Mr. R. Hayes, our neighboring town at the Lockney Beacon "WE WINCE" everytime in the daily papers of an increase in retail sales at Lubbock and Amarillo. We think that we have any grudge against these cities. We can't help thinking also the amount of Floyd County that goes to boost retail in those cities. Of course, we must buy some things in the county because they are available at home, but probably than half of the purchases by Floyd County people out of the county could be at home at little if any sacrifice in pride or quality. But with a "trade at home" not for the other fellow. We think that we might be the guilty ones. Meanwhile, we wish we had schools and better churches ever stop to consider that at home helps to make better home institutions of all because it leaves money at that otherwise goes to help other towns and cities."

YOU STEALING FROM SILVERTON?
 You may say, how can my few dollars spent out of town effect anything? This may be a question you have asked yourself many times. A percentage of every dollar spent at home goes for the school, the county government. Every dollar which is paid in salary in a county circulates approximately seven times as much as a dollar spent out of town!

Money spent in Silvertton creates a demand for more employment which makes for larger payrolls which require more teaching money spent with Silvertton. This will benefit you approximately seven times as much as a dollar spent out of town!

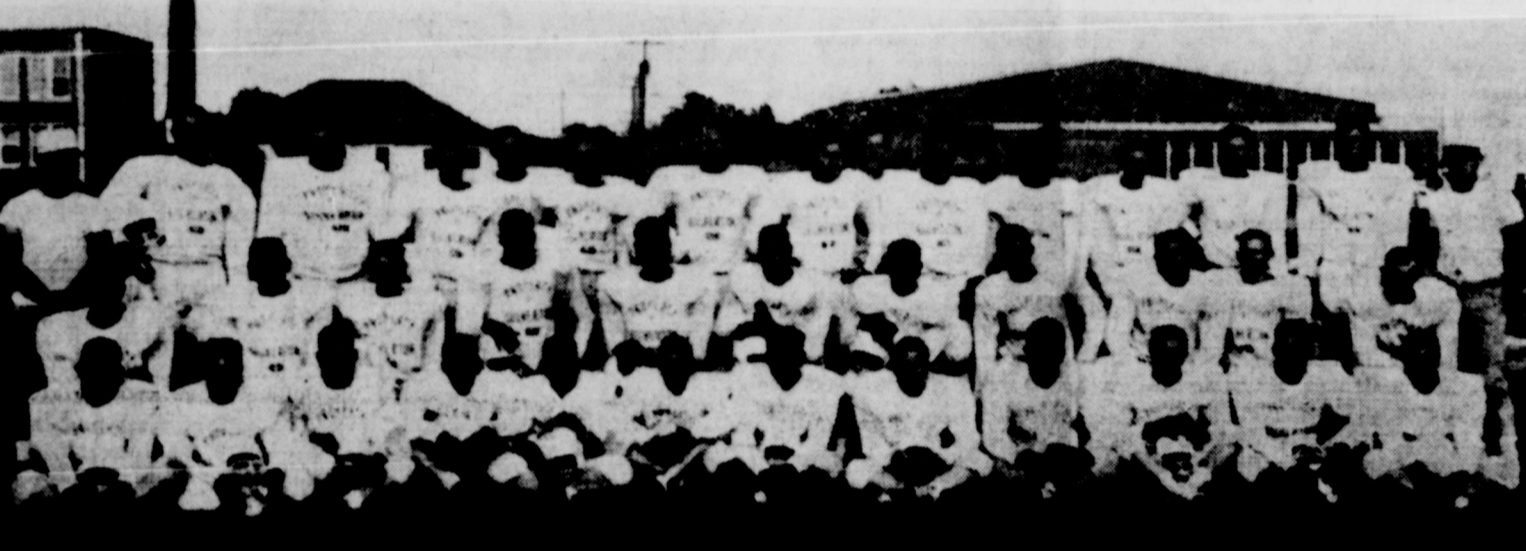

Labor Day weekend the "mad rush" will be under way. The mad rush thousands will be on the road. The American have been and still are, unconcerned over the safety. They seem to take it for granted that motor vehicles and pedestrians go together. At times, the occupants of automobiles get killed, the accidents usually termed unavoidable.

the traffic laws, respect signals and drive carefully. Obey the safe speeds for the conditions of the road. Do have fun on Labor Day, participate in boating, swimming using every ounce of common sense and good judgment. Keep in mind the old adage, "the life you save may be your own" and we'll be looking back again next week.

schools opening all over the county, it is necessary that each child have a safe habit also. This is true in both rural areas where young children have to use and cross streets and highways on their way to school.

Parents should strive to set good examples for their children. It is important that children to walk by the side of the road, obey traffic signals and traffic laws. Motorists should realize that children by nature are unpredictable. Therefore, important for drivers to be particularly watchful when in the vicinity of schools and during hours when school children are on the streets.

1959 Silvertton Owl Squad

FIRST ROW, SITTING: Butch Norris, Jim Ed Steele, Joe Kitchens, Johnny Jowell, Stanley Fogerson, Bill Schott, Joe Patino, Robert Rhode, Charlie Cowart, James Roy Brown, T. D. West, Bobby Stafford.
SECOND ROW, KNEELING: Richard Whitfill, Julio Soto, Louie Strange, Dewey Estes, Guy Breedlove, Mike Mercer, Jerry Don Brannon, Bill Durham, Dave Schott, Jerry Patton, John H. Burson.
THIRD ROW, STANDING: Coach Adams, James Clemmer, Eldon O'Neal, Van Breedlove, Larry May, Kenneth Peugh, Joe Anderson, Larry West, Kenny Thornton, Floyd Perkins, George McJimsey, Jimmy Imel, Jimmy Smith, Bobby Crass, Coach Wheelchel.

Owls Open Season at Matador

The Silvertton Owls have been sharpening tactics in preparation for traveling to Matador on Friday night to open the 1959 football season. The Owls have more weight this year, but lack speed. Coach Adams says the boys seem to be in good spirits and want to play ball. He says they intend to go over with the intention of doing their best and hope to come home the victor team.

Matador is reported to have a good first string, but lack strong reserves. Twenty-eight boys will travel with the Owl team. Group morale should be boosted by the new red uniforms to be worn for the first time when the Owls take the field at Matador. They are new-style uniforms with numerals on the sleeves of the jerseys.

Team prospects are somewhat dimmed by the loss of two prospective starters. Doctors orders have caused the names of John Howard Burson and Dave Schott to be dropped from the team roster. Several other of the boys pictured have since dropped off the team.

The possible starters are:
 END: Mercer, Smith, West
 TACKLE: Cowart, O'Neal
 GUARD: Anderson, Brannon
 CENTER: Larry May
 HALF BACK: Brown, Patton, Breedlove
 FULLBACK: T. D. West
 QUARTERBACK: Stafford, Jowell
 And just as important as the team is the support given them and their coaches by local townspeople. It is very important that every person who can should make arrangements to attend this and every game of the season. These boys will need all the encouragement the local fans can give them, and fans should expect to share not only the glory in victory, but likewise the responsibility in defeat.

CAP ROCK SOIL CONSERVATION DISTRICT NEWS

by Virgil Henson

TOURS
 The Cap Rock Soil Conservation District will again this year sponsor two farm tours, one in the Quitaque area and one on the high plains. We hope to have good farming and conservation practices to show on the tours.

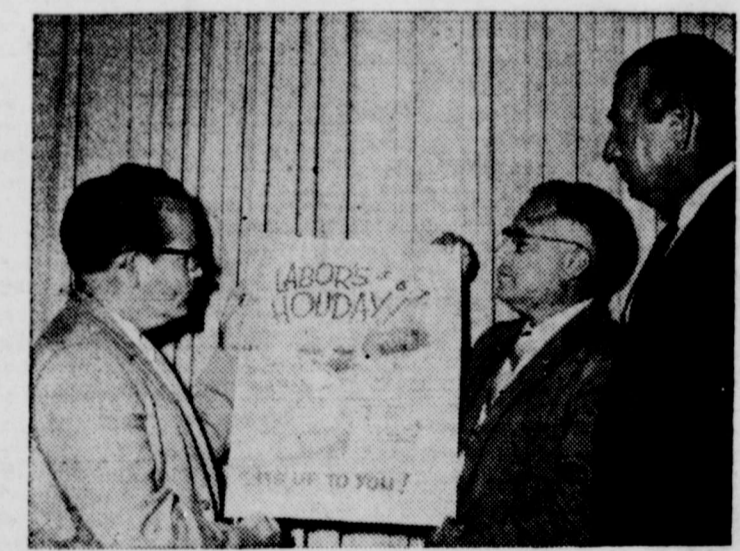

County Agent Robert Ledbetter, Ben Whitfill, a district supervisor and Virgil Henson of the Soil Conservation Service, are on a committee to work out details of the tours. This committee will meet on September 1, to make final arrangements. Exact dates of the tours, stops to be made and other information will be given at a later date.

TERRACING, LAND LEVELING
 It appears that a great deal of terracing, pond construction, diversion construction and other conservation work will be done this fall and winter, especially in the Quitaque area. Paul Hamilton, northeast of Quitaque, plans to do a great deal of terracing, brush control and pond construction under the Great Plains Program. Boggs and Ober Johnson, all of Mrs. Mayes, Jack Tyler, H. O. Quitaque, plan terracing and other practices.

Rex Vaughan, whose place is east of Silvertton, and Sam Massey, west of Silvertton, are working on fairly large land leveling jobs now. Rex also plans to seed Switch grass on his leveled land for grazing purposes. His grass will be irrigated.

SURPRISE VISIT FROM GRANDCHILDREN
 One day last week Jim Clemmer was in his garage working, when he looked up to see his three small grandchildren from Hart, Jim, Margaret and Jerry Swindle, drive into the garage in a small automobile built for them by their father. He was, of course, astonished by the thought that they had driven to Silvertton from Hart in the small car. Later they drove to the family home and surprised Mrs. Clemmer and took her for a ride in the tiny auto.

It was disclosed later that the children's parents, Mr. and Mrs. Bill Swindle, had loaded the car and brought it to Silvertton, then unloading it on the outskirts of town so the children could pay their grandparents a surprise visit!

With a gathering chain that cuts right in the top of the stubble plus roller row shields, nothing gets by a GEHL. Down and pulled or pushed—you leave a cleaner field.

This two-row capacity champ slides under down corn, leaves short stubble... takes all the tallest corn on dish out.

Biggest reason is the GEHL power idea... smoothest no-loss motion design for clipping off heavy corn. Twin shear plates, 3 power-driven compression rollers, and fast sweeping fan pull the rug from under restricted capacity. Gets more corn in when it's just right for silage.

ALL AROUND THE TOWN

September, the last summer month, is with us, and when it is over there will be only three months remaining in 1959. Needless to say, time continues to fly.

Autumn begins on September 23 this year, which is late for autumn, and school for millions of youngsters is underway. Football is beginning and, generally speaking, a welcomed Fall, with its cooler weather, will be ushered in.

September is noted for many events, a few of which are the official end of World War II, Labor Day which falls on September 7 this year, the birth of the Star Spangled Banner and the meeting of the first Continental Congress.

In general, September is a month when the weather changes—from summer to fall. It is a nostalgic month, in a sense, for it brings us the first cool weather, the first smell of burning leaves, the first taste of hunting and the first hint of coming winter. The length of the day and night will be exactly equal on September 23, one of the two times during the year when this occurs.

Life is ten per cent what you make it, and ninety per cent how you take it!

We'd like to call attention to the feature "Be Yourself" written by Brad Wilson which appears on another page of this week's paper. It was our original intention to point out that it is an excellent article for reading by students now entering a new school term, but the more thought we gave to the matter, the more we realized that its message would be good for the oldsters as well.

We have often wondered why men lie about each other, when the plain truth would be bad enough!

CURIOSITY

During the last month I have been asked by several people how my wife and baby are doing. I hardly know what to say because our baby has not been born yet. My wife was in the hospital for a few days last month, so therefore I can very easily understand how some people jumped to the conclusion she was having a baby. I am not trying to be hateful about this even though it may sound like it. I only wish to serve the curiosity of some people who seem to be so interested. The baby will be born sometime in December. Carl Satterfield

Mr. and Mrs. Joe Grabbe and Pat enjoyed a vacation trip last week. They visited Mr. and Mrs. Ray Savage and sons in Odessa, Mr. and Mrs. Paul Neese and children in Pecos, Mr. and Mrs. Louie Hamilton in Welch, Mr. and Mrs. James Allison and Mr. and Mrs. Tom Adkins and family in Lubbock. Mesdames Grabbe, Savage and Neese are sisters. Mesdames Allison and Adkins are sisters to Mr. Grabbe and Mr. Hamilton is their uncle.

Mr. and Mrs. James Rhoderick returned home on Wednesday of last week after a months vacation trip. They visited their son and family, Mr. and Mrs. B. L. Rhoderick and children in Denver, Colorado. They then went to Maryland for a visit with his aunt, Miss Maggie Rhoderick, 88, and uncle, Frank Rhoderick, both of whom lives in Frederick, Maryland. They were guests in some of his cousin's home and enjoyed a trip to Atlantic City where they bathed and waded in the Atlantic Ocean. They visited many places of interest and saw much beautiful country.

Mr. and Mrs. Gabe Garrison, and Charlie C. Garrison, Plainview, attended the Motley-Dickens County Pioneer Reunion at Roaring Springs on Thursday of last week. here and there by Dooya Read

This writing is one of the most thrilling things that I have ever done. (I wonder if anyone reads this column!) I have more ideas than I can ever get onto paper, but sometimes I am terribly tempted to write about our everyday topics of conversation—school, the Negro children, the Mexicans, the tax problems, etc. I explained at the start, however, that I was going to try to give you ideas that would make your life happier—more abundant. Perhaps a few minutes of relief from annoying problems will do that for you.

Today I want to tell you something about Mr. J. C. Penny who is soon to open a new store in Lubbock and in twelve other towns in addition to the 1700 stores already in the Penny chain. He He must be a busy man with many problems. Do you know what he does for a hobby? He gives away ideas—any idea that he thinks will help someone else, he quickly tells him of it and asks nothing in return. He is careful to express his appreciation for anything that he enjoys or thinks worthwhile. He says that anything that makes life more interesting and exciting for others makes his own life more interesting and exciting.

Wouldn't this world be a happier place if all of us would follow this "give away plan"? People have different things to give. Some have time, energy, skill, ideas. All of us can give away appreciation, interest, encouragement—which requires no money unless for a postage stamp or a telephone call.

"I have shewed you all things, how that so laboring ye ought to support the weak, and to remember the words of the Lord Jesus, how he said, 'It is more blessed to give than to receive.'"

THOUGHTS FOR THURSDAY

MORE AND MORE the thinking person is made aware of the soundness of the Biblical assertion that "the love of money is the root of all evil." This is perhaps one of the best known of all Scriptural quotations, yet it seems to be one of the least comprehended.

Had the verse indicated that the love of money is the root of "some evil," then it would be easily understood and accepted by all people. But there are those who perhaps would deny that all evil has its source in the love of money. Nevertheless, the truism expects no form of evil.

WE WOULD BE last to discount the necessity for money in this commercial world. We cannot turn around without running into a demand for the long green—and most all of us find that the demand far exceeds the supply.

Few people there are who are free of financial difficulties. Many are the result of an insatiable desire for gadgets and easy living. They are created because of our desire for the many new things we see advertised almost every day. But many other financial difficulties arise despite our efforts to handle our income wisely. Unforeseen accidents and illnesses are ever lurking around the corner. Tonsils must be removed. The roof must be repaired. Taxes must be paid. And when we least expect it, the hot water heater

gives out and we discover termites in our home!

THE UNPLEASANT NEWS is that only a handful of the people who occupy this globe will be free of financial problems. The vast majority of us will go through life making less than we feel we need. We cannot escape this fact of life. We must live with it. And to live with it gracefully should be our aim.

Then are we to spend our days bemoaning the fact that we are unable to satisfy our desires? By no means.

While we should seek the best paying job available so long as it is compatible with our talents and ability as well as our personal choice, still we must not be overly concerned with inability of our salaries to satisfy our every need and want.

It's all a case of putting money in its proper perspective.

FIRST, WE MUST learn to evaluate all those things for which we strive.

If the happy life consists primarily of having the best home in the community, driving the best automobile, taking the most trips, having the best furniture, wearing the most clothing, making the biggest splurge in society, throwing the most elaborate parties—keeping up with, or passing the Joneses, then a majority of earthlings are doomed to an unhappy existence.

If it consists of being able to promote one's teenage daughter to the pinnacle of the social whirl, sending her to the most exclusive school, giving her a convertible, and at last giving her the most expensive wedding the town has

ever seen, if it consists of reaching the top professionally or mingling with the most prominent, according to worldly standards, then most of us will never achieve happiness.

FORTUNATELY FOR the masses of us, happiness is not dependent upon those things just mentioned, including money.

Happiness is available to all mankind, regardless of his Dun & Bradstreet rating, regardless of his station in life. Happiness comes from having an appreciation of the important things of life, from knowing what qualities to look for in friends—not education, not bank account, not prominence, but sincerity, loyalty and love, from understanding the folly of trying to keep up with the Joneses, of driving not the latest model car nor having the most modern home. Unhappiness and disillusionment come from having a false sense of values, from not being able to maintain credit rating, from measuring a person by his wealth, from trying to out-shine one's neighbors,—from loving money! It comes from one's inability to discern between things fleeting and things eternal.

SATURDAY IS CHANGING

Like the "old gray mare" in that wellknown song, Saturday ain't what she used to be. Most of us can recall when Saturday was something special. It was the big "trading day."

County-seat merchants might sit around half the week whittling on slabs from discarded orange crates, and listening to the overhead piling up. But Saturday found them as busy as a cat in a butcher shop. Saturday was the time the farmer and his family came to town and stayed from sun-up to sun-down. It was on Saturday, too, that the housewife bought provisions for the big Sunday dinner and staples for the coming week.

Children needing shoes, coats, mittens or other "sized" merchandise would be herded in on Saturdays for a fitting. The laboring man, pay envelope in hand, would drop by in the late afternoon or early night to settle his account and maybe take home a bag of hard candy for the kids. In that by-gone era, most of the stores stayed open on Saturday night to take advantage of late-trading customers—and there were plenty of them. Some of the barbers here can remember when they cut hair until midnight on many a Saturday night.

Yes indeed, Saturday was a busy, bustling, happy time. But in these late years, it seems, something has happened to Saturday. Something pretty serious. And if the trend keeps up, Saturday may lose identity as a special day. It already has in many towns.

According to the National Retail Merchants Association, Saturday is no longer a "big day" in the stores of most county-seat towns in America. Even Monday is likely to surpass it in sales. Thursday is the banner marketing day in most places, says the NRMA.

We suppose it's simply an indication of the changing times. But somehow we can't help feeling a little sad about Saturday. It was quite an exciting day.

JEST FOR FUN

There was an editor who admonished his son because of his reluctance to attend school.

"You know, son, you must go every day and become a great scholar. Otherwise, you can never be an editor. What would you do for instance, if your magazine came out with a bunch of mistakes?"

"Father," retorted the son, "I'd blame the printer."

And the father wept with joy, for he knew he had a successor to the editorial chair.

"Be Yourself!"

by Brad Wilson

Today, when we are plagued on all sides by worldly indulgences, the very thought of individuality becomes limp in our minds. Conformity moves in as our master and self-discipline seems to trickle away down the rushing stream of life. We go along with the fad, the group, the doctrine; and seem complacent with all.

We were created separately in God's image. Thus, we are individuals. The Bible tells us that the Great Judge is no respecter of persons. Thus, we have not been cheated. The Constitution of the United States rings forth the cherished proclamation that all men are created equal. Thus, liberty and the pursuit of happiness. Why then, look for popularity? Build it! Why constantly admire great men? Be one! Why be led? Be a leader! This world is your world, ruled by universal God; pursue it with optimistic ambitions. Write that book! Create that dream! Speak those convictions! Then, accept criticism, because you have written "your" book, created "your" dream, and uttered "your" convictions—and "you" hold the title to them all.

Take a rigid seat in the cockpit of life and let God be your copilot. He'll take control of the instruments, and your plane of individuality will soar through an unmolested sky of success.

In the introduction to "The Family Fallout Shelter," a publication of the Office of Civil and Defense Mobilization, Mr. Hoegh says: "In an atomic war, blast, heat and initial radiation could kill millions close to ground zero of nuclear bursts. Many more millions—everybody else—could be threatened by radioactive fallout. But most of these could be saved."

Mr. Hoegh pointed out that the Federal shelter policy is based on the knowledge that most of those beyond the range of blast and heat will survive if they have adequate protection from fallout.

The OCDM booklet contains building plans for five basic fallout shelters. One is a do-it-yourself project with solid concrete blocks. Cost of the shelter ranges from \$150 to \$1,000.

HAVE YOU OBEYED!

On the day of Pentecost following the resurrection of Christ many of those who heard Peter preach became convinced of the truth about Jesus. They realized also they were sinners and lost and they cried out, "Men and brethren, what shall we do?" (See Acts 2:37). They believed there was something they must DO.

Peter answered their question (V.38). He did not say there was nothing they could do. He did not say there was no need for them to do anything since they were saved by the grace of God. His answer to those who asked what they should do was, "Repent and be baptized every one of you in the name of Jesus Christ for the remission of sins..." (Acts 2:38a).

These sinners had something to DO to be saved. When they did what Peter commanded they were not meriting salvation. They are still being saved by God's grace. God provided the way through giving His Son. This was God's act of grace by which sinners are saved. Men must accept it as Peter commanded. Until men DO today what Peter commanded they are still in sin. Doing what Peter commanded is the way sinners obtain the remission of sins. Come and hear more of the grace of God and way of salvation at the Silvertown Church of Christ.

A cordial welcome awaits you at the Silvertown Church of Christ.

On Sunday afternoon, August 30, 1939, Miss Glenna Faye Thompson, daughter of Mr. and Mrs. Ray R. Thompson, became the bride of Don Oser Cornett, son of Mr. and Mrs. Oser Cornett, in the Church of Christ in Silvertown. The double-ring ceremony was performed with L. L. Thornton, minister, as officiant.

Marriage vows were exchanged beneath an arch of yellow chrysanthemums and greenery accented with a faint touch of yellow, champaign and turquoise, the chosen colors of the bride. Twin candelabra on either side of the arch held yellow tapers, while candelabra cups held more candles in the background. The aisle was decorated with candelabra cups and large yellow satin bows.

Wedding music was furnished by Paul Epps, soloist, of the 10th and Utica Street Church of Christ in Plainview, assisted by Misses Nelda Leatherman, Irma Langford and Monya Thurmon, of Plainview, who sang "I Love You Truly," "Because" and "Bless This House."

The candles were lighted by Misses Rita Brown and Kay Strange, who wore dresses of turquoise crystallette accented by a halo of yellow, champaign and turquoise interwoven with fringed mums.

The flower girl was little Miss Diane Long, who wore a dress of turquoise crystallette matching those of the candelights. Little Master David Cornett, nephew of the groom, attired in dark trousers, bow tie and white jacket, carried the bride's ring on a yellow satin pillow.

Bridesmaids were Misses June Elkins and Carol Elkins of Lubbock, Carol Ann Grundy and Brenda Cornett, sister of the groom, of Silvertown. The girls wore identically styled dresses of champaign crystallette and a halo of yellow, turquoise and champaign interwoven with fringed mums. They carried cascade bouquets of yellow spider mums.

Attending her sister as matron of honor was Mrs. Ted Strange of Silvertown. She wore a dress fashioned of turquoise crystallette, styled identically to those of the bridesmaids and candelights. She wore a matching halo and carried a cascade bouquet of yellow spider mums.

Escorted to the altar and given in marriage by her father, the bride wore a gown of silk mist taffeta with molded bodice and low portrait neckline of applied medallions of French lace dotted with pearls and long sleeves tapering to petal points over the hands. The voluminous floor length skirt was enhanced by scattered motifs of lace embroidered with pearls. Her fingertip veil of silk illusion fell from a crown cap of pearls. The bride's bouquet surrounded a large white orchid atop a white Bible.

Best man for the ceremony was Mickey Cornett, brother of the groom, and Douglas Forbes, Harold Edwards, Joe Brannon and Alton Uddle were ushers.

Mrs. Thompson, mother of the bride, was attired in a sheath dress of brocaded silk, with avocado and beige accessories and a corsage of yellow taliman roses. Mrs. Cornett, the groom's mother, wore a two-piece navy dress with white accessories and yellow corsage.

A reception was held immediately following the ceremony in the home of the bride's parents. The serving table was laid with a lace cloth and featured the wedding cake which was frosted with yellow and white, topped with a miniature bride and groom. Behind the refreshment table on a buffet was a large arrangement of yellow chrysanthemums.

For her wedding trip to New Mexico, the bride traveled in a royal blue sheath dress and jacket with white accessories. The bride and groom will be at home in Abilene where the groom will be a senior student at Abilene Christian College. Both Mr. and Mrs. Cornett attended school in Silvertown.

Mrs. Royce Vaughan and children of Plainview, were Sunday visitors with her parents, Mr. and Mrs. W. E. Autry, Sr. and Marjorie.

REEDA RIME

by Ryma Line
If we will give of that which we have:
Though it may not be silver or gold—
Surely God will give back to us
More than our hands can hold.
He will open the windows of heaven,
And his blessings on us outpour
Then, when we share these odd
ed gifts,
He will give even more and more.

Now an apple of gold from God's Pictures of Silver:
"He that spared not his own Son, but delivered him up for us all, how shall he not with him also freely give us all things?"
Romans 8:32

Profitable Yield on Wheat Using Phillips 66 Ammonia

Dan W. Berger, prominent Oldham County farmer, says: "On 235 acres of wheat, I averaged 43 bushels per acre. This was the first year I'd used ammonia on wheat. After seeing what could be done with that application, I've decided to inject 100 pounds of Phillips Ammonia pre-plant on my wheat this year. I'm thoroughly sold on the use of Ammonia."

Other successful Southwestern farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get

more cotton that classes higher at the gin . . . yields of sorghum grain or ensilage are increased . . . profits on wheat and small grains are increased through higher grain yields and improved forage . . . more marketable vegetables are harvested.

Phillips 66 Ammonia can be easily applied either by you or your distributor. See us today about Phillips 66 Agricultural Ammonia . . . it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.
