Annual Homecoming Saturday, Nov. 17th For College Students

Canyon—West Texas State chefs will have more than 6,000 mouths to feed if everyone expected for the annual homecoming celebration shows up. On Friday, class members will have a get together at the home of Dr. R. P. Jarrett, and will have a reunion meeting Saturday morning. Highlights on homecoming include registration at 8 a. m., the usual parade in downtown Canyon at 10:30, the famed WT barbecue at noon, a football game between the Buffaloes and Texas Western at 2 p. m., club teas, parties and smokers at 4:30, and the homecoming dance at 8 p. m., concluding the day's activities.

It is these two things that the present generation of farmers have failed the worst, stated Mr. Saul, and it will be up to you young people in your 4-H Club work to begin to correct these two things. He said it was not too late to begin now on these two items. Mr. Saul praised the Land Grant College System for its service and achievements of agriculture. The Land Grant College, The A. & M. College of Texas and its Extension Service, that has fostered education to farmers and rural groups and to its youth through the 4-H Clubs such marketing problems have been brought about by failure of marketing to keep pace with production.

"Other awards went to Lynn McDonald and Melvin Cobb in Farm and Home Safety. Their work in farm and home was largely responsible for Briscoe County being awarded the Blue Safety Award for excellent work being carried on. Meat animal award went to David Schott. David was the winner of the County Grand Champion Steer this year.

LARGEST CIRCULATION IN TEXAS. OVER 220,000 DAILY AND SUNDAY

AMON G. CARTER, JR. President

How Much Does It Cost You

*when your neighbors
go out of town to buy?*

We may think . . . when one of our neighbors buys a shirt, or a car, or a hot water bottle in the city . . . that it's nothing to us . . . unless we happen to be trying to make a living in the shirt, or car, or hot water bottle business here in this community.

But . . . as a matter of fact . . . every time a dollar leaks out of local circulation, it hurts everybody who lives around here.

Because . . . financial anemia is a very contagious disease. Trade volume . . . the lifeblood of every community . . . when drained off to invigorate some other place . . . leaves us weaker, our schools and churches poorer, job opportunities fewer, our own businesses less profitable, our property worth less, our

living standards lower, and important help and services less convenient to us.

On the other hand . . . Prosperity is also contagious.

Every single dollar that stays here at home turns over again and again as long as it's here . . . to account for two, three, or more times it's value in increased local trade volume . . . to keep every single one of us in better economic health.

*It Pays to Buy
where You Live*

YOU get everything that your money pays for . . . merchandise AND a trade- invigorated community to live in . . . when you buy from your home town merchants . . .
