First Grade to Parents and Grade Parents

The First Grade will not be in school on Monday, February 6. The day has been designated as First Grade to Parents and Grade Parents. Parents are invited to visit school. Parents are asked to arrange for all children who will be six on or before September 1 off this year to visit on that day, Monday, February 6. This is done so these children will be better prepared for school next fall. Cooperation in this will be appreciated very much.

Community Game Night Set for Monday, February 6

A Community Game Night will be held next Monday, February 6, at 7 p. m. in the high school auditorium. The Silvertown Parent-Teacher Association is sponsoring the event. Dominoes, forty-two, and canasta will be among the games to be played. Mrs. J. L. Self is chairman of the committee which is preparing the program of activities. Another committee headed by Mrs. Don Garrison will serve refreshments during the evening. Members of the P. T. A. are asked to bring folding tables, dominoes, and cards. There will be an admission price of fifty cents a family.

A feature of the evening's program will be the concert of the Silvertown school band directed by Mr. L. Lamb. Mr. Lamb is the first band director to be employed by the Silvertown schools in the past several years. During the school year he has been engaged in training several dozen young instrumentalists to attain competence and confidence in individual performance and ensemble playing.

Monday night's meeting also marks the founding of the P. T. A. The National Congress of Parents and Teachers was founded on February 17, 1897 in Washington, D. C., as an organization of parents, teachers, and other citizens interested in the welfare, education, and protection of children and youth. Signaling the event, the local organization is inviting all former presidents, and teachers in the Silvertown system five years or more, to be special guests of the evening.

A meeting of the P.T.A. Executive Committee will be held today (Thursday) at 3:45 in the high school. All officers and chairmen of committees are urged to be present.

A Briscoe County 4-H Club judging team composed of Denny Mac Welch, John Schott, and Jerry Don Brannon placed tenth at the Amarillo Fat Stock Show Judging Contest held the 26th of January. James Roy Brown the other member of the team was unable to attend the contest because of the flu. Welch was the high individual on the team. The same team had placed fourth at the Swisher County Fat Stock Show the preceding week. 4-H Club boys learn to judge cattle, sheep and hogs, and learn to give oral reasons on each of their placings. Oral reasons are very difficult as the boys must learn over two hundred terms that properly describe the animal and put them in proper sequence. This teaches boys to stand on their feet and speak properly. It is very beneficial training for later life even if the participants don't go into the production of livestock. Livestock judging takes many hours of practice and the boys were somewhat disappointed at their placing as they had spent a great deal of time at nights and after school practicing. Their next contest will be at Plainview.

Scientist Foresees Climate Selected for Each Room

Practical ways to "dial" the desired temperature for any room in the house can be expected within five or ten years, says A. Newton, engineering vice-president of the Coleman Company, Wichita, Kan.

Writing in a "beyond today's horizon" issue of Practical Building magazine, he foresees the day when Mrs. Home-owner will be able to prepare a big company dinner in a kitchen that remains at its usual temperature instead of becoming almost unbearably hot.

The engineer also predicts much-simplified air conditioning equipment, which often will be situated outside the house to save interior space. New fuels such as gas will reduce air conditioning's operating cost, he says.

NEW ENGLAND BOILED DINNER

For a meal with old-fashioned flavor that's perfect for these cold, wintry days, serve a New England Boiled Dinner featuring corned beef, cabbage, carrots and potatoes.

Accompanied with other early American favorites—tangy beer, bread muffins and zesty mustard or horseradish sauce, it provides a meal that's perfect for informal supper parties as well as family meals.

NEW ENGLAND BOILED DINNER

- 3 to 4 pounds corned beef
- 4 peppercorns
- 1 bay leaf
- 1/2 teaspoon thyme
- 6 small potatoes, peeled
- 3 carrots, scraped
- 1 small head cabbage

Place meat in large heavy kettle with enough water to cover. Add peppercorns, bay leaf and thyme. Bring to boil. Reduce heat and cook, covered, 3 to 3 1/2 hours, or until tender. Meanwhile, cut potatoes and carrots into halves or quarters, if large. Cut cabbage into 4 to 6 wedge-shaped sections. About 30 minutes before meat is done, add vegetables to meat stock and cook until tender. If necessary, lift meat from kettle to make room for vegetables, then place it on vegetables to keep warm while vegetables are cooking. To serve, lift meat from kettle and remove surface fat before transferring to a heated platter. Remove vegetables from stock with a slotted spoon and place around meat. Makes 6 generous servings.

GIVE NEW GLAMOUR TO OLD LENTEN FAVORITE

Perk up an old Lenten favorite, Macaroni and Cheese, by giving it new glamour with a new and tastier cheese sauce and fresh chopped tomatoes. Use plenty of cheese in the sauce to make your casserole really good.

A delicious cheese sauce can be made easily, too. By using better-blending evaporated milk you don't have the fuss and bother of making a cream sauce. Carnation Company has given us a recipe for cheese sauce that takes just three minutes to prepare. Grated cheese and seasonings are added to undiluted evaporated milk . . . when the cheese melts you have a perfect cheese sauce!

Chopped fresh tomatoes and green pepper add new flavor to Macaroni and Cheese casserole and a few slices of tomato and ripe olives put on top before it goes into the oven make it attractive enough for company dinner.

A fruit salad of cinnamon-pears and pineapple spears topped with whipped fruit dressing, a green vegetable, if you like, and dessert will make this Lenten dinner one your family will enjoy.

The recipe for nutritious and economical Tomato-Cheese-Macaroni Casserole includes directions for Three-Minute Cheese Sauce.

STUDENT OF THE WEEK

The student of the week is Ina Lou Grabbe. She is a senior this year. Her hobby is writing letters and doing art work. Her favorite pastime is reading. She is also the secretary for the F. H. A.

PARTY LINE

Have you heard about a certain red-headed freshman girl who especially likes a certain green Chevrolet pickup on cold, dark, Saturday nights? Quite colorful, don't you think, Elaine? Jimmie?

That green and white Chevy of Joe Brannons must be awfully hard to drive. Wasn't there two people driving Saturday night, Mike?

Two senior girls have some good advice for all who will listen. Never change the grades in the teachers gradebook and get caught.

Robert seemed very lonely last Saturday night. Couldn't find Carlye in all that fog to cheer him up!

SILVERTON PLAYS LAKEVIEW

Silverton girls A team played Lakeview Thursday night, January 18. The game was close until the half. After the half, Lakeview picked up and scored 27 points, to our 22. The final score was 50 to 44. They were only 1 point ahead at the half and beat us by only 6 points.

Our boys beat Lakeview 91 to 288. The score at the half was 44 to 18. We made the score 74 to 18 at the end of the third quarter. Nearly all the boys got to play four quarters at this game. High point boys were Buz Bailey, 21; and C. L. Dunn, 20.

OWLS DEFEAT TURKS

Friday night, the girls played Turkey and slaughtered them with a final score of 51 to 35. The score at the half was 23 to 9. Zobie Self, who usually plays guard, played the position of forward and did very well. Pat Redin made 21 points, Sue Smith, 9; Sharon Gilkesson, 12; Gwenlyn Paige, 5; and Carlye Monroe, 4. All of the girls played their best.

Another victory was the game between Silverton and Turkey boys Friday night. Keith Whitfield made the most points in this game. He had 19 and C. L. Dunn had 18. The reserves, called the "Wrecking Crew," played 2 and 3 quarters during this easy victory.

GUESS WHO!

The person for the Guess Who column this week is another one of those little freshmen. He is a male. He is 5 feet 8 inches tall. He has blond hair, gray eyes. His greatest hobby is girls. His father is pretty important in the school when the school kids make a mess. By the way if any of you girls are interested in going any where Saturday night, guess who and call him up.

Last week's Guess Who was Jerry Bingham.

Hy-Lands Study Club Met January 24th At Club Room

The Hy-Lands Study Club met in the club room Tuesday, January 24, with 13 members answering roll call with a famous American author.

A brief business session was conducted by the president, Mrs. Bill Edwards, after which the meeting was turned over to Mrs. C. L. Wilson, hostess. She in turn presented Mrs. Arthur Arnold who gave a wonderful book review on the much loved book "Huckleberry Finn". It was very interesting, and everyone enjoyed it.

Those present were: Mesdames Arthur Arnold, J. K. Bean, Milton Dudley, Bryant Eddleman, Bill Edwards, Don Garrison, Bertton Hughes, Robert London, J. E. Minyard, E. S. Stephens, H. R. Stephens, Arnold Turner and C. L. Wilson.

Cotton Producers Urged to Use or Return Acreage

Texas cotton farmers can plant more acres of cotton in 1956 than was harvested in 1955 if they make full use of the State's allocated acreage.

The Texas Stabilization and Conservation Committee points out that the 1956 cotton acreage allotted to Texas producers is 7,410,893 acres. Final figures released by the U. S. Department of Agriculture on the 1955 cotton crop shows that 6,860,000 acres were harvested in the state.

All farms in the state eligible for a cotton allotment have been assigned an acreage for 1956 plantings. The State committee urges all producers who do not intend to plant their allotted acreage to contact the local ASC office and return to the county committee any cotton acreage not to be planted. It can then be reallocated to producers in the county who have asked for additional acres. A final date has been set in each county for turning in the acres which will not be planted.

If the intentions not to plant are not known and the acreage not reallocated, the county loses the acreage and the farm gets no credit on its historical base. Acreage can be returned on both a temporary and permanent basis. A full explanation, says the state committee, can be obtained from the local county committee or from officials in the county ASC office.

Economist Gives Information on Poultry Outlook

The over-all demand for eggs and poultry is expected to remain good for 1956 but supplies of red meats which compete with poultry are expected to be high and prices lower, says John McHaney, economist for the Texas Agricultural Extension Service.

From the production standpoint McHaney says 1956 should be another year of record or near-record proportions for eggs, broilers and turkeys. Intentions of turkey breeders, shown by an October USDA survey, indicated that about 13 per cent more breeder hens would be kept nationally while Texas breeders indicated they would keep about 30 per cent more hens than last year. If these intentions are carried out, says the economist, the 1956 turkey crop would exceed the 1954 record.

Generally, says McHaney, the price situation during the past year has been favorable. Net income from farming, however, has continued to decline and farmers are looking for enterprises to bolster their returns. Poultry makes a natural choice for 1956, because of favorable recent experiences and lower feed prices.

Feed supplies are very large and presently both feed grain and vegetable proteins are costing less than a year ago. Chances are good, says McHaney, that poultry rations will average a little lower in 1956. Other production costs aren't expected to change very much.

Prices for eggs through most of 1956 are likely to average slightly lower than in 1955. Broiler prices, because of more production and competition from other meats, are also expected to average a little lower for the year. If the large turkey crop materializes for 1956, lower prices will be the result.

The inefficient poultry producer may find the going rough in 1956 for competition within the industry is keen. The secret of success is to produce a quality product in quantity and at a low per unit cost. Management thus becomes even more important, says the economist.

Mr. and Mrs. Joe Montague went to Amarillo Sunday afternoon to meet his mother, Mrs. Dan Montague, who has been in Denver, Colorado, for a couple of weeks where she visited her brother, W. C. Bryant, and her sisters, the Misses Bryant.

Rev. James M. Patterson and Messrs. Elbert Stephens, Buddy Travis and F. E. Hutsell took twenty three boys to Lubbock for a swimming party on Monday evening of last week. Several of the boys passed scouting tests.

Share Croppers Are Considered Self Employed

"Share croppers in the Texas Panhandle will be interested in knowing that they are generally considered self employed for social security purposes," announced John R. Sanderson, district manager, Amarillo Social Security Administration today.

"This means share croppers are building toward protection for themselves in their old age and protection for their families in case of their death. To qualify for this valuable family protection, they must have net earnings of at least \$400 from their farming operations in a year." Sanderson pointed out that

share croppers, like all farm operators, will report their earnings for social security purposes for the year 1955 by filing an income tax return with a farm schedule. Share croppers must file these tax returns with the district director of Internal Revenue, Dallas, early in 1956, in order to receive social security credits for their farming operations, even though they may not owe any income tax.

Under a recent interpretation issued by the Internal Revenue Service and the Social Security Administration, share croppers in the usual farming arrangement in this area would be considered as self employed. The landowner participating in the usual share-crop arrangement would be considered as receiving income from rent and would not have to report his income from his share of the crop for social security

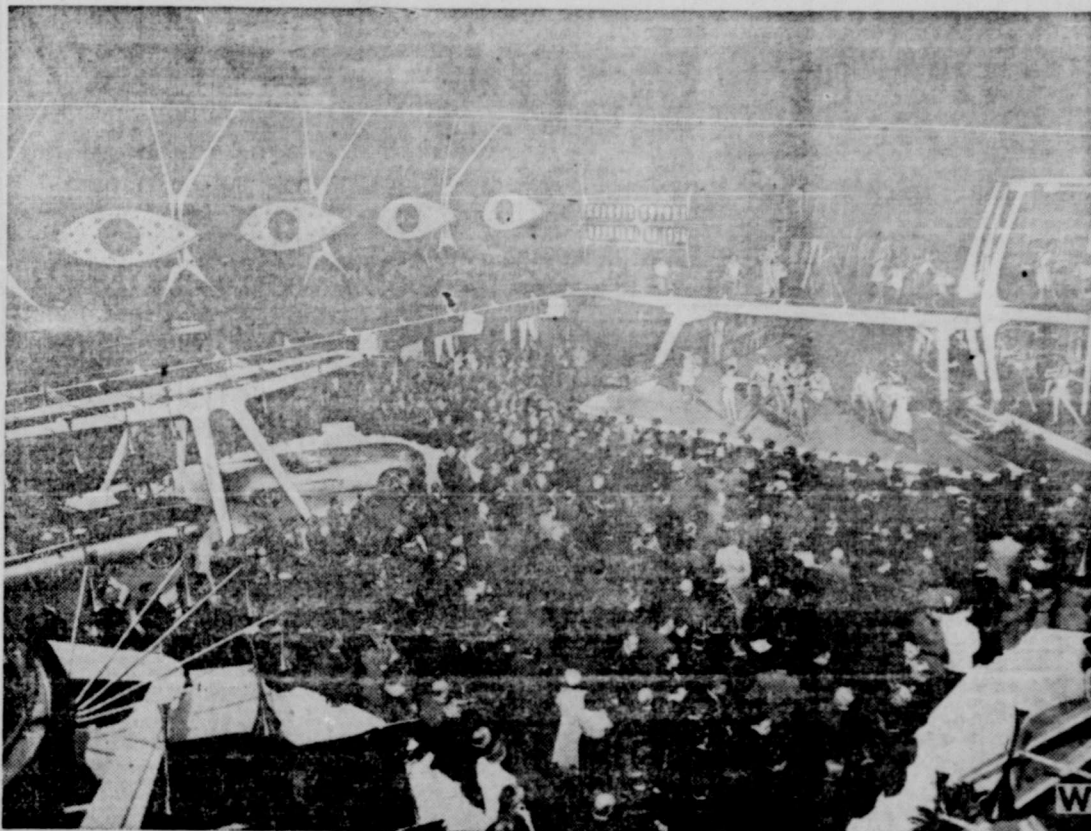

purposes, nor would he receive social security credit, Sanderson continued.

For tax return forms and other information relating to the filing of returns and tax obligations, contact the Internal Revenue Office at Amarillo. For information concerning your right to social security payments, contact your social security office at Amarillo.

Mr. and Mrs. Johnny Cagle and Rhonda, of Sunray, were dinner guests of his brother and family, Mr. and Mrs. H. A. Cagle and Patricia, Sunday evening.

Both the storm sash and the window unit are chemically treated to prevent sticking. The inside window is factory weather-stripped, which adds to the efficiency of the storm sash.

A storm window can be good looking as well as functional. A wood combination can easily be painted by the home-owner to match the warm color of the window trim. Decorators call windows "eyes" to the house.
