### All Around the Town

by Mary Ann Sarchet

"In the beginning God created the heaven and the earth. And the earth was without form, and void; and darkness was upon the face of the deep. And the Spirit of God moved upon the face of the waters."

"And God said, 'Let there be light': and there was light. And God saw the light, that it was good: and God divided the light from the darkness..."

Orbital beauties as seen from the Apollo spacecraft inspired the beautiful Christmas message transmitted by the astronauts on their flight to the moon and back.

And now the right to transmit prayer from space is being challenged by Mrs. Madalyn Murray O'Hair, probably the best known atheist in America.

Just think what could be accomplished if Mrs. O'Hair devoted her time to service projects rather than to fighting christianity.

Mrs. O'Hair first made a "name" for herself when she opposed prayer in the public schools of the nation. She fought her battle all the way to the Supreme Court—and won. She's at it again now—having been insulted by the religious message the astronauts sent to earth while orbiting the moon.

Ironically, Mrs. O'Hair lives in the city where the nerve center of America's space program is located—Houston, Texas.

Petitions against Mrs. O'Hair's request for a ban on prayer from outer space are being circulated all over Texas. Mrs. O'Hair's request, as far as I have heard, was the only complaint received by the space center; but, undoubtedly, the center will be flooded with all sorts of communications from christians who oppose her protest.

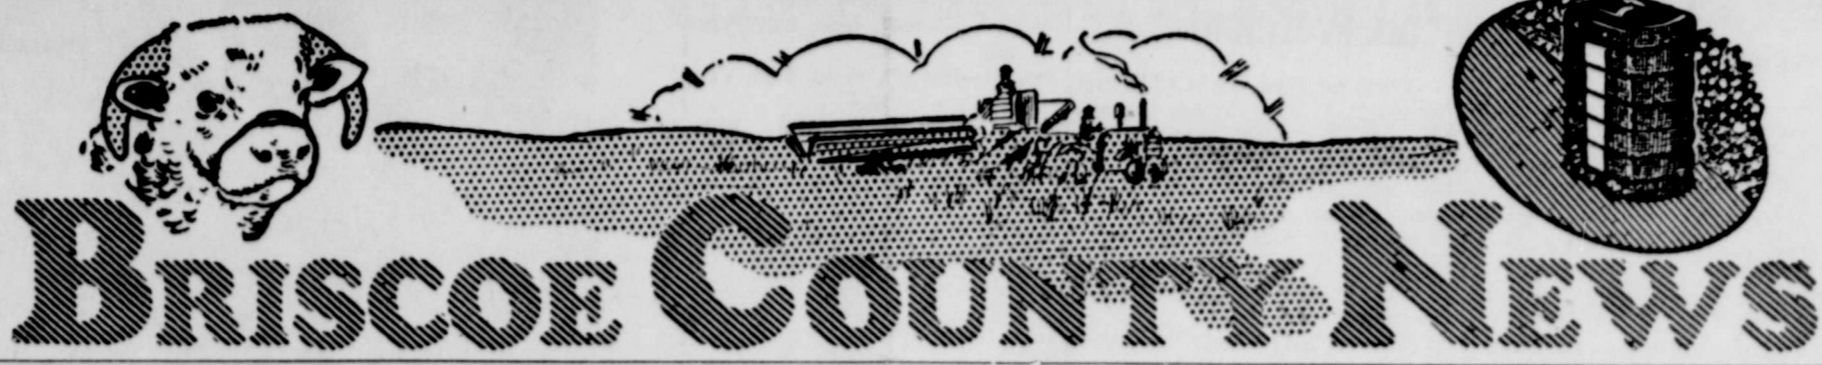

How could any person fail to see a religious significance in the fight to and safe return from the moon by the Apollo spaceship and crew? How could anyone keep from breathing a prayer of thanks and how could those families involved keep from falling to their knees at the moment the first word came: "The capsule is safely in the water and the three astronauts are all right?"

The space program costs a lot of money and its true worth really hasn't been established, but these manned flights have accomplished something that all the talk at all the peace tables can't do. They unite the people of the free world in praying for the safe return of the astronauts. The world watched and waited and prayed during the flight of Col. John Glenn, and has been no less concerned with the safe blast off and re-entry on the succeeding flights. The newest accomplishment was the greatest test of faith we have ever known in the scientific advance of man into outer space. The world held its breath as the Apollo engines fired to move the craft into space, again when the engines brought the craft out of the moon's orbit and when the craft found the perfect re-entry into the earth's atmosphere and withstood temperatures in excess of anything any of our spacecraft had been subjected to yet on an actual flight.

How could scientific space exploration and religion not be bound together? Several days ago, a poem from a reader in Nocona was published in the Wichita Falls Record-News. This may contain our solution to our problem with Mrs. O'Hair: "There was once a gal named O'Hair Who objected to a little child's prayer She raised such a ruckus The judges went koo-kus The results of which you are aware So it wasn't surprising she'd dare Stick her nose in a spaceman's affair And with such bad grace Since she claims all space Let's send her and just leave her there!"

Mr. and Mrs. Bill Schott of East Lansing, Michigan, visited his parents, Mr. and Mrs. W. E. Schott, jr., other relatives and friends here during the holidays.

Mrs. Bessie Offield is in Room 432D at Methodist Hospital in Lubbock this week. Her birthday was Tuesday, and friends have been showering her with get-well and birthday cards this week.

# Aoudad Hunt Closed Here Wednesday

The five-day Aoudad hunting season ended in the Palo Duro Basin of Texas Wednesday at sundown, with a record number of the sheep having been harvested in the canyons of Randall, Armstrong and Briscoe counties.

As of Wednesday morning, 28 of the sheep had been killed, 11 in Briscoe County. This topped the 21 that were killed last year, 12 of which were taken in Briscoe County.

Permits to hunt the Aoudads are issued to the landowners in the canyons of the three counties involved, and the permits may be used or sold as the owner chooses.

About 85 permits were issued this year, 35 of them in Briscoe County. The largest total kill of Aoudad has usually been in Briscoe County, and the trophy sheep with the largest horns usually are bagged in Briscoe County.

The largest Aoudad recorded so far this year had been taken on the Stroup ranch. It dressed out at 200 pounds and had horns measuring 30 3/4". This sheep was smaller than the one killed by Dr. Robert E. Speegle of Garland last year and also was smaller than the one which was taken on the Cogdell ranch in 1964 which had horn measurements of 34".

In 1964, John Schott took an Aoudad that dressed out at 205 pounds and had horns measuring 30".

Roy Dale Wood and Leland Hugh Wood bagged two sheep on the Wood ranch this week, one of which dressed out at more than 200 pounds, but had smaller horns than the Aoudad which received "biggest" honors.

Names of all the hunters were not available from A. S. Jackson, Stanley Taft, and David Dvorak, game department officers who manned the three check stations maintained by the Texas Parks and Wildlife Department.

Four Aoudad were taken on the Geisler ranch, and two of the hunters were Frank Edwards of Garland and Dane Helterbrand of Plainview. A Lockney hunter bagged an Aoudad on the Saul ranch, and the Cogdell ranch hands got one. Two were bagged on the Lemons ranch, one by Dick O'Daniel of Tulia and another by his son-in-law, Harlan VanderZee of Hereford.

Two were taken on the Reynolds ranch east of Canyon. Bob Costley of Amarillo bagged an Aoudad with 24" horn measurements which dressed out at 194 pounds. Louis Thomas of Claude killed another that had 27 1/2" horns and dressed at 204 pounds.

The weather has been more pleasant during the 1969 season than it was in 1968, when temperatures hovered near zero for four days of the five-day season. However, the game department officials manning the Briscoe County station have had their troubles. Their duties were temporarily suspended Tuesday by the theft of their weighing scales, according to Briscoe County Deputy Sheriff

Dyrlie Maples. Prior to the opening of the 1969 season, the Aoudad population was estimated at 500 head. The herd has grown to this size since about 50 of the sheep, which are natives of the Barbary Coast of

Africa, were released in these canyons in about 1960. This area is the only place in the United States having a hunting season for the Aoudad. The only other place in the world where the Aoudad can be hunted is in Africa.

# NFO Meeting Slated In Plainview Friday

Friday, January 10, 1969, is the date for a very important meeting of all farmers in the high plains area. The meeting will be held at 7:30 p.m. in the Hale County Agriculture Center at Plainview.

The one thing farmers need is profit and the simplest, surest way to get this is by receiving a fair price for the products they sell. This fair price can be secured through collective bargaining.

John Oster of Ethan, South Dakota, N.F.O. National Director, will be present to explain how National Farmers Organization

works and how every farmer on the high plains can receive his fair share of the nation's booming economy.

All businessmen and other interested persons are invited to be there also.

This meeting is very important to the future of farmers.

# School Is Due A Belated Christmas Gift

by Mary Ann Sarchet

There may be some who are wondering why the L. O. A. Junior Study Club hasn't given a report on the amount of proceeds donated to the Christmas Greeting Page project for the purchase of overhead projectors for the Silvertown Schools.

Td like to rush the good news a little by sharing the secret with everyone ahead of schedule. The total which has been deposited in the special fund at the bank has now reached \$553.00, just \$27.00 short of the amount needed to purchase the four projectors which are needed by the school. The club won't have another meeting until January 14, so no official decision on the matter has been made; however, some of the club members have expressed the determination to purchase the four projectors and it may be that the membership will vote to pay the difference from the treasury.

There is still a little money to be collected from those who called in at the last minute, and if those people will get their money in to one of the club members before next Tuesday, it will be easier to determine how much difference remains.

Already the project is known to be the most successful that the club has sponsored. The donations of the 135 families and business firms averaged more than \$4.00 each, proving the interest of the community in providing a better local school system. Together they are providing a belated "Merry Christmas" package which will benefit many departments of the school system.

Mr. and Mrs. Charles T. Holt and Mike of Mineral Wells visited several days during the holidays with Mr. and Mrs. C. A. Holt. Other Christmas Day dinner guests in the Holt home were Mr. and Mrs. Norman Strange, Bill and Diana; Mr. and Mrs. Max Garrison of Bryan; Mr. and Mrs. Norman Dudley and daughters of Earth.

A great deal of talent is lost in this world for the want of a little courage.

—Sidney Smith

### Veterans To Receive Dividends This Year

More than 4,250,000 World War I and World War II veterans holding GI insurance policies will receive \$236 million in dividends during 1969. Jack Coker, manager of the Veterans Administration Regional Office in Waco, said recently.

This is \$13 million more than the 1968 dividend payment of \$223 million.

The dividends will be paid throughout 1969 on the anniversary dates of the policies, Coker said.

He emphasized that veterans need not apply for the dividends since payments will be made automatically.

For nearly 4,100,000 World War II veterans, National Service Life Insurance (NSLI) 1969 dividends will total \$218 million. The average payment will be about \$53. NSLI dividends in 1968 were \$208 million.

Some 185,000 World War I veterans with United States Government Life Insurance (USGLI) policies will receive a 1969 dividend of \$18 million. The 1969 dividend amounted to \$15 million. Average payment in 1969 will be approximately \$97, up to \$18 over the 1968 average of \$79.

Increased interest earnings on government life insurance funds made possible the higher 1969 dividends.

These earnings will also enable VA to pay a modest, first-time dividend averaging \$11 to approximately 193,000 veterans holding modified life insurance policies. These policies are issued at a low permanent plan premium rate and provide maximum insurance protection until the veteran reaches age 65. Then the face value of the policy is halved.

There will be a meeting of the Smiling 4-H Club on Thursday, January 9, at 3:45 p.m. in the P. C. A. community room.

## Look On The Brighter Side Of Life

A new year has finally made its way into our lives. The year of 1968 was a wonderful year filled with both joy and sorrow for everyone. It is another year gone, containing events recorded in the minds of men and history books.

Now it is time for each of us to look to 1969 for the future of ourselves and our country!

This year can be a profitable one if we will all strive to reach the goals we have set for ourselves. We must work to our utmost ability and intelligence to make 1969 a really great year.

Every year must contain its share of sorrow, but there would be a minimum of it if everyone would "look on the brighter side of life." Nothing is really as bad as it may seem. It is only as bad as we make it out to be. Sadness must be accepted along with joy. It is all part of living. But try to make each day of this year a day of happiness for yourself and those around you and we will all gain a great deal from it.

## Owlettes Win Third In Tournament

Silverton's Owlettes took third place in the Hale Center Tournament last weekend after beating Sudan 48 to 32 and Farwell 46 to 38. The team lost only to Hale Center, 45 to 40.

The Owlettes easily stayed ahead of Sudan at the end of each quarter to win the first round. Evelyn Wood scored 25 points, followed by Diana Strange, 18, and Paula Birdwell, 5.

The Owlettes dropped their second game to Hale Center. Silverton held Hale Center to a 20-21 lead at the half, but wound up on the low end of the scoring when the final horn sounded.

The Owlettes took their final victory over Farwell to move into third place. The Owlettes came from behind at the half to take a 46-38 victory. Evelyn Wood contributed 23 points, followed by Diana Strange, with 16.

The Owls were a little rusty in the Hale Center Tournament after the holidays, but they did hold their own against the Sudan Hornets for the first half. After the half, the Hornets surged ahead to take a 77-44 victory. Bob Hutsell led the scoring with 18 points, followed by Lannie Arnold with 6 and Jimmy Walker with 5.

On the second day of play, the scores were closer. The Kress Kangaroos won with a 6-point advantage in a 62-56 game. Thurman May and Jimmy Walker teamed up against the Kangaroos with 16 points each, and Lannie Arnold added 12 points.

## F. H. A. Sponsors Style Show

The Silverton F.H.A. chapter sponsored a Bridal Style Show in the school cafeteria at 7:30 p.m. Monday, January 6. The public was invited and 76 guests were registered from Turkey, Quitaque, Flomot and Silverton.

The garments modeled were from Mrs. Allen's Bridal Shop in Amarillo. Bridal gowns, attendants' dresses, suits for the mother of the bride, mens suits and jackets were modeled by Barbara Davis, Lenda Crabb, Kathy Self, Juannah Nance, Carol Ann Montague, Carron Montague, Jackie Carol Tate, Nancy Reid, Janet Montague, Roy Dale Wood, Donald West, Lannie Arnold, Mr. and Mrs. G. W. Lee, Mr. and Mrs. O. C. Rampley, Mrs. James Davis, Mr. and Mrs. J. W. Reid, and Mrs. Jack Strange. After the modeling, refreshments were served by the F.H.A. members.

The F.M.A. takes this opportunity to thank Fogerson Lumber & Supply for the lumber and Mr. Sommerfeld and his ag boys for building the style show ramp. Appreciation also goes to Mrs. Merlene Stephens for her assistance in providing decorations and helping the girls. The F.H.A. chapter especially wants to thank Mrs. Allen and Mrs. Zora Blessing of Allen's Bridal Shop for providing the program in this community, and Mrs. Marvin Montague for her assistance in the dressing room.

## Well, What Do You Know? fun, games and knowledge

by MARTHA GLAUBER SHAPP, Editor, The New Book of Knowledge

One of the most interesting hobbies is making a collage. Do you know how to make one?

A collage is a picture made by pasting pieces of cloth or paper on cardboard, wood or canvas.

Collages are easily made at home. All that you need are such ordinary materials as old newspapers and magazines, theater or bus tickets, some rags, and perhaps a package of colored tissue or construction paper. A pair of scissors is helpful, but a piece of paper can often be more interesting when its edges have been torn rather than cut. Contrasting textures may be added to your collage with bits of burlap, bag or sandpaper. The most important tools, however, are paste (collage is a French word for "pasting") and your own imagination.

Your first collage may be something simple—a birthday or Christmas card. One of the most interesting kinds of collage that you can make is an abstract design—one that does not depict a lifelike scene. To create such a

collage, cut and tear your paper and fabric into shapes that do not resemble real objects. When you paste them onto your cardboard, try to contrast the shapes and textures.

The best collages will result from experiments. Colored tissue paper, when pasted flatly with rubber cement, is transparent (you can see through it); and countless effects can be created by pasting tissue on top of newspaper, sandpaper or cloth. On the other hand, it is often effective to wrinkle the tissue when pasting it down. Some of whatever is underneath then shows through, while other parts do not. Another way to achieve interesting effects is to sprinkle sand, coffee grounds or uncooked rice over an area that you have covered with glue. The grains stick to the glue, and this creates unusual and varied textures.

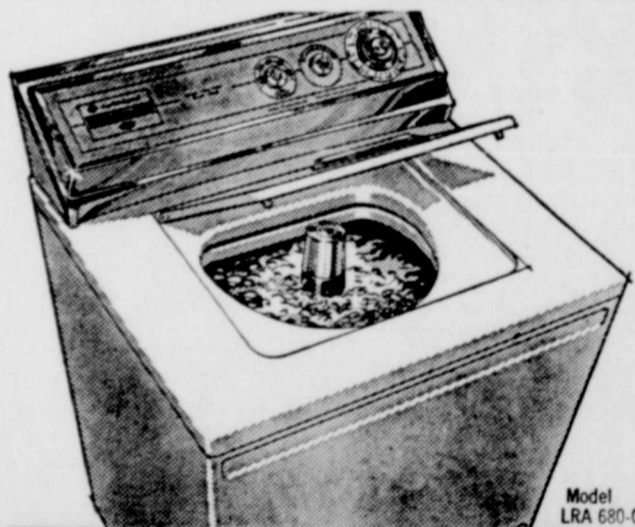

A collage may be made quickly, with no planning at all, or it may be made with painstaking detail after a great deal of planning and thought. The way you make your depends on how you like to work, but as a beginner it is best to try both. Make one collage by quickly tearing, cutting and pasting shapes onto the cardboard. Add more shapes, take some away, or change the form of others as you think necessary. When you are satisfied, draw pencil lines on the cardboard around each shape. Then remove the shapes, coat them one by one with paste, and replace them within their proper guidelines.

Take a minute to think about Vietnam. Think about brave men. A rifleman in a rice paddy. The gunner's mate who postponed college. The 'copter pilot and his wounded marine passenger. Those men are Americans. Those men are there. Those men are fighting for freedom—and supporting it with their dollars, too, through the Payroll Savings Plan. They deserve your support.
