I have failed to contact in regard to my candidacy for the office of Sheriff and Tax Assessor-Collector of Briscoe County, I want to say that I will make every effort to personally see you and solicit your vote prior to the July Primary.

Yours very truly,
JOHNNY LANHAM

Bonnie Lee Smith Rites Spoken Here Monday Afternoon

Funeral services were conducted at 2:00 p. m. Monday May 31 at the Church of Christ, for Miss Bonnie Lee Smith, daughter of Mrs. Ellen Nancy Smith and the late Ben Franklin Smith.

Miss Smith was born on March 16, 1902. She moved to Briscoe County with her parents at the age of 12. They settled in the Rock Creek Community in 1914, and lived there until 1919, when they moved and settled North of Silvertown where she lived until 1952, at that time she and her mother moved into Silvertown where she resided at the time of her death. She died at 1:30 p. m. on May 30, after a long illness.

She had been a member of the Church of Christ since early childhood.

She is survived by her mother, Mrs. B. F. Smith of Silvertown; four brothers, V. C. Smith, Eldorado, Arkansas; D. D. Smith of Thorp Springs, Texas; Varderman Smith of Pampa; and W. E. Smith of Myrtle Creek, Oregon; and many relatives and friends.

Interment was in the Silvertown cemetery under the direction of Douglas Funeral Home.

Lions Club To Meet Thursday Noon In City Park

The Lions will meet Thursday noon in the city park. The meal will be served by the E. S. A. The reason for the change in the meeting place was due to the Church School now in progress at the Methodist Church.

Monday Will Be Dollar Day

You may not find the most or the biggest selection of Dollar Day Specials in the Briscoe County News but you will find some mighty good ones.

Merchants sometimes hesitate in running Dollar Day specials. The reasons they give are various. Some have said that Monday Dollar Day buying is not large enough. Other say they can not find the time for preparing and figuring out specials.

You will realize that if merchants are to offer you specials, it will be necessary for them to sell in accordance.

I know that they sure do appreciate it when you come in to shop on Dollar Day. I also know that they have a lot of fine merchandise right there in their stores at a price that is hard to beat. If you will trade at home on Dollar Day I think you will find that your Dollars will help to build Silvertown in to the trade center that you desire.

Political Rally And Entertainment For Friday Evening

A Political Rally and Pie Supper, sponsored by the Century of Progress Study Club, will be held in the High School Auditorium, Friday, tomorrow evening, June 4.

Of special interest to all will be the presence, of not only our local candidates, but out-of-town candidates also.

A one-act comedy "Don't Tell a Soul" will be presented by the sponsoring club, and there will be an auction of pies. Pie and cold drinks will be on sale for those desiring refreshments at the Rally. Earl Cantwell will be the auctioneer.

The public is heartily urged to attend—not only to get acquainted with the candidates, but to enjoy an evening of fellowship. The proceeds will go into the club funds for a community building.

Robert Hill And John Schott To Attend 4-H Round Up

Robert Hill and John Schott, Briscoe County 4-H Club boys, will attend the Annual 4-H Club Roundup and Shortcourse to be held at Texas A.M. College June 7 - 11. The Briscoe County Farm Bureau is sponsoring these boys to the Roundup.

The 4-H Roundup is the Outstanding event each year that 4-H Members attend. Robert and John are able to attend by having done the best 4-H Club work and keeping a record of this work. Their records were judged the best in the County. Both have been active members and have been the leaders in their club. Robert and John were members of the Livestock Judging team this year as well as being on a Soil Conservation Demonstration Team.

1600 4-H Club Boys and Girls will attend this event. There will be 19 subject matter shortcourses. John and Robert will take courses in Livestock, Wildlife and Recreation. These activities will keep the delegates busy through the day. Tuesday Night the group will enjoy the Share The Fun Festival. Wednesday night there will be a chuck wagon feed, and Thursday night the Recognition Banquet. These boys along with County Agent, Robert Ledbetter, will return Friday.

Mrs. Phines Colb Buried At Sulphur Springs, Texas

Mrs. J. C. Turner has received a letter from Mrs. Dee Causey giving details of the death of her sister, Mrs. Phines Colb, of Sulphur Springs. Mrs. Colb passed away on Friday, May 7th, of a heart attack which she had suffered probably about 24 hours earlier.

She was apparently well when her daughter, Evelyn, and her husband left the Colb home Wednesday and had attended church that evening. She was seen putting bedding out to sun early Thursday but was not seen again that day and failed to answer when various callers knocked at her door. A neighbor investigating when he observed that the bedding was still outside early Friday. He found Mrs. Colb lying across the bed unconscious. She lived only a short time after reaching a local hospital.

The Colb family formerly lived at Silverton but moved to Sulphur Springs several years ago.

Mr. and Mrs. Virgil Baldwin took his mother, Mrs. Frank Baldwin, to her home in Sentinel, Oklahoma, on Sunday. She had been here for some time.

Were You Lucky During April?

If you were stopped by a Texas Highway Patrolman during the month of April for an infraction of the traffic laws--you had a lot of company. As a matter of fact you had exactly 34,686 other folks in the same boat with you.

You could have been "lucky", though. You might have been one of nearly half of the total who got a warning ticket instead of an arrest ticket. And you might not have been involved in one of the 13,496 accidents during the month. Better than that--you might not have been one of the 6,840 persons injured in traffic accidents in April. And one thing is sure...if you're reading this you're really fortunate because you weren't among the 168 killed in Texas traffic during the thirty-day period.

"Our men always give two or three times as many warnings as they do arrest tickets," Walter J. Elliott, Chief of Texas Highway Patrol, explained. "But sometimes we wonder if we're really doing the motorist a favor when he is released with merely a warning. We always hope the warning will work; that is, that it will keep the driver from repeating his error, but many times a Patrolman is called to investigate a fatal traffic accident and the driver of one of the cars is a fellow to whom he gave a warning a couple of hours earlier. Maybe an arrest would have saved a life. Maybe. I don't know."

Electric Ranges, FREE!

And you have a wonderful opportunity to win one of them. Feature Attraction is holding forth now at your Reddy Kilowatt Electric Appliance Dealer. He wants you to come in and have a complete demonstration of his electric range. After you have seen the many features of the electric range in action--features that make it the modern cooking method--you just pick the feature that most appeals to you,

and tell why it does in 25 words or less. That's your entry in Feature Attraction, and your opportunity to win one of the six free ranges.

It's easy to enter Feature Attraction, because it's easy to find outstanding features on an electric range. Electric cooking is easy, too, as you'll discover after you've seen it in action.

Look for the Reddy Kilowatt Dealer sign, and the "It's Feature Attraction Time" window streamer. That's the place to enter the big Feature Attraction Contest.

HERE ARE THE RULES...

Have your Reddy Kilowatt Dealer give you a complete range demonstration. Pick the feature that most appeals to you, and tell why it does in 25 words or less on the entry card that he will give you. Leave your entry with the dealer.

Entries will be judged on originality, sincerity, and aptness of thought, and all entries become the property of Southwestern Public Service Company. Your entry must be in by June 12, 1954.

Six ranges will be given away free. If a winner buys a range during the campaign, the purchase price will be returned. Dealers, distributors, SWPSCO employees, and their families, are not eligible for Feature Attraction.

FHA To Be Directed By Secretary Benson

Measures to speed up and further improve Farmers Home Administration services to farmers have recently been developed in Washington under the direction of Secretary Benson, T. T. Perkins, State Director at Dallas, said today.

Mr. Perkins had just returned from a meeting at Oklahoma City where the new steps to decentralize and streamline agency operations were explained by Washington officials. L. A. Mechemehl, Jr., W. M. Burkes, and the State Field Representatives also attended the meeting.

In accordance with Secretary Benson's policy of placing more control of agricultural programs in local hands, many of the decisions formerly made in state offices will now be made in the counties. County Supervisors, the employees who deal directly with the farmers, will have final approval on a larger number of loans and will have more authority in working with other creditors and in taking steps to help borrowers solve their financial and farming problems.

Greater use will be made of state and county committees. New state committees, to be appointed in the near future, will be called upon frequently to review agency operations and make sure they are efficiently serving local needs. County committeemen will be relied upon to an even greater extent than in the past to help adapt national policies to local needs.

Services of other public and private organizations will be used to the maximum extent possible. County home demonstration agents will help Farmers Home Administration borrowers with their family living problems. Every possible step will be taken to make sure that no government funds are advanced when private or cooperative credit is available to meet the needs. Lenders will be urged to supply funds for insured farm ownership loans.

State Directors and their staffs are being urged to increase their efficiency by eliminating every unnecessary step and doing a perfect job the first time.

Measures already taken by the agency to render better service at less cost include the reorganization of the national, area finance, and state offices which resulted in saving of more than

\$1,500,000. Aduplicate set of files on 60,000 real estate loans has been eliminated as well as all of the work formerly performed by state officers in reporting borrowers progress.

A number of additional improvements were discussed at the meetings that will place more authority in the hands of county supervisors, make the programs easier to operate, and enable the agency to serve more farmers than in the past. Most of these revisions are already in the hands of field employees and will soon be in full effect.

To expedite real estate loan making the engineering and appraisal services of the agency will be placed in county offices, closer to the farmers to be served. Engineer appraisers were formerly stationed in state offices.

Practically all property insurance matters have been transferred from state to county offices.

The agency's emergency loan program was stressed at the meetings. State Directors and their staffs were told to move into an area whenever a drought or a flood strikes and when the crisis has passed to move out again as quickly as possible.

None of the basic policies under which the agency operates are being changed. The same amount of emphasis is placed on helping farmers obtain adequate land and equipment resources, develop good systems of farming, and adopt proper farm and home management practices.

Today's work that is put off until tomorrow probably got the same treatment yesterday.

The World As I See It

Doris Amburn

This is not just Springtime in Brown County, but fruit time.

As I was coming cross country Friday, I got to thinking about fruit, and my mouth began to water. As a kid, I may have been minus a few nickles for ice cream, but unless mother nature failed, was not minus the particular pleasure and treat of going out into our own yard and feeling of, and inspecting every peach that I cared to eat.

My folks had one particular tree - which must have been the only one of its kind! We never did find anyone else who had one like it. It's fruit ripened about this time of year, and it's goodness depended upon it's being plucked just at the right

time, so we would at first have to give a slight mash to see if they were ready to pick.

Living during my early days in a fruit country, I especially enjoyed tree-ripened fruits; however, the number I ate as a youngster should have produced an allergy or dislike.

Gathering fruit was our way of providing our personal money. We would begin with the dew and blackberries which ripened in May and June, then gather the jelly plums - (and if you haven't eaten any of these you have missed something too), and if the freezes held off - the peaches.

Those were good days - days filled with fun and fellowship. The actuality of the pre-dawn rising, coming in at noon with a dirty house staring you in the face (fruit must be gathered in the cool hours or else it mashes in your hand) with dinner to cook etc - gives way to the memories of the friends made and the happy carefree days of just growing up.

I'm no cobbler cook myself, but I have strong memories of how good those first fruits of the season tasted when made into juicy cobbles, with tender, brown crusts, and plenty of butter! There's one thing I betcha, if I were home again, I'd be enjoying some more of them too.

"SO UPSET BY 'CHANGE OF LIFE' I SCREAMED AT MY HUSBAND!"

Are you going through "change of life" . . . suffering the "hot flashes," nervous tension, irritability, weakness and other types of functionally-caused distress of this difficult time?

What Doctors' Tests Showed! Then . . . here's home for you! In tests by doctors, Lydia Pinkham's Compound and Tablets gave relief from such distress in 63% and 80% (respectively) of the cases tested. Complete or striking relief!

Surely you know that Lydia Pinkham's is scientifically modern in action! You know what it has done for others!

But do you know what it will do for you? Not if you haven't experienced the relief of tension, "flashes" and irritability it so often brings at such times!

Before another day has passed, try Lydia Pinkham's Vegetable Compound or new, improved Tablets with added iron . . . and discover how much easier your "change of life" may be!

Younger women and girls—suffering from functional pains, monthly cramps and distress of menstruation—find Pinkham's wonderful tool! It contains no pain-deadening drugs!

It acts through sympathetic nervous system to relieve distress of "hot waves"!

SCIENCE and your Health
KILLING PAIN
By Science Features

A science in its own right, anesthesia has kept up with other medical advances and enables surgeons to perform operations that once were considered impossible. An anesthetic is a substance that makes surgery painless. It must be given properly as incorrect administration can lead to serious complications. Therefore many doctors, called anesthetists, specialize in the study and administration of these pain-killers.

Anesthesia is almost completely an American contribution to medical science. Prior to its application to surgery about a hundred years ago, wine, whiskey and opium were the common but inadequate means of preventing pain.

Now, there are many types of anesthetics: general, spinal, regional block and local. The general ones, such as ether, laughing gas and chloroform are administered in a gaseous form and are breathed in by the patient. They usually result in absence of pain and complete unconsciousness.

Local anesthetics such as procaine are injected into one part of the body, and although the patient remains conscious, that area becomes so numb that the doctor or dentist can work without producing pain. There are also substances that can be injected into the lower spine or into other nerve roots that cause lack of sensation in certain related regions of the body.

Selection of the anesthetic depends upon the type of surgery to be performed and the condition of the patient. All anesthetics, however, have three main objectives: to make the operation painless, to thoroughly relax the patient and to avoid any damage or harm.

How Well Do You Know Coffee?

Coffee trees bear white flowers which resemble orange blossoms and have a heavy, jasmine-like fragrance. A coffee farm in full flower is a scene of breathtaking beauty.

Because ideal coffee growing climate is between 65 and 75 degrees the plants are extremely sensitive to frost. They also need plenty of water and moderate sunshine. Last July, millions of trees were destroyed by freakishly low temperatures in Brazil.

The fruit of the coffee tree is called a cherry and resembles our edible cherry. It takes 5 years before the tree matures. It then bears about 2,000 cherries, each of which must be hand-picked.

1 lb yields 1 lb of coffee

1 lb makes 40 cups of coffee

It takes the entire crop of one coffee tree to produce a single pound of roasted coffee!

Recent Guests of Mrs. Avis Cowart

WANT 3 EXTRA PIGS PER LITTER?

Ever figure up what 3 extra piglets per litter would do your profits?

HEALTH HINT FEED BIRDS BUT DON'T FEED WORMS

I don't blame folks for balk at catching pullets on range give them worm capsules. Worming with Check-R-Ton Granules you don't have all the fuss. Yet, Check-R-Ton worms without upsetting birds.

We just saw a report on pigs being raised at the Purina Research Farm. Sows over there have been weaning an average of 9.17 pigs per litter right along. But the average sow, on the average farm, is weaning only 6.44 pigs. That means Purina sows are weaning almost 3 extra pigs per litter.

They explain it this way: In poorly fed sows, embryo pigs are resorbed, so fewer pigs are farrowed. Many pigs alive at birth, are so small and weak they cannot survive.

We know a lot of local sows, conditioned on Sow & Pig Chow, are weaning big litters, too.

THE WELCOME MAT IS OUT

We are looking forward to visit from you. Come in and get acquainted. We've had a lot of experience in helping you around here with their feed and management problems. We be we have information that help you, too. Make it soon!

Legal Terms Have Exact Meaning

The average person seldom needs to exercise any great degree of caution in selecting the words and phrases which he uses to communicate his ideas to others. We usually give voice to the first appropriate words which come to mind, and then make use of additional explanation to clarify our expressions if necessary.

In legal documents, however, words must have exact meanings in order that they may be uniformly interpreted by the courts. Lawyers naturally become accustomed to this situation, and frequently use terms which have a definite meaning to them, but which do not always convey the same meaning to laymen.

Below are explanations of several terms commonly used by attorneys. Exact definition has not been attempted, as this would take too much space and would involve use of other terms having a legal meaning which might not be entirely clear. However, you will find below a general idea of the meanings involved. See how these correspond with your own definitions.

Real Property. Real property consists of land and includes generally buildings, fences and other improvements erected upon or attached thereto. Also generally included within the term are trees and crops growing upon the soil.

Personal Property. This term ordinarily includes movable possessions of a person which are not so attached to the soil as to become real estate. Stocks, bonds, notes, livestock and household furnishings which are not firmly attached to or made a part of the house itself, come within the ordinary meaning of the term.

Community Property. In Texas community property includes all property acquired by a husband or wife after their marriage, except such items as may be obtained by one of the parties through gift or inheritance.

Separate Property. This phrase covers property owned by either husband or wife before their marriage, and such real or personal property as either may acquire after marriage by gift or inheritance.

Trust. A trust occurs where one person holds the legal title of real or personal property for the benefit of another person. For example, a husband may direct in his will that after his death certain property shall be held and managed by some corporation or individual, with income going to his widow. In such a case the person holding legal title and control of the property is known as a trustee.

Another type of trust is sometimes called a spendthrift trust. This is an arrangement whereby one sets up a certain sum of money to be given out to another at a definite rate per month or per year, or under definite and definite restrictions. This type of trust is generally used in wills where a person desires to leave money to an individual, but feels that the individual is not capable of properly caring for the money and that if left to them in full that the party receiving the money will spend and waste the money and not receive the maximum benefit from it.

There are certain technicalities in setting up such an arrangement, but in a proper case they will preserve to the beneficiary a definite income, and see that the principal estate left to the beneficiary is not wasted.

This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.

Mr. and Mrs. M. G. Moreland went to Corpus Christi last week with their son in law, Mr. Bill Cox. They were accompanied by Mrs. Neely Cox, Bill's mother. Mrs. Bill Cox was unable to accompany them as she was on active duty as Home Economics teacher in the Lubbock High School.

On the way home they visited Pfc. and Mrs. Morris G. Moreland at Fort Hood.

Mrs. C. C. Garrison returned home on Sunday. She had spent several days in Wichita Falls with her daughter, Cleo, and family. She had come to Matador on Friday and was a guest of her sister, Mrs. T. J. Darsey, until Sunday when Mr. Garrison went down and brought her home.
