Like winning the big profit on this year's crop is going to depend on your young plants having the nitrogen they need to deliver their maximum yield. A side dress of Shamrock's Nitromite is a smart way to guarantee that nitrogen. It's 82.2% nitrogen in the form that's ready to go to work. It costs such a small part of the extra yield and extra profit you just can't afford not to use it. Call us or come by today... time is running out.
