

## 1966 Wheat Program Announced

Secretary of Agriculture Orville Freeman said recently that the 1966 Wheat Program will provide wheat farmers with the opportunity to earn better incomes than in 1965.

He said the farmers who participate in the 1966 Wheat Program will receive a higher return per bushel in the new program than they did under the 1965 program.

The Secretary made the statement in announcing the details of the wheat program which the USDA intends to follow in 1966. The new program is part of the Food and Agriculture Act of 1965 recently enacted by the Congress.

Secretary Freeman said the announcement was being made in response to numerous inquiries from farmers who need the information in making crop plans this year.

He said details on all commodity programs will be announced as soon as possible. He noted that the 1966 program will provide a higher domestic certificate value for farmers than in 1965, and pointed out that export certificates will not be issued to producers.

Wheat farmers have already been notified of their farm allotments for 1966 based on a national allotment of 47.8 million acres. These are the official farm allotments.

Provisions for substitution of wheat and feed grain acreages are continued, and farmers may divert additional allotment acreage for wheat.

Wheat farmers who participate will be eligible for a national average price-support loan of \$1.25 per bushel on all production of their allotted acres plus domestic certificates on 45 percent of the projected yield for the farm allotment.

The domestic certificates for farmers will be valued at the difference between the national average price of \$1.25 per bushel and parity as of the beginning of the marketing year July 1, 1966. Parity for wheat for October was \$2.56.

Participating farmers have several options to select from in dealing on their operations for 1966. These options include:

Substitution of wheat for oats and/or rye; however, an adjustment will be made on a state-by-state basis to allow for the difference in feed units produced per acre. The farmer also must be participating in the feed grain program.

Overplanting allotments up to 10 percent and storing the excess production under bond.

Producers may sign up for VOLUNTARY 1966 WHEAT—

# USDA Announces Skip-Row Planting Rules For 1966

The U.S. Department of Agriculture has announced revised rules for measuring cotton when planted in skip-row patterns for compliance with acreage allotments. The new rules will become effective beginning with the 1966 crop of cotton.

On April 23, 1965, the Department announced proposed changes in the skip-row planting rules and invited comments by interested persons.

The rules announced are less restrictive than those included in the April 23 proposal, but somewhat more restrictive than current rules.

In skip-row plantings, strips of cotton rows are generally alternated with strips of idle land. Under present rules, the idle land beyond one-half of the normal width of a row is not counted as cotton

when computing the acreage of cotton in a field. This, in effect, spreads the allotment over more acreage. Under the new rules, a part of the idle land will be considered cotton acreage for allotment purposes, except where cotton is planted in a pattern with four or more rows skipped. In a change from last spring's proposal the rule for plantings with 4 or more rows skipped will remain the same as it has been for many years. For other skip-row plantings where the row width is 40

inches, not only the land planted to cotton but also the 21 inches (an additional 12 inches over the 20 inches now counted) beyond the outside rows next to the idle land will be charged as cotton acreage under the allotment program.

The following examples illustrate various skip-row patterns, the amount of the planted area counted as cotton under present rules and the amount which would be counted as cotton under the revised rules. For example purposes, it is assumed that the cotton row width is 40 inches. Different row widths would mean additional adjustments in acreage.

# City To Pick Up Stray Dogs Here

There will be a drive conducted by the City of Silverton on Friday, November 26, to eliminate as many stray dogs as possible.

According to an announcement

## Warning Issued To Deer Hunters

The Game Warden issued a warning to Briscoe County deer hunters this week. Deer hunters need to be especially careful when hunting to avoid getting on Wildlife Restoration Areas and just off the Caprock when hunting mule deer.

Mule deer that were released in the area can be hunted out of the Restoration Area, but not inside. There is no hunting season for mule deer on land, the owners of which signed agreements.

Before you go out to hunt the mule deer, it is advised that you contact the individual landowners to make sure you will not be breaking the law.

## Hughes Elected To Office At University

Robert W. Hughes, University of Texas student from Silverton, has been elected chapter vice-president of Alpha Epsilon Rho, honorary radio-TV society.

He is a senior honor student majoring in radio-TV and is a member of Phi Eta Sigma, honorary fraternity, to which he was elected for high freshman grades.

His parents are Mr. and Mrs. Berton Hughes.

Mr. and Mrs. M. G. Moreland spent Sunday in Lubbock with Mr. and Mrs. Bill Cox and children.

## Community Services Being Planned For Thanksgiving

All people of all faiths are invited to the annual Community Thanksgiving Service at 7:30 p.m. Wednesday, November 24. The service is being held this year in the First Baptist Church.

Rev. Clyde Cain, pastor of the host church, will give the invocation. Rev. Carl Nunn, pastor of First Methodist Church, will lead the responsive reading.

Rev. Bob Boren, pastor of the Assembly of God Church, will give the scripture reading and lead the benediction.

The Thanksgiving message will be delivered by the Rev. Julian Vigil, pastor of the Baptist Spanish Mission.

A feature of the service will be special music.

## Wayland Teams To Play Here Soon

The Queen Bees of Wayland Baptist College and the Wayland Pioneer Freshmen will play exhibition games in Silverton on Thursday, December 16, in the Silverton School gym beginning at 7:00 p.m.

The games will be sponsored by the Silverton Lions Club.

The Bees, coached by Shelia Dale Rice who is in her first year as a member of the Wayland faculty, is made up of freshmen. Playing with the aspiration of becoming a Flying Queen next year, the twelve Bees include Faye Shumbara, Victoria; Nancy Bess, Bowie; Judy Dunn, Fort Worth; Alice Sitton, Idalou; Melinda Smith, Gladewater; Carolyn Cornelison, Wichita Falls; Danna Odum, Dimmitt; Bobbie Buttram, Alamo, New Mexico; Billie Mitchell, Booker; Joyce Chilton, Hobbs, New Mexico; Toni Beckwith, Burleson; and Desiree McGinty, Mont Belvieu.

The Queen Bees will play the Silverton Owlets, and the Pioneer Freshmen will play the Owls.

## Homes Contain Hazardous Materials

Most homes contain a plentiful supply of hazardous materials. They include such commonly used materials as shoe polish, oven cleaner, wax, hair-waving lotion, kerosene, bleach, toilet cleaner, medicine, turpentine, lighter fluid, deodorant, dry cleaning fluid, plant spray, and many others.

Each of these products contains some hazardous substance that could cause illness or even a fatality if taken internally. It would be inconvenient, if not impossible to stop using them in the home, but, explains County Agent Leon Grosdidier, we can use them with caution and keep them away from young children. Safe and proper storage can do this, he says.

Know what you are buying. Examine the label and read the small print. Look for these words—"caution" or "warning"—they indicate the material is a hazardous substance.

"Danger" refers to products defined as extremely toxic, and labels will carry the skull and crossbones.

Labels also give an indication of the principal hazard in such words as "flammable," "vapor harmful," "causes burns," "absorbed through the skin."

Home chemical products are needed and can be safe when properly used. But accidents can happen through careless use, storage and disposal, explains the county agent.

## Historical Society Has Regular Meeting

The Briscoe County Historical Society met Thursday, November 18, at 7:30 p.m. in the county courtroom with Mrs. C. O. Allard, chairman, conducting the business meeting.

Mrs. Allard expressed appreciation for their donations to the museum to Mr. and Mrs. Roy Morris, Mr. and Mrs. C. L. McWilliams, and A. Deisher for the cases; Ernest Strange and the Commissioners for varnishing and painting the cases and walls; Judge M. G. Moreland for the plastic covers for the documents and other uses; and to the study club for the filing cabinets.

Mrs. Alvin Redin gave a talk on "Writing of the County History." She said that the writing should be colorful and interesting. The most important things involved in writing the county's history are financing, facts and strong characters to write about.

Mrs. Gordon Alexander reported on the "fun" part of their trip to Odessa, and said they had a wonderful time staying in old homes, visiting museums, eating breakfasts of barbecued steaks and beans at 6:30 a.m. They visited the Pecos Museum, where the ladies had made dresses of the period to wear, and took a jeep ride to the sand dunes. They went to Monahans Park, McKittrick Canyon and came back via Fort Davis.

Mrs. C. L. McWilliams spoke on "Establishing and Operating a Museum." She set up four procedures to be used: 1. Set up rules to govern the museum; 2. Write letters and contact people personally; 3. Have colorful and interesting exhibits, the main purpose of which will be to attract children; 4. Catalog the material tagged for repairs, tagged for history, on front of session sheets; She also stated that a complete and colorful history would have to be provided. Mrs. Carroll Garrison gave a report on the museum here, and stated that the room is ready for articles. It is hoped that the museum will be open to the public by January 1, 1966. If you have articles for the museum, please bring them to the courthouse and contact Judge M. G. Moreland for the key if the museum is not open.

Mrs. Allard spoke on the RAMPS program and what it stands for: Recordation, Appreciation, Marking, Preservation and Survey of history. It is a five-year program, and includes placing 5,000 official Texas Historical Markers, erected by a joint state, city-county and private program, 1,000 markers to be placed each year; and it includes the preparation of guides, maps and brochures on a state and regional basis, and distribution through tourist channels; it sponsors joint programs with trade associations, hotels, motels, restaurants, chambers of commerce, to use the history of Texas as a tourist attraction; and ties all 254 county programs into a coordinated statewide program of historical development.

After the meeting was adjourned, the group visited the museum room to survey the progress, and coffee was served by Mrs. Allard.

Present were Mr. and Mrs. Joe Montague, Mr. and Mrs. Gordon Alexander, Judge and Mrs. M. G. Moreland, Mr. and Mrs. Carroll Garrison, Mrs. Alvin Redin, Mrs. C. L. McWilliams, Mrs. Berton Hughes, Gladys Stroup, Mary Pittman, Mary Payne, Myrtice Gillispie, O. R. Stark jr., M. F. Wilson, and Mr. and Mrs. C. O. Allard.

untary diversion of up to 50 percent of the allotment to conserving uses with a payment rate to be announced at a later date. Farmers with 1966 allotments of 21.7 acres or less may divert their entire allotments for payment. (In 1965 the maximum voluntary additional diversion for payment was 20 percent of the 1965 allotment or 13.5 acres, whichever was larger.)

The secretary said the cost of domestic certificates to processors will be 75 cents per bushel, the same as in 1965.

While export certificates will not be issued to farmers, there will be a variable export certificate to be valued daily at an amount necessary to make U.S. wheat available at prices comparable with world market prices.

If world prices are above world market prices, certificates will have no value and an export subsidy reflecting the difference between the U. S. and world price levels will be paid to exporters.

If world prices are above the U. S. prices, the certificates value will be the difference between the U. S. and world prices, and will be collected from exporters.

A pool will be maintained and any net receipts (certificated payments by exporters less Govern-

ment export payments) will be apportioned among cooperating producers at the end of the marketing year. The new provision on variable export certificates and on the pooling and distribution of net returns assures that U.S. wheat producers will receive the benefit of higher world wheat prices should they occur, while maintaining a competitive relationship for seed wheat and feed grains in the U. S. market.

There will be no fall sign-up period for winter wheat growers. The sign-up period for all wheat farmers will be conducted by Agricultural Stabilization and Conservation Service (ASCS) county offices concurrently with sign-up for the feed grain program after the first of the year.

Farm projected yields are now being determined, and each wheat farmer will be notified of his projected yield before sign-up time. Projected yields, new for 1966, will be indicative of the yield per acre expected for each farm using current, cultural practices and normal weather conditions. Previously, farm normal yields have been determined more closely to historical production figures.

Substitute crops which may be planted on diverted acres will be determined and announced later. Secretary Freeman said details of the 1966 Feed Grain Program and the Cropland Adjustment Program will be announced at a later date.

Wheat farmers who wish to participate in the 1966 program will:

1. Sign up in the program during the sign-up time.
2. Plant within their farm allotments, observe permitted acre totals when substituting, or plant no more than 150 percent of the allotment, depending on which option they choose to use.
3. Put into conserving uses an amount of land equal to 15 percent of their farm wheat allotments. (This 15 percent reduction already is reflected in the 1966 allotment notices which were mailed to farmers.) As in 1965, there will be no payment for this diversion; however, they may divert additional acreage for payment.
4. Maintain their normal conserving acreages in addition to putting diverted acres to conserving uses.
5. Comply with wheat program provisions and all other allotments as required by law, including cotton, tobacco, peanuts and rice al-

lotments on that farm and with wheat allotments (as modified by any of the program options) on all other farms in which they have an interest in the wheat crop.

Also, the Department of Agriculture announced recently that it intends to make no basic changes for 1966 in cross compliance features in farm programs.

The only changes in cross compliance features the USDA intends to make relate to cotton, and these changes reflect the new cotton program enacted as part of the 1965 legislation.

In 1966, cotton producers who want to participate in the new program will need to maintain a soil conserving base and to place any diverted acres in soil conserving uses. In addition, the USDA is dropping a requirement that cotton producers cannot exceed their feed grain base acreage to be eligible for cotton program benefits.

To be eligible for program benefits, cotton, wheat and feed grain producers will be asked to comply with program provisions for that particular commodity on the participating farm. In addition, participants will be asked to plant within allotments or base acreages for that particular commodity on any other farm in which they have an interest in that crop. Wheat producers, however, will be able to overplant their wheat acreage by limited amounts and store the excess production under bond.

Wheat producers as required by the Act will be asked to plant within the other crop allotments such as cotton, rice, tobacco and peanuts on the participating farm. Feed grain and cotton producers, however, would not be required to plant within other crop allotments or base acreages on the participating farm.

Under all three programs, participants are asked to maintain the normal soil conserving acreage on the participating farm. In addition, all acres diverted under each program must be put to conserving uses.

On farms where substitution is permitted for wheat and feed grain acreage, producers will be

asked to participate in both wheat and feed grain programs on that farm and stay within wheat acreage allotments and feed grain base acreages on any other farms in which they had an interest in the crop.

Under the Cropland Adjustment Program, participating farmers would not exceed any other crop acreage allotment or permitted acreage on that farm or any other farm in which they have an interest. They must also have in conserving use their normal conserving acreage plus that diverted under the Cropland Adjustment and other programs.

## Thanksgiving Prayer

Dear Lord, we give Thee thanks this day,  
 But not alone for daily bread —  
 For all Thy gifts which bless our lives.

We thank Thee for love, that makes life's burdens light,  
 For friendships shared, for hope and joy,  
 But mostly for the precious right

To think and speak as conscience leads,  
 To worship Thee, each in his way,  
 To walk in freedom where we will,  
 Lord, as we pause to praise and pray.

**LINDA AND THE GOVERNOR**—Linda Hollins called on Governor John Connally, asking that he support the Christmas Seal campaign against tuberculosis. Linda's mother, Mrs. John Hollins of Austin, a former WAC, was recently hospitalized with the disease. Linda, her two sisters and her brother, are being cared for by an aunt and by their father, who is employed as a welder. Governor Connally apparently found Linda pleaded her cause well.

Willie Amel Smithee of Memphis and his mother, Mrs. Will Smithee, were in Floydada one day last week.

Mrs. C. T. Loudermilk spent a recent weekend in Kress with her daughter, Mr. and Mrs. Ben Bingham and Judy.

Richard McGowen of Hereford, brother of Mrs. C. T. Loudermilk and Mrs. Bill Waters, recently underwent an eye operation at the

VA Hospital in Big Spring and is thought to be recovering satisfactorily. Mrs. McGowen, nee Jeanette Bingham, was in Big Spring for the operation.

Postmaster Grady Martin spent a long weekend in Lubbock attending a West Texas Regional Postmaster's Convention at the Pioneer Hotel. A banquet was held in the evening. George Mahon, regional director, was speaker.

Mr. and Mrs. W. L. Perry, Debbie and Milton of Corpus Christi plan to spend the Thanksgiving holidays with his mother, Mrs. Milton Perry.

Mr. and Mrs. Claude Allison and Tony plan to spend Thanksgiving with her sister, Mrs. Lewis Hosell, and with Mr. Allison's mother,

Mrs. J. D. Allison, at Vernon.

Recent guests in the home of Mr. and Mrs. Gaston Owens and Eddie in Quitaque were her brothers and sister, Eural Vaughan, Mr. and Mrs. Ewing Vaughan, Mr. and Mrs. Bud McMinn and the Owens' son and family, Mr. and Mrs. Dwain Henderson and Sonya.

Mr. and Mrs. Lynn McDonald have been visiting their parents, Mr. and Mrs. McDonald at Quitaque and Mr. and Mrs. Jack Estes. They have spent several months in California while Mr. McDonald was on a special assignment for Paymaster Farms. He has now reported back to his job at Aiken, and the couple is making their home in Plainview.

Mrs. Cecil Seaney of McLean and David Seaney visited in Quitaque recently with Mr. and Mrs. A. C. Barrett and in Silverton with Mr. and Mrs. George Seaney and family. David was preparing to return to duty at the U. S. Naval Station in San Diego, California.

### DELAYED FROM LAST WEEK

Mmes. Wylie Bomar, Bruce Womack, Leo Comer and Kelly were in Plainview Monday.

Mrs. Bryan Strange, Mrs. Don Brown and Mrs. Jim Mercer were in Amarillo one day last week.

Mr. and Mrs. M. G. Moreland spent the weekend with her sister and family, Mr. and Mrs. B. R. Bailey, at Leonard.

Garvin Long and James Perry of Maples visited Mr. and Mrs. Eugene Long, Mrs. Clyde Lightsey and Spencer Long, and were supper guests of Mr. and Mrs. Beryl Long, Mike and Jay, last Friday.

Mrs. Jack Jowell has been a patient in the Lockney Hospital since November 7. It has been determined that she has some fractured bones as well as the torn ligaments which were first reported. She was doing satisfactorily early this week, and expected to leave the hospital when she had learned to use her crutches.

Mr. and Mrs. Jack Dempsey left the Plainview Hospital last Thursday and were in Lubbock for a checkup with doctors there. He is recuperating from a double fracture of the collarbone and minor lacerations received in an auto accident near Claytonville. Their grandson, Keith Dempsey, jr., who was injured in the same accident, is doing satisfactorily, and returned to school Monday.

## Why more motorists switch to the Tiger when it gets cold.

Many cars that ran just fine all summer get into trouble when ear-muff time rolls around — stalling at stoplights and coughing and chugging halfway into town.

That's when a lot of people switch to the Tiger. Winter-formula Enco Extra gasoline is blended to match the weather conditions in your area — including a special

additive to help guard against icing. Result: easier starting, faster warm-up and a lot less worry about stalling.

You'll like the way new Enco Extra behaves on the open road, too. It's the High-energy gasoline with the: (1) cleaning power; (2) firing power; (3) octane power to help preserve the performance of new

cars and restore lost power and mileage to many older cars.

Switch to the Tiger and get that nice warm feeling. *Happy Motoring!*

**SKIP-ROW -**

Continued From Page One

Pattern	Charged as Cotton Under Present Rules (Percent or Area)	Charged as Cotton Under Revised Rules (Percent of Area)	Percentage Increase (Col. 3 Over Col. 2)
2 rows cotton, 1 row skipped	66 2/3%	86 2/3%	30%
2 rows cotton, 2 rows skipped	50%	65%	30%
2 rows cotton, 4 rows skipped	33 1/3%	33 1/3%	0
4 rows cotton, 2 rows skipped	66 2/3%	76 2/3%	15%
4 rows cotton, 4 rows skipped	50%	50%	0

Here is how skip-row planting works: a farmer with a 50-acre cotton allotment uses the skip-row pattern of 2 rows of cotton and 2 rows skipped. Under the present system the farmer would be considered to have half (50%) of the total area planted to cotton. This would permit him to utilize 100 acres of land and still be considered as being in compliance with his 50-acre cotton allotment. Under the new rules, 65 percent of the land would be considered as planted to cotton. Therefore, he

would be able to plant no more than 77 acres under the 2 and 2 pattern and still be considered as in compliance with his cotton acreage allotment. Planting on this basis is a desirable practice on many farms. However, widespread use of skip-row planting has contributed materially to the substantial cotton surplus build-up in recent years.

Many farmers will continue to plant cotton in skip-row patterns under the revised rules. Other farmers will return to the practice of planting fields on a solid basis. These changes which affect yields per acre and the adjustments in planted acreages expected in 1966 under the new legislation should result in reduced carryover stocks, which will reach a record-high level of 15.7 million bales on August 1, 1966, by about 1.3 million bales.

**GOVERNOR LEADS TWO STATE SALUTE TO METHODIST HOME ON 75th ANNIVERSARY**

Governor John Connally of Texas is introduced to Ricky Darling, 11, and Bobby Strickland, 13, by Methodist Home Superintendent Hubert Johnson, (at left). The Governor joined several thousand guests and three Bishops of the Methodist Church in saluting the 75-year-old Home which has served over 8,000 children since its founding in 1890. The Home, located in Waco, serves children from Texas and New Mexico who have been separated from their families by social tragedies or other problems. Known as the Heart of Methodism, the Home will help 650 children find hope and opportunity in 1965.

Mrs. Jack Harris has been a patient in the Lockney Hospital since Sunday morning. Mr. Harris and Mr. and Mrs. Lenton Lanham spent Sunday at the hospital with her.

Mr. and Mrs. Bill Cushing and Mr. and Mrs. Tony Burson spent a long weekend away from home, and attended the Tech-Arkansas football game in Fayetteville, on Saturday.

Jim Smith, a student at WTSU, Jim Reid, a student at Tech, and Dick Reid of Lubbock planned to spend the Thanksgiving holidays with Mr. and Mrs. J. W. Reid, Rebecca, Bill, Nancy and Gene.

Ben Whitfill, Gene Whitfill, Rusty Whitfill and Perry Whittemore flew to Fayetteville, Arkansas and attended the Tech-Arkansas football game Saturday.

Mr. and Mrs. Earl Simpson and Mr. and Mrs. A. Deisher attended the funeral of their cousin, Buster H. Spann, in Plainview last Friday morning.

Mr. and Mrs. Wood Harcastle and Mrs. Willis Denham of Skelleytown visited friends and relatives here Tuesday of last week. They also visited Mrs. Harcastle's mother, Mrs. Minnie Stevenson, at Nichols Manor in Lockney.

Mr. and Mrs. Bailey Hill and Sylvia hosted a Thanksgiving dinner Sunday. Attending were Mr. and Mrs. Bob Hill, Mr. and Mrs. Richard Hill, Walter and Freddie, Mrs. Jessie Hill, A. B. Childress and Mr. and Mrs. Bud Long.

Mr. and Mrs. Alvin Redin left Thursday of last week for Denton for a visit with her sister, Mr. and Mrs. S. T. Davis. They planned to return home early this week.

Determine the Need of your Soils and Crops with a Soil Test

Doctors never prescribe medicine without making a diagnosis first. The same principle can be applied in treating your soil. Making a soil test will tell you what plant food elements are low — what Smith-Douglass fertilizer is needed to bring the supply of plant food into proper balance for high crop yields.

We are ready to assist you with a soil test, and make recommendations which will enable you to apply Smith-Douglass fertilizer economically, to produce more profitable crops.

Punch And Pour Beverages

Instant entertaining, tailored to the tastes of guests and family, is possible today thanks to "punch and pour" beverages.

Next time a buffet's in the offing, try this trick from the Borden Kitchen. Serve Dutch Chocolate Flavored Drink and milk shakes—coffee, chocolate, strawberry and vanilla. All come in cans, ready to drink. Simply pour into pretty glasses and garnish with a hint of the flavor to come—plump strawberries on the strawberry shake, bits of chocolate, etc.

Buffet means bounty, so offer a number of quickstep beverages—Instant Dutch Chocolate Flavored Milk Mix, plus a rainbow of Wyler's Kold Kup

fruit drink mixes, cherry, grape, raspberry and strawberry. Just spoon the chocolate into a tall glass of milk and stir. For the fruit drinks, snip the envelope and blend with plain or carbonated water. Stir and serve.

For a party punch, place plain ice cubes or a fruit-decorated ring (made in an ordinary mold) in a large punch bowl. In goes a blended fruit mix, and the punch is ready for pouring.

While such hospitality and the temperature may be warm, the hostess can be cool and relaxed when she lets such convenience beverages do the real work.

Mr. and Mrs. Arnold Turner recently spent several days in Dallas with their son and family, Mr. and Mrs. Jaye Turner and daughters. Jaye was in the hospital several days recently but returned to his home Wednesday of last week and is thought to be recuperating satisfactorily from pneumonia.

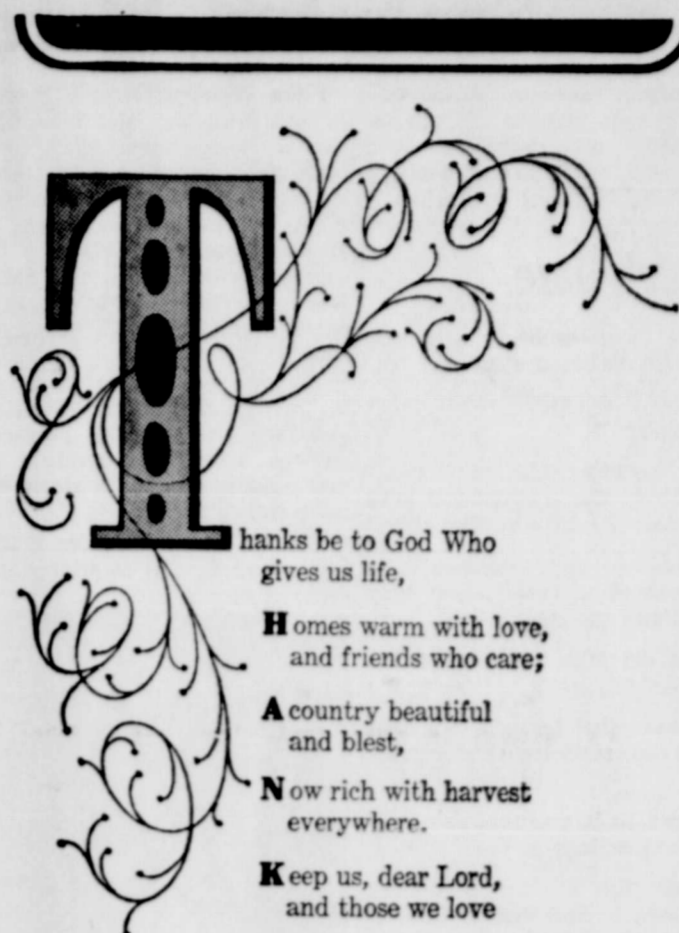

Mr. and Mrs. Jeff Davis returned home from Amarillo last Friday. Mr. Davis had been a patient in Northwest Texas Hospital there for almost three weeks. He is recuperating from recent surgery.

Mrs. James Stevenson returned home last Thursday after having been in Amarillo for a medical examination since Sunday. She was a guest of Mrs. Iris Graham while in Amarillo.

Mrs. J. E. Jowell left the Lockney General Hospital Saturday after being a patient there for two weeks, and is visiting her son. Mr. and Mrs. Edwin Jowell and children in Lubbock. She is recuperating from broken bones above and below the knee, and is able to get around with the aid of crutches.

Mrs. J. B. Nance of Plainview visited her son, Mr. and Mrs. Hugh Nance, Nancy and Juannah, and other relatives here last week. Mrs. J. B. Nance, Mrs. P. D. Jasper and Dawn were dinner guests of Mr. and Mrs. Aubrey Rowell Friday.

Mr. and Mrs. O'Neal Watson of Amarillo and Mr. and Mrs. Arnold Turner were Sunday dinner guests of Mrs. S. R. Turner.

Thanks be to God Who gives us life,

Homes warm with love, and friends who care;

A country beautiful and blest,

Now rich with harvest everywhere.

Keep us, dear Lord, and those we love

Safe under peaceful skies, we pray.

Guard all those rights we hold so dear—

In freedom's name to go or stay,

Voice our opinions without fear,

In our own ways to worship Thee!

Now as we lift our hearts in praise

God help us share abundantly!

# Stage Show To Be Presented Here

Saturday, November 27, at 7:30 p.m., Banner Records will present 2½ hours of country, folk and rock and roll entertainment in the Silvertown School auditorium.

## School Daze

Joni seems to be a little wild with the reclining chair.

What if SCHOOL DAZE didn't get censored?

Reckon why Coach Nutt remembers World War II at 6, but doesn't remember the Korean War at 14?

Chemistry class wonders how Coach Stephens knows there is an attic above the stage.

Why did Mike ask Dude to do the "Jerk"?

It seems that Leland got a dose of his own medicine at play practice.

Venita, is it true that you have over-load springs in your car?

Coach Nutt has new nicknames for Nancy N. and Venita—Chubby and Healthy.

After being seen in his night-shirt, Gary Crow is now known as "Birds' best friend."

Nancy Nance, can't you find a boyfriend of your own without stealing your little sister's?

Freshmen, watch out! Mr. Francis is going to clamp down!

Shirley Beames seems to have more boyfriends than she knows what to do with, but she seems more attracted to Bruce Scott.

Some Freshmen think Barbara and Johnnie Roy would make a good couple. They both ask the teachers dumb questions.

## American Heritage Contest Underway

"Our American Heritage"—students in Silvertown High School are trying to visualize, with posters, or verbalize, with essays, just what constitutes our American Heritage. This year, the high school is entering the Wayland Baptist College's American Heritage program which has been in effect for several years and has been quite successful in promoting the study of American history.

In conjunction with the program, two contests are being held in the high school. One, an essay, in which the student in 300 to 500 words, writes a paper relating what he considers his American heritage, or a research paper illustrating an event that helped promote this heritage. The second is a poster contest in which the student tries to display his feelings concerning the same in picture or graph form.

The competition is confined to the students of Silvertown High School and there will be three winners in each contest. The first prize in the essay contest is \$5.00 as is the first prize in the poster contest. The second prize is \$3.00 in each contest and the third prize is \$2.00. In May, the six winners in the two contests will be recognized for their achievement at a banquet given by Wayland College in Plainview.

The contest is open to ALL Silvertown High School students.

## EDITORIAL

by Paula Turner

Thanksgiving is a national religious holiday set aside each year to give special thanks to God for the blessings we have received during the year. The first Thanksgiving Day was held to give thanks for plentiful crops. It was also held to show the gratitude of the colonists that they were still alive. It is fitting that Thanksgiving is a national holiday, because Americans in particular have reasons to be thankful. We have so much more to be thankful for than the first settlers. We are fortunate enough to have been born in a

country of freedom. Men have died and are dying to preserve our freedoms. For these unselfish people, we are especially thankful. In America, we have so many opportunities that peoples of other countries do not have. Many of the commonplace things we take for granted are not enjoyed by other countries.

This year as we celebrate Thanksgiving with turkey and the trimmings, and family reunions, let's not forget the purpose of having Thanksgiving Day.

by Loula Grace Erdman  
 Red hair flying behind her, and eyes wide open, Connie Thurman accepts a rural teaching job—a job which soon proves an even greater challenge than she had first imagined. For not only is the community run-down but there is an undercurrent of despair and mystery in which everyone seems involved. What was the shadowy opposition to all her plans? Steve seemed a very nice young man—a bulwark in time of trouble. Where did he fit into the puzzle? Connie finds an opportunity to be a more complete teacher than ever before. She organizes a pie supper to raise money for a li-

brary; she starts a wave of interior decorating in the community; she takes a hand in a dramatic club; and she cooks hot lunches for the school on a dilapidated old stove. With a great deal of wit and courage and frequent calls on her sense of humor, Connie wins the friendship of the community. The climax of the story is a dramatic one in which the opposition to her plans is finally explained.

As readers of SEPARATE STAR will remember, Miss Erdman skillfully achieves a story which stands on its own as a novel, and also presents a realistic picture of the teaching profession which will interest all young girls thinking of teaching as a career.

## Juniors Give Skits

The Junior class presented skits from their play, "Finders Creepers," in assembly last week.

Randy Hughes introduced the characters, and announced that the play would be presented Saturday, November 20, at 7:30 p.m.

Two grandmothers were bragging about their grandsons, and one, quite impressed, asked the other: "How old are your grandsons?"

"Well," replied the other with great personal pride, "the doctor's two and the lawyer's four."

**SOME DOLLARS ARE BIGGER THAN OTHERS**

The dollar you get when you sell a bale of cotton is a GROSS Income Dollar. Out of it you must pay production costs — and too often, there is not much left. The dividend dollar you get from your co-op is NET PROFIT. Labor, power and other costs have been paid. It may be 25 TIMES AS BIG as the cotton income dollar.

- For your cotton, we offer trailer-to-textile mill service at the co-op gin.
- The best ginning equipment, experienced personnel, top notch service.
- Aggressive selling in world markets by your marketing assn.
- Cottonseed crushed at a cooperative oil mill.
- Bales stored at efficient cooperative compresses.

QUALITY COOPERATIVE PLANTING SEED at farmer prices.

Earnings from all these successful farmer-owned businesses returned to the men who grew the cotton. Where else can you find all this?

**COOPERATING DOESN'T COST ... IT PAYS!**
