## USDA Authorizes Loans For Farm Storage Facilities

Farm storage facility loans to finance "wet storage" and hay storage farm structures will be available effective July 1, 1971, the U. S. Department of Agriculture announced today.

Today's announcement removes a previous prohibition on loans for oxygen-free and silo-type structures. It also adds loans for hay storage which can be used by producers in conjunction with the Agricultural Act of 1970 provisions dealing with hay for emergency use. Regulations applying to current farm storage facility loans will generally be applicable to loans for hay storage.

USDA officials explained that changing conditions for harvesting, storing and feeding methods require greater use of on-farm structures capable of storing agricultural commodities containing a high percentage of moisture.

These changes become effective July 1, 1971.

## 1937 Class Pictures Needed For Plaque

As most of the Silvertown High School ex-students know, the class plaques which have been hanging in the hallway of SHS are being reduced for placement in a special display album at the high school. Before the plaques were sent to the studio, it was necessary to reglue and repair some of them because of damage which occurred through the years as glue gave way, etc.

Three pictures had disappeared from the 1937 SHS class plaque. These were the photographs of Datis Martin, Elmo Walling and Ruth McGavock.

Copies of these pictures are badly needed so that this plaque can be restored to its original form. If you have a 1937 photograph of any of these SHS ex-students in any size, will you please cooperate with the school by bringing it to the News Office. It will be appreciated very much, and will help make the album more attractive.

All of the plaques will be returned by the studio soon, and the original ones will be auctioned off at the school homecoming in August.

Roy Lynn Brooks, who underwent surgery in St. Anthony's Hospital in Amarillo last Thursday, is reported to be recuperating nicely.

His mother, Mrs. A. T. Brooks, has been staying at the hospital with him. They expect to be able to return home this week.

## U. S. Postal Service Is Official July 1

On July 1 the United States Post Office Department will fade into history after nearly 200 years of service to the American people. Its place will be officially taken by a new organization, the United States Postal Service, an independent establishment of the government formed to meet the changing needs of our growing society. Providing better, faster, more dependable mail service will be the challenge of the Postal Service in the months and years ahead. Already plans are being initiated for a major mechanization program to streamline mail processing and special delivery.

### COMMEMORATIVE ENVELOPE FREE

To mark the inaugural date, the Postal Service will have a limited number of souvenir envelopes available free at post offices on July 1 only. In addition, for stamp collectors and would-be collectors, a limited number of cancelled first day covers will be made available for the cost of an 8c stamp.

### NEW POSTAL SERVICE STAMP

On July 1, at ceremonies in Washington, a new 8c stamp will be issued. It will carry the emblem of the United States Postal Service—a stylized eagle poised for flight. This stamp will be available simultaneously at all post offices.

**OLD GRIST MILL**

This is basic America, built on a solid foundation of rock, sweat and tears.

A beautiful grist mill, deep in the very heart of America, has withstood the ravages of time for over one hundred years—only because it is not in the path of man's stampede of destruction in the name of progress. Of course, America needs to grow, expand and improve, but let us not forget the foundations on which America was built.

This mill has been and is still run on water power from a nearby spring. The clear

water, flowing from deep in the good earth, has never failed to furnish the power needed by this mill to do its chores for the people throughout the years.

Americans all over this beautiful land can benefit from the example of this mill and spring.

The American people are the spring from whence the power flows that moves America forward. Let no true American do anything to impede that flow.

**SUPPORT AMERICA!**  
© Coleman Advertising Serv., 2653 Tarna Drive, Dallas, Texas 75229

Our priceless heritage embodied in the flag of the United States, is as alive today as it was when written for the ages in the Declaration of Independence and the Constitution. It stands for all the world to see and for all Americans to cherish. And in the tradition of Washington, Jefferson, and Hamilton, we, too, have a privilege, a right, and a duty. While we may disagree as to the methods, we should not disagree as to the goal—that of preserving the greatest democratic society the world has ever known.

Our flag is a symbol, not of sentiment, but of history, the history of men and women willing to live and die for it. Surely this willingness is with us still, because daily we experience more of the blessings that are ours—ours because we are Americans.
