## P.T.A. Sets Membership Month

### They'll Knock On Igloo Doors In Newest State

When more than eleven million P.T.A. members open their annual Membership Enrollment month this October, they will be "knocking on every door" to advance the welfare of children.

Some of those doors may open to the oldest dwellings in the Western hemisphere—stone igloo homes in Alaska, scheduled to become the nation's 49th state.

Here, as throughout the U.S., the National Congress of Parents and Teachers will seek to add some half-million new "parents, teachers or friends of children" to what is already the nation's largest voluntary service organization.

"Home is the child's first school," explains Mrs. James C. Parker, president of the National Congress of Parents and Teachers, whether it's in Point Barrow, Alaska, or the continental U.S. Here, Chicago school children examine picture of Eskimo family standing under strips of caribou meat outside their far north home. In proclaiming October as P.T.A. Membership Enrollment month, Mrs. Parker points out that development of P.T.A.'s in Alaska, soon to become the nation's 49th state, parallels the organization's pioneering days in this country.

teachers and government workers regularly make trips "back in the bush" to hunt and fish for food for their families—and store it in modern freezers.

—Where the airplane is the accepted means of travel between cities, but where the number of sled dogs is increasing.

—Where teachers in schools with large Eskimo or Indian populations must teach a second language—English—to many of their charges, while other schools, especially those on U.S. army bases, maintain typically American libraries, theaters and bowling alleys as part of their recreation program.

—Aims of the National Congress membership month will apply

equally well in this dynamic new state, Mrs. Parker pointed out, as in its member organizations throughout the continental United States, in Hawaii and on American military bases in Europe.

"For the primary purpose of the P.T.A.," she explained, "is to safeguard children, to build for the future in such a way that in every community the lights of home may always shine out."

In designating October as the period for membership enrollment, she called upon "every parent-teacher member to knock once more on the door, and at the heart, of every American, so that all of us, working together, may make America the best possible home for all our children."

Leaving Silvertown the group drove to Albuquerque, New Mexico, and spent the night with Gene's sister and family, Mr. and Mrs. William Mototan and children.

They went to Las Vegas, Nevada to Los Angeles, California, where they visited Mr. and Mrs. Mel Jowell and family for five busy days. They visited Marineland, Disneyland, the Farmers Market and went to the beach; in fact they went so many places and saw so many things they can't name them all.

As they were leaving for home Jowell fell against the car and cut a small place above his eye; a trip to a hospital for a few stitches delayed them only a short time.

They spent one night in Phoenix, Arizona, and got home in two days. Joel was a fine traveler, a good mixer with strangers and scarcely complained of his injury; all had a good time but were glad to get home. A trip to a Tulsa doctor on Monday to remove the stitches from Joel's injury and he seems as good as new again.

Castro County Man Reports—

### 100 pounds of ammonia made 51-bushel wheat

Dan J. Heard, a successful Dimmitt, Tex., farmer, says: "I put down 100 pounds per acre of Phillips 66 Agricultural Ammonia pre-plant on my irrigated wheat and made 51 bushels per acre average on 108 acres. I'm sold on the dollars-and-cents value of applying Phillips 66 ammonia to my wheat land."

Other successful Southwestern farmers use Phillips 66 ammonia to give them higher grain yields... and more profitable grazing. The 82% nitrogen in Phillips 66 Agricultural Ammonia gives young wheat a fast start, supplies plenty of lush, protein-rich forage that puts on more beef at less cost per pound.

Many of these farmers plow down Phillips 66 ammonia in the fall on maize land. They know that the 82% nitrogen helps decompose crop residue, to provide extra plant food and make the soil more productive. Remember, Phillips 66 ammonia gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

Pecan Pie Dessert

The cook in the Deep South has used the home-grown products, pecans, rice and syrup to make a dessert so wonderful you'll never forget it!

It takes 40 minutes baking to toast the pecans and blend the vanilla, eggs, butter and dark syrup into a heavenly sweet. Use one of your fancy baking dishes and serve this dessert from the baking dish at the table. This dessert is so delicious it deserves a ceremony of some sort!

#### INGREDIENTS:

- 2/3 cup uncooked white rice
- 1 1/2 cups water
- 1 teaspoon salt
- 3 eggs, beaten
- 1 1/2 cups dark corn syrup
- 1 cup granulated sugar
- 3 teaspoons vanilla
- 3 tablespoons melted butter
- 1/2 cup milk
- 1 1/2 cups coarsely chopped pecans

METHOD: Put the rice, water and salt in a 2-quart saucepan. Bring to a vigorous boil. Turn the heat down low. Cover with a lid. Simmer over this low heat 14 minutes. Remove the saucepan from the heat but leave the lid on 10 minutes.

While the rice cooks, mix together the eggs, dark syrup, sugar, vanilla and butter. After the rice cooks, stir in the milk. Cover and cook over low heat until the milk is absorbed. Stir occasionally. Press the rice over the bottom of a glass pie plate or shallow baking dish holding about 6 cups. Just before baking, pour the egg-syrup mixture over the rice. Sprinkle with the pecans. Push the pecans into the syrup mixture. Bake uncovered, in a pre-heated 350° F. oven 40 minutes. Serve warm. Top with vanilla ice cream or whipped cream, if desired. This recipe makes 8 generous servings.

### SOCIAL SECURITY AMENDMENTS WILL PROVIDE INCREASED PAYMENTS

The Social Security Amendments of 1958 will provide increased monthly payments to about 13,400 people in the Panhandle, beginning with the checks which are due in February 1959, according to John R. Sanderson, Social Security District Manager in Amarillo.

The amount of the increase will be about 7 percent, although increase in some checks will be slightly more than 7 percent and it will be slightly less than 7 percent in some others.

People who are already getting social security payments do not need to apply for the increase. It will be automatically added to the checks for January, which will be mailed out early in February.

Under other changes made by the new law, social security benefits will become payable to a number of people not previously eligible for payments. They must, however, apply to their social security offices before payments can start. Among the groups now eligible because of the amendments

are dependent people who are 50 or over and now getting disability insurance benefits (children under 18 or disabled; a wife of any age who has a child in her care who is entitled to benefits; a wife 62 or over, or a dependent husband 65 or over).

Disabled people 50 or over who did not qualify for benefits under the old law because they did not have as much as 1 1/2 years work in the 3 years before they were disabled. (A total of at least 5 years of work under the law is required).

Dependent parents whose son or daughter died after 1939 and who did not qualify for benefits under the old law because the son or daughter left a widow, widower, or child.

Adopted children whose adopting parent began receiving retirement benefits less than 3 years after the adoption. (In many cases this provision will also make possible payments to the mother of the adopted child).

A person receiving benefits who marries another person also receiving benefits can continue to receive monthly checks, or can become eligible as a dependent of the new husband or wife without waiting three years.

Some people in situations similar to those mentioned above may not have applied for benefits in the past and been notified that they did not qualify for payments. These people should get in touch with their social security district offices promptly about filing new applications, Sanderson noted.

Disabled workers whose social security disability benefits were reduced or were not payable because workmen's compensation or other Federal disability payments will begin to receive the full amount of their social security disability payments. (These people do not have to file applications. Their social security checks will be mailed automatically with checks mailed out early in September).

Beginning January 1, 1959, the social security tax rate for employees and employers will be 2 1/2 percent each. The rate for self-employed people will be 3 1/4 percent. These rates are scheduled

to increase every 3 years until they reach 4 1/2 percent for employees and employers and 6 3/4 percent for self-employed people in 1969.

Starting with 1959 the first \$4,800 of earnings in a year will be taxed for social security and will count toward social security benefits.

The Amarillo Social Security District Office is at Room 324 New Post Office Building. It is open from Monday through Friday, from 8:30 a. m. to 4:30 p. m.

Mr. Sanderson emphasized that it is not necessary for people already receiving monthly payments to apply for the automatic increase. It will be added to the January checks, which will be delivered

monthly in February.

"Inquiries about the automatic increase will slow down our effort to start payments promptly to the people who can now get payments for the first time," he said.

PANHANDLE SOUTH PLAINS FAIR

**FAMED WATER BALLET CAST**, widely publicized stars of Water Follies of 1958, will be featured in nightly performances in Fair Park Coliseum September 29, October 4 during the 41st Annual Panhandle South Plains Fair. Water Follies of 1958, the same that thrilled spectators at the Worlds Fair in Brussels, will feature music, dancing, comedy, trick diving and colorful stage revues.

**DUCK POPULATION SHOWS DECREASE ACCORDING TO WATERFOWL RESEARCH**

A significant and serious decrease in the Canvasback duck population was reported Thursday by Albert Hochbaum, director of the Delta Waterfowl Research Station.

He told the quarterly executive meeting of the Manitoba Fish and Game Association that experts now believe 90 per cent of the canvasbacks flying south each fall are killed by hunters.

**HALL COUNTY PICNIC WILL BE HELD SEPTEMBER 21, 1958**

Just a note to remind you that the date of the annual Hall County Picnic is Sunday, September 21. Again this year, it will be held in the Memphis City Park. We are expecting from 3,000 to 5,000 to attend this year. Bring your basket lunch. Plenty of ice water will be furnished.

Make your plans now to attend. It will be a fine opportunity to renew acquaintances, and visit friends and neighbors. Tell all ex-Hall Countians they are invited also.

Sincerely,  
J. CLAUDE WELLS.

**CENTURY OF PROGRESS STUDY CLUB MET WITH MRS. DAVIS**

The Century of Progress Study Club marked the opening of the 1958-59 club year with a coffee in the home of Mrs. James Davis, chairman of the year book committee.

Mrs. C. D. Bomar gave an address and conducted a business meeting.

We are very glad to welcome as a new member Mrs. J. W. Reid.

A preview of the year book was given by Mrs. James Davis. The course of study for this club year is "Living With The Arts."

Coffee and rolls were served by Mrs. James Davis, Mrs. Pat Northcutt and Mrs. Wayne McMurtry.

Members present were: Mesdames E. A. Birdwell, C. D. Bomar, L. D. Griffin, Gene Grundy, Robert Ledbetter, George Long, Joe Montague, J. W. Reid, John E. Simpson, Norman Strange and Jack Strange.

**FAMED TV QUIZ CLOSED DOWN; CHARGED WITH A "FIX"**

"The \$64,000 Challenge," one of TV's most publicized quiz shows, was yanked off the air Friday less than a week after charges of a "fix" were made against it.

The program, scheduled to move to NBC-TV after this Sunday's telecast on CBS-TV, will be replaced by a special news program.

An agency executive said matches in progress as of last week will be considered ties and contestants will split the money. Teddy Nadler, billed as the king of the quiz shows, left his New York hotel Friday morning for his home in St. Louis, having won a total of \$264,000 on quiz shows. He already has collected \$252,000 and the balance will be paid him immediately, it was learned.

"Battle Hymn of the Republic," written by Julia Ward Howe, was first published in the Atlantic Monthly in 1862.

Dictionaries at the News Office.

**WATER FOLLIES CHAMPION DIVERS**, shown above, will demonstrate the talents that made them champions during the Panhandle South Plains Fair in Lubbock. Left to right, they are: Roger Nadeau, New England champion; Kevin Newell, Australian champion; and Charlie Aitken, South American champion. Many other diving stars, and the same dynamic cast featured in the show's appearance at the World's Fair in Brussels, will make Water Follies of 1958 another "first" in entertainment presented by the Panhandle South Plains Fair. Nightly performances of the follies will begin at 8 p. m., September 29 October 4 during the Fair.

**SCHOOL NEWS**

We have 470 pupils in school as of Monday. This number is the original entry of pupils for this school year and will not increase very much. Most all pupils who came into our schools later in the year will have entered some other school and transferred. These we do not call original entries in our school.

The original entries for the past five years is as follows: 1953-4, 422; 1954-5, 451; 1955-6, 449; 1956-7, 494; 1957-8, 465. From the above you see that 1956-7 was the largest enrollment we have ever had.

We are not growing fast in numbers but we trust that each year we make improvement in our work.

Of the twenty one teachers we have 12 without Bachelor's Degree and 9 with Master's Degree. This is a very high rating for any school system. As you know these degrees represent four and five years of College work for each teacher.

The annual audit of Silverton Independent School District has just been completed. This covers an accounting of all tax or other monies received and spent by the district. A copy of this report will be available soon to any and all who may be interested in seeing it. It may be seen at the office of Verlin Towe, tax assessor and collector or in the office of M. G. Moreland, superintendent of schools.

**Texas Farmers Advocate Higher Prices For Milk**

Denton—Alex Dickie, Jr., Texas Farmers Union President, today issued a statement in support of NTPA position for a price increase on their milk. Dickie said, "that it is indeed heartening that the day has arrived when the dairy producers have organized to the point that they now have an effective bargaining power. This, for the first time, will enable the producers to demand that a fair price be paid them for their milk by the milk handlers."

"If these organized dairymen are denied the right of this newly arrived bargaining power then our free enterprise system is in real trouble," Dickie said.

Mesdames E. W. Yancy and Dan Allard visited in the home of Mr. and Mrs. J. C. Austin in Lockney on Monday afternoon.
