... The first principle of society is to guarantee everyone a free exercise of his enterprise, and possession of the fruits honestly acquired by that enterprise."-Thomas Jefferson

A direct alternative would be to assign occupations regardless of personal preference and divide wages equally, removing the incentive of competition.

Let's consider how lucky we are to be Americans, free to choose the job we consider most satisfying; knowing the rewards will be the direct result of our personal ambitions and efforts.

Free enterprise is the foundation of our prosperity. Only by protecting our country can we protect the independent way of life on which it was built. SUP-PORT AMERICA!

Our priceless heritage embodied in the flag of the United States, is as alive today as it was when written for the ages in the Declaration of Independence and the Constitution. It stands for all the world to see and for all Americans to cherish. And in the tradition of Washington, Jefferson, and Hamilton, we, too, have a privilege, a right, and a duty. While we may disagree as to the methods, we should not disagree as to the goal — that SUPPORT of preserving the greatest democratic society the world has ever known.

Our flag is a symbol, not of sentiment, but of history, the history of men and women willing to live and die for it. Surely this willingness is with us still, because daily we experience more of the blessings that are ours - ours because we are Americans.
