## Cotton Marketing Quotas Given for '65

The cotton quota vote coming up on December 15 will mark the twelfth consecutive year in which growers have voted on marketing quotas for their upland cotton crop. Louie Kitchens, chairman, Agricultural Stabilization and Conservation Briscoe County Committee, said today.

"Beginning with the referendum on marketing quotas for the 1954 crop, growers have approved quotas for each year's cotton crop," he stated. "In the vote last year, on quotas for the 1964 upland cotton crop, 94 percent of the growers voting approved the quotas."

By law, quotas must be proclaimed by the Secretary of Agriculture in years when the cotton supply exceeds normal. The estimated 1964-65 total supply of upland cotton exceeds the estimated normal supply by 41 percent.

The carryover of upland cotton on August 1 of this year was 12.1 million bales. With 1964-crop yields indicated at a record high of 522 pounds per acre, domestic usage plus exports during this marketing year is expected to be less than the 1964-crop, and the carryover is expected to increase to about 12.6 million bales by August 1, 1965. A carryover this size has been exceeded only once—in 1956.

For 1965, the chairman explained, Briscoe County has a total of 25,441.2 acres available for allotment to growers on which to grow their upland cotton crop. This represents the county's share of the national acreage allotment of 16 million acres (the smallest permitted under law), plus 200,000 acres from the national acreage reserve to take care of minimum farm allotments. Notices of individual farm allotments will be mailed to operators of cotton farms in advance of the December referendum.

If at least two-thirds of the growers voting in the referendum approve quotas for the 1965 upland cotton crop, price support at a level within the range of 65 to 90 percent of parity will be available to growers who do not exceed the farm's acreage allotment, additional price support in

Clemmer as Joseph; Ronnie Hughes, Robert Davis and Robert Hughes as the Wise Men; Ronnie Drewry, Jimmy Burson and Ike Bruton as the Shepherds; Rita Brown as the Angel; Teri Hamilton and Ken Sarchet as the Little Angels; and Rev. Carl Nunn as the reader. A rehearsal will be held at 6:30 p.m. Thursday in the school auditorium. Everyone participating in the program in anyway is asked to please be present, as places will be assigned and the program arranged.

## FREE IMMUNIZATION CLINIC WILL BE HELD HERE SATURDAY AFTERNOON

The next free immunization clinic for the indigent children of the community will be held Saturday afternoon, according to Mrs. Roy Francis, school nurse. Clinic hours are from 2:00 un-

til 5:00 p.m. in the P.C.A. community room here.

A total of 213 children have received polio, smallpox and DPT immunization in the two clinics which have been held. The program is under the sponsorship of the Public Health Service, which supplies the vaccine. A Public Health Nurse, the school nurse, Dr. Neville Muckleroy and Mrs. Doris Marler have been administering the vaccine.

The Silvertown Young Farmers have been assisting the project by purchasing the disposable syringes. L. O. A. Study Club members have assisted with registration of patients.

Residents of the community are urged to remind Latin Americans and Negroes to take their children to be immunized. Others who cannot afford to pay for the vaccine are also invited to attend.

## Silvertown Teams Capture Third Place At Kress Tournament

The Silvertown Owls and Owlets won the third place trophies in the Kress Tournament last week end. Each team defeated Kress in the finals.

Quitaque boys went on to win first place, defeating Olton, and the Hart girls won first place over Hale Center.

In the first round of the tournament, the Owlets defeated Bovina, 42-39. Tena Williams led the scoring with 28 points, followed by Mert Mills with 10 and Donna Stephens with 4. The locals trailed Bovina at the end of the second and third quarters, but made up the deficit in the fourth quarter and emerged the winner.

The Owls took their first win of the tournament from the Nazareth Swifts, 49-45. Fred Stafford netted 18 points, closely followed by Greg Towe with 14. The Owls took an early lead in the game, were outscored in the second quarter, and at halftime trailed by four points. The Owls held the Swift scoring in check in the third and

fourth quarters, and took the win. Both teams lost the second round of the tournament, the Owlets to Hale Center and the Owls to Quitaque.

Mert Mills led the Owlet scoring with 22 points, while Tena Williams sank 12 and Donna Stephens netted 7. The Owlets trailed their district foe at the end of each quarter, and wound up five points short of a win, 41-45.

The Quitaque Panthers, with whom the Owls had split two games earlier in the season, defeated the locals 74-67 in the tournament. The Owls took a second quarter lead which they held until near the end of the game. Towe led the attack by scoring 23 points, and Stafford netted 16.

In the finals, both teams were pitted against Kress, another district competitor.

After a close tussle which the Owlets led by small margins, the local girls emerged as the third-place winners with a 43-36 score. Mert Mills led the scoring with 26

## Jaycee-Ettes Have Regular Meeting

points, followed by Tena Williams with 15 and Donna Stephens with 2.

The Owls likewise were victorious, with a 44-36 score. Towe netted 23 points and Stafford made 9. The Owls also led all the way, with a small margin separating the two, and a number of mistakes were made by both teams.

Fred Stafford, Greg Towe, Mert Mills and Tena Williams were named to the All-Tournament teams, and received individual awards for their outstanding performances during the three days.

# Cotton Quota Polling Places Set

Polling places where Briscoe County farmers may cast ballots in the referendum on marketing quotas for the 1965 upland cotton crop were announced today by Louie Kitchens, chairman, Agricultural Stabilization and Conservation county committee. The referendum will be held on Tuesday, December 15, 1964.

The polling places are located as follows: Community A at the Courthouse Community B at the City Hall in

Quitaque Community C at the Courthouse and the Dempsey Gin Community D at the City Hall in Quitaque Community E at the Courthouse and Merle McMurtry's Home Community F at the G. W. Selmon Home Polls will be open from 8:00 a.m. until 6:00 p.m. Chairman Kitchens explained that every effort has been made to inform farmers fully about the

allotment-quota program, so that the outcome of the referendum may represent the considered opinion of all the voters. At issue in this year's vote also is the "domestic allotment" program provided by legislation last spring, under which growers may qualify for price support payments—in addition to loans—by keeping their cotton acreage within the farm's domestic allotment. Farmers eligible to cast ballots are those who engaged in the pro-

duction of the upland cotton crop of 1964. Approval by at least two-thirds of the growers voting is necessary if the quotas and the domestic allotment program are to go into effect for the 1965 upland cotton crop.

Issues to be decided in the December 15 referendum are (1) quotas or no quotas, (2) the level of price support to be available for the 1965 crop, and (3) whether the domestic allotment program is in effect for upland cotton.

If the vote is favorable, quotas will be in effect for the 1965 crop—with penalties on any excess cotton produced on a farm, price support to growers who do not exceed the farm's acreage allotment will be available at a level between 65 and 90 percent of parity, and extra price support in the form of payments may be earned by farmers who keep within the farm's domestic allotment. If the vote is not favorable, there will be no quotas or penal-

ties applicable to the 1965 upland cotton crop, no price-support payments, and the regular price support to growers who do not exceed their acreage allotments will be at 50 percent of parity, as directed by law.

Growers who have any question about any particular part of the cotton program are urged to get in touch with the ASC county committee.

### Enjoy "Sparkling Logs" In Fireplace At Christmas Time

You can add something special, colored flames in your fireplace.

For more Christmas cheer provided you start now. The "sparkling joy logs" which can add the color are easy to make, says County Agent Leon Grosdidier.

To make the "logs," roll newspapers or absorbent paper into "logs" about 16 inches long. Don't use too many newspapers in a "log" because they swell when

soaked in the chemical solution. It is suggested that the "logs" be tied loosely with heavy twine.

To make the chemical solution which gives the color, dissolve four pounds of bluestone, blue vitriol or sulphate of copper and three pounds of rock salt in one gallon of water.

Then soak the "logs" for three or four weeks in the solution, turning them end for end frequently. Let them dry thoroughly before trying to burn them.

The County Agent suggests burning only one "log" at a time in an open fireplace. It will burn for several hours and give off rainbow colors.

And a final suggestion, these "logs" make unusual Christmas gifts for family or friends.

### Try A Live Tree This Christmas

Would you like to keep your Christmas tree for a long time after Christmas?

You can, according to Bill Smith, forester of the Texas A&M Agricultural Extension Service, provided you select a live tree that will grow in Texas.

"Live trees, with roots wrapped in a ball of soil, are sold to be planted outdoors after Christmas," Smith points out.

Trees that may be expected to live in most areas of the state include arborvitae, Arizona cypress, eastern redcedar, and shortleaf pine. Other trees, such as Douglas fir or Scotch pine should not be expected to live when planted in the Lone Star State. These species require cool and moist growing conditions unlike those found in Texas, Smith says.

To help the live Christmas tree survive after planting, he suggests

these rules:  
Do not move the tree indoors before it is to be decorated.

While the tree is in the house, be sure its roots do not dry out. This may require watering every day or two.

Plant the tree outdoors in a hole several inches larger than the bundle of soil around the roots. Plant as soon as possible after Christmas.

It may be desirable to plant the tree outdoors in a location where it can be used as an outdoor Christmas tree in the following years.

For further information on the proper species of live Christmas trees for specific areas of Texas, Smith suggests that interested persons contact their local county agent's office.

The 1964 national Census of Agriculture is the 18th in a series which began in 1840. Because of the rapid changes American agriculture has been undergoing in recent years, Census Bureau officials regard the current census as one of the most significant ever taken. They ask every farmer and ranch-

er to cooperate in compiling an accurate record of these changes by filling out the census form he receives in the mail and holding the completed questionnaire until a census taker calls for it.

Funeral services for Robert Lee Amason, 61, of Amarillo, were conducted at 2:00 p.m. Tuesday in Pioneer Chapel there, with Rev. Harold Webb, pastor of Central Church of which he is a member, officiating. Amason died Sunday afternoon in Stamford Hospital in Amarillo after a long illness. Amason and his wife, the late Alayne Graham, lived

here with their parents several years before their marriage in Silverton in 1928. They continued living here after their marriage and both their sons were born here. They later moved to Canyon where they lived for several years before moving to Amarillo in 1938. Mr. Amason was an independent welding contractor and had worked with major pipeline construction firms in the area. He operated a drive-in restaurant in Amarillo from 1938 until the end of World War II.

Survivors include his wife, of

### Two Local Artists Display Paintings In Amarillo Show

Mrs. LaNelle Montague and Mrs. Louise Vaughan were among 98 artists of this area who displayed their work in the Texas Fine Arts Show held in Amarillo recently. Out of the 98 entries, the forty best were chosen, and Mrs. Vaughan's painting of a violin was among those chosen.

Mrs. Montague showed a painting of an Old English Landscape and a Snow Scene.

Mrs. Vaughan was interviewed for a television newscast which was shown Saturday evening. She has just finished painting a picture of Pascal Garrison, Johan Bull-Njaa and Max Garrison, which will be a gift for Johan's parents from the Garrison family.

F. M. (Mac) Miller of Albuquerque, New Mexico, spent Tuesday night with Mrs. Carl Crow and Jim. He was enroute to Meridian, Mississippi, for a visit with his mother, Mrs. Betty Miller. He was an employee of the local Soil Conservation Service in 1946-47 and lived in the Carl Crow home while here.

### "REMEMBER THE ALAMO" -- the cry that fanned Texas' defeat to victory!

On March 1, 1836, thirty men from Gonzales broke through the lines of Mexican Army Commander Santa Anna to increase the Alamo's defenses to 187. This little band of heroes held the Alamo against overwhelming odds for five more days in one of the most heroic struggles to be found in the annals of man.

On March 6 Santa Anna with over 4,000 troops stormed the Alamo, and the last of the heroic band of Texans died fighting. Names like William Barret Travis, James Bowie, Davy Crockett and James B. Bonham became immortal.

The massacre at the Alamo inspired General Sam Houston's men at the battle of San Jacinto. Crying "Remember the Alamo!", the Texans sprang upon Santa Anna's soldiers and in a swift bloody fight won Texas its freedom.

### SPEAK OUT FOR FREEDOM ... with U. S. Savings Bonds!

Through the years that have followed, other "Alamos" and "San Jacintos" have inspired Americans to lead and win the fight for Freedom — Pork Chop Hill, Iwo Jima, the Meuse-Argonne Forest.

Today, by purchasing a United States Savings Bond, you can also speak out for Freedom as clearly as the battle cries of old. Every Savings Bond you buy is an investment in Freedom. Buy Bonds at your bank or on the payroll savings plan where you work.

JOHAN BULL-NJAA

### Exchange Student Makes First Speech

Johan Bull-Njaa, Silverton's foreign exchange student, spoke in assembly on December 2. He began by pronouncing the Norwegian words for hello, thank you, please, Mother and Father. He explained that the Norwegian alphabet is similar to ours except that it has three more characters and is pronounced differently. Johan's mother is a housewife, and his father is the head of Public Employment in his county. Johan has one brother, 23 years old, who is now attending the university in the capital city of Norway. Following graduation, his brother plans to teach high school English and geography. The student in Norway attends grade school for seven years and high school for five years. They have a Student Council composed of one representative from each class of approximately 30 students. The schools in Norway put little emphasis on sports, however each student is required to take three hours of P. E. each week. There is a shortage of schools in Norway and, for this reason, not all children have the privilege of attending school. Norway's summer sports are soccer, handball, track and field, gymnastics and swimming. They have special clubs for each sport. The winter sports are skiing and skating. Race skating is a particular favorite. They hold 500, 1500 and 10,000 meter skating races. Johan lives on the coast where the climate is not well suited for skating as there is not much snow and only a couple of weeks of ice. They have student body clubs in the schools of Norway. There is a small student body group known as the Ants and the larger student body group. The smaller group usually has a war hero as guest speaker, while a politician usually speaks to the larger group. The four schools in Johan's hometown who have student body clubs usually band together to plan parties. For entertainment, the young people go to the movie theater as there are no drive-ins in Norway. Not many Norwegian kids have cars, therefore they do not ride around much. An age of 18 is required to obtain a driver's license. Also, gas costs about 60c a gallon. Lutheran Protestant is the state religion in Norway. People may attend another church but through taxes they help support the Lutheran Protestant Church. Young people seldom attend church, sometimes only two or three times a year. The churches do not have social activities or gatherings. Johan then answered questions concerning dating, dancing and the girls in Norway. He said that an age of 25 for boys and 21 or 22 for girls were usually accepted as the age for marriage. He also brought out that girls usually wear slacks to school.

Keep frowning; you'll get credit for thinking.

## Many More Things Unite Than Divide Us

Selected  
Peace on Earth; good will toward men.

These words, so definitely associated with Christmas, have a double significance for this December and for months to come.

For never in the memory of most of us has there been a nations. And probably not in the porters so far in opposite directions. And probably not in the memory of most losers was the loss such a bitter one.

The so-called experts are still busy with their analyses. One says the overwhelming vote definitely was a "mandate" for Lyndon Johnson and his policies. And another proclaims that the vote wasn't really "for LBJ" at all; rather, it was a vote "against Goldwater" on a variety of counts.

But such analysis really counts for little or nothing now. The voters have had their say, and they said "Lyndon Johnson."

And Lyndon Johnson himself has set the tone for facing the four dangerous and demanding years ahead.

"We must face the world as one," he said in Austin the night of the election. "Tonight our purpose must be to bind up our wounds, to heal our history, and to make this nation whole," he said.

He urged "all those who supported me and all those who opposed me to forget our differences, because there are many more things in America that unite us than divide us."

Certainly Lyndon Johnson was not asking those who disagree with him on fundamental policy to forget these disagreements.

Those who disagree on matters of farm policy or on particular welfare programs have every right—even a duty—to continue the fight for their views.

And both groups have a duty—which in a democracy transcends all other political duties—to carry on this fight which democracy makes possible in such a way as to make possible a continued democracy.

This kind of fight calls for respect and consideration for the other fellow and his views, whether he's a winner or a loser in the election.

With this kind of political battling we can still have the kind of unity the President is urging—the unity of a true democracy.

As the President said, "There are many more things in America that unite us than divide us."

This would have been just as true had Senator Goldwater won the election. It has been true since George Washington was elected our first President.

And now is the time to prove it again—with positive support of our democracy which Lyndon Johnson now leads.

There is no teacher as effective as experience, insists Wallace Stegner of Sanford University. He cites as example the boy who twisted the mule's tail. He isn't as pretty as he used to be—but he knows more.

## IT HAPPENS EVERY TIME!

TONY ALLISON has been working for years to get on the honor roll and when he finally made it—you guessed it! His name was left off!

It's a fast age. The impossibility of yesterday becomes a luxury today and necessity tomorrow.

## Seniors Take Betty Crocker Tests

The Betty Crocker Search for the American Homemaker of Tomorrow is a special test in the field of homemaking. The test was given on December 1, not only to choose the winners of the Search for the American Homemaker of Tomorrow, but also to give a better idea to seniors the kind of knowledge they will need before starting their own homes.

One of the 15 girls who took the test will be awarded a "Homemaker of Tomorrow" pin. Near the end of the semester, the winner will be notified and her test will be judged with those of all the other Homemakers of Tomorrow in the state. From this group two scholarship winners will be selected.

Some people get lost in thought because it's unfamiliar territory.

No amount of planning ahead will ever take the place of dumb luck.

### From Kathy

by Kathy Peugh

Monday, December 7, was the twenty-third anniversary of the bombing of Pearl Harbor. This day is much more important than many of us think. Thousands of men gave their lives for us, so that we might remain free. Even today our boys are dying in Viet Nam and other parts of the world so that other people might know the freedom that we enjoy today.

It seems to me that in the midst of the hustle and bustle of today's world, we sometimes forget what has made the United States what it is today. We do not seem to be as patriotic as we should be. We should all be so proud to live in America that patriotism would just come naturally. When we hear the Star Spangled Banner, say the Pledge of Allegiance, or merely hear reference to our Constitution, we should all think of our fore-

During the Senior Class meeting recently, each member decided how he wanted his name printed on his diploma. The class voted to sell trash cans as a money-making project.

fathers and the thousands of men who have fought and died so that we might have these privileges. We should never forget because we could very easily lose our freedom. An easy way to do this is to become lax in patriotism. One of the first things that the communists do when they take over a country is to tear down the national heroes.

If we forsake the ideals that America is built on, the men at Pearl Harbor and all the others who fought during World War II and the previous wars, have died in vain.

## Almonds Steal The Holiday Spotlight

With "Almond Eggnog Cake" as the star attraction, a holiday party is sure to be a culinary hit. Assuring this dessert's smash success are an almond-and-egg-nog filling between layers of fluffy angel food cake and a complete frosting of whipped cream sprinkled with almond slivers. Almonds, whether slivered, diced, sliced or whole, easily steal the spotlight on many festive occasions. So crisp, flavorful and attractive, these versatile nuts give "star quality" in roles ranging from the gamut from A to Z—appetizers to zabaglione.

### ALMOND EGGNOG CAKE

- 1/2 cup butter or margarine
- 3 cups sifted powdered sugar
- 3 egg yolks
- 1 teaspoon vanilla
- Dash nutmeg
- 1/2 cup rum, brandy or Sherry
- 1 cup toasted slivered almonds
- 1 (10-inch) angel food cake
- 1/2 pint whipping cream

Cream butter until light; add sugar gradually and beat until light and fluffy. Beat in egg yolks one at a time. Add vanilla and nutmeg. Gradually beat in rum. Fold in 2/3 cup almonds. Cut cake into 4 horizontal layers and spread creamed mixture between each one. Whip cream until stiff; sweeten to taste if desired. Frost top and sides of cake with cream. Sprinkle top with remaining almonds. Chill before serving. Makes 12 servings.

## DON'T YOU READ BEFORE YOU BUY?

And don't you sometimes re-read, study, compare, figure, clip, save, and show to friends? When you're on the brink of buying, aren't you hungry for facts, features, dimensions, styles, colors, capacities, prices?

Print advertising puts people who are close to a purchase close to the kind of information they demand. Newspapers, magazines and brochures let them linger with your message for as long as they like.

Print imparts important details, allows for colorful presentations, makes lasting impressions, takes people straight to the point-of-purchase. If you've something to sell, it will pay you to promote it reg-

ularly in print—where ready-to-buy people can keep their eyes on it, get their hands on it, make the most of it. Print makes sense because print makes sales.
