ANDY ROGERS MAKES FORMAL ANNOUNCEMENT AND GIVES SOME OF HIS VIEWS

ANDY ROGERS, 30TH SENATORIAL DISTRICT

blobs have done well for themselves in Austin. But their position is now threatened. They are desperate to continue feathering their nests at your expense, to protect their "darlings", and to gain new ones.

I am on their list for extermination. They will stop at nothing and stoop to anything. Their methods of political slander, deceit and legislative control have been perfected to an art. And, as has been said, "the perfection of art is to conceal art."

It is well known in Austin and Dallas that the Top brass of the loan-sharks, electric utility monopolies, gas pipelines, the liquor lobby and others are licking their chops over the slick tricks and schemes they have cooked up to deceive you about your Senator.

Actually, theirs is an old tune with a few new verses—only a little face lifting to bring their show up to date. I have suffered economically, socially and politically at their hands. But I have not run from them in the past, and I will not do so now or in the future.

TAXES AND ECONOMY

There is no need for either a sales or income tax for Texas. No other state has ever abused its citizens on tax matters as has Texas. A few examples: Nearly 55% of present taxes collected in Texas are consumer (or "hidden") sales taxes. The consumer gasoline tax take is more than that paid on all crude oil. The consumer cigarette tax is larger than the total natural gas tax. Other states, even communists, can buy our gasoline tax free, but you pay 5c per gallon. Other states tax OUR natural gas up to ten times as much as we do. Roughly, 70% of both of these Texas products are consumed outside of Texas. Few of the really big industries in Texas pay more than a proportional TOKEN of taxes, compared with the average businessman, farmer and worker.

Last year two (2) groups had their taxes reduced—natural gas producers and part of the Texas electric utility monopoly. Two (2) groups had their taxes raised—10% increase on YOUR car and truck licenses and a doubling of tuition on students of State Colleges.

CONCLUSION:

Stating such facts is often political suicide in Texas, but we merely need legislators who will see that these out-of-state corporations pay their share of the load while exploiting our resources. I have fought for this.

LABOR

I will continue to fight to maintain a strong and workable RIGHT-TO-WORK law in Texas. This should be supplemented by a little Taft-Hartley law for Texas, as our present labor laws are a hodge-podge and leave loopholes unfair to business, labor and the public.

APPOINTMENTS AND MORE REPRESENTATION

I was one of a dedicated group that forced legislative redistricting. West Texas gained NINE new Representatives and THREE new Senators thereby.

For the first time in history, since I have been your Senator, our immediate area (District) has had a Chairman and member of the Highway Commission, Chairman of the Water Engineers: The State Water Planning Board, the State Dental Board, the State Optometric Board, the Public Safety Commission, two of seven members of the State Board of Colleges and others.

These appointments are made with the advice and consent of the State Senate. Such things don't "just happen", and have never happened to us before.

SCHOOLS AND COLLEGES

Our young people are our greatest resource. In 1952 I stated that we were "destroying our future with a false economy school program". We have made some ad-

ERNEST ADAMS, BOYS RANCHER, RECEIVES THANKS OF PETE MARTINEZ

A shy, slight Boys Rancher, Ernest Adams, receives the thanks of Pete Martinez, a buddy whose life he saved recently, and Cal Farley, founder and president of Cal Farley's famous Boys Ranch, near Amarillo, Texas.

At the nationally-known haven for homeless boys, the older boys frequently supervise groups of younger boys during leisure or play periods, and during such a period, Pete was taking four small boys for a walk.

Because swimming season was approaching and because the little boys were excited that they were going to be in this summer's beginners swimming class, they asked Pete to take them for a look at the swimming pool. As they were walking across the rock wall dam there, Pete explained to them that the bigger boys like to take hold of the rope hanging from one of the giant cottonwoods that border the pool, swing out over the water, then drop into the water.

Like all youngsters, the little boys were delighted with this idea, and begged Pete to "show us." Amiable and obliging Pete took the rope and executed a demonstration swing, but just before he reached the dam, the rope broke and Pete, falling, struck his head against the embankment and plunged unconscious into over six feet of water.

The little boys, terror-stricken when their buddy didn't come to the surface, started screaming. A group of older boys who were working on their saddles in the nearby barn heard them and came on the run to help, Ernest Adams in the lead.

Without breaking his stride, Ernest kicked off his boots and, fully clothed, dove into the water and brought Pete to the surface. By this time the other boys and their instructor had also reached the dam and the staff member immediately gave Pete artificial respiration, after which the boy was rushed to a hospital.

Pete and Ernest have been friends at Boys Ranch for several years, and Ernest, although reluctant to discuss his feat of heroism, says, "Well, sure, anybody's going to help out a buddy, if he can."

Moisture Received Amounted to 1.18

Rain received Friday night measured 58 inches of moisture and Monday morning the gauge measured .60, making a total of 1.18.

Parts of the county received much more rain than was received in town. Farmers report the rain was just right for the cotton and row grain. Some wheat and barley is yet to be harvested, when the fields dry out enough. Generally the wheat harvest is about over in Briscoe County.

One law I authored, which equalized our share of the State's school financial burden, has ALREADY saved our fifteen county Senatorial District nearly TWO (2) MILLION DOLLARS (from your pocket) in only 4½ years.

AGRICULTURE

The economy of our Senatorial District is based, first and last, on agriculture. No present member of our State Legislature has a record to surpass my efforts in this field. This record was made on such legislation as has been requested and approved by the farmers, ranchers and businessmen of our District. Andy Rogers's record includes accomplishments and efforts regarding underground and surface water, rural roads, seeds, feeds, "gas for irrigation," experiment station work, animal health, the Extension Service and many others.

I STILL believe that in Austin, as elsewhere, "moral integrity is needed most." I will conduct no smear campaign; I will stick to the record and the facts.

YOU, the people of our agricultural 30th Senatorial District, elected Andy Rogers to be your State Senator in 1952 by an overwhelming majority for one-half (½) a term. In 1954 you gave me a full four-year term without an opponent.

It has been a privilege and an honor to be your State Senator. With humility and sincerity, I ask for the opportunity to continue to serve you.

ANDY ROGERS.

Hereford, Tex., Man Reports—
**2 Bale Per Acre Cotton
Using Phillips 66 Ammonia**

J. F. Martin, who farms 1,720 acres near Hereford, Tex., says: "I put down Phillips 66 ammonia pre-plant on my irrigated cotton and made 2 bales to the acre. I also use Phillips 66 Agricultural Ammonia on my wheat and maize land with good results."

Other Southwestern farmers have discovered that 82% nitrogen from top quality Phillips 66 Agricultural Ammonia helps them get more profit per acre through higher yields. They get more cotton that classes higher at the gin... yields of sorghum grain and ensilage are increased... more marketable vegetables are harvested... and profits on wheat are increased through better forage and higher yields of grain.

Phillips 66 Agricultural Ammonia contains 82% nitrogen and gives you more nitrogen per dollar than any other form of commercial fertilizer available.

Among Those Who Know the Candidates Best

It's
JOE GREENHILL
by more than
3 to 1
FOR THE
TEXAS SUPREME COURT

A statewide poll of the legal profession, conducted by the State Bar of Texas, shows the vote to be:
JOE GREENHILL 5,844 votes
His Opponent 1,727
This is the overwhelming verdict of members of the candidates' own profession after carefully weighing their qualifications and experience, studying their record and considering their judicial temperament and personal integrity.
The lawyers of Texas have thus joined farmers, ranchers, merchants, laborers, businessmen and other professional people in supporting the candidacy of Judge JOE GREENHILL, because all of them want to keep a fair, honest and sincere judge on the Texas Supreme Court.

THIS IS A
DROOPIN'-TROUPER!

... it's got the high-road droops, the low-road poops! It turns vacation into vexation.

THIS IS A
TRIP-ZIPPER!

THIS IS
THE MAN

... it's got high-low, hot-cold, town-country conditioning. It's as good on the long-haul as on the short-pull.

... who fills the Droopin'-Trouper with Trip-Zipper! He's the motorist's best friend because he puts playcation into vacation.

However light-hearted you are on vacation, you'll find that from Wyoming to Texas, Kansas to Arizona, one thing you can take seriously is SHAMROCK QUALITY...

Quality You Can Measure by your car's Performance
