Owls Take First District Game 18-8 From Memphis

by Mary Ann Sarchet

Silverton's "Fighting 26+5" battled the Cyclones in the rain on a soggy field at Memphis last Friday night, and emerged with an 18-8 district win.

Thomas Self, Lane Garvin and Dana Martin are shown leading the way as Bill Strange picks up good yardage against Memphis in last Friday night's game.

clone-46. Strange picked up a first down on the Memphis-31, followed by a first-down run by Martin to the Memphis-18.

The fourth quarter opened just after Memphis had made a first down on their own 45, lost steam, and punted to the Silverton-20.

The ball changed hands over and over, with neither team able to "keep hold of the handle" for very long.

Memphis made a first down on about the 10-yard line and sent Lewis Davis around end on a TD try.

Silverton brought the after-touchdown kick back to their 43. Bill Strange picked up a first down on the Memphis-48, then carried twice for another first down on the Cyclone-37.

The Cyclones took the after-touchdown kickoff to their own 35 and worked their way up to midfield, where they fumbled, and the ball was recovered by the Owls.

Terry Culwell intercepted a Memphis pass on the Memphis-40, but the Owls promptly lost it again via the fumble route.

Strange went for a first down on the Cyclone-22, but the ball went over to Memphis at their own 20 just before halftime.

Silverton opened the third quarter by kicking off to the Cyclones, and Thomas Self "clothes-lined" the ball carrier at the Memphis-20.

Memphis passed for a first down on their own 32, but fumbled and Silverton recovered on the Cy-

JUNIOR HIGH OWLS DEFEAT THE McLEAN CUBS 38-24 HERE

by Mary Ann Sarchet
The Junior High Owls racked up another district win here Saturday morning, taking a 38-24 win from the McLean Cubs. The Owls now own a 4-0-1 record, with a 3-0 standing in District 2-A.

The game was postponed Thursday due to rain, and Saturday morning's weather was cloudy and cool even though it was not raining.

Silvertown kicked off to McLean to open the game, the Cubs fumbled. Silvertown recovered, and on the first play from scrimmage, David Self carried a touchdown.

McLean's Cubs scored another touchdown complete with two extra points in an otherwise uneventful third quarter. McLean's tall halfback carried 3/4 or more of the Owl B-team on his back, arms and legs everywhere he went, but like a bull elephant, forged ahead.

In the fourth quarter, Gallington recovered a Cub fumble, and Self ran 50 yards for an Owl score. Wood added the two extra points.

Later David Lewis recovered a Cub fumble for the B-boys.

The final score of the game was made by McLean from 20 yards out. The PAT try was successful, and the Owls won by a 38-24 margin.

The Junior Owls don't get stars on their helmets like the varsity players do, but consider the marks their opponents' helmets leave on their helmets as a certain "badge of courage." The marks are highly prized and would never be scrubbed off or otherwise removed. For this reason, the Junior Owls look forward to playing against more teams who, like McLean, have helmets of a color that shows up boldly on their own.

The Junior High Owls will host Clarendon at 6:00 p.m. today. The boys have had pretty bad weather conditions for their last two games, and if weather predictions are correct, may have more of the same today; however, bad weather doesn't seem to get them down, as they have played some of their best games in the most adverse weather. Go out to the game and yell for them today as they go for District Win Number 4!

for the Owls. Scott Hutsell added the two extra points.
On the first play following the after-touchdown kickoff, Silvertown recovered a McLean fumble on the two or three-yard line. Carl Gallington carried the touchdown on the next play, and on a quarterback keeper, Ken Wood added the two extra points.

Later in the quarter, Clarence Ivory recovered a Cub fumble and Quarterback Wood scored from 12 yards out. This time the extra point try failed, and the Owls led 22-0 with 1:04 remaining in the first period.

The Junior High B-team went into action on offense and defense, seeing their full half of the game. McLean scored a touchdown and added two extra points in the second period. Their outside kick was taken by the Owls on the Silvertown-45. Scott Hutsell carried to the McLean-10, and Gallington carried the touchdown from one or two yards out. The extra points were also carried by Gallington. Halftime score was 30-8.

TASA Salesmen Are Award Winners

Lynn Welch, Silverton, won a vacation for two at Corpus Christi as top salesman for the State of Texas for TASA Motor Club memberships. Running a close second was Amos Ratjen of Tullia. Ratjen was presented a gift certificate for a new suit at a sales meeting Thursday night in Tullia. Present for the meeting was Dell Arduser, National Sales Representative for TASA whose home office is in Osceola, Missouri. Also attending the meeting were Bob Finley of Austin and Ed Hartley of Hereford, sales representatives. A. D. Lee, Tullia, Regional Sales Manager, made the presentations. TASA (Travel Aid and Safety Association) is a comparatively new and rapidly growing motor club, with a fast-increasing membership in this area.

es to acts of crime. A recent report indicated that about 50% of all police man hours were spent in relationship to alcohol-related incidents. Time magazine says: "The 'crime' that accounts for one out of three U. S. arrests, endlessly plagues police, clogs the courts, and crowds the jails is common drunkenness."

4. HEALTH . . . Dr. Parran, former Surgeon General of the U. S., says: "Alcohol is the major cause of insanity, and poisoning from it causes more deaths than from all of our most infectious diseases." Yet, the most tragic thing about alcohol is its results in a disease that cannot be cured. Cancer victims today have a 50-50 chance of recovery. Alcoholism cannot be cured; it can only be arrested.

5. HOMES . . . Alcohol is the contributing factor to unhappy homes and divorces. Any pastor could testify of the tragic effect that alcohol has on the home.

6. TRAFFIC SAFETY . . . A detailed study by coroners in 14 areas of the nation resulted in the startling discovery that 61% of the fatally injured drivers who came to their morgues had been drinking. The U. S. Department of Transportation reports that drinking drivers are involved in about one-half of all highway deaths, and a high percentage of other non-fatal crashes.

7. MARIJUANA and DRUGS . . . Recently a group of teenagers were arrested for smoking marijuana. Nearly everyone of them came from homes where alcohol was found. Dr. Dwight L. Wilbur, past president of the A.M.A., says: "If alcohol beverages were invented today, they would be outlawed just as this nation has outlawed marijuana, LSD, and other drugs."

Governor Preston Smith recently said, "The current public outcry and concern over the use of marijuana and dangerous drugs is certainly justified because of the severity of the problem in Texas. I am firmly convinced, however, that the excessive use of alcohol is still the number one drug abuse problem in our nation and in our state."

I think the words of Horace Greely, spoken many years ago, are applicable to our community: "To sell rum for a livelihood is bad enough. But for a whole community to share the responsibility and guilt of such a traffic seems a worse bargain than that of Eve or Judas."

If you care about your life, your family, your community—vote "NO" November 3 on proposition 2.

by C. H. Murphy, jr.
Pastor, First Baptist Church
It was the night of November 10, 1968. Elsie McKee slept the innocent sleep of a two-and-a-half year old, her hair spread across the pillow, her face wreathed with the angelic look of childhood that tugs at the heart of every parent who watches a sleeping little one.

Elsie's father, Dr. Richard McKee of Fort Worth, will never forget that night, and he'll never forget the gaping hole left by the careening automobile which slashed into Elsie's nursery and pinned her against the wall.

Most of all, he'll never forget the aching despair which enveloped him as he performed emergency surgery with a razor blade in a futile attempt to save his little girl's life.

The intoxicated driver of that automobile will never forget it either. But it's too late for Elsie, just as it has been too late for thousands killed each year in alcohol-related accidents.

People are invaluable. God in

Christ gave man value far above and beyond what we can define. Thus, we must be concerned about anything which is destructive of human life and welfare. This is why I will use every opportunity and influence to ask people to vote against liquor-by-the-drink.

On November 3, you will vote on a constitutional amendment designed to open the door for liquor-by-the-drink legislation. Those who oppose liquor-by-the-drink must vote AGAINST.

There are many reasons why you must vote "NO". I name just a few:

1. ALCOHOLISM . . . There are nearly 7 million alcoholics in the United States. There is no way to determine the amount of sorrow, sickness, and unhappiness brought about because of alcohol.

2. ADVERTISEMENT . . . The alcohol industry spends over \$500 million a year on advertising, using every ingenious device to persuade our children to become addicted to alcohol.

3. CRIME . . . Alcohol contribut-

"Swimming Hole"

One of the greatest pleasures of being a boy is being able to find a good "swimming hole". Clear, cool, clean water in a natural environment, however, is rapidly becoming a thing of the past. Pollution from factory wastes, trash and litter left behind by unthinking citizens, slowly but surely ruin our beautiful rivers and streams. In addition to depriving our young sons the pleasures of the "old swimming hole", this constant polluting of our water will even deprive us of clear, clean water to drink. We must, individually, make constant efforts to keep our lakes, rivers and streams free of trash, litter, and all that would make them unfit for use by boys, men or even animals.

LIBERTY AND JUSTICE FOR ALL

Our priceless heritage embodied in the flag of the United States, is as alive today as it was when written for the ages in the Declaration of Independence and the Constitution. It stands for all the world to see and for all Americans to cherish. And in the tradition of Washington, Jefferson, and Hamilton, we, too, have a privilege, a right, and a duty. While we may disagree as to the methods, we should not disagree as to the goal—that of preserving the greatest democratic society the world has ever known.

Our flag is a symbol, not of sentiment, but of history, the history of men and women willing to live and die for it. Surely this willingness is with us still, because daily we experience more of the blessings that are ours—ours because we are Americans.
