

October 5-11 Proclaimed As 4-H Week In Silverton

Mayor H. B. Simpson has proclaimed that the week of October 5-11 will be set aside as National 4-H Week in Silverton, which will be appropriately observed by local 4-H Club members.

In the official proclamation, the Mayor stated: "Whereas the 4-H Club Program has since its beginning, over 50 years ago, contributed much to the health and welfare of the nation and has encouraged many young people to choose careers which help improve family community living; and

"Whereas 4-H members put into practice the skills and science they learn through their 4-H projects and activities and strive 'To Make The Best Better,' the motto of 4-H Club work; and

"Whereas young people, who are the citizens of tomorrow, must discover and acquire the virtues of responsibility, thoughtfulness, morality, and understanding in these changing times; and

"Whereas the boys and girls now enrolled in 4-H Clubs throughout the County under the guidance of adult leaders, will soon be establishing homes of their own and taking their places in society as community leaders;

"Now, therefore, I, as Mayor of Silverton, Texas, in recognition of the fine achievements of 4-H members and their families, do hereby proclaim the week of October 5-11 as National 4-H Club Week in Silverton, Texas.

"In official recognition whereof, I hereby affix my signature this 28th day of September, 1969.

H. B. Simpson, Mayor."

Lydia Younger and Brent Brannon, 4-H Club members, were present when Mayor H. B. Simpson signed the official proclamation of October 5-11 as National 4-H Club Week in Silverton.

ASCS Community Committees Elected

The community elections are over, and nine men have been elected by their neighbors to serve one-year terms. The men are filling an important role with the county ASCS program, and they need the help and cooperation of each farmer in their community if they are to successfully carry out their duties.

The main function of the community committees is to provide a channel of communication between the farmer and the county office. Unless farmers "open up" with the newly-elected committees, they cannot carry out this function.

Elected to serve as community committees for the year which began October 1, are:

A-Community
Clifton Stodghill, chairman
George Martin, vice chairman
Pascal Garrison, member
Harold Edwards, first alternate
Theron Culwell, second alternate

B-Community
Dale Smith, chairman
Wayne Whittington, vice chairman

C-Community
Murry W. Morrison, member
Lynn Cox, first alternate
A. E. Patrick, second alternate

D-Community
Berle Fisch, chairman
Edwin Dickerson, vice chairman
Seymour Brannon, member
Virgil Crow, first alternate
Alvie Francis, second alternate

These elected representatives have met in a county convention and have selected a county committee for a three-year term. The new county committee is Wayne Whittington. The two who were not up for re-election are

Louie Kitchens and Robert McPherson.

The county committee has the primary responsibility of tailoring the farm programs to fit the needs of the county by setting policy and goals within national and state limits, reviewing work and fiscal plans, progress and accomplishments; insuring farmer and public understanding of ASCS programs through a public relations program; recommending desired program changes to the state committee; and cooperating with other USDA agencies to give the best possible service to farmers.

An indication of the importance of the office held by the three county committees is the amount of program funds administered by them. The administrative budget for 1969 which includes salaries, rent, supplies and utilities for the office is \$61,000.

The Agricultural Conservation Program which assists farmers in performing necessary conservation work will spend approximately \$45,000 for the calendar year of 1969.

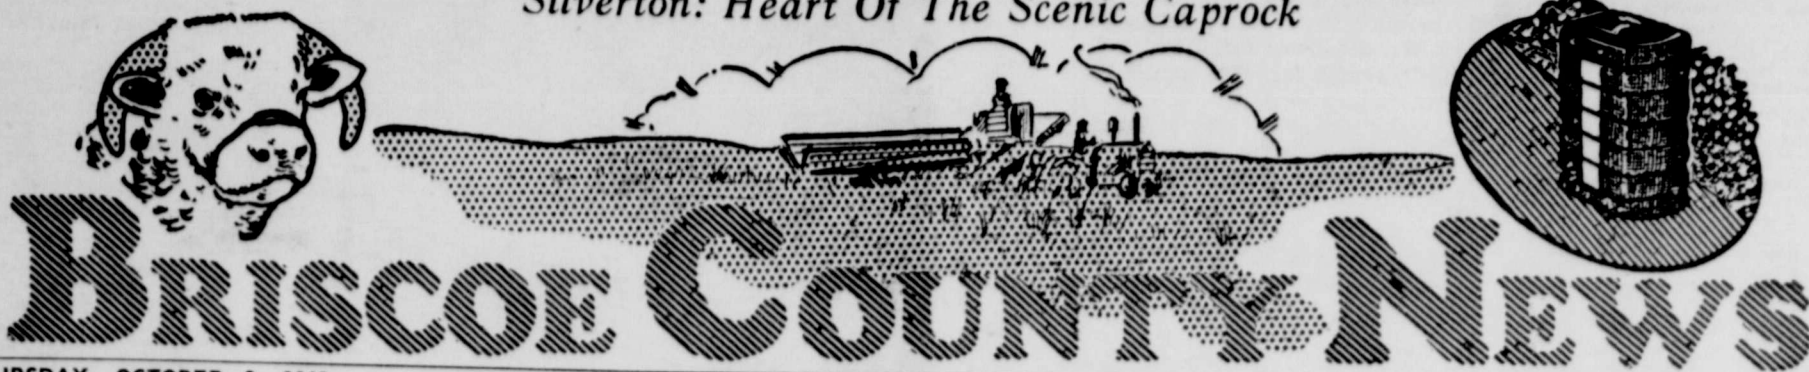

Practice Cost-Share Paid
Wind Erosion Practices \$14,558
Brush Control 7,128
Pipeline for Livestock 778

Water 778
Wells for Livestock 700
Irrigation Pipeline 21,806

The Cropland Adjustment Program and the Conservation Reserve Program—the two Soil Bank programs administered by the committee—will spend approximately \$92,394.77.

NUMBER 40

Owls Travel To Boys Ranch Friday Night

The Owls will have a long road trip Friday night, traveling to Boys Ranch to test the Rough Riders in the fourth non-conference game of the season. It's about 125 miles to Old Tascosa, and is one of the longest trips the Owls have made to compete in football.

The Owls will go into Friday night's game at 8:00 p.m. with a 1-2 season record.

ALL THAT COUNTS IS TRIPS ACROSS GOAL LINE

A Plainview Daily Herald sports-writer who covered Friday night's 26-6 loss to Groom hit the nail on the head when he wrote: "The Silverton Owls found... that it's not how well or how far you move the ball but it's what you do with it when you get within striking range. Mistakes hurt the Owls all night, especially when they got

within scoring distance..."

The Owls played hard and took quite a bit of punishment from their Class B opponents, but were unable to push the scores across, and consequently took a 6-26 loss. Silverton's lone score came on the twelfth play of the game, when Bill Strange went over from two yards out. Marvin Self was unable to get his kick off due to a shaky center, and the Owls led 6-0, almost until halftime.

The Owls penetrated to about the Groom-7 before fumbling and losing the ball in the second quarter.

Groom made its only first downs of the first half on the last two plays before halftime—and the last play for good for a score. Quarterback Dan Blackwell—a senior this year who is so small there almost isn't room on his back for the numeral—combined with Halfback Dal Hoverton on a run and handoff play that covered 55 yards for a touchdown. The kick was no good, and at halftime, the Tigers and Owls were tied 6-6.

The Tigers came back from the dressing room in the third quarter ready to earn a win, while the Owls looked a little less than inspired. Penalties hurt the Owls, as the fumbling continued.

Blackwell proved that "it's not the size of the Tiger in the fight, but the size of the fight in the Tiger" that counts, as he scored from the one-yard line and held while teammate Johnny Brittan added the extra point.

Blackwell scored again in the fourth quarter on a 25-yard run, and again Brittan added the extra point.

With less than two minutes remaining in the game, Blackwell passed to Halfback Larry Clark for a touchdown from the 12-yard line, and the Owls blocked Brittan's extra-point kick.

The Owls didn't have much to show for their efforts Friday night except multiple bruises, and some pretty fair statistics. Silverton made 20 first downs as compared with 12 for Groom. The Owls gained 37 yards on passes from Quarterback Trent Brown to Ronnie Strange, Bill Strange and Max Hamilton, and from Bill Strange to Dana Martin. The Owls added 339 yards rushing, for a total gain of 376 yards.

Of this gain, 222 yards were carried by Bill Strange, 56 by Marvin Self and 52 by Dana Mar-

gest of all programs in this county, added \$1,518,113.08 to the local economy during 1969.

The price support payments on feed grains were \$774,291.49, and the diversion payments on feed grains amounted to \$743,821.59.

The cotton program was the next largest of the income-raising programs. The amount paid out to producers under this program for 1969 was \$1,378,624.62.

The Loan Program was the next largest program in the county, adding \$1,249,475.79.

Corn \$ 38,485.51
Grain Sorghum 726,500.63
Barley 2,230.78
Soybeans 307,151.89
Cotton 162,880.59
Wheat 12,226.39

The wheat program came fairly close with \$728,193.19.

The price support payments on wheat were \$566,676.70. The diversion payments on wheat were \$161,516.49.

The economy of Briscoe County has thus received a "shot-in-the-arm" worth \$5,011,801.45 during this calendar year alone. This is conclusive evidence of the need for active participation by all farmers in the selection of men to serve as their community com-

mittee.

Groom passed for 12 yards and rushed for another 299, for a total of 311.

The Tigers were penalized 30 yards, while the Owls saw 50 yards stepped off against them.

Insurance Board Changes Rates For Silverton, Kress

The State Board of Insurance has increased the fire - insurance key rate for Silverton and decreased the rate for Kress, which was reflected in the price of fire insurance when the new rates went into effect October 1.

The board arrives at the key rate by a system of charges for fire hazards and credits for fire-prevention practices in the towns.

The key rate for Silverton was set at 50 cents, up from last year's 49 cents. Kress received a rate of 52 cents, compared with 54 cents last year.

The board cited conflagration hazards and deficient water works and main, fire hydrants, fire departments and apparatus, fire alarm systems and building laws in both towns as reasons for the charges. In addition, Silverton was said to have an insufficient elevated tank, pumping station and streets and Kress an inadequate water supply.

Credits were allowed both towns for booster trucks, programs of fire-prevention education and arson rewards. Kress was also credited for a fireman's training school.

Silverton received 54 cents in charges and four cents in credits and Kress received 58 cents in charges and six cents in credits.

Reeves Is District F. F. A. Officer

Kerry Sim Reeves of Silverton was chosen to serve as parliamentarian when the Plainview District F.F.A. Chapter met Tuesday, September 16, in Plainview.

Other officers elected for 1969-70 were Richard Brock, Lockney, president; Mike Heath, Hale Center, vice president; Bryan Finch, Tulia, secretary; Johnny Mallow, Plainview, treasurer; Pat Trotter, Olton, reporter; Ray Case, Petersburg, sentinel; Victor Smith, Floydada, chaplain; and Elvin Lyons, Lockney, district advisor.

The date selected for the Plainview District Leadership Contest is November 25, 1969. It will be held in Tulia. The District Banquet will also be held in Tulia on December 9, 1969.

Soil Conservation District Elections Scheduled Tuesday

A director for the Cap Rock Soil and Water Conservation District will be elected at 8:00 p.m. Tuesday, October 7, in the P.C.A. community room in Silverton.

All landowners residing in Briscoe County, who own land above the Caprock, north of the Tulia highway, and west of the county road running north from Silverton by the Davis Gin, are eligible to vote in this election. Both husband and wife may vote.

Clifton Stodghill is now serving as director from this part of Briscoe County.

Silverton lost the ball via the fumble route three times, while Groom was never generous with the ball. The Tigers didn't take any chances, however; punting on fourth down—even when the amount needed for a first down was only a matter of inches.

W. C. (Bill) WEDEMEYER

Annual Meeting Is Saturday Night Here

The annual convention of the Briscoe County Farm Bureau will be held at 7:00 p.m. Saturday, October 4, in the Silverton School Cafeteria.

Members and their families are invited to be present for supper.

Guest speaker will be W. C. (Bill) Wedemeyer, research and education director for the Texas Farm Bureau, who gathers information and data to assist in carrying out the organization's programs and writes "Facts For You," a weekly newsletter for county FB leaders.

Born in September 1915 in Houston County, Wedemeyer attended public schools in the Ash community and at Austin.

He received the Bachelor of Science degree in agricultural education from Texas A&M University in 1938. While at A&M he was a member of the student council, the Baptist Student Union and the collegiate FFA.

Following college graduation, he taught high school and veteran's vocational agriculture, managed a farm tractor and implement business and was a county agricultural agent. He joined the Texas Farm Bureau staff as a field representative in 1951, and held that position until he was named research and education director in 1958.

During World War II, Wedemeyer saw action in Europe. He received several medals, including the Bronze Star for devising a new method of firing anti-aircraft weapons.

Paintings, Crafts To Be Displayed

The first exhibit of paintings and crafts to be displayed this academic year on the Wayland College campus will be ready for public viewing at 2:00 p.m. Sunday, according to Bob Dunaway, assistant professor of art at Wayland.

The exhibit will be launched with a reception at 2:00 p.m. Sunday in the Harrell Memorial galleries, Dunaway said. The public is invited to attend and visit with the artists, many of whom will be present, Dunaway said.

The galleries will be open from 8:00 a.m. until 5:00 p.m. week days through October.

Bean Referendum Meeting Is Planned

An informative meeting will be held at 8:00 o'clock in the morning on Friday, October 3, at the City Cafe in Silverton for the purpose of explaining the upcoming Soybean Referendum for the High Plains counties of Texas.

The Texas Soybean Association will be holding this meeting to explain the fundamentals of the referendum.

Berwin Tilson, president of the Texas Soybean Association, and Joe Leach, secretary - treasurer, will present the program.

All Briscoe County soybean producers are urged to attend the meeting in order to acquaint themselves with the referendum.

Coffee and doughnuts will be served.

Voter Registration Time Is Here Again

It's voter registration time again!

All citizens who are otherwise eligible to vote must fill out a voter registration certificate after October 1, 1969, and before January 31, 1970, to be able to vote in any elections that may be held next year.

The voter registration certificates are available at the office of Briscoe County Sheriff Vinson Smith.

Last Movie To Benefit Quarterback Club

"The Bible . . . From The Beginning," a color movie, will be shown here Saturday and Sunday nights at the Arena Drive-In.

Starring Peter O'Toole and Ava Gardner, the movie will be the last one shown at the Arena Drive-In this season.

Admission will be \$1.00 for adults and 50c for children, and the proceeds will benefit the Silverton Quarterback Club.

ALLEN RESIGNS FROM

SOIL CONSERVATION SERVICE

Tony Allen has resigned from the Soil Conservation Service, and will operate a ranch near Ozona.

The Allens have lived in Silverton the past two years.

What young America thinks of Christ today determines our nation's tomorrow.

SILVERTON MERCHANTS ASSOCIATION IS MAKING HOUSING SURVEY HERE

The Merchants Association is attempting to make a survey of rental property available in Silverton. An effort will be made to secure the cooperation of those owning rental property here so that a catalog of available housing can be compiled. This will be very helpful later on when construction crews and other workers begin to look for housing in this area.

Owners of rental property will be asked—but not required—to leave a key with Wayne Nance, so that the house or apartment can be shown immediately to prospective renters.

If you own rental property in the Silverton area, please fill out the survey information requested below, and send it to Wayne Nance, Box 885, Silverton, Texas 79257. If you are willing to let him keep a key to the unit so that

he can show it for you, please see that he receives the key also.

Your key will be returned whenever you request it. Include all information that a prospective renter might request regarding the rental unit.

This project is being undertaken by the merchants to try to stimulate Silverton's population. There will be no fee charged for showing the property or for securing a renter. The property owner will have final approval of the tenant; all rent payments will be made directly to the owner; and the Merchants Association will not take any responsibility for any subsequent disagreements that may arise between the landlord and tenant.

Additional survey blanks may be obtained from Wayne Nance or from the Briscoe County News.

1969 SILVERTON RENTAL PROPERTY SURVEY

* 4-H DOINGS

Silvertown 4-H Club members are reminded that Friday, October 3, is the deadline for turning in their stories for next week's paper.

Quite often, the boys and girls lack clippings for their record books, and during National 4-H Club Week they can take advantage of an opportunity offered them by writing about their projects and experiences in 4-H for publication in the local newspaper.

The week of October 5-11 has been officially proclaimed as National 4-H Club Week in Silvertown, and President Richard M. Nixon has added his congratulations in this letter to 4-H'ers.

Dear 4-H Members:
It is a pleasure to greet you, the three and one-fourth million young men and women who are now looking forward to National 4-H Week.

Your theme, "Opportunity for All," is timely and important as you strive to extend the benefits of your "learn by doing" educational program to increasingly more youth everywhere. Today we need as never before your dedicated efforts to strengthen the moral and spiritual values of our Nation, and its economic growth and stability.

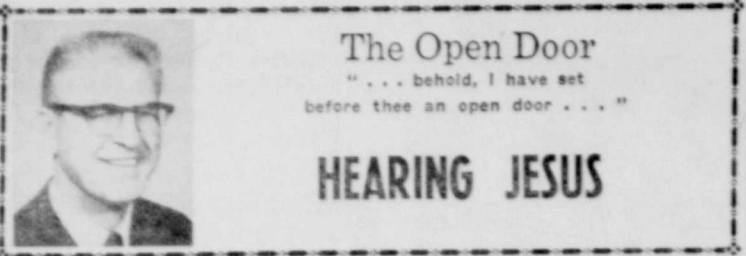

I'm gratified to know that, through your four-fold emphasis of Head, Heart, Hands and Health, you are enabling young Americans in town and country—from all social and economic backgrounds—to develop qualities of leadership and good citizenship.

Through your ever-expanding 4-H program I urge you to give particular attention to the problems of hunger and malnutrition, and to join in all efforts to improve your communities wherever you live. Together let us build for a better tomorrow not only in this country, but also in all the lands around the world where 4-H aims and principles are followed for human welfare and betterment.

Richard Nixon

Mr. and Mrs. Drew Holcomb of Turkey visited Mrs. Belle Olive and Betty Monday afternoon.

Jesus speaks to us. Let's peruse it and "hear," and hearing do.

The Open Door

"... behold, I have set before thee an open door ..."

HEARING JESUS

by Charles K. Cranford

Christianity is built upon, and centers in, Jesus Christ. This is set forth clearly in such passages as 1 Corinthians 3:11; Acts 4:12; and Ephesians 2:13. "Christ" makes up the major portion of the word "Christian." Jesus is not a dead teacher nor a good moral hero of yesterday. He is the Saviour of all mankind; alive today and always; He is our High Priest, Hebrews 4:15. He is the only mediator between God and man, 1 Timothy 2:5. He is seated at God's right hand; Peter declared to the people on Pentecost: "This Jesus hath God raised up, whereof we are all witnesses. Therefore being by the right hand of God exalted, and having received of the Father the promise of the Holy Spirit, He hath shed forth this, which ye now see and hear." (Acts 2:32, 33)

God is well pleased with His Son, Jesus. (Matthew 3:17) He commands that we hear Jesus. (Matthew 17:5) He speaks to all who will hear, in this Christian Dispensation, through Jesus. (Hebrews 1:1, 2) This He does through The Word, for Jesus is The Word. (John 1:1, 2; 14) A classic example of Jesus being presented as, and through, The Word, is found in Acts 10:34-43, where Peter preached Jesus to Cornelius and his household.

If our lives are to be complete, in the right sense, we must pay

heed to Jesus as the director of every phase of them. Far too many so-called "Christians" attempt to divide their actions into the sacred and the secular—six days doing as they please, then one day in doing moral and spiritual "gymnastics," trying to fool God into believing they are pleasing Him. When we go along with trying to keep one foot in the Devil's balldick and one in The Kingdom of God, we don't fool even the simplest of human beings, let alone God. See Galatians 6:7, 8. Hebrews 4:12, 13.

The only way to reach a proper conclusion and make the right decision about any matter is by asking, "What would Jesus do about this matter?" We can have His answer, for, in principle, in all matters, and in a great many in detail, He has spoken. The Sermon On The Mount, Matthew chapters 5 through 7, will answer most questions of a practical, everyday nature. The Epistles written by Peter, Paul, John and James will cover matters of a doctrinal nature, as well as moral issues. And, Luke records in the book of Acts those things pertaining to becoming a Christian. No, there is no set, "computerized" answer from Jesus; we must seek and search, but how very deeply and indelibly it is etched on our hearts when discovered.

Jesus is the "Bread of Life"; "The Water of Life"; "The Way, the Truth, and the Life." Through a close study of His Word, we can, with Paul, say, "For I know whom I have believed, and am persuaded that he is able to keep that which I have committed unto him against that day." (II Timothy 1:12) It is through the Word that

Donnie Brunson was presented a framed letter of appreciation by Louie Kitchens, chairman of the Briscoe County A. S. C. S. committee during a ceremony held at the local office Friday afternoon.

Brunson Honored By Briscoe County ASCS

Donnie Brunson was honored at an appreciation party held at the local ASCS office Friday, September 26, at 4:00 p.m.

He was presented a gift from his fellow committeemen and employees. In addition, Brunson was presented a framed letter of appreciation by Louie Kitchens, chairman of the county committee.

The letter recognized Brunson's contribution to his community and the county as a member of the committee. In it, the committee and employees joined in thanking him for his dedication to duty and his fairness in administering the ASCS programs within current

regulations. It was noted that his actions reflected favorably upon the committee system and had gained the respect of the majority of farmers in Briscoe County. He was reminded that his presence will be missed on the committee.

Charles Sarchet was in Denison Friday night to see the football game between Cleburne and Denison. His nephew, Freddy Sarchet, is quarterback for Cleburne. He returned home his father, H. F. Sarchet of Tulsa, who had been in Houston for medical treatment.

Dorcas Class Selects New Officers

Dorcas Sunday School Class of the First Baptist Church met September 26 at the church with Mrs. Ruby Garvin as hostess.

Mrs. Ima Harrison was accepted as teacher, with Mrs. Winnie Redin as her assistant. Mrs. Blanche Newman was re-elected as president, to serve with Mrs. Leavie

Criswell, vice president; Mrs. Ruby Garvin, secretary and treasurer; Mrs. Maud McJimsey, assistant secretary and treasurer; and Mrs. Opal Hyatt, reporter.

The class voted to make a calendar.

Eight members were present, and were served angel food cake and punch by the hostess.

The chairman brought poems, "Desire" and "How Big Is God?" for entertainment.

Club To Observe

National Home Week

National Home Week will be observed with a forum, "State of the Family", directed by Mrs. Wayne Stephens at 8:30 p.m. Monday, October 6, in the home of Mrs. Fred Edwards.

Taking part in the forum will be Mrs. Art Sommerfeld, "For Better or Worse;" Mrs. Charles

Sarchet, "Forecast and Fantasies;" Mrs. Dean Rowell, "Family Living, Religion, Economics;" and Mrs. Jerry Miller "Creative Homemaking, Health and Mental Health." Visual aids have been prepared for the program.

Mrs. Fred Edwards, hostess, is to give the devotional, "There Is No Place Like Home." Roll call will be "Recipe For a Happy Home."

The daughter and sons of Mrs. Cora Donnell, and all their children and grandchildren except one, gathered here for a reunion Sunday. Pictured are (seated) Mrs. Donnell and Mrs. Agnes Bingham; (standing) Arlon Donnell of Irving; Judd Donnell of Las Vegas, New Mexico; Deene Donnell of Canyon; and W. C. (Shorty) Donnell of Las Vegas, New Mexico.

Mrs. Cora Donnell Honored On Birthday

Mrs. Cora Donnell was honored on her eighty-eighth birthday Sunday in the home of her daughter, Mrs. Agnes Bingham, with a reunion attended by all of her descendants except one great-grandson, Harold Joe Gidden, who is in military service stationed at San Diego, California.

Mrs. Donnell shared the birthday celebration with Orville Turner of San Antonio, who was born on his grandmother's birthday.

Lunch was prepared and served by Mrs. Bingham and her daughter, Mrs. Thelma Ruth Gidden of Amarillo, for the 54 who attended the birthday celebration and family reunion.

Attending were Mr. and Mrs. Arlon Donnell of Irving, and their family, Mr. and Mrs. Skipper High of Irving and Mr. and Mrs. Terry Donnell and Ricki of Dallas; Mr. and Mrs. Deene Donnell, Scott, Gregory, Alan Dale and John of Canyon; Mr. and Mrs. Judd Donnell and Steven Ray of Las Vegas, New Mexico, and their

FIVE GENERATIONS were present at the reunion of the Donnell family Sunday. The generations pictured are (seated) Mrs. Cora Donnell and Mrs. Agnes Donnell Bingham, Silverton; Dani Faye Whitfill of Albuquerque, New Mexico; (standing) Mrs. Tish Gidden Whitfill holding her daughter, Nicole, and Rusty Whitfill, Albuquerque; and Mrs. Thelma Ruth Gidden of Amarillo.

CLOTHING GIRLS IN DALLAS

Top Texas 4-H clothing girls will vie in Dallas this week for the annual State 4-H Dress Revue honors.

Forty-four teenage seamstresses will model their outfits as one of the highlights of the State Fair of Texas.

Judging will be at the Sheraton-Dallas Hotel Friday preceding a press luncheon to announce the winners. All contestants will be presented in two public fashion shows in the Women's Building Auditorium at Fair Park at 10:00 and 11:00 a.m. Saturday, October 4, 1969.

Miss Linda Gaylor, group fashion advisor for J. C. Penney Company, Inc., will commentate the show.

The champion wins a trip to the National 4-H Club Congress in Chicago in November. An alternate winner also will be selected. Highest-ranking winners in all-cotton and all-wool divisions will receive cash awards.

Finalists in the 4-H clothing activity represent about 17,000 Texas 4-H girls enrolled in clothing work this year, says Dr. Graham Hard, revue chairman and Extension clothing specialist at Texas A&M University.

Miss Roy Dale Garrison is representing Briscoe County and District 2 at the State Dress Revue. Mrs. Don Garrison and Mrs. Naomi Hunt will accompany Roy to Dallas to attend the revue and

the State Fair of Texas.

GOOD LAUNDERING TECHNIQUES

As with almost any job to be done, the right way produces best results and generally is the easiest and quickest method. Today's homemaker, who washes daily, needs all the time-saving ease she can find. She wouldn't understand grandmother's once a week back-breaking routine of soaking, rubbing, and boiling cottons and linens with homemade products and equipment. For one thing, the laundry load has changed. In addition to natural fibers, modern textiles are made of synthetic fibers and finishes in a vast array of colors, textures and blends. Many need just a short wash and a quick dry before they are ready to wear again. With these easy-care fabrics, automatic appliances, and modern laundry products, washday now is a push-button procedure with A-1 results if the homemaker has a knowledge of good laundering techniques. By following use and care directions (on the garment, on the appliance, or the product), she'll find that good laundering habits include the following steps:

1. Saving and reading fabric hangtags
2. Sorting
3. Preparing the wash load
4. Treating stains
5. Loading the washer
6. Adding soap or detergent
7. Setting washer controls
8. Using other laundry aids correctly
9. Drying
10. Finishing

1. **Saving and reading hangtags** should become a habit. They are the main source of information on how to launder a specific item. It's good to mark tags when they are removed from the garments and to store them in a file box convenient to the laundry area.

2. **Sorting** divides the laundry into loads that can be washed together under similar conditions of water temperature, washing time, agitation and spin needs. Fabrics must be separated by color, type and degree of soil, and

construction. For example:

- a. Items that are non-colorfast or in deep tones should be washed separately in warm or cool water.
- b. White nylons and other synthetics should only be washed with white items. They are great color scavengers and readily pick up other colors.
- c. Lightly soiled articles should not be washed with heavily-soiled items.
- d. A delicately constructed item such as a lace-trimmed blouse should not be washed with a heavily-constructed item such as a pair of dungarees.
3. **Preparing the wash load** includes mending rips and tears, zippers, and tying belts. Paying attention to these and other details will prevent further damage requiring extensive repairs later.
4. **Treating the spots, stains, and heavily-soiled areas** is another necessary preparation for washing. This can be done by identifying and treating the specific type of stain by the most suitable method—
 - a. Soaking (use correct temperature)
 - b. Applying concentrated detergent before adding the rest of wash load
 - c. Using a stain remover

5. **Loading** follows one very important rule: **NEVER OVERLOAD**. Load loosely to allow good circulation. Washer capacities vary and are often rated in pounds, but volume must also be considered. One can easily understand that a 16-pound load of nylon has a much greater volume than a 16-pound load of cottons. If the nylon load could be stuffed in the washer, it would be packed too tightly and the resulting poor circulation would reduce cleaning action. It's also advisable to mix large and small pieces together with not more than two or three sheets or other large items in one load.

6. **When adding soap or detergent**, use a standard measuring cup and follow package directions for correct amount. Since the amount of detergent is determined by the amount of water used and by the density or weight of the product, it varies with type of washer (front or top-loader) and type of detergent: it is not based on the amount of suds formed as in the case of soap. The recommended amount of detergent for an average load in a top-loader is about 1 1/4 cups and for an average load if a front loader is about 1/2 cup. Less detergent of a heavier weight (usually low-sudsing type) is recommended particularly for top-loading washers. For extra-large loads, heavy soil, or extremely hard water, the amount should be increased. When soap is used in hard water, add water softener.

7. **In setting the washer controls** to put the machine in operation, it's important to know the type and length and temperature of water needed or each particular wash load. Conditions recommended for permanent press are not the same as those for heavy-duty work clothes or for woolens. A washer manufacturer provides an instruction manual which covers all types of wash loads for that particular model. The manual should be followed. In addition, if directions are not read, features such as automatic dispen-

ers and water-level controls may be overlooked and never used.

8. **Correctly using other laundry aids** includes measuring the correct amount and adding it as recommended at the correct time in the cycle. For example, chlorine bleach should always be measured and, for best results, added to the wash a few minutes after the detergent has been in solution in order not to inhibit the action of brighteners in the detergents. Fabric softeners must be added in the final rinse so that the invisible coating deposited over the fabric surface will not wash out. Check directions on package for measuring and using products most effectively.

9. **Drying** clothes can be accomplished by hanging them on a line and allowing nature to take its course, or the easy way, by using an automatic dryer. About the only items that should not be dried (dryer) are those made of foam or sponge rubber, glass fiber, oily cloth, and dry-cleaned clothes. Woolens, plastics and rubber-backed rugs may be partially dried using dry towels as buffers. All other machine-washable laundry looks better when dryer dried and requires less ironing. Permanent press must be dryer dried for best results. Avoid overloading and overdrying. Remove items as soon as the dryer stops to eliminate wrinkling. Clean lint screen regularly.

10. **Finishing** includes folding, hanging, sprinkling, and ironing. With easy-care fabrics and modern laundry methods, very little ironing is required. Much of the wash load need only be smoothed and folded or hung. This is particularly true if items are removed from the dryer promptly to prevent wrinkling and crease lines. A steam-and-spray iron will eliminate much sprinkling, but when it is required, sprinkled pieces should stand for several hours so that moisture will be distributed evenly. Store dampened items in a plastic bag in the

Twelve Have Served As Club President

Twelve members have served Century of Progress Study Club as president during the past twenty years, and the room was filled with past presidents when the group met Saturday afternoon to celebrate two decades of organization.

First of the presidents was Mrs. Esdell Hutsell, 1949-51. She was followed by Mrs. Jack Strange, 1951-52; Mrs. Harold Seefeldt, 1952-53; Mrs. C. D. Kirk, 1954; Mrs. James Davis, 1955-57; Mrs. Carl D. Bomar, 1957-59; Mrs. George Long, 1959-61; Mrs. Gene Morris, 1961-62; Mrs. Norman Strange, 1962-64; Mrs. O. C. Rampley, 1964-66; Mrs. Edwin Dickerson, 1966-68; and Mrs. Wayne McMurtry, 1968-70.

Eight of the twelve were present Saturday, and one, Mrs. Kirk, who lives in Alabama, sent congratulations and best wishes to the club in a letter which was read to those assembled.

ITEM: The most annoying thing about using a ball of string is the way it rolls all over the place when you pull out several feet at a time. To keep the twine in place when you're tying up plants in the garden, pop it into a clay saucer and invert a clay pot over it, threading the end of the string through the drainage hole. You can pull out as much as you like, as far as you like, and the ball will stay put under its restrainer.

refrigerator to prevent mildew but not for more than a few days. Ironing temperatures and methods recommended by manufacturers should be followed.

The clever homemaker realizes that step-by-step washing makes laundering easy, efficient, economical, and results in a brighter, cleaner wash.

4-H'ers Improve Photographic Skills

In the fall a young photographer's camera may be aimed at nature's display of beauty, action on the gridiron, or hundreds of other subjects waiting to be snapped. And if he is a 4-H member enrolled in the photography project, you can safely bet that he is having fun looking for the best way to record the scene on film.

Some 100,000 boys and girls are enrolled in 4-H photography projects conducted by the Cooperative Extension Service. And they keep the shutters of their cameras busy shooting pictures for their records, their families, schools and clubs.

Sparkling the youths' interests and goals of gaining photographic and communications skills are opportunities for recognition. Eastman Kodak Company offers a maximum of four medals of honor to the best 4-H photographers in each county. The company also provides an expense-paid trip to the National 4-H Congress in Chicago to a winner in each state and \$600 scholarships to six national winners. The awards are distributed through the National 4-H Service Committee, Chicago.

More information about 4-H Photography can be obtained from the County Extension office. Membership usually is limited to boys and girls 9 through 19 years of age. Teens and adults, however, can find an outlet for their photographic interests and skills by serving as volunteer leaders of clubs.

Guidelines Aired On Defoliant

The decision to use harvest-aid chemicals on cotton should be made with utmost care in view of recent weather conditions. Cool weather has slowed fiber maturity and thereby increased the time required for bolls to reach full maturity. Too early application of harvest-aid chemicals can result in lower quality fiber and especially lower micronaire, points out County Agricultural Agent Ken Cook.

Since weather conditions have delayed maturity, plans to use harvest-aid chemicals will require some alteration. Much cotton acreage will now require the entire season to reach maturity and should not be treated.

On the other hand, drought-stressed cotton or early cotton that has "set out" with mature bolls should be treated with harvest-aid chemicals to permit early harvest. Furthermore, most of this cotton is making top growth that will not contribute to final yield and will only tend to delay harvest if not treated.

So take a hard look at your particular situation. Keep in mind that low micronaire is a reflection of immature fiber. With present discount rates for low-mike cotton, any operation that stops the fiber maturing process should be avoided. And too-early defoliation or desiccation will do this.

Too often farmers have the mistaken idea that the use of harvest-aid chemicals will speed up fiber development or maturity. But only the time and warm weather will mature cotton. A good rule-of-thumb is to delay defoliation until 60 percent of the bolls are open and 80 percent or more open bolls if a desiccant is to be used.

For defoliant, either a chlorate or phosphate material may be used while Arsenic Acid and Paraquat are used as desiccants. Two applications, first using a defoliant and then following with a desiccant, are often used to reduce leaf trash.

Further information on defoliant and desiccant materials and application rates may be obtained from the County Agent's office by requesting a copy of the 1969 Cotton Defoliation Guide.

Well, What Do You Know? fun, games and knowledge

by MARTHA GLAUBER SHAPP, Editor, The New Book of Knowledge

Do you know what archeology is?

The word "archeology" comes from two old Greek words: *archaios* ("ancient") and *logos* ("study" or "talk"). From these two words you can see that "archeology" should mean to talk about and discuss old things, and so it does. Archeology is the study of the things, or artifacts,

that past peoples used and enjoyed. So an archeologist is a kind of detective who investigates the past to discover how people lived, ate, worked, and played. His tools include a spade, a pick, gloves, a soft brush, measuring tape, and a sifting screen.

What do you know about covered bridges?

Covered bridges once dotted the American countryside from the Atlantic coast to the Ohio River. The bridges looked like square tunnels with peaked roofs. Some people claim that the bridges

were covered so that horses would not be frightened by the water underneath. Others say that they were built as a shelter for travelers in bad weather. Actually the coverings were designed to protect the wooden framework and flooring of the bridges and keep them from rotting. Some of these covered bridges are still standing—after more than 100 years. Many others have been destroyed to make room for modern highways. To protect the bridges that are left, the National Society for the Preservation of Covered Bridges has been established. The society publishes information on covered bridges and works to save them from being torn down. The states also try to protect the bridges by making them historical landmarks.

Do you know why bottles have different shapes?

Individual bottles have different shapes for different reasons. Some bottles are shaped in odd ways for advertising purposes. The manufacturer wants people to remember his bottle and be able to pick it out among all the others in the store. Other bottles are designed from a practical standpoint. They may have very broad bases to keep from being toppled over and long narrow necks to make for easy pouring. Many bottles are also so beautifully designed that they may be used solely as ornaments.

RELATIVE OF MRS. McMURTRY BURIED IN NEW MEXICO

Funeral services for Dennis D. Wickware, 22, were conducted on Tuesday of last week in the Bible Way Fellowship Church in Capitan, New Mexico, with Bro. Jim Wells officiating. Burial was in the Capitan Cemetery.

Wickware, a NMSU student and resident of Las Cruces and Ruidosa, was pronounced dead on arrival at an Alamogordo hospital following a collision the previous Friday night during a rainstorm.

The site of the accident was 27.6 miles west of Alamogordo. Reports indicated that the Wickware vehicle slid into an oncoming pickup and a third vehicle apparently struck the Wickware car following the original accident.

Mrs. Wickware, who was reported in fair condition following the accident, and her husband had been married since last June.

Survivors in addition to his wife include his mother, Mrs. Anna Wickware of Chicago, Illinois; his

Prussic Acid In Sorghums May Poison Livestock

Recent rains over much of the area have brought on regrowth of sorghums, sudangrass, sudan, sorghum hybrids and Johnson grass that suffered from the dry weather this summer or that was recently harvested. And this situation may pose a threat to grazing livestock, according to County Agricultural Agent Ken Cook.

New growth on sorghums sometimes develops a high prussic acid content and becomes a hazard to grazing animals, points out the county agent. The same situation develops when the growth of these sorghums is stopped by a freeze or frost. So, farmers are urged to keep an eye on their stock for the next few weeks if their animals are grazing any of the different sorghum types.

Prussic acid acts quickly in the digestive tract of an animal, Cook explains. It can kill an animal in a very short time after the plant

father, George T. Wickware of Baltimore, Maryland; his grandparents, Mr. and Mrs. J. D. Burleson of Ruidosa; two sisters, Lanna Dorn and Sonya Wickware of Joliet, Illinois; and one brother, Kyle Wickware of El Reno, Oklahoma.

Mrs. Burleson, Wickware's grandmother, a niece of Mrs. A. L. McMurry of Silverton, said the young couple had planned to commute weekly between Las Cruces and Ruidosa. Wickware had registered for the fall semester at NMSU, and Mrs. Wickware planned to work weekends at the Ruidosa-Hondo Valley General Hospital and part time at the university while her husband was a student.

Governor Proclaims 4-H Club Week

In an official memorandum, Texas Governor Preston Smith recently proclaimed the week of October 4-11 as National 4-H Club Week in Texas.

In the proclamation, the governor said: "Texas' 100,000 4-H members are observing National 4-H Club Week, October 4-11, 1969.

"The purpose of 4-H work is to give equal training to the Head, Heart, Hands and Health of Texas as young people and to help prepare them to be better leaders and citizens who will fit into the

is eaten. Whether or not a poisoned animal can be saved depends on how soon a veterinarian can get to it.

Animals that have been poisoned may stagger and act sleepy before suddenly dropping dead. Severe muscular twitching is sometimes seen. Labored breathing and frothing from a wide-open mouth are common symptoms. An animal may grind its teeth and turn its head into its flank. The breath usually has an almond-like odor and mucous membranes appear congested but not cyanotic and bluish. The blood is cherry red.

Death results from suffocation, since the poison prevents the exchange of oxygen from the blood to the tissue.

Forage containing the prussic acid can be fed safely if it is cut and allowed to cure completely in the field, or if it is put up as silage and not fed for several months. Mature plants with few suckers seldom grazed in late fall can be very dangerous.

A good way to check grazing is to turn one or two low-quality animals into a suspect field and watch them for a day or two. Be sure water is available to them or the symptoms may be delayed.

society where their life's work may take them.

"4-H work is a part of the educational program of the Texas A&M University Cooperative Extension Service and is supervised on the local level by county extension agents along with the help of 19,000 local volunteer 4-H leaders who are outstanding men and women in the local community.

"Texas 4-H members working with over 202,529 educational learn-by-doing projects, apply the latest research and scientific information to their work, keeping records, arranging exhibits and giving demonstrations to pass this information to others.

"The leadership and citizenship training which 4-H members receive in this program is a valuable asset to our democratic way of life.

"Therefore, I, as Governor of Texas, do hereby designate the period of October 4-11, 1969 as 4-H CLUB WEEK in Texas and urge all of our citizens to support and encourage the work of this organization which has as its motto, 'To Make the Best Better.' In official recognition whereof, I hereby affix my signature this 6th day of August, 1969.

Preston Smith
Governor of Texas"

BOXED IN CAN BE FATAL

Never drive onto a railroad track until you are certain you can drive all the way across. Be sure the traffic ahead of you will not stop and box you in on a track. Wait for the traffic to clear. If you do make the mistake of getting trapped, abandon the car.

SUNDAY'S SERMON

ABOUT GROWTH

For many, there is satisfaction in placing a seed in the ground, nurturing the soil and the sprout with the tender care needed to produce something worthwhile.

Happiness, too, can come from a minute "seed." A kind word, properly planted, can bring forth fruits of joy to some hungry soul. A good deed, however small can spread with the winds and blossom, and magnify.

One smile can light up a hundred other faces.

Just as good seed planted in good soil will bear fruit, so will bad seed rot upon the rocky ground. Such is the way of things. It follows that successful living becomes a matter of selective choosing. An individual who would reap the benefits of happy living chooses to live a life of value, chooses to do some good works today to insure that the fruits of tomorrow equally good.

Guest Editorial

This week's Guest Editorial is by Cynthia Sutton from the third-year Home Economics class.

This first six weeks has proved to be an exciting one for all of the girls taking Home Economics III. The first week we studied personalities and our environment. We discussed these very thoroughly in class. The next thing we took up was dating and teen marriages. To make this study more interesting, we saw two different films on these subjects. We also read different magazine articles that were on this subject and discussed them in class. These were things that we were all interested in and wanted to know more about. This also helped us to make our own decisions on these matters.

Studying weddings was a most interesting chapter. We learned all of the proper procedures of engagements, showers and weddings. Something that helped all of us was learning the financial obligations of the bride and the groom. This helped us all to learn that most weddings are very expensive, but an inexpensive wedding can be very impressive.

While studying weddings, we went on a field trip to Merlene's Flowers and she showed us different types of bouquets and wedding arrangements. She also told, in order of time, what we should do when getting ready for our wedding. She went over all of the wedding procedures in the order that they should come and discussed what is needed for a reception. Mrs. Williams gave each of us several mimeographed sheets concerning weddings that we put into a Bride's Notebook. All of this information will help us prepare for our own weddings someday.

Last week we started on our Housing Unit. To make this more interesting we visited the homes of Mr. and Mrs. Wayne McMurry and Mr. and Mrs. E. A. Birdwell. They showed us through their homes and told us some advantages and disadvantages of different points of their homes. After touring the homes, we were served refreshments. We enjoyed this and we appreciate their for letting us visit their homes. Although we have just started this unit, we plan to visit some more homes and to complete a house plan of our own.

All of us enjoyed this first six weeks under the supervision of Mrs. Rubie Williams. We regret that she had to leave, but we are looking forward to having Mrs. Brenda Cook for our new teacher.

From The Sidelines

As coaches, we felt that we were prepared for Groom offensively and defensively. With special emphasis on their fine quarterback, we worked on every aspect of their offense.

Though the record books show Groom to be the winner, it is not indicative of the better team. The statistics speak for themselves. We feel that the better team lost the game on the scoreboard but not on the field.

Not taking anything away from Groom, but our team helped beat themselves. On our way to score six times we fumbled, whereupon Groom took advantage of the mistakes and scored. The long, desperation touchdown play at the close of the first half only served to ignite the Groom attack.

Overall, we had a fine effort from each one of our boys. We had exceptional efforts from members of the offensive and defensive teams. Bill Strange worked hard to pick up 245 yards rushing. Also, Marvin Self and Dana Martin added to the total with 85 and 65 yards respectively. Trent Brown showed improvement in the passing department. On defense, Pinky May had a few bright spots at linebacker. The whole of the front defensive line played well as they stacked the middle and did not allow much yardage to be gained from tackle to tackle.

Our own mistakes hurt severely, but improvement can be seen each week. We can't help but feel that the character and pride that these boys possess will bring them back stronger this week.

Rules Clarified For Girls Who Ride The Pep Squad Bus

There seems to be some misunderstanding about what is expected of girls who ride to football games on the Pep Squad bus.

The following rules apply without exception and any girl who fails to conform may find herself in serious difficulty.

1. If you ride the bus to the game, you must ride it home unless your PARENTS tell the bus driver or Cynthia Sutton PERSONALLY.
2. The dues must be paid BEFORE a girl can ride the bus to any out-of-town game.
3. If a Pep Squad member does not ride the bus, but goes to the game, she must pay admission at the gate.
4. Members must bring their flags BEFORE they can ride the bus or get in free at any home game even if her dues are paid.
5. Girls who ride the bus are expected to sit WITH the Pep Squad and YELL.
6. All girls must stay in the Pep Squad stands until the half.

F. H. A. NEWS

by Lois Arnold

The Silverton chapter of Future Homemakers of America met September 25 in regular session, and heard a guest speaker, Bailey Reece of Swisher Electric Cooperative in Tulsa, speak on "Preparedness—the Key to Opportunity."

This was also the last meeting for Mrs. Williams as the F.H.A. advisor and sponsor.

Refreshments were served before the meeting was adjourned.

Comedy Routine Seen In Pep Rally

A comedy routine was presented by the cheerleaders during the Pep Rally Friday morning in the school gym. The enthusiasm and pep shown in the cheers and talks were among the best yet.

The cheerleaders would like to take this opportunity to encourage everyone to keep the spirit flying high all season to cheer our players all the way!

HIGH HOPES

... was when Bill Strange was trying to convince the staff to put something in the paper about Terry Bomar. (Was it to get back at him because of last week's paper?)

... was when the student body told R. G. she doesn't know everything.

... are for Coach Wood's fifth period Speech class.

... for sixth period Chemistry. (Evelyn Wood)

... for all the Freshmen chasing Bob Hutsell.

... for Amy S. and Janet M. getting rides before school every morning.

... when Barbara Letdeter was attempting to make it to the top of the stairs and fell.

... when Jimmy M. was attempting to walk down the steps and stumbled and fell.

... is Evelyn hoping ? would come home.

AT DAY'S END

by John Hall

Is anybody happier because you passed his way?
Does anyone remember that you spoke to him today?

The day is almost over, and its tolling time is through;
Is there anyone to utter now a kindly word of you?

Can you say tonight, in parting with the day that's slipping fast, That you helped a single brother of the many that you passed?

Is a single heart rejoicing over what you did or said;
Does the man whose hopes were fading, now with courage look ahead?

Did you waste the day, or lose it?
Was it well or sorely spent?
Did you leave a trail of kindness, or a scar of discontent?

As you close your eyes in slumber, do you think that God will say,
"You have earned one more tomorrow by the work you did today?"

If we want to go places in life we need to keep moving.

A world without a Sabbath would be like a summer without flowers.

THANK YOU, FROM THE JUNIORS

by Lanis Davis, reporter
The Junior class extends its appreciation to everyone who bought tickets to, and attended, our hamburger supper and bake sale.

Our class is working diligently to earn money for the Junior and Senior Banquet, and we thank you for helping to make this project a success.

4-H Automotive Program To Aid in Driving Safety

There is a ray of hope for a reduction in the number of motor-vehicle accidents in hundreds of communities across the country. And hope is turning to reality in areas where young drivers and pre-drivers are participating in the 4-H Automotive program.

Conducted by the Cooperative Extension Service, with the help of local police departments, firemen and community leaders, the program aims to develop the right attitudes toward safe driving. And the popularity of the 4-H Automotive program is shown by the increasing number of teens who enroll and complete the course of study. Nearly 70,000 participated last year.

E. C. Hale, chief of police, Lexington, Ky., claims the 4-H Automotive program approach works. In three years, teen motor-vehicle accidents in his city decreased from 1,034 to 967. Fatalities dropped from nine to two and injuries from 206 to 156. Chief Hale also says that he is encouraged by the increasing interest and responsibilities taken by young people in the conduct of the program. "It has proven to be an excellent tool in preventing losses of juvenile life in the community," he reports.

Nationally, the 4-H Automotive program is supported for the tenth year by The Firestone Tire & Rubber

Company which provides incentive, recognition and other program aids. The company also provides a number of grants to state Extension Services for program promotion and expansion.

At the National 4-H Congress in Chicago, Nov. 30-Dec. 4, Firestone will award eight \$600 national scholarships and host state winners in the 4-H Automotive program. And at numerous local recognition events, county medals of honor will be awarded this fall.

Room for Improvement

Although encouraged by the favorable response of young people, Firestone and Extension officials see need for increased effort. They note that during 1968, the National Safety Council reported 26 million licensed drivers, one of every four, were involved in motor-vehicle accidents. Deaths totaled 55,200 and some 2,000,000 persons were disabled.

Youth of 4-H age, under 20, represented 102 per cent of all drivers and accounted for 15 per cent of the fatal accidents and nearly 17 per cent of all accidents. They were surpassed only by the 20-24 years-olds.

Information about how teens and their parents may participate in the 4-H Automotive program is available from the County Extension office.

Junior Owls Defeat Wheeler Colts 22-14

by Coach Bill Wood

With two minutes to go in the first quarter, the Owls hit pay dirt on a 20-yard scamper around right end with Craig Culwell carrying the ball. David McCoy carried the mail for the two-point conversion, and the first quarter ended with the Silverton Junior High Owls leading the Wheeler Colts, 8-0.

Culwell hit pay dirt again on a 75-yard pass interception play, and McCoy again added the two-point conversion, increasing the lead to 16-0.

Rusty Cole came back in the second half, running hard, and put up a quick 12 points for the Colts. David Reeves scored the extra points for Wheeler.

With five minutes remaining in the game, the Owls were leading 16-14. Culwell took the Wheeler kickoff and returned it 75 yards for another six points for the Junior Owls. The conversion failed, and the game ended with a 22-14 win for the Owls.

Craig Culwell scored 18 points for the Owls and gained over 200 yards rushing. The Owl defense looked good throughout the game with good plays being made by Dean Ziegler, Carl Dean Gallington and Mike Montague.

Coach Stovall stated that each player did his best and that the team did a fine job.

The Junior Owls move to Turkey tonight (Thursday) at 6:30 p.m. to try for Victory Number Two.

☆

On the roster for the Silverton Junior High Owls are Eighth Graders: 104-pound Willie Bomar, at guard; Barry Bullock, 99-pound wingback; Craig Culwell, fullback at 107 pounds; Alex Davis, 113-pound end; 126-pound tackle, Wendell Hardin; Ricky Minyard, 136-pound tackle; Mike Montague, 128-pound guard; David McCoy, 130-pound halfback; Ty McMurry, 81-pound quarterback; Herbert Polley, 83-pound end; Marshall Rauch, 141-pound guard; and Randy Vaughan, 146-pound tackle.

Seventh Graders on the team are: Dee Arnold, 114-pound tackle; Kelly Bomar, 70-pound end; Tommy Bullock, 92-pound guard; Emilio Cruz, Jr., 114-pound fullback; Carl Gallington, 110-pound tailback; 96-pound guard, Scott Garvin; Mike Griffin at end, weighing in at 85 pounds; 100-pound Ricky Hutsell at center; 99-pound Scott Hutsell at wingback; Clarence Ivory, 70-pound end; Pete Juarez, 85-pound end; Todd McJimsey, 107-pound tackle; John Sharp, 116-pound center; Gary Storie, 72-pound wingback; Ken Wood, 103-pound quarterback; and Dean Ziegler, 73-pound halfback.

If You Dare, Ask

Sue Lynn where she was chasing Max.
Steve why he was complaining about low spirit, but wouldn't announce the bonfire at the Junior High ballgame.

Rhonda why she is grounded (was it worth it?).

Kaedeon who she left the ballgame with Thursday night.

Leila Jo why she and the Turkey broke up.

Quinn and Trent why they had a dead owl stored in the lunchroom freezer.

Amy Sharp why she was playing leap frog over the trashcan.

Prayer is not to ask what we wish of God, but what God wishes of us.

Mrs. Williams

Honored At

Going-Away Party

Mrs. Rubie Williams was honored at a going-away party Thursday, September 25. The party was hosted by the Silverton Young Homemakers and F. H. A.

Mrs. Williams is moving to Wichita Falls, where her husband has been called to preach.

Gifts presented to Mrs. Williams included a broiler-oven unit from the F.H.A., a pin and earrings set, a gift certificate, a dress and pottery platter, serving bowl, soup bowl, gravy bowl and saucers from homemaking classes and friends.

Refreshments were served to the honoree, members of the Silverton Young Homemakers and members of the Silverton chapter of Future Homemakers of America. The punch was furnished by the Young Homemakers and the cookies were made by the Homemaking III girls.

The F. H. A. girls expressed their appreciation to Mrs. Williams for all she has done for them as their homemaking teacher and F.H.A. advisor. They will miss her and will never forget her.

It Finally Happened

Marilyn got serenaded by a boy (in front of the whole high school student body).

Coach Wood complimented the paper.

We got to have a bonfire (and the boys didn't come).

Rhonda got grounded.

WE had a great Pep Rally.

Claudia got licks for screaming out the window.

SNUG BUGS.

Student Council News

The Student Council met in the home of Lanis Davis Monday, September 20, to discuss plans for the Halloween Coronation. A theme was selected and decorations were discussed.

Assembly News

The high school student body and faculty enjoyed an assembly program presented by Gene Hawkins of Seminole and Randy Hendricks of Pampa, who were in Silverton to hold revival meetings at the First Baptist Church. They were accompanied by Mrs. Wayne McMurry at the piano.

They sang "Cherish" and the theme from "Camelot," as serenades to Marilyn Minyard and Gail Mayfield, and "I Have Decided To Follow Jesus."

Bro. Hawkins also addressed the assembly, and Rev. C. H. Murphy, Jr., pastor, extended an invitation to attend the revival services.

Miss Crawford Is New Teacher Here

Miss Mary Ann Crawford, daughter of Mr. and Mrs. Wayne Crawford of Kress, is a new teacher in the Silverton school system.

A former Silverton resident, Miss Crawford received her degree from Texas Tech last summer, and holds the B.S. degree in Education with English specialization.

She is making her home with her aunt, Mrs. Jessie Bomar.

"FOR ALL YOUR PRINTING NEEDS"

Twentieth Anniversary Celebrated at Tea Saturday

MEMORIES ARE MADE OF THIS—Reminiscing and looking through the Century of Progress Study Club's scrapbooks were the order of the day during a Twentieth Anniversary Tea held Saturday afternoon in the school cafeteria. Members of the 1925 Study Club, the mother club, and former members of Century of Progress were honored guests. Photo One reflects the interest of Mrs. L. D. Griffin, Mrs. T. R. Whiteside, Mrs. Winnie Wimberly, Mrs. Wayne McMurtry and Mrs. Verlin Towce in looking through the scrapbooks. Photo Two shows 1925 Study Club members, Mrs. Bert Douglas, Mrs. T. C. Bomar, Mrs. R. G. Alexander and Mrs. A. H. Jackson. The fashion look for 1969 was compared with that of 1949 (Photo Three) when Mrs. Carl D. Bomar appeared at the tea wearing an ensemble which she wore to club meetings in 1949. Her sister-in-law, Mrs. Wayne McMurtry represents current fashion for comparison. (It's a shame you can't compare their shoulder pads!) Hostesses for the tea (Photo Four) were Mrs. George Long, Mrs. James Davis, Mrs. Pascal Garrison and Mrs. L. D. Griffin. Looking through the scrapbooks in Photo Five were Jill Seefeldt, Mrs. Winnie Wimberly, Mrs. Wayne McMurtry, Mrs. Harold Seefeldt and Mrs. Esdell Hutsell, the club's first president.

Numerous Awards Won By Club

Numerous awards in district and state competition have been won by Century of Progress Study Club during its twenty-year history.

At Saturday's anniversary tea, one of the members of the 1925 Study Club, now disbanded, but which was the parent organization for Century of Progress, remarked: "We must have done a good job of getting them started — 'our child' has done better than we did!"

The club's pressbook, under the chairmanship of Mrs. Carl D. Bomar, won second in district in 1969. In 1960, the pressbook, prepared by Mrs. O. C. Rampley, won first in the district and second at state.

That same year, the club's yearbook, prepared by Mrs. O. C. Rampley, Mrs. J. E. Simpson, Jr., and Mrs. Norman Strange, won second in the district.

The pressbook prepared by Mrs. J. W. Reid, Jr., won first in both the district and state contests in 1961. The 1963 pressbook, under Mrs. F. E. Hutsell, won second in the district.

In 1964, Mrs. L. D. Griffin, Mrs. James Davis and Mrs. Wayne McMurtry put together a yearbook which won first in both the district and state.

The 1965 yearbook prepared by Mrs. Jim Mercer, Mrs. Pat Northcutt and Mrs. Joe Montague won first in the district, and the 1966 yearbook, planned by Mrs. Wayne McMurtry, Mrs. Norman Strange and Mrs. F. E. Hutsell, won second in the district.

Added to these awards are numerous department and division awards won by the club during its twenty-year history.

Song Symbolizes Twenty-Year History Of Club

"Memories Are Made of This" was the title of the selection sung by Mrs. C. H. Murphy, Jr., at the Century of Progress Study Club Twentieth Anniversary Tea last Saturday afternoon.

The lyrics which had been written for the melody of that familiar tune by Mrs. L. D. Griffin, Mrs. Carl Bomar and Mrs. Wayne McMurtry, included the courses of study the club has had during its twenty-year history.

Past club presidents were asked to listen for a "hint" of the course of study from their years.

Memories Are Made of This

The sweet, sweet memories are made of this, Thank you, 1925 Club, for this.

There was a group in '49, They made a promise for '69— It took some years, It left some tears, Memories are made of this.

Don't forget "Creating Our Homes"— We thought we were building golden domes! "Our American Family" in 1951, Memories are made of this.

With "Youth of Today" We were "Living To The Utmost" "Women Through the Centuries" and "Religions"

"Law, Logic and Legislation"— "Open Doors to the 60's" "Passport to Peace" with "Beacons for Tomorrow."

In '64 we won state with "A Pocket Full of Miracles"— And that was great! "To Everything There is a Time" "Legend of Life" to "Footprints in Time"— Memories are made of this.

Club's Outstanding Projects, Activities

One of the most significant contributions to community life made by Century of Progress Study Club has been park improvement.

At the club's Twentieth Anniversary Tea Saturday afternoon, this activity was noted with a—"We worked hard, girls, but we know our grandchildren will be able to go down to the park and play tennis!"

In 1949-50, the club began a fund for a recreational center for Silverton's youth; in 1950-51, two concrete tennis courts were completed—not just with a money donation, but with the actual physical labor of club members and their husbands; in 1952-53, a Girl Scout Troop was sponsored.

A drinking fountain was added in the park in 1954-55; a nursing scholarship was presented in 1955-56; and civil defense and disaster relief was emphasized in 1957-58.

The club contributed to civic improvement through beautification of the park and school yard in 1961-62; Americanism was promoted through assistance to the foreign exchange student program in 1963-64; members participated in teen time and local theatre projects in 1966-67, and promoted public school music in 1968-69.

Significant contributions in the

"Happiness Is..." studying "Arts" "Coloring Books" and Christmas tarts— Memories are made of this.

Two "Decades" we have gone through "From Paper to Platinum" to welcome you— Thus memories have turned out fine!

Century of Progress Study Club celebrated its Twentieth Anniversary on Saturday afternoon, September 27, at a tea in the Silverton School Cafeteria. Honored as guests were past members of the club and members of the 1925 Study Club, who sponsored the organization of and acted as advisors for Century of Progress Study Club during the formative years.

The current course of study, "Two Decades — From Paper to Platinum," was depicted in the corsages that were presented to each one as she was registered by Mrs. George Long. The unusual mock - cysanthemums were cut from paper and tied with platinum ribbon bearing the years, 1949 and 1969. Similar large pom-poms decorated the tables and the piano.

The wall behind the speakers' table held hand-written scrolls of the club motto and a copy of the dedication page in the current yearbook which was signed by Mrs. Wayne Vaughan, chairman, Mrs. James Davis and Mrs. Pascal Garrison.

The devotional was given by Mrs. L. D. Griffin, and the active members responded to roll call with their first year of membership.

Mrs. Wayne McMurtry, president gave the welcome, and recognized each person present individually. Five past members and seven members of the mother club were introduced as well as the seventeen active members present.

It was noted that three of the former members who were guests were charter members, Mrs. Ed Hutsell, Mrs. Harold Seefeldt and Mrs. J. W. Brannon, Jr. Mrs. Hutsell was the club's first president, serving in 1949-1951. Mrs. Seefeldt is also a past president, having served in 1952-1953.

In addition to the three former members named, six of the original sixteen charter members who still hold active membership were present. They were Mrs. James Davis, Mrs. Edwin Dickerson, Mrs. L. D. Griffin, Mrs. George Long, Mrs. Carl Bomar and Mrs. O. C. Rampley.

Mrs. McMurtry expressed pride

in the fact that Mrs. Rampley is currently serving as second vice president of Caprock District. Mrs. C. H. Murphy, Jr., sang a song, "Memories Are Made of This," worded to be especially meaningful to the club members. She was accompanied by Mrs. McMurtry at the piano.

A highlight of the program was the reading of letters received from the following former members, Mrs. Jim Mercer, Houston; Mrs. Robert Ledbetter, Silverton; Mrs. C. D. Kirk, Huntsville, Alabama; Mrs. George W. Miller, Floydada; Mrs. Clifton Guice, Houston; Mrs. Roy Francis, Denton; and Mrs. Von Kleibrink, Snyder. A letter was also read from Mrs. T. R. Whiteside, Lubbock.

It was also noted that telephone calls had been received from Mrs. Buster Miller of Hereford and Mrs. C. A. Tunnell of Farwell, expressing regret that they were not able to attend.

The climax of the afternoon came when Mrs. Carl Bomar arose from the speakers' table, where she had been sitting since before any guests arrived, and revealed that she was wearing a dress and shoes she had worn to club meetings twenty years ago. The mid-ankle skirt and platform shoes were quite a contrast to the styles of today. Mrs. Bomar exclaimed that she really didn't know why

Members of the 1925 Study Club were guests of honor at the Twentieth Anniversary Tea held by Century of Progress Study Club in the school cafeteria Saturday afternoon. They are (seated) Mrs. T. R. Whiteside, Lubbock; Mrs. Gordon Alexander, Silverton; Mrs. Winnie Wimberly, San Angelo; Mrs. Woodson Coffee, Jr., Dumas; (standing) Mrs. T. C. Bomar, Silverton; Mrs. A. H. Jackson, Colorado City; and Mrs. Bert Douglas, Lubbock.

she had kept the dress—that it must have been for sentimental reasons the first five years, and for fun the second five years—and she "would have been embarrassed to have had it found among my discards for the past ten years!"

Mrs. Bomar continued with her "Remembrance of 1949" by recalling a tea that Century of Progress Study Club had for its mother club, the 1925 Study Club, during that first year. "Every one of the appointments for the tea was borrowed!" She continued by relating that even the dining table on which the borrowed appointments were placed was borrowed.

And the club members assisted the hostess, Mrs. George Long, the only members who had room enough for such an affair — by each bringing her most presentable chairs for the tea. At the conclusion of the program, guests were served spiced tea and teatime snacks from a table covered with a white cloth which was decorated with a cysanthemum centerpiece containing the baby, Miss Paper of 1949, and the young lady, Miss Platinum of 1969. Further carrying out the "From Paper to Platinum" theme, the hostesses had arranged paper appointments at one end of the table and a sterling silver service at the other. Guests were served

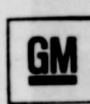

by Mrs. James Davis and Mrs. Pascal Garrison. Club members and guests lingered for a time of reminiscence with friends and to look through the scrapbooks that were on display.

Numerous snapshots were made and enthusiasm for future anniversary celebrations was shown.

Active members attending the tea were Mrs. Edwin Dickerson, Mrs. George Long, Mrs. Carl Bomar, Mrs. Wayne McMurtry, Mrs. L. D. Griffin, Mrs. Pascal Garrison, Mrs. Leland Wood, Mrs. E. A. Birdwell, Mrs. Pat Northcutt, Mrs. James Davis, Mrs. Joe Montague, Mrs. Troy Jones, Mrs. C. H. Murphy, Jr., Mrs. Hugh Nance, Mrs. Carol Davis, Mrs. Flute Hutsell and Mrs. O. C. Rampley.

Former members present were Mrs. Harold Seefeldt of San Angelo; Mrs. J. W. Brannon, Jr., Panhandle; Mrs. Roy Mack Walker, Mrs. Ed Hutsell and Mrs. Verlin Towce, all of Silverton.

Seven who were active members of the 1925 Study Club in 1949 also attended. They were Mrs. Gordon Alexander and Mrs. T. C. Bomar, both of Silverton; Mrs. R. E. Douglas and Mrs. T. R. Whiteside, both of Lubbock; Mrs. A. H. Jackson of Colorado City; Mrs. Woodson Coffee, Jr., Dumas; and Mrs. Winnie Wimberly, San Angelo.

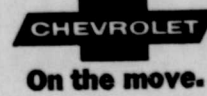

1970 Caprice.

A lot of cars cost more. But few if any are really that much more car. Which explains why more and more of the smart money is coming to Caprice. Look what you get: A big substantial 18-foot-long prestige car with a new 350-cubic-inch V8 engine, power disc brakes, Astro Ventilation, wheel covers, deep twist carpeting, posh appointments. A remarkably roomy car, with a ride so smooth and

silent you'll feel like Mr. Big himself.

Tell you what, though. If you absolutely insist on a more expensive car, we won't stand in your way. Go ahead and order air conditioning. Order stereo. Order tinted glass, power windows, 6-way power seat, our new Headlight Delay system. Your Chevrolet dealer will happily help. See him real soon. Putting you first, keeps us first.

If you spend more for a car, you must want to spend more for a car.

CARDS OF THANKS

We would like to say many thanks for the prayers, flowers, cards, phone calls, the lovely gifts I received while I was in the hospital. Our appreciation for the delicious food that was brought to us since I came home.

The old saying is that "at the end of the rainbow is a pot of gold." We think that the "pot of gold" is right here in our little town. You may travel far and wide, but the most wonderful people are here. We could not travel on if it were not for all of you.

We love each and every one of you.

Opal, Walter and Freddie Hill

STAY AWAKE ITCHING?

Let doctor's formula stop it.

Zemo speeds soothing relief to externally caused itching of eczema, minor rashes, skin irritations, non-poisonous insect bites. Desensitizes nerve endings. Kills millions of surface germs, aids healing. "De-itch" skin with Zemo, Liquid or Ointment. Quick relief, or your money back!

WOMEN PAST 21

WITH BLADDER IRRITATION
Suffer Many Troubles

After 21, common Kidney or Bladder Irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondly, you may lose sleep and suffer from Headaches, Backache and feel old, tired, depressed. In such irritation, CYSTEX usually brings fast, relaxing comfort by curbing irritating germs in strong, acid urine and by analgesic pain relief. Get CYSTEX at drug-gists. See how fast it can help you.
