## Briscoe County Polled Heavy Vote In Primary

There was a very strong vote cast in Briscoe County last Saturday as one of the largest groups made their way to the polls. Voting started off brisk in Silverton when the polls opened Saturday morning and continued strong throughout the day.

All county contest were settled with the exception of the Sheriff's race. There promises to be a closely contested runoff for the sheriff's office between Raymond Grewe incumbent and A. L. Morris.

Three of the four commissioners races were contested and all three proved to be close races. All of the incumbent's were returned to office.

In the commissioners race in precinct one Lige Watters received 129 and H. A. Bomar 149. In precinct 3, J. L. West 158 and Alton Steele 184. In precinct 4, Roy S. Brown 100, and Milton Dudley 114.

In the Sheriff's race, Alvie Mayfield 150, Johnny Lanham 295, A. L. Morris 318, and Raymond Grewe 475.

In the Governor's Race, Davis 25, Holmes 33, Yarobrough 540, and Shivers 604.

There were 1259 ballots polled in Briscoe County last Saturday. This was 151 more than there were paid poll taxes. 1,093 receipts were issued to voters. This means that more voters and undervotes than there were those with receipts that failed to vote.

The people of this county certainly should be commended for turning out and voting. Briscoe County should be eligible for the Plaque that the Amarillo News offered for the county polling the largest percentage of voters.

### Thank You

I wish to thank the people of Briscoe County and especially the voters of Precinct No. 3 for the support and vote given me in Saturday's Election.

I want to express my sincere appreciation to my opponent for the clean fair race he ran.

Sincerely,  
Alton Steele

Section 8. The Governor of the State of Texas is hereby directed to issue the necessary Proclamation for said election and to have same published as required by the constitution and laws of this State.

**SENATE JOINT RESOLUTION NO. 10** — proposing an amendment to the Constitution of the State of Texas creating the State Building Commission and determining the membership thereof; creating the State Building Fund; providing for the surplus in the Confederate Pension Fund to be transferred annually to the State Building Fund; providing for the expenditure of such fund under the direction of the Legislature; providing for the expenditure of a limited amount of the building fund for the erection of memorials under certain conditions and limitations; providing for an election thereon, the proclamation of such election, and the form of ballot.

**BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:**

Section 1. Article III of the Constitution of the State of Texas shall be hereby amended by adding thereto a new section to be known as Section 51-b and reading as follows:

"Section 51-b. (a) The State Building Commission is hereby created. Its membership shall consist of the Governor, the Attorney General and the Chairman of the Board of Control. The Legislature may provide by law for some other State official to be a member of this Commission in lieu of the Chairman of the Board of Control, and in the event said State official has not already been confirmed by the Senate as such State official he shall be so confirmed as a member of the State Building Commission in the same manner that other State officials are confirmed."

"(b) The State Building Fund is hereby created. On or before the first day of January following the adoption of this amendment, and each year thereafter, the Comptroller of Public Accounts shall certify to the State Treasurer the amount of money necessary to pay Confederate pensions for the ensuing calendar year as provided by the constitution and laws of this State. Thereupon each year the State Treasurer shall transfer forthwith from the Confederate Pension Fund to the State Building Fund all money except that needed to pay the Confederate pensions as certified by the Comptroller. This provision is self-enacting. The State Building Fund shall be expended by the Commission upon appropriation by the Legislature for the uses and purposes set forth in subdivision (c) hereof."

"(c) Under such terms and conditions as are now or may be hereafter provided by law, the Commission may acquire necessary real and personal property, salvage and dispose of property unsuitable for State purposes, modernize, remodel, build and equip buildings for State purposes, and negotiate and make contracts necessary to carry out and effectuate the purposes herein mentioned."

"The first major structure erected from the State Building Fund shall be known and designated as a memorial to the Texans who served in the Armed Forces of the Confederate States of America, and shall be devoted to the use and occupancy of the Supreme Court and such other courts and State agencies as may be provided by law. The second major structure erected from the State Building Fund shall be a State office building and shall be used by whatever State agencies as may be provided by law."

"Under such terms and conditions as are now or may hereafter be provided by law, the State Building Commission may expend not exceeding five (5%) percent of the moneys available to it in any one year, for the purpose of erecting memorials to the Texans who served in the Armed Forces of the Confederate States of America. Said memorials may be upon battlefields or other suitable places within or without the boundaries of this State. The authorization for expenditures for memorials herein mentioned shall cease as of December 31, 1965."

"Under such terms and conditions as are now or may hereafter be permitted by law, the State Building Commission may expend not exceeding Thirty Thousand (\$30,000.00) Dollars in the aggregate for the purpose of erecting memorials to the Texans who served in the Armed Forces of the Republic in the Texas War for Independence. Said memorials may be erected upon battlefields in cemeteries, or other suitable places within

or without the boundaries of this State. The authorization for expenditures for memorials here in mentioned shall cease as of December 31, 1965."

"(d) The State ad valorem tax on property of Two (2c) Cents on the One Hundred (\$100.00) Dollars valuation now levied under Section 51 of Article III of the Constitution as amended by Section 17, of Article VII (adopted in 1947) is hereby specifically levied for the purpose of continuing the payment of Confederate pensions as provided under Article III, Section 51, and for the establishment and continued maintenance of the State Building Fund hereby created."

"(e) Should the 53rd Legislature enact a law or laws in anticipation of the adoption of this amendment, such shall not be invalid by reason of their anticipatory character."

Section 2. The foregoing amendment shall be submitted to a vote of the qualified electors of Texas as the general election to be held throughout the State on the first Tuesday after the first Monday in November, 1954, at which election those favoring such amendment shall have printed or written on their ballot the following:

## The World As I See It

Doris Amburn

A little late, but at least, the public is gradually waking up to the evils of our "funny book age". Instead of simple, entertaining, pieces of children's literature, the funny book has become a depiction of evil, suspense, murder, and ghostly imaginary figures, portraying almost unbelievable situations. Such literature seeping constantly into the young minds of the youngsters has its effects; if you read your newspapers you know what I mean.

It is disheartening to see the youngsters of all ages wherever you go occupied with a funny book. It's time we did something about it. Children must have something to fill their time and minds, and we as parents should see that they get literature of a high moral and educational value, which won't in the long run cost any more, yet will improve their minds and at the same time I believe we would see a decline in the "child problem" of our country.

I'm a little too old to have been a child during the age of the modern funny book, but anyway my grandfather's forty acre farm with its 101 attractions, provided an outlet for any curiosities and youthful energetic days. One of the major attractions was the "thrasher shed". My, but how we enjoyed playing there! It was a huge barn, built especially to house the 1920 model (or thereabouts) thrasher — and the prized Surrey — a two seater with curtains. Even though both of these were outdated and unused, there they stood, year after year collecting dust, that wasn't wiped off by the seats of youngsters sliding and playing all over this monstrous piece of machinery. If you've been in this world at least thirty years you have probably seen one of these thrashers, which sorta remind me of the early locomotive. This one even had a whistle.

We may not have the attractions of a grandfather's farm, with animals earthen tanks, tall trees, big barns and the like, but we can and should provide good books, good records, and musical instruments. Keep the kids busy with something con-

structive, or necessary, and take them on family outings, but by all means let's do something about this funny book age.

Sec. 3. The Governor shall issue the necessary proclamation for said election and have the same published as required by the Constitution and laws of this State.

Antibiotics, trace minerals, vitamins—they work wonders when poultry and livestock get the right amount every day. But here's the catch: How can you be sure every pound of feed has its share of these growth boosters when they're added in such small quantities?

## Here's How Purina Does It

Purina scientists tackled this problem and came up with a process that takes the guesswork out of ingredient control. Called MICRO-MIXING, this system assures mixing and testing accuracy to the tune of 1 part in 10,000,000. ## Stomach Ulcers

The stomach is an amazing efficient machine, sorting, evaluating, retaining and dissolving the chemical elements of food.

But when a healthy stomach stops producing digestive acids in proper quantities, manufacturing too much or too little, the lining of stomach breaks down the protective wall.

Ulcers are the inevitable result. Chiropractors have scientifically proven that treating the ulcer is not sufficient. The cause must be removed, and the cause, generally is traced to the nerves supplying the stomach and producing the proper amount of acid.

Chiropractors know that when the stomach does not function properly, the nerves themselves are at fault and should be examined.

Chiropractors meet this problem by locating the vertebra interfering with the proper flow of nerve impulses and by chiropractic adjustment restores the vertebra to its normal position.

Chiropractors have successfully treated thousands of stomach-ulcer patients as attested by the many acknowledgements sent to their office.

**New Sensation In Show Business At Electric Fair**

One of the country's newest additions to big show business will be in Tullia on August 12-13 as one of the stars of Annual Meeting — Electric Fair of Swisher County Electric Co-Op.

He is 26-years-old Bob Johnson, a sensational balancing artist whose breathtaking feats take place in the uppermost reaches of the Big Top. Balancing himself precariously high above the heads of his audience, Johnson weaves and turns as he skillfully balances himself to the delight of every crowd he has entertained.

Accompanying Johnson with the Electric Fair will be Harland Stretz, a polished young magician whose acts include illusion, pantomime, ventriloquism, and whip artistry. From out of nowhere he can produce flowers and a fishbowl, or he can bake a cake in the hat of a member of his audience.

Johnson's debut in professional show business came last year when he appeared on a coast-to-coast television show. From there he went into New York City's famed Palace Theater, Mecca of entertainers the world over for an extended appearance.

He appeared in show places throughout the United States during the Fall and Winter, and only recently returned from a twelve-week engagement in Florida.

The young artist attended school in South Charleston, West Virginia. After serving two years with the Navy in the Mediterranean Theater, he enrolled in Morris Harvey College, graduating with a degree in physical education.

Other acts under the Big Top during this year's Annual Meeting — Electric Fair will include juggling, whip artistry, pantomime, ventriloquism, and western and hillbilly music. will be sponsored by Kelvinator, with the winner getting a stromberg-Carlson radio. The contest is open to any member of Swisher County Electric Co-Op. Arrangements for entering can be made through the Co-Op, Manager Woodall has announced.

A dramatic demonstration comparing electric cooking with gas cooking will be sponsored by Frigidaire, and Fairbanks-Morse will introduce its complete line of pumps, water heaters, and water softeners in a unique play.

Space for local Frigidaire, Kelvinator, and Fairbanks-Morse dealers has already been reserved. Manager Woodall said today that some booths remain unreserved and urged electric appliance dealers in the Co-Op's area to contact him immediately.

**DISC HARROWS**

Deep pan weight boxes, standard equipment on new 11B & 14B disc harrows, are designed to hold that extra weight when you need it. Use soil, sand, gravel, etc.—you have a wide choice of weights. It's easier to add the right weight for the job and spread it evenly over all the discs.

Full 7-inch spacing between discs gives you deeper penetration, cuts down trash problems, and prepares a better seed bed. You cover more ground in less trips through the field. Wide-spaced harrows pull easier, too.

Stop in soon. Let us show you how MM disc harrows give even penetration in uneven ground, why they don't dig in — ever — on short turns.

It's time for a change!

I'm no politician, in fact I can't even vote. But I'm ready to campaign for a change. As chickens, we've had enough of the present system. Why should the boss continue to use irritating, disagreeable disinfectants with strong odors? Why it's simply old fashioned. By changing to Germex he could do a better job without the disagreeably part. Germex is strong enough to be effective yet odorless and non-irritating. It's made by...

## Briscoe County Polled Heavy Vote In Primary

There was a very strong vote cast in Briscoe County last Saturday as one of the largest groups made their way to the polls. Voting started off brisk in Silverton when the polls opened Saturday morning and continued strong throughout the day.

All county contest were settled with the exception of the Sheriff's race. There promises to be a closely contested runoff for the sheriff's office between Raymond Grewe incumbent and A. L. Morris.

Three of the four commissioners races were contested and all three proved to be close races. All of the incumbents were returned to office.

In the commissioners race in precinct one Lige Watters received 129 and H. A. Bomar 149. In precinct 3, J. L. West 158 and Alton Steele 184. In precinct 4, Roy S. Brown 100, and Milton Dudley 114.

In the Sheriff's race, Alvie Mayfield 150, Johnny Lanham 295, A. L. Morris 318, and Raymond Grewe 475.

In the Governor's Race, Davis 25, Holmes 33, Yarobrough 540, and Shivers 604.

There were 1259 ballots polled in Briscoe County last Saturday. This was 151 more than there were paid poll taxes. 1,098 receipts were issued to voters. This means that more voters and under votes than there were those with receipts that failed to vote.

The people of this county certainly should be commended for turning out and voting. Briscoe County should be eligible for the Plaque that the Amarillo News offered for the county polling the largest percentage of voters.

### Thank You

I wish to thank the people of Briscoe County and especially the voters of Precinct No. 3 for the support and vote given me in Saturday's Election.

I want to express my sincere appreciation to my opponent for the clean fair race he ran.

Sincerely,  
Alton Steele
