

Opposition Developed To Proposed Amendment

Strong opposition has developed to the proposed amendment to the Constitution (No. 14—Trial de novo) that will be voted on in the general election November 6. Abner V. McCall of Waco, president of Baylor University, has been named to head a statewide committee opposing the trial de novo amendment, which is last on the ballot.

McCall has said that the passage of the amendment and implementation by any future legislature will mean "the end of local self-government."

Decisions of any governmental unit including school boards, county commissioners, city councils, hospital or water districts, even on such matters as teachers' pay, where to locate a county road or who will pave a city street will be in jeopardy if the amendment passes, McCall said.

The amendment has drawn strong opposition from city and county officials, school authorities,

attorneys and many others, particularly in rural areas. McCall said. The amendment appears innocently on the ballot as "granting the Legislature power to provide trial de novo on appeals from actions, rulings or decisions of administrative agencies of government."

One of the arguments against the trial de novo amendment is that any "crackpot" with the \$20 or so needed for a filing fee could go into court and block a multi-

million-dollar bond issue approved by a state agency on the vote of the people.

Supreme Court Judge Meade F. Griffin has pointed out that this simple wording would change "our fundamental concept of a democratic form of government by eliminating the present checks and balances designed to prevent one branch from becoming the master and dictator of the other two."

He said that de novo appeals, such as would be authorized by

Amendment 14, would put Texas courts ten years behind in their dockets and cost taxpayers millions of dollars each year.

There are thirteen other little known submissions on the same ballot, which will be about the size of a large newspaper page. One of the amendments would give the Legislature the right to create hospital districts—a matter which now takes an amendment to the Constitution for each one, and has

caused 16 submissions since the first one in 1954. In fact, two others are among the amendments on this year's ballot.

As a simple economic matter, that would be a good one to pass (No. 5) and it would also pertain to Briscoe County in the event that a hospital district is created here. Voting "yes" on Amendment No. 5 would mean that Briscoe Countians would not have to submit a proposed constitutional amendment similar to Nos. 3 and

9 in order to create a hospital district. The submissions have averaged more than \$10,000 each for advertising in past years, and this year, because of a liberalized rate, the cost for the 14 is more than \$250,000.

There is another one, though, that would validate bonds of Dallas County school districts without calling an election every time new territory is annexed. And if provided.

All Around the Town

Your vote for Jack Seale on November 6, will also be a vote of confidence for the John Birch Society.

This man, Seale, who advertises himself as the one with "the courage to speak up for you" acknowledged on television on Thursday evening of last week that he is a member of the John Birch Society. He has been a member for over a year, I understand. Yet, I learn from some of those who attended the breakfast for Seale in Silvertown recently, that when asked that day he denied membership in the John Birch Society.

"Does a man who can say 'yes' on the left and 'no' on the right, or vice versa, sound like a man with 'the courage to speak up for you'?"

The John Birch Society has recruited members from the ranks of honest, God-fearing Americans who believe that something should be done to halt the spread of Communism. The method of operation of the Birchers, however, creates distrust and division among the people—which is exactly what the Communists want!

Don't underestimate the forces of the Birch Society—they are said to number more than 6,000 in the Panhandle.

The Birchers are self-appointed "finger pointers." They have labeled as Communists the last five United States presidents in addition to many others in government.

I think that probably a large percentage of the members of the John Birch Society are those who have been misled in their beliefs regarding the organization and its purposes. Perfectly innocent moves can be used to bolster a prospective member's confidence to get his name on the Society's roster to be used in influencing others. I think this is true of the local sympathizers of the Birch Society. I do not think they are Communists.

It may someday be proven that some of the Birchers are Communists, but I will say this: They as a whole act like Communists in many of their official moves. If they are not working for the Communist Party, they are unwittingly helping it to gain a foothold in the United States.

People are always asking "what can be done to fight Communism?" I say that your undivided loyalty to the church of your choice is the best way to fight Communism. Your belief in God and your efforts to strengthen the church in your community is your best weapon against Communism.

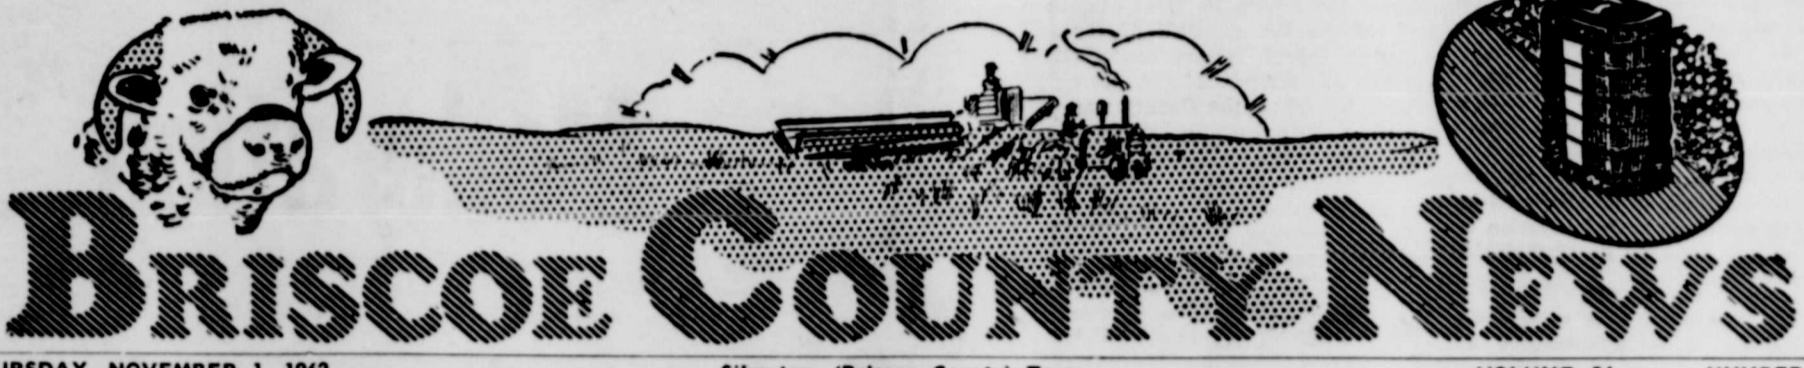

Let's don't elect a Bircher to represent us in Congress on November 6!

Aside from the Birch Society issue in the Congressional race, I feel quite certain that many of the Amarilloans who are supporting Seale for Congress are doing so because they hope to be able to control him for their own personal interests. They are overlooking that Walter Rogers has done much for this area—much that contributes to the welfare of Amarillo. One example is the reopening of Amarillo Air Force Base and the opening of the SAC base, and another is the Canadian River project for which Walter Rogers has worked so hard.

People who know Jack Seale say that he was "pushed" into the city council in Amarillo; was "pushed" into the Mayor's office; and was "pushed" into the Congressional race.

We do not need a Congressman who will cater either to the big city interests or to the wishes of the John Birch Society.

Cast your vote in the Democratic column on November 6. Vote for Walter Rogers!

Be Sure to Mark your Ballot Correctly

Joe Mercer, chairman of the Briscoe County Republicans, has issued a warning to all voters to be sure to mark their ballots correctly in the election on Tuesday, November 6.

He cited as the reason for this warning the fact that 13 percent of the votes cast in the Quitaque

November 9 Will Be Dad's Night

On November 9, the Silvertown Quarterback Club will sponsor Dads' Night. The Owls will play Lorenzo on the home field that night, and as a special demonstration of confidence in the team the dads will be asked to sit in chairs behind the bench. On each dad's chair will be the playing numbers of his son or sons.

Children To Be Admitted Free

All children under 12 years of age who bring a repairable toy to the Palace Theatre next Saturday afternoon will be admitted free of charge.

The toys are being collected for the V.F.W. "Toys for Tots" drive. The V.F.W. members repair and repaint the toys for distribution to needy children at Christmas.

Club members noted with interest

that some of the fathers have two or more boys playing this year. Verlin Towe, president of the club, has two boys playing; J. W. Reid, jr., has three boys on the team; and Glynn Tomlin has three boys on the team.

The Quarterback Club reviewed the film of the Idalou vs. Silvertown game Monday evening, and discussed plans for the season.

All-Out Campaign Set For Make-Up

An all-out campaign is being conducted in Silvertown and Quitaque this week to stress the need for all residents, regardless of age, to take the Type II Sabin oral vaccine, which will be offered next Sunday, November 4, for the last time at public clinics in Briscoe County.

The vaccine is free of charge.

Mrs. J. B. Lanham Laid To Rest Here

Funeral services for Mrs. J. B. Lanham, 85, were conducted in the First Baptist Church in Silvertown on Monday, October 29, with the Rev. Carlos McLeod, pastor, the Rev. G. A. Elrod, former pastor, and Earl Cantwell, minister of the Rock Creek Church of Christ, officiating.

It is chewed up with a cube of sugar, and will be distributed at the Silvertown and Quitaque school gyms from 12:00 until 6:00 p.m.

The county's Type II anti-polio vaccination clinics totaled 1,155 patrons Sunday, falling about 150 short of the 1,300 persons who attended the first round of the Type I clinics.

Dr. R. N. Muckleroy has urged people to recognize the danger in neglecting to take the Type II vaccine. Type I immunizes against only one of the three polio viruses, and the individual is still vulnerable to attack from the two other kinds.

Types I, II and III are necessary to insure not only good health but also the assurance that the individual cannot carry the disease.

To consider the community "safe" from polio, epidemiologists consider it necessary for 85 to 90 per cent of the population to protect itself against the disease.

At the end of the Type I series of clinics, it was estimated that only about half of Briscoe County residents had protection against that particular virus. This indicated that a large turnout will be required to bring the Type II protection up to a safe level in the county.

Individuals not working directly with the program can help, too, it has been pointed out, by a word of mouth campaign urging friends and neighbors to take the Type II vaccine.

Burial was in the Silvertown Cemetery

under the direction of Roberts Funeral Home. Active pallbearers were Jack Strange, Robert London, Jeff Roberts, George Seaney, Olos Chitty and Roy Mayfield. Honorary pallbearers were Dick Mayfield, G. Mayfield, Dean Allard, Bud McMinn, and Jack Stafford.

Survivors include three sons, Johnny and Lenton of Silvertown, and Richard of Quitaque; three daughters, Mrs. Ethel Lea and Mrs. Willie Mae Schnaible, both of Roswell, New Mexico, and Mrs. Albert Malloy of Silvertown; 13 grandchildren and 11 great-grandchildren.

4-H Council Holds Planning Session

Briscoe County 4-H Council met Thursday, October 25, at the Court house to make plans for the annual Achievement Banquet to be held on Saturday night, November 10.

The group worked out details for the program which will honor members and special guests.

CENTURY OF PROGRESS STUDY CLUB urges YOU to vote on November 6. It is your RESPONSIBILITY! If you need a ride to your voting place, please phone 4741, 3761, or 3551.

Silvertown Owls Trail Idalou Wildcats, 28-6

Silvertown's Owls after trailing 14-6 at the close of the third quarter fell at the feet of the Idalou Wildcats 28-6 on the home field last Friday night. The Wildcats only briefly sent in second-string players, and for the great part of the evening they battled tooth and claw to hold to their rating as the third place Class A team in the State.

Idalou made eight first downs in the first half and six in the second half, as compared to three in each half for the Owls. Idalou attempted 14 passes, completed three of them and had none intercepted. The Owls attempted 10 passes, completed four of them, and had none intercepted.

There was no scoring in the first quarter of the game, and Roger Sage, Idalou halfback, opened the scoring in the second quarter by running four yards for the visit. George Johnson, Idalou halfback, received a pass and carried to the Silvertown 10-yard-line before halftime. Two plays later he plunged into the end zone from six yards out to score. The halftime score was Idalou 14, Silvertown 0.

In the third quarter, Jay Towe, Silvertown halfback, ran five yards through the tough Idalou line to score for the Owls. The pass for extra points was incomplete and Silvertown trailed 14-6 into the fourth quarter.

In the final period, Johnson scored from seven yards out and Sage ran 70 yards for another Idalou tally to give the Wildcats their final 28-6 lead.

Idalou quarterback, J. T. Benton, who was injured in the third quarter, Roger Sage, Manuel Hinojosa, and George Johnson all played a fine offensive ballgame. Van Breedlove, Gregg Towe, Louie Strange and Butch Norris were some of the Owl standouts. Punts by Jerry Baird and quick kicks by Fred Stafford were very good. Larry McWilliams, one of Silvertown's tough linemen, was injured in the second quarter, and likely is out of the lineup for the balance of the season.

The Owls travel to Crosbyton this week for their last out-of-town game. Owl fans are promised a good ballgame, and it is hoped that a large crowd will follow the home team as they enter their third conference game of the season.

DEAR EDITOR:

I read an editorial in a recent Briscoe County News with interest.

I, too, have thought about the ruling on prayers in the classroom. I do not believe our forefathers meant for God to be completely omitted from our schools—only that no certain creed be taught.

The other day my son said, "Mother, why have they quit saying prayers at school before we eat?" What kind of answer do you give an eight-year-old child; that man wants to forget God, and follow after the ways of men? I was thankful when my son added, "But I always ask a blessing—silently."

In this town of over 10,000 people, there are perhaps 800 that attend church at any time. But, if you walk along main street, you will find almost every other establishment is a bar or dance hall. This is only one town in many. Since most people here do not go to church, are the bars the places the children will learn of God?

We need God, and before it is too late, I hope our nation will wake up and put God back in His rightful place—in the churches, schools, homes; in every phase of daily life. We have made quite a mess of things trying to depend on man alone.

Yours truly,
Mrs. Wanda (Teague) Demello
Lewistown, Montana

☆☆☆

As you realize, the religious issue played a great role in the past Presidential election—and the effect is being carried over into every Democratic race that is being run this year. Many of the churches violently opposed even the nomination of a Catholic for the highest office in the land.

As you probably have noticed, every appointee to office under this administration has had his religion publicized. So many were positive that each appointee would be a Catholic. Many are equally as certain that an attempt will be made during the administration of President Kennedy to "Catholicize the nation."

The ministers who used their influence to sway members of their congregation in the matter of politics and separation of church and state were practicing what they were preaching against.

The ruling on prayers in the classroom, I think, was influenced by this general thinking. I am still under the impression that student-written prayers are not only acceptable, but that each school system should urge the students to do so. In our school, the students are responsible for a morning devotional each day. As long as each student is free to

choose the material he will present, this is one of the best ways to start a school day.

However, it certainly is a thing to be feared to give the government, any government, the power to enforce a doctrine upon a school. This is, in my opinion, what the Supreme Court seeks to ban. All decisions can be observed from more than one angle, and the important thing in these troubled times seems to be to make a decision that cannot be twisted and used to bring harm to the people.

I am glad that I am not trying to raise my son in a community such as you describe.

The Editor

DEAR EDITOR:

This writer has read with great interest the article by Mrs. Alice Lacy of the library staff of the Silverton School system concerning the oil portrait of Andrew Briscoe for whom the County was named.

As request was made for information related to its acquisition, this writer submits the following:

As now recalled it was in 1912 this writer received a letter with a Houston, Texas, postmark. The writer of this letter was Mrs. Adele B. Looscan of that city. She stated that she was the daughter of Andrew Briscoe and was desirous of contacting an organization which would take charge of and preserve an oil portrait of her father and a memorial "tablet" which would show the part he had played in the Texas struggle for its independence.

Several letters were exchanged as the Silverton School Board had been recommended and the portrait and tablet had been forwarded and placed in the new school plant then located where the rodeo arena now is. The school board was composed of Mr. J. A. Bain and Rev. Hardy who also published the Briscoe County paper. Other members of the board cannot be recalled.

Mrs. Looscan wrote me that she had very little knowledge of Briscoe County and would I give her some needed information? This writer went into considerable detail describing the Palo Duro and Tule canyons, the Quitaque country, which had begun to raise cotton; also the Plains part, which had some wheat farmers, but all told was still used for production of livestock. She sent me a copy of the magazine and her article was so much better than my description that I was amazed at her intelligence. We attended the Texas Centennial and I talked to some ladies in the building of Fine Arts and they told me that Mrs. Looscan was considered one of the foremost persons on Texas history. As this writer is only known to

you as a subscriber to the News, will advise that I came to Silverton May 2, 1908, and was a resident of the County until January of this year. I had a variety of jobs during that interval, including Abstractor of Land Titles, Tax Assessor, County Surveyor, as a member of the County School Board, helped put in operation the agricultural program, served on grand juries and petit juries and many other jobs some others shunned. I enjoyed all of it but should have known it wouldn't last.

Mrs. G. W. Chappell underwent surgery in the Tulia hospital on Thursday of last week. She expected to return home later this week.

Recent visitors in the home of Mr. and Mrs. W. N. Weast were T. R. White of Houston; Mr. and Mrs. Frank McClure of Floydada; Mrs. Aurice Hill of Amarillo, and Mr. and Mrs. Dock Wallace.

Mr. and Mrs. Roy Lee McKenney spent the weekend in Clovis, New Mexico, with her mother, Mrs. Mattie Janes, Terry and Lonnie.

Mr. and Mrs. Oscar Weast, son and Gary, spent the week with cousins, Mr. and Mrs. Weast and family, in Turton, New Mexico.

Mrs. Paul Reid, Silverton, and Mr. and Mrs. Coy Chappell of Amarillo, and their son, Charles William Chappell, a U. S. Marine, route from Florida to California were Sunday dinner guests of their parents and grandparents, Mr. and Mrs. C. M. Chappell.

Mr. and Mrs. Bryan Jones Electra, are here with her parents, Mr. and Mrs. A. A. Dunagan.

Passing Fast!!

Another event of our high school years has passed. Perhaps it's the last for some of us, but for those of you who have say, one, two, or maybe even three more years left to participate in these events, we say "enjoy them while you can."

The Halloween Carnival and Coronation are only one of the many traditions of SHS. Each and every one has been fully enjoyed by many people before us and will likewise be enjoyed by those who follow us.

Let's cherish these special occasions and events, especially if they are to be your last while you are in high school. Those few who have received honors from

Bubbles Is Back !!!

Hi! Remember me? I'm BUBBLES and I'm here to chat with you once again.

COACH GRANATO rushes to the high school building every day after dinner to see which football boys he can catch talking to their girls. EMMETT TOMLIN, VAN BREEDLOVE, TONY ALLISON, and DENNIS TOMLIN are always there!

Notice how RITA BROWN'S eyes sparkle when FRED STAFFORD is anywhere near? DAYNA KITE needs to take lessons on how to eat and gain weight from a few experts around school. BUTCH NORRIS and JOE KITCHENS needed a razor last week. Anyone got one handy just in case they try it again?

Does KAY STRANGE hold ROCKY CURBY'S eye or does some other girl by the name of LEE ANN? JERRY TUCKER is not only good-looking, but he's sweet! SHARON WEAVER will agree with that. DWIN DAVIS can't get along with one of his teachers these days. Not hearing what one's supposed to hear, and hearing what one's not supposed to hear seems to be a specialty of STANLEY FOGERSON. Several people have been wondering where SHEILA JARNAGIN picked up the title of CUDDLES. MERT MILLS and MAX GARRISON seem to have started a new flame. TENA WILLIAMS appears to enjoy looking dreamily, wondering how she will look in her pictures. There was a little trouble about what was said in PEEPIN' TOM last week. Sorry, if anything was started. Everyone, please remember, PEEPIN' TOM is strictly for the entertainment of the high school students and nothing said in it is to be taken seriously.

MRS. MCKAY MEETS WITH STUDENT COUNCIL

Mrs. Ed McKay, representative of the American Field Service in Amarillo, met with O. C. Rampley, school principal, Mrs. Alvin Redin and members of the Student Council about the American Field Service, and its part in helping schools sponsor a foreign exchange student.

Mrs. McKay said she would be glad to recommend our school. She felt that the school's offering four years of math, four years of science, four years of English and requiring twenty credits for graduation were important factors in making the school eligible for an exchange student.

The student council is continuing its work on the project and will announce further details at a later date.

OWL Pigskin Preview

The Silverton Owls were defeated 28-6 by the Idalou Wildcats last Friday night. The Owls held the third-ranked Class A team of the state to a 14-6 third quarter score.

The coaching staff felt that the boys gave a great effort in this ballgame. We had some injuries in the ballgame that hurt, and also, some mistakes. We feel that the boys are improving and they have the desire to give all they have until the whistle ends the ballgame.

Idalou had three defensive boys that hurt our offense at crucial points. We lost the ball on downs and they scored their second touchdown. The boys looking good offensively were Jay Towe, Gregg Towe, Fred Stafford, Gary Hunt, Jim Reid, and Butch Norris.

Defensively we were weak on pass defense and being hurt around end. Our tackling was not the best. Defensive standouts were Van Breedlove, Max Garrison and Jim Reid.

This week we play Crosbyton at Crosbyton. Crosbyton has a 1-1 record in district play. They will be about our size and will try to run our ends and will do a lot of passing. The coaches feel that we can win this game with a lot of fight and desire.

That Washington Fishbowl or Jack Seale vs. the Facts

During the current Congressional campaign Republican Jack Seale, an admitted John Bircher, and the candidate of the John Birch Society, has repeatedly accused Congressman Walter Rogers of voting for a "fishbond" for Washington, D.C. The implication has been that this was some useless frill and a waste of the taxpayers' money.

WHAT ARE THE FACTS?
 Editor Tommy Thompson of the Amarillo Globe Times writes: "I thought Walter Rogers did a proper job of squelching the 'fishbowl' jeering on the part of his opponent. Congressman Rogers told the group last week that 'had the opposition investigated the matter it would not have appeared so comical'."

"The bill is for the purpose of authorizing a national fishery center and aquarium for scientific research and development, similar to the soil research center at Bushland."

The purpose of the bill is to help pump some life into our 'decaying fish industry.' As Walter Rogers explained, our fishing industry has been going downhill for a long time. Almost one-half of the fish consumed in the United States is imported from foreign nations. Our

fishing fleet is old and obsolete. Other nations are fishing adjacent to our shores, processing the produce overseas, and reshipping it to us. The National Fishery Center and Aquarium is for the purpose of saving an industry that could mean several billion dollars a year to our national product. It is an investment that will pay for itself and make the nation self-sufficient in obtaining the additional 3 billion tons of fish that will be needed by 1980."

And while we're quoting Editor Thompson, here's another interesting paragraph: "The New York Times said in a Washington dateline story that 46 conservative candidates for Congress are receiving assistance in one form or another from the Americans for Constitutional Action."

"Admiral Ben Moreell, board chairman of the group, said that 'publicity might jeopardize the candidates.' Texas congressmen receiving aid from the ACA group include John Dowdy, Bruce Alger, Desmond A. Barry, William Steger, Ed Foreman, and Jack Seale. The retired admiral told the New York Times that the group had been linked unfairly in the press with the John Birch Society."

Drama Club Casts Parts For Play

A search for talent resources in the field of acting began Monday night, October 22, at the high school.

The club outlook is good; twenty-six members were present to try for parts in two one-act plays. These plays are the beginning of a search for actors and actresses for the interscholastic play and a three-act play to be put on by the Dramatics Club.

Enthusiasm ran high as the players were presented and the members selected the actors they considered best for the parts.

The plays will be perfected and presented before Christmas. All the characters for HIS OWN PEOPLE have been cast, but the cast for STEADFAST HILLS has not been completely selected.

AMENDMENTS

Continued from Page One

ed valuable, there probably would be more submissions of its kind than there have been under the hospital district idea, which started out to help two counties.

The list also includes a brand new pan for countywide taxing districts to operate nursing homes, which also might lead to many others.

The ballot also contains proposals to raise the ceiling for state welfare expenditures so that Texas' old age pensioners, needy blind and dependent children can take advantage of maximum federal contributions.

There are other subjects—including the frequently debated water subject—among the 14 issues voters will be asked to decide.

Following is a summary of the amendments.

No. 1—Allowing the Legislature to add political subdivisions such as school districts, water, irrigation and navigation districts to the list than can provide workmen's compensation for employees, as is now possible for state, county and municipal governments that chose to do so. Actual protection still would be up to local agencies, as now.

No. 2—Authorizing a raise in the ceiling from \$47,000,000 to \$52,000,000 a year on state contributions to old age assistance and aid to needy blind and needy children. Advocates say it will allow Texans to get the maximum possible under federal law opponents say there is enough now if proper definitions were put on "need."

No. 3—Setting a new ceiling of \$2,500,000 a year (\$1,000,000 above the present ceiling) on the amount that can be paid out of state funds for assistance to the totally and permanently disabled.

Nos. 3 and 9—Creating new hospital districts in Ochiltree, Castro, Hansford and Hopkins Counties, and parts of Brazoria, Damon and Sweeny school districts, and authorizing creation of a nursing home for the aged in Titus County.

No. 5—Authorizing the Legislature to create hospital districts, obviating the need for such amendments in the future as No. 3.

No. 4—Allowing Water Development Board to purchase water storage space in federal flood control reservoirs for later sale to municipalities. Proponents say it would give flexibility to the present \$200,000,000 revolving loan fund; opponents say it might tie up all funds in a few big projects and would have no guarantee of a purchaser at future dates.

No. 6—Authorizing retirement programs for all political subdivisions—taking in elective as well as appointive employees and raising the maximum annual contribution and benefits.

No. 7—Providing continuity of state government in event of nuclear war or other disaster—by allowing the Legislature to provide succession for all officials except members of the Legislature.

No. 10—Permitting state employees to serve on local school boards and professors and others to serve on national scientific and research agencies—and to receive expenses—without impairing their state employment.

No. 11—Permitting the Veterans' Land Board to re-sell to citizens other than veterans any lands forfeited by veteran borrowers, provided they first had been offered to veterans.

No. 12—Authorizing Gulf Coast counties to regulate motor vehicle traffic, littering and other details of tourism on public beaches. Advocates say such power is necessary; opponents say there could be a variety of regulations for tourists to learn.

No. 13—Allowing independent school districts in Dallas County to take in new territory without calling new elections on outstanding bonds or risking invalidation of them.

Bailey Childress returned from Austin on Saturday. He and Mrs. Childress had been there for two weeks visiting their son and family, Mr. and Mrs. Ted Childress. Mrs. Bailey Childress remained there for a longer visit.

YOU MAY VOTE AS YOU PLEASE ON NOVEMBER 6TH!

There is no legal requirement—no moral obligation

Regardless of how you have ever voted ...

Or in which primary you voted ...

Or whether or not you voted ...

Or how your poll tax receipt was stamped ...

YOU CAN VOTE FOR ANY CANDIDATE OF ANY PARTY ON THE NOVEMBER 6TH BALLOT

Governor Price Daniel, while Attorney General, wrote an opinion on the question of party loyalty in which he said, "The courts of Texas have answered this question by holding that the pledge taken at the time of voting in the primary election DOES NOT create a legal obligation."

Recently Governor Daniel repeated that opinion by saying that the pledge on the primary ballot does not obligate anyone "legally or morally" to vote for the Democratic ticket in the general election.

?Why Take A Chance?

IF YOU BELIEVE:

ANDY HAS ACTED AND REPRESENTED YOU

- Good Government begins at home
- That strong and effective local and state government is the best answer for less Federal control.

ANDY has employed every practical means (often at his own expense) to keep his record and that of legislature open and available to the public for inspection and judgement.

Yet there has never been any large or responsible group or element who could claim that Andy Rogers has not represented, with vigor and integrity, the principles, ideals and interests of our Senate districts, State and Nation.

- 37 Years Old — Democrat
- Stock Farming and Businessman
- 7 Years College
- 14 Years Seniority (4 Years In House of Representatives, 10 Years as your State Senator)
- WWII Veteran, Baptist, Rotarian, Farm Bureau and several Fraternal Org., etc.

INDEPENDENT IN THOUGHT AND ACTION - THE COURAGE TO DIFFER WITH FRIEND OR FOE WHERE PRINCIPAL IS CONCERNED.

Andy Rogers — Your State Senator receiving oath of office as President Pro-Tempore of our Texas Senate. Oath administered by Lt. Gov. Ben Ramsey.

This is the highest office, honor and recognition that can be bestowed upon a Senator by his colleagues. The duties of the office include presiding over the Senate and acting as Lt. Governor and Governor, when one or both or absent from their office or state.

Andy had the honor of serving in each of these capacities.

FOR:

- Right to work law.
- Private ownership and control of underground water
- Bill that outlawed Jimmy Hoffa's operation in Texas.
- Resolution to PREVENT Red China's admission to U.N.
- More Representation for West Texas
- More competitive free enterprise.

AGAINST:

- 80% of new State taxing and spending of last 14 years
- More government and monopoly controls.
- Deficit spending
- Pari-Mutuel horse race gambling

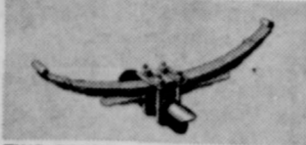

In 1951 Andy (then a member of the House of Representatives) and others achieved the impossible ... a 50% increase for our area in representation in the Senate. The entire South Plains Panhandle Area had only 2 Senate seats. Redistricting occurred. East Texas lost (1) Senate seat. The South Plains Panhandle area gained the seat—"Our 30th Senatorial District".
