

1963 Wheat Stabilization Program Is Explained

The new farm law, enacted September 27, 1962, provides wheat diversion and additional price-support payments which supplement the marketing quotas and price-support previously in effect for the 1963 wheat crop.

Marketing Quotas

Growers will be in compliance with their farm quota if they comply with their acreage allotments. As previously, marketing quotas penalties will apply to "excess" wheat. Marketing quotas do not apply to farms that have 15 acres or less of wheat for harvest.

Price Support

A support averaging \$1.82 per bushel, nationally, on the 1963 wheat production is available for producers who comply with their farm acreage allotment. In addition, an 18 cent-per-bushel price-

support payment on the normal production of their 1963 wheat acreage is available if they participate in the 1963 wheat stabilization program. (Small farms must also be in compliance with the wheat allotment to be eligible for price-support loans or purchase agreements and the price-support payment.)

Diversion Payments

In addition, producers may earn payments for reducing wheat acreage and putting the diverted acre to an approved conservation use. The amount of acreage to be diverted is:

If your wheat allotment is 15 acres or more, a minimum of 20 percent and a maximum of 50 percent of your wheat allotment; 10 acres may be diverted if this is larger than 50 percent of your

wheat allotment.

If your wheat allotment is less than 15 acres, a minimum of 20 percent of the larger of (a) the average acreage of wheat planted for harvest in 1959, 1960, and 1961 (but not to exceed 15 acres) or (b) the 1963 allotment; and a maximum of 10 acres, provided this is not larger than either (a) or (b) above.

Diversion Program

The wheat acres the producer takes out of production are to be devoted to a conservation use. These acres must be in addition to the farm's 1959-60 average acreage in conserving use, summer-fallow, and idle land. Acreage taken out of production under other Federal programs (such as the feed grain and Conservation Reserve programs) cannot be used

as conservation acres under the wheat stabilization program.

The diversion payment will be: The farm's established wheat yield per acre (based on 1959-60) times one-half the county price-support loan rate times the diverted wheat acreage.

Half the diversion payment may be made at the time the producer signs an agreement to take part in the program.

Substitute Crops

If he wishes, the producer may plant part or all of the acres he takes out of wheat production to guar, sesame, safflower, sunflower, or castor beans. The payment for these acres (except safflower) will be a percentage of what the diversion payment would otherwise be. The percentages are: Sesame, 40 percent; guar and castor

beans, 30 percent; sunflower, 20 percent safflower, no payment.

Price Support

By taking part in the voluntary wheat diversion program and complying with the acreage allotment, producers also become eligible for an extra price-support payment of 18 cents a bushel on the normal yield of the 1963 wheat acreage. This extra payment will be:

The 1963 wheat acreage times the established yield times 18 cents.

The total price support available for the 1963-crop wheat will be:

The local price-support loan rate (based on a national average of \$1.82 per bushel) times the amount of 1963-crop wheat produced and put under loan or purchase agreement plus the extra 18 cents per bushel payment as figured a-

bove.

Method of Payment

The wheat diversion payment will be in cash or, under certain circumstances, in wheat.

The price-support payment will be made by means of negotiable certificates, which the Commodity Credit Corporation will redeem in wheat or make a cash advance for the amount due the producer and market the certificate. (Wheat acquired through redemption of certificates will not be eligible for price support.)

The producer should be sure that he takes as many acres out of wheat production as he agrees to divert when he signs up. Otherwise, he will not be eligible for the regular price support, the extra 18 cents price-support payment or the wheat diversion payments.

December 14, 1962, is the last day for the sign-up in the 1963 wheat stabilization program for winter wheat. Notices of 1963 wheat yield payment rate, small farm base and normal conserving acreage will be mailed locally next week.

This is a general explanation of the 1963 wheat program prepared for the Briscoe County News by John Montague. For further details, contact Mr. Montague at the Silverton office of the Agriculture Stabilization and Conservation Service.

Mr. and Mrs. Doug Coleman and children of Dozier, spent Sunday with Mr. and Mrs. Lem Weaver, Max and Tina. Cindy remained for a longer visit with her grandparents.

All Around the Town

by Mary Ann Sarchet

I heard an interview on television yesterday morning with a Cuban girl who is attending Am... College. She described the manner in which the small school children in Cuba are converted to Communism.

The teacher begins by asking if the children believe in God. When they reply that they do, the Communist indoctrinated teacher tells them, "Put your heads down and pray to God for some candy and toys." The children pray, and of course they do not get these things.

For several days this same thing is repeated. Then one day the teacher says, "Children, put your heads down and pray to Fidel Castro and Premier Khrushchev for candy and toys." And immediately after their prayers are uttered, the teacher enters the classroom with toys and goodies for all.

So simple, isn't it?

☆☆☆

I was on an errand to the Tulia Herald Tuesday at KTUE news when H. M. Baggarly was closing his local news cast with a report of those in Swisher County Hospital. He read off the names quickly, and the last of them was Fidel Castro.

A few minutes later when I passed the door of his office I could not resist calling his hand. "I don't believe you have Fidel Castro in the hospital here," I laughed. "Oh yes we do," Baggarly said seriously, "he got his passing gear strapped on!"

Area Cotton Ginning Halted By Rain

The ginning of cotton in the four county area of Hale, Floyd, Briscoe and Swisher is running more than one-third behind last year, according to information received last Friday from the Texas Employment Commission.

As of Friday Hale had ginned 1,022 bales, Floyd 2,785, Briscoe 1,000 (mostly below the caprock), and Swisher 249 for a total of 5,056 bales.

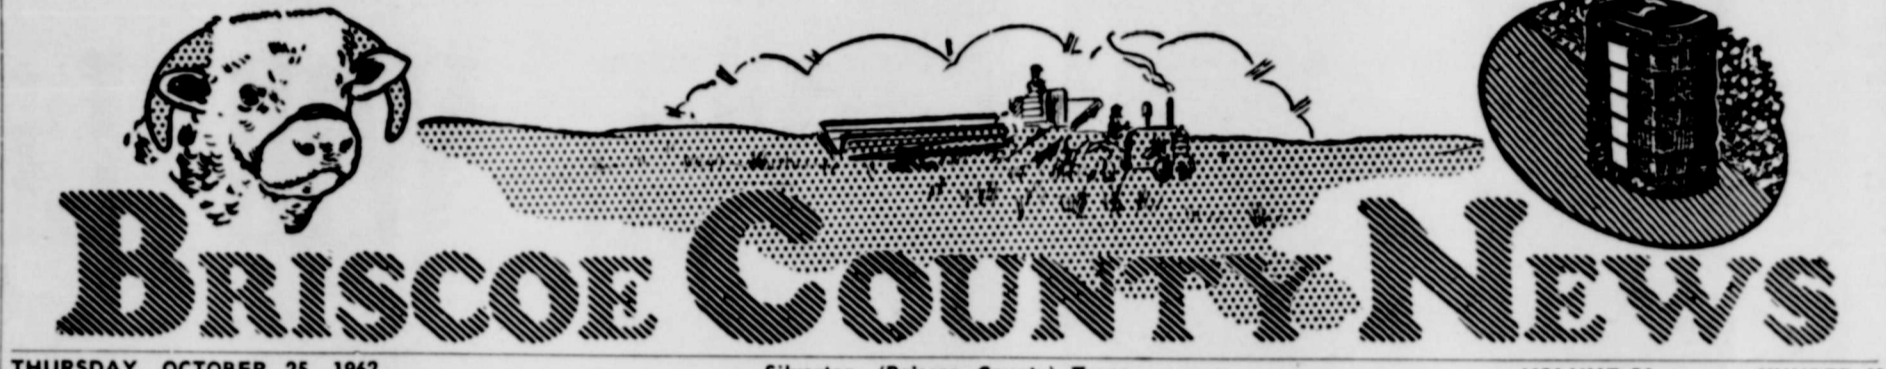

In comparison with these figures, last year Hale had ginned 1,662, Floyd 5,521, Briscoe 2,195 and Swisher 842 for a total of 10,220 bales.

Late planting, hail and an unusual amount of rain in September and October are contributing factors for the lag.

In 1961 the official rainfall for the month of September and through October 19 measured .76 of an inch. For the same period in 1962 3.79 inches have fallen.

During the first nineteen days in October the rainfall has amounted to 1.43 inches, while the September rainfall was 2.36 inches.

In 1961 only a trace had been reported for the first nineteen days of October.

THURSDAY, OCTOBER 25, 1962 Silverton, (Briscoe County) Texas VOLUME 54 NUMBER 43

Distribution of Type Two Vaccine Set For Sunday

Type II Sabin Oral vaccine will be distributed in Silverton and in Quitaque at the school gymnasiums on Sunday, October 28 between the hours of 12:00 noon and 6:00 p.m. Make-up date will be one week later, November 4.

Three drops of this vaccine on a cube of sugar prevents one of the three types of polio. Type I vaccine, which prevents a different kind of polio, was distributed to 1800 Briscoe Countians last month.

Dr. R. N. Muckleroy of Silverton is urging everyone to take this

type whether or not they took the Type I vaccine.

If Type I was swallowed, those who come to the clinics will not be required to bring a registration form. Those who did not take the Type I vaccine will be required to bring a properly filled in registration form or to complete one at the clinic.

The record of the date and type of vaccine will be posted on the forms of those who are attending their second clinic. For this reason, residents are urged to return for the Type II vaccine to

the same station from which they received Type I in order to facilitate clerical work. Permanent records will be kept for those taking the vaccine.

Type II vaccine is approved as safe for both adults and children by the Public Health Service and the U. S. Surgeon General's office. The sponsoring organization is the Hale-Floyd-Briscoe County Medical Society. Civic organizations and individuals are cooperating with the Society to furnish workers for the Sabin Oral Sunday program.

Owl Booster Buttons Are Now On Sale

Owl Booster buttons may now be purchased from Mrs. Joe Granato, Mrs. Dee McWilliams, Rita Brown, Martha Mills, Brenda Martin and Sandi Rhode.

Price of the buttons is 50 cents each or two for \$1.00.

The Silverton Quarterback Club

is sponsoring the sale of buttons in order to raise the balance of the cost of filming the home football games. The filming is done for the club by Fred Mercer, and the value of the films to the coaches and the players is great. The cost of filming each game is \$54.

Verlin Towe, president of the Quarterback Club has stated that the club hopes every sports fan will buy a button or two, and help support the home town athletic program.

V.F.W. Opens "Toys For Tots" Drive

The Silverton V.F.W. Post is again this year sponsoring the "Toys for Tots" drive.

Each Christmas for a number of years the V.F.W. has participated in this project. Used toys are collected and repaired for distribution to needy children who wouldn't have a bright holiday otherwise.

All repairable toys that can be mended, repainted and distributed at Christmas are needed as soon as possible so that the men will have plenty of time to do the work. Post Commander Fred Strange has announced that they can be left at the City Hall.

All children under 12 who bring a repairable toy to the Palace Theatre Saturday, October 27, will be admitted free. This will kick off the "Toys for Tots" drive.

If you have a toy to give, be at the Palace Theatre at 1:00 p.m.

Silverton Goes Down To Tough Ralls Eleven

Silverton's Owls went down to Ralls in the first conference game of the season 27 to 6 last Friday night.

The opening kickoff of the game was taken by Silverton and after three attempts to make yardage, the Owls punted to the Jack-rabbits. The Rabbits took the ball at their own 28-yard line and marched directly to the 3-yard line from where they plunged over for the first touchdown of the evening.

Silverton on receiving the after-touchdown kick and an offside penalty, were again held and forced to punt to Ralls. On their second play, Ralls scampered 45 yards for a second Ralls score.

The Owl's third possession of the pigskin was little more successful than the first two. Jay Towe ran the kickoff back to the fifty-yard stripe where the Owls received a clipping penalty from which they were unable to recover. After punting to Ralls at the beginning of the second quarter, the Owls picked up steam, allowed the Rabbits only one first down and forced them to punt.

The ball was taken by Silverton at their own 48-yard line and from there the Owls marched through twelve plays and three first downs

to score.

Ralls received the after-touchdown kick and racked up three first downs, arriving on the Silverton 20-yard line before the half ended.

The Owls kicked off to Ralls to open the second half and after receiving two penalties Ralls was forced to punt. Silverton was unable to move the Ralls eleven which outweighed them at least twenty pounds to the man, and Ralls took over the ball again. This time Ralls was held to an eight-yard gain. When Silverton took over the ball again, trying desperately to come from under a 14 to 6 score, the Owls had a pass intercepted and Ralls ran 50 yards for another score, to move ahead 21 to 6.

On the next series of plays the Owls gained another first down and seven yards toward another before fumbling to the Rabbits on the Ralls 38-yard line. Again Ralls was unable to move the ball and after making only six yards they punted to Silverton.

The Owls made two first downs and needed only two yards for another when an attempted pass play was smothered way back behind the line of scrimmage and an incomplete pass gave the ball

over on downs.

Ralls picked up three first downs to the Silverton 20-yard line where the Owls threw up a wall and held them. The ball went over on downs and Silverton fumbled it back to them the next play. Ralls took over this time and the Owls held them for four more downs. The Owls failed to budge the Rabbits, and taking the ball again, Ralls passed and ran 40 yards to score in the closing seconds of the game to move into a 21 point lead.

This report of the see-saw battle indicates that the contest was certainly no pushover for Ralls. Though the score indicated that they were three touchdowns better than Silverton, at least one of their scores was completely unearned. The Owls played a tough offensive ballgame, throwing up a barricade against the Rabbits to stop them cold when they were inside the Silverton 20-yard line.

Silverton managed to gain only 132 yards on the ground, as compared to 231 gained by Ralls. However, the Owls completed six out of eleven passes attempted, while Ralls completed two out of six tries.

Junior Study Club. Mrs. Davis presented a Federation Day Program to a joint meeting of Silverton's federated study clubs. (Briscoe County News Photo)

MARCH OF TIME STUDY CLUB HOSTS FEDERATION DAY TEA

Mrs. Bill Davis of O'Donnell, president of the Caprock District, Texas Federation of Women's Clubs, was guest speaker at a Federation Day Tea enjoyed by members of the L.O.A. Junior Study Club, the 1925 Study Club, the Century of Progress Study Club and the March of Time Study Club on October 18, in the community room of Plainview Production Credit Association in Silverton.

Hostesses for the tea were members of the March of Time Study Club, Mrs. Fred Mercer, Mrs. Marvin Montague, Mrs. D. T. Northcutt, and Mrs. Alvie Mayfield. Mrs. Ben Whitfill, president of the host club, welcomed the guests and introduced the speaker.

The invocation was given by Mrs. True Burson.

Mrs. Davis was third vice president of the Caprock District be-

fore being elected to the presidency. She was reared in Lubbock and was graduated from Texas Technological College. She is in the telephone business in O'Donnell where she has made her home since 1945. Mrs. Davis is an active worker in the Baptist Church.

"Lights to Brighter Pathways" is Mrs. Davis' theme for the year and Psalms 119:105 is her chosen scripture.

In her address Mrs. Davis emphasized the value of each local club to the General Federation. "We are the largest organization in the world—5½ million—a strong potential force," she added. "Federation brings a broader viewpoint, trains leaders, promotes friendship and understanding around the world," she said.

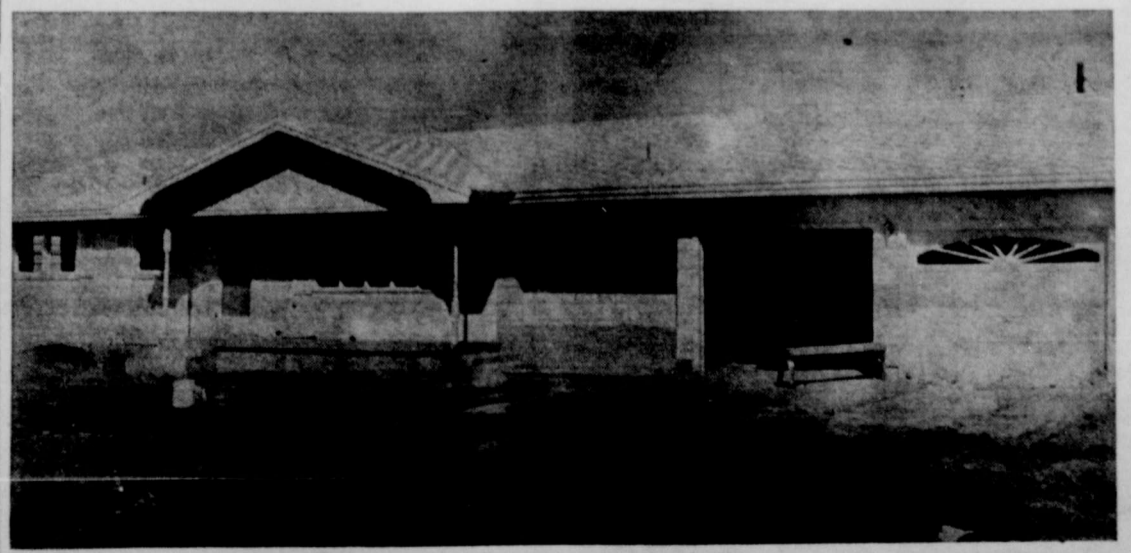

"Be proud of the time in which you live and so live that time will be proud that you lived in it,"

was her closing remark.

A lovely fall arrangement was centered on the white damask-covered table. The four levels of club work were lettered in gold on the steps with the highest level being the General Federation theme, "Applied Knowledge is Power."

Small pumpkin-filled tarts were served with assorted nuts and coffee to Mmes. Bill Davis, J. Lee Francis, Nannie Bomar, Alton Steele, Alvie Mayfield, G. W. Lee, Clarence Anderson, J. W. Lyon, jr., Marvin Montague, Fred Mercer, Tony Burson, D. T. Northcutt, True Burson, Roy Mayfield, Troy Burson, W. E. Schott, jr., Ben Whitfill, Guinn Fitzgerald, Joe Brannon, W. D. Rowell, Jim Whitfill, Leo Fleming, John R. Gill, Gene Morris, Pat L. Northcutt, Joe Montague, Jack Strange and Norman Strange.

R. S. Lewis of Stanton was a dinner guest of Mr. and Mrs. Bruce Womack on Thursday of last week. All formerly lived at Quitaque, and Mr. Lewis was enroute there to attend a family reunion Thursday evening.

C and C Construction Company of Plainview is holding open house at the new home of Mr. and Mrs. Joe Lee Bomar west of Silverton Sunday afternoon from 1:00 until 5:00 p.m. They invite your inspection of this new three-

bedroom home which features two ceramic tile baths, three bedroom, kitchen, den and living room, with attached double garage.

W.M.S. BEGINS BIBLE STUDY

The W.M.S. of the First Baptist Church met on October 23 at 9:30 a.m. to begin the study of the Bible in its entirety. The group finished the introduction of how the study was inspired and its divisions.

Mrs. Carlos McLeod is the teacher. She is well-learned in the study and is presenting the material in an interesting way. The next lesson will be the first two books of the Bible on November 27 at 9:30 a.m. The members are to read the two books before the meeting.

The church nursery is open for all the meetings.

Those present were Polly Tucker, president, Bonnie McLeod, teacher, Lois Walker, Donaleta Garrison, Bobby Bean, Marian Hamilton, Virginia Hardin, Lajuana McJimsey, Mrs. W. A. Stephens, LaVern Stephens, Marie Garrison, Bobby Maples, Ruby Brannon, Faye Whitfill, Norma Birdwell, Viola Boyles, Gladys Arnold, Marie Dunn, Theda Holt, Malta Patton, Eva Lee McWilliams, Georgia Allard, Lillie Thompson, Nettie V. Baldwin, Lottie Clemmer, Dean Burson, and Irene Loyd.

Mr. and Mrs. W. D. Peugh and Kathy were Sunday visitors with his sister and family. Mr. and Mrs. W. H. Sharp, near Hart, Mr. Sharp is attending the school for the blind near Kerrville.

Mrs. E. W. Yancey was in Amarillo Monday.

Mrs. Loyd Dean Waters

☆☆☆ EDDLEMAN - WATERS VOWS EXCHANGED LAST SATURDAY

The home of Mr. and Mrs. Bruce Eddleman near Silverton was the scene on Saturday, October 20, of the wedding of their daughter, Thelma Joyce, to Mr. Loyd Dean Waters, son of Mr. and Mrs. Earnest Waters of Pampa. Earl Cantwell, minister of the Rock Creek Church of Christ, directed the double ring ceremony.

The exchange of vows took

place before two large candelabra holding white tapers, decorated with arrangements of white and pale gold chrysanthemums and greenery.

Escorted and given in marriage by her father, the bride wore a two-piece suit of gold brocade satin with beige pumps and a white carnation corsage. Attending her friend as matron of honor was Mrs. Joy Haney of Amarillo. She wore a beige wool sheath dress and a white carnation corsage.

Serving as his brother's best man was Oscar Waters.

Mrs. Eddleman chose a brown dress for her daughter's wedding, while Mrs. Waters was attired in a green dress. Both mothers wore white carnation corsages.

A reception was held immediately following the ceremony. Miss Joyce Waters, sister of the bride-

groom, registered the guests. Mrs. Jack Mayfield and Mrs. Bill Durham, both of Silverton, presided at the serving table which was laid with a white cloth and centered the tiered wedding cake which was topped with wedding bells. Golden punch and mints were served with the cake.

After a brief wedding trip, the couple are at home at 1503 A Parker in Amarillo. The bride is a graduate of Silverton High School and attended West Texas State College. She is now employed by Amarillo Hardware.

The groom is a graduate of Pampa High School and of Amarillo College. He is employed by Graybar Electric Company in Amarillo.

Mrs. Edna Loyd of Friona, and Mr. and Mrs. W. I. Odom of Quanah, called on Mrs. Carl Crow Monday morning. All grew up in the same community near Alvarado.

Mrs. Lee Deavenport attended funeral services for Mrs. C. L. (Grace) Jarrett, 68, in Floydada on Friday of last week. Survivors include her husband, three daughters and five sons, including Lowell Jarrett, of Lone Star.

Mr. and Mrs. Frank Mercer and Peggy spent Friday night in Post with Mr. and Mrs. Walter Arnold and children. Saturday they attended parents' day at Hardin-Simmons University, where their daughter, Sandra, is a student. They attended the Hardin-Simmons vs. Trinity football game Saturday evening, remained in Abilene overnight, and attended church services before returning.

Mr. and Mrs. Ted Bingham and Rhonda of Amarillo, recently spent several days here with his mother, Mrs. Faye Bingham, and Steve.

Demonstrating new '63 Chevrolet truck features the hard way!

When we came to a river we got wet. This river bed was paved with rocks the size of melons. What a test for new light- and heavy-duty suspension systems this was!

Conventional light-duty units have coil-spring independent front suspension—easier on truck, load and driver.

Users of new conventional medium- and heavy-duty units who have to operate in close quarters are going to like the narrower front ends (up to 7 inches).

New engines, suspensions, frames and narrower front ends show their stuff on Mexico's tough Baja Run!

With months of proving-ground tests under their belts, why did new Chevrolet trucks take on the rugged Baja (bah'hah) Peninsula? This is the toughest line of trucks Chevrolet has ever built. Sending them over the most punishing terrain in North America (a road totally unlike the fine highways on the Mexican mainland) was double proof of this fact. Frames, engines, suspension systems were subjected to stresses far greater than trucks normally encounter. You can be sure that trucks that can handle this kind of beating can handle any kind of work.

Did You Make It?

Were you one of those who succeeded in making the honor roll? If you did, congratulations. Very few, indeed, made it this first six weeks. As a matter of fact, there were only 6 students out of 137 in high school who reached that most-wanted position.

This is a frightfully small percentage. Certainly this is not a

"How Big Is An American" Is Assembly Topic

J. S. Hinds, school superintendent, spoke to the student body in an assembly on Wednesday, October 17, on the subject, "How Big Is An American."

Mr. Hinds outlined several points of interest for the group.

This was the first formal address Mr. Hinds has presented to the students, but the members of the student body have expressed the opinion on numerous occasions that Mr. Hinds has helped in every possible way to guide them into a better adulthood. This talk was designed to spur the students on toward becoming true Americans.

In this manner the school superintendent made each student feel a desire to become like one of the great Americans he described, and to help make this country the greatest ever for all the world to see.

Wednesday, October 31: Chip-o pie, corn, rolls, butter, bread, salad, rolls, honey, apricots and milk

Ten Ways To Kill An Organization

- 1. Don't come to the meetings, but if you do—come late.
2. If the weather doesn't suit you—don't think of coming.
3. If you do attend a meeting, find faults with the officers and other members.
4. Never accept an office—it is easier to criticize than to do things. Nevertheless, get sore if you are not appointed on a committee.
5. But if you are, don't attend meetings.
6. If asked by the chairman to give your opinion on some important matter, tell him you have nothing to say.
7. After the meeting, tell everyone how things should be done.
8. Do nothing more than is absolutely necessary, but when other members roll up their sleeves and willingly and unselfishly use their time and ability to help matters along, how that the organization is run by a clique!
9. Hold back your dues as long as possible—or better still, don't pay them at all.
10. Don't bother about getting new members—let others do it.

Morning Devotions

- Tuesday 23: Jerry Sweek
Wednesday 24: Jimmy Myers
Thursday 25: Linda Harvell
Friday 26: Dwin Davis

true representative of our combined intelligence.

The greatest difference is in the amount of time spent by the individual on each subject. Many students who did not make the honor roll, however, devoted much time and thought to the lessons but still were not prepared. The difference in the speed in which they work could be a factor of importance.

Unless each student carefully analyzes his time he cannot really say how much time he spends on school. Unless each parent observes the student they cannot imagine the brainwork that goes into one lesson.

If you did not make the honor roll, try harder! That sounds inconceivable, but keep it up.

If your son or daughter failed to make the honor roll, please don't be angry or shocked. Only 3.6 per cent of the students in high school did! Our motto: be patient!

Typing Service Is Still Available

Don't forget that the Typing Service is still available to the public as it is all through the year. All jobs will be welcomed.

If you have a job that you would like to have done and done well, contact Mrs. O. C. Rampley at least three days before you need it.

Painting Of "Mr. Briscoe" Re-Appears

by Mrs. Alice Lacy

On the south wall of the high school library recently there reappeared a picture that had passed out of sight some months ago.

Upon inquiry one could have learned that this picture had been placed with an artist to be cleaned, repaired and retouched in order to bring back, as nearly as possible, its original appearance. While this was in process, the gilt frame was also being repaired and repainted.

We of the library staff point with pride to this oil painting, this portrait of Captain Andrew Briscoe, an early Texas hero, for whom Briscoe County was named.

Captain Briscoe, if we recall correctly our early-day Texas history, took part in the battle of Concepcion, then joined Ben Milam in forcing San Antonio to capitulate. He remained with the army until elected a delegate to draw up a declaration of independence. History further tells us that Captain Andrew Briscoe was one of fifty-nine early-day Texans who signed this Declaration at the town of Washington-on-the-Brazos on March 2, 1836. Then, when the Alamo fell to Santa Anna, Briscoe moved that an express be sent to the United States with the intelligence. It was then that he wrote what was perhaps the first account of the disaster and massacre to be published in the United States.

Captain Briscoe chartered and began construction of the first railroad in Texas, the Harrisburg and Brazos.

We have not been able to learn who, when and under what circumstances this portrait was presented to our school library. If anyone knows we would appreciate having this information.

The artist's signature, S. Solomon, appearing in the lower right corner identifies the painting as a true work of art.

We cherish this portrait and wish to express sincere appreciation to those who had a part in its restoration.

IMAGINATION: What makes you think you're having a wonderful time when you're only spending money.

Owl Pigsaw Preview

by Coach Robert Wheelchel

The Silverton Owls were defeated 27-6 Friday night by the Ralls Jackrabbits. This was the first conference game for both teams. Ralls, Idalou and Petersburg are the tops in district after the first week.

The coaching staff felt that we were weak off tackle and around end. Pass defense did not work as well as was expected. We had one boy out that we had to substitute for and this was a new assignment for the boy to learn. Ralls was the hardest hitting team

that we have played so far.

Offensively, we looked good on our passing until the interception by Ralls put them ahead 21-6. We felt that our 30 series play looked good most of the second half. We were getting down on kick-off and punts. Jay Towe, Gregg Towe and Max Garrison looked good running.

This week we play Idalou at Silverton. Idalou is ranked third in Class A. They are not as big as Ralls, but they hit quick and make the breaks work for them. We will have to stay at our best.

THE REVOLUTION IN MATHEMATICS

by Mrs. Alvin Redin

Grades are not always a true indication of a pupil's ability nor of his knowledge. Some pupils

work much harder and are more conscientious about doing every assignment than are other pupils. Some pupils try their best; others are content to pass. Some pupils find time to see the teacher after school hours, before school hours, or at other times to secure help; other pupils can just barely make it to class. Some like math and welcome the opportunity to try out their brains on mental gymnastics; other pupils avoid mental exertion far more than they do physical exertion.

In spite of the fact that grades are not always true indicators of a pupil's knowledge, the following pupils have made excellent grades so far this year:

- Janice Lewis
Mary Dell Tucker
Jealeta Eddleman
Helen Lewis
Jerry Sue Sweek
Orlin Grabbe
Linda Fisch

T.B. Patch Test Program To Be Conducted Here

On Monday, November 5, 1962, T. B. Patch Tests will be available to all students in the Silverton Schools. The program, sponsored by the March of Time Study Club, will be free of charge.

In the near future your child will be given a slip to be signed and returned to the teacher. Please sign and return the slip whether your child is to receive the test or not.

Only the parents or guardians of children with positive tests will be notified.

F.H.A. Holds Business Meeting

by Peggy Mercer

In an FHA meeting on October 18, the girls decided to have their annual Sweetheart Banquet on February 16, 1963. Suggestions pertaining to a theme for the banquet are to be turned in to the president, Sue Lanham.

The treasurer reported that the Future Homemakers have a bank balance of a little less than \$300.

The meats cook books that were ordered had not arrived, but a report was that they should come soon.

We Live In A Science Conditioned World

by Jim Whitfill

"It is evident that we live in a science conditioned world, perhaps even in a sense, dominated world." These are the words of Polykarp Kusch, professor of physics at Columbia University. Surely no one can dispute this statement.

Every individual who makes any claim to being an educated man must, therefore, have a significant understanding of the two aspects of science, science as a source of power and science as an intellectual activity that interprets and expands human experience.

Every step in an education is designed to bring to light some new aspect of man's existence, and surely there is nothing more stimulating than the thought of living in a world with such a future in science.

I feel that it is almost imperative that a student concern himself with training extensively in some field of science. Along with the thorough training in one field, he should have a comprehensive view of some other science. I would suggest a concentrated study of some physical science and a minor effort in the biological sciences. A reversal of the plan would be just as satisfactory. Of course, in my science oriented program, a concentration on mathematics, as a tool, is mandatory.

My experience has led me to believe that anyone who follows a scientific route in life is much better adapted to our everyday life than a person educated in some other field. I do not mean to imply that other phases of education are

Attendance Record Has Been Excellent

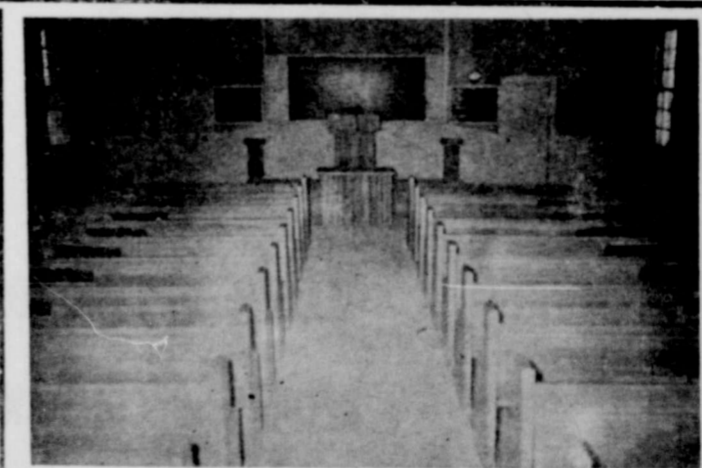

J. S. Hinds, superintendent of the Silverton Schools, announced that the high school had an attendance record of 97.4 per cent for the first six weeks of school.

The junior high and elementary school attendance was 96 per cent and the Carver Elementary School has reported an attendance of 97.7 per cent.

The superintendent added that this is a fine record for the Silverton Schools, one that he hopes will be maintained.

HUSBAND: A man whose ambition is to have as much money as his wife thinks he has.

not important, and the person who is conscious of his indebtedness to science will feel a deep responsibility to himself and his neighbor.

- Evening 7:00 p.m.

Sophomore Chicken Supper Is Tomorrow Night

Tomorrow night, Friday, October 26, the Sophomore Class is sponsoring a chicken supper in the school cafeteria before the Owls play the Wildcats from Idalou.

The supper will begin at 5:30 and will continue until 8:00 p.m. Prices will be 75 cents and \$1.00. The Sophomores say, "Everyone come out to see the Owls, and before the game eat with us!"

The class mothers are to meet on October 23 to discuss the chicken supper to be sponsored by the class soon.

FRESHMAN CLASS

by Nena McDaniel

The freshman class had a meeting on Tuesday, October 16. They chose as their second booth for the Halloween Carnival the peep toss.

PEEPIN' TOM

Tom hasn't had much time lately to go snooping, but here are a few juicy bits of gossip that may be of interest to nosy people.

Tom gets green onions thrown at him all the time. It seems that when some little ole him about certain couples is let out, all the mothers around town start accusing their daughters or sons of misbehaving at school. Well, mothers, put your minds at rest! And don't start accusing until you are sure. Tom will keep you well informed.

Pat Cagle seemed pretty furious at Fred E. the other night at the football game. Don't you believe in sharing your fortune with others, Pat? A boy, at that!

Tom has noticed how frightfully bare our streets have become since school has started. Now with report cards and grades being posted everywhere, Tom certainly won't find much news. After all, what ever happens at home that could be interesting?

Martha Shelton, does Klea really seem weird to you? Tom knows lots of people who would certainly disagree with you.

Tom is beginning to wonder if popularity is so precious that it can cause conflict among the junior girls. Open your eyes, girlfriends! Friendship is far more valuable than popularity. Was Coach Granato's recent proclamation that the boys should refrain from talking to the girls based upon the attitudes and action of only one couple. It didn't seem to affect them at all.

Ike, your unrevealed flame is going steady, or didn't you know? BEWARE!

Teacher, watch out! There are low grumblings of a student revolt traveling around the school.

CLASS NEWS

SENIOR CLASS

by Sue Lanham

The seniors have chosen to have the food booth and the baseball throw at the Halloween Carnival. The class is hoping that many will attend the carnival and eat with them.

JUNIOR CLASS

by Shirley Myers

The junior class met on October 16, and discussed their play once more. The play books have come and everyone in the class is supposed to read the play before the next meeting.

The class chose a second booth for the Halloween Carnival. It will be a style show featuring all the junior boys and their sponsor. The craziest fashions ever are promised.

SOPHOMORE CLASS

by Mert Mills

The sophomore class has decided to have as a second booth at the Halloween Carnival the merry-go-round.

CALENDAR OF EVENTS

SILVERTON FALLS

Continued From Page One

Silverton gained six first downs while the Rabbits made eleven. Each team intercepted one of the opponent's passes.

Ralls was penalized 40 yards while 50 yards was stepped off against the Owls.

Silverton fumbled twice and lost the ball both times, while Ralls fumbled only once, and managed to recover it themselves.

This Friday night the Owls host the Idalou Wildcats. The Owls will be looking for conference win no. 1, and Idalou will be trying to keep their undefeated record. It is sure to be a good game, and it will be of great help to the Owls to have a large crowd on hand to cheer them on.

AREA COTTON

Continued From Page One

per acre and an estimated yield for Hale County of 173,210 bales, Floyd 88,725, Briscoe 21,420 and Swisher 51,105 for a total of 334,460 bales.

Normally ginning of cotton in this area takes place from September until December. However, according to the Commission harvesting of last year's crop was not completed until February, 1962.

Jerry McWilliams Pledges Fraternity

Jerry Dee McWilliams, a student in the School of Pharmacy at Southwestern State College, Weatherford, Oklahoma, is pledging Phi Delta Chi, national professional pharmacy fraternity.

Membership is open only to male residents of an accredited school of pharmacy, with at least a two point average.

Jerry is the son of Mr. and Mrs. Dee McWilliams of Silverton, and is married to the former Paula Reid.

Mr. and Mrs. Wayne McCutchen and Richard and Mrs. Bob Weatherly and Kevin spent a long weekend in Bronte with Mr. McCutchen's parents, Mr. and Mrs. Bill McCutchen, and other relatives.

Mr. and Mrs. Richard Eddleman and Kyde of Abernathy, spent the weekend here with relatives.

ATTEND HOMECOMING AT SOUTHWESTERN COLLEGE

Mr. and Mrs. Dee McWilliams and Paul Ray spent the weekend in Weatherford, Oklahoma, with Mr. and Mrs. Jerry McWilliams. They attended the Homecoming parade and football game at Southwestern State College, which was dedicated this year to Thomas P. Stafford, Air Force Captain, recently selected as one of nine in the second group of U. S. Astronauts, whose hometown is Weatherford.

First place winner for the best float in the parade was the Pharmacy Wives Club, of which Paula McWilliams is secretary-treasurer. Second place winner was Phi Delta Chi, of which Jerry McWilliams is a pledge and Richard Jarnagin is a member.

Silverton was well represented at the WTSC Homecoming last Friday and Saturday. Among those who attended were J. R. Steele, Mrs. Ruth Baker, Mrs. Clarence Anderson, Ray Thompson, Haun Kite, Mrs. Joe Brannon, Mrs. Don

Cornett, Mr. and Mrs. Joe Mercer, Mr. and Mrs. Fred Mercer, Mr. and Mrs. Jim Mercer and Kent, Mr. and Mrs. Glen Lindsey, Mr. and Mrs. Grady Martin, Rick and Lynette, Mr. and Mrs. Homer Stephens, Mr. and Mrs. J. L. West, Mr. and Mrs. Charles Wayne Mayfield, Mr. and Mrs. Guinn Fitzgerald, Mr. and Mrs. Glenn McWilliams and Jim, Mr. and Mrs. Charles Whitfill and Rev. and Mrs. Carlos McLeod.

Ann Wingo Is Appointed To Yearbook Staff

Ann Wingo, a freshman student at the University of Texas, is among the one hundred eighteen students who have been appointed to the staff of the Cactus, student yearbook.

Ann is the daughter of Mr. and Mrs. Fred Mercer of Silverton.

Mr. and Mrs. Dick Bomar spent the weekend with their daughter and family, Mr. and Mrs. Rex Long, Kit and Mike, near Alanreed.

????????????

WHO'S FOR WHAT?

Less Government . . . More Responsibility . . .
A BETTER WORLD!

Perhaps you're for them, too, as is your present Congressman, Walter Rogers. And he's as strong an anti-communist as you could meet in America today.

But Walter Rogers is NOT for the dictatorial methods of the John Birch Society . . . in which Rogers' opponent says he is "proud" to claim membership. Harrassment of good citizens? Unquestioning obedience to the society's founder and dictator? Sowing the seeds of distrust and hatred of America's leaders?

CONGRESSMAN WALTER ROGERS SAYS "NO THANKS"

RE-ELECT
a SENSIBLE Conservative

(Pol. Adv. Paid by TEXANS for RESPONSIBLE GOVERNMENT)

More Men Than Women Are Cancer Victims

"Some men still believe that cancer is primarily a woman's

disease. They're wrong. They could be dead wrong."

With these words, Dr. R. N. Muckleroy, of the Briscoe County Unit of the American Cancer Society, recently warned that cancer strikes more men than women and that failure to act against the disease results in death.

"As part of our educational drive," Dr. Muckleroy said, "we work to help save the 87,000 Americans who each year die needlessly because their cancers were not diagnosed in time."

For this reason the physician addressed himself to those men who think that cancer is a disease that usually strikes women.

"I don't know how that old wives' tale got started," Dr. Muckleroy said, "but it can be said that women have always done more about cancer and have spoken more openly about it than men. This is part of the reason why a change occurred. Until 1949, slightly more females than males died of the disease. Since then, more men than women have been cancer victims. This year, the ratio of cancer deaths will be about 54 men to 46 women."

Women have helped reduce their cancer death rate by heeding medical advice especially about the two most common forms of female cancer, the doctor said. These are breast and uterine cancer.

Dr. Muckleroy said, "For years the American Cancer Society has been urging women to practice monthly breast self-examination as a safeguard against breast cancer and to have an annual checkup which includes a pelvic examination and a cell examination for uterine cancer that can detect the disease at a stage when it is virtually 100 per cent curable. In the case of uterine cancer, the death rate has been cut in half in the past generation."

Common types of cancer in men, according to Dr. Muckleroy, are: cancer of the digestive system (stomach, colon and rectum), of the respiratory system (lungs and larynx), of the skin and lip, of the pharynx, and of the prostate gland in older men.

"Lung cancer has gone up 500 per cent in 20 years mostly among men," the doctor pointed out. This year an estimated 39,300 Americans will die of lung cancer, 34,000 men, 5,300 women.

Cancer of the larynx strikes ten times as many men as women.

"Many forms of cancer," he continued, "if found in time and promptly treated, can be cured." He outlined some of the safe-

guards against cancers common to men.

Lung cancer: preventable to a large extent by not smoking cigarettes. ("The less you smoke, the less your chances of developing hard to cure lung cancer.")

Larynx cancer: symptomized by persistent hoarseness. Highly curable when found in time.

Colon and rectum cancer: a yearly proctoscopic examination by a physician will usually uncover early signs of the disease, which when localized can be cured in three out of four cases. The proctoscope is a tube with a light which permits the physician to see the inside of the rectum and lower part of the colon.

Skin and lip cancer: a sore that does not heal and a change in skin

condition are early signs of this form of cancer which usually is not difficult to treat.

"Against all forms of cancer, for both men and women, your best protection is a yearly health checkup by a physician and an awareness of cancer's seven danger signals," Dr. Muckleroy added.

Zemo Great for Minor Burns, Cuts

Zemo, a doctor's formula, liquid or ointment, soothes, helps heal minor burns, cuts, bruises, Family antiseptic, eczema, teen-age pimples, athlete's foot. Stops scratching, so aids faster healing. For stubborn cases, get Extra Strength Zemo.
