## Owls Win Season's Opener From Lakeview Eagles Friday 25-6

The Silvertown Owls won their season opener in District 2B competition over the Lakeview Eagles 25-6. This makes their record 4 wins to 1 loss.

The first quarter was even following Brad Wilson's kickoff. Silvertown took the ball on their own 11 yard line on a down, and after having one touchdown called back late in the quarter, Brad Wilson scored from the four yard line and passed to Bill Stephens for the extra point, to make the score 7-0.

In the second quarter Bill Baird won Silvertown the ball by intercepting a pass on Lakeview's 41 yard line. On the second play Brad Wilson passed to Bill Stephens on a 35 yard scoring play. Following a penalty, Brad Wilson ran the extra point to make the score 14-0.

On the following kick-off, Lakeview lost the ball on the first play when Troy Chitty recovered a fumble on the 19 yard line. From the 13 yard line Brad Wilson made a touchdown, but it was nullified by a holding penalty. Two plays later Bill Stephens almost scored on a reverse play, but the 85 pound half back, Jimmy Bounds, of Lakeview, stopped Bill on the 2 yard line. Deleath Peugh scored and Brad kicked the point to make the score 21-0.

On the ensuing kick-off Jimmy Whitfill stole the ball on Lakeview's 17 and Deleath Peugh scored on a 21 yard play straight through the middle. Brad Wilson kicked the point and the first half ended 23-0.

The second half was highlighted with the second team playing most of the time. Composed mostly of sophomores, with a few juniors and one freshman, the little boys had lots of fun. Sam Turner almost made a touchdown on fumble but was called back. In the fourth quarter, Bill Baird went 49 yards to make the score 34-0 and Brad's toe was true to make it 35-0. Royce Thornton, Dwain Henderson, and T. D. West showed up well.

In the closing seconds, Lakeview's Jerry Goudy took a 35 yard pass for the only Eagle tally and the game ended 35-6.

On Friday, October 12, the Owls play host to the mighty Wheeler Mustangs who rank quite high in by-regional ratings.

## Attend J. N. Hutson Funeral Services at Gordonville, Texas

Mr. T. J. Hodges and his nephew and wife, Mr. and Mrs. Oliver Hodges, of Amarillo, attended the funeral of J. N. Hutson, 85, at 2:00 p. m. in Gordonville, on Friday of last week. Mr. Hutson was survived by his wife who is a sister to Mr. T. J. Hodges. They had lived in that community during their entire married life of 63 years and in the same home for the past 52 years; Mr. Hutson had been an official in the Methodist church continuously for the past 43 years.

## Rev. Cecil Vaughan Called to Haskell Church as Pastor

Rev. and Mrs. Vaughan have announced that he has been called to the Assemblies of God Church at Haskell, Texas. Rev. Vaughan will conduct his farewell service Sunday, October 21, and the following week will move to Haskell to take up his work there.

## LOCAL LADIES ATTEND W.M.U. DISTRICT MEETING

Fourteen local women attended a Baptist W. M. U. district conference at Matador on Tuesday of last week. Two hundred women enjoyed a covered dish luncheon and received needed instruction on new rulings and regulations.

Mrs. B. I. Lee, of Odessa, arrived here early last week for an indefinite visit with her sister, Mrs. W. A. Rowell, and other relatives.

## P. T. A. SUPPER POSTPONED

The P. T. A. would like to announce to the public that our supper formerly announced to be held Friday night, October 12, will be postponed. Another date will probably be announced later.

## METHODIST MEN MEET

The Methodist men met for their regular semi-monthly breakfast on Tuesday morning. Thirteen men enjoyed breakfast cooked by Messrs. Eddie Cox and Orville Turner. M. G. Moreland, president presided and introduced Rev. G. A. Elrod who gave an interesting talk on hobbies; as most local folks know his special hobby is coonhunting and he gave that a special boost.

Miss Roberta Campbell and Buddy, of Hereford, and Mrs. Glenn Burnett and Linda, of Amarillo, brought Mrs. R. L. Campbell here on Friday; all enjoyed a visit with Mrs. T. L. Anderson. Mrs. Campbell remained for a longer visit with her sister, Mrs. Anderson, and other relatives while the others went on to Austin for a week end visit with relatives. All are former Silvertown residents.

Mr. and Mrs. P. L. Mills, of Farwell, spent Sunday here with her sister and family, Mr. and Mrs. V. B. Towle. The Mills family moved to Farwell some time ago where he is employed with the S. C. S.

Mr. and Mrs. Paul Stanford and daughters, of Lubbock, attended the McGavock burial here Sunday afternoon and visited her brother and family, Mr. and Mrs. James Davis.

### Ecuador Indians Defy Civilization For Centuries

WASHINGTON—The very sad slaying of five missionaries by Aucas Indians of eastern Ecuador has aroused widespread concern about the name and nature of these remote South American aborigines.

The term Aucas, says Dr. Stirling, does not refer to any particular tribe but is a Quechua term used in the Andean highlands to refer to any pagan Indian groups as contrasted with those who have been christianized.

### Palau Sea Snake Deadly as Cobra

WASHINGTON—Specimens of some of the world's most venomous serpents among the collections of the Smithsonian Institution include the sea snakes of the South Pacific.

Despite the fact that a bite almost certainly would be fatal to a human being, native children play with these snakes with complete impunity.

### Americans Consuming Less and Less Wheat

MINNEAPOLIS—In 1955 our 164 1/2 million Americans consumed almost exactly the same total quantity of wheat for food as only 91 million Americans consumed in 1909—about 475 million bushels.

But though our 1955 wheat crop of 908 million bushels was the smallest since 1943, it was still nearly 40 per cent larger than that of 1909, when we harvested 684 million bushels.

Meanwhile the average American's annual consumption of wheat for food has dropped from 5-1/5 bushels in 1909, when the Government started keeping such records, to less than 3 bushels per capita in 1955.

### New Rabies Vaccine Has Been Developed

URBANA, Ill.—A new vaccine to protect persons exposed to rabies has been developed, and some workers in the field of rabies research feel that it may have some of the properties long sought in this type of vaccine, says a veterinarian at the University of Illinois.

Out of some 10,000 exposures to possible rabies in the nation last year, about 10 persons actually got the disease.

### No Paradise

PORT MORESBY, New Guinea—"Paradise" Valley—discovered from the air amid New Guinea's high mountains—isn't really a paradise.

Patrol Officer J. P. Sinclair, one of the first outsiders to reach the "paradise" reported the natives secretive and suspicious, the valley itself the coldest and wettest spot I have ever known.

### Man-Hour Output Up Three Times Since War II

NEW YORK—Thanks largely to record investment and constantly improving technology, American industry today is close to a third more productive than it was at the end of World War II a decade ago, gauged by output per man-hour.

U.S. Bureau of Labor statistics indicate that production per man-hour in all manufacturing rose by around 30 per cent in the 1947-55 period. This represented an average rise of about 3 1/2 per cent a year for the period as a whole.

Here is a development of far-reaching importance for the future progress of the economy and the continued rise in the people's income and living standards. Over the long view, much of the increase in goods and services produced in the economy has been due to the rise in productivity rather than to the increase in number of man-hours worked.

### Coal Industry Said Far From Dying

UNIVERSITY PARK, Pa.—The coal industry is not dead nor is it dying.

Dr. H. Beecher Charnbury, professor and head of the department of mineral preparation at the Pennsylvania State University, says that, on the contrary, the coal industry is looking forward to increasing growth in future years to meet the demands of our increasing population.

The coal industry in this country has averaged about 500 million tons each year since 1920," Dr. Charnbury said, "and expects to produce about 700 million tons by 1985 and one billion tons by 1975."

He said that the false impression people have of a dying coal industry has resulted from bad impressions people received in railroad areas and because of the more glamorous attention received by atomic and solar energy.

Outlining the processing methods used in the coal industry, Dr. Charnbury said that at present only 5 per cent of the total coal produced is sent to industrial markets and 95 per cent is subjected to preparation, including crushing, sizing, and mechanical cleaning.

### Eye Discomfort Chief Cause of Headaches

CHICAGO—Although headaches can come from a number of different causes, they are very frequently associated with eye discomfort and a statistical review shows close relationship of exacting eye work to headaches.

Headaches occur most often up to the age of 20, then decrease slowly until at 60 or more only 25 per cent of the people are subject to them. They bother college students most, and to a lesser degree executives, professional men, housewives, and clerical workers.

Nearsightedness, farsightedness, and astigmatism—particularly in its milder forms—are to blame for many headaches. Crossed eyes and other forms of muscular imbalance also rank among the leading causes. Other offenders are such eye diseases as conjunctivitis and acute glaucoma.

### Winter Deaths From Fire, Burns Heavy

NEW YORK—Accidental loss of life from fires and burns by other means is nearly three times as high and that from poisonous gas five times as high in the winter as in summer, according to a study by statisticians of Metropolitan Life Insurance Company.

Both classes of fatalities are associated largely with the increased use of heating facilities. Many poisonous gas fatalities result from improperly installed or defective heaters.

### Busy Bees in Iowa

DES MOINES, Iowa—Statistics show Iowa farms produced an estimated 18,975,000 pounds of honey last year to rank the third state in the nation among commercial honey producers.

## JAYE M. TURNER TO RECEIVE GOLDEN KEY OF THE AMERICAN FARMER DEGREE

Seven years of vocational agriculture and FFA activities will come to a climax October 15-18 to Jaye M. Turner, son of Mr. and Mrs. Arnold Turner who live two and one-half miles northwest of Silverton.

At the National FFA convention in Kansas City, Missouri, Jaye will receive the gold key of the American Farmer degree, the highest award possible in FFA activities.

In 1949 Jaye was a typical farmer youth enrolled in Va. I with an agriculture teacher fresh out of Texas A. & M., G. H. Bunch. After receiving his "State Farmer Degree" in 1953, following an outstanding high school record, Jaye spent two years continuing vocational agriculture in college at Tarelton State College. In June 1955, Jaye came back home and in cooperation with his father is actively engaged in farming.

Accompanying Jaye to Kansas City will be Harold Edwards, as chapter representative from Silverton to the 1956 National FFA convention.

## Ike Better Democrat Than Adlai, Says Supporter

A bunch of us were standing around talking the other day, and the talk got around to politics like usually does. Some of the boys said they'd voted for Ike in '52 and were going to do it again; some of them said they'd always voted the Democratic ticket straight and always expected to—you know how it goes around a little Texas town.

One fellow said something that made the rest of us stop and think. He said he was a Democrat, sure—always had been, and his father and grandfather before him. And he always felt like he had no vote for the best Democrat in the race, which he was going to do this year.

"And that means," he said, "that I'll have to cast my vote for Ike Eisenhower. He's a better Democrat, by my definition of a Democrat, than that other fellow ever will be."

And besides that, he said, Ike kept his promises to Texas and Texas ought to return the favor by keeping Ike.  
You know, he might have had something there. "Gratitude" is one of the greatest words in the English language, and we all like to think of ourselves as being grateful when people do something for us. Like I heard a man say one time: "Texans are people who never forget anything that is done to them—or FOR them." That's the way we think of ourselves, and it's about right.

This Eisenhower man pointed out that Ike promised to give the Tidelands back to Texas, and he kept that promise; he promised to do his best to close out Mr. Truman's war in Korea, and he kept

that promise, and he promised to give us a government in Washington that we could be proud of, because it was clean and honest and efficient—and, in this man's opinion, he had kept that promise.

"I know you're reading and hearing a lot of stuff to the contrary," he told us, "coming from Brother Stevenson and Brother Kefauver and the rest of the politicians on the other side. That's politics for you. Everybody expects them to jump on Ike every way they can, and I guess they'll keep on doing it right up to Nov. 6. But the American people are smarter than some politicians give them credit for being, and before they vote they're going to sit down and ask themselves this question:

"Remembering 1952, when our boys were dying in Korea and the newspapers were full of talk about mink coats and Communists and corruption in Washington—now, he honest about it: If you could, would you go back to 1952 and start over with Adlai Stevenson instead of Dwight D. Eisenhower?"

This man said he wouldn't, and come to think of it, I wouldn't either. As a matter of fact, I think Ike has made us one of the best presidents we ever had. If we had to go to war, I'd certainly rather have him at the head of our government than any other living American. But even more importantly—I'm convinced he is the best man to keep up OUT of war.

That's why I still like Ike—better than ever!

Yours truly,  
*Tex*

Interest Paid on Savings Accounts

\* "Yes...

I Picked It Up in the City"

\* a useful phrase for impressing neighbors with the way we get around

but it comes high

FOR some strange reason, a lot of us are inclined to take more pride in some article that we have bought in a Big City Store than we do in an identical item bought at home.

PERHAPS a shirt or a hat, for example, bought in the City, becomes a sort of souvenir of our travels — a reminder of a pleasant break in the routine of life — instead of just another garment.

QUESTION IS . . . how high can we pay to indulge this little human quirk?

A DOLLAR SPENT away from home is a dollar less business in our community. Hundreds of thousands of these dollars ARE being spent that way every year by folks who live here. THAT MUCH MORE MONEY circulated in our community would supercharge its vitality.

CAN WE AFFORD to pass up the extra values that home-spent dollars give us in better schools, more jobs for more people, more prosperous businesses able to do a better job of serving our urgent daily needs?

ISN'T THE PRICE TOO HIGH . . . this whittling away at our own community's economic life . . . isn't this too much to pay for a few relics of our travels to the City?

### NOTICE!

Notice of County's intention to receive bids for the purchase of certain road machinery and to issue time warrants to evidence the indebtedness to be created therefor.

SEALED PROPOSALS addressed to J. W. LYON, JR., County Judge of Briscoe County, Texas, at Silvertown, Texas, will be received at the Office of the County Judge until ten o'clock A. M., on the 22nd day of October, 1956, for the purchase of the following road machinery for the maintenance and improvement of the roads in and for said County, to-wit:

One Crawler type tractor, approximately 85 H. P. equipped with: Electric Starter; Hydraulic Dozer; and Hydraulic Scraper.

BIDDERS shall consider the following described machinery now owned by Briscoe County, to-wit: One Used TD-18 International Tractor with Cable Dozer and Scraper for trade-in allowance in connection with their proposals for sale of the above described tractor.

SUCH PROPOSALS will at said time be publicly opened and read before the Commissioners' Court.

A CERTIFIED CHECK, or CASHIER'S CHECK in the amount of five per cent (5%) of the amount of the bid, must accompany each bid.

IT IS THE INTENTION of the Commissioners' Court to pay all or a portion of the purchase price of such road machinery by the issuance of and delivery to the proper contractor or contractors, the legally issued time warrants of said County, bearing interest at a rate not to exceed 4 1/2% per annum, payable annually or semi-annually, which said warrants shall not exceed the principal sum of FIFTEEN THOUSAND DOLLARS (\$15,000), and the principal of said warrants shall be payable serially, the maximum maturity date to be not later than December 31, 1963. The County guarantees that the contractor or contractors will receive face value for such warrants when and as the same are issued and delivered.

THE RIGHT is reserved by Briscoe County to reject any and all proposals and to waive all technicalities.

ALL BIDS will be retained by the County and will not be returned to the bidders.

J. W. LYON, JR. County Judge, Briscoe County, Texas. 40-2tc

### All Government Now Costs People Near \$100 Billion

NEW YORK—The cost to the people of Government in the United States—Federal, State and local combined—is heading for the \$100 billion a year mark and seems certain to reach it in 1956 for the first time.

Figures compiled by the U.S. Department of Commerce show that aggregate receipts at all levels of Government crossed the \$97 billion level in 1953 to hit a new high. This figure was the equivalent of more than 39 cents of every dollar of the record national income for the year, and represented about \$830 for every man, woman and child in the population. All the indications are that the trend is still upward, not only in the Government's "take" out of the economy but in expenditures as well.

This development tempers the satisfaction that would otherwise be felt in the fact that the Administration has projected a balanced Federal budget for the current year and the following one, according to the budget message to Congress. In view of the world situation and the heavy burden of defense, a balanced budget would be an achievement of fundamental importance to the economy. However, it still leaves unsolved the problem of the high cost of Government in this country and the twin needs of tax and debt reduction.

A balanced budget has been the Administration's objective since it took office three years ago, and its achievement has been accompanied by an economy drive that cut \$10 billions from Federal expenditures since the 1953 fiscal year.

### Chance of Living to 100 Twice as Good

MINNEAPOLIS—Chances of living to age 100 are twice as good now as they were only half a century ago.

Of the nearly 20,000,000 babies born in the past five years, 80,000 should live to be 100 years old, says the family economics bureau of a national life insurance company. Out of an equal number born in the early 1900's however, only about 40,000 would be expected to reach the 100-mark.

Of the total white American population living today, approximately 500,000 will live to be 100, on the basis of present trends. Out of each 100,000 babies born in 1900, a total of 200 should survive to see the year 2,000. But of each 100,000 born in 1950, approximately 400 should live to see 2,050 A.D.

### Teen-Age Deaths Due Mostly to Accidents

NEW YORK—Accidents are responsible for 6,000 teen-age deaths yearly, with motor vehicles the cause of a great number of the fatalities.

Among boys five to fourteen, the loss of life from accidents is seven times that from acute poliomyelitis, and nine times the loss from pneumonia and influenza combined. Among the older elementary school boys—those at ten to fourteen—accidents take a greater number of lives than all other causes combined.

Motor vehicle mishaps account for two-fifths of the fatalities among children of elementary school age. Drownings rank second as a cause of accidental death among children, causing about one fourth of the fatalities. Other causes contributing in appreciable measure to the total are burns and conflagrations, firearms accidents, and falls.

Mr. and Mrs. Lowell Rowell and family, of Guyton, Oklahoma, spent the week end here and in Plainview with relatives. They were guests of his mother, Mrs. W. A. Rowell. Mrs. Lowell Rowell, who had been staying with her mother, Mrs. E. L. Strange, returned to her home.

Mr. and Mrs. Rex Long and Mike, of Alanreed, spent Friday and Saturday here with her parents, Mr. and Mrs. Dick Bomar, other relatives and friends.

Mr. and Mrs. Luke Thompson and LaGuna were week end visitors with his sister and family, Mr. and Mrs. Gail Pyburn, in Abilene.

### Computers Can Make Decisions

LOS ANGELES—Electronic computers can store and "make" many of the routine business decisions now handled by so-called middle management.

This is the conclusion of Paul Kircher and George Kozmetsky in a new book, "Electronic Computers and Management Control," published by McGraw Hill.

Kircher is associate professor of accounting at U.C.L.A. Kozmetsky is director of the Computers and Controls Division of Litton Industries.

In the first non-technical book describing both electronics computers and operations research, the authors explain why these new developments are so important for all types of businesses, both large and small.

They describe dozens of actual applications, including mistakes made in early computer installations and what has been learned from them.

### Money in Circulation Levels at \$31 Billion

NEW YORK—The amount of currency in circulation seems to have stabilized around the \$30-31 billion level since 1952 after its rapid rise from 1939. Factors in this connection are the comparative steadiness of the cost of living in the last few years, reflecting some ebbing of inflationary concern, and the growing popularity of savings and other thrift institutions as a safer and more productive haven for cash than the "sock."

At the end of last November, there was a total of \$31 billions of U.S. currency in circulation, according to the Federal Reserve System, equivalent to around 8 per cent of gross national product for the year. The equivalent ration in 1950 was just under 10 per cent and during World War II was as high as 14 per cent. The current relationship between currency in circulation and gross national product is about the same as it was in 1939.

### Gecko Lizard Skins Way Out of Danger

WASHINGTON—There is an animal that can get out of its own skin.

### Apparent Improvement In Traffic Death Rate

NEW YORK—Motor vehicle fatalities in the first three months of this year resulted in death claims under 10,000 life insurance policies, representing death payments of \$20,000,000, according to the Institute of Life Insurance.

This is the third consecutive first quarter to show the same number of death claims, and the constantly increasing number of lives exposed would indicate some improvement in the traffic death rate.
