A weed control demonstration will be held on the Orville Turner farm 4 miles north west of Silverton Friday morning at 10:00. The main purpose of the demonstration will be to acquaint the ones attending with the newer chemicals to control bind weed. A plot of bind weed will be treated with Trichlorobenzoic acid with borax as the carrier for this material.

Other demonstrations will be on silver leaf night shade, sometimes called white weeds or purple top, with a combination of C-56, Dinitro, and Kerosene. This mixture will also be used on Johnson Grass. A plot of blue weed that was sprayed with 24D this spring will be observed during the demonstration.

A representative of the United States Borax and Chemical Company will be present to assist County Agent Ledbetter with the demonstration. The County Agent said that the new polychlorobenzoic acids and trichlorobenzoic acids have been quite successful in bind weed control. They are approved and are in the ASC handbook for Briscoe County.

FARMERS HOME ADMINISTRATION REPORTS ON LOANS TO BRISCOE

Swisher and Briscoe families borrowed more than \$803,670 in loan funds from the Farmers Home Administration during the fiscal year ending June 30, 1959, according to Ralph E. Griffiths, the agency's county supervisor.

During the year, borrowers returned to the U. S. Treasury a total of \$1,172,332 of which \$46,800 was interest.

Loans made by the Farmers Home Administration are increasing in size, according to Griffiths. The growing need for capital stems from inflation, expanded operations and the adoption of modern farming methods, he said.

In addition to money borrowed for farming expenses, Swisher and Briscoe county farmers Home Administration families borrowed \$43,850 for real estate investments. Some borrowers used real estate loans to improve farms, and modernize farm houses and essential farm buildings.

Besides making and servicing loans, Mr. Griffiths visits borrowers' farms through the year to

help with farm management problems. During the year, there were 34 county committee meetings during which time 163 applications were screened. Assistance was given many farmers who called at the office to develop sound farm plans and analyze their credit needs so as to qualify for conventional and cooperative credit.

The county committee determines the eligibility of farmers who apply for the Farmers Home Administration loans. They also certify as to the value of farms being purchased or improved with Farmers Home Administration loans, and make recommendations on loan approval and loan servicing action. Advise of the committee is sought on good farm management and on the refinancing of Farmers Home Administration loans when borrows build up enough equity in their property to get credit from banks or local lenders. No loan of any type can be approved for an applicant whose credit needs can be handled adequately by other credit sources.

you keep putting enough money into the bank, your checkbook is the most magic book in the world.

All you have to do is dip your pen in the ink, make a few flourishes, and your check becomes the open sesame to your heart's desires. But just stop making ample deposits, and the magic evaporates with a curt and imperious message from the bank, "No funds."

We were very privileged to be able to cover for our paper the family reunion held at the Burson Ranch last Saturday and Sunday. We were treated so very cordially by members of the family and enjoyed ourselves so much. We have promised papers to be sent to Burson relatives who came from all corners of the states to attend this reunion.

Don't forget, "the smallest good deed is better than the greatest intention."

Bel Air 4-Door Sedan with sleek Body by Fisher

smoothest ride!

One of the 7 big bests Chevrolet gives you over any other car in its field.

Anyone who's ever taken a Chevy over a choppy country road can tell you how lightly Chevrolet's Full Coil suspension handles rough going—and coil springs never squeak, never need grease! Try this velvet way of going for yourself. Once you do, you'll find your own way of saying what MOTOR TREND magazine puts this way: "... the smoothest, most quiet, softest riding car in its price class." But the happiest part of it all is that this Full Coil ride is just one of seven big bests—all documented by published opinions of experts and on-the-record facts and figures.

BEST ROOM—Official dimensions reported to A.M.A.* show that Chevrolet sedans offer more front seat head room than all but one of the high-priced cars—more front seat hip room (by up to 5.9 inches) than the "other two" of

the leading low-priced three.

BEST ENGINE—Chevrolet engines have long won expert praise from virtually every automobile magazine, and, just recently, Chevrolet received the NASCAR† Outstanding Achievement award for "the creation and continuing development of America's most efficient V-type engines."

BEST ECONOMY—A pair of Chevrolet sixes with Powerglide won their class in this year's Mobilgas Economy Run, topping every other full-sized car. And the winning mileage was a whopping 22.38 m.p.g.

BEST BRAKES—Chevy's bonded-lining brakes are the biggest in their field, built for up to 65% longer life. In a direct competition conducted by NASCAR, Chevy out-stopped both of the other leading

low-priced cars in a test of repeated stops from highway speeds.

old west was brought to again when the members of Burson clan gathered at the home place for their family reunion. Activities began on Saturday when the family began a... Much visiting and swap-of tales followed until late noon when everyone gathered in the old corral for a chuck wagon supper.

It was almost as if time had been turned back to the days when the Burson family lived together in the big ranch house. Mr. and Mrs. J. H. Burson were parents of five children, four girls and a boy. They are: Mrs. Clifford Davis (Jessie Burson) of Amarillo, Mrs. Arthur Arnold (Gladys Burson) and Luree Burson of Silverton, Mrs. Glen Allen (Sylvia Burson) of Costa Mesa, California, and Johnny Burson of Silverton. Mr. Burson passed away in 1945, and since that time Mrs. Burson and Luree have continued to live at the home place. Luree is librarian at Abernathy, but spends most of her spare time in Silverton.

Sour dough biscuits were prepared and baked in dutch ovens oiled with coals on top. Steaks, variety of which many shop-in the markets today stop to fire, were fried in heavy irons over fires in the ground. Biscuits and cooking of the steaks were supervised by Bud Long, a long time friend of the Burson family, ably assisted by Mrs. Burson. Coffee was prepared in huge pots on the open fire. After supper, the guests sat in shelters, one of which was shaded with freshly cut evergreen boughs, visiting and reliving old times. Some of the relatives spent a time getting acquainted with members of the family never before seen.

The Burson Ranch today covers approximately twenty sections of land. Eight sections are leased by the Ranch. Most of the help used in the maintenance and operation of the Ranch are members of the family.

In a specially designed barbecue pit approximately seven square logs were burning. As the fire died down, large pieces of beef which had been slowly treated with barbecue sauce and wrapped in burlap were placed on racks in the pit. This was covered with a canvas tarp secured at the edges. Johnny Burson prepared his supper to spend the night there, finishing the cooking.

On Sunday, activity began late, as most of the relatives had spent a large part of the night visiting. About 7:30 a.m. they began arriving at the corral for breakfast, which consisted of fried steak, potatoes, gravy, catsup, jelly and bread. A real ranch breakfast!

At noon on Sunday, the wraps were taken off the barbecue, which had been slowly cooking for hours and hours, and the relatives and guests enjoyed another sumptuous meal.

Attending the week end festivities at the ranch were: Mr. and Mrs. Dud Thornbury, West Newton, Massachusetts; Mr. and Mrs. S. A. Youngblood, Garland, Texas; Mr. and Mrs. Wilson F. Maxey,

Pictured are (left to right) Mrs. Arthur Arnold, Arthur Arnold, Johnny Burson, as Johnny pours Dean her breakfast coffee. Johnny, his sister, Mrs. Arnold, and their families were responsible for most of the arrangements for the reunion and acted as hosts for the occasion.

Of What Value Is Football

by Coach Raymond Adams
Football is a game of life. Its preparation, participation, experiences, and results compare favorably with the life as we go about our duties in the office, in the home, and in the community.

Football teaches the democratic principles of equality and unity to the spectators as well as to the

players. Probably the only time the whole school and town are unified is on game day. On that Friday night, the worker and the executive are seen rubbing shoulders, eating hot dogs, and cheering the home team. People of various races, color and creeds are as one as their team drives for the goal or doggedly turns back powerful offensive thrusts by the opponent.

Football is a game which contributes to the total personality of the participant. It has been given a great deal of credit as a

developer of character. However, we must keep in mind that a marble statue cannot be fashioned out of mud; neither can character be developed where none exists. Therefore, it is just as true that "It takes character to play football," as it is that, "Football builds character."

In contributing to the total personality, football develops a boy physically. It satisfies his immediate desire for physical contact. It provides an opportunity for him to go beyond the limits of normal endurance. Playing football puts a boy in excellent physical condition and teaches him good health habits which are essential to continued excellence. It gives him an opportunity to relax in a recreational atmosphere.

Emotionally, a boy must learn how to control himself in order to operate effectively under pressure. Playing football helps him develop confidence in himself and in others. It teaches him to defeat his weaknesses and fears. He learns that the human body, his body, can withstand considerable stress and punishment, and yet overcome them in pursuit of ultimate success. Football provides an opportunity for recognition; it gives a sense of belonging. This is a basic need of all human beings.

Socially speaking, football helps a boy learn that he must operate under a pre-arranged system of rules and regulations. Within this framework, he learns how to respect, communicate and cooperate with others who are striving toward the same ends. He experiences team play and loyalty—loyalty to himself, his group, and his community. He is taught how to win modestly and lose grudgingly, but gracefully. Above all, he becomes an industrious person because he learns that laggards in a group are looked down upon.

Finally, football develops mental toughness which is seldom experienced in our present day mode of living. This mental toughness is born of a burning desire to excel and succeed. This quality must conquer all of a boy's weaknesses, if he is to be victorious. Football is one of the few bastions of discipline left for the American boy. It is probably the only place where a boy will be punished immediately and effectively for a mistake or infraction. Not only will he experience punishment for his infraction, but so will all the ones who are on his side.

A boy must have something to do; he must be taught how to do it; he must compete against his contemporaries and display a burning desire to accomplish. He must do all these things within a set of rules. If he loses, he must be punished; if he loses, he must be consoled; if he wins, he must be rewarded.

Mr. and Mrs. Ernest Monk and children, of Mountaineer, New Mexico visited Mr. and Mrs. E. C. Newman Tuesday morning. The Monk family lived in the Haylake community nineteen years ago.

Travis and Teresa Monday, of Lubbock, have been visiting their aunt and family, Mr. and Mrs. Edwin Davis.

Mrs. Lem Weaver and daughter and family, Mr. and Mrs. James Ross Alexander, were in Wichita Falls from Thursday until Monday. Mrs. Weaver visited her sister, Miss Jo Williamson. The Alexanders were guests of his parents, Mr. and Mrs. Donnell Alexander, and Donnelly.

REEDA RIME

by Ryma Line

I know that I missed the mark today.

Neglecting to work, failing to pray, I refused to walk the Master's way—

So, you see, I missed the mark today.

I busied myself with worldly care—

Such easy prey for the devil's snare—

My Bible lay, dusty, upon a shelf "Too busy to read," I told myself.

I grumbled and scolded the whole day through—

Too stubborn, the will of God to do—

And I'm sure, unless I choose His way,

I'll miss the mark day after day.

Now, an apple of gold from God's Pictures of Silver:

"Brethren, I count not myself to have apprehended; but this one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the high calling of God in Christ Jesus." Philippians 3:13-14

4-H'ers Return From Camp

Briscoe County 4-H'ers returned home last Tuesday from their annual camp at Roaring Springs. Seventy-two members and twelve adult leaders attended the two-day encampment.

Two changes made this camp an outstanding one. The transportation committee of O. C. Rampley and Dewey Estes made it possible for the members to travel on two school busses instead of the usual trucks. Jack Harris and Buster Wilson, who drove the busses, also made this possible.

Jim Baird prepared excellent barbecued chicken for the evening meal. This was thoroughly enjoyed as a change from the coffee can supper that is usually eaten.

Bobby Saul and Carolyn Garrison, co-chairmen of the County Council, presided over all meetings during the two days. Special recognition goes to the Junior Leaders who had the responsibility of seeing that the camp was carried on in an orderly manner. These leaders were: Bobby Saul, Lynn McDonald, Eldon O'Neal, John Mercer, John Burson, Joyce Thomas, Carolyn Garrison, Sandra Mercer, Doris Estes, Dewey Estes, Lee McDonald, Joe Kitchens, Delis Monk, and Robert Phelps. All the junior leaders helped each member fill out a record book for the members project. Interesting talks were given by six junior leaders who attended the District Encampment. County Agent Ledbetter reported that this arrangement worked so well the camp will include three days and two nights next year.

John Burson arranged for the game warden of Motley County, Weldon Fromme, to talk to the group for the night program. This was enjoyed by everyone present.

Winners in the contests were: HORSESHOES, Jr. Division: First—Lonnie McDonald and Jim Saul; Second—Eddie Monk and James George; Third—Max Garrison and Riley Harris.

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Rangelands have improved greatly during the past three years. Most areas have received above average precipitation which has usually come at the right time. The sunflower stage of 1957 has passed which was followed by winter weeds stage. This too has passed and almost everywhere the perennial grasses are covering up the ground.

Now is the time for ranchers to start thinking seriously about long range management plans. How about the need for cross fences to divide pastures that are too large? Water facilities should be checked to see if they are adequate for the proper distribution of cattle. A properly located pond might stop gully erosion as well as supply needed water for livestock. If there are bare or nearly bare areas around watering locations or near the headquarters maybe rotary pitting along with range seeding would be the answer. Grasses are much easier to establish during the wet cycles than during a drought. Brush control should be planned.

Not to be forgotten is grazing management. Too many ranchers do not base their grazing on the preferred plants, that is on those

eaten first by cattle. It is these plants that produce the highest tonnage per acre if managed properly and because of their extremely high protein content cattle will gain faster than on less desirable grasses.

What grasses do cattle like? During the spring cattle prefer Western wheat grass. Later in the spring and throughout the summer cattle prefer the blue-stems, indiangrass, and switchgrass. If these are not available they then prefer side oats grama. Blue grama is taken on a third choice basis. Buffalo grass is desired about like blue grama, but on droughty sites where it cures out early it is fourth choice.

It is important for a rancher to find out just how much of each of these grasses he has in each pasture and stock for the best grasses during the summer. He can then plan on grazing the rest of the grasses during the winter time but always leaving adequate amounts on the land to protect the soil and build up litter.

Ranchers who are cooperating with Soil Conservations might plan to check with S.C.S. people assigned to the district for an up-to-date survey which serve as a basis for good range management.

WHEN THE KING SPEAKS

Christ's kingdom now exists (Hebrews 12:28; John 18:36). The kingdom and church began on Pentecost (Mark 9:1; Acts 2:1-4:7). They have the same terms of entrance (John 3:5; Acts 2:38). Jesus is the head over the body which is the church (Ephesians 1:22, 23), just as He is King over His Kingdom.

Being our King, He is over us. We are His subjects. It is the place of the King to legislate and rule. We, as subjects in His kingdom, are to heed Him. It is not ours to say, but to do. We would be stepping out of place were we to begin making rules and regulations of our own.

Were we to question whether or not sinners must repent to go to heaven and were we to decide in a group that repentance would no longer be commanded of sinners we would not really succeed in changing His command. The Bible still reads, "Except ye repent, ye shall all likewise perish." (Luke 13:3)

Although many agree Jesus is King and would not think of changing His command for sinners to repent they may forget their place as subjects when it comes to other matters where the King has spoken. Rather they may say, "It doesn't make any difference what one believes."

Many assume Christ's kingdom is a democracy in which religious people may make such rules and regulations as please them and may alter them at will regardless of what the King has commanded. We must change our hearts and humble ourselves before our king and preach His word only and trust in Him for His promises.

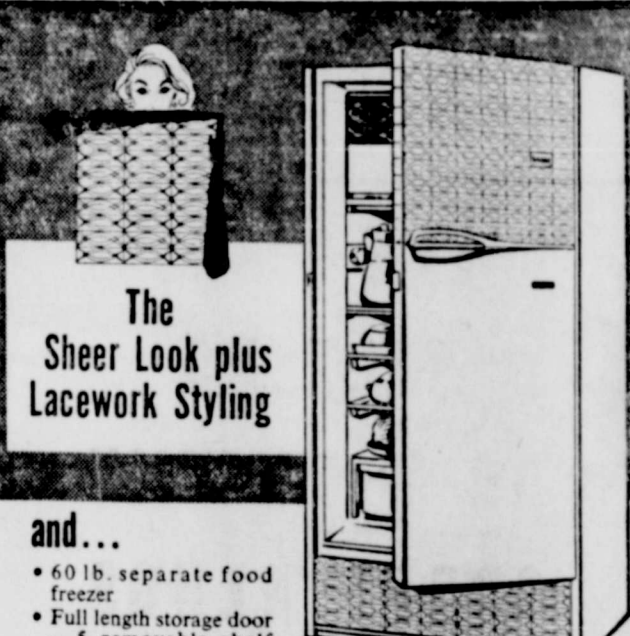

A cordial welcome awaits you at the Silverton Church of Christ.
