# Tuesday Is General Election Day

**All Around the Town**  
 by Mary Ann Sarech

When I voted in the Democratic Primary last spring, I pledged myself to support the nominees of my Party's Primary. Even though many voters take this pledge lightly, everyone who votes in the Republican Primary pledges himself to support that Party's nominees and everyone who voted in the Democratic Primary pledges his support to his Party's nominees.

The political situation in America today is too serious for anyone to take lightly. As I see it, it is of utmost importance for the Democrats to go to the polls on November 5, 1974 and see to it that their Democratic nominees are elected.

Republicans are saying on television and other media that many Democrats will not go to the polls to vote in the General Election on November 5, because, in many cases, the Democrats nominated are the same as elected (especially on the local levels) if they don't have opponents on the ballot who have been nominated by the other parties.

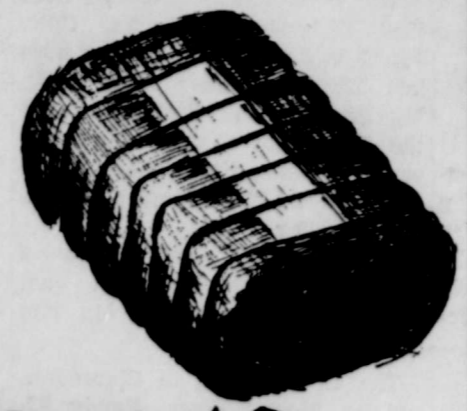

I notice that more and more of the Republican candidates are not putting in their advertising which Party they represent. Some of them are even saying that Party labels aren't really important—that you should vote for the individual and not the Party. Well, folks, we have proof in Washington, D. C. that this is a lot of hogwash. President Nixon has left the White House, and President Ford is sitting in the Oval Office today, but that has not changed the Republican policies one little bit. Mr. Butz is still running things his way in the Department of Agriculture, apparently with Mr. Ford's approval. And we all know that our Congressman, Bob Price, is a rubber-stamp or "yes-man" for whatever the Republican Administration chooses to do.

I think it is even more important on November 5, 1974 to remember Party labels than ever in the past. If you like the way the Republican Party office holders are running things, vote for whomever you please. But if you don't like the Presidential Pardon of Richard Nixon, amnesty for deserters and draft dodgers, the economic situation, and the way the Republicans are mishandling the affairs of our farmers and ranchers, then I urge you to join me in voting the straight Democratic Ticket next Tuesday. It is very easy to do this: just place an "X" in the square beside Democratic Party, and you don't have to do anything else except tear out the square in the upper righthand corner, write your name on the back of it, and place the stub in the little box. It is your right and privilege as a citizen to vote, and it is your duty to your farmer and rancher neighbors to try to correct the present situation in our government.

# Owls On Road To Memphis

Flute Hutsell, Chief of the Silverton Volunteer Fire Department, is pictured with Ray Starnes of Tulia, who has recently repaired and remodeled the Silverton fire truck. In the past, the truck had not pumped adequately, and the City of Silverton has spent \$9,635.34 on a new pump for the fire truck, and the Silverton Volunteer Fire Department has spent \$3,670.00 for other equipment which will help bring local fire-fighting equipment up to state standards to help Silverton residents receive a decrease in fire insurance rates. Silverton High School's Owls will travel to Memphis Friday night to play the Cyclone, currently in first place in District 2-A. Memphis' players are about the same size as the Owls this season, but the Cyclone handily disposed of the Clarendon Broncho last Friday night. The Cyclone will be heavily favored to win, but the Owls will be working for an upset. They need your support as they go against this formidable foe.

The Wellington Skyrockets were unkind guests last Friday night as they repaid Silverton's hospitality with a 35-0 defeat of the Owls.

Fullback Jim Bob Nall scored on a one-yard run in the first quarter, and the Rockets faked a kick and scored a two-point conversion on a pass from Junior Quarterback George Brewer to Neal Cochran for an 8-point advantage over the Owls. The second quarter was scoreless, and at halftime the Owls trailed by only eight points.

The Rockets came back to score twice in the third quarter, on a 30-yard run by Nall and a 10-yard run by Fullback Jesse Davis. Brewer passed to Cochran for a two-point conversion, but Kelly Cook's kick after the other touchdown was blocked by Carl Gallington and Mikel Griffin.

In the fourth quarter, Halfback Paul Hanna scored from less than a yard out and Halfback Dan Ford crossed the double stripe from about half a foot out with 15 seconds remaining to be played in the game. Each PAT failed.

Silverton's longest play of the game came after the Rockets kicked off after the last touchdown on a 47-yard pass from Quarterback Ken Wood to End Mikel Griffin.

Wellington made 23 first downs, nine in the first half and fourteen in the second half. Silverton made six first downs, all in the second half.

The Rockets were penalized 65 yards in the game, and the Owls had 73 yards stepped off against them.

Gary Storie intercepted a pass and Ken Wood recovered a fumble for the Owls, and after the game Storie checked in his equipment due to having been troubled with a back injury.

The Owls have picked up some injuries over the past few weeks. Rick Hutsell, center for the Owls, is out for the season and has been replaced by Brett Gill. Dean Ziegler was unable to play Friday night because of a neck injury, and was replaced by his brother, Brad Ziegler. Dean Ziegler is back in workout this week. Mikel Griffin has been undergo-

ing tests this week to determine if he suffered a head injury last Friday night. Zane Mayfield received an ankle injury, and has been on crutches this week.

The Junior Varsity Owls did not have a game scheduled last week or this week, and just about all of the JV boys who are eligible saw action last Friday night.

### Holland Is New Briscoe County Extension Agent

Eddie Holland of Brownfield was named the new County Extension Agent for Briscoe County effective November 11, 1974, by the Commissioners Court in a special called meeting October 21, 1974. He was introduced and recommended by District 2 Extension Agent Billy C. Gunter and Briscoe County Extension Agent Jimmy Vanstory. Holland comes to Briscoe County with a strong dedication to agriculture and programs.

Holland received his bachelor's degree in Animal Science Production and a teaching certificate in Vocational Agriculture from Texas Tech University in May of 1972. Silverton residents are urged to go to the polls to cast their votes, and the Century of Progress Study Club has a special "get out the vote" project underway next Tuesday. Transportation to the voting places will be provided by club members if you will call 823-2013 or 823-2100.

The club will also provide a blackboard on which the election returns will be posted as they come in.

### Club Offering Transportation On Election Day

The Century of Progress Study Club urges all voters to exercise their right as Americans and vote on Tuesday, November 5.

If there is a voter who needs a ride to the polls, or any help in order to get to the polls, the members will be available to assist anyone. Please call 823-2013 or 823-2100.

(Delayed From Last Week)  
 The Owls scored first and held the Clarendon Broncho Colts scoreless for a whole quarter here last Thursday. After they grudgingly gave up the first score and the Colts went ahead on the conversion points, the visitors rolled on to a 24-12 victory over the much-smaller Owls.

Dave Francis scored first on a 60-yard run around right end. Doug McJimsey's conversion run failed.

The Owls kicked to Clarendon, and on second down, Randy Elmore recovered a Colt fumble. The Colts weren't able to get anything going offensively, but Dave Francis made two good defensive plays after the ball went back to the Colts, and Tommy Perkins recovered a Clarendon fumble on the Silverton-20.

Clarendon ran a touchdown from the 10-yard line in the second quarter and added conversion points to take an 8-6 lead.

The Owls lost the ball via the fumble route on their second play after the kickoff, and Clarendon came back with a 30-yard touchdown run around right end. After making the running conversion, the Colts led the Owls 16-6.

Silverton made a first down after Doug McJimsey's good kickoff return, but the Owls were forced to punt on fourth down. The Colts fumbled and Tommy Perkins recovered for the Owls on the Clarendon-35. The Owl offense was unable to move again, punted, the Colts made a first down on their own 46, and again Tommy Perkins recovered a Colt fumble.

After kicking off to the Colts to open the second half, the Owls were unable to prevent a series of first downs which ended in a two-yard quarterback keeper for another Colt touchdown. The two-point conversion was successful, and the Colts held a 24-6 lead.

In the fourth quarter, penalties stalled the Colt drive and Kirk Durham recovered a fumble on the Clarendon-20. Doug McJimsey carried the touchdown, but Doug was unable to cross the double stripe for the two extra points, and the Owls trailed 24-12.

Silverton fumbled and Clarendon recovered on the Colt-10, and the Colts intercepted a Silverton pass and ran to the Clarendon-43 before the game ended.

Clarendon made 10 first downs, as compared with four for the Owls. The Colts also led in the penalties, being whistled for 75 yards, while the Owls had only 10 yards stepped off against them.

### Fire Department Receives \$75 Check

The Silverton Fire Department received a check for \$75.00 recently from Texas Farm Bureau Insurance Companies as an expression of thanks for the Department's work on the property of Jake Jones, Route 1, Kress, Texas.

The money will be used for their loss prevention program.

The Texas Farm Bureau Insurance Companies pay volunteer fire departments this amount when the department works at a fire in rural areas, involving property insured by them.

The insurance company believes fire departments have contributed to reduce the amount of loss involved by fire and more important, to prevent fires. It is their hope this money will help the Silverton Fire Department in its program.

You know, the worse inflation gets the more we need somebody like Briscoe. He's created a lot of good jobs and he knows how to get things started.

In times like these when the economy is so shaky, I'm going to stay with Governor Briscoe.

It's quite refreshing for me to know that we have a man like Dolph Briscoe... a man who puts integrity before all things....

Dolph Briscoe's proved he has the contacts and the know how to bring new business to the State of Texas. We can't afford to lose him at a critical time like this.

We need new jobs and more income in this state and Governor Briscoe is helping us get them.

Briscoe's kept pace without adding new taxes—I voted Republican in 1972, but I'm voting for Briscoe this time.

They all promised no new taxes; Dolph Briscoe kept his promise.

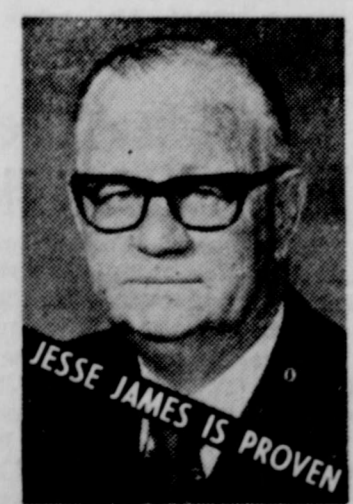

I think Dolph Briscoe is a Governor you can believe in. I'm looking forward to voting for him in November.

NEWEST FARMERS HOME PROGRAM MOVES AHEAD

J. Lynn Futch, State Director for Farmers Home Administration, Temple, Texas, has announced the promotion of Ormel I. (Jack) Boyd to Chief, Business and Industrial Programs (B&I). Boyd has served as B&I Specialist for the past

year, assisting with implementation of new guaranteed loan authorities assigned to FmHA by the Rural Development Act of 1972, Public Law 92-419.

Activity in the new program of providing loan guarantees to aid in business and industrial development in towns and cities of up to 50,000 has exceeded expectations according to Futch. He noted that eight conditional commitments to guarantee loans of \$29.2 million were authorized in the past fiscal year. Since July 1, 1974, ten commitments for \$1.6 million have been issued. Futch said 58 requests for loan guarantees of \$16.6 million are presently being evaluated or applicants have been advised to complete formal applications for final feasibility determination.

Boyd has been a member of the State Director's staff since 1968, serving as Community Programs Specialist until 1973. He completed 20 years federal service in 1974. All his service has been with FmHA except for military duty in World War II. Boyd

received special recognition in 1967 for his work with rural groups and communities on rural water systems. During 1967-68 he served as Assistant County Supervisor in Richmond, Fort Bend County. Prior to employment with FmHA, Boyd taught vocational agriculture for eight years.

Boyd is a graduate of Texas A&M University and holds BS and MS degrees in agricultural education. The new Chief, B&I Programs, is a native of Chilton, Falls County. He and his wife, the former Marjorie Beasley of Trent, Taylor County, have two sons, Don, a senior Aggie Bank member at Texas A&M, and Alan, a freshman at Tarleton State University.

Dear Charlotte,

My daughter and I recently heard a beautiful song on the car radio. It was "Pretty Things Come in Twos", and we were soon composing our own song. I led, and she answered:

- "Pretty Things Come in Twos like an April sky so blue"
- "And my kite that Daddy flew."
- "And brown eyes like yours that shine and shine."
- "And for grownups that treat you kind."
- "And red birds and humming birds small."
- "And my brother who has grown so tall."
- "And fluffy clouds so soft and white."
- "And days when I don't read nor write."
- "And one pretty thing like a package with ribbon."
- "And when I have enough pennies to make a million."
- "And sunshine and flowers, too."
- "And for a Mommy who doesn't stew!"
- "And pretty smiles and laughs, and tickles."
- "And how about ice cream and dill pickles?"
- "And bacon and eggs for a breakfast hearty."
- "And your very own slumber party."
- "Yes, dear pretty things do come in twos!"
- "Like blue jeans and tennis shoes."
- "And clean faces and the smell of soap."
- "And green grass and bumble bees."
- "And Daddy's medicine if they sting me, please."
- "And a Sunday and a family of four."
- "And the Amen and the Church door."
- "And for all pretty things whether they are two or one."
- "Let's do more, Mama, it's really fun!"

Francis failed. On their next possession, the Rockets fumbled, and the ball was covered by a host of Owls. The ball soon went back to the Rockets, and it would have been a little funny to see the Wellington ball carrier run downfield dragging Mike Cornett and Greg Hill along with him if the Silvertown fans hadn't been so sad. Wellington finished off the game by running another touchdown, but the PAT run failed.

### Junior High Owls Lose To Rockets

Silvertown's Junior High Owls suffered a 42-6 defeat in the mud at Wellington last Thursday. The Junior Owls kicked off to the Firerockets, and after two minutes of play the Rockets made a touchdown and ran the PAT over.

The Owls gave up the ball against the tough line. Greg Hill stopped a long run by the Rockets, and Wellington gave up the ball on fourth down. The Junior Owls made a first down, and when QB Kirk Durham dropped back to pass he ended up with his face mask buried in the mud.

With one minute gone in the new quarter, Wellington made another touchdown and added a conversion run.

Good defense was seen by Mike Cornett, Diji Couch and Bryan Burson on another Wellington touchdown drive. This time the conversion run failed.

Tommy Perkins made a good run-back on the after-TD kickoff. The second half opened with Wellington's kick to the Owls. Unable to crank up their offensive machine, the Owls were forced to give up the ball, and Wellington ran for another score. The extra-point try failed.

The Junior Owls tried hard for a first down against the big Rockets, but Wellington took over and ran for another touchdown. The two extra points were also added.

With two minutes gone in the fourth quarter, Kirk Durham pitched out to Doug McJimsey, who went all the way for the lone Owl score. The PAT run by Dave

## READING GOD'S WORD

The reading of God's word is a neglected love by many today. It has been too easy to forget the price paid by many in the past, to make the Bible available to all. There was a time when men were hungry for all the wonderful messages contained in God's word. The Bible is full of wisdom and the teachings that men need. "Man doth not live by bread only, but by every word that proceedeth out of the mouth of the Lord."

**EVERYONE IN THE CHURCH... THE CHURCH IN EVERYONE**

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

### Christmas Mailing Dates Recommended

Postmaster Fred A. Strange recommends the following dates by which residents of Silverton should deposit Christmas mail to the points indicated below.

Surface mail to Armed Forces in Japan, Korea and other Far East areas—October 28. Surface mail to Germany, France, etc.—November 27.

Parcel Airlift (PAL) to Japan, Korea and Germany—November 27.

Airmail parcels and cards to Japan, Korea, Germany, etc.—December 2.

Surface greeting cards within the U. S.—December 15.

Surface parcels within the U. S.—December 10.

Airmail cards and parcels within the U. S.—December 20.

Strange also offers the following tips on how to prepare the Christmas parcels for mailing.

A single item in a package should be cushioned with paper or other suitable cushioning material.

Fragile articles must be individually cushioned, and all four sides of the container should also be padded with cushioning material.

All packages should be secured with strong twine, and it should

be knotted at several intersecting points to keep it from loosening.

Each package should contain the name and address of the person to whom the package is being mailed inside the package as well as outside. An address inside is assurance that it will be received, even if the outside address should become lost or obliterated.

Be sure to put your return address on all packages and cards going out of Silverton. Also be sure that you address the packages and letters correctly, legibly, and with the correct Zip Code.

Be sure that you put only one address on the outside of a package; DO NOT put the address on more than one side.

### Shouldn't A Lawyer Tell The Truth, The Whole Truth, And Nothing But The Truth?

Farabee's Early Support Of McGovern Is Documented At Precinct 22 Convention

**Woman Nominee's Charge Heats Up State Senate Race**

But Farabee, The Candidate, Avoids The Record

What He Says: "He also denied actively supporting and working for McGovern."

What The Record Shows: Farabee's early support of McGovern is documented by his own handwriting which identifies him as a committed delegate at his precinct convention. Farabee was thus lined up for the take-over of the Democratic Party when McGovern still had only a 2% rating in the opinion polls.

#### WHAT ELSE DOES THE RECORD SHOW?

WHAT HE SAYS: "Farabee acknowledged he served as President and Vice President of the National Students Association (NSA) in the early 1950s..."

WHAT THE RECORD SHOWS: "Throughout its existence, NSA has been one of the principal vehicles for left-wing agitation and propaganda among the nation's youth. It has been a vulnerable and often willing target for infiltration by the far left..." (NSA Report)

WHAT HE SAYS: "I strongly support right to work and I believe in a concept of open shop."

WHAT THE RECORD SHOWS: The NSA constitution begins, "We, the members of the National Union of Students of the United States..." Farabee was president of this national union.

He uses clever language to avoid direct reference to the agency shop. "A concept of the open shop" is the agency shop, which requires workers to pay union dues regardless of whether they belong to a union or not.

"Agency shop" is a watered-down version of "union shop." Both are opposed to the right-to-work principle.

**DEMOCRAT FOR CONGRESS**

Governor Dolph Briscoe and Ray Farabee, Democratic nominee for the Texas Senate, take time out to look over the platform of the Texas Democratic Party. They discussed the importance of rural development and expansion of water resources as they campaigned together in the 30th district recently.

#### RAY FARABEE CONFERS WITH GOVERNOR ON ISSUES

Rural development and the need for conservation and expansion of water resources in the 30th senatorial district were two of the topics discussed recently when Ray Farabee conferred with Governor Dolph Briscoe.

Farabee, a businessman and attorney, is the Democratic nominee

for the Texas Senate from this district which includes Briscoe County. Recently Farabee and Briscoe have campaigned together in Haskell, Snyder, Vernon and Wichita Falls.

Experienced in working with businesses and industries seeking to locate in this district, Farabee advocates increased appropriations for rural development under the Texas Rural Industrial Development Act.

Throughout his campaign Farabee has talked with citizens of Briscoe County about the need to develop and maintain a favorable business climate. He is opposed to corporate and personal income taxes and favors the continuation of the right-to-work law in Texas.

According to Farabee, other important ingredients in achieving economic diversification are strong vocational education programs and broad based citizen activity to encourage and attract new businesses.

#### Helps Shrink Swelling Of Hemorrhoidal Tissues

caused by inflammation  
Doctors have found a medication that in many cases gives prompt, temporary relief from pain and burning itch in hemorrhoidal tissues. Then it actually helps shrink swelling of these tissues caused by inflammation. The answer is Preparation H. No prescription is needed for Preparation H Ointment or suppositories.

Conservation and expansion of water resources must occur if the 30th district is to expand its agricultural production to keep pace with growing consumer demand states Farabee. Briscoe and Farabee agree that efforts must continue to secure imported water for West Texas. They view a water importation plan as vital to the economic well being of Texas and the nation as a whole.

**CARD OF THANKS**

We would like to express our appreciation to the nicest people in the world—Silvertown people—for the nice things done for us during the illness and death of our brother, Glenn Fore. Thank you for the beautiful flowers, cards, telephone calls and visits. You never realize how many friends you have until you need them. Thank you again. Ed and Bob McDaniel

Thank you for the many cards, visits, flowers, phone calls and every expression of friendship and concern while I was in the hospital. May God bless each of you. Mr. and Mrs. W. E. Austry

I would like to express my appreciation to all the wonderful people who helped raise money for Ricky Hutsell and to all the people who donated money. I would especially like to thank Bud Couch, Wayne Nance, Ted Hester and sons, Ashel McDaniel and Carl Wayne Woods for providing a place for our money-making projects. I would like to thank all of the students who helped make the project a great success by contributing their time and effort. We all appreciate the great people who donated money to Rick, and hope he feels better

and is home soon. Thanks so very much. Debra Strange S. H. S.

May I take this way of saying "THANKS" to everyone for everything done for me during my stay in the hospital, and since I came home. For cards, flowers, visits, gifts, long distance calls and food.

May God richly bless each and everyone. Mae Bomar

 your new  
**Valley Water Drive**

It takes 30 minutes, and it's easy

Now, have all the advantages of the low cost Valley water drive plus reversing. It's a simple mechanical operation. You walk the length of the system, stopping at each tower to make a quick adjustment in the operating arms by pulling the pin and repositioning. It takes no more than 30 minutes. Because it's a simple mechanical adjustment, it is immune from expensive replacement or repair.

**Did you know about these Valley features?**

- Extreme rough ground capability
- New low initial cost
- No greasing
- Away from the wheels, high exhaust
- High speed operation
- 6-8-10 year leasing

**Farmers who hate big bills buy Valley**

Simplicity plus economy equals low cost now and later. Add up these facts: a Valley water drive means a system you can understand and fix yourself. It also means dirt cheap parts. Basic steel arms and drive, ceramic-lined hydraulic cylinders and valves rarely wear out. Replacement of small parts costs pennies. Galvanized protection is unguessed. That's why farmers report total maintenance of less than \$150 per season! Simplicity and volume selling mean substantial savings on initial costs too. Be sure you get a quote on a Valley before you buy.
