**Around Town**

By Mary Ann Sarchet

There is an old story of the boy  
 who led a flock of sheep in the  
 near a small village. There  
 pending danger in the form  
 ves which sometimes attack  
 flock. The boy could cry  
 and the villagers would  
 his aid.  
 day he was bored and want  
 excitement, so he called  
 and the townspeople rush  
 the hillside, only to have  
 and tell them there was  
 if. A few days later, the  
 incident recurred. The vil  
 again found to their dis  
 were just the point of  
 his.

the following day, the boy  
 a wolf near his flock and  
 "wolf". No one came. He cal  
 and over "wolf, wolf".  
 illagers told one another he  
 thought them foolish to  
 ked into rushing to the hill  
 gain.

of the sheep were destroy  
 scattered as a result.  
 in Silverton the automatic  
 farm system seems to be  
 sly misused on occasions,  
 sons who turn in false  
 sometimes calling the fire  
 out of bed, do so deliber  
 it should be realized that it  
 same sort of "joke" as the  
 who cried "wolf". One day  
 may be a serious need for  
 men and the delay caused  
 thought that someone is  
 a prank might possibly  
 someone great property

**SUFFERED HEART  
 ATTACK RECENTLY**  
 Mr. and Mrs. Bill Long and  
 children and Mrs. M. L. Welch  
 visited Mr. and Mrs. Bernice Wel  
 ch and Charles in Wellington on  
 Sunday. Mrs. Welch is a sister to  
 Bernice Welch; he suffered a  
 heart attack recently but is now  
 allowed to be up about two hours  
 daily and is thought to be recuper  
 ating satisfactorily.  
 Joy Ann Middleton, of Amaril  
 lo, visited Jane Brooks Sunday  
 afternoon.

**MISS REID IS  
 N.I.R.A. CHAMPION  
 BARREL RACER**

Michael Reid, of Tulia, a gradu  
 ate of Silverton High School, has  
 recently returned from Klamath  
 Falls, Oregon, where she was the  
 Champion Barrel Racer of the Na  
 tional Intercollegiate Rodeo As  
 sociation. This trip was made pos  
 sible for her by winning the Re  
 gional contest, in which college  
 students from four states were en  
 tered.  
 Mike was accompanied to Klam  
 ath Falls by her parents, Mr.  
 and Mrs. Warner Reid and her  
 sister, Sue Reid.

**Winners Announced  
 In 4-H Club  
 Gardens Contest**

The winners of the 4-H Club  
 Gardens Contest were announced  
 last week after the annual tour  
 and judging. Comments from the  
 judge were that the gardens were  
 the very best that had been judg  
 ed and the closeness of the scor  
 ing indicated that.  
 First place belongs to Carolyn  
 Garrison, second place went to  
 Sandra Kitchin and third place  
 went to Dwin Davis.  
 Other gardens in the contest  
 were those of Jealeta Eddleman,  
 Sue Tiffin and Jamie Johnson.  
 The judge, Mrs. D. T. Northcutt  
 of Silverton, indicated that the  
 possible differences in the very  
 close first three placings were re  
 cords. As in all 4-H Club work,  
 records count very heavily and  
 this is especially true of gardens.  
 Two of the above will receive  
 County Garden Medals at the an  
 nual 4-H awards program. These  
 medals are awarded to 4-H garden  
 ers who have the highest scores  
 and turn in a completed record.  
 The first two winners, Carolyn  
 and Sandra have already won this  
 medal and will not be eligible a  
 gain this year.  
 Gardens are a very desirable  
 demonstration for a well-rounded  
 County 4-H Program. They fill the  
 needs for 4-Hers that like to work  
 with this sort of demonstration.  
 Last year, Briscoe County's win  
 ner was the District winner and  
 was in the running for the State  
 Garden award and a trip to the  
 National 4-H Club Congress in Chi  
 cago.

**Rev. Story Loses Toe  
 In Clash With  
 Lawnmower**

The Rev. Frank Story, minister  
 of the Silverton Methodist Church,  
 lost a toe on the afternoon of  
 July 9, when his right foot caught  
 in the blades of his lawnmower.  
 Mrs. Story took her husband to  
 Lockney to the hospital for treat  
 ment. The physician said the law  
 nmower had jerked the minister's  
 second toe off the right foot at  
 the second joint.  
 He was released following the  
 treatment and was resting comfort  
 ably at his home shortly after  
 ward.  
 Several years ago, Rev. Story  
 lost the tip of his little finger on  
 his right hand when a car door  
 slammed on it. Quick action on  
 the part of the attending physician  
 at that time saved the severed por  
 tion. The tip was sewed onto the  
 finger and it healed, Bro. Story  
 says.  
 On Sunday morning, Rev. Story  
 delivered his sermon from the  
 pulpit as usual, and after services  
 when asked how he was getting  
 along, he replied that "it takes  
 more than an old lawnmower to  
 get the best of me."

**HAVE OKLAHOMA AND  
 LOUISIANA GUESTS**

Mr. and Mrs. Prentice Richards,  
 of Cache, Oklahoma, and their son  
 and family, Mr. and Mrs. James  
 Richards, of LaFayette, Louisiana,  
 were recent visitors with Mr. and  
 Mrs. Sid Richards. Messrs. Sid  
 and Prentice Richards are broth  
 ers.

**SWISHER COUNTY PICNIC  
 AND RODEO THIS WEEK**

Tulia Boosters were in town last  
 Saturday morning advertising  
 Swisher County's Annual Birthday  
 Celebration, Picnic and Rodeo. The  
 men of Tulia have been growing  
 beards (unless they are the owner  
 of a Chicken License) and a con  
 test will be held to determine the  
 best beards.  
 The celebration lasts for three  
 big days, July 16, 17, and 18. On  
 July 17, Picnic Day, there will be  
 a free Bar-B-Que for the public  
 at noon. There will also be an  
 old timers luncheon, an amuse  
 ment center, a parade at 4:00 p.m.  
 and other special events. Show  
 time for the rodeo is 8:00 p.m.  
 nightly, with general admission  
 prices being \$1.50 and 50c for  
 children. There will be calf rop  
 ing, bare back bronc riding, sad  
 dle bronc riding, bull riding, and  
 barrel racing. The stock is being  
 furnished this year by Claud Hays.

**Crops Are Suggested For Replanting**

What crops could yet be planted  
 with any degree of hope to re  
 place crops destroyed by weath  
 er?  
 Dr. Harold Loden of Lockview  
 Farms said today that 100 or more  
 farmers have asked him in the  
 last few days.  
 At the Research Foundation at  
 Halfway Dr. Johnny Davis said  
 eight men had been in his office  
 this morning asking for the same  
 information.  
 The Extension Service has re  
 ceived inquiry.  
**Research Foundation —**  
 There are four sorghum hybrids  
 which can be planted this week  
 or next, with good chance for ma  
 turing. They are RS-501, RS-590,  
 DeKalb C-44A and double dwarf  
 milo.  
 Dr. Davis thinks the millets  
 would mature, but has no idea  
 about the market.  
 Black-eyed peas, would mature,  
 but again the market should be  
 checked.

Pinto beans might produce 1,200  
 to 1,500 pounds per acre, but a  
 rainy harvest season in Septem  
 ber could be disastrous, Dr. Davis  
 warns.  
 As to value of the organic mat  
 ter and additional plant food from  
 a crop it would be in the general  
 order of soybeans, but its green  
 manure value would hardly offset  
 more than half the cost.  
 "If one has any chance of sell  
 ing or feeding bundle feed or en  
 silage the sweet sorgo might be  
 worthy of investigation," he said.  
**Dr. Harold Loden, Paymaster  
 Farms—**  
 More than a hundred farmers  
 have asked him what crops he  
 could recommend and about avail  
 ability of seed.  
 "We've had some experience,  
 when the hails were to the east  
 of Plainview," he said, "now the  
 boys the other side of town are  
 wanting suggestions."  
 RS-501 is the best hybrid sor  
 ghum to plant now, according to

our experience. An effort is being  
 made to see how many farmers  
 would want it. A supply has been  
 located at Lincoln, Neb., and the  
 seed will be ordered if there's de  
 mand.  
 Double Dwarf Yellow Sooner Mi  
 lo is available. It is what we used  
 to call 60-day milo.  
 In both cases 2,500 to 3,000 pound  
 yield might be expected.  
 German millet seed is available.  
 "We know no market for the seed  
 night now", Dr. Loder said. "It  
 can be planted anytime in July  
 and will make two to three tons  
 of hay, good hay."  
 About this millet hay. In 1957  
 Lockview planted it late. Any hay  
 would have sold that year.  
 "Cut the hay in the dough and  
 it has practically the same feed  
 except male horses.  
 "Cattle feeders like it", Dr. Lo  
 den said. "It would move to the  
 feed lots on price comparative  
 with other hay."

**GARDEN CLUB  
 WILL MEET JULY 21**

The Garden Club will meet  
 with Mrs. Gordon Alexander on  
 the third Tuesday afternoon,  
 which this month will fall on  
 July 21. All members are invited

ATTEND MUSIC WORKSHOP

Mrs. Otha Sanders and Martha were in Amarillo, Friday and Saturday to attend a Francis Clark Piano Workshop. A lecture and demonstration of new teaching

material was given. Music teachers from all over the area attended. At noon a nice luncheon was enjoyed. The Tolzien Music Store in Amarillo sponsored the meeting.

FOOD POISONING COMMON IN WARM WEATHER

Nothing can live without food, suitable temperatures and an appropriate amount of moisture. This applies to man, animals, fish and plants.

It also applies to bacteria! The range of needs for bacteria is slim, but when they are present bacteria can be very prolific, multiplying themselves by the millions in mere minutes.

That is why food poisoning is so much more common in warm weather—and why you need to be especially careful now about preparing food and storing it.

The main rule to remember is that bacteria which are apt to cause food poisoning thrive best in lukewarm foods.

Thus if you make it a hard-fast habit to keep hot foods hot and cold foods cold, the chances of bacteria getting a foothold are slim.

However, there are certain foods that have proven to be more susceptible to bacteria's growth and the resulting food poisoning conditions.

For instance, egg and milk mixtures, including custards and meats, either in salads or sandwiches, and potato salad—one of the most popular picnic foods—are often quickly suspected when food infections occur in summer.

Making sandwiches and wrapping them in wax paper to let stand for hours before eating is just asking for trouble. Keep them well refrigerated!

Potato salad can give lots of trouble. The best way to avoid it is to chill all the ingredients before mixing, and then store the salad in SHALLOW containers in the refrigerator. Deep bowls retain the room temperatures in the center portions.

Everyone loves a picnic. Enjoy them, but a portable ice box and a thermos bottle are musts if you are going to minimize the chance of summer food poisonings.

LOAN FUNDS AVAILABLE FOR SUPERIOR STUDENTS

Plainview, July 9 (spl) Wayland Baptist College has \$10,000 in National Defense Loan Funds available for superior students this fall, according to H. L. Mitchusson, college business manager to whom applications should be sent. Only full-time superior students

Lions Elect International President

Clarence L. Sturm of Manawa, Wisconsin, was elected International President of Lions International at the Association's 42nd Annual Convention in New York City. Lions International, with 590,000 members in 92 countries or regions, is the world's largest service club organization. Lions International is best known for its many youth programs, community service projects, sight conservation activities and aid to the blind. Last year Lions Clubs around the globe completed more than 150,000 individual worthwhile community service projects.

are eligible, according to the provisions of the grant from the United States Office of Education. However, students who commute to the campus daily are eligible if their academic records are sufficiently high.

The policy that prompted Congress's passing the National Defense Education Act includes "... the security of the nation requires the fullest development of the mental resources and technical skills of its young men and women ... We must increase our efforts to identify and educate more of the talent of our nation. This requires programs that will give assurance that no student of ability will be denied an opportunity for higher education because of financial need ..."

Because of the shortage of qualified teachers which has developed in recent years and which is expected to continue to increase, the government has made a provision for the cancellation of a part of this loan as a special inducement. The law provides that up to 50 percent may be cancelled including interest, for five years of teaching in an elementary or secondary school.

Further information may be had by writing Mr. Mitchusson at Wayland Baptist College or by seeing him.

NO WILL? WHO INHERITS THE PROPERTY?

What will happen if you should die without executing a legal and proper will? Who will inherit your property? Your husband, wife, mother, father, children, your wife's relatives. The best way you can say who will have it is to provide a will which will protect your rightful beneficiaries and dispose of your property in accordance with your wishes.

When a deceased has no will, or dies "intestate" as the law calls it, the property of that person is distributed according to a detailed formula fixed by law. In some cases this may be the way you yourself would divide it—but in many cases it is not.

The provisions of the law concerning the distribution of the property of a person who dies without a will are complicated, and all of the possibilities cannot be covered by a general statement.

There are different rules for real estate and for personal property for community property and for separate property, for homestead property, and for all of the many possible combinations of surviving relatives. Each situation must be carefully studied to determine the correct distribution of the property.

For example, here is a general idea of how the community property which you and your spouse have accumulated will be divided if you do not make a will prior to your death.

If your husband survives and there are no children, the surviving spouse receives all of the property.

If, in addition, there are surviving children or descendants of deceased children, they would divide one-half of the property, while the surviving spouse would receive the other one-half.

Of course, grandchildren do not share in the estate unless their parent who would inherit is deceased. And when descendants of previously deceased children do inherit, they receive only the portion that the child would have received, regardless of the number of such descendants.

An odd note, perhaps, is that the surviving spouse already owns one-half of the community estate prior to your death, and the law adds nothing to this share of the community share when there are children surviving.

When there are only children and their descendants surviving, they divide the entire community estate between them.

Up a steep mud-choked wash—Positraction pays off!

Through a mountain stream—deep in Avintaquin Canyon.

NO MOUNTAIN CAT, MISTER... That's a Chevy with Positraction! That 3134 Fleetside has the sure-footed ways of a big western bobcat. Roams through high brush country that would buck the life out of most trucks. Crosses streams without benefit of a bridge. Climbs talus grades where piñon won't even grow. But that's all routine for this Chevy, equipped with Positraction\* rear axle. It's hard at it every day for the Utah Fish and Game commission. Figure about 60,000 miles of mountaineering before this Chevy is traded. And yet the district officer who drives it would bet his badge the tie rods won't even need replacing! Out in that wild, climbing Utah country, Chevy's suspension and frame and brakes, its Positraction rear axle and Thriftmaster 6 power are proving themselves under rougher conditions than most test engineers could dream up. They're proving that Chevrolet's advanced engineering and design ideas pay off—in spades—when the going gets especially mean and dirty. Positraction, of course, is a big plus on this job, providing the sure grip needed to dig through mud, snow, loose sand, whatever comes along. Could be that a Positraction-equipped 1/2-ton pickup is the answer for your area of operation. Or maybe a 4-wheel drive Chevy. We've got trucks that specialize in getting in and out of any kind of country. Talk to your dealer about your needs. He'll show you what tough trucks are made of. \*Optional at extra cost No job's too tough for a Chevrolet truck! See your local authorized Chevrolet dealer! **LARGER CROP OF WHITE WINGS SEEN FOR FALL**

The 1959 white-winged dove breeding population has been estimated to be 38 per cent greater than in 1958, according to the Director of Wildlife Restoration, Texas Game and Fish Commission. A census conducted June 11-20, in the Rio Grande Valley, indicates the breeding population for the State this year is about 338,000 birds.

Based on findings of previous years, existing breeders usually reproduce a number equal to the number of breeding birds. This means that around 676,000 white-wings are possible for the fall hunting season.

A maximum kill of around 180,000 birds may be expected if a hunting season is ordered. This

would leave a carry over of approximately 496,000 birds for potential breeding population for 1960.

Based on the recent census and other findings, it has been recommended to the U.S. Fish and Wildlife Service in Washington that there be a mid-September three half-day open season on the white-wings of alternate days. It has also been suggested that the bag limit be 10 white-winged or mourning doves, or 10 white-winged and mourning doves in aggregate, with shooting hours from 2 p.m. to sunset.

A final ruling on the date and limit of the white winged dove hunt will be decided at the next Commission meeting scheduled for July 24.

**Convertibles Reach New Peak in Popularity**

Convertibles have reached a new peak in popularity this year and one of the reasons for it is Buick's Electra 225 shown with its counterpart of the skies, the jet-powered Lockheed Electra. The sleek lines of Buick's 1959 styling enhances the appeal the convertible has for the motorist, so much so that sales of Buick convertibles this year already are double what they were during all of last year.

# SOIL CONSERVATION DISTRICT NEWS

## OUR SOIL ★ OUR STRENGTH

by Virgil Henson

Recently heavy rains have shown the effectiveness of properly constructed conservation practices, especially in the Quitaque area. We were northwest of Quitaque following a heavy rain recently and observed a great deal of washing on fields in that area. We also observed several farms where good starts have been made applying practices under the Great Plains Program. Where practices such as terraces and diversions were complete, little or no damage occurred. Tom Barbee, for example, had a heavy rain recently that

did a great deal of damage to unterraced fields. In contrast, on one field that was terraced this spring no damage occurred. He also had a diversion that functioned well and helped fill a newly constructed farm pond. O. R. Stark Jr., W. M. Currie and Tom Pierce also had heavy rains on their places without appreciable damages were installed.

Others interested in completing plans for installing needed conservation practices on their farms should feel free to contact the S.C.S. office in Silverton for assistance.

### WEEK END GUESTS

Mr. and Mrs. Ed Arnold and Lois, of Midland, have been recent week end guests of her parents, Mr. and Mrs. Joe Oneal, Clela and Eldon.

Mrs. Glenn McWilliams was in Lubbock on Monday for a routine check up on recent surgery.

Mr. and Mrs. Carl Wimberly, of Amarillo, spent the week end here with her sister, Mrs. Grady Wimberly.

Mrs. Edith Morgan and Mr. and Mrs. Stevie Morgan and sons, of Kress, were Sunday visitors with Mr. and Mrs. Olos Chitty and Norman.

Mr. and Mrs. C. M. Chappell and daughters, Mrs. Paul Reid, attended a Vardell annual family reunion in Vernon on Sunday. Two brothers and four sisters, including Mrs. Chappell, were present. J. J. Vardell, who is recuperating satisfactorily from a recent

broken hip, was the only member of the immediate family absent. A large group of the descendants of these folks enjoyed a bounteous picnic dinner and had a fine day together. Mr. Chappell's sister, from Decatur, was also present and they had a private reunion of their own.

Sgt. and Mrs. Roy Roop, of Anchorage, Alaska, spent Monday night with Mr. and Mrs. R. E. Brookshier. They were enroute to Houston for a visit with Sgt. and Mrs. M. Dan Thompson and family.

Mrs. Hubert Hall, of Memphis, and Mrs. Berton Hughes spent Tuesday of last week in Vernon with their parents, Mr. and Mrs. R. E. Renfro; another sister from Dallas met them in Vernon.

Mrs. P. D. Jasper spent Saturday afternoon in Claude with Mrs. John Jasper; the ladies are sisters-in-law.

Mr. and Mrs. Luther Vardell,

of Clovis, New Mexico, and Mr. and Mrs. Leroy Vardell and children, of Gruver, were Sunday visitors with the men's parents, Mr. and Mrs. J. J. Vardell.

Mrs. Ernest Davis, of Texline; DeAnne and Jack Green, of Chandler, Arizona; and Mrs. W. T. Haley of Plainview, were week end guests of Mr. and Mrs. R. L. Hill, Robert Haley and Susie. Mrs. Haley is the mother of Mrs. Hill and Mrs. Davis and grandmother of DeAnna and Jack Green.

Mr. and Mrs. Bryant Eddleman and Jealea and Mr. and Mrs. Edwin Dickerson and children spent the week end in Ruidoso, New Mexico. They were met there by Mr. and Mrs. George Wickware, of El Paso. Mrs. Wickware will be remembered here as Anna V. Burleson who grew up here; she and Mrs. Eddleman, nee Ruby Lee Dickerson, were girlhood chums but had not seen each other for ten years.

Messrs. Buster and Alan Dickerson, of Lubbock, visited Mr. and Mrs. Elbert Dickerson Sunday afternoon. The men are brothers.

### "Electric Yard Light Beautifies Home"

The amazing growth of the use of electric yard lights reflects a growing attitude on the part of the Silverton Public to constantly improve the appearances of their homes.

Just in the last two months, several yard lights have appeared sending their cheery greetings of light to the visitor as he approaches the home—the electric yard light truly says "welcome" for all to see.

Electric yard lights beautify the premises by day as well as by night. Available in several attractive designs—either provincial—or modern, they blend in with the basic architecture of the home and its premises.

Then, too, electric yard lights are practical. You can turn them on or off as you please, or you can have them controlled to come on or go off automatically—by adding a photo-electric cell or an electric clock timer.

Want more or less light? The choice is yours with an electric yard light. It's simple—all you do is change the bulb from a higher to a lower wattage or vice versa. And, come Christmas, you have practically an automatic Christmas lighting effect just by changing the bulb from white (or yellow bug lamp) to an appropriately colored bulb to point up the Christmas reds and greens.

Kenneth Tate, manager for Southwestern Public Service Co. here advises that you can operate an electric yard light—with a hundred watt bulb in it—eight hours every night for approximately 2 pennies, with lower wattages costing even less. A 25 watt bulb, operated for eight hours, costs only about 1.2 cent or about 15c a month, about half the cost of a pack of cigarettes.

As Tate put it—there's not any better way to add beauty to your home. And, if you don't want it on, you just turn it off at the "flick of a switch."

### Notice Posted of New Brucellosis Law

The passage of a workable Brucellosis Law by the State Legislature is going to provide a sensible and just means of controlling this disease in every county in Texas. Notice of this Law was posted in the County Courthouse last week by Mr. W. E. Schott, Jr. of Silverton. The new enactment of the law provides for a State Wide Hearing to be held in Fort Worth the 20th of July. The purpose of this hearing will be to entertain any objections to the Law and to rule on the objections. Any person in Briscoe County that is opposed to the Law may go and voice his disapproval.

The law provides for two methods of bringing a County or District under specifications that the area may be a Brucellosis Modified Free Area.

First, 51 per cent of the livestock owners who own 75 per cent of the cattle will petition the State Livestock Sanitary Commission of Texas for a control area. This petition will state which of the two methods they wish to use.

They are: 1. Calfhood vaccination of all female stock. 2. Test and disposal, which will be to a point that will not show more than 1 per cent of the cattle in the County tested as being

### MISS MONROE HONORED WITH BRIDAL SHOWER

Miss Carlye Monroe, bride-elect of Robert Haley Hill, was honored with a miscellaneous shower in the home of Mrs. Ware Fogerson on Saturday, July 11, from 3:00 to 5:00 in the afternoon. Mrs. Fogerson greeted the guests and presented them to the honoree, Miss Monroe, her mother, Mrs. Carver Monroe and Mrs. R. L. Hill, mother of the prospective bridegroom.

Mary Monroe, sister of the bride-elect, and Susie Hill, sister of the prospective groom, registered the sixty-five guests in an attractive musical bride's book.

Marsha Monroe, sister of the bride-to-be and Mrs. Jimmy Scott Whitfill served refreshments. Diane Fogerson, Susan Anderson and Gay Lynn Calloway displayed the many gifts.

The bride's chosen colors of pink and white were carried out in bouquets of cut garden flowers in the receiving rooms and in the

Bangs positive.

A county or control district may use either of the above two methods. The enactment of the law provides for Texas to clean up its cattle to a point that Texas cattle may go anywhere in the Country without the discrimination that is beginning to show up in other states against Texas cattle now.

County Agent Ledbetter says he will be taking several members of the Briscoe County Livestock Committee to a meeting in Plainview the 22nd of July so they will better understand the program that will be undertaken in the very near future.

refreshments and serving table. The table was laid with a cut work linen cloth centered with an upright heart made of white ribbon and pink net ruffles, backed by pink roses, based on white styrofoam. A miniature bride and groom stood just in front of the heart. "Robert and Carlye" was embossed in glitter on a pink satin ribbon across the base of the styrofoam in front of the bride and groom, completing the artistic arrangement, handiwork of Mrs. Fogerson.

Pink fruit punch, homemade cookies and pink and white mints were served with crystal appointments. A single pink rose floated on an ice floe in the crystal punch bowl.

Out of town guests were Mrs. W. T. Haley, grandmother of the prospective groom, Mrs. Charles Simpson and Mrs. Frances Haley and Charlotte of Plainview, Mrs. Ernest Davis, of Texline, Mrs. Tom Simpson of Lockney, Miss DeAnna Green of Chandler, Arizona, and Mrs. Johnny Emmitt of Tulla.

Mr. and Mrs. Albert Mallow and his nephew, Butch Mallow, of Plainview, who is spending the summer here, were Floydada Sunday afternoon.

PUBLISH HISTORY OF COLLEGE On the event of the Golden Anniversary of West Texas State College, Dr. J. A. Hill is announcing the publication of the history of the college.

MORE THAN BRICK and MORTAR carries the documentary detail of the growth of the college from its beginning. It tells of the struggles and triumphs of the college from the two-year normal school to the present status of the modern

five-year institution with its twenty-five departments and the one hundred twenty-five faculty members.

One of the original faculty members, Dr. Hill is the only living person who is in a position to present the history.

The Ex-Student Association is price of \$5.95. The book can be

reserved through the office of the Ex-Student Association at Canyon. The publication price will be \$7.50.

Mr. and Mrs. Uil Gunter of Canyon visited her parents, Mr. and Mrs. M. J. O'Neal on Tuesday.

### EVERY MAN NEEDS JESUS

No man is saved on his goodness alone. A Christian must do good deeds but being good never made an alien sinner a Christian. Apparently many fine people who respect the Bible have never realized what the Bible teaches on this subject. They are living as though they were so good that when they die the Lord will surely welcome them into heaven.

The Bible teaches that all men are sinners (Romans 3:9, 23). Being sinners they are lost. Jesus came to save them (Luke 19:10). If they believe they can be saved by their own good deeds then they would not need Jesus. They would not need his blood. They would not need to obey the commandments of Christ.

A man is caught in a whirlpool and is unable to save himself no matter how hard he tries. He needs a lifeline thrown out so that he can be rescued. Jesus is like that lifeline to a lost soul. All of the noble efforts and good deeds a soul may make are in vain so long as he refuses the lifeline, Christ.

Too many believe that so long as they are honest in their dealings, love their families and are helpful to the needs of other they are surely on the road to heaven. The truth is they are still lost.

They need to obey the gospel, to repent and to be baptized (Acts 2:38). Once they obey Christ they are pardoned. Then they need to continue doing good and to worship God week in and week out.

Have you obeyed the gospel? Have you obeyed Christ? Where will you spend eternity if you continue to travel the road you are now traveling? Worship with us Sunday. It will be a blessing to you and yours to learn more of God's word.

Mr. and Mrs. Sidney L. Christopher and sons, Gary and Chrissy, are visiting his mother, Mrs. Francis Christopher, for a few days. The Sid Christopher family have recently returned from Germany where they were stationed for two years. They had been in Japan a couple of years prior to going to Germany with some time spent in California in between. Sid grew up here and Lucille and the boys have lived here several months before they went to Japan. Sid is a brother to Mrs. Otis (Dutch) Tidwell, of Tulia. He has retired from the army now, after twenty years of service, and they plan to locate near Van Nuys, California. They say they have enjoyed their life in Japan and Germany but are anxious to get settled down in the good old U.S.A. again and enjoy life again in the good old American way.

Mr. and Mrs. Shelby Haynes, Mr. and Mrs. James Patton and their daughter, Mrs. Derrell Sorter and Brenda, were Sunday dinner guests of Mr. and Mrs. Wilton Whitehead, Kathy and Sharon in Tulia.

Mr. and Mrs. Ross Renfro of Amarillo visited in the Bill Malone home from Wednesday till Friday. Dennis Renfro and Bud Ross spent Thursday in the Malone home. The Renfros are Mrs. Malone brothers.

**TAKE TRIP TO CARLSBAD**
