Silverton Will Battle Quitaque Here Friday

Silverton will meet their long time foe on the 'local battle ground' this Friday night at 8 P. M. The Silverton Owls have been preparing themselves for a tough battle against the Panthers from Quitaque this week.

The Quitaque boys who failed to win a conference game last season have already won two conference games this season. Many local fans saw them win from Lakeview last Friday by a score of 32-0. They also won from Estelline by a score of 18 to 0. In fact they have won all games played having also defeated Amarillo Stormies, Boys Ranch, and Kress.

The Silverton Owls who were undefeated at mid season last year, hold a three loss and two win at mid season this year. The Owls who were hard hit by graduation have been making a steady development and showing progress each game.

Local fans are confident that the boys will be ready for Friday night's game. The lineup will be C. L. Dunn, Jimmy Don Wilson, Bob Barrett, Doyle Tiffin, James May, Jim Whitfill, Bill Stephens, Sid Marshall, Don Ledbetter, Deleath Peugh, and Keith Whitfield.

Keith Whitfield

Keith Whitfield, a junior and a one year letterman, will be in center position on the starting line up, Friday night, October 22, against the Quitaque Panthers.

Plans For P. T. A. Carnival Oct. 30

A baked chicken dinner will be one of the features of the P. T. A. Carnival on Saturday, October 30. The foods committee of the carnival has made preparations for the meal which will consist of chicken and dressing, cranberry salad, candied sweet potatoes, green beans, and a choice of pies. Mrs. N. D. Nettleton, high school homemaking teacher, is chairman of the committee. The meal, to which everyone is invited, will be served from 5:30 to 7:30 P. M. in the school lunch room.

A charge of fifty cents for pre-school children and seventy-five cents for all others will be made. Proceeds from the carnival will be used to help in the purchase of a dishwasher for the lunch room.

Each class in the grade and high schools is busy making plans for the carnival. Some will sponsor booths. Others will have things to sell. The P. T. A. Carnival this year will be one of the year's outstanding events. More details will be announced in next week's paper.

Underwent Surgery

Mrs. W. K. Grimland underwent surgery at the Northwest Texas hospital in Amarillo Tuesday morning. Mr. and Mrs. Jesse Grimland, Silverton, Mrs. G. T. Lions Club Will Meet Today Noon At Mrs. Newman's

The Silverton Lion's Club will hold a noon meeting today, October 21 at Mrs. Newman's Dining Room. The lunch hour meeting will be one of fellowship and business.

Last Friday and Saturday the Lions sponsored their annual Down Town Carnival and a report will probably be ready for Club members. The Concession stand provided good food for the crowd, while the ducking and several other features furnished the amusement.

George Neatherlin Died Saturday

Mr. George Jefferson Neatherlin, 68, died Saturday at the home of his daughter, Mrs. Louis Wineinger, south of Amarillo.

Mr. Neatherlin and his family lived in the Silverton area many years before going to Anson to reside. He has been sick for a long time. Mr. W. W. Douglas took Mr. Neatherlin from his home at Anson to the daughter's home near Amarillo on October 10th. The body was brought to Silverton for a time on Saturday and then carried to Anson for the funeral service and burial Monday afternoon.

His wife and several daughters and sons survive.

Cotton Grades Good This Year

The ginning season is well under way in this vicinity. The gins are going full force both day and night. There has been well over 2,000 bales turned out since the season opened in Sept. The average grade is Middling, 29-32; the price average is 32.75. Cotton seed is bringing \$55.00 a ton.

Irrigated cotton is making a bale or better to the acre, while the dry land is making only a quarter to a half. The staple on irrigated cotton ranges from 15-16 to 1-1-8 inches.

Veterans Day To Be Observed

A National Committee for the observance of Veterans Day in every community of the nation has been appointed by the Administrator of Veterans Affairs, the Veterans Administration has revealed.

Harvey V. Higley appointed the Committee at the request of President Eisenhower to encourage the observance of Veterans Day by the entire citizenry.

The last session of Congress passed an act approved June 1, 1954, changing Armistice Day, which honored only veterans of World War I, to Veterans Day so that veterans of all Americas wars may be honored.

Robert Hill Showing Calf At State Fair

Robert Hill, Silverton 4-H and F. F. A. Club boy is exhibiting a steer at The State Fair in Dallas this week. Robert has his calf entered in the commercial Steer Show of the Fair. This means that the calf has been fed without the aid of a nurse cow and on feeds that were grown in the County. Robert first started his steer on prepared commercial feed but the cost was running too high for the grain that was being put on the calf. Together with County Agent Robert Ledbetter who supervised the feeding, a ration of grain sorghum, barley, and oats that was purchased on the farms here in the county, was prepared. This ration cut Roberts feed bill in half. The steer was bred by the late Grady Wimberly and Harold Seefeldt. The calf weighed 1,000 pounds the first of September.

Prize money is paid on the grades at the Dallas Show. Robert is hoping that he will grade prime and entitle him to \$20.00. Choice will pay 16 dollars prize money. The calf will be shown Thursday.

The State Fair of Texas furnishes the Exhibitors free lodging and the calf will be taken to Dallas along with a group of calves from Swisher County by the Harris Trucking Co. of Tullia, free of charge.

This commercial type show will indicate the possibility of a boy making money feeding steers commercially and provides a show and sale for them. It is hoped that a larger number of boys will show in Dallas next year.

Veterans Questions And Answers

Q - I am an ex-WAC, planning to attend school under the Korean GI Bill. My husband is working. Will VA pay me the added GI allowance for a veteran with dependents, even though he is working?

A - No. You could claim the added allowance for your husband only if he were in fact dependent upon you.

Q - As a member of the Reserves, I receive pay for attending weekly meetings and going on active duty two weeks each year. Will this pay be deducted from the monthly allowance I receive as a student in college under the Korean GI Bill?

A - No. Reserve pay will not be deducted from your GI allowance. Neither will any other outside earnings you may receive. Under the law, the monthly allowance for schooling veterans remains the same, regardless of outside income of any kind.

Q - I have a permanent GI insurance policy which lapsed several months ago. To reinstate, I understand I will have to pay all back premiums. Will I also be required to pay interest on the premiums?

A - Yes. You will be required to pay at the stipulated rate for your type of policy.

Q - I am thinking about paying the additional premium on my GI insurance policy, so that if I become totally disabled for six months or more I will receive a monthly payment from VA. If I should become disabled, would these payments I receive be deducted from the face amount of the policy?

A - No. Monthly payments for total disability for which you are paying extra premiums do not decrease the face amount of your GI insurance policy.

RETURNED HERE

Antibiotics, trace minerals, vitamins—they work wonders when poultry and livestock get the right amount every day. But here's the catch: How can you be sure every pound of feed has its share of these growth boosters when they're added in such small quantities?

Here's How Purina Does It
Purina scientists tackled this problem and came up with a process that takes the guesswork out of ingredient control. Called MICRO-MIXING, this system assures mixing and testing accuracy to the tune of 1 part in 10,000,000. It's another example of the extreme care Purina takes in bringing you the feeder's first choice in livestock and poultry feeds—Purina Chows in the Checker-board bag.

Farmers have become a Minority Group...

1850 NEARLY EVERYONE WAS CLOSE TO THE SOIL

1910 FARMERS HAD ONE-THIRD OF VOTES

1954 FARM PEOPLE HAVE ONLY 15% OF THE BALLOTS

Farm Bureau Enables You and Other Farm Families to Speak With One Voice

In the early days of our nation nearly everyone worked the land; no special effort was needed to tell the farmer's story or to protect his interests. The land was new; markets generally were close by; government was small; and needs were simple.

Today all this has changed. Markets are distant; government is larger; needs are many and complex; agriculture is no longer the only important industry in America.

Laws, rules, regulations and policies that apply to people generally also affect the farmer. As a result, his business is influenced by many factors about which he can do little by himself—

At present the farmer has less than 15% of the vote. In a few years it may be 10 per cent.

So, today, agriculture needs an organized voice to be heard. It must be a united voice, for individual voices have little effect on policies and legislation. And it must be strong, free and independent.

This means the farmer must have a strong organization.

NO MONTHLY CRAMPS... not even on the VERY FIRST DAY!
Doctors' tests show amazing preventive relief of pain, backaches, nervous feelings

Women and girls who suffer from the functionally-caused cramps, backaches and headaches due to menstruation—who feel upset and irritable on certain "particular days" every month—may be suffering quite needlessly!
Such is the conclusion from tests by doctors in which Lydia E. Pinkham's Vegetable Compound stopped or gave amazing relief of such distress in 3 out of 4 of the cases even on the very first and worst day of the period! Yes! Medical evidence proves Lydia Pinkham's mod-
ern in action. It exerts a remarkably calming effect on the uterus—without the use of pain-softening drugs!
The effectiveness of Lydia Pinkham's needs no proof to the millions of women and girls whom it has benefited. But how about you? Do you know what it may do for you? Take Lydia Pinkham's! See if you don't get the same relief from cramps and weakness... feel better both before and during your period!
Get either Lydia Pinkham's Compound, or new, improved Tablets, with added Iron!
Lydia Pinkham's is wonderful for "hot flashes" and other functional distress of the "change of life," too!

LAMPLIGHTER...

Thomas Edison lit the first practical incandescent lamp 75 years ago today. The lamp was never very bright—and it burned for only 40 hours—but today its brilliance is seen everywhere in modern electric living. DON'T TIE HIS HANDS

You Elected This Great American...

NOW Give Him The Support He Needs!

Send a man to congress who'll give President Eisenhower the backing he needs to complete his great program - - -

Here Are Some Of The Accomplishments of President Eisenhower and the 83rd Congress

- 1. Income taxes cut 10 per cent; excise taxes cut 50 per cent; tax law revised. Total tax savings, \$7.4 billion.
2. Korean war ended. Seized initiative for peace, new foreign policy based on firmness and strength.
3. Appropriations for 1954-1955 cut \$64 billion below appropriations of Democrat Congress in 1952-1953.
4. Federal spending in 1953-1954 cut \$6.7 billion below Democrat spending in 1952-1953.
5. Communist Party stripped of all legal rights and Red infiltration of unions checked. 50 Communist Party leaders convicted; 93 alien subversives deported; 62 organizations added to subversive list; 2,486 security risks separated from Government service.
6. More state control provided for modern highway program of almost \$2 billion in 1956 and 1957.
7. Stronger defense program adopted. Heavier on atomic weapons and air power. Air Force Academy established.
8. New housing program raises limits on Government-insured home mortgages, lowers down payments, makes home ownership easier for thousands.
9. Offshore tidelands restored to states; Federal rights safeguarded.
10. 216,243 unnecessary Federal jobs abolished.

Now, more than ever, Ike needs the support of every free-thinking American to keep his dynamic program going forward.

AND

Let's give the Panhandle the 100% representation it deserves by electing a man who'll be on the Eisenhower team.

FOODS "PLENTIFUL" NEXT MONTH
 COLLEGE STATION, October — Beef is featured with rice, turkeys and eggs on November's plentiful list.
 Broilers and fryers, pork and dairy products, canned tuna, frozen fish and shrimp are other high protein foods on the USDA's monthly report.
 So many foods are in abundant supply it was difficult to decide which ones rated a place in the November list, says John Slaughter of the Agricultural Marketing Service.
 Also plentiful are almonds, peanuts, filberts, dry beans, peas, prunes, vegetable shortening and salad oils.

Business Sense
 Mother — Well, Eddie did you let little sister choose which one of the two apples she wanted?
 Eddie — Yes, mamma, I told her she could choose between the small apple or none at all, and she chose the small one.

Reason Enough
 Pretty Stenog. — What's the big idea of your working steady 10 hours a day? I wouldn't think of it. You know what the code said.
 Equally Pretty Cashier — I didn't think of it myself. It was the boss who thought of it.

Social Grade
 Stranger — What is the standing of the Spendmore family in this town?
 Native — Well, I should say they is sort of betwix and between. They ain't exactly nobody and yet they hain't really any body.

Not That Old
 Customer — Ten years ago I only had to pay ten cent a pound for these prunes.
 Grocer — Not these prunes. These are less than seven years old.

Mrs. Perry Thomas, Jr. was a business visitor in Amarillo last Thursday.

Courage-Sound Judgment

Cattle growers hope that beef consumption in this country will double in the next 10 years. In a recent discussion of prospects, the head of a cattleman's association in the Southwest said, "A nationwide sales program financed by the industry itself is the cattle growers answer to over production of beef. We believe this approach to our marketing and sales problems is far better than any type of government subsidy or government purchase of our product."
 The New York Times quoted Secretary of Agriculture Benson as saying there is "neither rhyme nor reason in producing food for storage when it can be used for the good health and well-being of our people." At a luncheon which marked the launching of a promotional campaign to step up the consumption of both beef and vegetables, the Secretary also said to representatives of these industries: "I salute your courage, your independence and your sound judgment."

Today our cattle population is at an all-time high. The biggest cattle run in history is expected this winter. Marketings for the entire year are forecast at 29,700,000 head — and consumption will have to increase about eight per cent above last year's level if the supply is to be absorbed without resorting to sales at distress price levels. The cattle people are convinced that they can solve the problem through their own promotional efforts, in cooperation with packers, retailers and others concerned. They are setting an excellent example for the nation and they deserve full success.

BOOKLET ON WATER LAWS AVAILABLE FROM TEXAS U

Proceedings of two University of Texas conferences on water laws are available in a booklet published by the Law School. The first section of the 310-page booklet includes discussions of Texas water laws, surface-water supply, ground and surface water relations, irrigation water distribution, industrial water uses and needs, and water conservation and inventory. Problems of appropriating water from public streams and lakes are discussed in the second section. Price of the booklet is \$5.00.

YOUR VOTE COUNTS

"My one little vote doesn't count." That easy alibi is used by millions of people who fail to go to the polls. In many elections, this gross failure is shared by an actual majority of the eligible voters. The Enterprise-Courier of Oregon City speaks out strongly about these citizens: "Disinterest in our own government is a moral crime. It could mean we are taking away from our children and grandchildren the greatest single privilege granted any people." Your "little vote" is necessary if we are to have government by the majority, not by a controlled or organized majority. The right of franchise is the bulwark of representative government, which means it is the bulwark of freedom.

Most of rural Texas is dry enough to burn and will, warns the Texas Farm and Ranch Safety Committee, unless everyone is careful with fires. Don't start one.

ASTHMA COUGHS

Don't let chronic breathing, coughing and wheezing, due to recurring spasms of bronchial asthma or simple bronchitis ruin your sleep and energy without trying MENDACO. Works through your blood to help loosen and remove thick, strangling mucus. Thus usually stops coughing which permits free breathing and sounder sleep. Get MENDACO under money back guarantee at drugstore.

PROMOTE

Newsweek has quoted an official of a retail trade-association as saying: "The business is there for the man who goes out after it. But he's got to promote, promote, promote to get it. He's got to be aggressive. Otherwise, he'll lose out to his competitors."

In a recent survey, merchants plans. Ninety-nine per cent are all over the country were polled as to their current advertising spending as much or more on advertising as was the case last year.

This is just more proof of the fact that the buyers' market is back, and competition is tough and intense. The consumer is king in the vast retail market.

A GREAT BUSINESS!

Like a wise voice in a wilderness of fuzzy thinking, the Tombstone, Arizona, Epitaph pointedly compares a business managed electric company with a government-owned power project. It under rigid state and inter-state says, "private companies operate regulations that give the consumer a voice in price setting. They must provide standbys for use when long transmission lines are inoperative and must provide the best kind of service possible."

"No one tells the government-owned or sponsored systems what they must furnish the consumer in the way of service, and neither does the consumer have a direct voice in establishing the rating structure."

"As long as communities are served by government-sponsored and government-owned electric producers they can expect nothing except the bare minimum of service. They can also expect to pay for their power through their meter and through federal taxes which financed the project in the first place."

"It's a great business, isn't it?" It costs like heck to have a wreck.

The Basic Idea Behind the All-New 1955 PONTIAC

On Display October 29 and 30

ABOUT 30 years ago General Motors Corporation presented to America a new car called Pontiac. This new car was the direct result of a very specific idea.

The idea was this: to create a car which took its style, its engineering principles and its features from the very best and most expensive in America—and to build these into a car priced just above the very lowest!

Naturally, such an idea produced a wonderful and highly popular car—a car which millions of satisfied owners have driven with outstanding pride and pleasure.

Now, nearly three decades later, an entirely new Pontiac has been created for 1955—a car completely new from the ground up!

One thing, however, about the 1955 Pontiac remains unchanged—its basic idea—to offer the American public the very finest car that can possibly be built to sell at a price within easy reach of any new-car buyer.

When you see the new Pontiac on Friday or Saturday—Oct. 29 or 30—you will be immediately impressed by its remarkable new styling. No other car in the world looks like this new Pontiac!

When you drive it you will be astonished at its performance. For the 1955 Pontiac introduces the powerful new Strato-Streak V-8, an all-new engine that has already been proved in more than 3 million test miles!

When you price the new Pontiac you will come face to face with the basic Pontiac idea—you will be agreeably surprised that so much car, so much sparkling newness, so much luxury, so much downright goodness can be priced so near the very lowest.

We cordially invite you to come in on Friday or Saturday and see for yourself what a superb all-new General Motors masterpiece has been created to carry the wonderful name "Pontiac" for 1955.

New FORD THUNDERBIRD

A personal car of distinction
...with Trigger-Torque performance

You'll be delighted at the wealth of conveniences the Thunderbird offers. Two tops are available: a disappearing fabric top... and an easy-to-lift-on hard top. The extra-wide vinyl upholstered seat is foam-rubber-cushioned... power-operated 4 ways. Windows roll up... by power, if you like. There is a tachometer... and a clock with a sweep second hand. There is a telescoping steering wheel. And you can have power steering and power brakes.

Something totally fresh is here — a bewitching new all-steel beauty that sets the styling keynote for other Ford cars to come.

But, styling gives the merest hint of what the Thunderbird has to offer. In traffic and on the open road the Thunderbird's Trigger-Torque performance is literally a revelation. Here is hair-trigger response... fleet, liquid agility... backed by a reserve of swift, sure power to meet safety's every demand. Trigger-Torque performance stems from Ford's new Thunderbird Special V-8 — a high-torque engine with 4-barrel carburetor, dual exhausts, wide-opening valves and Ford's famous low-

friction design. And you can have the Thunderbird with the transmission of your choice — Conventional, Overdrive, or new Speed-Trigger Fordomatic.

Ford's Ball-Joint Front Suspension not only velvet-cushions your ride, it also allows the Thunderbird to handle with utmost ease — to corner with greatest stability.

But, more important, the Thunderbird is the product of the same advanced engineering... the same manufacturing skills that have made Ford products so dependable, so value-full and so desirable to so many.
