A move to worship GOD in His HOUSE is a

MOVE in the **RIGHT DIRECTION**

To attend Church is the first step in finding God. To attend regularly is to continue in the right direction, and gives one an opportunity to understand God's will in his life. Now is the time to make your move. Choose the way that will lead you to God. Attend Church

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
