Silverton Independent School District

Tax-Man Sam Sez:

By this time of the year, you should have all of your W-2's from your employer or employers for 1957. A lot of us only have the copy left because we have already filed our tax returns and are looking for our tax refund checks. Quite a few of us have already paid the additional tax that we owe and aren't going to worry about this tax business until next year, even if it is good business to keep records and read the tax instructions throughout the year before we make business and personal transactions.

In case you haven't gathered together your W-2 forms, your tax records, and started working on your tax, you better start gathering right now. The Internal Revenue Service requires all the W-2 forms. Don't forget to get all of them and send them along with your tax return so that Uncle Sam won't have to write you a nice little letter asking for them.

When excess moisture is removed, strength and rigidity are increased to a marked degree. The wood sustains its dimensional character. When lumber is seasoned, sawing, planing, sanding and drilling are easy.

Every piece of lumber bearing the brand name "Weyerhaeuser 4-Square" has been carefully seasoned. Every piece offers you the benefits of kiln-drying plus many other Weyerhaeuser lumber refinements.

Protect your building investment. Use this uniformly high quality lumber. We stock a wide variety of superior kiln-dried lumber items.
