New Sensation In Show Business At Electric Fair

One of the country's newest additions to big show business will be in Tullia on August 12-13 as one of the stars of Annual Meeting — Electric Fair of Swisher County Electric Co-Op.

He is 26-years-old Bob Johnson, a sensational balancing artist whose breathtaking feats take place in the uppermost reaches of the Big Top. Balancing himself precariously high above the heads of his audience, Johnson weaves and turns as he skillfully balances himself to the delight of every crowd he has entertained.

Accompanying Johnson with the Electric Fair will be Harland Stretz, a polished young magician whose acts include illusion, pantomime, ventriloquism, and whip artistry. From out of nowhere he can produce flowers and a fishbowl, or he can bake a cake in the hat of a member of his audience.

Johnson's debut in professional show business came last year when he appeared on a coast-to-coast television show. From there he went into New York City's famed Palace Theater, Mecca of entertainers the world over for an extended appearance.

He appeared in show places throughout the United States during the Fall and Winter, and only recently returned from a twelve-week engagement in Florida.

The young artist attended school in South Charleston, West Virginia. After serving two years with the Navy in the Mediterranean Theater, he enrolled in Morris Harvey College, graduating with a degree in physical education.

Other acts under the Big Top during this year's Annual Meeting — Electric Fair will include juggling, whip artistry, pantomime, ventriloquism, and western and hillbilly music.

will be sponsored by Kelvinator, with the winner getting a stromberg-Carlson radio. The contest is open to any member of Swisher County Electric Co-Op. Arrangements for entering can be made through the Co-Op, Manager Woodall has announced.

A dramatic demonstration comparing electric cooking with gas cooking will be sponsored by Frigidaire, and Fairbanks-Morse will introduce its complete line of pumps, water heaters, and water softeners in a unique play.

Space for local Frigidaire, Kelvinator, and Fairbanks-Morse dealers has already been reserved. Manager Woodall said today that some booths remain unreserved and urged electric appliance dealers in the Co-Op's area to contact him immediately.

PARTY LINES CAN BE LOADED
or the inconveniences can be Neglegable if all party line neighbors practice good party line manners — Such as —

1. If the line is in use when a call is attempted to quietly hang up and wait several minutes and try again.
2. If the dial clicks are heard due to some one else on the line dialing a number, tell him his call has been interrupted and he must dial over.
3. Watch carefully that the handpiece rests properly in its cradle, since leaving the telephone off the hook prevents anyone else on the line from using their telephone and causing an expensive maintenance call by the Coop's trouble men.

It's easy TO ADD WEIGHT

DISC HARROWS

Deep pan weight boxes, standard equipment on new 11B & 14B disc harrows, are designed to hold that extra weight when you need it. Use soil, sand, gravel, etc.—you have a wide choice of weights. It's easier to add the right weight for the job and spread it evenly over all the discs.

Full 7-inch spacing between discs gives you deeper penetration, cuts down trash problems, and prepares a better seed bed. You cover more ground in less trips through the field. Wide-spaced harrows pull easier, too.

Stop in soon. Let us show you how MM disc harrows give even penetration in uneven ground, why they don't dig in — ever — on short turns.

WHY NOT VOTE FOR ...**Allan Shivers****... WHO, HAS A BETTER RECORD?**

built than in any other comparable period. He believes highway construction and maintenance should keep pace with a growing Texas.

INSURANCE REGULATION:

As far back as 1951, Allan Shivers recommended strengthening of insurance laws to protect the public. Action is being taken to weed out unsound companies. The clean-up campaign launched by his administration will be continued.

OLD AGE ASSISTANCE:

Allan Shivers, as a State Senator, wrote the first Texas Old Age Assistance Law. Two years ago, he promised the old people of Texas he would seek a constitutional amendment to increase old age pensions. That amendment will be voted on by the people next November. Allan Shivers carries out his promises.

PRISON REFORMS:

Administration of the Texas Prison System today is recognized by experts as among the best in the nation. Allan Shivers began working toward this goal when he first took office, realizing that the System was classed as one of the worst in the nation. Remarkable progress has been made but, at the same time, the net cost per man per day to taxpayers has been reduced 50 per cent.

TIDELANDS: Allan Shivers courageously battled for years to return to Texas school children the tidelands, rightfully owned by Texas but unjustly seized by the federal government. He helped achieve a conclusive victory and, since then, the tidelands already have added \$32 million to the state's

WATER CONSERVATION: Allan Shivers is a strong, outspoken advocate of water and soil conservation. He has a far-sighted program in this important area and the proven leadership to carry it through. "Soil and water conservation constitute our Number One domestic problem," he said recently.

ROADS: Allan Shivers was one of the original sponsors of the farm-to-market road system in Texas. During his administration, more miles of farm-to-market roads and state highways have been

PERMANENT SCHOOL FUND: Allan Shivers believes government should be kept as close to home as possible. He is firmly convinced that the Supreme Court should give local school boards maximum latitude in handling the many difficult, varied problems that, in future years, will grow out of the segregation decision.

ECONOMY: Despite the vast improvements which have been made, Texas still ranks among the lowest in the nation in per capita state taxes. Unlike most states, Texas operates on a cash basis without either a sales tax or state income tax. Allan Shivers is opposed to both.

CLOSE TO PEOPLE: Allan Shivers has visited in nearly every section of Texas as Governor because he likes people, enjoys talking with them and profits by their comments and advice. As a result of his genuine interest in people, he and his fine family have become known and loved throughout the State as representatives of the highest type of Christian citizenship.

THE FULL PROGRAM: Allan Shivers already has been recognized as one of Texas' great governors, and one of the best in the nation. He wants to complete the dynamic, positive program for Texas started with his leadership. Upon the solid foundation already built, and with his demonstrated ability to get the job done, the people of Texas can enjoy state government at its best during the next two years.

**YARBOROUGH:
Thanks, Friends;
Predicts Victory**

AUSTIN, Aug. — Democratic gubernatorial candidate Ralph Yarborough said this week he will win the Aug. 28 second primary by a sweeping margin.

Said Yarborough, confidently: "678,000 Texans — a majority of Texans — can't be wrong. "678,000 Texans have hammered home their belief that integrity in their government can be achieved only by a change. "678,000 Texans have noted their distrust and disapproval of a third term for their governors. "678,000 Texas Democrats have made it crystal-clear they want a leader whose loyalty is unquestioned, who will never betray them."

Yarborough thanked "each and every one of the brave Texans who voted for and with me" in the first primary. He said he was "especially and particularly grateful to the citizens of Briscoe County who have joined our common fight to restore decency and honor to Texas government."

Yarborough said the campaign issues now are sharply drawn. He said: "Texans can now choose for or against a tradition-breaking third term, for or against straightforward Democratic leadership and for or against integrity in their State Capital."

The Democratic candidate repeated his thanks to "his friends of Briscoe County and urged their voting support — along with the votes of all other Texans — Aug. 23."

Mr. and Mrs. T. J. Hodges were in Tulia last Friday.

Grass Roots Opinion

Colfax, Calif., Recorded: "There are many...who constantly resolve to improve their minds by reading intelligently written books, in the hope that they will become better equipped to understand the many issues that crowd upon them as they try to keep pace with this modern world...The Bible has long been recognized as pre-eminent in the field of...improving human beings. It might be a good idea, then for all of us to give a little more diligent study to the great truths that are set out in the Book of Books."

Mound, Minn., Minnetonka Pilot: "The United States, down to the tiniest hamlet...is in the process of finding itself astride a gigantic threshold — one foot firmly planted in the old system of free enterprise and the other about to sink in the mire of socialism."

Versailles, Ky., Woodford Sun: "As we read on and on about union demands for 'fringe' benefits, paid vacations, shorter work weeks, guaranteed annual wages — in short, more and more for less and less — it is downright refreshing to be reassured now and then that the rank and file of American workers are truly interested in their jobs."

TALLASSEE, ALA., TRIBUNE: "There's one thing for sure, we are well versed in the 'give and take' field — take from the taxpayers and give to the world."

Cotton insects last year destroyed more than \$62 million worth of lint and cottonseed in Texas. The total for the nation was approximately \$261 million. There's no profit in feeding the cotton bugs. Kill 'em.

Dairymen will find it profitable to supplement drying pastures with plenty of quality hay and silage. Give the cows all they will eat. An abundance of cool drinking water and shade will also help keep the dairy herd on the job.

The extremely hot and dry weather has caused pastures to fade fast. Grazing animals may need a protein supplement

and vitamins and minerals to balance the dry roughage from the pasture.

Briscoe County To Enter Exhibits At South Plains Fair

One of the largest displays of farm equipment ever seen in West Texas will be shown at this year's Panhandle South Plains Fair, according to an announcement this week by Fair President Charles L. Adams, Jr.

In addition, many of the South Plains counties will have county-wide exhibits of crops in the new Agriculture Building, thus providing an outstanding program for the West Texas and Eastern New Mexico farmers.

Already five South Plains counties have entered county exhibits. These counties and the County Agent in charge are: Hale County, Ollie F. Linder; Lamb County, David F. Eaton, Jr.; Briscoe County, Robert M. Ledbetter; Hockley County, Jack Carothers; and Garza County, Lewis Herron.

INSECTS MUNCH BIG BITE OF HALE COTTON

PLAINVIEW, July 29 — Insects have made considerable inroads on the Hale County cotton crop in recent weeks. County Agent Ollie Linder estimated that between 40 and 50 percent of the 185,000 acres has been damaged from 25 to 75 percent. Much of the undamaged acreage has already set from three-quarters to a bale to the

acre. Some of the worst damaged fields have around a quarter of a bale of fruit on the stalks. Linder said about 15 per cent of the acreage had been dusted or sprayed, or both, and some fields were lucky enough to escape infestation.

Linder said fields where insects have harvested the bottom crop of fruit still have a good chance to make a bale or so to the acre. The county agent pointed out that the bottom cotton crop opens first and brings the best prices.

Flea hoppers and thripes have done most damage in this area so far, Linder said. Lygus and bollworms are beginning to show up, but to date have caused no material damage.

Scholarship For High Ranking Baptist Student

Wayland College is announcing this week sponsored scholarships in the amount of \$288 to the highest ranking Baptist boy and girl in each 1954 high school graduating class, according to President A. Hope Owen. Scholarship grants include: certification by high school official

Conditions of the sponsored that student is in upper quarter of class and is highest ranking Baptist boy or girl, and student must meet all admission requirements of Wayland College.

The sponsored scholarship of \$288 will take care of average tuition cost and fees. These are made possible by a special fund.

Application for admission and scholarship should be made at once to resident Owen as fall registration for all new students begins at 8 a. m., Sept. 13. Dormitory space is already at a premium, according to Bryan Robinson, dean of students. Completion of new Hattie Mays Ferguson Hall, a residence hall for 50 young women is being finished. This is the second girls' dormitory at Wayland College to be completed in two years and a third is on the architect's drawing boards.

ACCIDENT RATES HIGHER ON WEEK ENDS

Driving somewhere? Then take advantage of reduced accident rates by traveling on Monday, Tuesday or Wednesday.

"Accident Facts," the National Safety Council's statistical year-book, just off the press, shows that nearly two out of five fatal motor vehicle accidents occur on Saturday and Sunday and that the fewest occur on the first three weekdays.

Reports from 27 states show these fatal accident percentages:

Saturday, 21; Sunday, 18; Friday, 15; Thursday, 13; Monday, Tuesday and Wednesday, 11 each.

Experience, as it relates to farm and home accidents, is an expensive teacher. The cost of an arm, leg or life itself is a high price to pay for

DISC HARROWS

Deep pan weight boxes, standard equipment on new 11B & 14B disc harrows, are designed to hold that extra weight when you need it. Use soil, sand, gravel, etc.—you have a wide choice of weights. It's easier to add the right weight for the job and spread it evenly over all the discs.

Full 7-inch spacing between discs gives you deeper penetration, cuts down trash problems, and prepares a better seed bed. You cover more ground in less trips through the field. Wide-spaced harrows pull easier, too.

Stop in soon. Let us show you how MM disc harrows give even penetration in uneven ground, why they don't dig in—ever on short turns.

Fixed Ideas

Fixed ideas are generally giving way to logic, thanks to the powers of education.

And so it is that chiropractic, after 50 years of hard, tried scientific evaluations, is gradually finding its way into the realm of drugless healing wonders.

From a crude theory that the spine is the backbone of good health, chiropractic has developed into an exact science.

Where hundreds once spoke of its curing effects, millions today all over the world bless it for saving lives.

From a handful of practitioners it has grown into the second largest healing profession in the world.

It just didn't happen that way. Chiropractors had to prove their way and they have. They know a healthy body is dependent on a healthy, properly functioning nervous system.

They know what harmful effects result from a misaligned vertebra in the spine. Chiropractors know too that the vast majority of sick people can, under chiropractic care, be restored to normal health.

Be modern. Call Dr. A. E. Hewitt, dial 3389, Lockney, today for an appointment.

"AN ELECTRIC FREEZER IS THE ANSWER TO A Sportsman's Prayer!"

says **Mr. H. L. McMAHEN** of Stratford, Texas

"It sure is nice to have some trout or a piece of bear meat around whenever that's just what I feel like eating. I can live last year's fishing and hunting trip over again, and enjoy a good meal to boot. I recommend a freezer to anyone who goes hunting or fishing."

A sportsman like Mr. McMahan gets a real pleasure out of sharing his catch with friends. And Mrs. McMahan finds it easy to prepare a fish dinner in a hurry. Right after the catch, she puts cracker meal on the fish, cooks and freezes them. When friends drop in, a fresh fish dinner is just a matter of warming an already prepared meal.

Keep the pleasure and good eating of your hunting and fishing trips all year round. Keep your fish and game in an electric home freezer.

MRS. H. L. McMAHEN says:

"A freezer is a real help around the house. I can serve quick meals—and use out of season foods. And, as for 'Curly's' hunting and fishing trips, I'm like any wife, I sure enjoy eating what he shoots and catches."

Electric Cooperative Annual Meeting And Big Top Show

Rural people from throughout the six-county area served by Swisher County Electric Co-Op will converge on Tullis for the big free Electric Fair and Annual Meeting of the Co-Op August 13.

Co-Op officials are expecting to top previous attendance records at annual meetings with the addition this year of an Electrical Exposition and Big Top show in connection with the meeting.

In addition, there will be a between 8:30 and 10:00 p.m. for the townspeople of Tullis. This will include highlights of the Big Top Show, free ferris wheel rides for children, and the complete Electrical Exposition. It's all free, and Manager O. K. Woodall of the Co-Op is inviting all local people to be guests of the Co-Op on this opening night for an evening of free entertainment under the Big Top.

The Big Top Show is headed by Bob Johnson, sensational aerial balancing artist. His breath-taking act takes him to the top of the giant Big Top tent as he thrills the crowd with his gravity-defying performance. Johnson has been featured at the famous Palace Theater in New York, on coast-to-coast television, and in the finest show places throughout the nation.

Harland Stretz, another headliner, Master of magic and illusion, will mystify the crowd as he saws a person in half and performs other feats of magic.

Other Big Top acts include juggling, pantomime, whip artistry, and ventriloquism.

On Annual Meeting day, Kelvinator will sponsor an amateur talent contest and give a radio to the winner. This contest will present the tops in amateur talent from throughout a wide area.

On the informative side of the program, Frigidaire will present a dramatic demonstration, comparing electric cooking with gas cooking. Fairbanks-Morse will demonstrate their complete water systems line-pumps, heaters, and softeners — in a unique and colorful play.

Frigidaire, Kelvinator, and Fairbanks-Morse have already reserved space for their local dealers to use in exhibiting their respective lines of appliances in two tents along the midway. Local dealers in other lines of appliances and farm equipment are invited to participate too. The Electrical and Farm Equip-

ment Exposition is the largest to be seen in this area this year, says Manager Woodall.

"There's fun for everyone," adds Woodall, "and it's all free. We hope our town friends will be our guest the night of August 12, and that all of our members can enjoy the day-long affair August 13."

THE GOVERNOR'S RACE What Are The Issues? They Are Clear Cut IT'S YARBOROUGH — A DEMOCRAT vs. SHIVERS — A REPUBLICAN The big daily newspapers and Shivers have been trying to scare the people by yelling "C.I.O." "P.A.C." and stirring up race hatred. But the real issues are these. Do not be deceived. TEXAS—THE REPUBLICANS have just passed a tax reduction law which mainly little cost. The Republicans are trying every conceivable means to re-benefit the Moneyed boys who get income from dividends. The Democrats wanted a law which would give every one some relief. FARM PRICE SUPPORTS: The Democrats had good substantial supports at very duce support prices. If their 75% flexible program is passed, farmers will go bankrupt. INTEREST RATES: The Democrats maintained low interest rates for G. I. loans as well as Farm Commodity (C. C. C.) loans. The Republicans have raised these interest rates. The G. I. Home purchaser pays about \$1,000.00 more interest on his G. I. loan during the life of the loan than he did at the Democratic rate. This money goes directly to the coffers of the big insurance companies and bypasses the local merchants. RURAL ELECTRIFICATION: The Democrats lighted up rural America. The Republicans have cut appropriations for R. E. A. and are doing all they can to favor the powerful utility monopolies at the expense of R. E. A. FREE ENTERPRISE: The Republicans are always yelling "Free Enterprise." The same boys enjoy the greatest possible protection from government. The Oil boys (mostly Republicans) have government production control in order to keep prices high. The Coca-Cola manufacturers have an absolute monopoly on making cokes thru government franchises. The Steel industry, the car makers, the farm implement and other manufacturers control production to keep prices up, but when the farmers attempt such methods, it's "Socialism" according to the Shivers.
