Count Your Wealth

CASH LOW? SHORT of dough? That's a common ailment this time of the year. But think of the things money can't buy: Money can't buy friendship. It must be earned. Nor a clear conscience. Square dealing is the price tag.

Money can't buy good health. Right living is the secret. It can't buy happiness. That is a mental attitude. Money can't buy sunsets, nor singing birds. They are as free as the air we breathe. Money can't buy inward peace. Nor can it buy character.

Growing Old, A Custom

Once said Edgar A. Guest, the popular American poet: "It's no trick to grow old; anyone can do it—if he has the time."

Behind the humor is the implication that time is the essence. But it has been said that the loneliest man on earth is he who has lived many years, selecting for the target of his efforts only himself. He is the man who has regarded his vocation as merely a means for profit, not as a trust for serving society. He is the man who has no time to keep his friendships in constant repair. He is the man who has not learned the delights of a hobby, nor the thrill of a majestic sunset. He is the man who has finally become bored with himself, and all his experiences have been uninteresting. —Rotarian

Thought For The Day

If you are tempted to reveal A tale to you someone has told About another, make it pass, Before you speak, three gates of gold. These narrow gates: First, 'Is it true?' Then, 'Is it needful?' In your mind Give truthful answer. And the next Is last and narrowest, 'Is it kind?' And if to reach your lips at last It passes through these gateways three, Then you may tell the tale, nor fear What the result of speech may be. —From the Arabian

PUBLIC NOTICE Proposed CONSTITUTIONAL AMENDMENT NUMBER FOUR ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 46 proposing an Amendment to the Constitution of Texas by adding to Article III a new Section to be known as Section 49-d authorizing the Texas Water Development Board to acquire and develop storage facilities in reservoirs and to dispose of such storage facilities and water upon such terms as the Legislature shall prescribe; providing for the use of funds received from the disposition of acquired storage and water; providing that any enabling Act shall not be invalid because of their anticipatory character; prescribing the form of ballot and providing for the necessary proclamation and publication.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of Texas be amended by adding a new Section thereto to be known as Section 49-d, as follows:

"Section 49-d. It is hereby declared to be the policy of the State of Texas to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams and reservoirs for conservation of the public waters of the State, which waters are held in trust for the use and benefit of the public. To this end, and with the approval of the Board of Water Engineers or its successor, the proceeds from the sale of State bonds deposited in the Texas Water Development Fund as provided in Article III, Section 49-c of this Constitution, may be used by the Texas Water Development Board, under such provisions as the Legislature may prescribe by general law, for the conservation and development of water for useful purposes in and from reservoirs constructed or to be constructed or enlarged within the State of Texas or on any streams constituting a boundary of the State of Texas, by any one or more of the following governments or governmental agencies: by the United States of America or any agency, department or instrumentality thereof; by political subdivisions or bodies politic and corporate of the State; by interstate compact commissions to which the State of Texas is a party; and by municipal corporations.

Under such provisions as the Legislature may prescribe by general law, the Texas Water Development Board may also, with the approval of the Board of Water Engineers or its successor, execute long-term contracts with the United States or any of its agencies for the acquisition and development of storage facilities in reservoirs constructed or to be constructed by the Federal Government. Such contracts when executed shall constitute general obligations of the State of Texas in the same manner and with the same effect as State bonds issued under the authority of the preceding Section 49-c of this Constitution, and the provisions in said Section 49-c with respect to interest of principal and interest on

State bonds issued shall likewise apply with respect to payment of principal and interest required to be paid by such contracts. If storage facilities are acquired for a term of years, such contracts shall contain provisions for renewal that will protect the State's investment.

"The aggregate of the bonds authorized by said Section 49-d, plus the principal of the obligations incurred under any contracts authorized hereunder, shall not exceed the Two Hundred Million Dollars (\$200,000,000) in bonds authorized by said Section 49-c of Article III of this Constitution.

"The Legislature shall provide terms and conditions for the Texas Water Development Board to sell, transfer or lease, in whole or in part, any acquired storage facilities or the right to use such storage facilities at a price not less than the direct cost of the Board in acquiring same; and the Legislature may provide to sell any unappropriated public waters of the State that might be stored in such facilities as a prerequisite to the purchase of such storage or water, the applicant therefor shall have secured a valid permit from the Board of Water Engineers or its successor authorizing the acquisition of such storage facilities or the water impounded therein. The money received from any sale, transfer or lease of storage facilities shall be used to pay principal and interest on State bonds issued or contractual obligations incurred by the Texas Water Development Board, provided that when moneys are sufficient to pay the full amount of indebtedness then outstanding and the full amount of interest to accrue thereon, any further sums received from the sale, transfer or lease of such storage facilities may be used for the acquisition of additional storage facilities or for providing financial assistance as authorized by said Section 49-c.

Money received from the sale of water, which shall include standby service, may be used for the operation and maintenance of acquired facilities, and for the payment of principal and interest on debt incurred.

"Should the Legislature enact enabling laws in anticipation of the adoption of this Amendment, such Acts shall not be void by reason of their anticipatory character."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at the General Election to be held on November 6, 1962, at which election all ballots shall have printed thereon:

"FOR the Amendment to Article III of the Constitution of Texas by adding a new Section to be known as Section 49-d, providing for a State program of acquiring conservation storage facilities in reservoirs"; and

"AGAINST the Amendment to Article III of the Constitution of Texas by adding a new Section to be known as Section 49-d, providing for a State program of acquiring conservation storage facilities in reservoirs."

RED CROSS ASKS ASSISTANCE FOR FAMILY WHOSE HOME BURNED MONDAY AFTERNOON

The local Red Cross committee is seeking help in securing clothing for the Lavelt Tinner family, who made their home in the house belonging to "Granny" Garvin south of Silvertown which burned to the ground Monday afternoon.

The Tinner family has 10 children and are expecting another. They lost all their clothes and household furnishings.

Bonnie May and Walter Fleming, spokesmen for the Red Cross, said that the local committee does not have on hand clothing in such a wide variety of sizes for both men, women, boys and girls, and asks that those who have outgrown or discarded clothing that is still wearable donate it to help this Negro family. The Red Cross will help by buying some of the things which the family so desperately needs.

If those who would like to help will call Mrs. May, Mr. Fleming or Mrs. Clyde Mercer, they will come to your house to get the things you can spare. Clothing may be left at the Briscoe County News office for distribution by the Red Cross.

Following is a list of sizes needed:

Mrs. Tinner, size 16; Mr. Tinner, 32 waist, 31 length pants and size 15 shirt. Clothing is needed for a boy, size 10; a girl, size 10; 2 girls, size 8; a boy, size 8; 2 boys, size 3; a girl, size 3; a girl size 2; and a girl, size 1.

The Tinnings have two sets of twins.

Air Conditioning experts agree... WATER cooling is BEST!

Youngsters learn mighty early about the cooling effect of water when the weather's hot. And air conditioning engineers know that water cooling is far more efficient than air cooling. The reason is simple . . . 85° water can absorb more heat from your home than 100° air.

That's why ARKLA-SERVEL Sun Valley's CAS air conditioners are WATER cooled! Water cooling, plus Sun Valley's "no moving parts" principle, gives you two big advantages unavailable with other air conditioners. One, a Sun Valley gives you CONSTANT EFFICIENCY, while air cooled units lose as much as 15% efficiency. Two, Sun Valley operating COSTS REMAIN CONSTANT, while air cooled equipment operating costs rise as much as 23%.

KING-SIZED FILTER

double Sun Valley's double filtering capacity STOPS ALL HOUSEHOLD ODORS! It even tames cigar and fish odors, giving your home spring-like freshness all year long.

NO MOVING PARTS

... in the heating or cooling cycles of the Sun Valley . . . nothing to wear out or break down! Sun Valley is year-around comfort for the mortgage life of your home!

CONSTANT EFFICIENCY

Sun Valley has no comfort-robbing friction to run up your operating costs. It doesn't cost a penny more to operate the Sun Valley for an hour when it's 115° than it does when the temperature is 90°.

Red River Flood Control Meeting Held Recently

The Board of Directors of the Upper Red River Flood Control and Irrigation District met with representatives of the Bureau of Reclamation at Quitaque Monday afternoon, July 30.

Attending were J. C. Douglas of the Bureau of Reclamation, John Thompson, assistant director of the Bureau of Reclamation, State Representative W. S. Healy of Paducah, O. E. Bevers of Lakeview, O. R. Stark, jr., of Quitaque, Carl Hill of Parnell and Orville Setliff of Turkey, all directors of the organization.

"It was a helpful meeting," board members stated after the session.

The conference was made possible by a bill sponsored by Congressman Walter Rogers. It called for a feasibility study of Red River and the Salt Fork. After passage of the act, engineers of the Bureau had made a study of both streams. The report of Red River was the basis of the discussion.

O. R. Stark, Quitaque banker, presided at the meeting as chairman in the absence of C. C. Broughton of Childress, president.

Primary aim of the board of directors is the construction of a huge dam on Red River. Exact location of the dam is not known, but mention was made of a site northwest of Childress.

Among the points discussed by the group were the factors which would be considered pertaining to benefits from construction of a dam. Among them are health, wildlife development, recreation, pollution and siltation.

Pollution from salt and alkali deposits in the watershed were reviewed by the group. It was disclosed that these minerals are causing concern at Lake Texhoma, where siltation is also a factor. Directors pointed out that the construction of a large dam would be the most practical manner to alleviate the above problems.

All agreed that there were

problems, but that they were not unsolvable.

Cooperation of other agencies will be sought in the future, it was pointed out. Especially mentioned were the data gathered by the Texas office of the Health Department and the Geological Survey. The help of the Texas Board of Water Engineers will be sought.

Officials of the Bureau recognized that the directors of the Red

River District were familiar with area conditions due to the fact that all are long-time residents of the counties involved. The physical aspects of the proposal were discussed fully at the session.

It was pointed out during the discussion that qualifications for feasibility of dam sites are being

liberalized in keeping with water consciousness of the nation as a whole.

"Conditions that were not feasible in the past may well be adequate in the years to come," the directors stated.

The board will meet again in September with the Bureau.

Wedding vows were spoken Saturday evening in an eight o'clock ceremony in the First Baptist Church Chapel in Plainview by Miss Ruby Jeanette Brown and Phillip Romold Wise, with Dr. Roy McClung directing the double ring service.

The bride is the daughter of Mr. and Mrs. Durward Brown of Plainview. Parents of the bride-groom are Mrs. Neta Wise of Dallas and Ernest Wise of Bedford, Texas.

Altar decorations featured an archway of candelabras accented with leather leaf foliage centered with a kneeling bench decorated with foliage and white satin bows. Triangular arrangements of white gladioli and asters with the foliage completed the setting.

Miss Linda Caudle was organist and Riley Armstrong was soloist.

His selections were "Whither Thou Goest," "Walk Hand in Hand," and "The Lord's Prayer."

Given in marriage by her father, the bride was attired in a floor length gown of Chantilly lace, tulle and satin. The molded bodice was styled with V neckline bordered with tulle starred with iridescent sequins. Abbreviated sleeves were complimented with mitts of tulle and lace in points over her hands. The bouffant skirt was formed of tiers of scalloped lace and tulle over net and satin.

The bride's veil fell in cascades from a diamond shaped crown of rhinestones, pearls and sequins. She carried a bouquet of white orchids and white roses with stephanotis arranged with white satin leaves atop a white Bible.

Mrs. Jim Wilmeth of Kress served as her sister's matron of honor. She wore a dress of dull finish purple satin, with slippers and small pillbox hat with veil dyed to match. The scoop neckline of the dress extended to a deep V in the back. Fullness of the skirt was caught in back with a large flat bow, accenting the straight panel in front. She wore matching mitts and carried a fan of asters in lilac tones.

Other attendants were Miss Joann Henry, Plainview, and Mrs. Wayne Griggs, Lawton, Oklahoma. Misses Rita Brown and Connie Dudley, cousins of the bride, of

Silverton, were candlelighters. Their dresses and accessories were identical to the honor attendant, except their color was lilac. Their flowers were fans of purple asters.

The flower girl was Debbie McKenzie of Dallas, niece of the groom. Master Gregg Davis of Odessa, was ring bearer. Best man was F. R. Mitchell, Odessa, and serving as groomsmen and ushers were Lewis Brown, Plainview, brother of the bride, and Tim Currin, Bonham.

A reception following the chapel ceremony was held in the church parlor. In the reception houseparty were Mrs. Paul Davis, Odessa, Mrs. Travis Currin, Bon-

ham, Mrs. Arnold Brown, Silverton, Mrs. Jan McKenzie, Dallas, Miss Lesley Freeman, Denison, and Miss Jarrellyn Middlebrooks, Jacksboro.

Following the reception, the couple left for Big Spring. The bride traveled in a suit of coffee colored silk, with beige pillbox hat and gloves and tapestry shoes and bag.

They will be at home in Big Spring where Mrs. Wise will teach next year in the school system.

The bride and groom are both graduates of North Texas State University. The groom is a lieutenant in the Air Force and will continue his flight school at Webb AFB, Big Spring.

Among the out-of-town guests who attended the wedding were Mrs. H. Roy Brown, Mr. and Mrs. Arnold Brown, Mr. and Mrs. Milton Dudley, James Roy Brown and Becky Mallow, Silverton, and Mr. and Mrs. Norlan Dudley of Hart.

Mr. and Mrs. L. E. Paige, jr. of Amarillo, spent the weekend here with Mr. and Mrs. L. E. Paige, sr. Mr. and Mrs. Jim Whitfill, Dawn and Scottie, were also Sunday dinner guests in the Paige home.

Brothers and sisters of Elbert Dickerson were guests in the home of Mr. and Mrs. Dickerson on Sunday. Those attending were Mr. and Mrs. Norval Dickerson of Orlando, Florida; Mr. and Mrs. William Dickerson of Canyon; Rev. and Mrs. John Tucker, Mrs. Barney Anthony, Mr. and Mrs. Allen Dickerson and Mr. and Mrs. Buster Dickerson of Lubbock. Several other relatives called in the afternoon.

Mr. and Mrs. Bob Olive, Steve and Larry of Petersburg, visited Mrs. Belle Olive and Betty Sunday.
