DO YOU LIKE TO PAY
AT INCOME TAX TIME?

If you are an employee who has taxes withheld from your paycheck, you might want to check to make sure that enough is being withheld to keep you from paying a lot of extra tax when it comes time to file your tax return early next year. Of course, I am not an expert on the matter, but after reading several items concerning the withholding tax table that was proposed by the Internal Revenue Service for 1971, I am convinced that many employees who are having the amount called for on this withheld from their paychecks will not only have to pay more, but I think they will have to pay up "QUITE A BIT" extra when they go to keep from owing any at tax time, the following suggested:

1. Estimate the amount of tax that will be withheld from your wages each year and the tax you will owe. This can be done by consulting the tables available from your employer, your regional IRS office, or your friendly neighborhood accountant.

2. Adjust your withholding to the amount of the expected tax liability by filing a withholding certificate, Form W-4, with your employer, claiming fewer exemptions if necessary, having additional dollar amounts withheld.

3. The first eight months of the year have already gone by; if you have adjustments that need to be made to your withholding, you have only four months in which to do this.

At the News Office the other day we were investigating the withholding of a couple, both of whom are employed, and we found that using the 1971 Withholding Table to determine the proper amount to be withheld from their wages would have cost them upwards of \$200 when they get their income tax return had they not adjusted the amounts being withheld.

Ms. Kincannon Buried Here Saturday

Cremation services for Mrs. Kincannon, 86, of Denton, former Briscoe County resident, were conducted at 2:00 p.m. Saturday in the Silverton Cemetery. Mrs. Kincannon was the aunt of Mrs. Patton of Silverton.

The Rev. Jack Craig, a Baptist minister from Portales, New Mexico, officiated. Burial was in the Silverton Cemetery.

Mrs. Kincannon died Thursday morning in Denton, where she had resided since January 1971.

Born in Hico, Mrs. Kincannon moved to Briscoe County in 1907, and her husband moved to New Mexico in 1931, and she moved to Denton following her husband's death.

She is survived by a son, William Kincannon of San Francisco, California; three daughters, Mrs. Labell of Portales, New Mexico; Mrs. Gladys Stacey of Albuquerque, New Mexico; and Mrs. Frazier of Denton; two sisters, Mrs. Rex Puckett of Phoenix, Arizona, and Mrs. Walter Johnson of Sudan; two brothers, George Malone of Reno, Nevada, and George Malone of Louisiana; grandchildren and 23 great-grandchildren.

TRUCKS WORKED TWO WEEKS DURING JULY

The Texas Highway Patrol investigated two accidents on rural highways in Briscoe County during the month of July, according to Sergeant Vernon Cawthon, Highway Patrol Supervisor of this county.

These crashes resulted in no one killed and three persons injured.

The rural traffic accident summary for this county during the first seven months of 1971 shows a total of 17 accidents, resulting in no deaths and 16 persons injured.

The traffic fatality which occurred in Briscoe County last Friday was the first recorded in this county in more than a year and a half.

"Blue Angels" To Perform in Plainview Air Show Sunday

The 1971 Plainview Air Show will be highlighted August 29 with an appearance by the world famous "Blue Angels," official flight demonstration team of the U. S. Navy from Pensacola, Florida flying their famous diamond formation in the 1,600 mph McDonnell Douglas F4J Phantom Aircraft. The show officially begins on Saturday, August 28 with static displays of aircraft and aviation exhibits in the Hale County Agriculture Center from 4:00 until 11:00 p.m. The show moves to the Hale County Airport in Plainview on Sunday, August 29, with flying slated to start at 2:00 p.m. Joining the Blue Angels on Sunday in the show will be Van White of Lubbock in his clipped-wing piper cub, Roy Forrester of Amarillo in his Schweizer 1-26 Glider, Bobby Bishop of Alexandria, Minnesota in a Bellanca Super Viking, members of the Amarillo Radio-Control Model Club, and the U. S. Navy Exhibition Parachute Team from the Navy Special Warfare Group Pacific in Coronado, California. Flying the Navy Skydivers to Plainview will be the U. S. Marine Corps Air Reserve Training Squadron from Whidbey Island, Washington. Not to be outdone by the Navy, the U. S. Air Force will have on display a T-41, a T137 and a T-38, the three types of aircraft used by the 3500th Pilot Training Wing at Reese Air Force Base. Instructor Pilots will be on hand to answer questions by the public and to point out items of special interest on the aircraft. The Plainview Kiwanis Club is sponsoring the show for the fourth straight year, and expect a record-breaking crowd to see the exciting aerial show. Admission will be \$1.00 for adults and 50c for children 12 or under.

Class of 1959 Has Reunion Here

Class of 1959 of Silverton High School held a reunion on Saturday night, August 14, in the Pioneer Room at First State Bank.

There were 15 classmates present. One, Don McIntyre, traveled from Friend, Nebraska, to attend, and another, Mrs. Bob (Joy Ann Gatewood) Johnson came from Bethany, Oklahoma. Mrs. Loyd (Thelma Eddleman) Waters attended from Portales, New Mexico. Mrs. Len (Susan Anderson) Koslowski of Warren, Michigan, traveled the furthest (1260 miles) to attend, and won the traveling prize. Jerry Reynolds traveled the furthest in Texas, coming from Hitchcock.

Others present were Mr. and Mrs. Jerry Dee (Paula Reid) McWilliams of Snyder; Mr. and Mrs. J. E. (Mary Jane West) Patton, Mr. and Mrs. Doug (Elaine Stephens) Forbes, Mr. and Mrs. John Schott, Calvin Shelton, Mrs. Bill (Shirley Fitzgerald) Durham, Mr. and Mrs. Leo (Peggy Davis) Fleming, and Mr. and Mrs. W. D. (Peg-Hollingsworth) Rowell, all of Silverton.

Also attending were Mr. and Mrs. O. C. Rampley, sponsors of the class.

Mr. and Mrs. Sid Marshall and children of Austin spent the week end with Mr. and Mrs. Bryant Eddleman.

Mrs. Riely Yates is a patient in the intensive care unit at Northwest Texas Hospital in Amarillo.

Owls Scrimmage At Springlake Friday

Silverton's Owls will travel to Springlake for a football scrimmage at 6:30 p.m. Friday. Originally scheduled to be played here, the scrimmage was changed and will be at Springlake due to the condition of Silverton's football field.

The field was plowed and was resown to grass last spring, and it has not done very well this summer. School officials said they knew that a scrimmage on the field this week would tear loose a lot of grass runners that are just beginning to grow, and it was decided that a four-week rest would give the field a chance to improve.

Paul H. Bryan Buried at Plainview

Funeral services were conducted at 2:30 p.m. Monday in the First United Methodist Church Chapel in Plainview for Paul Henry Bryan, 79, with Pastor Mark Williams officiating. Burial was in Plainview Memorial Park.

Mr. Bryan, a long time employee of the City of Plainview and a lifetime resident of Plainview, apparently died in his sleep at his home and was taken to a city hospital where he was pronounced dead at 9:00 a.m. Saturday.

Information Center On Economic Actions Is County ASCS Office

All residents of Briscoe County may obtain answers to questions on operation and interpretation of the Presidential order of August 15 on prices, rents, wages and salaries from the Briscoe County Agricultural Stabilization and Conservation Service (ASCS) office, according to Louie Kitchens, chairman of the County ASCS Committee.

He first worked for the city in 1923 reading and repairing water meters and was promoted to assistant secretary about two years later.

In 1932 he was appointed city secretary and served in that capacity until 1945 when first elections were held for the office of Plainview City Secretary. He ran successfully and continued in the office, and served the City of Plainview until retiring in 1963 after 39 years with the municipal structure.

He had been in ill health since retirement.

Mr. Bryan was a graduate of Plainview High School and attended Seth Ward College.

Surviving are his widow; one daughter, Mrs. Joe Montague of Silverton; three sisters, Mrs. Betty Thornton, Miss Maxine Bryan and Miss Margaret Bryan, all of Compton, California; and one grandson, Paul Quinton Montague of Silverton.

The Briscoe County ASCS office is receiving official answers to questions concerning the President's action, and any person in Briscoe County who wants or needs precise information should get in touch with the County office.

The Briscoe County ASCS office's mailing address is Box 667, Silverton, Texas 79257. The telephone number is 823-4391. In charge of the office is James E. Griffin, County Executive Director. The office has a staff of four persons: P. John Monk, Anna Belle Tipton, Pauline Chitty and Elaine Purcell.

Ours and all ASCS offices across the nation will function as information centers in all locations outside of highly urbanized areas.

County ASCS offices are not to handle complaints or appeals. They will serve only to provide official information. Persons with complaints will register them with the most convenient district or sub-district office of the Internal Revenue Service.

Neither will interpretations or guesses be made by ASCS county office people. They will answer only those questions for which they have been supplied answers. If they don't know the answer to a specific question, they will say so. If a member of the public wants the county office to obtain an answer, the question will go by phone or mail to the nearest IRS district office.

Normal function of ASCS county offices is to administer farm action programs of the U. S. Department of Agriculture on the

local level, and ASCS services to farmers will continue without interruption.

The county office people welcome the opportunity to serve their country and are happy to make the extra effort in this crucial period.

Art Group Establishes Jim Whitfill Memorial

The memory of Jimmy Scott Whitfill has been honored with the establishment of an art scholarship established for a Rockport-Fulton School student.

Whitfill was first president of the Rockport Art Association, Inc., and a teacher in the Rockport-Fulton School System prior to his death. He was the son of Mr. and Mrs. Ben Whitfill, and the son-in-law of Mr. and Mrs. L. E. Paige.

RESOLUTION STATE OF TEXAS COUNTY OF ARANSAS

KNOW ALL MEN BY THESE PRESENTS: THAT, WHEREAS JIM WHITFILL, the first president and a charter member of the Rockport Art Association, Inc., was an outstanding Texas artist and officer of said association; and

WHEREAS, through the careful, cogent, gentle and dedicated leadership of JIM WHITFILL, said association has grown in strength, integrity and usefulness; and WHEREAS, said association feels deeply the loss of one of its charter members and its first president; and

WHEREAS, the association wishes to perpetuate its obligation to the said JIM WHITFILL so that forever hereinafter his contribution to art; his contribution to art; his community and specifically to the Rockport Art Association, Inc., will be remembered;

NOW THEREFORE BE IT RESOLVED that the Rockport Art Association, Inc., establish and fund for use in the year 1972, THE JIM WHITFILL MEMORIAL FUND, to consist of the following:

A. An Art Scholarship to be awarded to one graduating senior of each future graduating class of Rockport - Fulton High School, the same to be determined with the assistance of the personnel of such school and

B. An Art Scholarship to be awarded to a student of the Rockport - Fulton Elementary or Junior High Schools who is between the age of 7 and 13 years, and who would not otherwise be economically able to enroll in and participate in art classes of the Rockport Art Association, Inc., such student to be selected by a committee appointed from the membership of the Rockport Art Association, Inc., and

BE IT FURTHER RESOLVED, that the actions necessary to effectuate the resolution be begun

Missing Woman Found In Wrecked Auto

The body of Mrs. Lois McAnelly was found in her wrecked automobile in a ravine about 40 miles from Cuba, New Mexico, Tuesday afternoon.

A Navajo Indian woman and her children had a flat on the highway, and when the woman sent the children to get rocks to keep the car from rolling, they discovered Mrs. McAnelly's car in the ravine.

Mrs. McAnelly was last seen on March 30 when she left the home of her daughter in Farmington, New Mexico, enroute to her home in Ruidoso, New Mexico. She was driving alone in a late model automobile on which new tires had just been installed.

Search parties had combed the terrain between Farmington and Ruidoso by air and on the ground since the woman's disappearance to no avail. The car was so well hidden that it could not be seen from the roadway or from the air.

Mrs. McAnelly was the sister of Mrs. Tina Schott and Mrs. Lily Wofford, both of Silverton. Also surviving are two sons and two daughters.

Mrs. Riddell C. Hutsell and her daughter, Cindy, and Mrs. Tone Brooks visited in Sherman with Mr. and Mrs. Sam Lusk and Christi over the weekend. While there, Mrs. Hutsell and Cindy visited in Irving with Mr. and Mrs. James Tidwell, Nancy and Bill.

Mr. and Mrs. J. P. Cogdill and Mr. and Mrs. George Seaney attended the funeral of George's brother-in-law's mother, Mrs. Johnson, in Erick, Oklahoma last Thursday. Burial was in Tennessee.

Lisa Younger was winner of a Frisbee last Friday in a drawing at the News Office.

INSTANTLY and further that this resolution be caused to be spread upon the minutes of said association.

IN TESTIMONY WHEREOF, the Rockport Art Association, Inc., has caused this instrument to be executed this the 13th day of July, 1971.

YVONNE WENDELL, Secretary

Dove Hunters Need To Keep An Eye On Laws

Dove hunters who may have been busily unplugging their shotguns for the dove season had better take another look at the law, according to Texas Parks and Wildlife Department officials.

When the Parks and Wildlife Commission removed the three-shell limit on shotguns, they did it only for non-migratory birds such as quail and turkey.

Migratory birds, and these include both mourning and white-winged doves, can be legally hunted with shotguns only if the shotguns are permanently plugged to hold three shells. Other migratory birds in Texas are ducks, geese, brant, coots, rails, gallinules, jack-snipe, woodcock and sandhill cranes.

"We've had some reports that dove hunters are happily anticipating the coming dove season because they can do more shooting with unplugged guns," said James U. Cross, executive director of the department.

"These hunters have obviously misinterpreted the law," he said.

Mr. and Mrs. Theron Cross were in Plainview for his medical check up Tuesday morning. He received a good report.

Kerry Copeland of Fort Worth has recently spent two weeks with his grandparents, Mr. and Mrs. Doyle Stephens.

Y-H Chapter Installs New Slate of Officers

Officers for 1971-72 for the Silverton Young Homemakers were installed at the annual installation supper Thursday, August 19.

Mrs. Gordon Lowrey, a charter member of the club, was installing officer.

The slate of officers for the new club year includes Mrs. G. W. Chappell, president; Mrs. Joe Kitchens, first vice-president; Mrs. Dwain Henderson, second vice-president; Mrs. Fred Minyard, secretary; Mrs. Donald Perkins, treasurer; Mrs. Wayne Stephens, reporter, and Mrs. Tommy Perkins, historian.

To express appreciation for her year of service as president of the chapter, Mrs. G. W. Chappell, on behalf of the club, presented a gown and robe set to Mrs. Donald Perkins. Mrs. Perkins presented each of the officers who served with her during the past year a special year pin.

The results of the rodeo concession stands were discussed. It was announced that the birthday-activity calendars had arrived and will be delivered in the near future.

Members attending were Mrs. G. W. Chappell, Mrs. Joe Kitchens, Mrs. Fred Minyard, Mrs. Donald Perkins, Mrs. Dwain Henderson, Mrs. Tommy Perkins, Mrs. Gordon Lowrey, Mrs. Wayne Stephens, Miss Rhonda Sweek and the 1971 Young Homemaker Queen, Susie Parker.

1971-72 Young Homemakers officers were recently pictured with Superintendent O. C. Rampley in front of Silverton's new junior high school. Landscaping the flower boxes, one of which is shown in the background, has been a project of the Silverton Young Homemakers. The officers of the Chapter are Mrs. Dwain Henderson, Mrs. Wayne Stephens, Mrs. Donald Perkins, Mrs. Joe Kitchens, Mrs. Fred Minyard, Mrs. G. W. Chappell, and (not pictured) Mrs. Tommy Perkins. Sights On Safety

by UL Public Information Office

Boating Safety Begins With: Life Vests

No craft should ever be without the proper number of life vests (one per person). Since it is generally unfeasible to test the flotation ability of the vest before you buy, you must look to another method for assurance in the vest's ability to do its job.

Simple—just make sure all vests have the Underwriters' Laboratories and the USCG labels—proof they meet specific safety standards.

Extinguishers

Always be prepared for a fire emergency by having the proper marine-type, UL and USCG labeled extinguishers aboard. For your purposes you should have either multi-purpose dry chemical or CO2 extinguishers.

Marine Electrical Equipment

If and when you must replace any electrical equipment always use those that bear the UL label. It means they have been safety tested for

Fuel Equipment

Essential to a boat's operation, fuel system components such as filters, pumps, fuel line fittings, valves and tanks should all be "safety tested in order that a malfunction does not create a fire hazard." Bear the UL label.

ROTC Is Unique Way Of Life For Students

ROTC is in reality a unique way of life. ROTC cadets are faced with challenges not experienced by other college students. They have the rare opportunity to match skills with others while learning to cooperate, associate and depend upon others they work with. They develop leadership by subjecting themselves to physical and social risk. ROTC is extremely important in developing personality and the ability to think under pressure. Cadets

individual instruments and diversified, correlated materials for each student, the new method is developed to make it possible for each student to gain maximum results at his own individual rate.

Reading 113 - Developmental Reading is designed to help the student increase his vocabulary, comprehension and reading speed.

The class meets on Monday evenings from 6:30 to 9:45 in Room 35 of the James W. Dillard Library. Evening students are scheduled to register on August 26 from 6:30 to 7:30 p.m. in the library. Classes begin on Monday, August 30, 1971.

Adjustment To Be Made In Price Of Irrigation Gas

AMARILLO, Tex. — An adjustment in the price of natural gas used for irrigation engines will become effective October 1, 1971, for irrigation farmers served by Pioneer Natural Gas Company according to an announcement made by K. B. Watson, executive vice president.

In discussing the change, Watson said, "This is the first rate increase to irrigation customers since 1961. During this 10-year period the cost of purchasing gas and the expense of transporting the gas throughout the system have steadily increased." As an example, Watson pointed out, "The average cost of gas purchased for the West Texas system in

READING 113 IS POPULAR EVENING COURSE AT FPC

A very popular evening course at Frank Phillips College is Reading 113. Many adults know their need for improvement in reading. This course is taken by housewives, business and professional people, as well as college students. College instructors recognize the need for a developmental reading program offered on a voluntary basis. Frank Phillips College is providing a most adequate and versatile laboratory approach for reading improvement. Using

1960 was 14.7c per 1,000 cubic feet (MCF). By last year, this cost had increased to 17.7c per MCF."

An additional point made in the discussion of this irrigation rate increase was that, because of the nationwide energy crisis, it is becoming more and more difficult and expensive for Pioneer to maintain adequate sources of gas to serve irrigation customers.

The revised irrigation rate parallels the current West Texas General Service Rate (the rate charged to other than irrigation or industrial customers) for the first 50 MCF used per month and reflects an increase of 3c per MCF for all additional usage. This 3c figure matches the increase in the amount being paid for gas by Pioneer since the last irrigation rate change in 1961. The irrigation rate will be adjusted in April of each year based on the purchase price of gas for the previous year, in the same manner as applied to the West Texas General Service Rate. The new rate will amount to an average increase of less than 13%.

Letters detailing the adjustment and tariff sheets reflecting the new rate have been mailed to irrigation customers on the Pioneer system.

WOMEN PAST 21 WITH BLADDER IRRITATION Suffer Many Troubles

After 21, common Kidney or Bladder Irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondly, you may lose sleep and suffer from Headaches, Backache and feel old, tired, depressed. In such irritation, CYSTEX usually brings fast, relaxing comfort by curbing irritating germs in strong acid urine and by analgesic pain relief. Get CYSTEX at drugists. See how fast it can help you.

"Those who expect to reap the blessings of freedom must undergo the fatigue of supporting it."

Thomas Paine Sept. 12, 1777

Hear no evil; Speak no evil; See no evil

This is the creed of the indifferent American. We hear his voice around us every day, admonishing "Don't get involved."

Our nation was founded by concerned people who believe in liberty and justice for all. The result of their firm belief is The United States of America. Just as our independence was gained by those who were concerned for themselves and each other, it can be lost by those who close their eyes and their minds to injustice. Can we afford to take that chance?

Let's all get involved with our country. **SUPPORT AMERICA!**

© Coleman Advertising Serv.,
2653 Tarna Drive
Dallas, Texas 75229

Our priceless heritage embodied in the flag of the United States, is as alive today as it was when written for the ages in the Declaration of Independence and the Constitution. It stands for all the world to see and for all Americans to cherish. And in the tradition of Washington, Jefferson, and Hamilton, we, too, have a privilege, a right, and a duty. While we may disagree as to the methods, we should not disagree as to the goal - that of preserving the greatest democratic society the world has ever known.

Our flag is a symbol, not of sentiment, but of history, the history of men and women willing to live and die for it. Surely this willingness is with us still, because daily we experience more of the blessings that are ours - ours because we are Americans.

MR. AND MRS. GABE GARRISON
 ☆ ☆ ☆ ☆ ☆ ☆ ☆ ☆ ☆ ☆
Gabe Garrisons Have Open House

The children of Mr. and Mrs. Gabe Garrison hosted an open house in honor of the couple's 60th wedding anniversary on Sunday, August 22.

A Tree of Life, featuring pictures of all 61 Garrisons, was presented to the couple as a gift from their children.

Green punch, cake squares, nuts and mints were served from a table covered with a cream-colored crocheted cloth over pale green. In the center of the table was an arch over the wedding pictures made sixty years ago and the anniversary pictures made ten years ago.

Granddaughters and granddaughters-in-law registered more than 125 guests and served refreshments.

Friends and relatives called between the hours of 2:00 and 5:00 p.m.

Among those attending from out of town were Bill and Ray Jones, Wichita Falls; Mr. and Mrs. Bud Afford, Roy Garrison, Mr. and Mrs. Joe Fisher, Mr. and Mrs.

Chuck Saul and family, Mrs. Ada Eads, Lubbock; Mr. and Mrs. W. H. Steen, Mrs. Edwin Hanna, Dr. and Mrs. Max Garrison and sons, Mr. R. M. Morris and Mrs. C. C. Garrison, Plainview; Mr. and Mrs. Vernon Garrison, Cliff Garrison, Mr. and Mrs. Tom Garrison and children, Tullia; Mr. and Mrs. LeRoy Saul, Kress; Mrs. Lillie Sea, Mrs. Lena Fisher, Mrs. Bernice Daffern and Mrs. Eugenia Barton, Matador;

Also, Mr. and Mrs. Furman Vinson, Mr. and Mrs. Clayton Bonds, Mr. and Mrs. Luther Turner, Flo-mot; Mrs. Dale Smith and daughters, Mr. Scott Bolton, Quitaque; Mr. and Mrs. Bud Simpson, Tell; Mrs. Irene Brown and Finis Brown, Adrian; Guy Garrison, Floydada; Mr. and Mrs. Frank Watson, Hereford; Mrs. Raye Smith, Bryan; Mr. and Mrs. Elmer White and children, Portales, New Mexico; Mr. and Mrs. Wey-mon Saul and children, Austin; Dr. and Mrs. Chuck Kolb, Taft; and Mr. and Mrs. Ned Thomas, Sherman.

Y-F Chapter Has Called Meeting

A special called meeting of the Silvertown Young Farmers was held Thursday night, August 19, at 8:00 p.m. in the ag building for the purpose of working up a report of accomplishments to be judged at the Area Convention to be held at Muleshoe, and also at the State Convention in San Antonio if it wins at Area.

Young Farmers attending were Dwain Henderson, Tobe Riddell, Wayne Stephens, Calvin Shelton, Donald Perkins, Fred Minyard, G. W. Chappell, Charlie Parker, Robert Hill and Monroe Gates, advisor.

Rampley Serving At Fort Lewis

Army Private Wayne A. Rampley, 23, son of Mr. and Mrs. O. C. Rampley of Silvertown, arrived at Fort Lewis, Washington recently to begin eight weeks of basic training at the U. S. Army Infantry Training Center.

He will receive instruction in drill and ceremonies, weapons, map reading, combat tactics, military courtesy, military justice, first aid, and army history and traditions.

Pvt. Rampley is scheduled to complete basic training September 17.

His wife, Pam, and his son live in Tullia.

The Private received his BS degree in 1971 from Southwestern State College, Weatherford, Oklahoma.

Ted Hester recently underwent ear surgery at Methodist Hospital in Lubbock. He has also recently undergone nose surgery.

News From The Extension Service

by Jackie Johnson
 Briscoe County Agent
 Cool, Rainy Weather Hampers Cotton Production

The cool, wet weather has improved yield prospects in grain sorghum, but cotton production has been slowed considerably due to reduced fruiting and stimulated vegetable growth.

Some maturity time has been lost since August 1 that can never be completely recovered. The prolonged cool, rainy spell will have some important effects on cotton the remainder of the season.

First, vegetable or top growth will take place at the expense of fruit development. The thick canopy of leaves that prevents sunlight getting to the lower parts of the plant will cause many young bolls to shed and slow down the development of bolls which have set near the bottom of the plant.

Excessive shedding of squares and young bolls can also be expected after a prolonged, cloudy period. Shedding of small bolls usually occurs three to ten days after white bloom but the completion of the shedding process is slowed by low temperature and may not be too evident until the temperature rises again. Bolls that are ten days old or older will seldom shed. Rapid vegetable growth usually follows excessive fruit shed.

Producers can expect to see an increase in the wilt diseases since weather conditions have been ideal for infection to develop during the last two weeks. Symptoms will become more evident as warmer weather returns and plants are subject to greater moisture stress.

With normal or higher temperatures and normal freeze date, much of our cotton has an opportunity to make good yields of acceptable quality fiber. Producers in the county are encouraged to carry out early irrigation cut-off and give careful attention to proper insect control programs. Producers should consider herbicides for layby weed control rather than mechanical cultivation. Frequently, root pruning from tillage increases fruit shed and wilt disease. So in view of our present maturity situation, this year's crop will demand our best management during the short time remaining before frost.

days of conflicting reports, issued a proclamation instructing agency heads to ignore the August 15 order against pay raises for teachers and state workers. Raises were authorized by the Legislature long ago and funds appropriated for the new budget beginning September 1.

U. S. Office of Emergency Preparedness official first informed the Governor's office that the freeze did not apply to local and state government employees and teachers.

But 24 hours later, the President's Cost of Living Council headed by former Texas Gov. John Connally, now U. S. Treasury Secretary, reversed this position. Council held that state and local government workers were subject to the 90-day freeze, and teachers could get raises only if their contract periods began before August 15.

Texas officials had taken the stand that the law authorizing present salary levels for 95,000 state employees and 138,000 teachers expires August 31, and they had no authority but to put new wage scales ordered by the Legislature into effect after that.

"I am refusing to obey the President's order to scrap our appropriations bill, which was signed into law months ago," said Smith. "Texas is going to obey the laws of the 62nd Legislature."

In his official proclamation, the Governor accepted "full responsibility" for his order of federal defiance.

Governor further blasted the federal government for issuing

"two conflicting sets of orders on every vital issue."

Smith's directive means the 6.8 per cent raise for state employees will go into effect September 1, and teachers will get their long-range increase approved by the Legislature two years ago.

At the same time, tax and college tuition raises also will go into effect. Scheduled auto insurance rate boost has been postponed until after the 90-day freeze, as has consideration of freight rate increases.

"SCANDAL" HEARINGS HELD
 House General Investigating Committee held the opening round in its hearings on stock-loan scandals involving high state officials.

Frank W. Sharp, one-time head of Sharpstown State Bank and National Bankers Life Insurance Company, was the star witness. He told Committee members he and House Speaker Gus Mutscher had a "tacit understanding" that there was a link between stock purchases in NBL by the speaker and passage of banking bills favored by Sharp in 1969.

Speaker Mutscher borrowed money from the Sharpstown Bank to buy the stock, as did a few other state officials including Governor Smith.

Sharp denied, however, he ever gave anything of value to a state official in exchange for a political favor.

Former Atty. Gen. Waggoner Carr, appearing before the Committee, called the federal Securities and Exchange Commission investigation of stock-loan transactions a Republican-inspired political "hatchet job."

OIL ALLOWABLE CUT

For the fifth month running, Texas Railroad Commission ordered a reduction in statewide oil allowable, fixing it at 65.1% potential for September.

Figure is the lowest since August, 1970, when it dropped to 62.9%.

September allowable, down slightly from 66.2% for August, will permit a 3,350,493-barrel-per-day production maximum flow, 45,264 less than the present top.

Nominations by crude oil buyers for next month totalled 3,218,430 barrels daily. That is 24,032 less than August figures.

Only one major producer, Shell, asked more oil in September. Ten asked the same allowable, and three wanted less.

The width of United States ships is determined by the Panama Canal, and the height by the Brooklyn Bridge.

Automatic Fish Scaler Called "Rock-It"

Now you can scale up to 50 fish at one time—automatically—simply taking a short boat trip. Just tow the new Rock-It.

Automatic Fish Scaler behind boat for a couple of hundred fish on your way to the landing. THAT'S ALL—and it complete.

The Rock-It, they are scaled and then carried ashore—eliminating any other handling from hook to home.

OUTDOORS IN TEXAS

BY VERN SANFORD

Confidence helps you catch fish. Maybe it's the "power of positive thinking". But, whatever it is, it works.

A man who is bored or really isn't expecting a strike seldom lands a lunker.

It's true that many a man has caught a fish when he least expected it—when lighting a cigarette, looking the other way, or talking to a buddy. More than likely the reason for his surprising success is in the change of pace in his fishing.

Chances are he had been erratic in his fishing methods. Or fishing too fast. When he turned his attention elsewhere, he forgot his lure and quit thrashing it around in the water. He was actually giving the fish its first appealing look at his lure.

This man can thank our expert lure manufacturers for his catch—for the strike was not due to the angler's skill but largely to the built-in attractiveness of the lure.

There's no doubt in my mind that the most successful angler is the fisherman who is really enthusiastic, who sincerely believes that every minute his lure is in the water a whopper is looking at it trying to decide whether or not to gobble it up. Usually, the intent, enthusiastic angler is by far the better fisherman—all other things being equal.

This enthusiasm comes to fishermen in various ways and for various reasons. Some are just naturally enthusiastic about everything. Others get pepped up because they have been so successful in fishing in the past they actually seem to think that fish are

everywhere at all times. Others are enthusiastic about a particular spot where they have had good luck before. Their favorite spot remains their favorite for one good reason—they fish it better. They're enthused over it. They know they can catch fish there because they have done it before and they have full confidence that they can do it again.

Too often we are "doubting Thomases". We feel the fish must have moved on to greener pastures. This doesn't mean we won't catch any fish... simply that we can catch more with positive thinking.

Just how does one acquire this confidence, if it doesn't come naturally? Generally, by concentrated effort. Many anglers don't like to concentrate because it boils down to just plain work. Most people fish for fun and don't want to make work out of their fun.

You should watch some of the professional fishermen. Those who make their living selling fish... or those who sell fishing lures and equipment... or by observing the fishing guides. Those fellows take fishing seriously. They work hard at it all day long, day after day. They catch lots of fish. They concentrate on what they are doing. They plan every cast. And they react the instant a fish strikes. They will bring a fish to boat while the average angler is still toying with his catch.

But how does the average fisherman get this confidence, this positive attitude? Of course, one way is to start catching fish. This not only gives you confidence that the fish are there but also that you have the ability to bring them in.

New Hunting Guides To Be Available Soon

Bundles of the new "Texas Hunting Guide, 1971-72" are now being shipped and will be available to hunters by the end of August at Texas Parks and Wildlife Department offices and license agents across the state.

The accordion-fold publication is printed in black, blue and gold, and contains not only summaries of game laws but also five Texas maps which show county-by-county the seasons and bag limits for deer, turkey, javelina, squirrel and the special October archery season. A one-page sheet detailing the mourning and white-winged dove seasons is also being sent to the department's game management officers and those baithouses, camps, marinas and sporting goods stores where hunting licenses are sold.

Two other supplements to the guide will be available by mid-October, added James U. Cross, executive director. They are guides to quail regulations, which have not yet been adopted by the Parks and Wildlife Commission pending field studies of the bird situation; migratory game bird seasons, and regulations for counties placed under commission regulatory authority by acts of the 62nd Legislature.

Receipt of the first hunting guides in Austin by mid-August was the earliest in the history of the present-day department which was reorganized in 1963. Cross explained that a strict production schedule has been kept and that distribution has also been planned ahead so that hunters may have the publication well before the coming hunting season.

The fish tumble inside the cylinder, they are sealed by scraping against the expanded steel mesh and shuffling against each other. The water, jetting through the nose inlets, washes out the scales and slime—leaving only clean fish.

Fully guaranteed. Available from Regent House, Suite 8C, 725 Riverside Drive, New York, New York 10031. \$16.85, postpaid.

BRISCOE COUNTY NEWS

You can't live on love forever.

Okay, you're young. You've got all the love in the world and you're doing your best to live on it. Retirement? That's for when you're old, right?

It's for when you're old if you can afford it.

The kind of retirement you're after isn't the typical rocking-away-on-the-front-porch variety. You probably picture yourself taking extended vacations, pursuing hobbies, or buying that forty acres and living off the land. Pipe dreams? Not if you prepare now.

There's an easy, painless way to make your retirement dreams a reality. Join the Payroll Savings Plan where you work. That way, an amount you specify will be set aside from each paycheck and used to buy U.S. Savings Bonds. It's an easy way to save.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ¼%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

Now is the time to start saving. Money's a nice thing to have while you're living on love forever.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a good way to save.

Take stock in America.

State Capital NEWS

by Bill Boykin
Texas Press Association

AUSTIN, Tex.—Legislative Redistricting Board will meet here August 24 to begin consideration of state senatorial reapportionment.

Shortly after the Board announced its meeting date, Gov. Preston Smith issued a sharply worded statement calling on the Board to forget "political considerations" and start work on a House of Representative redistricting bill also.

Smith noted the fact that Atty. Gen. Crawford Martin's appealing a district court decision invalidating the 1971 legislative act which attempted to reapportion the House does not preclude the Board from preparing for any eventuality.

Supreme Court of Texas, Governor noted, may uphold or overturn the district court's August 2 decision that the Legislature illegally divided more than 20 counties. In either case, he said, the

Board should be prepared with a House as well as a Senate reapportionment plan to avoid the need for a "million dollar" special session of the Legislature.

Lt. Gov. Ben Barnes, a member of the Legislative Redistricting Board, expressed surprise at Smith's blast. He said the Board made no decision not to consider House redistricting and, indeed, has not even discussed the issue.

Board has just 60 days to draw the reapportionment after its initial meeting which means its lifespan expires in late October.

State Supreme Court Chief Justice Robert W. Calvert said the Court will meet within 48 hours after receiving a request for an appeal hearing and can reach a decision in 10 days or less.

Attorney General Martin said a transcript of the lower court proceedings is being speeded to completion and can be placed before the Supreme Court within another week.

AUTO INSURANCE RATE CURB ASKED

Governor last week called on the State Board of Insurance to permit no increases in auto coverage rates this year.

He summoned three members of that agency to his office to hear his proposal.

Board is due to meet this month to review requests of insurance companies for increases totalling almost 10% on all types of auto insurance. Board staff members have proposed a modest 2.8% average hike effective September 1.

Governor asked the Board to begin study immediately of no-fault insurance plans with a view toward adopting one for Texas. He said Massachusetts achieved a

Arthritis Sufferers:

WAKE UP WITHOUT ALL THAT STIFFNESS!

New formula for arthritis minor pain is so strong you can take it less often and still wake up in the morning without all the pain's stiffness. Yet so gentle you can take this tablet on an empty stomach. It's called *Arthritis Pain Formula*. Get hours of relief. Ask for *Arthritis Pain Formula*, by the makers of *Anacin* analgesic tablets.

substantial reduction in auto insurance rates under its no-fault concept.

Smith also urged the Board to study the feasibility of establishing a flexible and competitive insurance rating system in an effort to reduce rates.

"We are confident that a suitable alternative to the ever-rising rates could be found—if the insurance industry and the agencies of state government wish to find them," said Smith.

WATER BONDS SOLD

A Chicago firm was low bidder on a \$25 million Texas Water Development Bond issue to help build or improve sewage treatment facilities.

Issue was the first step in a \$100 million program authorized by voters May 18 for loans to cities, towns, river authorities and water districts. State loans make political subdivisions eligible for increased grants from federal government for water quality improvement.

Board said it expects 40 or 50 applications for assistance by October 1. It will act on the first ones at its meeting here September 16-17.

Local units can borrow 25% of cost of a sewage treatment project from the state. Federal government will provide 50 to 55% of the cost where a state program exists.

Halsey, Stuart and Co., Inc. and Associates bid effective interest rate of 4.9533% for the issue.

AG OPINIONS

Attorney General Martin said in a recent opinion that Texas cities and counties may charge beverage cartage permit holders and local distributor permit holders additional liquor fees.

In other recent opinions, Martin concluded:

★Justices of Peace must take a 40-hour course of instruction determined by state-supported accredited institutions of higher learning in performance of their duties unless they are licensed attorneys.

★State departments may pay premiums on group insurance policies for regular, part-time and temporary seasonal employees.

★Non-elective state officers or appointees who accept other non-conflicting state positions of honor, trust or profit must receive clearance of their agency heads.

★Bell County court at law has jurisdiction in eminent domain and probate matters, and vacancy in judgeship would not change jurisdiction.

★A sheriff has no authority to release prisoners in his custody

prior to expiration of sentences imposed and may be compelled to re-arrest prematurely-released prisoners.

18-20 YEAR OLD VOTE RULE CHANGED

Voter registration has, in effect, been reopened for newly-enfranchised 18-20-year olds to permit them to sign up at any time prior to March 1, 1972, close of the voting year.

County registrars have been instructed to accept applications from 17, 18, 19 and 20-year olds, with registration certificates to be effective for any election held 30 days or more afterward. Young voters who failed to register during the registration period which ended February 28 may now present their applications to tax assessor-collector either in person or by mail.

They must sign up again October 1 or thereafter to remain eligible to vote in elections beyond March 1, 1972.

VOTE MACHINE SALE HALTED

Secretary of State Martin Dies, Jr., Texas chief election officer, announced a temporary halt in voting machine sales over the state.

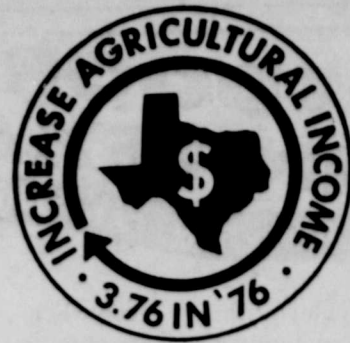

Dies said a survey indicated certain equipment has been discontinued and other machines have not been inspected by the state for many years.

While electronic or punch card voting devices are also being reviewed, Dies said temporary suspension of sales applies only to voting machines. Review of voting machines offered for sale will take "very little time" if companies cooperate, he added.

TIGHT WELFARE CONTROLS ADVISED

New State Welfare Commissioner Raymond W. Vowell, in meetings with field workers, is urging tighter controls on welfare case-loads.

He also is calling for greater effort at detection and elimination of fraud in claims and limitations on Texas' Medicaid Program. Vowell has been visiting 17 regional offices of the Welfare Department in a two-week swing.

News From The Extension Service

Livestock owners need to record all livestock brands and marks with the county clerk's office after August 30, according to the new brand law passed in the last session of the Texas Legislature.

Under the new law all brands now recorded will expire six months after the effective date of September 1.

This means that persons now using a registered brand or mark must register within this six-month period (September 1, 1971 through February 29, 1972). After this time any unrecorded brand becomes available on a "first-come" basis. The brands and marks must be recorded every 10 years.

Periodic re-registrations are enacted to clear the records of brands no longer being used.

4-H HORSE CLUB HOLDS TRAIL RIDE, PICNIC

The Briscoe County 4-H Horse Club held its annual end of the year Trailride and Picnic on Saturday, August 7. The event was held at the Johnnie Burson place northeast of town and below the caprock.

The Trailride began at 3:30 p.m. with some 30 riders. The family picnic was a hamburger cookout held beside a lake on the ranch. The lake had recently increased in size due to some very welcome rains and provided fishing and swimming facilities for all those attending.

There were several of the over-eager leaders who were lucky to go swimming fully dressed. There

were many exciting events during the day, including seeing a nice-sized rattlesnake swimming across the lake. Thanks to the sharp eye of Joe Lee Bomar, it was quickly disposed of. Just as everyone was leaving a welcome rain began falling again. Fortunately everyone reached the paved road in time.

The 4-H Horse Club would like to offer sincere thanks to all parents, volunteer leaders and business people who have contributed so much to the successful year that the club has had.

★
The 4-H Horse Club won a first-

WE CALL IT A Hideaway Water Heater but not because we're ashamed of it.

Electric water heaters have no flues... don't need to be vented to the outside of the home. And this gives them a hideaway story all their own. They can be installed anywhere... in the bath, in the kitchen... hidden away where a great part of the hot water action is... even in the laundry. Ask us about electric water heating for your home.

We sell, service, guarantee, install and finance electric water heaters.

ELECTRICITY... IT DOES SO MUCH GOOD FOR SO MANY PEOPLE!

AMERICA THE BEAUTIFUL

America is a proud nation. Among our many assets, we take pride in the beauty of our surroundings. Most of us are aware of the increasing difficulties we are experiencing with pollution in our streams and untidy accumulations of rubbish in both our urban areas and countryside. We must now become increasingly aware of the controls we can exercise individually.

We can make a personal and conscious effort to see that used and discarded articles are properly disposed of, rather than strewn about our streets and highways. We can support the officials who promote reasonable and economically practical means of suppressing pollution. We can all remind ourselves and each other—this is OUR country. Let's do our part to keep it AMERICA THE BEAUTIFUL.

Our priceless heritage embodied in the flag of the United States, is as alive today as it was when written for the ages in the Declaration of Independence and the Constitution. It stands for all the world to see and for all Americans to cherish. And in the tradition of Washington, Jefferson, and Hamilton, we, too, have a privilege, a right, and a duty. While we may disagree as to the methods, we should not disagree as to the goal—that of preserving the greatest democratic society the world has ever known.

Our flag is a symbol, not of sentiment, but of history, the history of men and women willing to live and die for it. Surely this willingness is with us still, because daily we experience more of the blessings that are ours—ours because we are Americans.

First State Bank

Bridge over troubled waters.

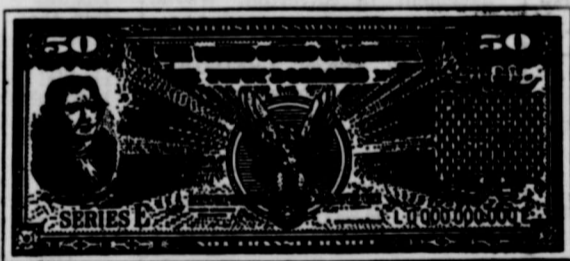

It's easy to forget that emergencies *do* happen. And when there is a crisis, you'll need a nest egg to fall back on.

The Payroll Savings Plan is one of the easiest ways to make sure you've something saved for when you need money fast. When you participate in the Payroll Savings Plan where you work, an amount you designate will be set aside from each paycheck and invested in U.S. Savings Bonds. It's an effortless way to build up a reserve.

And now there's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ½%, payable as a bonus at maturity, applies to all

Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.

Let's hope there are no troubled waters in your future. But remember, emergencies don't always happen to the other guys.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America.

Now Bonds pay a bonus at maturity.

CARD OF THANKS

Our thanks to all who came to our open house, sent cards and letters to us on our sixtieth wedding anniversary. May God's richest blessings be with you. Gabe and Susie Garrison

The Silvertown Young Farmers would like to take this opportunity to thank everyone who helped to make the rodeo such a success.

Thanks go to Silvertown Riding Club, City Merchants, 4-H Club, Fire Department, the queen candidates, and all who helped with the parade, barbecue and rodeo. Thanks also to the Silvertown Young Homemakers for operating the concession stands. Without help from these, the Silvertown Young Farmer Rodeo wouldn't have been what it was. Attendance was better at the 1971 Rodeo than it was at the one held in 1970. Thanks again. Silvertown Young Farmers

I want to express my sincere thanks to all my wonderful friends for the nice cards, flowers, visits and prayers during my stay in the hospital. Maud McJimsey

Thank you for the kindness extended in cards and telephone calls during the trying times in the death of our loved one. Mrs. M. F. Breedlove and family

NOTICE

EQUALIZATION BOARD TO MEET HERE SEPTEMBER 9 The Board of Equalization for the Mackenzie Municipal Water Authority will meet from 2:00 until 3:30 p.m. September 9, 1971 at the City Hall in Silvertown.

Helps Shrink Swelling Of Hemorrhoidal Tissues

caused by inflammation Doctors have found a medication that in many cases gives prompt, temporary relief from pain and burning itch in hemorrhoidal tissues. Then it actually helps shrink swelling of these tissues caused by inflammation. The answer is Preparation H. No prescription is needed for Preparation H. Ointment or suppositories.

Freezone is for corns that hurt. Absolutely painless. No dangerous cutting, no ugly pads or plasters. In days, Freezone eases the hurt... safely helps ease off the corn. Drop on Freezone - take off corns.

Stomach Upset by Gas and Acid?

Di-Gel with Simethicone quickly relieves gassy-acid upset. This unique discovery breaks up and removes painful gas-bubbles. Your relief is more complete because Di-Gel takes the acid and the gas out of acid indigestion. When you eat too well, demand Di-Gel. Tablets, liquid. Product of Plough, Inc.

Arthritis Sufferers: WAKE UP WITHOUT ALL THAT STIFFNESS!

New formula for arthritis minor pain is so strong you can take it less often and still wake up in the morning without all the pain's stiffness. Yet so gentle you can take this tablet on an empty stomach. It's called Arthritis Pain Formula. Get hours of relief. Ask for Arthritis Pain Formula, by the makers of Anacin analgesic tablets.

President's Action Will Help Farmers, Says Clifford Hardin

WASHINGTON, August 16 - "American farmers stand to benefit from the actions announced by the President to combat inflation, to spur the competitiveness of the U. S. economy, and to improve our foreign trade and monetary position," Secretary of Agriculture Clifford M. Hardin said tonight.

"Farmers will benefit by the actions taken to fight inflation. The cost-price squeeze is the number one problem facing American farmers. Therefore, we strongly welcome the actions taken.

"Secondly, the steps announced to spur investment in equipment and to reduce taxes are designed to bolster our own domestic economy and make jobs. These will provide stronger markets for our own producers.

"Finally, the action taken to impose a temporary surcharge on imports and the withdrawal of gold support from the dollar are comparable to what other countries have done in similar balance-of-payments situations and, as anyone concerned with agriculture knows, the use of variable levies by some countries to protect agriculture systems constitutes permanent border protection which should be of far greater concern to the world than temporary surcharges.

"I hope that as our friends abroad digest this series of actions they will recognize that the President is saying that all of us need to find better solutions to our trade and international monetary problems. Obviously, American agriculture could make a much stronger contribution than it already has to our balance-of-payments problem if other countries of the world would admit more of our farm goods."

Self-Installation of TV Aerial Can Be Deadly

Many reasons prevail as to why people attempt to install their own television aerial. Unfortunately, the majority of these people are too unskilled and their resulting carelessness often leads to instant death due to electrocution.

According to Underwriters' Laboratories, a not-for-profit organization testing for public safety, power lines probably offer the most significant hazard to the novice intent on installing his own antenna. If the antenna makes the slightest contact with one of these deadly lines, there may be no second chance to think about what was done wrong. Even a qualified technician is apt to make that fatal mistake, so if you are a novice use all possible caution, but preferably, use a technician who knows what he is doing.

Once installed, every antenna must be well grounded in strict accordance with National Electrical Code. This code calls for metallic connections to run at least 8 feet into the ground.

Surprisingly, a vast number of persons still believe a television antenna acts as a lightning rod and protects the house. These people couldn't be more wrong. Being the highest point on a house, the antenna

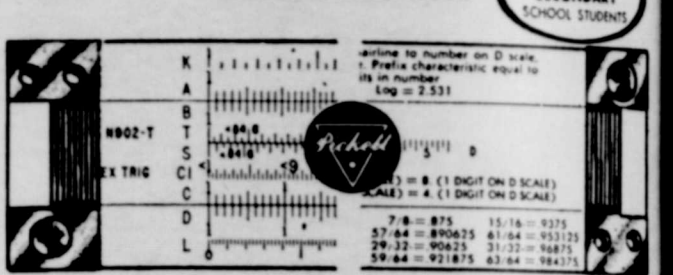

does attract lightning bolts, but without a proper ground, a charge can sidle down and cause a fire or blow-off part of the roof, siding or chimney.

The two lead-in wires should also be grounded through a device called an antenna discharge unit. This unit serves to reduce current leakage into the set and secondly, it eliminates the static electric charges which build up on the antenna.

Many people believe that appliances should not be touched during an electrical storm. They are half-right, for lightning charges are capable of entering appliances through power lines, and to prevent this entrance, a device called a lightning protector is used. Such a device serves to bypass the charges to earth ground, thus preventing them from entering the wiring system in the home. But beware, a protector is not 100% guaranteed and current could manage to leak through. All in all, it's wise to refrain from touching any appliance while lightning persists.

If you must install your own antenna, remember these two basic things which may save your life: Stay away from power lines, and always use a proper ground for antenna and lead-in wires.
